EPA SLN No. MO 82 0010. Rohm and Haas Co. Registration is for Dithane M–45, to be used on field grown tobacco to control blue mold. March 25, 1982.

EPA SLN No. MO 82 0011. Rohm and Haas Co. Registration is for Dithane Z–78, to be used on field grown tobacco to control blue mold. March 25, 1982.

EPA SLN No. MO 82 0012. FMC Corp. Registration is for Furadan 4 FL, to be used on soybeans to control nematodes and Mexican bean beetles (larvae). March 29, 1982.

EPA SLN No. MO 82 0013. FMC Corp. Registration is for Furadan 10 GR, to be used on soybeans to control nematodes and Mexican bean beetles. March 29, 1982.

EPA SLN No. MO 82 0014. Monsanto Co. Registration is for Roundup, to be used on grain sorghum to control certain weeds. April 5, 1982.

Montana

EPA SLN No. MT 82 0001. The Upjohn Co. Registration is for Botran 75W Fungicide, to control *Botrytis* disease in container, bare root, and greenhouse-grown conifer nursery stock. February 25, 1982.

EPA SLN No. MT 82 0002. Union Carbide Agricultural Products Co., Inc. Registration is for Brominal Broadleaf Herbicide, to be used on wheat and barley to control weeds. March 9, 1982.

EPA SLN No. MT 82 0003. Dow Chemical USA. Registration is for Dowpon M Grass Killer, to be used on Christmas trees to control grass. March 12, 1982.

EPA SLN No. MT 82 0004. Chevron Chemical Co. Registration is for Orthene Forest Spray, to be used on range and pasture grass and wheat to control grasshoppers. March 25, 1982.

EPA SLN No. MT 82 0005. Mobay Chemical Corp. Registration is for Sencor 4, to be used on lentils to control common lambsquarters, wild mustard, field pennycress (fan weed), common chickweed, henbit, and shepherd's purse. April 6, 1982.

EPA SLN No. MT 82 0006. Mobay Chemical Corp. Registration is for Sencor 50% WP, to be used on lentils to control common lambsquarters, wild mustard, field pennycress (fan weed), common chickweed, henbit, and shepherd's purse. April 6, 1982.

EPA SLN No. MT 82 0007. Mobay Chemical Corp. Registration is for Sencor DF/Sencor Sprayule, to be used on lentils to control common lambsquarters, wild mustard, field pennycress (fan weed), common chickweed, henbit, and shepherd's purse. April 6, 1982.

Nebraska

EPA SLN No. NE 82 0001. Dow Chemical USA. Registration is for Lorsban 15G GR Insecticide, to be used on field corn and popcorn to control European corn borers. February 1, 1982.

EPA SLN No. NE 82 0002. Shell Oil Co. Registration is for Bladex Herbicide, to be used on corn to control grasses and broadleaf weeds. March 17, 1982.

EPA SLN No. NE 82 0003. Shell Chemical Co. Registration is for Bladex Herbicide, to be used on corn to control grasses and broadleaf weeds. March 16, 1982.

EPA SLN No. NE 82 0004. Philips Roxane, Inc. Registration is for Golden Sun Insecticide-10, to be used as a barn and premise fly spray for beef cattle, dairy cattle, horses, sheep, swine, pets, and poultry. March 17, 1982.

EPA SLN No. NE 82 0005. Shell Chemical Co. Registration is for Shell Bladex 80W, to be used on corn to control grasses and broadleaf weeds. March 17, 1982.

EPA SLN No. NE 82 0006. Shell Chemical Co. Registration is for Shell Bladex 4L, to be used on corn to control grasses and broadleaf weeds. March 17, 1982.

EPA SLN No. NE 82 0007. Burroughs Wellcome Co. Registration is for Wellcome Insecticide Ear Tag, to be used on dairy and beef cattle and calves to control horn flies, face flies, Gulf Coast ticks, and spinose ear ticks. March 17, 1982.

EPA SLN No. NE 82 0008. Shell Chemical Co. Registration is for Shell Bladex 80W, to be used on field corn or grain sorghum to control weeds. March 17, 1982.

EPA SLN No. NE 82 0009. Monsanto Co. Registration is for Roundup Herbicide, to be used on sorghum (milo) to control weeds. March 17, 1982.

EPA SLN No. NE 82 0012. Mobay Chemical Corp. Registration is for Amaze 20% GR, to be used on corn (field, sweet, and pop) to control nematodes. March 17, 1982.

Nevada

EPA SLN No. NV 82 0001. J. R. Simplot Co. Registration is for Sim-Tec 0.50-Potato Seed Treater, to be used on potatoes to control *Fusarium* decay. January 7, 1982.

EPA SLN No. NV 82 0008. FMC Corp. Registration is for Diazinon 3 Dust, to be used on household pests to control resistant and non-resistant cockroaches, ants, silverfish, carpet beetles, spiders, and scorpions. April 14, 1982.

New Hampshire

EPA SLN No. NH 82 0001. Hopkins Agricultural Chemical Co. Registration is for Hopkins Quintar 5F, to be used on apples to control scab. February 24, 1982.

EPA SLN No. NH 82 0002. Mobay Chemical Corp. Registration is for Oftanol 5% GR, to be used on turf grasses to control white grub larvae. March 30, 1982.

New Jersey

EPA SLN No. NJ 82 0001. O. M. Scott and Sons Co. Registration is for Proturf Insecticide 4, to be used on cool season grasses only to control sod webworms, chinch bugs, mole crickets, and hyperodes weevils. January 28, 1982.

EPA SLN No. NJ 82 0002. FMC Corp. Registration is for Furadan 4 Fl, to be used on sweet corn to control European corn borers. March 9, 1982.

EPA SLN No. NJ 82 0003. FMC Corp. Registration is for Furadan 10 GR, to be used on sweet corn to control flea beetles, northern corn rootworms, and menematodes. March 9, 1982.

EPA SLN No. NJ 82 0004. Chevron Chemical Co. Registration is for Orthocide 50 Wettable and Orthocide 80 Wettable, to be used on blueberries to control anthracnose fruit rot and *Botrytis* gray mold. March 29 1982.

EPA SLN No. NJ 82 0005. Ciba-Geigy Corp. Registration is for Supracide 2E Insecticide-Miticide, to be used as a prebloom application on apples to control San Jose scale and rosy apple aphids. April 13, 1982.

EPA SLN No. NJ 82 0006. Dow Chemical USA. Registration is for Lorsban 4E Insecticide, to be used on onions to control maggots (dry bulb). April 16, 1982.

EPA SLN No. NJ 82 0007. Dow Chemical USA. Registration is for Lorsban 15G GR Insecticide, to be used on onions to control maggots, (dry bulb). April 16, 1982.

New Mexico

EPA SLN No. NM 82 0001. T.H. Agriculture and Nutrition Co., Inc. Registration is for DED-Weed Sulvamine, to be used on pasture, rangeland, and non-crop fallow land to control weeds. February 15, 1982.

EPA SLN No. NM 82 0002. Dow Chemical USA. Registration is for Grazon PC Herbicide, to be used on rangeland and permanent grass pastures to control broadleaf weeds. February 23, 1982.

EPA SLN No. NM 82 0003. Dow Chemical USA. Registration is for Grazon P+D Herbicide, to be used on rangeland and permanent grass pastures to control weeds. February 23, 1982.

EPA SLN No. NM 82 0004. Pennwalt Corp. Registration is for Penncap-M Insecticide, to be used on wheat to control armyworms, greenbugs, grasshoppers, leafhoppers, and aphids. January 25, 1982.

EPA SLN No. NM 82 0005. Chevron Chemical Co. Registration is for Ortho Paraquat CL, to be used on alfalfa to control tansy mustard. February 16, 1982.

EPA SLN No. NM 82 0006. Bell Laboratories, Inc. Registration is for P.C.Q. Rat and Mouse Bait, to be used in orchards and groves to control pine and meadow mice. March 25, 1982.

EPA SLN No. NM 82 0007. ICI Americas Inc. Registration is for Ambush 4E–EC, to be used on cotton to control bollworms, budworms, pink bollworms, lygus bugs, cabbage loopers, cotton leaf perforators, boll weevils, cotton fleahoppers, whiteflies, and cotton aphids. March 9, 1982.

EPA SLN No. NM 82 0008. Mobay Chemical Corp. Registration is for Monitor 4 to be used on peppers to control green peach aphids, leafminers, thrips, and flea beetles. March 22, 1982.

EPA SLN No. NM 82 0009. Mobay Chemical Corp. Registration is for Guthion 2 FL, to be used on alfalfa to control alfalfa weevils, leafhoppers, mites, Egyptian alfalfa weevils, alfalfa plant bugs, fleahoppers, grasshoppers, lygus bugs, and spittlebugs. April 7, 1982.

EPA SLN No. NM 82 00010. Monsanto Co. Registration is for Roundup, to be used on grain sorghum to control weeds. March 29, 1982.

EPA SLN No. NM 82 00011. Mobay Chemical Corp. Registration is for Bayleton 50% WP, to be used on nonbearing apple trees to control powdery mildew. April 14, 1982.

EPA SLN No. NM 82 00013. ICI Americas Inc. Registration is for Gramoxone Paraguat Herbicide, to be used on alfalfa to control tansy mustard. April 30, 1982.

New York

EPA SLN No. NY 82 0001. Ciba-Geigy Corp. Registration is for Evik 80W Herbicide, to be used on potatoes for vine desiccation. March 5, 1982.

EPA SLN No. NY 82 0002. Burroughs Wellcome Co. Registration is for atroban Cattle Ear Tags, to be used on dairy and beef cattle and calves to control horn flies, face flies, Gulf Coast ticks, spinose ear ticks, stable flies, and houseflies. March 22, 1982.

EPA SLN No. NY 82 0003. T–Tex Corp. Registration is for Gardstar, to be used on beef cattle, calves, and on dairy cattle including lactating dairy cattle to control horn flies, face flies, Gulf Coast ticks, spinose ear ticks, stable flies, and houseflies. March 22, 1982.

EPA SLN No. NY 82 0004. O.M. Scott and Sons Co. Registration is for Proturf Insecticide 4, to be used on golf course fairways and putting greens to control insects. March 24, 1982.

EPA SLN No. NY 82 0005. FMC Corp. Registration is for Furadan 10 GR, to be used on sweet corn to control flea beetles, northern corn rootworms, and nematodes. April 7, 1982.

EPA SLN No. NY 82 0006. Dow Chemical USA. Registration is for Lorsban 4E Insecticide, to be used on onions (dry bulb) to control maggots. April 16, 1982.

EPA SLN No. NY 82 0007. Dow Chemical USA. Registration is for Lorsban 15G GR Insecticide, to be used on onions (dry bulb) to control maggots. April 16, 1982.

EPA SLN No. NY 82 0008. Mobay Chemical Corp. Registration is for Oftanol 5% GR, to be used on turf grasses to control insects. April 23, 1982.

North Carolina

EPA SLN No. NC 82 0001. North Carolina Department of Agriculture. Registration is for Progrow Ornamental Herbicide II, to be used on container and field-grown ornamentals to control

grassy weeds and broadleaf weeds. February 9, 1982.

EPA SLN No. NC 82 0002. Dow Chemical USA. Registration is for Dowfume-100, Dowfume-90, and Dowfume-85, to be used on soybeans to control certain nematodes including root-knot, lesion, sting, lance, and dagger. February 15, 1982.

EPA SLN No. NC 82 0003. Ameribrom, Inc. Registration is for Edabrom 85, to be used on soybeans to control certain nematodes. February 23, 1982.

EPA SLN No. NC 82 0004. Vertac Chemical Corp. Registration is for Vertac Premerge 3 Dinitro Amine Herbicide, to be used on peanuts to control broadleaf weeds. March 5, 1982.

EPA SLN No. NC 82 0005. Hess and Clark, Inc. Registration is for Insectrin EC, to be used on livestock premises to control flies. March 5, 1982.

EPA SLN No. NC 82 0006. Chevron Chemical Co. Registration is for Orthene Tobacco Insect Spray, to be used on tobacco to control flea beetles. March 19, 1982.

EPA SLN No. NC 82 0007. Union Carbide Agriculture Products Co., Inc. Registration is for Ethrel Plus Sevin Tank Mixture, to be used for thinning spur "Delicious" apples. March 19, 1982.

EPA SLN No. NC 82 0008. Union Carbide Agricultural Products, Co., Inc. Registration is for Temik 15G GR Aldicarb Pesticide, to be used on tobacco (flue-cured only) to control aphids and flea beetles. March 24, 1982.

EPA SLN No. NC 82 0009. Uniroyal Inc. Registration is for Royal MH–30, to be used on flue-cured tobacco as a sucker control. April 22, 1982.

EPA SLN No. NC 82 0010. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide (+2,4-D), to be used on corn and fallow land to control witchweed and grassy weeds. April 26, 1982.

EPA SLN No. NC 82 0011. E.I. du Pont de Nemours and Co. Registration is for Du Pont Lannate Insecticide, to be used on eggplants to control *Heliothis* spp. April 26, 1982.

EPA SLN No. NC 82 0012. E.I. du Pont de Nemours and Co. Registration is for Du Pont Lannate L Insecticide, to be used on eggplants to control corn earworms and beet armyworms. April 26, 1982.

EPA SLN No. NC 82 0013. Mobay Chemical Corp. Registration is for Guthion 2 FL, to be used on cotton to control boll weevils. April 27, 1982.

North Dakota

EPA SLN No. ND 82 0001. U.S. Fish and Wildlife Service. Registration is for strychnine alkaloid, to be used on waterfowl nesting habitats on federally owned lands to control Franklin ground squirrels. January 25, 1982.

EPA SLN No. ND 82 0002. FMC Corp. Registration is for Furadan 10 GR, to be used on sugar beets to control sugar beet root maggots. February 19, 1982.

EPA SLN No. ND 82 0003. Union Carbide Agricultural Products Co., Inc. Registration is for Brominal Broadleaf Herbicide, to be used on wheat and barley to control broadleaf weeds. March 1, 1982.

EPA SLN No. ND 82 0004. Chevron Chemical Co. Registration is for Ortho Paraquat CL, to be used on no-till sunflowers to control broadleaf weeds and grasses. March 8, 1982.

EPA SLN No. ND 82 0005. Mobay Chemical Corp. Registration is for Furadan 10 GR, to be used on sugar beets to control sugar beet root maggots. March 30, 1982.

EPA SLN No. ND 82 0006. Merck and Co., Inc. Registration is for Mertect 340–F, to be used on sugar beets to control *Cercospora* leaf spot. April 14, 1982.

EPA SLN No. ND 82 0007. ICI Americas Inc. Registration is for gramoxone Paraquat Herbicide, to be used on no-till sunflowers to control emerged annual broadleaf weeds and grasses. April 27, 1982.

EPA SLN No. NO 82 0008. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide, to be used on sunflowers, oilseed varieties, for desiccation of sunflower plants and broadleaf weeds and grasses to facilitate harvesting. April 27, 1982.

Ohio

EPA SLN No. OH 82 0001. Cities Service Co. Registration is for Citco Copper Sulfate Powdered Instant Bluestone, to be used on apples to control fire blight. January 14, 1982.

EPA SLN No. OH 82 0002. Cities Service Co. Registration is for Citco Copper Sulfate Snow Crystals, to be used on apples to control fire blight. January 14, 1982.

EPA SLN No. OH 82 0003. O. M. Scott and Sons Co. Registration is for Proturf Insecticide 4, to be used on turf grass to control insects. January 19, 1982.

EPA SLN No. OH 82 0004. Ciba-Geigy Corp. Registration is for Ridomil 2E Fungicide to be used on nonbearing apple trees to control collar rot. January 21, 1982.

EPA SLN No. OH 82 0005. Burroughs Wellcome Co. Registration is for Wellcome Insecticide Ear Tags, to be used on dairy and beef cattle and calves to control horn flies, face flies, Gulf Coast ticks, and spinose ear ticks. February 9, 1982.

EPA SLN No. OH 82 0006. Pfizer Inc. Registration is for Mycoshield Brand of Agricultural Terramycin, to be used on pears to control fire blight, and on peaches to control bacterial spot. March 30, 1982.

EPA SLN No. OH 82 0007. FMC Corp. Registration is for Furadan 10G-Inserticide/Nematicide, to be used on cucurbits (cucumbers, melons, squash, and pumpkins) to control nematodes and cucumber beetles. April 6, 1982.

EPA SLN No. OH 82 0008. FMC Corp. Registration is for Furadan 10G-Insecticide/Nematicide, to be used on sweet corn to control flea beetles, corn rootworms, and nematodes. April 8, 1982.

EPA SLN No. OH 82 0009. FMC Corp. Registration is for Furadan 4F Insecticide, to be used on sweet corn to control corn earworms and European corn borers. April 8, 1982.

EPA SLN No. OH 82 0010. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide, to be used on alfalfa between cuttings to control weeds. April 28, 1982.

EPA SLN No. OH 82 0011. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide, to be used on no-till sunflowers to control broadleaf weeds and grasses. April 28, 1982.

Oklahoma

EPA SLN No. OK 82 0001. Philips Roxane, Inc. Registration is for Bioceutic Overtime L/P Long Acting Livestock and Premise Insecticide, to be used as a livestock and poultry barn and premise fly spray. February 8, 1982.

EPA SLN No. OK 82 0002. Philips Roxane, Inc. Registration is for Anchor Permectrin 10 percent EC II Long Lasting Livestock and Primise Spray, to be used as a livestock and poultry barn and premise fly spray. February 8, 1982.

EPA SLN No. OK 82 0003. Mobay Chemical Corp. Registration is for Furadan 4 FL, to be used on alfalfa to control spotted alfalfa aphids. January 5, 1982.

EPA SLN No. OK 82 0004. Dow Chemical USA. Registration is for Grazon PC Herbicide, to be used on range and permanent pasture to control weeds. February 26, 1982.

EPA SLN No. OK 82 0005. Dow Chemical USA. Registrations for Grazon P+D Herbicide, to be used on range and permanent pasture to control weeds. Febrauary 26, 1982.

EPA SLN No. OK 82 0006. Fairfield American Corp. Registration is for Permanone Tick Repellent, to be used on outer clothing to control ticks, chiggers and mosquitoes. (CUP). February 26, 1982.

EPA SLN No. OK 82 0007. ICI Americans Inc. Registration is for Ambush 4E, to be used on cotton to control insects. March 17, 1982.

EPA SLN No. OK 82 0008. T.H. Agriculture and Nutrition Co., Inc. Registration is for Ded–Weed Sulvamine, to be used on wheat, barley, and rye to control broadleaf weeds. March 18, 1982.

EPA SLN No. OK 82 0009. Rohm and Haas Co. Registration is for Blazer 2S Herbicide, to be used on soybeans for post-emergence weed control. March 22, 1982.

EPA SLN No. OK 82 0010. Monsanto Co. Registration is for Roundup, to be used on sorghum to control weeds. April 14, 1982.

EPA SLN No. OK 82 0011. FMC Corp. Registration is for Furadan 10GR, to be used on soybeans to control nematodes at planting time. April 14, 1982.

EPA SLN No. OK 82 0011. FMC Corp. Registration is for Furadan 4FL, to be used on soybeans to control nematodes at planting time. April 14, 1982.

EPA SLN No. OK 82 0013. Mobay Chemical Corp. Registration is for Oftanol 5% GR, to be used on turf grasses to control white grub larvae. April 21, 1982.

EPA SLN No. OK 82 0014. Sandoz, Inc. Registration is for Solicam 80WP, to be used on non-bearing pecan trees to control weeds and grass. April 22, 1982.

EPA SLN No. OK 82 0015. Dow Chemical USA. Registration is for Butoxy Propyl Ester No. 1, to be used on rangeland and non-crop sites to control broadleaf weeds and woody plants. April 30, 1982.

Oregon

EPA SLN No. OR 82 0001. Dow Chemical USA. Registration is for Lorsban 4E Insecticide, to be used on non-bearing grapevines to control cutworms. January 5, 1982.

EPA SLN No. OR 82 0002. J. R. Simplot Co. Registration is for Sim-Tic 0.50-Potato Seed Treater, to be used on potatoes as a seed treater. January 5, 1983.

EPA SLN No. OR 82 0003. Univar. Registration is for Namco Chloropicrin, to be used on utility poles, piles, and timbers in bridges to control wood-decaying fungi and wood-boring insects in the interiors of structural wood products. January 29, 1982.

EPA SLN No. OR 82 0004. O. M Scott and Sons. Registration is for Progrow Ornamental Herbicide II, to be used on container- and field-grown ornamentals for pre-emergence control of weeds. February 3, 1982.

EPA SLN No. OR 82 0005. Union Carbide Agricultural Products Co. Registration is for Weedone 170, to be used for control of mixed susceptible brush species for conifer release (other than pine). February 23, 1982.

EPA SLN No. OR 82 0006. Wilbur-Ellis Co. Registration is for Red-Top dimethoate 2.67 EC, to be used on grass grown for seed to control mites. March 9, 1982.

EPA SLN No. OR 82 0007. Wilbur-Ellis Co. Registration is for Red-Top dimethoate, to be used on grass grown for seed to control mites. March 9, 1982.

EPA SLN No. OR 82 0008. Rohm and Haas Co. Registration is for Dithane M-45FL, to be used on onions (dry bulb) to control onion smut. March 9, 1982.

EPA SLN No. OR 82 0009. Rohm and Haas Co. Registration is for Dithane M-45, to be used on onions (dry bulb) to control onion smut. March 9, 1982.

EPA SLN No. OR 82 0010. Rohm and Haas Co. Registration is for Dithane M-45FL M, to be used on onions (dry bulb) to control onion smut. March 9, 1982.

EPA SLN No. OR 82 0011. Elanco Products Co. Registration is for Treflan Mt.F., to be used on radishes grown for seed to control weeds. March 9, 1982.

EPA SLN No. OR 82 0012. Elanco Products Co. Registration is for Treflan EC, to be used on radishes grown for seed to control weeds. March 9, 1982.

EPA SLN No. OR 82 0013. Union Carbide Agricultural Products Co., Inc. Registration is for Brominal Broadleaf Herbicide, to be used on wheat and barley to control weeds. March 23, 1982.

EPA SLN No. OR 82 0014. Dexol Industries. Registration is for Dexol Diazinon Insect Spray (contains 25% Diazinon), to be used on lawns to control European crane flies. March 23, 1982.

EPA SLN No. OR 82 0015. Mobay Chemical Corp. Registration is for Sencor 50% WP, to be used on lentils to control broadweeds, common lambsquarters, wild mustard, field pennycress (fan weed), common chickweed, henbit, and shepherd's purse. March 24, 1982.

EPA SLN No. OR 82 0016. Mobay Chemical Corp. Registration is for Sencor DF/Sencor Sprayule, to be used on lentils to control broadleaf weeds. March 24, 1982.

EPA SLN No. OR 82 0017. Mobay Chemical Corp. Registration is for Sencor 4, to be used on lentils to control broadleaf weeds. March 24, 1982.

EPA SLN No. OR 82 0018. E. I. du Pont de Nemours and Co. Registration is for Du Pont Vydate L Insecticide/Nematicide to be used on pears to control the European red mite, pear rust mite, McDaniel mite, and two-spotted spider mite. March 29, 1982.

EPA SLN No. OR 82 0019. Dow Chemical USA. Registration is for Lorsban 4E Insecticide, to be used on onions to control maggots. April 16, 1982.

EPA SLN No. OR 82 0020. Dow Chemical USA. Registration is for Lorsban 15G GR Insecticide, to be used on onions to control maggots. April 16, 1982.

EPA SLN No. OR 82 0021. EM Industries, Inc. Registration is for Funginex 18.2% EC, to be used on cranberries to control cotton balls caused by *Monilinia oxycocci*. March 29, 1982.

EPA SLN No. OR 82 0022. Vertac Chemical Corp. Registration is for Vertac Dinitro Weed Killer 5, to be used on potato vines for preharvest desiccation. April 5, 1982.

EPA SLN No. OR 82 0023. Vertac Chemical Corp. Registration is for Vertac Dinitro Weed Killer 5, to be used on alfalfa, clover, and trefoil grown for seed, for preharvest desiccation. April 5, 1982.

EPA SLN No. OR 82 0024. Vertac Chemical Corp. Registration is for Vertac General Weed Killer, to be used on potato vines for preharvest desiccation. April 5, 1982.

EPA SLN No. OR 82 0025. Vertac Chemical Corp. Registration is for Vertac General Weed Killer, to be used on alfalfa, clover, and trefoil grown for seed for preharvest desiccation. April 5, 1982.

EPA SLN No. OR 82 0026. T.H. Agriculture and Nutrition Co., Inc. Registration is for De-Fend E–267 Insecticide, to be used on ornamental shade and nursery trees to control aphids, borers, and other insects. April 8, 1982.

EPA SLN No. OR 82 0027. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide, to be used on garlic as a pre-emergence treatment. April 19, 1982.

EPA SLN No. OR 82 0028. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide, to be used on winter wheat only, for volunteer rye and downy brome suppression. April 19, 1982.

EPA SLN No. OR 82 0029. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide, to be used on pasture reseeding west of the Cascade Mountains to control broadleaf weeds and grasses. April 19, 1982.

EPA SLN No. OR 82 0030. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide, to be used on alfalfa and clover for desiccation of ryegrass, bluegrass,

cheatgrass, dog fennel, chickweed, and tansy mustard. April 19, 1982.

EPA SLN No. OR 82 0031. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide-Sencor Sprayule, to be used on wheat-fallow-wheat rotation to control weeds. April 19, 1982.

EPA SLN No. OR 82 0032. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide-Sencor WP, to be used on wheat-fallow-wheat rotation to control weeds. April 19, 1982.

EPA SLN No. OR 82 0033. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide-Sencor 4 FL, to be used on wheat-fallow-wheat rotation to control weeds. April 19, 1982.

EPA SLN No. OR 82 0034. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide-Sencor 50W, to be used on alfalfa to control bluegrass, chickweed, henbit, downy brome, cheat, Japanese brome, rescue grass, and shepherd's purse. April 19, 1982.

EPA SLN No. OR 82 0035. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide-Sencor Sprayule, to be used on alfalfa to control bluegrass, chickweed, henbit, downy brome, cheat, Japanese brome, rescue grass, and shepherd's purse. April 19, 1982.

EPA SLN No. OR 82 0036. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide-Sencor 4 FL, to be used on alfalfa to control weeds. April 19, 1982.

EPA SLN No. OR 82 0037. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide to be used on potatoes after planting as a pre-emergence treatment. April 19, 1982.

EPA SLN No. OR 82 0038. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide-Chem-Hoe 135, to be used on wheat to control weeds. April 19, 1982.

EPA SLN No. OR 82 0039. T.H. Agriculture and Nutrition Co., Inc. Registration is for De-Fend E-267 Insecticide, to be used on grass seed crops to control aphids, thrips, and plant bugs. April 19, 1982.

EPA SLN No. OR 82 0040. FMC Corp. Registration is for Dimethoate 267, to be used on cherries to control cherry fruit flies. April 22, 1982.

Pennsylvania

EPA SLN No. PA 82 0001. Philips Roxane, Inc. Registration is for Biocentic Overtime L/P Long Acting Livestock and Premise Insecticide, to be used on livestock and poultry and their premises to control house flies, face flies, and other manure-breeding flies. January 13, 1982.

EPA SLN No. PA 82 0002. Philips Roxane, Inc. Registration is for Anchor Permectrin 10% EC II Long Lasting Livestock and Premise Spray, to be used on livestock and poultry and their premises to control house flies, face flies, and other manure-breeding flies. January 13, 1982.

EPA SLN No. PA 82 0003. Shell Chemical Co. Registration is for Nudrin 1.8 Methomyl Insecticide Solution, to be used on watercress to control diamondbacks, moths, and cabbage loopers. January 25, 1982.

EPA SLN No. PA 82 0004. Dow Chemical USA. Registration is for Lorsban 4E Insecticide, to be used on tobacco to control larvae of cutworms, flea beetles, root maggots, and wireworms. February 9, 1982.

EPA SLN No. PA 82 0005. Dow Chemical USA. Registration is for Lorsban 15G GR, to be used on tobacco to control larvae of cutworms, flea beetles, root maggots, and wireworms. February 9, 1982.

EPA SLN No. PA 82 0006. Shell Chemical Co. Registration is for Vaponite 2 Emulsifiable Insecticide, to be used on mushroom houses to control phorid flies. February 17, 1982.

EPA SLN No. PA 82 0007. Burroughs Wellcome Co. Registration is for Atroban Cattle Ear Tags, to be used on beef and dairy cattle to repeal flies, face flies, and ticks. March 17, 1982.

EPA SLN No. PA 82 0008. Y-Tex Corp. Registration is for Insecticide Tag for Dairy and Beef Cattle, to be used as ear tags to control horn flies, face flies, Gulf Coast ticks, and spinose ear ticks. March 17, 1982.

EPA SLN No. PA 82 0009. O.M. Scott and Sons. Registration is for Proturf Insecticide 4, to be used on cool season grasses to control white grubs, sod webworms, chinch bugs, mole crickets, and hyperodes weevils. March 26, 1982.

EPA SLN No. PA 82 0010. FMC Corp. Registration is for Furadan 4 FL, to be used on sweet corn to control European corn borers. March 28, 1982.

EPA SLN No. PA 82 0011. FMC Corp. Registration is for Furadan 10 GR, to be used on sweet corn to control various pests. March 28, 1982.

EPA SLN No. PA 82 0012. Vertac Chemical Corp. Registration is for Vertac General Weed Killer, to be used for potato vine desiccation. March 31, 1982.

EPA SLN No. PA 82 0013. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide, to be used on dormant alfalfa to control weeds and grass. April 28, 1982.

EPA SLN No. PA 82 0014. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide, to be used on alfalfa between cuttings to control weeds. April 28, 1982.

EPA SLN No. PA 82 0015. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide, to be used on oats as a preplant and pre-emergence treatment. April 28, 1982.

Puerto Rico

EPA SLN No. PR 81 0008. Monsanto Co. Registration is for Roundup, to be used on plantains and bananas to control weeds. December 15, 1981.

EPA SLN No. PR 81 0009. Union Carbide Agricultural Products Co., Inc. Registration is for Temik 10G Aldicarb Pesticide, to be used on bananas and plantains to control nematodes. December 15, 1981.

EPA SLN No. PR 82 0001. Chevron Chemical Co. Registration is for Monitor 4 Spray, to be used on melons to control the rindworm complex (cabbage looper, tabacco budworm, and granulate cutworm), and melonworms, pickleworms, and leaf miners. March 4, 1982.

Rhode Island

EPA SLN No. RI 82 0001. Rhode Island Division of Agriculture. Registration is for Proturf Insecticide 4, to be used on turf grasses to control insects. January 17, 1982.

South Carolina

EPA SLN No. SC 82 0001. Ameribrom, Inc. Registration is for Edabrom 85, to be used on soybeans to control nematodes. January 5, 1982.

EPA SLN No. SC 82 0002. Helena Chemical Co. Registration is for Hel-Fire, to be used on tomato crops as an aid to the desiccation of tomato crop residue. January 26, 1982.

EPA SLN No. SC 82 0003. The O.M. Scott and Sons Co. Registration is for Progrow Ornamental Herbicide II, to be used on container- and field-grown ornamentals to control weeds. February 3, 1982.

EPA SLN No. SC 82 0004. Great Lakes Chemical Corp. Registration is for Soilbrom-90, to be used on Bermudagrass (ornamental turf) to control sting, lance, and ring nematodes, and mole crickets and white grubs. February 26, 1982.

EPA SLN No. SC 82 0008. Fairfield American Corp. Registration is for Permonone Tick Repellent, to be used on outer clothing to control ticks, chiggers, and mosquitoes. April 30, 1982.

EPA SLN No. SC 82 0009. Dow Chemical U.S.A. Registration is for Lorsban 4E Insecticide, to be used on tobacco to control cutworms. April 30, 1982.

EPA SLN No. SC 82 0010. Dow Chemical U.S.A. Registration is for Lorsban 15G GR, to be used on tobacco to control cutworms. April 30, 1982.

EPA SLN No. SC 82 0011. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide-2,4-D, to be used on corn to control witchweed. April 30, 1982.

South Dakota

EPA SLN No. SD 82 0001. Dow Chemical U.S.A. Registration is for Lorsban 15 G GR Insecticide, to be used on field corn and popcorn to control European corn borers. February 19, 1982.

EPA SLN No. SD 82 0002. Mobay Chemical Corp. Registration is for Oftanol 5 percent GR, to be used on turf grasses to control white grub larvae. February 19, 1982.

EPA SLN No. SD 82 0003. Degesch America, Inc. Registration is for Degesch Phostoxin New Coated Tablets-R, to be used as a burrowing rodent control to control black-tailed prairie dogs. February 19, 1982.

EPA SLN No. SD 82 0004. Philips Roxane, Inc. Registration is for Golden Sun Secticide-10, to be used on livestock and poultry to control house flies, face flies, stable flies, and false stable flies. April 20, 1982.

Tennessee

EPA SLN No. TN 82 0001. FMC Corp. Registration is for Furadan 10 GR, to be used on young pine plantations and pines grown for Christmas trees to control Nantucket pine tip moths. January 4, 1982.

EPA SLN No. TN 82 0002. The O.M. Scott and Sons Co. Registration is for Progrow Ornamental Herbicide II, to be used on container- and field-grown ornamentals to control weeds. January 22, 1982.

EPA SLN No. TN 82 0003. Burroughs Wellcome Co. Registration is for Atroban Cattle Ear Tags, to be used on dairy and beef cattle and calves to control horn flies, face flies, spinose ear ticks, stable flies and house flies. January 25, 1982.

EPA SLN No. TN 82 0004. Y-Tex Corp. Registration is for Insecticide Tag for Dairy and Beef Cattle, to be used as an ear tag to control horn flies, face flies, Gulf Coast ticks, spinose ear ticks, stable flies, and house flies on beef cattle including calves, and on dairy cattle including lactating dairy cattle. January 25, 1982.

EPA SLN No. TN 82 0005. Fairfield American Corp. Registration is for Permanone Tick Repellent, to be used on outer clothing to control ticks, chiggers, and mosquitoes. (CUP). February 2, 1982.

EPA SLN No. TN 82 0006. FMC Corp. Registration is for Furadan 10 GR, to be used on soybeans to control nematodes. February 24, 1982.

EPA SLN No. TN 82 0007. FMC Corp. Registration is for Furadan 4 FL, to be used on soybeans to control nematodes. February 24, 1982.

EPA SLN No. TN 82 0008. Dow Chemical USA. Registration is for Dowfume W–85 High-Strength Soil Fumigant, to be used on soybeans to control nematodes including lance, lesion, root-knot, spiral, and sting. February 26, 1982.

EPA SLN No. TN 82 0009. Dow Chemical USA. Registration is for Dowfume W–60 High-Strength Soil Fumigant, to be used on soybeans to control nematodes including lance, lesion, root-knot, spiral, and sting. February 26, 1982.

EPA SLN No. TN 82 0010. Dow Chemical Co. Registration is for Dowfume W–100 Full Strength Soil Fumigant, to be used on soybeans to control nematodes including lance, lesion, root-knot, spiral, and sting. February 26, 1982.

EPA SLN No. TN 82 0011. Chevron Chemical Co. Registration is for Orthene Tobacco Insect Spray, to be used on tobacco transplants to control flea beetles. March 1, 1982.

Texas

EPA SLN No. TX 82 0001. Sandoz, Inc. Registration is for Solicam 80 WP Herbicide, to be used on peach and plum orchards to control weeds and grasses. January 15, 1982.

EPA SLN No. TX 82 0002. Mobay Chemical Corp. Registration is for Oftanol 5% GR, to be used on turf grasses to control white grub larvae. February 2, 1982.

EPA SLN No. TX 82 0003. FMC Corp. Registration is for Furadan 10 GR, to be used on sunflowers grown for seed to control stem weevils. February 3, 1982.

EPA SLN No. TX 82 0004. O.M. Scott and Sons Co. Registration is for Progrow Ornamental Herbicide II, to be used on container- and field-grown ornamentals to control weeds. February 4, 1982.

EPA SLN No. TX 82 0005. E.I. du Pont de Nemours and Co. Registration is for Du Pont Vydate L Insecticide/ Nematicide to be used on cotton to control boll weevils and cotton fleahoppers. February 5, 1982.

EPA SLN No. TX 82 0006. Dow Chemical USA. Registration is for Grazon PC Herbicide, to be used on rangeland and permanent grass pastures to control broadleaf annual and perennial weeds. February 10, 1982.

EPA SLN No. TX 82 0007. Dow Chemical USA. Registration is for Grazon P+D Herbicide, to be used on rangeland and permanent grass pastures to control broadleaf annual and perennial weeds. February 10, 1982.

EPA SLN No. TX 82 0008. Penick Corp. Registration is for SBP–1382 4.22 MF Mineral Oil Spray, to be used as an aerial application to control mosquitoes. February 24, 1982.

EPA SLN No. TX 82 0009. Merck and Co., Inc. Registration is for Arbotect S, to be used on live oak trees to control oak decline. February 24, 1982.

EPA SLN No. TX 82 0010. Chevron Chemical Co. Registration is for Bolero 6 EC, to be used on dry-seeded rice to control weeds. February 25, 1982.

EPA SLN No. TX 82 0011. T.H. Agriculture and Nutrition Co., Inc. Registration is for Ded-Weed Sulvamine, to be used on wheat (fall or spring sown), barley, and rye to control weeds. March 18, 1982.

EPA SLN No. TX 82 0012. Mobay Chemical Corp. Registration is for Furadan 10 GR, to be used on sunflowers grown for seed production to control stem weevils. March 29, 1982.

EPA SLN No. TX 82 0013. Fairfield American Corp. Registration is for Permanone Tick Repellent, for use on clothing to repel ticks, chiggers, and mosquitoes. (CUP). April 2, 1982.

EPA SLN No. TX 82 0014. Dow Chemical USA. Registration is for Butoxy Propyl Ester Mix No. 1, to be used on rangeland and non-crop sites to control broadleaf weeds and woody plants. April 2, 1982.

EPA SLN No. TX 82 0015. Pennwalt Corp. Registration is for Knox Out 2FM Insecticide, to be used on lawns and other recreation areas to control fire ants. April 2, 1982.

EPA SLN No. TX 82 0016. ICI Americas Inc. Registration is for Ambush 4E–EC, to be used on cotton to control boll weevils, tobacco budworms, cabbage loopers, bollworms, lygus bugs, cotton aphids, and whiteflies. April 6, 1982.

EPA SLN No. TX 82 0017. Mobay Chemical Corp. Registration is for Monitor 4, to be used on peppers to control green peach aphids, leafminers, thrips, and flea beetles. April 6, 1982.

EPA SLN No. TX 82 0018. Shell Chemical Co. Registration is for Azodrin 5 Water Miscible Insecticide, to be used on tomatoes to control aphids, leafminers, cabbage loopers, and tomato fruitworms. April 8, 1982.

EPA SLN No. TX 82 0019. Rohm and Haas Co. Registration is for Dithane M–45, to be used on wheat to control wheat rust. April 8, 1982.

Utah

EPA SLN No. UT 82 0001. Mobay Chemical Corp. Registration is for Oftanol 5% GR, to be used on turf grasses to control white grub larvae. February 19, 1982.

EPA SLN No. UT 82 0002. Union Carbide Agricultural Products Co., Inc. Registration is for Brominal Broadleaf Herbicide, to be used on wheat and barley to control broadleaf weeds. February 22, 1982.

EPA SLN No. UT 82 0003. Bell Laboratories, Inc. Registration is for P.C.Q. Rat and Mouse Bait, to be used on orchards and groves to control meadow and pine mice, and voles (*Microtus* spp). March 5, 1982.

EPA SLN No. UT 82 0004. Clarke Outdoor Spraying Co. Registration is for 2% GR Larvicide, to be used on mosquitoes to control larvae. March 23, 1982.

Vermont

EPA SLN No. VT 82 0001. FMC Corp. Registration is for Zinc Phosphide Mouse Bait 200, to be used on sugar maple orchards to control red squirrels, chipmunks, and mice. January 11, 1982.

EPA SLN No. VT 82 0002. Mobay Chemical Corp. Registration is for Oftanol 5% GR, to be used on turf grasses to control white grub larvae (such as Japanese beetle, black turf grass *Ataenius*, and chafers). March 11, 1982.

Virginia

EPA SLN No. VA 82 0001. Virginia Department of Agriculture and Consumer Service. Registration is for Proturf Insecticide 4, to be used on turf grasses to control white grubs (cool season grasses only), sod webworm, chinch bugs, mole crickets, and hyperodes weevils. January 4, 1982.

EPA SLN No. VA 82 0002. International Two Thousand, Inc. Registration is for Mr. Rat Guard II Pellets, to be used on orchards to control pine and meadow voles. January 7, 1982.

EPA SLN No. VA 82 0003. Ameribrom, Inc. Registration is for Edabrom 85, to be used on soybeans at plant or preplant to control nematodes. February 3, 1982.

EPA SLN No. VA 82 0004. E.I. du Pont de Nemours and Co. Registration is for Du Pont Lannate L Insecticide and Lannate, to be used on small grains to control cereal leaf beetles and aphids. February 22, 1982.

EPA SLN No. VA 82 0005. Dow Chemical USA. Registration is for Dowfume W–90 Soil Fumigant, to be used on peanuts at plant to control root-knot, lesion, sting, and ring nematodes. February 22, 1982.

EPA SLN No. VA 82 0006. Dow Chemical USA. Registration is for Dowfume W–80 High-Strength Soil Fumigant, to be used on soybeans at plant or preplant to control nematodes. February 22, 1982.

EPA SLN No. VA 82 0007. Vertac Chemical Corp. Registration is for Vertac Premerge 3 Dinitro Amine Herbicide, to be used on peanuts to control newly emerged broadleaf weeds such as Florida beggarweed, ragweed, sicklepod, and *Sclerotinia* blight. February 23, 1982.

EPA SLN No. VA 82 0009. FMC Corp. Registration is for Furadan 10 GR, to be used on sweet corn to control flea beetles. March 8, 1982.

EPA SLN No. VA 82 0010. FMC Corp. Registration is for Furadan 4 FL, to be used on sweet corn to control the European corn borer. March 8, 1982.

EPA SLN No. VA 82 0011. American Cyanamid Co. Registration is for Cythion Insecticide, to control adult mosquitoes. March 22, 1982.

EPA SLN No. VA 82 0012. American Cyanamid Co. Registration is for Malathion ULV Concentrate Insecticide, to control adult mosquitoes. March 22, 1982.

EPA SLN No. VA 82 0013. Union Carbide Agricultural Products Co., Inc. Registration is for Temik 15G GR Aldicarb Pesticide, to be used on tobacco (flue-cured only) to control aphids and flea beetles. March 25, 1982.

EPA SLN No. VA 82 0014. Mobay Chemical Corp. Registration is for Dasanit+Di-Syston 4–2 Spray Concentrate, to be used on tobacco to control aphids, flea beetles, wireworms, and nematodes. March 31, 1982.

EPA SLN No. VA 82 0015. Bell Laboratories, Inc. Registration is for P.C.Q. Rat and Mouse Bait, to be used on orchards and groves to control pine and meadow voles. March 31, 1982.

EPA SLN No. VA 82 0016. Health-Chemical Corp. Registration is for Hercon Luretape with Disparlure, to be used on gypsy moths for suppression through mating disruption. April 6, 1982.

EPA SLN No. VA 82 0017. FMC Corp. Registration is for Furadan 4 FL, to be used on soybeans to control the Mexican bean beetle. April 16, 1982.

EPA SLN No. VA 82 0018. Morton-Norwich Products. Registration is for No-Pest Strip Insecticide II, to be used in cocoa bean warehouses to control cocoa bean moths. April 16, 1982.

EPA SLN No. VA 82 0019. ICI Americas Inc. Registration is for Gramoxone Paraquat Herbicide, to be used on alfalfa as a post-harvest weed control. April 23, 1982.

Washington

EPA SLN No. WA 82 0001. Union Carbide. Registration is for Weedone 170, to be used on forest land to control broadleaf weeds. February 23, 1982.

EPA SLN No. WA 82 0004. Diamond Shamrock Corp. Registration is for Dacthal W–75 Herbicide, to be used on radishes grown for seed to control weeds. March 12, 1982.

EPA SLN No. WA 82 0005. Van Waters and Rogers. Registration is for Namco Lindane–20%, to be used on wood to control investing beetles. March 12, 1982.

EPA SLN No. WA 82 0006. Vertac Chemical Corp. Registration is for Vertac General Weed Killer, to be used for desiccation of potato vines. March 16, 1982.

EPA SLN No. WA 82 0007. Vertac Chemical Corp. Registration is for Vertac General Weed Killer, to be used for preharvest desiccation of alfalfa, clover, and trefoil grown for seeds. March 16, 1982.

EPA SLN No. WA 82 0008. Vertac Chemical Corp. Registration is for Vertac Dinitro Weed Killer, to be used for potato vine desiccation. March 16, 1982.

EPA SLN No. WA 82 0009. Vertac Chemical Corp. Registration is for Vertac Dinitro Weed Killer, to be used for preharvest desiccation of alfalfa, clover, and trefoil grown for seeds. March 16, 1982.

EPA SLN No. WA 82 0010. The Chas. H. Lilly Co. Registration is for Lilly/Miller 5% Diazinon GR, to be used on turf grasses to control the European crane fly. March 12, 1982.

EPA SLN No. WA 82 0011. Elanco Products Co. Registration is for Treflan EC, to be used on radishes grown for seed to control weeds. March 18, 1982.

EPA SLN No. WA 82 0012. Elanco Products Co. Registration is for Treflan MT.F., to be used on radishes grown for seed to control weeds. March 18, 1982.

EPA SLN No. WA 82 0013. Dexol Industries. Registration is for Dexol Diazinon Insect Spray Contains 25% Diazinon, to be used on turf grasses to control European crane flies. March 24, 1982.

EPA SLN No. WA 82 0014. Mobay Chemical Corp. Registration is for Sencor 50% WP, to be used on lentils to control common lambsquarters, wild mustard, field pennycress (fan weed), common chickweed, henbit, and shepherd's purse. April 12, 1982.

EPA SLN No. WA 82 0015. Mobay Chemical Corp. Registration is for Sencor 4, to be used on lentils to control common lambsquarters, wild mustard,

field pennycress (fan weed), common chickweed, henbit, and shepherd's purse. April 12, 1982.

EPA SLN No. WA 82 0016. Mobay Chemical Corp. Registration is for Sencor Sprayule, to be used on lentils to control common lambsquarters, wild mustard, field pennycress (fan weed), common chickweed, henbit, and shepherd's purse. April 12, 1982.

EPA SLN No. WA 82 0017. Mobay Chemical Corp. Registration is for Sencor DF, to be used on lentils to control lambsquarters, wild mustard, field pennycress (fan weed), common chickweed, henbit, and shepherd's purse. April 12, 1982.

EPA SLN No. WA 82 0018. EM Industries, Inc. Registration is for Funginex 18.2% EC, to be used on cranberries to control cotton ball caused by *Monilinia oxycocci*. April 15, 1982.

EPA SLN No. WA 82 0019. Platte Chemical Co. Registration is for Clean Crop Dursban ½ G Insecticide, to be used on home lawns, turf, and ornamental turf areas to control European crane fly larvae (maggots). April 15, 1982.

EPA SLN No. WA 82 0020. Platte Chemical Co. Registration is for Clean Crop Dursban 2.5G Insecticide, to be used on home lawns, turf, and ornamental turf areas to control European crane fly larvae (maggots). April 15, 1982.

EPA SLN No. WA 82 0021. Platte Chemical Co. Registration is for Clean Crop Diazinon 5 Lawn and Garden, to be used on home lawns, turf, and ornamental turf areas to control European crane fly larvae (maggots). April 15, 1982.

EPA SLN No. WA 82 0022. Platte Chemical Co. Registration is for Clean Crop Diazinon 25 Lawn and Garden, to be used on home lawns, turf, and ornamental turf areas to control European crane fly larvae (maggots). April 15, 1982.

EPA SLN No. WA 82 0023. T. H. Agriculture and Nutrition Co., Inc. Registration is for DE-Fent E–267 Insecticide, to be used on ornamental shade and nursery trees to control aphids, borers, and other insects listed on the label. April 16, 1982.

EPA SLN No. WA 82 0024. FMC Corp. Registration is for Polyram 80 WP, to be used on potatoes to control early blight. April 15, 1982.

West Virginia

EPA SLN No. WV 82 0001. O. M. Scott and Sons. Registration is for Proturf Insecticide 4, to be used on cool season grasses only to control sod webworms, chinch bugs, mole crickets, and hyperodes weevils. January 28, 1982.

Wyoming

EPA SLN No. WY 82 0001 Bell Laboratories, Inc. Registration is for ZP Rodent Bait AG, to be used as rodent bait to control prairie dogs (blacktailed, and whitetailed). January 11, 1982

EPA SLN No. WY 82 0002. Mobay Chemical Corp. Registration is for Oftanol 5% GR, to be used on turf grasses to control white grub larvae. February 16, 1982.

EPA SLN No. WY 82 0003. Union Carbide Agricultural Products Co., Inc. Registration is for Brominal Broadleaf Herbicide, to be used on irrigated oats, wheat, and barley to control fiddleneck, wild buckwheat, fanweed, Kochia, Russian thistle, and other susceptible broadleaf weeds. February 18, 1982.

(Sec. 24, as amended 92 Stat. 835; (7 U.S.C. 136))

Dated: September 22, 1982.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

EPA Master List of Debarred and Suspended Persons

AGENCY: Environmental Protection Agency.

ACTION: EPA Master List of Debarred and Suspended Persons.

SUMMARY: 40 CFR 32.400 requires the Director, Grants Administration Division, to publish in the **Federal Register** each calendar quarter, the names of, and other information concerning, those individuals and firms debarred or suspended from participation in EPA assisted programs. Assistance recipients and contractors under an EPA award may not initiate new business with these firms or individuals on any EPA funded activity during the period of suspension, debarment or voluntary exclusion.

DATE: This list is current as of September 24, 1982.

FOR FURTHER INFORMATION CONTACT: Robert F. Meunier (202) 382–5291 or the EPA Office of Regional Counsel in your region.

September 24, 1982.

Harvey G. Pippen, Jr.,

Director,

Grants Administration Division.

FEDERAL EMERGENCY MANAGEMENT AGENCY

[FEMA-652-DR]

Indiana; Amendment to Notice of Major Disaster Declaration

AGENCY: Federal Emergency Management Agency.

ACTION: Notice.

SUMMARY: This notice amends the notice of a major disaster for the State of Indiana (FEMA-652-DR), dated March 20, 1982, and related determinations.

DATED: September 17, 1982.

FOR FURTHER INFORMATION CONTACT: Sewall H. E. Johnson, Disaster Assistance Programs, Federal Emergency Management Agency, Washington, D.C. 20472 (202) 287-0501.

NOTICE: The notice of a major disaster for the State of Indiana dated March 20, 1982, is hereby amended to include the following areas among those areas determined to have been adversely affected by the catastrohpe declared a major disaster by the President in his declaration of March 20, 1982: The City of Plymouth in Marshall County for Public Assistance.

(Catalog of Federal Domestic Assistance No. 83.300, Disaster Assistance)

Lee M. Thomas,

Associate Director, State and Local Programs and Support, Federal Emergency Management Agency.

[FR Doc. 82-26907 Filed 9-29-82; 8:45 am]

BILLING CODE 6718-02-M

[FEMA-668-DR]

Tennessee; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency.

ACTION: Notice.

SUMMARY: This notice of the Presidential declaration of a major disaster for the State of Tennessee (FEMA-668-DR), dated September 22, 1982, and related determinations.

DATED: September 22, 1982.

FOR FURTHER INFORMATION CONTACT: Sewall H.E. Johnson, Disaster Assistance Programs, Federal Emergency Management Agency, Washington, D.C. 20472 (202) 287-0501.

Notice: Pursuant to the authority vested in the Director of the Federal Emergency Management Agency by the President under Executive Order 12148, effective July 15, 1979, and delegated to me by the Director under Federal Emergency Management Agency Delegation of Authority, and by virtue of the Act of May 22, 1974, entitled "Disaster Relief Act of 1974" (88 Stat. 143); notice is hereby given that, in a letter of September 22, 1982, the President declared a major disaster as follows:

I have determined that the damage in certain areas of the State of Tennessee resulting from severe storms and flooding beginning on September 12, 1982, is of sufficient severity and magnitude to warrant a major-disaster declaration under Public Law 93-288. I therefore declare that such a major disaster exists in the State of Tennessee.

In order to provide Federal assistance, you are herby authorized to allocate, from funds available for these purposes, such amounts as you find necessary for Federal disaster assistance and administrative expenses. Federal assistance provided under Pub. L 93-288 will be limited to Individual Assistance.

The time period prescribed for the inplementation of Section 313(a), priority to certain applications for public facility and public housing assistance, shall be for a period not to exceed six months after the date of this declaration.

Notice is hereby given that pursuant to the authority vested in the Director of Federal Emergency Management Agency under Executive Order 12148, and delegated to me by the Director under the Federal Emergency Management Agency Delegation of Authority, I hereby appoint Mr. Paul E. Hall of the Federal Emergency Management Agency to act as the Federal Coordinating Officer for this declared major disaster.

I do hereby determine the following areas of the State of Tennessee to have been affected adversely by this declared major disaster:

Gibson County for Individual Assistance only.

(Catalog of Federal Domestic Assistance No. 83.516, Disaster Assistance)

Lee M. Thomas,

Associate Director, State and Local Programs and Support, Federal Emergency Management Agency.

BILLING CODE 6718-02-M

FEDERAL RESERVE SYSTEM

Acquisition of Bank Shares by Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(a)(3)) to acquire voting shares or assets of a bank. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application may be inspected at the offices of the Board of Governors, or at the Federal Reserve Bank indicated for that application. With respect to each application, interested persons may express their views in writing to the address indicated for that application. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

A. Federal Reserve Bank of Chicago (Franklin D. Dreyer, Vice President), 230 South LaSalle Street, Chicago, Illinois 60690:

1. *Mid-Citco Incorported,* Chicago, Illinois; to acquire 100 percent of the voting shares of the successor by merger to First National Bank of Morton Grove, Morton Grove, Illinois. Comments on this application must be received not later than October 25, 1982.

2. *The Marion National Corporation,* Marion, Indiana; to retain 1,183 shares or 0.85 percent of the voting shares of American Bank & Trust Company, Marion, Indiana. Comments on this application must be received not later than October 25, 1982.

B. Board of Governors of the Federal Reserve System (William W. Wiles, Secretary), Washington, D.C. 20501:

1. *First City Bancorporation of Texas, Inc.,* Houston, Texas; to acquire 100 percent of the voting shares or assets of The Graham National Bank, Graham, Texas, and Graham National Bancorporation, Graham, Texas. This application may be inspected at the offices of the Board of Governors, or at the Federal Reserve Bank of Dallas. Comments on this application must be received not later than October 22, 1982.

Board of Governors of the Federal Reserve System, September 24, 1982.

Dolores S. Smith,

Assistant Secretary of the Board.

[FR Doc. 82-26863 Filed 9-29-82; 8:45 am]

BILLING CODE 6210-01-M

BankAmerica International; Establishment of U.S. Branch of a Corporation Organized Under Section 25(a) of the Federal Reserve Act

BankAmerica International, San Francisco, California, a corporation organized under section 25(a) of the Federal Reserve Act, has applied for the

Board's approval under § 211.4(c)(1) of the Board's Regulation K (12 CFR 211.4(c)(1)), to establish a branch in the Miami International Airport, Miami, Florida. BankAmerica International operates as a subsidiary of Bank of America National Trust and Savings Association, San Francisco, California.

The factors that are to be considered in acting on this application are set forth in § 211.4(a) of the Board's Regulation K (12 CFR 211.4(a)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of San Francisco. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received no later than October 22, 1982. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identify specifically any questions of fact that are in dispute, and summarize the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, September 23, 1982.

Dolores S. Smith,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

Bank Holding Companies; de Proposed novo Nonbank Activities

The bank holding companies listed in this notice have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8) and § 225.4(b)(1) of the Board's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to each application, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any comment on an application that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

Each application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank indicated for that application. Comments and requests for hearings should identify clearly the specific application to which they relate, and should be submitted in writing and received by the appropriate Federal Reserve bank not later than the date indicated for each application.

A. Federal Reserve Bank of New York (A. Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045:

1. *Citicorp,* New York, New York (consumer finance and credit-related insurance activities; Washington): To open a *de novo* office of its subsidiary, Citicorp Washington Financial Center, Inc., located in Tukwila, Washington. The activities in which the *de novo* office proposes to engage are as follows: the making, acquiring and servicing, for its own account and for the account of others, of extensions of credit to individuals secured by liens on residential or nonresidential real estate and the sale of mortgage life and mortgage disability insurance directly related to extensions of mortgage loans. The service area of the office would be comprised of the State of Washington. Comments on this application must be received not later than October 25, 1982.

2. *Manufacturers Hanover Corporation,* New York, New York, (commercial finance activities; United States): To engage through a *de novo* indirect subsidiary, Finance One Commercial Corporation, to be located in Trevose, Pennsylvania, in the activities of making, acquiring, and servicing commercial loans and other extensions of credit, such as could be made, acquired or serviced by a commercial finance company under state law. Such activities would include, but not be limited to, engaging in commercial and business financing of all types, and making loans secured by residential real estate to individuals for business purposes. These activities would be conducted from an office located in Trevose, Pennsylvania, serving the entire United States. Comments on this application must be received not later than October 25, 1982.

B. Federal Reserve Bank of San Francisco (Harry W. Green, Vice President) 400 Sansome Street, San Francisco, California 94120:

1. *Ranier Bancorporation,* Seattle, Washington (finance and insurance activities; Texas): To engage through its subsidiary, Ranier Mortgage Company, in making or acquiring for its own account or for the account of others, loans or other extensions of credit; and acting as an agent or broker for credit life, disability, property and casualty insurance that is directly related to its extensions of credit. These activities will be conducted from an office in Houson,Texas, serving the entire State of Texas. Comments on this application must be received not later than October 25, 1982.

Board of Governors of the Federal Reserve System, September 24, 1982.

Citicorp; Correction

This document corrects a previous **Federal Register** document (FR Doc. 82-25265) that was published on page 40486 of the issue for Tuesday, September 14, 1982. By notice published in the **Federal Register** on Thursday, July 15, 1982 (47 FR 30872), the Board determined not to add to the list of activities determined to be closely related to banking managing or controlling banks (12 CFR 225.4(a)) of the activity of engaging as a futures commission merchant in the execution and clearance on major commodity exchanges of futures contracts covering bullion, foreign exchange, U.S. Government securities, and money market instruments. Nevertheless, the Board has determined by individual order that such activities are closely related to banking. The Board will continue to proceed with applications in this area on a case-by-case basis.

Board of Governors of the Federal Reserve System, September 23, 1982.

Dolores S. Smith,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

PNC Financial Corp.; Acquisition of Banks

PNC Financial Corp., Pittsburgh, Pennsylvania, has applied for the Board's approval under section 3(a)(5) of the Bank Holding Company Act (12 U.S.C. 1842(a)(5)) to be the successor corporation of the consolidation of Pittsburgh National Corporation, Pittsburgh, Pennsylvania and Provident National Corporation, Philadelphia, Pennsylvania, and thereby indirectly acquired Pittsburgh National Bank, Jeannette, Pennsylvania, Provident National Bank, Bryn Mawr, Pennsylvania, and Provident of Delaware Bank, N.A., Wilmington, Delaware.

PNC Financial Corp., Pittsburgh, Pennsylvania, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire five percent (or more) of the voting shares of Central Penn National Corporation, Bala Cynwyd, Pennsylvania and Southeast National Bancshares of Pennsylvania, Malvern, Pennsylvania. The factors that are considered in acting on these applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

PNC Financial Corp., Pittsburgh, Pennsylvania, has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to acquire voting shares of Kissell Company, Pittsburgh National Discount Corporation, PINACO, Inc., Pittsburgh National Leasing Corporation, Pittsburgh National Life Insurance Company, Provident National Investment Corporation, and Provident National Financial Corporation.

Applicant states that the proposed subsidiaries would perform the

activities of originating, selling, and servicing mortgages; financing; leasing of personal property; and the sale and underwriting of credit-related insurance. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

PNC Financial Corp., Pittsburgh, Pennsylvania, has also given notice that it will do business indirectly under section 25(a) of the Federal Reserve Act by acquiring indirectly the shares of three Edge corporation subsidiaries, Pittsburgh International Bank, New York, New York and Los Angeles, California, and Provident International Corporation, Philadelphia, Pennsylvania.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Cleveland.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than October 22, 1982.

Board of Governors of the Federal Reserve System, September 23, 1982.

Dolores S. Smith,

Assistant Secretary of the Board.

SafraCorp; Acquisition of Bank Shares by Bank Holding Companies

SafraCorp, Miami, Florida, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares of SafraBank II, N.A., Pompano Beach, Florida, a proposed new bank. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

SafraCorp, Miami, Florida, has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to engage in the activities of making acquiring and servicing loans and other extensions of credit for its own account or for the account of others. These activities would be performed from offices of Applicant's subsidiary in Miami, Florida, and the geographic area to be served is the State of Florida. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Atlanta.

Any views or requests for hearing should be submitted in writing and received by the Reserve Bank not later than October 22, 1982.

Board of Governors of the Federal Reserve System, September 24, 1982.

Skandinaviska Enskilda Banken; Correction

This document corrects a previous **Federal Register** document (FR Doc.-82-23931) published at page 38634 of the issue for Wednesday, September 1, 1982. The notice stated that the activities proposed by Skandinaviska Enskilda Banken have been specified in § 225.4(a) of Regulation Y as permissible for bank holding companies. In fact, the Board has not added the proposed activities of an investment company organized under Acticle XII of New York State Banking Law to the list of activities determined to be closely related to managing or controlling banks (12 CFR 225.4(a). Nevertheless, the Board has determined by individual order that such activities are closely related to banking. At this time, the Board will proceed with applications in this area on a case-by-case basis.

Board of Governors of the Federal Reserve System, September 24, 1982.

BILLING CODE 6210-01-M

Consumer Advisory Council; Meeting of Consumer Advisory Council

The Consumer Advisory Council will meet on Wednesday, October 27, and Thursday, October 28. The meeting, which will be open to public observation, will take place in Terrace Room E of the Martin Building. The October 27 session is expected to begin at 1:15 p.m. and to continue until 5:00 p.m. The October 28 session is expected to begin 9:00 a.m. and to conclude at 3:00 p.m., with a lunch break from 1:00 to 2:00 p.m. The Martin Building is located on C Street, Northwest, between 20th and 21st Streets in Washington, D.C.

The Council's function is to advise the Board on the exercise of the Board's responsibilities under the Consumer Credit Protection Act and on other matters on which the Board seeks its advice. Time permitting, the Council will consider the following topics:

1. *Status Reports on Ongoing Surveys.* Status reports on the scope and focus of a survey of household finances that the Board and other agencies plan to conduct next year, working through the Survey Research Center of the University of Michigan and on the Board's survey of depository institutions, to gather data on the incremental compliance costs/benefits of Regulations E, B, and Z.

2. *Section 340 Fair Housing Lending Study.* A discussion of the findings of a study prepared for the Federal Financial Institutions Examination Council on the feasibility and desirability of establishing a unified data collection and analysis system for enforcing fair housing lending laws and regulations, implementing the Community Reinvestment Act, and satisfying the

public disclosure requirements of the Home Mortgage Disclosure Act.

3. *The Provision of Financial Services in the 1980s.* Council presentations about developments shaping the future of the consumer financial services industry, and a staff presentation on the status of legislative proposals to reform the financial regulatory structure.

4. *Advertising of Individual Retirement Accounts (IRAs).* A discussion of a report to be presented by the Ad Hoc IRA Advertising Committee.

5. *New Thrusts in Consumer Education.* A discussion of the changing educational needs of consumers.

6. *Remarks by Departing Council Members.* Council members whose terms expire at year-end will discuss their experience on the Council and suggestions for its future operation.

7. *Regulatory Update.* A status report on recent Board regulatory actions in the area of consumer financial services.

Other matters previously considered by the Council or initiated by Council members also may be discussed.

Persons wishing to submit to the Council their views regarding any of the above topices may do so by sending written statements to Ms. Kay Oliver, Secretary, Consumer Advisory Council, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. Comments must be received no later than close of business Friday, October 22, and must be of a quality suitable for reproduction.

Information with regard to this meeting may be obtained from Mr. Joseph R. Coyne, Assistant to the Board, at (202) 452–3204.

Board of Governors of the Federal Reserve System, September 24, 1982.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Application Announcement for Health Careers Opportunity Program Grants

The Bureau of Health Professions, Health Resources and Services Administration, announces that applications for Fiscal Year 1983 Health Careers Opportunity Program (HCOP) grants are now being accepted under the authority of section 787 of the Public Health Service Act.

Section 787 authorizes the Secretary to make grants to schools of medicine, osteopathy, public health, dentistry, veterinary medicine, optometry, pharmacy, podiatry, and allied health and other public or private nonprofit health or educational entities to carry out programs which assist individuals from disadvantaged backgrounds to enter and graduate from health professions schools. The assistance authorized by this section includes identification and recruitment, remedial education, counseling, and advice on financial aid.

For this program, an "individual from a disadvantaged background" means an individual who (a) comes from an environment that has inhibited the individual from obtaining the knowledge, skills, and abilities required to enroll in and graduate from a health professions school, or from a program providing education or training in an allied health profession, or (b) comes from a family with an annual income below a level based on low income thresholds according to family size, published by the U.S. Bureau of the Census, adjusted annually for changes in the Consumer Price Index, and adjusted by the Secretary for use in all health professions programs, 42 CFR 57.1804(b)(2).

The following income figures determine what constitutes a low income family for purpose of these Health Careers Opportunity Program grants for Fiscal year 1983:

Size of parents' family [1]	Income level [2]
1	$6,100
2	7,900
3	9,400
4	12,100
5	14,300
6	16,000

[1] Includes only dependents listed on Federal income tax forms.

[2] Adjusted gross income for calendar year 1981, rounded to $100.

Fiscal year 1983 materials are being made available without final action on an appropriation for this program. The amount of money available for competitive applications is based on a $17.24 million appropriation request for Fiscal Year 1983.

Based on projected commitments for currently active projects requiring continued support, an estimated $1,400,000 will be available for competitive HCOP awards in Fiscal Year 1983. This amount may be changed by final action on the Fiscal Year 1983 appropriation.

At least 80 percent of the funds appropriated in any fiscal year must be obligated for grants or contracts to institutions of higher education. Also, no more than five percent of the funds appropriated in any fiscal year can be awarded to projects having information dissemination as their primary purpose.

The program regulations which are located at Title 42 of the Code of Federal Regulations, Part 57, Subpart S, continue to govern the award of grants although minor portions have been superseded by current legislation (Pub. L. 97–35). Because only limited funding is expected to be available for competitive awards in Fiscal Year 1983, funding preferences will not apply for Fiscal Year 1983 competitive awards.

Requests for grant application materials and questions regarding grants policy should be directed to: Grants Management Officer (D18), Bureau of Health Professions, Health Resources and Services Administration, Center Building, Room 4–27, 3700 East-West Highway, Hyattsville, Maryland 20782, Telephone: (301) 436–7418.

To obtain specific information regarding the programmatic aspects of this grant program, direct inquiries to: Mr. Arthur Testoff, Chief, Program Coordination Branch, Division of Disadvantaged Assistance, Bureau of Health Professions, Health Resources and Services Administration, Center Building, Room 10–50, 3700 East-West Highway, Hyattsville, Maryland 20782, Telephone: (301) 436–7230.

To be considered for Fiscal Year 1983 funding, applications must be received by the Grants Management Officer, Bureau of Health Professions, postmarked no later than December 10, 1982. Materials postmarked after that date will not be included in the review process.

This program is listed at 13.822 in the *Catalog of Federal Domestic Assistance.* Applications submitted in response to this announcement are not subject to review by State and areawide clearinghouses under the procedures in Office of Management and Budget Circular No. A–95.

Dated: September 21, 1982.

Robert Graham,

Administrator.

BILLING CODE 4160-15-M

Office of Human Development Services

Revised Federal Allotments to States for Social Services Expenditures Pursuant to the Title XX—Social Services Block Grant Act; Promulgation for Fiscal Year 1983

AGENCY: Office of Program Coordination and Review, Office of Human Development Services, Department of Health and Human Services.

ACTION: Revised Notification of Allocation of Title XX—Social Services Block Grant Allotments for Fiscal Year 1983.

SUMMARY: Public Law 97–248, enacted September 3, 1982, among other things, amended Sec. 1101(a) of the Social Security Act, as amended, (Act) to define the term State when used in Title XX to no longer include American Samoa and the Trust Territory of the Pacific Islands.

The Federal allotments to States for social services under Section 2003 of the Act which were promulgated in Vol. 46, No. 229 of the **Federal Register** page 58186 on November 30, 1981, included American Samoa and the Trust Territory of the Pacific Islands.

Accordingly, the promulgation contained in such document is rescinded and the promulgation, as revised, is set forth in this issuance.

FOR FURTHER INFORMATION CONTACT: HDS Regional Administrators.

SUPPLEMENTAL INFORMATION: Section 2003 of the Social Security Act authorizes $2.45 billion for Fiscal Year 1983 and provides that it be allocated as follows:

(1) Puerto Rico, Guam, the Virgin Islands, and the Northern Marianas Islands each receive an amount which bears the same ratio to $2.45 billion as its allocation for Fiscal Year 1981 bore to $2.9 billion;

(2) The remainder of the $2.45 billion is allotted to each State in the same proportion as that State's population is to the population of all States, based upon the most recent data available from the Department of Commerce.

For Fiscal Year 1983, the allotments are based upon the Bureau of Census 1980 Decennial Census.

The allotments to the States published here are based upon the authorization set forth in Section 2003 of the Social Security Act and are contingent upon Congressional Appropriations Actions for the Fiscal Year. If the Congress enacts and the President approves an amount different from the authorization, the allotments would be adjusted proportionately.

EFFECTIVE DATE: These allotments shall be effective October 1, 1982.

BILLING CODE 4130-01-M

Public Health Service

Advisory Committees; Meetings

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following National Advisory bodies scheduled to meet during the month of October 1982:

Name: Health Services Developmental Grants Review Subcommittee

Date and time: October 14–15, 1982, 8:30 a.m.

Place: Washington Circle Inn, Rock Creek Room, 2430 Pennsylvania Avenue NW., Washington, D.C.

Open October 14, 8:30 a.m.–9:30 a.m.

Closed for remainder of meeting.

Purpose: The Subcommittee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Center for Health Services Research.

Agenda: The open session of the meeting on October 14, 1982 will be devoted to a business meeting covering administrative matters and reports. During the closed sessions the Subcommittee will be reviewing research grant applications relating to the delivery, organization and financing of health services. The closing is in accordance with provisions set forth in section 552b(c)(6), Title 5, U.S. Code, and the Determination by the Assistant Secretary for Health, pursuant to Pub. L. 92–463.

Anyone wishing to obtain a roster of members, minutes of meetings, or other relevant information should contact Ms. Elinor Walker, National Center for Health Services Research, OASH, Room 7–50A, Center Building, 3700 East-West Highway, Hyattsville, Maryland 20782, telephone (301) 436–6920.

* * * * *

Name: Health Services Research Review Subcommittee

Date and time: October 20–21, 1982, 8:30 a.m.

Place: Gramercy Inn, South Scott Room, 1616 Rhode Island Avenue, NW., Washington, D.C. 20036

Open October 20, 8:30 a.m.–9:30 a.m.

Closed for remainder of meeting.

Purpose: The objectives of the Subcommittee is to advise the Secretary and make recommendation to the Director, National Center for Health Services Research, concerning the scientific and technical merit review of health services research grant applications involving primarily the analysis and use of economic, statistical, and other theoretical approaches which examine problems associated with the delivery of health services.

Agenda: The open session of the meeting on October 20, 1982 will be devoted to a business meeting covering administrative matters and reports. During the closed session, the Subcommittee will be reviewing research grant applications relating to the delivery, organization, and financing of health services. The closing is in accordance with provisions set forth in section 552b(c)(6), Title 5, U.S. Code, and the Determination by the Assistant Secretary for Health, pursuant to Pub. L. 92–463.

Anyone wishing to obtain a roster of members, minutes of meetings, or other relevant information should contact Anthony Pollitt, Ph.D., National Center for Health Services Research, OASH, Room 7–50A,

Center Building, 3700 East-West Highway, Hyattsville, Maryland 20782, telephone (301) 436-6920.

* * * * *

Name: Health Care Technology Study Section
Date and time: October 28–29, 1982, 8:30 a.m.
Place: Auditorium, Francis A. Countway Library of Medicine, Harvard Medical School, 10 Shattuck Street, Boston, Massachusetts 02115
Open October 28, 8:30 a.m. to 10:00 a.m.
Closed for remainder of meeting.
Purpose: The Committee is charged with the initial review of health research grant applications for Federal assistance in the program areas administered by the National Center for Health Services Research (NCHSR).
Agenda: The open session of the meeting on October 28 will include a presentation by the Acting Director, NCHSR, and a business meeting covering administrative matters and reports. The closed portion of the meeting will be utilized in a review of health services research grant applications relating to the delivery, organization, and financing of health services. The closing is in accordance with the provisions set forth in section 552b(c)(6), Title 5, U.S. Code, and the Determination by the Assistant Secretary for Health, pursuant to Pub. L. 92-463.

Anyone wishing to obtain a roster of members, minutes of meetings, or other relevant information should contact Dr. Alan E. Mayers, National Center for Health Services Research, OASH, Room 7-50A, Center Building, 3700 East-West Highway, Hyattsville, Maryland 20782, telephone (301) 436-6920.

Agenda items are subject to change as priorities dictate.

Dated: September 24, 1982.

Harold Margulies,

Acting Deputy Assistant Secretary for Health Research, Statistics, and Technology.

[FR Doc. 82-26663 Filed 9-29-82; 8:45 am]
BILLING CODE 4160-17-M

Office of the Secretary

Privacy Act; Report on New System

AGENCY: Department of Health and Human Services.

ACTION: Notification of report on new system, "Civil and Administrative investigative files of the Inspector General, HHS/OS/OIG".

SUMMARY: The Department of Health and Human Services proposes to establish a new system of records entitled "Civil and Administrative Investigative Files of the Inspector General, HHS/OS/OIG", under the Privacy Act, 5 U.S.C. 552a. The Office of Inspector General (OIG) is authorized to gather information for civil and administrative law enforcement purposes under Pub. L. 94-505, establishing the HHS Office of Inspector General, and section 1128A of the Social Security Act, authorizing civil money penalties for the filing of false claims in certain health care financing programs. The Department is requesting public comments on the routine uses in the system.

DATES: The Department has sent new systems reports to the Congress and OMB on September 23, 1982. Comments on the proposed routine uses must be received by November 1, 1982. The provisions of the systems notice will be operational 60 days from the date submitted to OMB.

ADDRESS: Comments should be addressed to Richard McGowan, Public Affairs Officer, Office of Inspector general, Department of Health and Human Services, Room 5267 North Building, 330 Independence Avenue, SW., Washington, D.C. 20201. Comments received will be available for inspection at the above address.

FOR FURTHER INFORMATION CONTACT: Richard McGowan, Public Affairs Officer, Office of Inspector General, Department of Health and Human Services, at the above address or call (202) 472-3142.

SUPPLEMENTARY INFORMATION: The Office of Inspector General is expanding its responsibilities in the area of civil and administrative investigations involving DHHS programs and operations. This requires the establishment of a records system to document the investigations which will be conducted by the OIG or other investigative agencies; to improve the tracking of reviews conducted because of allegations and complaints received by DHHS or other agencies concerning DHHS programs, or current or former HHS personnel; to impove the reporting of the results of civil and administrative investigations to other components of the Department for their use in the operation and evaluation of their programs; and to assist in civil and administrative proceedings, including proceedings under section 1128A of the Social Security Act (establishing civil monetary penalties in the Medicare, Medicaid, and Maternal and Child health programs). The minimum amount of data on individuals will be maintained, consistent with generally accepted auditing and investigative standards.

The Office of Inspector General adheres to all appropriate security provisions and safeguards over the data. Access is strictly controlled.

The routine use disclosures provided for in the notice are necessary to accomplish the criminal, civil and administrative investigative purposes of the system of records as described above or are compatible with the collection of data for investigative purposes. Disclosures will also be made in accordance with other disclosure provisions of the Privacy Act (5 U.S.C. 552a(b)).

Dated: September 23, 1982.

R. P. Kusserow,

Inspector General.

09-90-0100

SYSTEM NAME:

Civil and Administrative Investigative Files of the Inspector General.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Office of the Inspector General, Department of Health and Human Services, 330 Independence Avenue, SW., Washington, D.C. 20201.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

HHS employees and former employees; HHS grantees; contractors, sub-contractors and their employees; employees of state agencies and Medicare carriers and intermediaries; Medicare and Medicaid providers; recipients under programs administered or funded by the Department; and others doing business with the Department.

CATEGORIES OF RECORDS IN THE SYSTEM:

Civil and administrative investigative records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Pub. L. 94-505; section 1128A of the Social Security Act.

PURPOSE(S):

Pursuant to Pub. L. 94-505, this system is maintained for the purpose of conducting and documenting civil and administrative investigations conducted by OIG or other investigative agencies regarding HHS programs and operations, documenting the results of OIG reviews of allegations and complaints received concerning HHS programs, HHS personnel or former personnel, aiding in administrative proceedings or civil suits brought against the subjects of OIG investigations, maintaining a record of the activities which were the subject of civil and administrative investigations, reporting the results of civil and administrative investigations to other departmental components for their use in evaluating their programs and in imposition of civil or administrative

sanctions, and acting as a repository and source for information necessary to fulfill the reporting requirements of 42 U.S.C. 3524. This system is also maintained for the purpose of conducting and documenting the results of reviews, including computer matches, which identify individuals who are not entitled to benefits under programs financed by the Department, whether administered by federal, state or local government agencies, or who are delinquent on loan payments due under federally funded programs.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records may be used as follows:

(1) In the event that this system of records maintained by this Agency to carry out its functions, indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether federal, foreign, state, or local, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto where such responsibility rests outside of OIG.

(2) Disclosures may be made to federal, state, or local agencies where disclosure is necessary in order to obtain records relevant and necessary to a civil or administrative investigation of the Office of Inspector General.

(3) Disclosures may be made to a federal agency where records in this system of records pertain to an applicant for employment, or to a current employee of that agency where the records are relevant and necessary to an agency decision with regard to the hiring or retention of an employee or disciplinary or other administrative action concerning an employee.

Disclosures may be made to a federal agency in response to its request in connection with the issuance of a security clearance, the award of a contract, or the issuance of a license, grant, or other benefit by the requesting agency to the extent that the record is relevant and necessary to the requesting agency's decision on the matter.

(4) Disclosures may be made to the Office of Personnel Management or the Merit Systems Protection Board (including the Office of the Special Council) of information relevant and necessary to carrying out their functions.

(5) Disclosures may be made to third party contacts where the party contacted may have information needed to establish or verify information relevant and necessary to a civil or administrative investigation by the OIG or in preparation for proceedings pursuant to section 1128A of the Social Security Act, and "Civil Money Penalties".

(6) Disclosures may be made to federal, state, and local agencies, or to other entities administrating federally funded programs where necessary to take action based on an OIG investigation or audit which identifies individuals not entitled to program benefits or individuals delinquent on loan payments under federally funded programs.

(7) Disclosures may be made when the Department contemplates that it will contract with private firms for the purpose of collating, analyzing, aggregating or otherwise refining records. Disclosures will also be made to independent auditors who by contract carry out audits on behalf of the Department. Such contractors will be required to maintain Privacy Act safeguards with respect to such records.

(8) Where federal agencies having the power to subpoena other federal agencies' records, such as the Internal Revenue Service or the Civil Rights Commission, issue a subpoena to the Department for records in this system of records, the Department will make such records available.

(9) In the event the Department deems it desirable or necessary, in determining whether particular records are required to be disclosed under the Freedom of Information Act, disclosure may be made to the Department of Justice for the purpose of obtaining its advice.

(10) In event of litigation where the defendant is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems necessary to the Department of Justice to enable that Department to present an effective defense.

(11) Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

STORAGE:

The records, which take the form of index cards, investigative reports, printed material, computer tape files, computer-generated printouts and other audit and investigative workpapers are stored in (1) secured areas, (2) locked rooms, and/or (3) locked cabinets.

RETRIEVABILITY:

Records are retrieved by manual or computer search of alphabetical or numerical indices or cross-indices.

SAFEGUARDS:

Direct access is restricted to authorized staff members of the OIG; access within HHS is limited to the Secretary, Under Secretary, and other officials and employees on a need-to-know basis. All computer files are safeguarded as described under *Storage* and in accordance with the provisions of the National Bureau of Standards Federal Information Processing Standards 41, and HHS Information Processing Standards, HHS ADP Systems Manual, Part 6, "ADP Systems Security". We protect all computer tapes by the use of passwords to prohibit unauthorized access.

RETENTION AND DISPOSAL:

Investigative files are retained for 6 years after completion of the investigation and/or actions based thereon. Index and cross-reference cards are retained permanently. In instances of computer matching of files, only those records which meet predetermined criteria for investigation are maintained. All records which do not meet these criteria are destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Inspector General/Deputy Inspector General, Room 5250, North Building, U.S. Department of Health and Human Services, 330 Independence Avenue, S.W., Washington, D.C. 20201.

NOTIFICATION PROCEDURE:

Exempt. However, consideration will be given requests addressed to the system manager. For general inquiries, include the name and date of birth of the individual.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requestors should also reasonably specify the record contents being sought.

CONTESTING RECORD PROCEDURES:

Exempt. However, consideration will be given requests addressed to the

systems manager. Requests for correction should reasonably identify the record and specify the information to be contested, the corrective action sought and the reasons for the correction with supporting justification.

RECORD SOURCE CATEGORIES:

Department and other federal, state and local government records; interviews of witnesses; documents and other material furnished by non-governmental sources. Sources may include confidential sources.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Exempt from certain provisions of the Act under 5 U.S.C. 552a(k)(2). Pursuant to 45 CFR 5b.11(b)(2)(ii)(D), this system is exempt from the following subsections of the Act: (c)(3), (d)(1)–(4), and (e)(4) (G) and (H).

BILLING CODE 4150-04-M

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Pueblo de Cochiti Reservation, N. Mex., Ordinance Amending the Pueblo de Cochiti; Liquor Ordinance of 1966

September 14, 1982.

This Notice is published in accordance with authority delegated by the Secretary of the Interior to the Assistant Secretary—Indian Affairs by 209 DM 8, and in accordance with the Act of August 15, 1953, 67 Stat. 586, 18 U.S.C. 1161. I certify that the following Ordinance amending the Pueblo de Cochiti Liquor Ordinance which was published in the **Federal Register** on September 13, 1966, relating to the application of the Federal Indian Liquor Laws on the Pueblo de Cochiti Reservation, New Mexico, was duly adopted on May 26, 1981 by the Council of the Pueblo de Cochiti which has jurisdiction over the area of Indian country included in the ordinance, reading as follows:

Kenneth Smith,

Assistant Secretary—Indian Affairs.

Amended Ordinance

This amended ordinance duly enacted this 26th day of May, 1981, by the Council of the Pueblo of Cochiti, the duly authorized and recognized governing body of the Pueblo de Cochiti, an Indian Tribe having accepted the provisions of the Indian Reorganization Act of June 18, 1934 (48 Stat. 984, 25 U.S.C., Sec. 578).

Whereas, the Act of Congress of August 15, 1953 (67 Stat. 586) empowers Indian Tribes having appropriate jurisdiction to enact an Ordinance legalizing the introduction, sale and possession of intoxicating beverages within any area of Indian Country coming within the jurisdiction of such tribe; and

Whereas, the Council of the Pueblo de Cochiti has heretofore, on May 22, 1966, enacted an ordinance legalizing the introduction, sale and possession of intoxicating beverages within the Indian country subject to the jurisdiction of the Pueblo de Cochiti, which ordinance was certified by the Secretary of the Interior and published in the **Federal Register** on September 13, 1966, as required by Federal law; and

Whereas, the Tenth Circuit Court of Appeals, in the case of *United States of America* v. *State of New Mexico, et al.*, has ruled that the State of New Mexico has no jurisdiction to require the State licensing of liquor outlets located on Indian reservations; and

Whereas, the Pueblo of Cochiti Council has determined that the said ordinance of May 22, 1966, must be amended to conform with the standards set forth in the said decision of the Tenth Circuit Court of Appeals, and authorizing the Pueblo of Cochiti council to issue licenses and to adopt regulations for the licensing of liquor outlets on the Pueblo of Cochiti reservation.

Whereas, the original of this instrument has been lost or mislaid and this instrument is executed and signed as a duplicate original of the Amended Ordinance enacted the 26th day of May, 1981.

Now, therefore, be it ordained and enacted as follows:

Section 1: The introduction, sale and possession of intoxicating beverages shall be lawful within the Indian country under the jurisdiction of the Pueblo de Cochiti, subject, however, to the following provisions: (a) Except as set forth in (b) of this Section, and to the extent required by Federal law, such introduction, sale and possession is in conformity with the laws of the State of New Mexico; (b) No license from the State of New Mexico or any department, agency of political subdivision, thereof shall be required to operate an establishment for the sale or dispensing of alcoholic beverages within the Indian country subject to the jurisdiction of the Pueblo de Cochiti, provided, however, that nothing in this ordinance shall affect the validity of the present liquor dispenser's license No. 148 from the State of New Mexico held by the Pueblo de Cochiti; (c) the sale of intoxicating beverages within such Indian country by any person other than the Pueblo de Cochiti shall be pursuant to license and regulations issued by the Pueblo de Cochiti Council.

Section 2: The Pueblo de Cochiti Council is hereby vested with full power and authority to adopt regulations pursuant to and consistent with this ordinance.

Section 3: Any laws, resolutions or ordinances of the Pueblo de Cochiti in conflict with the provisions of this Ordinance are hereby repealed. Specifically, the said Ordinance of May 22, 1966 is hereby amended to conform to this Ordinance.

Section 4: In the event any provision of this Ordinance is held to be invalid, or the application of this Ordinance or any provision thereof to any person or circumstances is held to be invalid, the remaining provision for the application of this Ordinance or any provision thereof to other persons or circumstances shall not be affected by such invalidity and to such extent, the terms and provisions of this Ordinance are declared to be severable.

Section 5: The Ordinance shall be effective upon its certification by the Secretary of the Interior and its publication in the **Federal Register.**

Duly ordained, enacted and adopted this 26th day of May, 1981.

Attest:

Marcus Z. Chalari,
Secretary.
Isaac P. Henero,
Governor.
Arnold Herrara,
Lt. Governor.
Joseph C. Benado,
Member of Council.
Tom Herrera,
Member of Council.

BILLING CODE 4310-02-M

Receipt of Petition for Federal Acknowledgment of Existence as an Indian Tribe

September 15, 1982.

This notice is published in the exercise of authority delegated by the Secretary of the Interior to the Assistant Secretary—Indian Affairs by 209 DM 8.

Pursuant to 25 CFR 83.8(a) (formerly 25 CFR 54.8(a)) notice is hereby given that the American Indian Council of Mariposa County, c/o Mr. Les James, P.O. Box 273, El Portal, California 95318, has filed a petition for acknowledgment by the Secretary of the Interior that the group exists as an Indian tribe. The petition was received by the Bureau of Indian Affairs on April 24, 1982. The petition was forwarded and signed by members of the group's governing body.

This is a notice of receipt of petition and does not constitute notice that the petition is under active consideration. Notice of active consideration will be by mail to the petitioner and other interested parties at the appropriate time.

Under § 83.8(d) formerly 54.8(d) of the Federal regulations, interested parties may submit factual or legal arguments in support of or in opposition to the group's petition. Any information submitted will be made available on the same basis as

other information in the Bureau of Indian Affairs files.

The petition may be examined by appointment in the Division of Tribal Government Services, Bureau of Indian Affairs, Department of the Interior, 18th and C Streets, NW., Washington, D.C. 20242.

Kenneth Smith,

Assistant Secretary—Indian Affairs.

BILLING CODE 4310-02-M

Selection, Designation, Development, and Termination of Designation of Contracting Officers

July 30, 1982.

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: General Notice.

SUMMARY: The Bureau of Indian Affairs of the Department of the Interior gives notice that §§ 14H–1.451, 14H–1.451–2, and 14H–1.451–6 that govern the selection, designation, development, and termination of designation of Contracting Officers under 41 CFR Part 14H–1 have been revoked. (See 47 FR 26950 published in the rules section of this issue. Check the Table of Contents for the page citation).

Henceforth, acquisition authority and responsibility shall be governed by the Interior Procurement Regulation System (41 CFR 14–1.404), Interior Procurement Memorandum (IPM 82–5) dated January 29, 1982, and 19 BIAM Supplement 1.

FOR FURTHER INFORMATION CONTACT: Dr. Peter A. Campanelli, Department of the Interior, Bureau of Indian Affairs, Washington, D.C. 20245, telephone number (202) 343–5125.

SUPPLEMENTARY INFORMATION: This notice is published under the authority delegated by the Secretary of the Interior to the Assistant Secretary—Indian Affairs by 209 DM 8. Title 41 CFR Part 14H–1, §§ 1.451, 1.451–2, and 1.451–6 vested acquisition authority and responsibility for the Bureau of Indian Affairs in organizational titles and positions. The implementation of the Contracting Officers' Warrant System requires the selection, designation, certification, and maintenance of Contracting Officers based on their meeting experience, training, and performance requirements. Contracting Officers will be selected and appointed in compliance with the Interior Procurement Regulation System (41 CFR 14–1.404), Interior Procurement Memorandum (IPM 82–5) dated January 29, 1982, and 19 BIAM Supplement 1.

Kenneth Smith,

Assistant Secretary—Indian Affairs.

BILLING CODE 4310-02-M

Bureau of Land Management

[AA-6986-A, AA-6986-C]

Alaska Native Claims Selection

On December 12 and 16, 1974, Cape Fox Corporation for the Native village of Saxman, filed selection applications AA–6986–A and AA–6986–C respectively, as amended, under the provisions of Section 16(b) of the Alaska Native Claims Settlement Act of December 18, 1971, as amended, 43 U.S.C. 1601, 1615(b) (1976) (ANCSA), for the surface estate of certain lands located in the Tongass National Forest in the vicinity of Saxman and Ketchikan.

As to the lands described below, the applications, as amended, are properly filed and meet the requirements of the Alaska Native Claims Settlement Act of December 18, 1971 and of the regulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface estate of the following described lands, selected pursuant to Section 16(b) of ANSCA, aggregating approximately 1,605 acres, is considered proper for acquisition by Cape Fox Corporation and is hereby approved for conveyance pursuant to Sec. 14(b) of ANCSA:

The unpatented portions of Mineral Survey No. 2226, Whipple Creek No. 1 and Whipple Creek No. 2.

Containing 4.22 acres.

Copper River Meridian, Alaska (Partially Surveyed)

T. 74 S., R. 90 E.,
Sec. 8, S½SE¼;
Sec. 9, S½SW¼;
Sec. 16, S½;
Sec. 17, NE¼, E½NW¼, S½;
Sec. 19, E½ excluding U.S. Survey No. 3648, U.S. Survey No. 3766, U.S. Survey No. 3703, U.S. Survey No. 2803, U.S. Survey No. 2804 and Mineral Survey No. 2226;
Sec. 20, NE¼NE¼, W½NE¼, NW¼;
Sec. 21, N½NW¼.

Containing approximately 1,601 acres.
Aggregating approximately 1,605 acres.

The conveyance issued for the surface estate of the lands described above shall contain the following reservations to the United States:

The subsurface estate therein, and all rights, privileges, immunities, and appurtenances, of whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1613(f).

There are no easements to be reserved to the United States pursuant to Sec. 17(b) of the Alaska Native Claims Settlement Act.

There are no inland water bodies considered to be navigable within the above-described lands.

The grant of the above-described lands shall be subject to:

1. Issuance of a patent confirming the boundary description of the unsurveyed lands hereinabove granted after approval and filing by the Bureau of Land Management of the official plat of survey covering such lands;

2. Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under Section 6(g) of the Alaska Statehood Act of July 7, 1958, 48 U.S.C. Ch. 2, Section 6(g)), contract, permit, right-of-way, or easement, and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him. Further, pursuant to Section 17(b)(2) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1616(b)(2) (ANCSA), any valid existing right recognized by ANCSA shall continue to have whatever right of access as is now provided for under existing law;

3. Requirements of Sec. 22(k) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1621(k), that, until December 18, 1983, the portion of the above-described lands located within the boundaries of a national forest shall be managed under the principles of sustained yield and under management practices for protection and enhancement of environmental quality no less stringent than such management practices on adjacent national forest lands;

4. Requirements of sec. 14(c) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1613(c), that the grantee hereunder convey those portions, if any, of the lands hereinabove granted, as are prescribed in said section.

Cape Fox Corporation is entitled to conveyance of 23,040 acres of land selected pursuant to Section 16(b) of ANCSA. Together with the lands herein approved, the total acreage conveyed or approved for conveyance is approximately 19,387 acres. The remaining entitlement of approximately 3,653 acres will be conveyed at a later date.

Pursuant to Section 14(f) of ANCSA and Departmental regulation 43 CFR

2652.4, conveyance of the subsurface estate of the lands described above shall be issued to Sealaska Corporation when the surface estate is conveyed to Cape Fox Corporation, and shall be subject to the same conditions as the surface conveyance, except for those provisions under Section 14(c) of ANCSA; also the right to explore, develop or remove mineral materials from the subsurface estate in lands within the boundaries of the Native village shall be subject to the consent of Cape Fox Corporation.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the **Federal Register** and once a week, for four (4) consecutive weeks, in the Ketchikan daily news.

Any party claiming a property interest in lands affected by this decision, an agency of the Federal government, or regional corporation may appeal the decision to the Interior Board of Land Appeals, Office of Hearings and Appeals, in accordance with the attached regulations in Title 43 Code of Federal Regulations (CFR), Part 4, Subpart E, as revised. However, pursuant to Public Law 96-487, this decision constitutes the final administrative determination of the Bureau of Land Management concerning navigability of water bodies.

If an appeal is taken the notice of appeal must be filed in the Bureau of Land Management Alaska State Office, Division of ANCSA and State Conveyances (960), 701 C Street, Box 13, Anchorage, Alaska 99513. Do not send the appeal directly to the Interior Board of Land Appeals. The appeal and copies of pertinent case files will be sent to the Board from this office. A copy of the appeal must be served upon the Regional Solicitor, 510 L Street, Suite 100, Anchorage, Alaska 99501.

The time limits for filing an appeal are:

1. Parties receiving service of this decision shall have 30 days from the receipt of this decision to file an appeal.

2. Unknown parties, parties unable to be located after reasonable efforts have been expended to locate, and parties who failed or refused to sign the return receipt shall have until November 1, 1982 to file an appeal.

Any party known or unknown who is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeals. Further information on the manner of and requirements for filing an appeal may be obtained from the Bureau of Land Management, 701 C Street, Box 13, Anchorage, Alaska 99513.

If an appeal is taken, the parties to be served with a copy of the notice of appeal are:

State of Alaska, Department of Natural Resources, Division of Research and Development, Pouch 7-..5, Anchorage, Alaska 99510

Cape Fox Corporation, P.O. Box 8558, Ketchikan, Alaska 99901

Sealaska Corporation, One Sealaska Plaza, Suite 400, Juneau, Alaska 99801.

Ann Johnson,

Chief, Branch of ANCSA Adjudication.

[FR Doc. 82-26962 Filed 9-29-82; 8:45 am]

BILLING CODE 4310-84-M

[F-14840-A, F-14840-B]

Alaska Native Claims Selection

On Octover 22, 1974, Tihteet', Inc., for the Native village of Birch Creek, filed selection application F-14840-A and on December 16, 1974, filed selection application F-14880-B, as amended, under the provisions of Sec. 12 of the Alaska Native Claims Settlement Act of December 18, 1971 [43 U.S.C. 1601, 1611 (1976)) (ANCSA), as amended, for the surface estate of certain lands in the vicinity of Birch Creek, Alaska.

Tihteet' Aii, Inc., in its application, excluded the following bodies of water as being navigable:

Twin Island Lake located in Secs. 13, 14, 15, 22, 23, 24, and 26, T. 16 N., R. 9 E., Fairbanks Meridian;

Chloya Lake located in Secs. 6, 7, 8 17, 18, 19, and 20, T. 16 N., R. 9 E., Fairbanks Meridian;

Unnamed lake in Secs. 7, 17, 18, 19, and 20, T. 17 N., R. 9 E., Fairbanks Meridian;

Unnamed lake in Secs. 15, 16, 21, and 22, T. 16 N., R. 9 E., Fairbanks Meridian; and

Unnamed lake in Secs. 8, 9, 10, 15, 16, and 17, N., R. 8 E., Fairbanks Meridian.

Because these water bodies have been determined to be nonnavigable, they are considered to be public lands withdrawn under Sec. 11(a)(1) and available for selection by the village pursuant to Section 12(a) of ANCSA.

Section 12(a) of ANCSA and Departmental regulation 43 CFR 2651.4(b) and (c) provide that the village corporation shall select all available lands within the township or townships within which the village is located. The regulations also provide that the area selected will not be considered to be reasonably compact if it excludes other lands available for selection within its exterior boundaries.

For these reasons the water bodies which were improperly excluded in the applications of Tihteet' Aii, Inc., are considered selected.

As to the lands described below, the applications, as amended, are properly filed and meet the requirements of ANCSA, as amended, and of the regulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface estate of the following described lands, selected pursuant to Section 12(a) of ANCSA, as amended, aggregating approximately 64,230 acres, is considered proper for acquisition by Tihteet' Aii, Inc., and is hereby approved for conveyance pursuant to Section 14(a) of ANCSA:

Fairbanks Meridian, Alaska (Unsurveyed)

T. 17 N., R. 8 E.,
Secs 7 to 36, inclusive.
Containing approximately 18,408 acres.

T. 16 N., R. 9 E.,
Sec. 1, excluding Native allotments F-12005 and F-17136;
Sec. 2, excluding Native allotment F-12005;
Secs. 3 and 4;
Sec. 5, excluding Native allotment F-14715;
Sec. 6, excluding Native allotment F-14726;
Sec. 7, excluding Native allotments F-14714 and F-14726;
Sec. 8, excluding Native allotments F-13836, F-14714, and F-14715;
Secs. 9, 10, and 11;
Sec. 12, excluding Native allotments F-023054 Parcel C and F-17136;
Sec. 13, excluding Native allotment F-023054 Parcel C;
Secs. 14, 15, and 16;
Sec. 17, excluding Native allotment F-13836;
Sec. 18, excluding Native allotments F-14716 Parcel B and F-17740 Parcel B;
Secs. 19, 20, and 21;
Sec. 22, excluding Native allotment F-12006;
Sec. 23, excluding Native allotment F-023054 Parcel B;
Sec. 24;
Sec. 25, excluding Native allotment F-14726
Secs. 26 and 27.
Containing approximately 15,829 acres.

T. 17 N., R. 9 E.,
Secs. 1 to 25, inclusive;
Sec. 26, excluding Native allotment F-12003 Parcel A;
Secs. 27 and 28, excluding U.S. Survey No. 4481 and those lands within Airport lease F-21745;
Secs. 29 to 32, inclusive;
Sec. 33, excluding U.S. Survey No. 4481 andd Native allotments F-023054 Parcel A;
Sec. 34, excluding U.S. Survey No. 4481;
Secs. 35 and 36.

Containing approximately 22,597 acres.
T. 17 N., R. 10 E.,
Secs. 25 to 36, inclusive.
Containing approximately 7,316 acres.
Aggregating approximately 64,230 acres.

Excluded from the above-described lands herein approved for conveyance are the submerged lands, up to the ordinary high water mark, beneath all water bodies determined by the Bureau of Land Management to be navigable because they have been or could be used in connection with travel, trade and commerce. Those water bodies are identified on the attached navigability maps, the original of which will be found in easement case file F–14840–EE.

All other water bodies not depicted as navigable on the attached maps within the lands to be conveyed were reviewed. Based on existing evidence, they were determined to be nonnavigable.

The lands excluded in the above description are not being approved for conveyance at this time and have been excluded for the following reasons: Lands are no longer under Federal jurisdiction or lands are under applications pending further adjudication. Lands within U.S. Surveys which are excluded are described separately in this decision if they are available for conveyance. These exclusions *do not* constitute a rejection of the selection application, unless specifically so stated.

The conveyance issued for the surface estate of the lands described above shall contain the following reservations to the United States:

1. The subsurface estate therein, and all rights, privileges, immunities, and appurtenances, of whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1613(f)), as amended; and

2. Pursuant to Section 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1616(b)), as amended, the following public easements, referenced by easement identification number (EIN) on the easement maps attached to this document, copies of which will be found in case file F–14840–EE, are reserved to the United States. All easements are subject to applicable Federal, State, or Municipal corporation regulation. The following is a listing of uses allowed for each type of easement. Any uses which are not specifically listed are prohibited.

25 Foot Trail—The uses allowed on a twenty-five (25) foot wide trail easement are: travel by foot, dogsleds, animals, snowmobiles, two- and three-wheel vehicles, and small all-terrain vehicles (ATV's) (less than 3,000 lbs. Gross Vehicle Weight (GVW)).

One Acre Site—The uses allowed for a one (1) acre site easement are: vehicle parking (e.g., aircraft, boats, ATV's, snowmobiles, cars, trucks), temporary camping, and loading or unloading. Temporary camping, loading or unloading shall be limited to 24 hours.

a. (EIN 1 C4, C5, M) A one (1) acre site easement upland of the ordinary high water mark on the right bank of Lower Mouth Birch Creek, in Sec. 25, T. 17 N., R. 10 E., Fairbanks Meridian. The uses allowed are those listed above for a one (1) acre site.

b. (EIN 3 C5, M) A one (1) acre site easement upland of the ordinary high water mark on the left bank of Lower Mouth Birch Creek, in Sec. 34, T. 17 N., R. 8 E., Fairbanks Meridian. The uses allowed are those listed above for a one (1) acre site.

c. (EIN 12 C5, M) A one (1) acre site easement upland of the ordinary high water mark on the right bank of Beaver Creek, in Sec. 33, T. 17 N., R. 8 E., Fairbanks Meridian. The uses allowed are those listed above for a one (1) acre site.

d. (EIN 21 M) An easement for an existing access trail twenty-five (25) feet in width from the village of Birch Creek in Secs. 33 and 34, T. 17 N., R. 9 E., Fairbanks Meridian, northerly to public lands and on to Ft. Yukon. The uses allowed are those listed above for a twenty-five (25) foot wide trail easement.

e. (EIN 26 C5) An easement for an existing access trail twenty-five (25) feet in width from Beaver Creek in Sec. 33, T. 17 N., R. 8 E., Fairbanks Meridian, easterly to Lower Mouth Birch Creek. The uses allowed are those listed above for a twenty-five (25) foot wide trail easement.

f. (EIN 32 E) An easement for a proposed access trail twenty-five (25) feet in width from trail EIN 21 M in Sec. 36,T. 18 N., R. 9 E., Fairbanks Meridian, southeasterly to public lands. The uses allowed are those listed above for a twenty-five (25) foot wide trail easement.

The grant of the above-described lands shall be subject to:

1. Issuance of a patent after approval and filing by the Bureau of Land Management of the official plat of survey confirming the boundary description and acreage of the lands hereinabove granted;

2. Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under Section 6(g) of the Alaska Statehood Act of July 7, 1958 (48 U.S.C. Ch. 2, Section 6(g))), contract, permit, right-of-way, or easement, and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him. Further, pursuant to Section 17(b)(2) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1616(b)(2)) (ANCSA), as amended, any valid existing right recognized by ANCSA shall continue to have whatever right of access as is now provided for under existing law;

3. The following third-party interest, identified by the U.S. Department of the Interior, Fish and Wildlife Service, as provided by Section 14(g) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1613(g)):

A granted road right-of-way permit, R–45–YF (formerly F–33840) issued to the State of Alaska, Department of Transportation and Public Facilities, to use and occupy certain lands on the Yukon Flats National Wildlife Refuge, for the purpose of maintenance of a public road from the village of Birch Creek to the Birch Creek Airport, located in Secs. 27 and 28, T. 17 N., R. 9 E., Fairbanks Meridian; and

4. Requirements of Section 14(c) of the Alaska Native claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1613(c)), as amended, that the grantee hereunder convey those portions, if any, of the lands hereinabove granted, as are prescribed in said section.

Tihteet' Aii, Inc., is entitled to conveyance of 69,120 acres of land selected pursuant to Section 12(a) of ANCSA. Together with the lands herein approved, the total acreage conveyed or approved for conveyance is approximately 64,230 acres. The remaining entitlement of approximately 4,890 acres will be conveyed at a later date.

Pursuant to Sec. 14(f) of ANCSA and Departmental regulation 43 CFR 2652.4, conveyance of the subsurface estate shall be issued to Doyon, Limited, when the surface estate is conveyed to Tihteet' Aii, Inc., and shall be subject to the same conditions as the surface conveyance, except for those provisions under Section 14(c) of ANCSA; also the right to explore, develop or remove mineral materials from the subsurface estate in lands within the boundaries of the Native village of Birch Creek shall be subject to the consent of Tihteet' Aii, Inc.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the **Fedral Register** and once a week,

for four (4) consecutive weeks, in the Tundra Times.

Any party claiming a property interest in lands affected by this decision, an agency of the Federal Government, or regional corporation may appeal the decision to the Interior Board of Land Appeals, Office of Hearings and Appeals, in accordance with the attached regulations in Title 43 Code of Federal Regulations (CFR), Part 4, Subpart E as revised. However, pursuant to Pub. L. 96–487, this decision constitutes the final administrative determination of the Bureau of Land Management concerning navigability of water bodies.

If an appeal is taken the notice of appeal must be filed in the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances (960), 701 C Street, Box 13, Anchorage, Alaska 99513. Do not send the appeal directly to the Interior Board of Land Appeals. The appeal and copies of pertinent case files will be sent to the Board from this office. A copy of the appeal must be served upon the Regional Solicitor, 701 C Street, Box 34, Anchorage, Alaska 99513.

The time limits for filing an appeal are:

1. Parties receiving service of this decision shall have 30 days from receipt of this decision to file an appeal.

2. Unknown parties, parties unable to be located after reasonable efforts have been expended to locate, and parties who failed or refused to sign the return receipt shall have until November 1, 1982 to file an appeal.

Any party known or unknown who is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeals. Further information on the manner of and requirements for filing an appeal may be obtained from the Bureau of Land Management, 701 C Street, Box 13, Anchorage, Alaska 99513.

If an appeal is taken, the parties to be served with a copy of the notice of appeal are:

Tihteet' Ali, Inc., Birch Creek Village, via Fort Yukon, Alaska 99740.

Doyon, Limited, Land Department, Doyon Building, 201 First Avenue, Fairbanks, Alaska 99701.

Ann Johnson,

Chief, Branch of ANCSA Adjudication.

[FR Doc. 82-26993 Filed 9-29-82; 8:45 am]

BILLING CODE 4310-84-M

California Desert District; Harper Dry Lake Area of Critical Environmental Concern (ACEC)

AGENCY: Bureau of Land Management, Interior.

ACTION: Partial closure of ACEC to vehicle use.

SUMMARY: The closure is being implemented to protect significant and sensitive wildlife values from inadvertent damage caused by vehicle use. The authorities for the management plans vehicle closure are 43 CFR 8000.0–6, 8340, 8341, 8342, and 8364, the Federal Land Policy and Management Act of 1976, the National Environmental Policy Act of 1969, and the Sikes Act of 1974. The area affected by this designation is the Harper Dry Lake ACEC. The ACEC contains approximately 480 acres of BLM managed public lands in San Bernardino County. The designation is a result of a management plan for the ACEC which included public involvement. The ACEC Management Plan was developed following the guidelines established for the area in the California Desert Conservation Area Plan.

DATE: Effective September 15, 1982.

ADDRESS: Send inquiries to Area Manager, Barstow Resource Area, 831 Barstow Road, Barstow, California 92311. The ACEC Management Plan and public comments received will be available at the above address from 8 a.m. to 4:15 p.m. on regular working days. For further information contact Theodore Rado at the above address or (714) 256–3595. Under the authority provided in the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.), Executive Order 11644 (Use of Off-Road Vehicles on Public Lands), and the Sikes Act of 1974.

Vehicle Use

Vehicle use within the ACEC will not be permitted within 100 yards of marsh habitat. The area will be clearly signed. Vehicle use within remaining portions of the ACEC will be restricted to designated routes or to landsailing activities. A map showing the closed area is available for review at the Barstow Resource Area Office, 831 Barstow Road, Barstow, California. Copies of the map are available upon request from the same office.

The purpose of these regulations is to minimize conflicts between vehicle use and protection and enhancement of wildlife values. The public lands within the ACEC will remain open to other resources uses not in conflict with the objectives of the ACEC Management Plan. Administrative access by vehicle into areas closed to vehicle access for BLM personnel, BLM contractors, licensees, permittees, lessees, and other federal, state, and county employees is allowed when on official duty and when cleared beforehand by the authorized officer.

Dated: September 20, 1982.

Gerald E. Hillier,

District Manager.

[FR Doc. 82-26914 Filed 9-29-82; 8:45 am]

BILLING CODE 4310-84-M

California Desert District; Salt Creek Hills Area of Critical Environmental Concern (ACEC)

AGENCY: Bureau of Land Management, Interior.

ACTION: Partial closure of ACEC to vehicle use.

SUMMARY: The closure is being implemented to protect significant and sensitive wildlife values from inadvertent damage caused by vehicle use. The authorities for the management plans vehicle closure are 43 CFR 8000.0–6, 8340, 8341, 8342, and 8364, the Federal Land Policy and Management Act of 1976, the National Environmental Policy Act of 1969, and the Sikes Act of 1974. The area affected by this designation is the Salt Creek Hills ACEC. The ACEC contains approximately 2,000 acres of BLM managed public lands in northeastern San Bernardino County. The designation is a result of a management plan for the ACEC which included public involvement. The ACEC Management Plan was developed following the guidelines established for the area in the California Desert Conservation Area Plan.

DATE: Effective September 15, 1982.

ADDRESS: Send inquiries to Area Manager, Barstow Resource Area, 831 Barstow Road, Barstow, California 92311. The ACEC Management Plan and public comments received will be available at the above address from 8:00 A.M. to 4:15 P.M. on regular working days.Q02

FOR FURTHER INFORMATION CONTACT: Theodore Rado at the above address or (714) 256–3595.

Under the authority provided in the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.), Executive Order 11644 (Use of Off-Road Vehicles on Public Lands), and the Sikes Act of 1974.

Vehicle Use

Vehicle use within the ACEC will be restricted to a single existing route which provides access from State Highway 127. Vehicles will not be allowed in remaining areas. The area will be clearly signed. A map showing the ACEC boundary and single designated vehicle route is available for review at the Barstow Resource Area Office, 831 Barstow Road, Barstow, California. Copies of the map are available upon request from the same office.

The purpose of these regulations is to minimize conflicts between vehicle use in the area and protection and enhancement of wildlife values. The public lands within the ACEC will remain open to other resources uses not in conflict with the objectives of the ACEC Management Plan.

Administrative access by vehicle into areas closed to vehicle access for BLM personnel, BLM contractors, licensees, permittees, lesses, and other federal, state, and county employees is allowed when on official duty and when cleared beforehand by the authorized officer.

Dated: September 21, 1982.

Wesley T. Chambers,

Acting District Manager.

BILLING CODE 4310-84-M

Montana and North Dakota; Availability of Supplemental Material to the Draft Environmental Impact Statement for Coal Leasing in the Fort Union Coal Region and Extension of Review Period

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: In the **Federal Register** Notice of August 6, 1982, Vol. 47, No. 73, pages 34201–34202, a notice was given of the availability of the Draft Environmental Impact Statement (DEIS) for coal leasing in the Fort Union Coal Region. Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, notice is hereby given that the Bureau of Land Management (BLM), the Department of the Interior, has prepared supplemental material for the DEIS evaluating the air quality effects of coal development in the Fort Union Coal Region. This material has been prepared to provide public information resulting from contractual study results of air quality modeling in the study area. Copies have been provided to all reviewers of the subject DEIS. Because of this additional material the DEIS review date is also being extended to enable reviewers to comment on both the DEIS and the Air Quality Report.

DATES: Written comments on the air quality supplemental report and the Deis will be accepted up to and including October 19, 1982.

ADDRESSES: Written comments on the DEIS and Air Quality Report are to be addressed to, and copies of the document may be obtained from, Lloyd Emmons, Fort Union Coal Project Staff, Bureau of Land Management, 222 North 32nd Street, P.O. Box 30157, Billings, Montana 59107. The draft EIS and Air Quality Report are available for inspection at the following locations:

Montana State Office Public Room, Bureau of Land Management, 222 North 32nd Street, Billings, Montana 59107

BILLING CODE 4310-84-M

Winnemucca District Grazing Advisory Board; Meeting

Notice is hereby given in accordance with Pub. L. 92–463 that a meeting of the Winnemucca District Grazing Board will be held on November 18, 1982. The meeting will begin at 10:00 A.M. in the conference room of the Bureau of Land Management Office at 705 East Fourth Street, Winnemucca, Nevada.

The agenda for the meeting will include:

1. Water rights policy.
2. Annual Work Plan Fiscal Year 1983.
3. Update on Wild Horse/Burro Program.
4. CRMP update.
5. Wilderness EIS update.
6. Direction on use of 8100 funds.
7. Grazing Management Policy—MIC Categories. Discussion of final selective management criteria (MIC), and resultant Allotment Categories.
8. Management Framework Plan Step III.
9. Public Statements.
10. Grazing Fee Study.
11. Arrangement for next meeting and discussion of agenda items.

The meeting is open to the public. Interested persons may make oral statements to the Board between 1:00 and 2:00 P.M. on November 18, 1982 or file written statements for the Board's consideration. Anyone wishing to make an oral statement must notify the District Manager, 705 East Fourth Street, Winnemucca, Nevada 89445, by November 5, 1982. Depending on the number of persons wishing to make oral statements, a per person time limit may be established by the District Manager.

Summary minutes of the Board meeting will be maintained in the District Office and available for public inspection (during regular business hours) within 30 days following the meeting.

Dated: September 21, 1982.

Frank C. Shields,

District Manager for State Director, Nevada.

[FR Doc. 82-26916 Filed 9-29-82; 8:45 am]

BILLING CODE 4310-84-M

Idaho; Realty Action

AGENCY: Bureau of Land Management (BLM), Interior.

ACTION: Notice of realty action, I–18928, parcel No. 1 and parcel No. 2, modified competitive sale of public lands in Owyhee County, Idaho. The sale will be held at the Boise District Office, Bureau of Land Management, 3948 Development Avenue, Boise, Idaho 83705, at 1:00 p.m. on Wednesday, December 8, 1982. Parcel No. 1 will be sold first. Immediately thereafter Parcel No. 2 will be sold.

SUMMARY: The following-described land has been examined and identified as suitable for disposal by sale under Section 203 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2750; 43 U.S.C. 1713) at no less than the fair market value of $9,500 for Parcel No. 1 and $1,550 for Parcel No. 2.

Boise Meridian, Idaho

Parcel No. 1–T. 6 S., R. 5 W.,
Sec. 20, SW¼SW¼SE¼SW¼;
Sec. 28, SE¼SW¼NW¼NW¼, SW¼SW¼NE¼, S½SE¼NE¼NW¼, NW¼NW¼SE¼;
Sec. 29, NE¼SW¼NE¼, E½NW¼SW¼NE¼, SE¼NE¼NE¼SE¼.

47.5 acres.

Parcel No. 2–T. 6 S., R. 6 W.,
Sec. 13: N½NW¼NW¼SW¼, N½SE¼NW¼NW¼SW¼.

6.25 acres.

The land will be sold at public auction by modified competitive bidding.

Walter E. Morgan, Jordan Valley, Oregon 97910, the adjoining landowner of Parcel No. 1, will be the designated bidder to have a preference right to purchase Parcel No. 1 by meeting the highest bid. Such preference right is offered because Mr. Morgan is the historical user, has improvements on the land that are critical to the operation of his ranch.

Terry Warn, Jordan Valley, Oregon 97910, the adjoining landowner of Parcel No. 2, will be the designated bidder to have a preference right to purchase Parcel No. 2 at the highest bid. Such preference right is offered because Mr. Warn is the historical user, and has irrigated hay ground and irrigation ditches on the land that are an integral part of this operation.

The land has not been used for, and is not required for any Federal purpose. The location and physical characteristics of the parcels make it difficult and uneconomical to manage as public land. Disposal would not have any significant effect on resource values and would best serve the public interest.

A patent for the land, when issued, will be subject to the following conditions:

1. A right-of-way for ditches or canals constructed by the authority of the United States. Act of August 30, 1890, 26 Stat. 391; 43 U.S.C. 945.

2. All minerals will be reserved to the United States as required by Section 209(a) of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1719.

3. All valid existing rights and reservations of record.

Walter E. Morgan is the owner of the following valuable permanent improvements on the lands offered for sale, Parcel No. 1. If any person, other than Walter E. Morgan is the successful bidder on the lands being offered for sale, that person will be required to reimburse Walter E. Morgan for value of the improvements and furnish proof thereof to the Boise District Manager before conveyance may be made: barn and corrals.

Bidding Information and Instructions

Bidder Qualifications: The Federal Land Policy and Management Act requires that bidders must be citizens of the United States, 18 years of age or over, or, in the case of a corporation, be subject to the laws of any state or the United States. Bids may be made by a principal (the one desiring to purchase the land) or his duly qualified agent.

Bid Standards: No bid will be accepted for less than the appraised fair market value of $9,500 for Parcel No. 1 and $1,550 for Parcel No. 2. Bids must be for all the land.

Method of Bidding: Bids may be made either by mail or personally at the sale. Bids sent by mail will only be considered if received at the Boise District Office, 3948 Development Avenue, Boise, Idaho 83705, prior to 4:30 p.m. on December 7, 1982. Bids sent by mail must be in sealed envelopes accompanied by a certified check, postal money order, bank draft, or cashier's check made payable to the Bureau of Land Management for not less than one-fifth of the amount of the bid. Applicants bidding on more than one parcel shall submit bids in separate envelopes with the parcel numbers on the outside of the envelope. All sealed envelopes must be marked in the lower left-hand corner, "Sealed Bid, Public Land Sale I–18928, Parcel No. 1 or Parcel No. 2. Sale to be December 8, 1982." If two or more valid sealed bids in the same amount are received and they are the high bid, the determination of which is to be considered the highest bid shall be by a drawing. The drawing, if required, shall be held immediately following the opening of the bids. The highest qualifying sealed bid shall then be announced.

Oral bids will be received immediately after all sealed bids have been opened and the highest sealed bid is announced. The highest sealed bid will be the base for oral bids. All oral bids must be in increments of not less than $20.00. Sealed bidders present at the sale may also make oral bids. The highest bid price, either sealed or oral, will establish the sale price.

Modified Bidding: For a period of 30 days following the date of sale, Walter E. Morgan, Parcel No. 1, and Terry Warn, Parcel No. 2 will have a preference right to purchase the land by meeting the highest bid. If they meet the highest bid, the land will be sold to them, and the other low bids will be returned. Refusal or failure by the designated bidder to meet the highest bid shall constitute a loss of preference rights, and the land will be sold to the highest bidder.

Final Details: Once a high bid is accepted, the successful bidder shall submit the balance of the full bid price within the time designated by the authorized officer. Failure to submit the required balance within the period of time allowed will result in cancellation of the sale, and the bid deposit will be forfeited. If the high bid is accepted, the full bid price is paid, and the required citizenship or corporate qualifications are met, title to the lands will be conveyed by a patent.

Further Information/Inquiries: Detailed information concerning this sale, including the planning documents and Environmental Assessment, is available for review in the Boise District Office at the address indicated above. For a period of 45 days from the date of this notice, interested parties may submit comments to the Boise District Manager. Any adverse comments will be evaluated by the Idaho State Director, Bureau of Land Management, who may vacate or modify this realty action and issue a final determination. In the absence of any action by the State Director, this realty action will become the final determination of the Department of the Interior.

Dated: September 22, 1982.

Martin J. Zimmer,

Boise District Manager.

[FR Doc. 82-26920 Filed 9-29-82; 8:45 am]

BILLING CODE 4310-84-M

Idaho; Realty Action

AGENCY: Bureau of Land Management (BLM), Interior.

ACTION: Notice of realty action, I–18929, parcel No. 3 and parcel No. 4, competitive sale of public lands in Owyhee County, Idaho.

SUMMARY: The following-described land has been examined and identified as suitable for disposal by sale under Section 203 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2750; 43 U.S.C. 1713) at no less than the fair market value of $750 for Parcel No. 3 and $1,900 for Parcel No. 4:

Boise Meridian, Idaho

Parcel No. 3–T. 6 S., R. 6 W.,
Sec. 13, NW¼NE¼NW¼SW¼.

2.5 acres.

Parcel No. 4–T. 6 S., R. 6 W.,
Sec. 13, SW¼NW¼NW¼SW¼, W½SW¼NW¼SW¼

7.5 acres.

The land, which will be sold at public auction by competitive bidding, has not been used, and is not required for any Federal purpose. It does not complement BLM programs, and the location and physical characteristics of the parcels, along with the private ownership of adjoining lands, make it difficult and uneconomical to manage as public land. Disposal would not have any significant effect on resource values and would best serve the public interest.

A patent for the land, when issued, will be subject to the following conditions:

1. A right-of-way for ditches or canals constructed by the authority of the United States. Act of August 30, 1890, 26 Stat. 391; 43 U.S.C. 945.

2. All minerals will be reserved to the United States as required by Section 209(a) of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1719.

3. All valid existing rights and reservations of record.

The sale will be held at the Boise District Office, Bureau of Land Management, 3948 Development Avenue, Boise, Idaho 83705, 10:00 a.m., on Wednesday, December 8, 1982. Parcel No. 3 will be sold first. Immendiately thereafter Parcel No. 4 will be sold.

Bidding Information and Instructions

Bidder Qualifications: The Federal Land Policy and Management Act requires that bidders must be citizens of the United States, 18 years of age or over, or, in the case of a corporation, be subject to the laws of any state or the United States. Bids may be made by a principal (the one desiring to purchase the land) or his duly qualified agent.

Bid Standards: No bid will be accepted for less than the appraised fair market value of $750 for Parcel No. 3 and $1,900 for Parcel No. 4. Bids must be for all of the land.

Method of Bidding: Bids may be made either by mail or personally at the sale. Bids sent by mail will only be considered if received at the Boise District Office, 3948 Development Avenue, Boise, Idaho 83705, prior to 4:30 p.m. on December 7, 1982. Bids sent by mail must be in sealed envelopes accompained by a certified check, postal money order, bank draft, or cashier's check made payable to the Bureau of Land Management for not less than one-fifth of the amount of the bid. Applicants bidding on more than one parcel shall submit bids in separate envelopes with the parcel number on the outside of the envelope. All sealed envelopes must be marked in the lower left-hand corner, "Sealed Bid, Public Land Sale I–18929, Parcel No. 3 or Parcel No. 4. Sale to be December 8, 1982." If two or more valid sealed bids in the same amount are received and they are the high bid, the determination of which is to be considered the highest bid shall be by a drawing. The drawing, if required, shall be held immediately following the opening of the bids. The highest qualifying sealed bid shall then be announced.

Oral bids will be received immediately after all sealed bids have been opened and the highest sealed bid is announced. The highest sealed bid will be the base for oral bids. All oral bids must be made in increments of not less than $20.00. Sealed bidders present at the sale may also make oral bids. The highest bid price, either sealed or oral, will establish the sale price. If the highest bid is an oral bid, the successful bidder will be required to pay immediately one-fifth of the high bid price by cash, personal check, money order, bank draft, or any combination of these.

Final Details: The successful high bidder, whether it is by sealed or oral bid, will be required to submit full payment for the balance of the bid within 30 days from the date of the sale. Failure to submit such payment within the 30-day period shall result in cancellation of the sale, and the bid deposit shall be forfeited. All unsuccessful sealed bids will be returned within 30 days from the sale date. If no bids for the land, either sealed or oral, are received on the sale date, the sale will be adjourned until the next Wednesday at the same hour and place and continued on each succeeding Wednesday until the lands are sold as specified in this notice or the sale is otherwise terminated.

Further Information/Inquiries: Detailed information concerning this sale, including the planning documents and Environmental Assessment, is available for review in the Boise District Office at the address indicated above. For a period of 45 days from the date of this notice, interested parties may submit comments to the Boise District Manager. Any adverse comments will be evaluated by the Idaho State Director, Bureau of Land Management, who may vacate or modify this realty action and issue a final determination. In the absence of any action by the State Director, this realty action will become the final determination of the Department of the Interior.

Dated: September 22, 1982.

Martin J. Zimmer,

Boise District Manager.

BILLING CODE 4310-84-M

Montana; Redelegation of Authority

September 20, 1982.

AGENCY: Bureau of Land Management, Interior.

ACTION: Redelegation of authority.

SUMMARY: Section 1.1(a)(2) of Bureau Order No. 701 dated July 23, 1964, as amended by notice published at 45 FR 6177 on Friday, January 24, 1980, (FR Doc. 80-2428 filed 1/24/80; 8:35 a.m.) authorizes the Bureau of Land Management State Directors the opportunity to redelegate the authority to grant, renew, modify, reassign or revoke rights-of-way under Title I, Section 28 of the Mineral Leasing Act of 1920, as amended, and under the Federal Land Policy and Management Act of 1976 to Bureau of Land Management District and Area Managers. That authority is hereby redelegated to the Butte District Manager. This notice has no other effect on the provisions of FR Doc. 80-2428.

EFFECTIVE DATE: October 1, 1982.

FOR FURTHER INFORMATION CONTACT: Roland F. Lee, Montana State Office, Bureau of Land Management, P.O. Box 30157, Billings, Montana 59107

Michael J. Penfold,

State Director, Montana.

[N-017324, et al. and N-33501, et al.]

Nevada; Realty Action, Sale of Public Land

September 20, 1982.

This Notice of Realty Action supercedes the Notices of July 2, 1981 and June 14, 1982 for the following purposes: (1) To eliminate certain parcels from further consideration for public sale, (2) to modify the method in which certain parcels will be offered for public sale and (3) modify the bidding procedures applicable to the sale of those lands offered on a competitive basis and establish the minimum bid at not less than fair market value utilizing an appraisal.

The following described parcels, originally identified in the June 14, 1982 Notice to be offered on a non-competitive basis to small tract applicants, are hereby eliminated from further consideration for public sale due to conflicts with proposed plans for an expressway:

Parcel No.	Serial No.	Legal description	Acres
		T. 20 S., R. 60 E., MDM Section 27	
82-56		NE¼SW¼NE¼SW¼	1.5
82-57		W½SW¼NE¼SW¼	5.0
82-58	Nev-033109	SE¼SW¼NE¼SW¼	2.5

81-50	NW¼NW¼SE¼SW¼	2.5
81-52	NW¼SE¼SW¼SW¼	2.5
81-54	SE¼SE¼SW¼SW¼	2.5
81-56	SW¼SE¼SE¼SW¼	2.5
81-62	NW¼SW¼SE¼SE¼	2.5
81-63	SE¼SE¼SW¼SE¼	2.5
	Section 10	
81-64	NE¼NE¼NW¼NW¼	2.5
81-66	SW¼NW¼NW¼NW¼	2.5
81-69	SE¼NE¼SW¼NW¼	2.5
81-72	NE¼NE¼NW¼SW¼	2.5
81-73	SW¼NW¼NW¼SW¼	2.5
	Total acres 107.5	

The above parcels not purchased by small tract applicants will be offered to the general public on a competitive bidding basis at a later date.

The following described parcels, which were originally identified in the July 2, 1981 Notice to be offered on a competitive bidding basis to the general public, are hereby eliminated from further consideration for public sale due to conflicts with proposed plans for an expressway:

Parcel No.	Legal description	Acres
	T. 20 S., R. 60 E., MDM Section 26	
81-60	E½NE¼NW¼	20.0
81-61	E½NW¼NE¼NW¼	5.0
81-62	W½W¼NE¼NW¼; E½NW¼NW¼; E½W½NW¼NW¼	40.0
	Total acres	65.0

The following described parcels, which were originally identified in the July 2, 1981 Notice to be offered on a competitive bidding basis to the general public, remain identified for sale on a competitive basis pursuant to Pub. L. 96–586, under revised sale procedures at not less than fair market value utilizing an appraisal:

	Total acres	520.05

The competitive parcels will be offered at an auction utilizing oral bidding procedures. The highest oral bid will establish the purchaser. Adjoining land owners have no preference rights. Specific information regarding the time and the site of the auction, and bidding procedures will be published in a sale brochure and made available to the public at least three weeks prior to the sale. Any parcels not sold at the auction will be available at a later date for purchase "over-the-counter" on a first-come first-served basis at the Bureau of Land Management's Las Vegas District Office, 4765 Vegas Drive, Las Vegas, Nevada.

All lands offered in this notice are situated in the northwest quadrant of the Las Vegas Valley, having potential for urban-suburban development. Transfer of the land from Federal ownership will facilitate local land use planning and enhance its compatibility with adjoining private land uses. Prior to issuance of patent, the purchaser will

also have an opportunity to buy the locatable and saleable mineral interests in accordance with 43 CFR Part 2720.

Parcel numbers for those parcels offered for sale coincide with the last digit(s) of Bureau assigned serial numbers N–33501 through N–33601; Parcel 81–01 is N–33501, Parcel 81–101 is N–33601. Thirteen numbers are missing from the sequence. This resulted from the reconfiguration of various parcels, removal of three parcels and disposition of land in the original sale.

General terms and conditions of the sale are:

1. The land will be sold subject to all valid existing rights such as power transmission and telephone line easements and federally issued oil and gas leases.

2. The land will be sold subject to reservations for streets, roads and public utilities, both existing and proposed, in accordance with Clark County plans.

3. All land that is sold will be subject to applicable Clark County ordinances.

Purchasers will be required to pay a non-refundable deposit of at least twenty percent of the purchase price at the time of the sale. The remainder shall be due within thirty days of the sale. Personal or certified checks, money orders, and cash will be acceptable forms of payment. Only U.S. citizens and legally charted U.S. corporations are eligible to purchase these lands.

For a period of 45 days from the date this notice is published in the **Federal Register**, interested persons may submit comments regarding the sale to the State Director (N–943), P.O. Box 12000, Reno, NV 89520.

Wm. J. Malencik,

Chief, Division of Operations.

BILLING CODE 4310-84-M

Wyoming; Realty Action Modified, Competitive Sale of Public Lands in Johnson County

September 16, 1982

The following described land has been examined and identified as suitable for disposal by sale under Section 203 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1713, at no less than fair market value:

Sixth Principal Meridian

T. 51 N., R. 82 W.,

Section 30, lots 8 and 9.

The area described contains 48.66 acres.

The appraised value is $34,000.00.

The public land sale will be held on Friday, December 3, 1982, at the Buffalo Resource Area Office of the Bureau of Land Management, 300 Spruce Street, Buffalo, Wyoming. Registration of bidders will begin at 10:30 a.m. and the sale will commence at 11:00 a.m.

The land will be offered for sale by sealed and oral bid utilizing modified bidding procedures. John D. Hall, the owner of the surrounding private land, is the proposed designated bidder and will be offered the right to meet the high bid. Refusal or failure to meet the highest bid will constitute a waiver of such bidding provisions.

The land is an isolated tract with no legal access, is completely surrounded by private land owned by John D. Hall, and is within one-half mile of his ranch headquarters. Use of the lands is presently being authorized to John D. Hall by a grazing lease, agricultural lease, and a road right-of-way; he and his family have been historical users of the land.

The land has homesite/subdivision potential because of its topography, close proximity to Buffalo, Wyoming (approximately five miles), and proximity to county road (although approximately ½-mile of privately owned land must be crossed).

The land is difficult and uneconomic to manage as part of the public land system. The proposed sale is consistent with the Bureau's Planning System.

Sale of the land shall be subject to:

1. reservation of (right-of-way for ditches and canals to the United States pursuant to 43 U.S.C. 945;

2. reservation of mineral deposits in the land so patented, and to it, or persons authorized by it, the right to prospect, mine, and remove such deposits from the same under applicable law and such regulations as the Secretary of the Department of Interior may prescribe:

3. all valid existing rights and reservations of record.

Detailed information concerning the sale, including the planning documents, official correspondence with respect to case history, mineral report, and report, land environmental assessment is available for review at the Bureau of Land Management, Buffalo Resource Area, 300 Spruce Street, P.O. Box 670, Buffalo, Wyoming 82834.

Bidding information and instructions

Bidder Qualifications: The Federal Land Policy and Management Act requires that the bidders be U.S. citizens or, in the case of a corporation, subject to the laws of any state or the U.S. A state, state instrumentality, or political subdivision submitting a bid must be authorized to hold property. Any other entity submitting a bid must be legally capable of conveying and holding lands or interests therein under the laws of the State of Wyoming.

Bids must be made by the principal or his agent.

Bid Standards: No bid will be accepted for less than the appraised value of $34,000.00 and bids must include all of the land identified in this sale notice.

Method of Bidding: Sealed bids must be either mailed or delivered to the Bureau of Land Management, Buffalo Resource Area Office, 300 Spruce Street, P.O. Box 670, Buffalo, Wyoming 82834. Bids delivered or sent by mail will be considered only if received at the Buffalo Resource Area Office, prior to 4:00 p.m. the day before the sale. Each sealed bid must be in a sealed envelope and must be accompanied by a certified check, postal money order, bank draft or cashier's check, made payable to the Bureau of Land Management, for not less than one-fifth of the amount bid. The sealed bid envelope must be marked in the lower left-hand corner of the front of the envelope with the words "Public Land Sale W–80910, December 3, 1982—sealed bid". The highest sealed bid on the parcel will determine the base of the oral bidding conducted the day of the sale. If two or more envelopes are received containing the highest valid bids of the same amount, a determination of which is to be considered, the highest bid will be by drawing. The highest qualifying sealed bid will be publicly declared on the day of the sale and oral bids will then be invited. A paticipant in the sale must submit a sealed bid to be eligible to take part in the oral bidding.

Modified Bidding: After oral bids, if any are received, the highest apparent bidder will be declared. If the highest apparent bid is not held by John D. Hall, he will be allowed 30 days from the date of the sale to match the high bid and, if he does so, will be declared successful bidder. If he does not meet the high bid within the time frames given above, the highest apparent bidder will be designated successful bidder.

Final Details: The successful bidder shall submit the remainder of the full bid price within 30 days from the date of the sale. Failure to submit the full bid price within 30 days shall result in cancellation of the sale of the parcel and the deposit shall be forfeited and disposed of as other receipts of sale. All bids will be either returned, accepted, or rejected in writing within 60 days from the sale date.

For a period of 45 days from the date of this notice, interested parties may submit comments to the Bureau of Land Management, Casper District Office, 951

Rancho Road, Casper, Wyoming 82601. Any adverse comments will be evaluated by the district manager who may vacate or modify this realty action and issue a final determination. In absence of any action by the district manager, this realty action will become a final determination.

Paul W. Arrasmith,

District Manager.

Utah; Proposed Continuation of Withdrawal

The Bureau of Land Management, U.S. Department of Interior, propose to continue in its entirety, for a 20 year period, the existing withdrawal described below, pursuant to Sec. 204 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2751) (43 U.S.C. 1714). The withdrawal was established by Public Land Order No. 852, of July 1, 1952, for an Automobile Racing and Testing Grounds.

Salt Lake Meridian, Utah

T. 2 N., R. 16 W.,
Sec. 31, all.
T. 1 N., R. 17 W.,

Sec. 27, W½E½, W½;
Sec. 28, all;
Sec. 29, all;
Sec. 30, all;
Sec. 31, all;
Sec. 33, all;
Sec. 34, W½E½, W½.
T. 1 N., R. 18 W.,
Sec. 24, SE¼SE¼;
Sec. 25, E½.
T. 1 S., R. 17 W.,
Sec. 4, lots 2, 3, 4, S½NW¼, W½SW¼;
Sec. 5, all;
Sec. 6, all;
Sec. 7, N½NE¼;
Sec. 8, N½NW¼.

Aggregating 8,927.41 acres.

On or before December 30, 1982, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal continuation may present their views in writing to the undersigned authorized officer of the Bureau of Land Management.

Notice is hereby given that an opportunity for a public hearing is affored in connection with the proposed withdrawal continuation. All interested persons who desire to be heard on the proposal must submit a written request for a hearing to the undersigned before December 30, 1982. Upon determination by the State Director, Bureau of Land Management, that a public hearing will be held, a notice will be published in the **Federal Register** giving the time and place of such hearing. Public hearings are scheduled and conducted in accordance with BLM Manual section 2351.16B.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demands for the lands and their resources. He will review the withdrawal rejustification to insure that continuation would be consistent with the statutory objectives of the programs for which the lands are dedicated; the area involved is the minimum essential to meet the desired needs; the maximum concurrent utilization of the lands is provided for, and an agreement is reached on the concurrent management of the lands and their resources. He will also prepare a report for consideration by the Secretary of the Interior, the President and Congress, who will determine whether or not the withdrawal will be continued and if so, for how long. The final determination of the continuation of the withdrawal will be published in the **Federal Register.** The existing withdrawal will continue until such final determination is made.

All communications in connection with this proposed withdrawal continuation should be addressed to the undersigned officer, Bureau of Land Management, University Club Building, 136 East, South Temple, Salt Lake City, Utah 84111.

Dated: September 24, 1982.

Darrell Bares,

Chief, Branch of Lands and Minerals Operations.

BILLING CODE 4310-84-M

[OR 12]

Oregon; Partial Termination of Classification for Multiple Use Management

1. By order of the Oregon State Director, Bureau of Land Management, which was published in the **Federal Register** on January 27, 1967 (32 FR 1001), approximately 89,708 acres of public lands under the jurisdiction of the Bureau of Land Management were classified for multiple use management pursuant to the Classification and Multiple Use Act of September 19, 1964 (43 U.S.C. 1411-18) and the regulations in 43 CFR Part 2460. The lands are located in Deschutes and Lake Counties, Oregon.

2. Pursuant to 43 CFR 2461.5(c)(2), the classification is terminated except for the lands described in paragraph 3, upon publication of this notice in the **Federal Register.**

3. The following described lands remain classified for multiple use management and continue to be segregated from location for obsidian and chalcedony minerals under the general mining laws:

Willamette Meridian

T. 23 S., R. 22 E.,
Sec. 13;
Sec. 14, N½, SW¼,N½SE¼, and SE¼SE¼;
Sec. 15;
Sec. 17, E½, SE¼NW¼, and SW¼;
Sec. 18, Lots 1, 2, W½NE¼, SE¼NE¼, E½W½, and SE¼;
Sec. 19, E½ and E½SW¼;
Secs. 20 to 22, inclusive;
Sec. 23, E½NE¼, SW¼NE¼, W½, and SE¼;
Sec. 24, N½, NE¼SW¼, S½SW¼, and SE¼;
Secs. 25 to 31, inclusive;
Sec. 32, N½, SW¼, and NW¼SE¼;
Sec. 33;
Sec. 34, N½NE¼, SW¼NE¼, W½, and W½SE¼;
Sec. 35, E½, and N½NW¼.
T. 24 S., R. 22 E.,
Secs. 1 and 12.
T. 23 S., R. 23 E.,
Sec. 17;
Sec. 18, Lots 1, 2, 3, 4, NE¼, E½W½, N½SE¼, and SW¼SE¼;
Sec. 19, 20, and 28 to 32, inclusive.
T. 24 S., 23 E.,
Secs. 5 to 8, inclusive.

The area described aggregates 22,546.43 acres in Lake County, Oregon.

4. At 9:30 a.m., on November 8, 1982, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law, the lands involved will be open to operation of the public land laws generally. All valid applications received at or prior to 9:30 a.m., on November 8, 1982, shall be considered as simultaneously filed at

that time. Those received thereafter shall be considered in the order of filing.

5. At 9:30 a.m., on November 8, 1982, the following described lands will be open to location for obsidian and chalcedony minerals under the United States mining laws:

Willamette Meridian

T. 23 S., R. 22 E.,
Secs. 1 to 6, inclusive;
Sec. 7, Lots 1, 2, 3, 4, NE¼, and E½W½;
Secs. 8 to 12, inclusive.
T. 23 S., R. 23 E.,
Secs. 1 to 13, inclusive;
Sec. 14, N½, N½S½, SE¼SW¼, and S½SE¼;
Sec. 15.

The area described aggregates 15,337.27 acres in Lake County, Oregon.

6. Subject to the provisions of existing withdrawals, and except as provided in paragraphs 3 and 5, the lands have been and continue to be open to operation of the mining laws and mineral leasing laws.

Inquiries concerning the lands should be addressed to the State Director, Bureau of Land Management, P.O. Box 2965, Portland, Oregon 97208.

Dated: September 24, 1982.

Phillip C. Hamilton,

Acting State Director.

Motor Carrier Temporary Authority Applications

Correction

In FR Doc. 82-22929 appearing on page 36722 in the issue of Monday, August 23, 1982, make the following correction:

On page 36726, in the paragraph for MC 162574 (Sub-4-2TA), International Investments Corp., d.b.a. Universal Trucking, five lines from the top of the second column, "From points in * * *" should have read "Lumber and lumber products from points in * * *".

BILLING CODE 1505-01-M

Motor Carriers; Finance Applications; Decision Notice

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find:

Each transaction is exempt from section 11343 (formerly section 5) of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsiderations; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1132.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will indicate that consummation of the transfer will be presumed to occur on the 20th day following service of the notice, unless either applicant has advised the Commission that the transfer will not be consummated or that an extension of time for consummation is needed. The notice will also recite the compliance requirements which must be met before

the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 30 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

It is Ordered:

The following applications are approved, subject to the conditions stated in the publication, and further subject to the administrative requirements stated in the effective notice to be issued hereafter.

By the Commission, Review Board No. 3, Members Krock, Joyce, and Dowell.

Agatha L. Mergenovich,

Secretary.

MC–FC–79950. By decision of 8–5–82 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to Trans West Systems, Inc., of Pocatello, ID, of the operating rights issued to Cotant Truck Lines, Inc., of Chubbuck, ID, in Certificate No. MC–150770 (Sub-no. 2), authorizing the transportation of (1) automotive parts and accessories, between points in ID, on the one hand, and, on the other, points in AZ, CA, NV, UT, OR, and WA, and (2) such commodities as are dealt in by grocery stores and food business houses, between points in ID and UT, on the one hand, and, on the other, points in CA, OR, WA, ID, and UT; and in Permit No. MC–150770 (Sub-No. 1F), authorizing the transportation of general commodities (except classes A and B explosives, and household goods as defined by the Commission) between points in the U.S., under continuing contract(s) with Kraft, Inc., of Chicago, IL. Representative: Timothy R. Stivers, P.O. Box 1576, Boise, ID 83701. TA has not been sought.

Notes.—Transferee holds Certificate Nos. MC–160403 (Sub-No. 1) and MC–160403 (Sub-No. 2).

MC–FC–79954. By decision of September 21, 1982, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 aproved the transfer to ATLANTIC DISTRIBUTION SYSTEMS, INC., of Atlanta, GA, of Certificates Nos. MC–134030 (Sub-No. 1) and MC–134030 (Sub-No. 2F), issued to ATLANTIC MOVING & STORAGE, INC., of Atlanta, GA, authorizing in Sub-No. 1 the transportation of used household goods between points in Cobb, Clayton, DeKalb, Fulton, and Gwinnett Counties, GA, on the one hand, and, on the other, points in GA, restricted (1) to the transportation of traffic having a prior or subsequent movement, in containers, beyond the points authorized, and (2) to the performance of pickup and delivery service in connection with packing, crating, and containerization or unpacking, uncrating, and decontainerization of such traffic; and in Sub-No. 2F the transportation of household goods, as defined by the Commission, between points in GA, FL, and TX on the one hand, and, on the other, points in GA, FL, TX, LA, NC, SC, AL, MS, KY, TN, AR, and OK. Representative: Robert J. Gallagher, 1000 Connecticut Avenue N.W., Suite 1200, Washington, DC 20036.

Notes.—Transfeer holds no authority From this Commission, TA has not been sought.

MC–FC–80037. By decision of September 15, 1982 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR. 1132, Review Board Number 3 approved the transfer to WATSON & BROWN ENTERPRISES, INC., d.b.a. WATSON TRUCKING, of San Diego CA, of Permit No. MC–148875 Sub 2F, issued to KELLY H. WATSON ENTERPRISES, INC., d.b.a. WATSON TRUCKING of San Diego, CA, games and toys, between points in the U.S., under contract with Gremlin Industries, of San Diego, CA. Representative: Brock Watson, 8477 Aero Drive, San Diego, CA 92123.

MC–FC–80025. By decision of September 16, 1982 issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. 1132, Review Board Number 3 approved the transfer to James P. Anderson Trucking, Inc., of Hawarden, IA of Certificate No. MC–140411 (Sub-No. 1) issued to Heuertz Trucking, Inc., of LeMars, IA authorizing over irregular routes, transporting ores and minerals, between points in IA, NE, MN, and SD. Representative: D. Douglas Titus, 340 Insurance Exchange Bldg., Sioux City, IA 51101.

MC–FC–80033. By decision of September 14, 1982, issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. 1132, Review Board Number 3 approved the transfer to D & R TRUCKING, INC., of Casper, WY, of Certificate No. MC–145565 (Sub-No. 4) X issued to C.D. BRESHEARS, doing business as J & B SERVICES, of Casper, WY, authorizing: *Mercer* Commodities, between points in Natrona County, WY, on the one hand, and, on the other, points in ND, UT, CO, MT, and ID. Representative: Herbert F. McCulla, P.O. Box 471, Casper, WY 82601.

MC–FC–80043. By decision of September 14, 1982, issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. 1132, Review Board Number 3 approved the transfer to GEORGE A. GRATHWOHL of Fairfield, OH of Certificate No. MC–47710 issued to G.J.R., Inc., of Cincinnati, OH, authorizing *coal and coke and such commodities as are transported in dump trucks*, between Cincinnati, Ohio, on the one hand, and, on the other, Aurora, IN, points in that part of Ohio within 40 miles of Cincinnati, and points in those parts of Boone, Kenton, and Campbell Counties, KY, within 10 miles of the Ohio River, from Cincinnati, Ohio, to points in Wayne, Henry, Union, Fayette, Rush, Franklin, Decatur, Dearborn (except Aurora), Ohio, Ripley, Switzerland, and Jefferson Counties, IN. Representative: Lewis S. Witherspoon, 2455 North Star Road, Columbus, Ohio 43221.

Note.—Transferee is not a carrier. TA lease is not sought.

MC–FC–80044. By a decision of September 16, 1982, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR Part 1132, Review Board Number 3 approved the transfer to Gains's Express, Inc., of Holden, MA of Certificates No. MC–55665 and MC–55665 (Sub-No. 1) issued, to Gains's Express, Inc., of Jefferson, MA, authorizing general commodities, with exceptions, over regular and irregular routes, between specified points in MA. Transferee's representative: Carl Emmett Baylis, 370 Main Street, Worcester, MA 01608. Transferor's representative: Robert G. Parks, 20 Walnut Street, Suite 101, Wellesley Hills, MA 02181.

MC–FC–80053, by decision of September 20, 1982, issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. 1132, Review Board Number 3, approved the transfer to JAMES N. ALLEN, INC., of New Bethlehem, PA, of Certificate No. MC–148140 issued March 9, 1981, to JAMES N. ALLEN, of Distant PA, authorizing the transportation of (1) *coal*, in bulk, in dump vehicles, from points in Armstrong, Butler, Clarion, Clearfield, Elk, Forest, Indiana, Jefferson, and Venango Counties, PA, to points in CT, DE, MD, MI, NJ, NY, OH, VA, and WV, (2) *salt*, in bulk, in dump vehicles, from Watkins Glen, NY, and Whitemarsh, MD, to points in PA on and west of US Hwy 11, and (3) *calcium chloride*, in bulk in dump vehicles, from Ludington and Midland, MI, and Solvay, NY, to points in PA. Representative: James N. Allen, President, 308 Leasure Way, Bethlehem, PA 18242. Transferee is a carrier. T/A not sought.

MC–FC–80054. By decision of September 20, 1982 issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. 1132, Review Board Number 3

approved the transfer to David C. Weston Farms d/b/a Weston Trucking, Inc., of Tremonton, UT, of Certificate No. MC–157575 (Sub-No. 1) issued April 19, 1982, and Permit No. MC–157575 issued February 8, 1982, to Sandarosa Trucking (a corporation) of Logan, UT, authorizing transportation (1) as a motor common carrier, transporting *metal products,* between points in Box Elder County, UT, on the one hand, and, on the other, points in AZ, CA, CO, ID, MT, NV, NM, OR, WA and WY, and (2) as a motor *contract* carrier transporting *building and construction materials* and *metal products* between points in the United States under continuing contract(s) with Imperial Wholesale Supply, Inc., of Salt Lake City, UT, and Tom Nichols Construction Company, Inc., of Burley, ID, respectively. Representative: David C. Weston, 267 West Main, Tremonton, UT 84337.

MC–FC–80056 by decision of September 20, 1982 issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. 1132, Review Board Number 3 approved the transfer to Ray Evarts, doing business as of EXPRESSLY LTL of Certificate No. MC–155691 issued July 6, 1982 to Adrian Darkow; doing business as Expressly LTL authorizing the transportation over irregular routes of *general commodities* (except classes A and B explosives, household goods, and commodities in bulk), between Anchorage, AK, on the one hand, and, on the other, points in the Third Judicial District of AK. Applicants representative: J. Glen Cassity, 211 West Cook Avenue, Anchorage, AK 99501.

MC–FC–80059 by decision of September 20, 1982 issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. 1132 Review Board Number 3 approved the transfer to G&H MOTOR FREIGHT LINES, INC. OF GREENFIELD, IA of Certificate No. MC–48603 (Sub-Nos. 1, 2 and 3) issued March 10, January 30 and July 17, 1981, respectively to JERRY SIMPSON d/b/a THORTON TRANSFER, of Griswold, IA authorizing the transportation of (1) *general commodities* with exception over regular and irregular routes between Omaha, NE and named points in Western Iowa and (2) such commodities having a prior or subsequent movement by rail between points in IA, NE, and MO. Transferee holds authority in MC–110581. Applicants representative: James F. Cosby, James F. Cosby & Associates, 7363 Pacific St., Suite 210B, Omaha, NE 68114. No T/A has been filed.

[FR Doc. 82–26902 Filed 9–29–82; 8:45 am]
BILLING CODE 7035–01–M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated a public need for the proposed operations and that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Please direct status inquiries about the following to Team 2, (202) 275–7030.

Volume No. OP 2–236

Decided: September 23, 1982.

By the Commission. Review Board No. 1, Members Parker, Chandler, and Fortier. Member Chandler not participating.

MC 1222 (Sub-57), filed September 20, 1982. Applicant: THE REINHARDT TRANSFER COMPANY, 1410 10th St., Portsmouth, OH 45662. Representative: Robert H. Kinker, 314 West Main St., P.O. Box 464, Frankfort, KY 40602, 502–223–8244. Transporting *chemicals and related products, rubber and plastic products, and metal products,* between points in Will County, IL, Mason County, MI, and Hancock, Licking, and Lawrence Counties, OH, on the one hand, and, on the other, points in DE, MD, NJ, and DC.

Note.—Applicant may tack this authority with its existing regular route authority.

MC 67403 (Sub-15), filed July 22, 1982 (Correction), previously published in the **Federal Register** issue of August 10, 1982, and republished, as corrected, this issue. Applicant: BROES TRUCKING COMPANY, INC., Interstate Highway 295 & Dominick Lane, Paulsboro, NJ 08066. Representative: Robert F. Blomquist, 499 Cooper Landing Rd., Cherry Hill, NJ 08002, 609–667–6000. Transporting (1) *metal products,* (2) *commodities which because of their size or weight require the use of special handling or equipment,* (3) *machinery and parts,* (4) *lumber and wood products,* and (5) *building materials,* between points in NY, NJ, PA, CT, MA, RI, DE, VA, MD, WV, OH, VT, NH, NC, ME, and DC.

Note.—This republication is to correct the commodity description.

MC 109593 (Sub-22), filed September 20, 1982. Applicant: H. R. HILL, INC., P.O. Box 875, 2007 West Shawnee, Muskogee, OK 74401. Representative: Jack R. Anderson, Suite 305—Reunion Center, 9 East 4th St., Tulsa, OK 74103, 918–583–9000. Transporting *general commodities* (except classes A and B explosives, household goods, and

commodities in bulk), between points in the U.S. (except AK and HI), under continuing contract(s) with Midland Glass Co., Inc., of Cliffwood, NJ.

BILLING CODE 7035-01-M

[Volume No. OP4–342]

Motor Carriers; Republications of Grants of Operating Rights; Authority Prior to Certification; Decision Notice

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the **Federal Register**.

An original and one copy of a petition for leave to intervene in the proceeding must be filed with the Commission within 30 days after the date of this **Federal Register** notice. Such pleading shall address specifically the issue(s) indicated as the purpose for republication. A copy of the pleading shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

Please direct status inquiries to Team Four at (202) 275–7669.

MC 144757 (Sub-21) (republication), filed May 21, 1982; published in the **Federal Register** issue of June 23, 1982; and republished this issue. Applicant: Dakota Pacific Transport, Inc., 3104 East St. Patrick, Rapid City, SD 57701. Representative: J. Maurice Andren, 1734 Sheridan Lake Road, Rapid City, SD 57701, Phone: (605) 343–4036. In a decision by the Commission, Review Board Number 1, decided August 31, 1982, and finds that performance by applicant: To operate as a *common carrier*, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting *general commodities* between Arnaudville, Bryant, Bushville, Cecelia, Coteau Holmes, Gondron, Grant Point, Isle Labbe, Jefferson Island, Loreauville, New Iberia Connection, Oubre, Parks, Patin, Pecaniere, Summerall, Ulysse, Vida, and Walet, LA; Fairfax and Tarkio, MO; Buckley and Enumclaw, WA; Huntley and Ragan, NE; Bender, Breckenridge, Eddy, Erie, Grainville, Hunter, Lamont, Middleton, Peckham, Salt Fork Steen, and Simpson, OK; Weir City, KS; Bartlett, Cartago, Coso, Inyokern, Linnie, Little Lake, Olancha, and Sykes, CA; Corral and Hill City, ID; Cipsco Park, Carbon Lake, Leo Rock and Sand Ridge, IL; Viola, KS; Edgar, Johnson, Keuka, Newby and Oak Crest, FL; Pactolus, Stokes and Whitchard, NC; Ehrhardt, SC; Dundee, Lake Hamilton and Waverly, FL; Greenwood, Loyal and Spokeville, WI; Oakdale, NM; Pencilwood, CA; Berwick, OH; Mt. Hope, NJ; Buchanan, Carlton, Cochranton and Utica, PA; Dimeling, Madera, and Lilly, PA; Lansdown, NJ; Aqueduct, NY; Alexandria, Atlasburg, and St. Clair, PA; Kentmere, DE; La Otto and Huntertown, IN; Picatinny Arsenal, and Hudson, NJ; Whitehall, OH; Levans Mill, and Hepburnville, PA; Randolph, MA; Hughesville and Warren Glen, NJ; Gadsden, IN; Newton Highlands, MA; Toms River, NJ; East View, Elmsford, and Woodbine, NY; Cadiz , Grants, McVittys and Patterson, OH; Bowersville, Little Virginia, and New Providence, PA; Milton, DE; Olivers, San Pierre, Rupel, Tefft, Toto and Wheatfield, IN; Colon, Concord, Haires, Homer, Spring Arbor, Union City and Tekonsha, MI; Merchantville, Pavonia, Branchport, East Longbranch and Ft. Monmouth, NJ; Frankfort, Harbor, Ilion, McConnellsville, Pittsford, Cheming Junction, Elmira Heights and Horseheads, NY; Coleman, Columbiana Mine, Lisbon, De Cliff, Hepburn, Swan Creek, W. Marion, and N. Cherokee, OH; Ironsides, Glasgow and Irvona, PA; Ludlow, MA; Heilwood, PA; Honeoye Falls and Lima, NY; Ft. George G. Meade, MD; Charlottesville, Cumberland, Gem and Greenfield, IN; Garrettsville, Hiram, Leavittsburg, Phalanx, Amsterdam, Ann Mine, Bergholz, Hopedale, Industrial Mine, K & R 1 Mine, Mechanicstown, Piney Fork and Route 43 Washer, OH; Durbin, Aylesworth, Hebron, Kouts, Le Roy, North Judson and Winamac, IN; Bayard and Fairhope, OH; Betzwood, Port Indian, and Spring Mill, PA; Harding, Ontario, and Harrods, OH; Malden, NJ; Greason, Lees Cross Roads, Longsdorf, Newville, and Eclipse, PA; Arlington Siding, Fishkill Plains and Manchester Bridge, NY; Centerville and Germantown, IN; Eldorado, New Paris and Stillwater, OH; Clintondale, East Walden and Modena, NY; Amo, Clayton, Coatesville and Plainfield, IN; Cornwall, PA; Hightstown, NJ; Covington, Hillsboro, Range Road and Waynetown, IN; Mt. Carmel, PA; Birmingham, Ft. Dix and Penberton, NJ; Cunningham, Milton, and Semora, NC; Baskerville, Boydton, Buffalo Jct., Finchley, Mayo, Nelson, Union Level and Virgilina, VA; Carthage and Key West, MN; and Lake Kapowsin, WA, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), will serve a useful public purpose responsive to a public demand or need. Applicant is fit, willing and able properly to perform the granted service and to conform to statutory and administrative requirements. NOTE: To the extent that the certificate granted here authorizes the transportation of Classes A and B explosives, it will expire 5 years fom the date it is issued and Issuance of a certificate in this proceeding is conditioned upon applicant certifying to the Commission, prior to commencing operations, that all rail service has actually terminated at specified points. The certification should be sent to the Deputy Director, Section of Operating Rights, Interstate Commerce Commission, Washington, DC 20423.

Note.—The purpose of this republication is to include "used household goods" in the commodity description.

MC 158286 (Sub-8) (republication), filed April 15, 1982; published in the **Federal Register** issue of May 21, 1982; and republished this issue. Applicant: M. T. TRUCK LINE INC., 4947 W. 173rd St., Country Club Hills, IL 60477. Representative: James C. Hardman, Suite 2108, 33 North La Salle St., Chicago, IL 60602, Phone: (312) 236–5944. In a decision by the Commission, Review Board Number 3, decided August 6, 1982, and finds that performance by applicants a common carrier, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting: *general commodities* between Plainfield, Cartersburg, Clayton, Amo, Coatesville, and Fillmore, IN, on the one hand, and, on the other, points in the United States; will serve a useful public purpose responsive to a public demand or need. Applicant is fit, willing and able properly to perform the granted service and to conform to statutory and administrative requirements. Conditions: (1) The certificate to be issued in this proceeding, to the extent it authorizes the transportation of classes A and B explosives, shall be limited in point of time to a period expiring five (5) years

from the date of issuance and (2) Applicant must also certify to the Commission, prior to instituting the operations, that all rail service has actually terminated at the involved points. To accomplish this applicant will be required to send an affidavit marked "Certification of Rail Service Termination" to the Deputy Director, Section of Operating Rights, Interstate Commerce Commission, Washington, DC 20423.

Note.—The purpose of this republication is to include "classes A and B explosives, household goods and commodities in bulk, and service to Alaska and Hawaii".

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[Ex Parte No. 387 (Sub-280)]

Western Pacific Railroad Co.; Exemption for Contract Tariff ICC-WP-C-0031 (Canned Goods, Dried Fruit, Beverage Preparations)

AGENCY: Interstate Commerce Commission.

ACTION: Notice of provisional exemption.

SUMMARY: A provisional exemption is granted under 49 U.S.C. 10505 from the notice requirements of 49 U.S.C. 10713(e), and the above-noted contract tariff may become effective on one day's notice. This exemption may be revoked if protests are filed.

DATES: Protests are due by October 15, 1982.

ADDRESS: An original and 6 copies should be mailed to: Office of the Secretary, Interstate Commerce Commission, Washington, DC 20423.

FOR FURTHER INFORMATION CONTACT: Douglas Galloway, (202) 275-7278

or

Tom Smerdon, (202) 275-7277.

SUPPLEMENTARY INFORMATION: The 30-day notice requirement is not necessary in this instance to carry out the transportation policy of 49 U.S.C. 10101a or to protect shippers from abuse of market power; moreover, the transaction is of limited scope. Therefore, we find that the exemption request meets the requirements of 49 U.S.C. 10505(a) and is granted subject to the following conditions:

This grant neither shall be construed to mean that the Commission has approved the contract for purposes of 49 U.S.C. 10713(e) nor that the Commission is deprived of jurisdiction to institute a proceeding on its own initiative or on complaint, to review this contract and to determine its lawfulness.

This action will not significantly affect the quality of the human environment or conservation of energy resources.

(49 U.S.C. 10505)

Decided: September 24, 1982.

By the Commission, Review Board Number 2, Members Carleton, Williams, and Ewing.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development

Information for Prospective Lenders; Housing Guaranty Program

I. Introduction

The Housing Guaranty (HG) Program is financed by private capital and is administered by the U.S. Agency for International Development (A.I.D.). The HG Program promotes basic shelter and related services for low-income families throughout the developing world and is an integral component of A.I.D. assistance. The HG Program has been responsible for more than $1.6 billion in loans for housing and community and urban improvement projects in forty developing nations over the past twenty years.

The HG loans are financed by private U.S. lenders and are secured by a full faith and credit U.S. government guaranty. Authority for the guaranty is provided in Sections 221–223 of the Foreign Assistance Act of 1961, as amended (the "Act"). A.I.D. levies an initial charge of one percent (1%) of the amount of the loan, plus a guaranty fee of one-half of one percent (1%) of the unpaid principal balance of the loan per annum for the life of the loan, using this income to cover operating expenses and provide a reserve against claims.

This notice describes the Housing Guaranty Program and explains how private U.S. lenders may participate in the program.

II. Lender Eligibility

A. Definition

The terms "lender" and "investor" are used interchangeably by A.I.D. Section 238(c) of the Act defines "eligible investors" as:

(1) United States citizens;

(2) Corporations, partnerships, or other associations including nonprofit associations, created under the laws of the United States or any state or territory thereof and substantially beneficially owned by United States citizens; and

(3) Foreign corporations, partnerships, or other associations wholly owned by one or more such United States citizens, corporations, partnerships, or other associations: Provided, however, that the eligibility of such foreign corporations shall be determined without regard to any shares, in aggregate less than 5 percent of the total issued and subscribed share capital, held by other than the United States owners.

B. Procedures

It is the responsibility of a lender to determine whether or not it qualifies as an "eligible investor" under the Act. A.I.D. will not prequalify a lender. At A.I.D.'s option, a final determination of eligibility may be made with respect to a specific lender upon the issuance of a guaranty. A lender may request a final determination after submitting evidence of eligibility and stating its intent to hold the guaranteed notes for the life of the loan for investment purposes only.

III. Eligible Projects and Project Preparation

Projects accepted for HG loans are generally developed by foreign governments or institutions working in conjuction with A.I.D.'s overseas missions. To qualify, the projects must be designed to provide housing, infrastructure or improved community services to urban families whose annual income is below the median income levels in the areas where the projects are located. A.I.D.'s goals in development are far broader than planned physical construction alone. HG projects will generally include components in support of these goals, such as technical assistance in the development of improved national housing policies, or for the improvement of the country's financial institutions.

HG projects presently being financed:

Slum upgrading: Includes the provision of water, sewerage, and electricty; and may also include roads, health clinics, schools, and building materials for self-help home improvements;

Sites and services: Includes the necessary clearing or grading of vacant land; division and assignment of lots; construction of commón-use facilities;

Core housing: Sites and services program with the addition of a rudimentary housing shell on each lot, to be improved or added to by the owner;

Low-cost housing units: Housing built for sale; and,

Institution building: Refers to the support provided by A.I.D. to local housing institutions through financing primary and secondary mortgage markets.

There are three phases in the development of a specific housing guaranty project: project planning and design; formal A.I.D. project authorization; and project implementation. Lenders do not become involved in these three phases. Once the terms and conditions of a project have been agreed upon, and a project implementation agreement has been signed by the borrowing county and A.I.D., describing the project to be financed and the mutual obligations of the parties, thereafter, the borrower begins the lender selection process.

Contracts customarily required:

(1) Loan Agreement between the borrower and the lender stating the terms of the loan.

(2) Contract of Guaranty between A.I.D. and the lender stating the terms of the U.S. guaranty.

(3) Host Country Guaranty between A.I.D. and the government of the borrowing country providing for an indemnity to A.I.D. in the event of a default, whenever A.I.D. has had to make payments to the lender on behalf of the borrower.

(4) Paying the Transfer Agency Agreement between The Riggs National Bank of Washington, D.C. ("Riggs") and the borrower for servicing of the loan—this is a standard form used in all HG transactions.

(5) Primissory notes issued by the borrower and endorsed with an A.I.D. guaranty legend.

IV. Lender Selection

There are two approved methods for lender selection by a borrower, unless otherwise agreed to by A.I.D.: (1) Competitive negotiation and (2) non-competitive negotiation.

A. Competitive Negotiation

A.I.D. requires that the lending opportunities be advertised and that the borrowers solicit and give fair consideration to all bids received. A.I.D. will publish a notice of each investment opportunity in the **Federal Register** and will also send copies of the notice to firms on the A.I.D. mailing list.

Notices of a prospective investment opportunity will describe the borrowing and will state the closing day and hour by which all bids must be received. The notices will also establish a time period during which the bids must remain open.

Since the notices are based upon information supplied by the borrower, it may at times be necessary for a lender to obtain additional information directly from the borrower before entering a bid. Direct contract between lenders and borrowers is encouraged by A.I.D.

B. Non-competitive Negotiation

A borrower may select a lender through a non-competitive negotiation process after obtaining the written consent of the Director or the Deputy Director of the Office of Housing and Urban Development. Such consent is discretionary and will be made only after A.I.D. has determined that the use of A.I.D. non-competitive procedures will be in the best interest of the borrower and of A.I.D. This consent may be for a specific project or for all projects within a stated time period.

A.I.D. may impose conditions for its approval of a non-competitive lender selection process including a condition that notices of the transactions be published.

A.I.D. reserves the right to approve the interest rate and other terms and conditions under both procedures for lender selection.

V. Loan Terms and Conditions

There is no standard form for a Loan Agreement or a promissory note. It is the lender's reponsibility to draft such agreements, and then present them to A.I.D. for approval. However, certain terms or limitations are required in each loan agreement. These terms and limitations are described below.

A. Paying and Transfer Agency.

A.I.D. has appointed The Riggs National Bank of Washington, D.C. to be the Paying and Transfer Agent to service the loans. The costs of Riggs' services are paid by the borrower and are usually deducted from the first disbursement. Riggs' fees are dependent upon the number of noteholders, and therefore it is important that borrowers and lenders familiarize themselves with the fee schedule. A copy of the standard agreement to be entered into by each borrower and Riggs is available upon request from A.I.D.

B. Maximum Interest Rates.

The maximum rate of interest that can be charged borrowers, exclusive of reasonable service and commitment charges, is one percent (1%) above the maximum rate periodically set by the Department of Housing and Urban Development for insured mortgages on multi-family dwellings. Service and commitment charges in excess of one percent (1%) of the principal amount of the loan are included in the calculation of the interest rate charged the borrowers.

Both fixed rate and floating rate loans have been approved by A.I.D. in recent months. Information on the current maximum interest rate may be obtained by telephoning the Office of Housing and Urban Development (202) 632–0637 or the FHA (202) 755–5284.

C. Terms and Amortization. Other limitations, including grace periods and methods of amortization may be contained in specific project authorizations. A.I.D. encourages borrowers and lenders to agree upon terms that are in their best interests.

D. Prepayment. Prepayment rights are negotiated by the borrower and the lender. However, A.I.D. may insist that the borrower be permitted to prepay, in whole or in part, without penalty, in order to protect certain A.I.D. interests, and the loan agreements must reflect this right.

E. Fees and Other Charges. Lenders may charge reasonable fees. A.I.D. requests that lenders estimate their legal fees and other costs and include them in a single fee to be collected from the loan amount. As noted in paragraph B above, fees in excess of one percent (1%) of the loan will be viewed as a presumptive attempt to increase the yield to the lender and will be factored over the life of the loan to determine if the maximum interest rate has been exceeded.

VI. The A.I.D. Guaranty

After a loan agreement has been signed, A.I.D. will sign a Contract of Guaranty. The A.I.D. guaranty will be evidenced by a guaranty legend on each note, by manual or facsimile signature, indicating that the repayment of the note is guaranteed by the full faith and credit of the United States Government.

It is A.I.D.'s policy to avoid putting lenders through a formal claims process, although this policy is subject to change without notice. Riggs, as fiscal agent, is required to notify A.I.D. in the event of non-payment by the borrower on the due date. A.I.D. and Riggs will trace the payment. If no payment is made to the lender by the tenth (10th) calendar day after the due date, A.I.D. may deem that a constructive claim has been made by the lender. A.I.D. will transfer the required amount to Riggs from the Reserve Fund, and will instruct Riggs to make the payment to the lender from the transferred funds. A.I.D. will then be subrogated to the lender's rights against the borrower.

Additional terms and limitations to be contained in each Contract of Guaranty are:

Finders or Agents Fees. Unless A.I.D. otherwise agrees, lenders are requested

not to pay finders' or agents' fees to persons within the borrowing country.

Partial Payment. A.I.D. retains the right to make installment payments on behalf of a borrower thus preventing a default on a loan.

Records and Reporting: A.I.D. requires reporting by lenders and access to records of the lender concerning the loan made to the borrower, and guaranteed by A.I.D.

The following A.I.D. Office of Housing and Urban Development officials are authorized to execute Contracts of Guaranty to evidence A.I.D.'s guaranty by signing a guaranty on each individual note by manual or facsimile signature:

Director
Deputy Director
Assistant Director for Operations
Assistant Director for Program Support
Assistant Director for Financial Affairs

VIII. Other Considerations

A. Eligibility of the Notes

The guaranteed notes are legal investments for practically all types of institutional investors. Savings and loan associations may invest up to one percent (1%) of their total assets in securities guaranteed under the Act. An investor should consult with its legal counsel on this matter before purchasing a note.

B. Tax Status

Interest received on the notes is deemed to be foreign source income under the Internal Revenue Code and is subject to Federal income tax. No stamp tax, duty or other levy of any nature whatsoever imposed by or in the country of the borrower or any taxing authority therein is payable on account of the HG loan transactions, or the transfer of any note, nor may such tax be withheld from the payment of interest or principal on any note.

C. Amendments

This publication and the procedures outlined herein may be amended by the Director of the Office of Housing and Urban Development. For further information, or if you wish to be placed on the mailing list for notices on investment opportunities, please contact the Director, Office of Housing and Urban Development, Room 625, SA/12, Agency for International Development, Washington, D.C. 20523, Telephone: (202) 632–9637.

Dated: September 13, 1982.

Fredrik A. Haneen,

Deputy Director, Office of Housing and Urban Development.

NATIONAL CAPITAL PLANNING COMMISSION

Establishment of Agency SES Performance Review Board and Names of Board Members

Section 4314(c) of Title 5, U.S.C. (as amended by the Civil Service Reform Act of 1978) requires that each agency establish, in accordance with regulations prescribed by the Office of Personnel Management, one or more Performance Review Boards (PRB) to review, evaluate and make a final recommendation on performance appraisals assigned to individual members of the agency's Senior Executive Service. The PRB established for the National Capital Planning Commission also makes recommendations to the agency head regarding SES Performance awards, ranks and bonuses. Section 4314(c)(4) requires that notice of appointment of Performance Review Board members be published in the **Federal Register.**

The following persons have been appointed to serve as members of the Performance Review Board for the National Capital Planning Commission: Reginald W. Griffith, Donald F. Bozarth, Robert E. Gresham, Armen Tashdinian, Richard Petrocci.

For further information regarding SES Performance Review Board contact: Malcolm L. Trevor, Special Assistant to the Executive Director for Administration, National Capital Planning Commission, 1325 G Street, N.W., Suite 1003, Washington, D.C. 20576.

Dated: September 28, 1982.

Daniel H. Shear,

Secretary to the Commission.

BILLING CODE 7520-01-M

NATIONAL COMMISSION ON SOCIAL SECURITY REFORM

National Commission on Social Security Reform; Meeting

AGENCY: National Commission on Social Security Reform.

ACTION: Notice of Meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda of a forth-coming meeting of the National Commission on Social Security Reform. This notice also describes the functions of the Commission. Notice of this meeting is required under Section 10(a)(2) of the Federal Advisory Committee Act. This document is intended to notify the general public of their opportunity to attend.

DATE: October 18, 1982, 2:00 p.m. to 6:00 p.m.

ADDRESS: Room 5110, Dirksen Senate Office Building, Washington, DC 20510.

FOR FURTHER INFORMATION CONTACT: Robert J. Myers, Executive Director, 736 Jackson Place NW., Washington, DC 20503; Telephone (202) 395–5132.

SUPPLEMENTARY INFORMATION: The National Commission on Social Security Reform is established by Executive Order No. 12335 dated December 16, 1981 to provide appropriate recommendations to the Secretary of Health and Human Services, the President, and the Congress on long-term reforms to put Social Security back on a sound financial footing.

The meeting of the Commission is open to the public. The proposed agenda includes:

Social Security financing; short and long term.

Such new business as the Chairman or the membership may put before the Commission.

Records are kept of all Commission proceedings, and are available for public inspection at the office of The Executive Director, National Commission on Social Security Reform, 736 Jackson Place NW., Washington, DC 20503.

Robert J. Myers,

Executive Director.

NATIONAL SCIENCE FOUNDATION

Advisory Committee for Astronomical Sciences; Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92–463, as amended, the National Science Foundation announces the following meeting:

Name: Advisory Committee for Astronomical Sciences
Date and Time: October 18, 1982 9 a.m.–5 p.m.; October 19, 1982 9 a.m.–4 p.m.
Type of Meeting: Open.
Place: Room 338, National Science Foundation, 1800 G St., NW., Washington, D.C.
Contact Person: Dr. Laura P. Bautz, Director, Division of Astronomical Sciences, Room

615, National Science Foundation, Washington, D.C. 20550.
Summary Minutes: May be obtained from the contact person at the above address.
Purpose of Committee: To provide advice and recommendations concerning research programs, proposals, and projects in NSF-funded astronomy with the objective of achieving the highest quality forefront research for the funds allocated. To provide advice and recommendations concerning short range and long range plans in astronomy, including a recommendation of relative priorities.

Monday, October 18

Agenda:
9 a.m.–5 p.m.: Introduction, Status of FY 83 Budget and other Items, FY 84 Outlook, Long Range Priorities, Relation Between Ground- and Space-based Astronomy.

Tuesday, October 19

9 a.m.–4 p.m.: AURA Study of Reorganization, Presentation of the Astronomical Instrumentation and Development Program, Continued Discussion of Topics from Previous Day, Concerns of Committee.

M. Rebecca Winkler,

Committee Management Coordinator.

September 27, 1982.

National Science Board; Commission on Precollege Education in Mathematics, Science and Technology; Open Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92–463, the National Science Foundation announces the following meeting:

Name: National Science Board Commission on Precollege Education in Mathematics, Science and Technology.
Date and Time: October 19, 1982; 9 a.m.–5 p.m.
Place: National Science Foundation, 1800 G Street, NW., Room 540 (Board Room), Washington, D.C. 20550.
Type of Meeting: Open.
Contact Person: Dr. Richard S. Nicholson, Executive Director, Commission on Precollege Education in Mathematics, Science and Technology, Room 527, National Science Foundation, Washington, D.C. 20550.
Summary Minutes: Contact Dr. Richard S. Nicholson at the above address.
Purpose of Commission Meeting and Agenda: The four Task Groups, established at the July 9–10 meeting, will present preliminary findings to the full Commission which will provde guidance to the Groups for the continuance of Phase II activities.

M. Rebecca Winkler,

Committee Management Coordinator.

September 29, 1982.

Subpanel on Molecular Biology, Group B, of the Advisory Panel for the Division of Physiology, Cellular, and Molecular Biology; Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92–463, as amended, the National Science Foundation announces the following meetings:

Name: Subpanel on Molecular Biology, Group B, of the Advisory Panel for Physiology, Cellular and Molecular Biology.
Date and Time: Oct. 18 and 19, 1982, 9:00 a.m. to 5:00 p.m. each day.
Place: Room 1224, National Science Foundation, 1800 G Street, NW., Washington, D.C. 20550.
Type of Meeting: Closed.
Contact Person: Dr. Huber R. Warner, Program Director, Biochemistry Program, Room 329, National Science Foundation, Washington, D.C. 20550.
Purpose of Subpanel: To provide advice and recommendations concerning support for research in Molecular Biology.
Agenda: To review and evaluate research proposals as part of the selection process for awards.
Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information, financial data, such as salaries and personal information concerning individuals associated with the proposals. These matters are with exemptions (4) and (6) of 6 U.S.C. 552(c), Government in the Sunshine Act.
Authority to Close Meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of Pub. L. 92–463. The Committee Management Officer was delegated the authority to make such determinations by the Director, NSF, on July 6, 1979.

M. R. Winkler,

Committee Management Coordinator.

NUCLEAR REGULATORY COMMISSION

Systems of Records; Annual Publication

AGENCY: Nuclear Regulatory Commission.

ACTION: Notices of Systems of Records, Annual Publication.

SUMMARY: The Privacy Act of 1974 (5 U.S.C. 552a(e)(4)) requires each Federal agency to publish annually in the Federal Register a notice of the existence and character of their systems of records notices that contain personal data information. The Act also requires that the information contained in each system of records be maintained in a manner that is timely, relevant, and up-to-date. This notice clarifies and updates the NRC Systems of Records. This compilation includes 38 Systems of Records as well as the Prefatory Statement of General Routine Uses.

40. Facility Security Support Files and Associated Records—NCR

These systems of records are those systems maintained by the Nuclear Regulary Commission which contain personal information about individuals, and from which such information can be retrieved by reference to an individual identified.

The notice for each system of records states the name and location of the record system, the authority for and manner of its operation, the categories of individuals which it covers, the types of records which it contains, the sources of information in those records, and the proposed "routine uses" of each system of records. Each notice also includes the business address of the NRC official who will inform interested persons of the procedures whereby they may gain access to and correct records pertaining to themselves.

One of the purposes of the Privacy Act, as stated in Section 2(b)(4), is to provide certain safeguards for an individual against an invasion of personal privacy by requiring Federal agencies to "* * * disseminate any record of identifiable personal information in a manner that assures that such action is for a necessary and lawful purpose, that information is current and accurate for its intended use, and that adequate safeguards are provided to prevent misuse of such information." The NRC intends to follow these principles in transferring information to another agency or individual as a "routine use," including assurance that the information is relevant for the purposes for which it is transferred.

Prefatory Statement of General Routine Uses

The following routine uses apply to each system of records notice set forth below which specifically references this Prefatory Statement.

1. In the event that a system of records maintained by the NRC to carry out its functions indicates a violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rules or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

2. A record from this system of records may be disclosed, as a routine use, to a Federal, state, local or foreign agency, if necessary, to obtain information relevant to an NRC decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

3. A record from this system of records may be disclosed, as a routine use, to a Federal, state, local or foreign agency in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

4. A record from this system of records may be disclosed, as a routine use, in the course of discovery and in presenting evidence to a court, magistrate, administrative tribunal, or grand jury, including disclosures to opposing counsel in the course of settlement negotiations.

5. Disclosure may be made, as a routine use, to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual.

6. A record from this system of records may be disclosed, as a routine use, to an NRC contractor on a "need to know" basis for a purpose within the scope of the pertinent NRC contract. Such access will be granted to an NRC contractor by a system manager only after satisfactory justification has been provided to the system manager.

NRC-1

SYETEM NAME:

Appointment and Promotion Certificate Records—NRC.

SYSTEM LOCATION:

Primary system—For Headquartrs personnel, Division of Organization and Personnel, Office of Administration, NRC, 7910 Woodmont Avenue, Bethesda, Maryland.

For Regional personnel, at each of the Regional Offices listed in Addendum I, Part 2.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Candidates for employment and NRC employees who are being considered for promotion and reassignment.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system of records contains vacancy announcements, applications for vacancies, selection certificates, the results of reference checks on employees, performance appraisals, and related records. The records pertain to specific announced vacancies which have been posted in accordance with the NRC Vacancy Announcement System.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

a. 5 U.S.C. 1302 (1976);
b. 42 U.S.C. 2201(d) (1976).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. To prepare reports for the Office of Personnel Management and/or Merit Systems Protection Board;

b. By the Office of Personnel Management and/or Merit Systems Protection Board to resolve complaints and grievances regarding employment and promotion selection;

c. For audit and review by the Office of Personnel Management and/or Merit Systems Protection Board;

d. For any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records maintained in file folders in the Division of Organization & Personnel, Bethesda, MD or the NRC Regional Offices, I–IV, or the NRC Warehouse.

RETRIEVABILITY:

Information is accessed by vacancy announcement number, and by name within the individual vacancy announcement folders.

SAFEGUARDS:

Maintained in locked file cabinets. Access to and use of these records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

Retained for 2 years from date of selection, then personal records destroyed by shredding; nonpersonal records are destroyed through regular trash disposal system.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Staffing Section, Staffing & Position Evaluation Branch, Division of Organization & Personnel, Office of Administration, NRC, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, NRC, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Individual on whom the record is maintained, individual's current and previous supervisors, references, general personnel records (Official Personnal Folders and related records), and other Federal agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Pursuant to 5 U.S.C. 552a(k)(5), the Commission has exempted portions of this system of records from 5 U.S.C. 552a (c)(3), (d), (e)(1), (e)(4) (G), (H), and (I), and (f). The exemption rule is contained in 10 CFR 9.95 of the NRC regulations.

NRC-2

SYSTEM NAME:

Biographical Information Records—NRC.

SYSTEM LOCATION:

Office of Public Affairs, NRC, 7735 Old Georgetown Road, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Commissioners, members of the Atomic Safety and Licensing Board and Appeal Board Panels, and senior NRC staff members.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain information relating to education and training, employment history, and other general biographical data relating to the Commissioners, members of the Atomic Safety and Licensing Board and Appeal Board Panels, and senior NRC staff members.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 2241, 5841, 5843(a), 5844(a), 5845(a), and 5849 (1976).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. To provide information to the press;

b. To provide information to other persons and agencies requesting this information; and

c. For the routine uses specified in paragraph numbers 5 and 6 of the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records are maintained in file folders.

RETRIEVABILITY:

Records are accessed by name.

SAFEGUARDS:

Maintained in unlocked file cabinets. Access to and use of these records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

Retained until updated or association with NRC is discontinued, then destroyed through regular trash disposal system.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Office of Public Affairs, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Information in this system of records is provided by each individual and approved for use by the individual involved.

NRC-3

SYSTEM NAME:

Byproduct Material License Records—NRC.

SYSTEM LOCATION:

Primary system—Division of Fuel Cycle and Material Safety, Office of Nuclear Material Safety and Safeguards, NRC, 7915 Eastern Avenue, Silver Spring, Maryland.

Duplicate system—duplicate systems exist, in whole or in part, at the locations listed in Addendum I, Part 2; and the NIH Computer facility, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Applicants and licensees (active and inactive) for byproduct material licenses.

CATEGORIES OF RECORDS IN THE SYSTEM:

Information contained in this system reflects data supplied by applicants and licensees and developed by the NRC staff in the license review and authorization process with respect to the possession and use of byproduct material. System component records developed and maintained by the NRC staff also include summary and index type data promoting quick access to and breakout of such information as:

a. Alphabetical listings of active and inactive licenses and applicants for licenses arranged by state and by a master listing;

b. Cross indexes of names to assigned license numbers;

c. Dates of license issuance and expiration; and

d. Geographic location of licensees by state and town.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 2201(o) (1976).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. To provide records to state health departments for their information and use;

b. To provide information to Federal, state and local health officials, and other persons in the event of incident or exposure, for purposes of their information, investigation and protection of public health and safety; and

c. For any of the routine uses specified in the Prefatory Statement.

In addition, certain of the information provided in this category is routinely placed in the NRC's Public Document Room.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on paper, index cards, computer tapes and printouts, microfilm and mag cards.

RETRIEVABILITY:

System data is indexed by licensee/applicant name within state; alphabetically by licensee name within license expiration time periods; by assigned license number in juxtaposition with licensee name.

SAFEGUARDS:

Maintained in unlocked file cabinet under visual control of file supervisor. Access to and use of these records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

Records are continuously changed or amended as new information is developed or individual licenses are cancelled or terminated; license files are transferred to Federal Records Center in Suitland, Maryland, when they become inactive or terminated. Obsolete data, except for record copy maintained at Federal Records Center, is destroyed quarterly through regular trash disposal system.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Fuel Cycle and Material Safety, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Data supplied by applicants and licensees and developed by NRC technical staff.

NRC–4

SYSTEM NAME

Conflict of Interest Files—NRC.

SYSTEM LOCATION:

Primary system—Office of the General Counsel, NRC, 1717 H Street, NW, Washington, DC.

Duplicate systems—duplicate systems exist, in whole or in part, at the location listed in Addendum I, Parts 1 and 2.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons who are employees, special employees and consultants of NRC.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain information relating to:

a. General biographical data (i.e., name, birthdate, home address, position title, home and business telephones, citizenship, educational history, employment history, professional society memberships, honors, fellowships received, publications, licenses, and special qualifications);

b. Financial status (i.e., nature of financial interests and in whose name held, creditors, character of indebtedness, interest in real property, monthly U.S. Civil Service Annuity, and status as Uniformed Services Retired Officer);

c. Certifications by employees that they and members of their families are in compliance with the Commission's stock ownership regulations;

d. Requests for approval of outside employment by NRC employees and NRC responses thereto;

e. Determination (i.e., no conflict or apparent conflict of interest, questions requiring resolution, steps taken toward resolution); and

f. Information pertaining to appointment (i.e., proposed period of NRC service, estimated number of days of NRC employment during period of service, proposed pay, clearance status, description of services to be performed and explanation of need for the services, justification for propsed pay, description of expenses to be reimbursed and dollar limitation, and description of government-owned property to be in possession of appointee).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

a. 18 U.S.C. 201 (1976);
b. Executive Order 11222, May 8, 1965;
c. 10 CFR 0.735–29; 10 CFR 0.735–40.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. To provide the Department of Justice, Office of Personnel Management, and/or Merit Systems Protection Board with information concerning an employee in instances where this office has reason to believe a Federal law may have been violated or where this office desires the advice of the Department, Office or Board concerning potential violations of Federal law;

b. For any of the routine uses specified in the prefatory statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records are maintained in file folders.

RETRIEVABILITY:

Records are accessed by name.

SAFEGUARDS:

Maintained in locked file cabinets.

RETENTION AND DISPOSAL:

Retained in office file for 2 years after employee leaves position in which statement is required, or for 2 years after separation, whichever is earlier, then forwarded to the Federal Records Center, Suitland, Maryland.

SYSTEM MANAGER(S) AND ADDRESS:

General Counsel, Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Information in this system of records either comes from the individual to whom it applies or is derived from information he or she supplied, or comes from the office to which the individual is to be assigned.

NRC–5

SYSTEM NAME:

Contracts Records Files—NRC

SYSTEM LOCATION:

Primary system—Division of Contracts, NRC, 4550 Montgomery Avenue, Bethesda, Maryland.

Duplicate systems—duplicate systems exist, in whole or in part, at locations listed in Addendum I, Parts 1 and 2.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons who are employed as NRC consultants or contractors.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain personal information (such as technical qualifications, education, rates of pay, employment history) of contractors and their employees, and other contracting records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 2051, 2201, and 5845(1976).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. To provide information to Department of Health and Human Services, Defense Contract Audit Agency, General Accounting Office, and other Federal agencies for audits and reviews; and

b. For any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders.

RETRIEVABILITY:

Accessed by contract number and purchase order number, cross-referenced with the name of the consultant, contractor, or vendor.

SAFEGUARDS:

Maintained in unlocked conserver files. Access to and use of these records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

Contracts greater than $10,000 are destroyed 6 years and 6 months after final payment; $10,000 or less—3 years after final payment. Records are destroyed through regular trash disposal system, except for confidential business (proprietary) information which is destroyed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Contracts, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure." Some information was received in confidence and will not be disclosed to the extent that disclosure would reveal confidential business (proprietary) information.

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Information in this system of records comes from the contractor or potential contractor.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Pursuant to 5 U.S.C. 552a(k)(1) and (5), the Commission has exempted portions of this system of records from 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H), and (I), and (f). The exemption rule is contained in 10 CFR 9.95 of the NRC regulations.

NRC-6

SYSTEM NAME:

Development and Advancement for Regulatory Employees (DARE) Records—NRC.

SYSTEM LOCATION:

Division of Organization and Personnel, Office of Administration, NRC, 7910 Woodmont Avenue, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

NRC employees who desire to enhance their training and experience qualifications for movement into administrative, paraprofessional and professional ranks.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system of records contains personnel qualification statements, job descriptions, self-evaluation forms, examination results, supervisory evaluation forms, performance appraisals, DARE counselors' reports, training guides, course plans, and related correspondence.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

a. 42 U.S.C. 2000e and 5871 (1976);

b. Executive Order 11478, August 8, 1969.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. To prepare reports for transmittal to the Office of Personnel Management and/or Merit Systems Protection Board;

b. For any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF THE RECORDS IN THE SYSTEM:

STORAGE:

Paper records maintained in file folders.

RETRIEVABILITY:

Information accessed by name.

SAFEGUARDS:

Records are maintained in locked desk drawer and access is limited to those persons whose official duties require such access. Personnel screening is employed to prevent unauthorized disclosure.

RETENTION AND DISPOSAL:

Active records retained indefinitely. Inactive records are sent to the National Personnel Records Center within 30 days of the date of the employee's separation from the Federal service and records of non-selected applicants retained up to 1 year, then destroyed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

DARE Program Coordinator, Division of Organization and Personnel, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure." Some information was received in confidence and will not be disclosed to the extent that disclosure would reveal a confidential source. Testing material may not be disclosed to the extent such disclosure would compromise the testing process.

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Individual on whom the record is maintained, individual's current and previous supervisors within and outside NRC, and the DARE counselors and program coordinator.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Pursuant to 5 U.S.C. 552a(k)(5) and (6), the Commission has exempted portions of this system of records from 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4) (G), (H), and (I), and (f). The exemption rule is contained in 10 CFR 9.95 of the NRC regulations.

NRC-7

SYSTEM NAME:

Division of Technical Information and Document Control Workload Assignment and Production Records—NRC.

SYSTEM LOCATION:

Primary system—Division of Technical Information and Document Control, Office of Administration, NRC, 7920 Norfolk Avenue, Bethesda, Maryland.

Duplicate systems—duplicate systems exist, in whole or in part, at the locations listed in Addendum I, Part 1.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

NRC employees assigned to word processing and printing/reproduction and graphic units.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain, under employee name, listings of work assignments and individual production records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

31 U.S.C. 21, 22, 24, 49, 54, and 66a(1976); 42 U.S.C. 2201(1976).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES.

Information in these records may be used by the Division of Technical Information and Document Control for any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on paper and log sheets.

RETRIEVABILITY:

Indexed by employee name within period reports.

SAFEGUARDS:

Files relating to comparative employee production and analysis thereof are maintained in locked cabinets. Budgetary and staffing projection data maintained in locked and unlocked equipment. All files are under immediate control of supervisory staff.

RETENTION AND DISPOSAL:

Records are retained in office files for 2 years, and then destroyed by regular trash disposal system.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Technical Information and Document Control, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Individual employees, supervisory assignment and analysis records.

NRC-8

SYSTEM NAME:

Employee Appeals, Grievances and Compliants Records—NRC.

SYSTEM LOCATION:

Primary system—Division of Organization and Personnel, Office of Administration, NRC, 7910 Woodmont Avenue, Bethesda, Maryland.

Duplicate system—duplicate systems exist, in whole or in part, at locations listed in Addendum I, Parts 1 and 2.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Applicants for NRC employment, current and former NRC employees, and annuitants who have filed complaints or initiated grievance or appeal proceedings as a result of a determination made by the NRC, Office of Personnel Management and/or Merit Systems Protection Board, or a Board or other entity established to adjudicate such grievances and appeals.

CATEGORIES OF RECORDS IN THE SYSTEM:

Includes all documents related to grievances, arbitrations, negative determinations regarding within-grade salary increases and exit interviews. It contains information relating to determinations affecting indivduals made by the NRC Office of Personnel Management and/or Merit Systems Protection Board. The records consist of the initial appeal or complaint, letters or notices to the individual, record of hearings when conducted, materials placed into the record to support the decision or determination, affidavits or statements, testimony of witnesses, investigative reports, instructions to an NRC office or division concerning action to be taken to comply with decisions, and related correspondence, opinions, and recommendations.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 2201(d) (1976).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. To furnish information to the Office of Personnel Management and/or Merit Systems Protection Board pursuant to applicable requirements relative to grievances and appeals;

b. To provide appropriate data to union representatives and third parties in connection with grievances, arbitration actions and appeals. Third parties may include the Federal Service Impasses Panel and Federal Labor Relations Authority; and

c. For any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are maintained in file folders, binders, and index cards.

RETRIEVABILITY:

These records are indexed by the names of the individuals on whom they are maintained.

SAFEGUARDS:

Maintained in locked file cabinets. Access to and use of these records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

Retained 3 years after case is closed, then destroyed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Labor Management and Employee Relations Branch, Division of Organization and Personnel, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure." Some information was received in confidence and will not be disclosed to the extent that disclosure would reveal a confidential source.

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Individuals to whom the record pertains, NRC, Office of Personnel Management and/or Merit Systems Protection Board officials; affidavits or statements from employees, union representatives, or other persons; testimony of witnesses; and official documents relating to the appeal, grievance or complaint; Official Personnel Folder; and other Federal agencies.

NRC-9

SYSTEM NAME:

Equal Employment Opportunity Records Files—NRC.

SYSTEM LOCATION:

Office of Small and Disadvantaged Business Utilization and Civil Rights, NRC, 7735 Old Georgetown Road, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Applicants for NRC employment and current and former NRC employees who have filed a complaint of discrimination with the Office of Small and Disadvantaged Business Utilization and Civil Rights.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system or records contains copies of written reports by counselors; the investigative file; documentation of withdrawn, cancelled, rejected and/or adjusted discrimination complaints; complainant's name, title and grade; kind of discrimination alleged; description of action, decision, or condition giving rise to the complaint; description of remedial action; description of disciplinary action, if any; and copy of the letter of proposed disposition of the complaint and right to a hearing; and record of appeals examiner's finding, analysis, and recommended decision.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

a. 42 U.S.C. 2000e and 5891(1976);

b. Executive Orders 11246, September 24, 1965; 11375, October 13, 1967; and 11478, August 8, 1969.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. To furnish information relative to EEO matters to the Equal Employment Opportunity Commission, the Office of Personnel Management and/or Merit Systems Protection Board in accordance with applicable requirements; and

b. For any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained in file folders, binders, index cards, and on computer tapes (minority code only).

RETRIEVABILITY:

Accessed by name.

SAFEGUARDS:

Maintained in locked file cabinets. Access to and use of these records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

Retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Office of Small and Disadvantaged Business Utilization and Civil Rights, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure." Some information was received in confidence and will not be disclosed to the extent that disclosure would reveal a confidential source.

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Individual to whom the record pertains, counselors, NRC, the Office of Equal Employment Opportunity Commission, the Office of Personnel Management and/or Merit Systems Protection Board officials, affidavits or statements from employees, testimony of witnesses, and official documents relating to the complaints.

SYSTEMS EXEMPTED FOR CERTAIN PROVISIONS OF THE ACT:

Pursuant to 5 U.S.C. 552a(k)(5), the Commission has exempted portions of this system of records from 5 U.S.C. 552(c)(3); (d); (e)(4) (G), (H), and (I); and (f). The exemption rule is contained in 10 CFR 9.95 of the NRC regulations.

NRC-10

SYSTEM NAME:

Freedom of Information Act (FOIA) and Privacy Act (PA) Requests Records—NRC.

SYSTEM LOCATION:

Primary system—Division of Rules and Records, Office of Administration, NRC, 7735 Old Georgetown Road, Bethesda, Maryland.

Duplicate systems—duplicate systems exist, in whole or in part, at the locations listed in Addendum I, Parts 1 and 2, and at the Contractor Site, 7101 Wisconsin Avenue, Suite 1400, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons who have made FOIA or PA requests for NRC records.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system contains a copy of the letter from the requester, the NRC response, and related documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 552 and 552a(1976); 42 U.S.C. 2201(1976).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. If an appeal or Court suit is filed with respect to any records denied;

b. For preparation of annual reports required by 5 U.S.C. 552 and 5 U.S.C. 552a; and

c. For any of the routine uses specified in the Prefatory Statement.

Most of the FOIA records are placed in the NRC Public Document Room and made available to the public.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

Records are maintained in file folders.

RETRIEVABILITY:

Accessed by chronologically assigned number and individual's name.

Safeguards:

Privacy Act records are maintained in locked file cabinets. Access to and use of these records are limited to those persons whose official duties require such access. Copies of most of the FOIA records are publicly available in the NRC Public Document Room.

RETENTION AND DISPOSAL:

Retained 2 years from date of reply if request is granted, 5 years if denied, and 4 years if appealed. Except for classified, proprietary, and other sensitive information which is destroyed by shredding, records are disposed of through regular trash disposal system.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Requests are made by individuals or other requesters. The response to the request is based upon information contained in NRC records.

NRC-11

SYSTEM NAME:

General Personnel Records (Official Personnel Folder and Related Records)—NRC.

SYSTEM LOCATION:

Primary system—For Headquarters personnel, Division of Organization and Personnel, Office of Administration, NRC, 7910 Woodmont Avenue, Bethesda, Maryland. For Regional personnel, at each of the Regional Offices listed in Addendum I, Part 2.

Duplicate systems—Duplicate systems exist, in whole or in part at the locations listed in Addendum I, Parts 1 and 2 and at the (NIH) National Institutes of Health computer facility, Bethesda, Maryland. The duplicate systems maintained in a particular office, division, or branch may contain information of specific applicability to employees in that organization in addition to that information contained in the primary system.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current NRC employees, and those formerly employed by the NRC (death, resignation, retirement, and separation).

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain Personal Qualifications Statement (SF-171) and related documents such as information about an individual's birth date, social security account number, veteran preference status, tenure, physical handicaps, past and present salaries, grades, position titles, training, test performances, minority group designator, life insurance, health benefits, beneficiaries, academic letters of recommendation, probationary period appraisals, and awards. This system also contains: notification of personnel action, SF-50, and documents supporting the action taken; letters of commendation and reprimand; documentation of charges and decisions on charges; medical records related to initial appointment; notices of reductions-in-force; and locator files. Some duplicate records may contain office-specific applications, personnel qualification statements (SF-171), resumes and conflict of interest correspondence, and other related personnel records in addition to those contained in the primary system.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

a. 5 U.S.C. 7901; 21 U.S.C. 1180; and 42 U.S.C. 2201(d) and 4581(1976);

b. Executive Order 10581, September 15, 1954.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. By the Office of Personnel Management and/or Merit Systems Protection Board for making a decision when an NRC employee or former NRC employee questions the validity of a specific document in an individual's record;

b. To provide information to a prospective employer of a Government employee. Upon transfer of the employee to another Federal agency, the information is transferred to such agency;

c. To update the Office of Personnel Management systems concerning the Central Personnel Data File (CPDF), the Executive Inventory File and security investigations index hires, and to update adverse actions and terminations records of the Merit Systems Protection Board;

d. To provide statistical reports to Congress, agencies, and the public on characteristics of the Federal work force;

e. To provide information to the Office of Personnel Management and/or Merit Systems Protection Board for review and audit pruposes;

f. To provide members of the public with names, position titles, grades, salaries, appointments (temporary or permanent), and duty stations of employees;

g. Medical records may be used for providing information to the Public Health Service in connection with Health Maintenance Examinations and to other Federal agencies responsble for Federal benefit programs administered by the Department of Labor (Office of Workmen's Compensation Programs) and the Office of Personnel Management; and

h. For any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders, magnetic tape, disk, punched cards and microfilm.

RETRIEVABILITY:

Records are indexed by any combination of name, birth date, social security account number, or identification number.

SAFEGUARDS:

OPFs are maintained in lockable cabinets; related documents may be in unlocked file cabinets and electromechanical file organizer. Access to and use of these records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

The Official Personnel Folder is sent to the next Federal employing office if the employee transfers, or to the National Personnel Records Center within 30 days of the date of the employee's separation from the Federal service. Some records such as letters of reprimand, indebtedness, and vouchers are maintained for two years, or destroyed by shredding when an individual resigns, transfers, or is separated from the Federal service. Cooperative Eduation Program documentation other than that in the OPF is retained until the employee leaves the program. SF-7, "Service Record Card," is retained indefinitely after separation or transfer.

SYSTEM MANAGER(S) AND ADDRESS:

For, Cooperative Education Program employees, Chief, Personnel Resources and Employment Program Branch, Division of Organization and Personnel, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555. For all others, Chief, Staffing Section, Staffing and Position Evaluation Branch, Division of Organization and Personnel, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURE:

Same as "Notification procedure." Some information was received in confidence and will not be disclosed to the extent that disclosure would reveal a confidential source. Testing material may not be disclosed to the extent that disclosure would compromise the testing process.

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Information in this system of records come from the individual to whom it applies, is derived from information supplied by that individual, or is provided by agency officials, other Federal agencies, universities, or persons, including references, private and Federal physicians, and medical institutions.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Pursuant to 5 U.S.C. 552a(k) (5) and (6), the Commission has exempted portions of this system of records from 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4), (G), (H), and (I), and (f). The exemption rule is contained in 10 CFR 9.95 of the NRC regulations.

NRC-12

SYSTEM NAME:

Government Motor Vehicle Operators License Files—NRC.

SYSTEM LOCATION:

Primary system—Building and Operations Support Branch, Division of Facilities and Operations Support, Office of Administration, NRC, 7735 Old Georgetown Road, Bethesda, Maryland.

Duplicate systems—duplicate systems exist, in whole, or in part, at the locations listed in Addendum I, Part 2.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

NRC Headquarters and Regional Office employees licensed to drive government vehicles.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain identifying data on individuals, including but not limited to name, social security account number, hair color, and sex.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

a. 40 U.S.C. 491 (1976);

b. Executive Order 10579, December 1, 1954.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The records may be used for any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on index cards and on paper in file folders.

RETRIEVABILITY:

Indexed alphabetically by employee name.

SAFEGUARDS:

Maintained in locked file cabinets under control of supervisors. Access to and use of these records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

Retained for 3 years or until cancellation of individual license, whichever comes first, then destroyed through regular trash disposal system.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Building and Operations Branch, Division of Facilities and Operations Support, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Individuals on whom the record is maintained and medical examiners.

NRC-13

SYSTEM NAME:

Incentive Awards Files—NRC.

SYSTEM LOCATION:

Primary system—Division of Organization and Personnel, Office of Administration, NRC, 7910 Woodmont Avenue, Bethesda, Maryland.

Duplicate systems—duplicate systems exist, in whole or in part, at the locations listed in Addendum I, Parts 1 and 2.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

NRC employees who merit special recognition for achievements either within or outside the employee's job responsibilities and for length of service to the Government. Awards include both NRC awards and awards of other agencies and organizations for which NRC employees are eligible.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system of records contains employee's name, title, grade, and salary; justification to support recommendation and authorization for cash award; actions by approving officials; record of individuals receiving awards; suggestions and evaluations of suggestions; citation to be used; and related documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 4501–4506, 5336 (1976).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. By the Office of Personnel Management and/or Merit Systems Protection Board to process and approve nominations or awards;

b. By the Office of the Attorney General and the President of the United States in reviewing recommended awards;

c. To make reports to the Office of Personnel Management and/or Merit Systems Protection Board;

d. By other government agencies to recommend whether suggestions should be adopted in instances where the suggestion made by an NRC employee affects the functions or responsibilities of the agencies; and

e. For any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on paper in file folders.

RETRIEVABILITY:

Information is accessed by name.

SAFEGUARDS:

Maintained in unlocked file cabinets. Access to and use of these records are limited to those persons whose official duties require such access.

RENTENTION AND DISPOSAL:

Retained for 2 years, then destroyed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Labor Management and Employee Relations Branch, Division of Organization and Personnel, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Supervisors of employees, individuals submitting suggestions, Division of Organization and Personnel staff, Office of Personnel Management, Merit Systems Protection Board, other Federal agencies, and Official Personnel Folders.

NRC-14

SYSTEM NAME:

Employee Alcoholism and Drug Abuse Program Files—NRC.

SYSTEM LOCATION:

Office of Administration, U.S. Nuclear Regulatory Commission, 7735 Old Georgetown Road, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

NRC employees and/or family members who have been counselled by or referred to the Manager of the Employee Alcoholism and Drug Abuse Program.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system contains records of NRC employees and/or their families who have been referred to the manager of the Employee Alcoholism and Drug Abuse Program for counselling, and the results of any counselling which may have taken place. The records contain information as to the nature of each individual's problem, progress, and subsequent treatment.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

21 U.S.C. 1180 (1972); 42 U.S.C. 4561 (1970).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. For statistical reporting purposes; and

b. Any disclosure of information pertaining to an individual will be made in compliance with the Confidentiality of Alcohol and Drug Abuse Patient Records regulation, 42 CFR Part 2, as authorized by 21 U.S.C. 1175 and 42 U.S.C. 4582, as amended.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

Maintained on paper in file folders.

RETRIEVABILITY:

Information accessed by name of the individual counselled.

SAFEGUARDS:

Files are maintained in a safe under the immediate control of the Manager of the Employee Alcoholism and Drug Abuse Program.

RETENTION AND DISPOSAL:

Retained for 3 years after successful completion of treatment or other termination of contact, then destroyed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Manager, Employee Alcoholism and Drug Abuse Program, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Information compiled by the Manager of the Employee Alcoholism and Drug Abuse Program during the course of counselling with an NRC employee and/or members of the employee's family.

NRC-15

SYSTEM NAME:

National Standards Committee Membership Files—NRC.

SYSTEM LOCATION:

Primary system—Office of Nuclear Regulatory Research, NRC, 7915 Eastern Avenue, Silver Spring, Maryland.

Duplicate systems—Duplicate systems exist, in whole or in part, at the National Institutes of Health Computer Facility, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

NRC employees who are serving on committees, subcommittees, working groups, etc., that are developing nuclear standards.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system is a comprehensive record of NRC personnel on the nuclear standards committees and contains members' names, the names of the committees to which they belong, and the names of the NRC offices in which the members work.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 2201(b)(1976).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records may be used:

a. To provide information to persons or agencies requesting this information, including but not limited to: (1) Persons using the NRC Public Document Room, and (2) the Nuclear Standards Management Center, Oak Ridge National Laboratory (ORNL), Oak Ridge, Tennessee; and

b. For the routine use specified in paragraph number 5 of the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

Records are maintained on lists and computer tape and disk.

RETRIEVABILITY:

Records are indexed by the individual's name, by individual's office or region and by the committee title.

SAFEGUARDS:

Maintained in unlocked file cabinet.

RETENTION AND DISPOSAL:

Updated when information is out of date. The information is retained until the person is no longer a member of the committee or no longer an NRC employee, whichever occurs first. Computer tape and disk are destroyed by computer deletion, and lists are destroyed through regular trash disposal system.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Office of Nuclear Regulatory Research, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Information in this system of records comes from the individual to whom it applies or from his/her supervisor.

NRC-16

SYSTEM NAME:

Facility Operator Licensees Record Files (10 CFR Part 55)—NRC.

SYSTEM LOCATION:

Primary system—Operator Licensing Branch, Division of Human Factors Safety, Office of Nuclear Reactor Regulation, NRC, 4550 Montgomery Avenue, Bethesda, Maryland, or appropriate Regional Office.

Duplicate systems—duplicate systems exist, in whole or in part, at the Contractor Site, 7101 Wisconsin Avenue, Suite 1400, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals licensed pursuant to 10 CFR Part 55, new applicants whose applications are being processed, and individuals whose licenses have expired.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain information relating to the application for a license, certification of competency, certification of medical history and results of medical examination and related correspondence, operator examination and examination results and license or denial letter.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 2137 and 2201(i)(1976).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. To determine if the individual meets the requirements of 10 CFR Part 55 to take an examination or to be issued an operator's license;

b. To provide researchers with information for statistical evaluations related to selections, training and examination of facility operators;

c. To provide for examination and testing material and obtain results from contractors;

d. To provide facility management with sufficient information to enroll the individuals in the licensed operator requalification program; and

e. For any of the routine uses specified in the Prefatory Statement, except paragraph number 3.

In addition, information related to the application, certification of competency, and license or denial letter will routinely be made available in the NRC's Public Document Room.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

Maintained on index cards, paper in file folders, and microfiche.

RETRIEVABILITY:

Records are accessed by name and docket number.

SAFEGUARDS:

Maintained in file cabinets. Access to and use of these records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

Reactor Operator Licensees Records:

a. Medical information: retained for 4 years after the individual's license expires, then destroyed;

b. Examination and examination results: retained for 2 years after the issuance of a license or denial letter. A summary report is retained until 4 years after the individual's license expires;

c. Other information: destroyed when it becomes 2 years old; and

d. Docket information: destroyed 4 years after an individual's latest license expires.

Records are destroyed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Operator Licensing Branch, Division of Human Factors Safety, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555, or appropriate Regional Administrator.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555 or Regional Administrator.

RECORD ACCESS PROCEDURE:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Information in this system comes from the individual applying for a license, the facility manager, a licensed physician, members of the Operator Licensing Branch, and contractor personnel.

NRC-17

SYSTEM NAME:

Occupational Injuries and Illness Records—NRC.

SYSTEM LOCATION:

Primary system—For Headquarters personnel, Building and Operations Branch, Division of Facilities and Operations Support, Office of Administration, NRC, 7735 Old Georgetown Road, Bethesda, Maryland.

For Regional Personnel, at each of the Regional Offices listed in Addendum I, Part 2.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

NRC employees who report an occupational injury or illness.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain descriptions of injury or illness, treatment, and disposition.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

a. 29 U.S.C. 657(c)(1976);

b. Executive Order 12196, February 1980.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. By the NRC Safety Officer and/or Branch supervisor to prepare periodic statistical reports on employees' health and injury status and health and safety hazards in NRC physical structures, all for transmission to an review by the Department of Labor;

b. For transmittal to the Secretary of Labor or an authorized representative in accordance with duly promulgated regulations;

c. For transmittal to the Office of Personnel Management and/or Merit Systems Protection Board as required to support individual claims; and

d. For any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on paper in file folders.

RETRIEVABILITY:

Indexed by assigned employee case number or name under report category.

SAFEGUARDS:

Maintained in locked file cabinet under visual control of section employees. Access to and use of these

records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

Retained for 5 years after date of report, then destroyed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

NRC Public Health Unit, NRC Headquarters and Regional Office feeder reports and forms with original information largely supplied by employees concerned.

NRC-16

SYSTEM NAME:

Office of Inspector and Auditor Index File and Associated Records—NRC.

SYSTEM LOCATION:

Office of Inspector and Auditor, NRC, 4340 East-West Highway, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals referred to in potential or actual cases and matters of concern to the Office of Inspector and Auditor and correspondents on subjects directed or referred to the Office of Inspector and Auditor.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system consists of an alphabetical index file bearing individual names. The index provides access to associated records which are arranged by subject matter, title, or identifying number(s) and/or letter(s). The system incorporates the records of all Office of Inspector and Auditor correspondence, cases, matters, memoranda, and materials, including but not limtied to audit reports, investigative reports, inspection reports, correspondence to and from the Office of Inspector and Auditor, memoranda, legal papers, evidence, exhibits, audit data, investigative date, and work papers.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 2035(c), 2201(c), and 5841(f)(1976).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

a. A record in the system of records may be disclosed as a routine use to a Federal, state, local or foreign agency or to an individual or organization if the disclosure is reasonably necessary to elicit information or to obtain the cooperation of a witness or an informant;

b. A record in the system of records relating to a case or matter falling within the purview of the Office of Inspector and Auditor that has been referred for audit, inspection or investigation may be disclosed as a routine use to the referring agency, group, organization or individual to notify such agency, group, organization or individual of the status of the case or matter or of any decisions or determinations that have been made;

c. A record in the system of records relating to an individual held in custody pending arraignment, trial, or sentence, or after conviction, may be disclosed as a routine use to a Federal, state, local or foreign prison, probation, parole or pardon authority, to any agency or individual concerned with the maintenance, transportation, or release of such an individual;

d. A record in the system of records relating to a case or matter may be disclosed as a routine use to a foreign country pursuant to an international treaty or convention entered into and ratified by the United States;

e. A record in the system of records may be disclosed as a routine use to a Federal, state, local or foreign law enforcement agency to assist in the general crime prevention and detection efforts of the recipient agency or to provide investigative leads to such agency;

f. A record in the system of records in the nature of an audit, inspection or investigation report relating to the integrity and efficiency of the Commission operation and management may be disseminated outside the Commission as part of the Commission's responsibility to inform the Congress and the public about Commission operations; and

g. A record in the system of records may be disclosed for any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

Information contained in this system is stored manually on index cards and in file jackets.

RETRIEVABILITY:

Information is retrieved from index cards by the name of the individual and from the jackets by number(s) and/or letter(s) assigned and appearing on the index card.

SAFEGUARDS:

The index is maintained in unlocked file cabinets and the associated records are located in lockable metal filing cabinets or safes. All records are under visual control and available only to authorized personnel whose duties require access.

RETENTION AND DISPOSAL:

Retained 10 years in NRC storage from the time the case is closed, then destroyed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Office of Inspector and Auditor, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure." Information classified pursuant to Executive Order 12356 will not be disclosed. Information received in confidence will not be disclosed to the extent that disclosure would reveal a confidential source.

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

The information in this system of records is obtained from sources including, but not limited, to NRC officers and employees, Federal, state, local, and foreign agencies, and other persons.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Pursuant to 5 U.S.C. 552a (k)(1), (k)(2), (k)(5), and (k)(6), the Commission has exempted portions of this system of records from 5 U.S.C. 552a (c)(3), (d), (e)(1), (e)(4) (G), (H), and (I), and (f). The exemption rule is contained in 10 CFR 9.95 of the NRC regulations.

NRC-19

SYSTEM NAME:

Official Personnel Training Records Files—NRC.

SYSTEM LOCATION:

Primary system—Management Development and Training Staff, Office of Administration, NRC, 7735 Old Georgetown Road, Bethesda, Maryland.

Duplicate systems—duplicate systems exist, in whole or in part, at the locations listed in Addendum I, Parts 1 and 2.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have applied for or were selected for either NRC or other government/non-government training courses or programs, including the NRC Senior Executive Service Candidate Development Program.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain information relating to the individual's educational background, work experience, performance appraisals, and training courses, including applications for training, training requests, authorizations for training, course grades, evaluations and other related personnel information and correspondence.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

a. 5 U.S.C. 4103 (1976), 3396 (October 13, 1978), and 4311 et seq. (1978);

b. Executive Order 11348, April 20, 1967, as amended by Executive Order 12107, December 28, 1978.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

a. Information may be extracted from the records and made available to the Office of Personnel Management, other Federal, state and local government agencies; and educational institutions for use in training programs related to NRC employees; and

b. Information in these records may be disclosed for the routine uses specified in paragraph numbers 5 and 6 of the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

Maintained on paper in file folders; being converted to maintenance within personnel computer storage system.

RETRIEVABILITY:

Information is accessed by name.

SAFEGUARDS:

Maintained in locked file cabinets. Access to and use of these records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

Retained for 5 years, or until no longer needed, then destroyed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Management Development and Training Staff, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Information is provided by the individual to whom it applies, the employee's supervisor, and training groups, agencies, or educational institutions.

NRC-20

SYSTEM NAME:

Official Travel Records—NRC.

SYSTEM LOCATION:

Primary system—Division of Accounting and Finance, Office of Resource Management, NRC, 7735 Old Georgetown Road, Bethesda, Maryland.

Duplicate systems—duplicate systems exist, in whole or in part, at the locations listed in Addendum I, Parts 1 and 2; and at the NIH computer facility, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

NRC employees, prospective NRC employees, consultants, and invitational travelers for NRC programs.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain Request and Authorization for Official Travel forms and Travel Vouchers.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

a. 5 U.S.C. 5701 (1976); 31 U.S.C. 21, 22, 24, 49, 54, 66a, and 952 (1976);

b. Federal Travel Regulations, Federal Property Management Regulations, 41 CFR Part 101–71.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. For transmittal to the U.S. Treasury for payment;

b. For transmittal to the Department of State or an embassy for passports or visas;

c. For quarterly report to the General Services Administration of individuals approved for first class travel; and

d. For any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on paper in file folders, on disks, and on magnetic tape.

RETRIEVABILITY:

Records are accessed by name, social security account number, authorization number, estimated travel start day, authorization process day, voucher process day, and voucher payment schedule number.

SAFEGUARDS:

Maintained in locked file cabinets in same room as users. For ADP records, a key word, initials, and NRC Office of Resource Management's account number must be known in order to retrieve information.

RETENTION AND DISPOSAL:

Retained for 5 years, then destroyed through regular trash disposal system.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Accounting and Finance, Office of Resource Management, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Information is provided by the individual, the organizational component approving the travel, outside transportation agents and rate books for cost information.

NRC–21

SYSTEM NAME:

Payroll Accounting Records—NRC.

SYSTEM LOCATION:

Primary system—Division of Accounting and Finance, Office of Resource Management, NRC, 7735 Old Georgetown Road, Bethesda, Maryland.

Duplicate systems—duplicate systems exist, in whole or in part, at the locations listed in Addendum I, Parts 1 and 2.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

NRC employees, special Government employees, and consultants.

CATEGORIES OF RECORDS IN THE SYSTEM:

Pay, leave, and allowance histories.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

31 U.S.C. 21, 22, 24, 49, 54, 66a, and 952 (1976).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. For transmittal of data to U.S. Treasury to effect issuance of paychecks to employees and distribution of pay according to employee directions for savings bonds, allotments, financial institutions, and other authorized purposes;

b. For reporting tax withholding to Internal Revenue Services and appropriate state and local taxing authorities;

c. For FICA deductions to the Social Security Administration;

d. For dues deductions to labor unions;

e. For withholdings for health insurance to the insurance carriers and the Office of Personnel Management;

f. For charity contribution deductions to agents of charitable institutions;

g. For annual W–2 statements to taxing authorities and the individual;

h. For transmittal to the Office of Management and Budget for review of budget requests;

i. For withholding and reporting of retirement, reemployed annuitants and life insurance information to the Office of Personnel Management;

j. For transmittal of information to state agencies for unemployment purposes; and

k. For any f the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, microfiche, magnetic tape, and disks.

RETRIEVABILITY:

Accessed by name and social security account number.

SAFEGUARDS:

File folders, microfiche, tape, and disks, including backup data, are maintained in secured locked rooms after working hours. Access to and use of these records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

File folders are retained for 3 years after transfer or separation of employee, then destroyed by shredding. ADP information is retained on disks for 1 year, transferred to and retained on magnetic tape for 3 years, then the tape is erased.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Accounting and Finance, Office of Resource Management, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Information is provided by the individual and the Division of Organization and Personnel.

NRC–22

SYSTEM NAME:

Personnel Performance Appraisals—NRC: Part A, GG–18 employees and below, hourly wage employees, scientific and technical schedule employees, administratively determined rate employees; Part B, Senior Executive Service and equivalent employees.

SYSTEM LOCATION:

Primary system: Part A: For Headquarters personnel, Division of Organization and Personnel, Office of Administration, NRC, 7910 Woodmont Avenue, Bethesda, Maryland. Part B: Chairman, Performance Review Board, 7735 Old Georgetown Road, Bethesda, Maryland. For regional personnel, at each of the Regional Offices listed in Addendum I, Part 2.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

NRC employees.

CATEGORIES OF RECORDS IN THE SYSTEM:

This sytem of records contains performance appraisals and other related records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 4301, et seq. and 42 U.S.C. 2201(d)(1976).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The records may be used for any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

Maintained on paper in folders.

RETRIEVABILITY:

Records are accessed by name.

SAFEGUARDS:

Maintained in lockable file cabinets. Access to and use of these records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

Part A: Records are normally retained for 3 years. Part B: Retained for 5 years, or until the fifth annual appraisal is completed, whichever is later.

SYSTEM MANAGER(S) AND ADDRESS:

Part A: Chief, Staffing Section, Staffing & Position Evaluation Branch, Division of Organization & Personnel, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

Part B: Chairman, Performance Review Board, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure" for each part.

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure" for each part.

RECORD SOURCE CATEGORIES:

Part A: Individual to whom record pertains and employee's supervisors.

Part B: Individual to whom record pertains and employee's supervisors; any documents and sources used to develop critical elements and performance standards for that senior Executive Service position.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Pursuant to 5 U.S.C. 552a(k)(1) and (5), the Commission has exempted portions of this system of records from 5 U.S.C. 552a(c)(3), (d)(e)(1), (e)(4) (G), (H), and (I), and (f). The exemption rule is contained in 10 CFR 9.95 of the NRC regulations.

NRC-23

SYSTEM NAME:

Personnel Research and Test Validation Records—NRC.

SYSTEM LOCATION:

Primary system—Division of Organization and Personnel, Office of Administration, NRC, 7910 Woodmont Avenue, Bethesda, Maryland.

Duplicate system—duplicate system exists, in whole or in part, at the Department of Energy computer facility, Germantown, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

NRC employees and applicants for NRC employment.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records include education and employment history, test scores, responses to test items and questionnaires, interview data and ratings of supervisors regarding the individuals to whom the records pertain. Data are collected on a project basis and are used for the construction, analysis and validation or written tests; for research on personnel measurement and selection methods and techniques, and research on personnel management practices such as performance evaluation or productivity.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 2201(d)(1976) and 44 U.S.C. 3101(1970).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. To exchange among the NRC, Office of Personnel Management, Merit Systems Protection Board, and other Federal agencies for personnel research purposes and used to aid in identifying employees included in research studies that extend over a period of time; and

b. For any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders, on punched cards, computer tape, and computer storage

RETRIEVABILITY:

Records are maintained by project. Personnel information can be retrieved by name or personal identifier.

SAFEGUARDS:

Records are kept in locked files and access is limited to staff.

RETENTION AND DISPOSAL:

Retained for 3 years, then destroyed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Management and Policy Branch, Division of Organization and Personnel, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure." Some records contain information received in confidence and will not be disclosed to the extent that disclosure would reveal a confidential source. Testing material may not be disclosed to the extent such disclosure would compromise the testing process.

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Individual Federal employees or applicants, supervisors, assessment center assessors, Office of Personnel Management, or NRC personnel files and records, and other Federal agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Pursuant to 5 U.S.C. 552a(k)(6), the Commission has exempted portions of this system of records from 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4) (G), (H), and (I), and (f). The exemption rule is contained in 10 CFR 9.95 of the NRC regulations.

NRC-24

SYSTEM NAME:

Property and Supply System (PASS)—NRC.

SYSTEM LOCATION:

Property Management Section, Property and Supply Branch, Division of Facilities and Operations Support, Office of Administration, NRC, 7735 Old Georgetown Road, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

NRC employees, consultants, and contrators who have custody of items of personal property, including major items of equipment (e.g., office furnishings, automobiles, etc.) and items of sensitive property (e.g., cameras, portable calculators, and cassette recorders).

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain information about the equipment (type, make, model, serial number, etc.); and information about the custodians of the equipment (social security account number, office, and office location).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

31 U.S.C. 66a(a)(3)(1976) and 40 U.S.C. 483 (b) and (c), 487(a)(1976).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. To provide information to maintain inventory of equipment;

b. To provide information for clearances of employees who separate from the NRC; and

c. For any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

Maintained on NRC forms and magnetic tape systems, with history and audit files.

RETRIEVABILITY:

Accessed by social security account number, office, and office location.

SAFEGUARDS:

Access to and use of these records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

Retained for 3 years after an individual's responsibility for the assigned equipment terminates;

destroyed by regular trash disposal system or deleted from the data bank.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Property and Supply Branch, Division of Facilities and Operations Support, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Information in this system of records comes from NRC forms signed by the individuals having custody of the items, or from reports and memoranda received by the Division of Facilities and Operations Support.

NRC-25

SYSTEM NAME:

Oral History Program—NRC.

SYSTEM LOCATION:

Office of the Secretary of the Commission, NRC, 1717 H Street, NW, Washington, DC 20555.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

NRC employees, former employees, and other individuals who volunteer to be interviewed for purpose of providing information for a history of the nuclear regulatory program.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records consist of interviews on magnetic tape, and transcribed scripts of the interviews.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 2161b, 541(a)(1976).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. For incorporation in a future publication on the history of the nuclear regulatory program; and

b. To provide information to historians and other researchers.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

Maintained on magnetic tape and transcripts.

RETRIEVABILITY:

Information is accessed by the name of the interviewee.

SAFEGUARDS:

Maintained in locked file cabinet. Access to and use of these records are limited to those authorized by the Historian or a designee.

RETENTION AND DISPOSAL:

Transcripts are retained indefinitely. Tapes are normally retained until they are transcribed; some may be retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

NRC Historian, Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Information in this system of records is obtained from interviews granted on a voluntary basis to the Historian and his/her staff.

NRC-26
[Revoked]

NRC-27

SYSTEM NAME:

Radiation Exposure Information and Reports System (REIRS) Files—NRC.

SYSTEM LOCATION:

Primary system—Union carbide Corporation, Industrial and Personnel Management Department, Computer Science Division, P.O. Box P, Oak Ridge, Tennessee 37830.

Duplicate systems—duplicate systems exist, in whole or in part, at the locations listed in Addendum I, Parts 1 and 2.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals monitored for radiation exposure while employed by or visiting or temporarily assigned to certain NRC licensed facilities; individuals who are exposed to radiation or radioactive materials in incidents required to be reported pursuant to 10 CFR 20.403 and 20.405 by all NRC licensees; individuals who may have been exposed to radiation or radioactive materials off-site from a facility, plant installation, or other place of use of licensed materials, or in unrestricted areas, as a result of an incident involving byproduct, source, or special nuclear material; as then required by NAVMED P-5055, Radiation Health Protection Manual, monitored individuals terminating their service with the Navy prior to 1977; and monitored employees of all the registrants of the State of Illinois prior to 1979.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain information relating to individual's name, sex, social security account number, date of birth, job category, period of employment, place and period date of exposure; name, address, and license number of individual's employer; licensee name and number reporting the incident; radiation doses or estimates of exposure received during this period, type of radiation, part(s) or organ(s) exposed, and nuclide(s) involved. Some reports will indicate whether the individual is a contractor or a utility employee. Between January 1972 and May 1974, the following information was also recorded for individuals over-exposed to radiation: sex, training experience, regular occupation of the exposed individuals; device or method used to determine dose(s); brief statement describing the incident and the causes; corrective actions taken; status of exposed individual (i.e., medical treatment); type, age, and manufacturer of malfunctioning equipment; and cumulative dose prior to incident.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 2073, 2093, 2095, 2111, 2133, 2134, and 2201(o) (1976).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. To provide data to other Federal and state agencies involved in monitoring and/or evaluating radiation exposure received by individuals as enumerated in the paragraph "Categories of individuals covered by the system;" and

b. For any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR ETORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

Records are computerized and maintained on magnetic tape, maintained in log books, and filed as either a computer printout or original paper document.

RETRIEVABILITY:

Records are accessed by individual name, social security account number, and by licensee name or number.

SAFEGUARDS:

Information maintained at the Computing Technology Center is accessible only to the division of Data Automation and Management Information, Office of Resource Magagement. Reports kept by the Division of Data Automation and Management Information are in file cabinets and bookcases in a secured building. A log is maintained of both telephone and written requests for information.

RETENTION AND DISPOSAL:

a. Original paper document—retained 2 years, destroyed by shredding;

b. Magnetic tape—retained permanently at Computing Technology Center;

c. Log books—retained indefinitely, no names;

d. Computer printouts—periodically updated, destroyed through regular trash disposal system.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Data Automation and Management Information, Office of Resource Management, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Information in this system of records either comes from the monitored worker, visitors, worker's employer, or the person in charge of the facility to which has been assigned.

NRC-28

SYSTEM NAME:

Recruiting, Examining and Placement Records–NRC.

SYSTEM LOCATION:

Primary system—For Headquarters personnel, Division of Organization and Personnel, Office of Administration, NRC, 7910 Woodmont Avenue, Bethesda, Maryland. For Regional personnel, at each of the Regional offices listed in Addendum I, Part 2.

Dupicate system—duplicate systems exist, in whole or in part, at the locations listed in Addendum I, Parts 1 and 2.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons who have applied for Federal employment with the NRC under general announcement provisions.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain general application information relating to the education, training, employment history, earnings, past performance, criminal convictions, if any, written achievement tests, honors, awards, or fellowships, military service, veteran preference status, birth place, birth date, social security account number, and home address of persons who have applied for Federal employment with the NRC (SF–171, resumes and similar documents).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 161(d), Atomic Energy Act of 1954, 42 U.S.C. 2201(d) (1976).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. To furnish information to agencies relative to transfer or consideration of employment; and

b. For any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

Records are maintained primarily on forms, list, and index cards in file folders. Also, certain data is maintained on magnetic tapes, disks, and punch cards.

RETRIEVABILITY:

Records are indexed by name and an identification number assigned to each individual.

SAFEGUARDS:

Maintained in unlicked file cabinet. Access to and use of these records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

a. Register of Eligible Applications retained for 1 year from date of application or until no longer needed, then destroyed;

b. Index cards—retained from date application is placed in the review system, then destroyed when no longer needed; and

c. Other related recruitment and placement documents—destroyed when no longer needed.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Recruitment Branch, Division of Organization and Personnel, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure." Some information was received in confidence and will not be disclosed to the extent that disclosures would reveal a confidential source.

CONTESTING RECORD PROCEDURES:

Same as 'Notification procedure."

RECORD SOURCE CATEGORIES:

Information in this system of records either comes from the individual, to whom it applies or is derived from information supplied by that individual, with the exception of reports from medical personnel on physical qualifications, results of examinations, preemployment evaluation data furnished by references and educational institutions whose names were supplied by applicant, and information from other Federal agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Pursuant to 5 U.S.C. 552a(k)(5), the Commission has exempted portions of this system of records from 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4), (G), (H), and (I), and (f). The exemption rule is contained in 10 CFR 9.95 of the NRC regulations.

NRC-29

SYSTEM NAME:

Document Control System—NRC.

SYSTEM LOCATION:

Primary system—Document Management Branch, Office of Administration, NRC, 7920 Norfolk Avenue, Bethesda, Maryland.

Duplicate systems—duplicate systems exist, in whole or in part, at the locations listed in Addendum I, Parts 1 and 2; the NRC Public Document Room (PDR), 1717 H Street, NW, Washington, DC; the NRC Local Public Document Rooms (LPDRs); and at the Contractor Site, 7101 Wisconsin Avenue, Suite 1400, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

NRC staff, contractors, subcontractors, licensees, Congressional offices, and other correspondents with the NRC.

CATEGORIES OF RECORDS IN THE SYSTEM:

Documents both received by and originated by the NRC.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 5841 (1976) and 44 U.S.C. 3101 (1970).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. To refer, where appropriate, inquiries to Federal agencies or persons for their reply or action;

b. To provide information to persons or agencies requesting this information, including provision of Daily Accession Lists in the NRC PDR & LPDRs;

c. To prepare a monthly "Title List of Documents Made Publicly Available";

d. To serve as the NRC's official records for documents placed on the system; and

e. For any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on microfiche, disks, tapes, and paper in file folders. Proprietary and sensitive documents are maintained in secured facilities.

RETRIEVABILITY:

Accessed by name (author or recipient), corporate source, title of document, subject matter, or other identifying document or control number.

SAFEGUARDS:

Access to and use of these records are limited to those persons whose official duties require such access. Information not exempt from disclosure under the Freedom of Information Act (FOIA) will be publicly available in the NRC PDR and LPDRs.

RETENTION AND DISPOSAL:

Retention is for an indefinite period.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Technical Information and Document Control, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure." Information which is classified or otherwise exempt from public disclosure under the FOIA will not be disclosed.

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Information in this system of records comes from the correspondence to and from the NRC, contractors, and NRC employees.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Pursuant to 5 U.S.C. 552a(k), the Commission has exempted portions of this system of records from 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4) (G), (H) and (I), and (f). This exemption rule is contained in 10 CFR 9.95 of the NRC regulations.

NRC–30

SYSTEM NAME:

Manpower System (MPS) Records—NRC.

SYSTEM LOCATION:

Primary system—NIH computer facility, c/o Division of Data Automation and Management Information, Office of Resource Management, NRC, 735 Old Georgetown Road, Bethesda, Maryland.

Duplicate systems—duplicate systems exist, in whole or in part, at the locations listed in Addendum I, Parts 1 and 2.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All NRC employees.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain information relating to number of regular and nonregular hours worked, the nature of the work, and workload projections.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

a. 42 U.S.C. 2201(p) (1976);

b. Executive Order 9397, November 22, 1943.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. As a project management tool in various management records throughout the NRC; and

b. For the routine uses specified in paragraph numbers 5 and 6 of the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained in computer files, computer records, on tapes, disks, cards, and microfiche.

RETRIEVABILITY:

Accessed by social security account number, project, program, or activity numbers; docket number, TACS, or PPSAS numbers.

SAFEGUARDS:

Access to and use of these records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

Retained indefinitely in computer files.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Data Automation and Management Information, Office of Resource Management, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Information in this system of records comes from the individual to whom it pertains.

NRC-31

SYSTEM NAME:

Correspondence and Records Branch, Office of the Secretary—NRC.

SYSTEM LOCATION:

Office of the Secretary, Correspondence and Records Branch, NRC, 1717 H Street, NW., Washington, D.C. 20555.

Duplicate system—Duplicate system exists, in whole or in part, at the Contractor Site, 7101 Wisconsin Avenue, Suite 1400, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The majority of records in this system consist of internal NRC memoranda between NRC employees and the Chairman, a Commissioner, or the Secretary in the ordinary course of carrying out the official business of the NRC. Records also include correspondence from Members of Congress and their staffs including constituent referrals, and White House correspondence referred to the NRC for response. Correspondence may identify an individual's social security account number, date of birth, address, and employment.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain information concerning all subjects which directly or indirectly relate to the fulfillment of NRC's statutory mandate. Records include information dealing with the policy, legal, administrative, and adjudicatory functions of the NRC.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 5841 (1976) and 44 U.S.C. 3101 (1970).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The records may be used for any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders.

RETRIEVABILITY:

Most records are accessed by subject matter headings and are not individually identifiable. Access to some correspondence by individual name is available through correspondence control documents.

SAFEGUARDS:

Access to and use of these records are limited to those persons whose official duties require such access. Classified materials are maintained in approved safes, and unclassified records are maintained in rolling file equipment.

RETENTION AND DISPOSAL:

Retained indefinetely.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Correspondence and Records Branch, Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure." Some information is classified pursuant to Executive Order 12356 and will not be disclosed.

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Information in this system of records comes from communications to the Commission and responses thereto.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Pursuant to 5 U.S.C. 552a(k)(1), the Commission has exempted portions of this system of records from 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H), and (I), and (f). The exemption rule is contained in 10 CFR 9.95 of the NRC regulations.

NRC-32

SYSTEM NAME:

Source and Special Nuclear Material License Records—NRC.

SYSTEM LOCATION:

Primary system—Division of Fuel Cycle and Material Safety, Office of Nuclear Material Safety and Safeguards, NRC, 7915 Eastern Avenue, Silver Spring, Maryland.

Duplicate systems—duplicate systems exist, in whole or in part, at the locations listed in Addendum I, Parts 1 and 2, and the NIH computer facility, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Applicants for and licensees under Source and Special Nuclear Materials licensing programs.

CATEGORIES OF RECORDS IN THE SYSTEM:

Information contained in this system reflects data supplied by applicants and licensees and developed by the NRC staff in the license review and authorization process with respect to the possession and use of source and special nuclear material. System component records developed and maintained by the NRC staff also include summary and cross-indexing type data promoting quick access to and breakout of such license information as:

a. Alphabetical listing of active and inactive licenses and applicants for licenses arranged by state and by a master listing;

b. Cross indexes of names to assigned license numbers;

c. Dates of license issuance and expiration; and

d. Geographic location of licensees by state and town.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 2073, 2093, 2095, 2201 (b), (i) and (o) (1976).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. To provide records to state health departments for their information and use;

b. To provide information to other Federal, state, and local health officials in the event of incident or exposure, for purposes of their information, investigation, and protection of public health and safety;

c. To provide the Department of Energy with information concerning special nuclear material licenses for purposes of control-related transfers and safeguards accountability; and

d. For any of the routine uses specified in the Prefatory Statement.

Certain of the information provided in this category is routinely placed in the NRC Public Document Room.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on paper, index cards, logs, microfilm, and mag cards.

RETRIEVABILITY:

Indexed by applicant and licensee name in juxtaposition with assigned license number.

SAFEGUARDS:

Maintained in unlocked shelving units under control of supervisory personnel.

Access to and use of these records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

Records are continuously computer updated as new information is developed or individual licenses are cancelled or terminated; license files are transferred annually to the NRC warehouse when they become inactive or are terminated, and retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Fuel Cycle and Material Safety, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Forms and information submitted by applicants and licensees; information developed by NRC personnel from such forms and information.

NRC-33

SYSTEM NAME:

Special Inquiry File NRC.

SYSTEM LOCATION:

Primary system—Special Inquiry Group, NRC, 7920 Norfolk Avenue, Bethesda, Maryland.

Duplicate system—duplicate system exists, in whole or in part, at the Contractor Site, 7101 Wisconsin Avenue, Suite 1400, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals possessing information regarding or having knowledge of matters of potential or actual concern to the Commission in connection with the investigation of an accident or incident at a nuclear power plant or other nuclear facility, or an incident involving nuclear materials.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system consists of an alphabetical index file bearing individual names. The index provides access to associated records which are arranged by subject matter, title, or identifying number(s) and/or letter(s). The system incorporates the records of all Commission correspondence, memoranda, audit reports and data, interviews, questionnaires, legal papers, exhibits, investigative reports and data, and other material relating to or developed as a result of the inquiry, study, or investigation of an accident or incident.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 2201(c), (i) and (o) (1976); 5841(f)(1974).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. To provide information relating to an item which has been referred to the Commission or Special Inquiry Group for investigation by an agency, group, organization, or individual may be disclosed as a routine use to notify the referring agency, group, organization, or individual of the status of the matter or of any decision or determination that has been made;

b. To disclose a record as a routine use to a foreign country pursuant to an international treaty or convention entered into and ratified by the United States;

c. To provide records relating to the integrity and efficiency of the Commission's operations and management may be disseminated outside the Commission as part of the Commission's responsibility to inform the Congress and the public about Commission operations; and

d. For any of the routine uses specified in paragraph numbers 1, 2, 4, 5, and 6 of the prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on microfiche, disks, tapes, and paper in file folders. Documents are maintained in secured vault facilities.

RETRIEVABILITY:

Accessed by name (author or recipient), corporate source, title of document, subject matter, or other identifying document or control number.

SAFEGUARDS:

These records are located in lockable metal filing cabinets or safes in a secured facility and are available only to authorized personnel whose duties require access.

RETENTION AND DISPOSAL:

Retained and destroyed in accordance with approved records disposal schedules for the various types of records involved.

SYSTEM MANAGER(S) AND ADDRESS:

Records Manager, Special Inquiry Group, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure." Information classified pursuant to Executive Order 12356 will not be disclosed. Information received in confidence will not be disclosed to the extent that disclosure would reveal a confidential source.

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

The information in this system of records is obtained from sources including, but not limited to, NRC officers and employees; Federal, state, local, and foreign agencies; NRC licensees; nuclear reactor vendors and architectural engineering firms; other organizations or persons knowledgeable about the incident or activity under investigation; and relevant NRC records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Pursuant to 5 U.S.C. 552a (k)(1), (k)(2), and (k)(5), the Commission has exempted portions of this system of records from 5 U.S.C. 552a(c)(3), (d)(e)(1), (e)(4)(G), (H), and (I), and (f). The exemption rule is contained in 10 CFR 9.95 of the NRC regulations.

NRC-34

SYSTEM NAME:

Advisory Committee on Reactor Safeguards (ACRS) Correspondence Index and Associated Records—NRC.

SYSTEM LOCATION:

Primary system—Advisory Committee on Reactor Safeguards, NRC, 1717 H Street, NW, Washington, DC.

Duplicate system—duplicate system exists, in whole or in part, at the NIH computer facility, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons providing information to or requesting information from the ACRS.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain information relating to incoming requests and correspondence from individuals and replies thereto and a listing of technical information by authors' names.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

44 U.S.C. 3101 (1970).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used for any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Indexing is maintained on computer tapes and disks and individual materials are located in ACRS files.

RETRIEVABILITY:

Indexed by one or more of the following categories: author and addressee's name, subject title using the Key Word Out of Context (KWOC) index and issuing organization or agency.

SAFEGUARDS:

Access to and use of these records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

Retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Technical Information Branch, Advisory Committee on Reactor Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Records contain information prepared by private individuals or organizations, government agencies and their contractors, companies, and other groups such as the American National Standards Institute (ANSI)

NRC-35 [Revoked]

NRC-36

SYSTEM NAME:

Employee Locator Records Files—NRC.

SYSTEM LOCATION:

Primary system—Telecommunications Branch, Division of Facilities and Operations Support, Office of Administration, NRC, 7920 Norfolk Avenue, Bethesda, Maryland.

Duplicate systems—duplicate systems exist, in whole or in part, at the locations listed in Addendum I, Parts 1 and 2.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

NRC employees and consultants.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain information relating to name, address (home and business), telephone numbers (home and business), organization, persons to be notified in case of emergency and other related records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

44 U.S.C. 3101 (1970).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used for the routine use specified in paragraph number 6 of the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on index cards.

RETRIEVABILITY:

Indexed by name.

SAFEGUARDS:

Maintained in controlled access room under 24-hour visual control of NRC operators. Access to and use of these records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

Retained until 6 months after association with NRC is discontinued, then destroyed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Telecommunications Branch, Division of Facilities and Operations Support, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Individual on whom the record is maintained, general personnel records, and other related records.

NRC-37

SYSTEM NAME:

Information Security Files and Associated Records—NRC.

SYSTEM LOCATION:

Primary system—Division of Security, Office of Administration, NRC, 7915 Eastern Avenue, Silver Spring, Maryland.

Duplicate systems—duplicate systems exist, in whole or in part, at the locations listed in Addendum I, Parts 1 and 2; and at the NIH computer facility, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons including present or former NRC employees, contractors, consultants and licensees; other government agency personnel; and other cleared persons.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records include information regarding:

a. Personnel who are authorized access to specified levels, categories and types of information, the approving authority, and related documents; and

b. Individuals who originate classified documents as well as identifying information about the document.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

a. 42 U.S.C. 2165 and 2201(i) (1976);

b. Executive Order 12356, April 2, 1982.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in this system may be used:

a. To provide information relating to the control of classified information and material to the Information Security Oversight Office, Department of Defense, Department of Energy

(computer input) and other government agencies; and

b. For any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained primarily in file folders, on magnetic tape, disk packs, and index cards.

RETRIEVABILITY:

Indexed and accessible by name and/or assigned number.

SAFEGUARDS:

Maintained in locked buildings, containers, or security areas under guard and/or alarm protection, as appropriate.

RETENTION AND DISPOSAL:

a. Classified documents, administrative correspondence, document receipts, destruction certificates, classified document inventories, and related records—retained 2 years, then destroyed by shredding;

b. Top Secret Accounting and Control files—registers: retained 5 years after documents shown on form are downgraded, transferred, or destroyed; accompanying forms: retained until related document is downgraded, transferred, or destroyed. Destroyed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Security, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure." Some information is classified pursuant to Executive Order 12356 and will not be disclosed. Other information has been received in confidence and will not be disclosed to the extent that disclosure would reveal a confidential source.

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Persons, including NRC employees, contractors, consultants, and licensees as well as information furnished by other government agencies or their contractors.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Pursuant to 5 U.S.C. 552a(k)(1) and (5), the Commission has exempted portions of this system of records from 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H), and (I), and (f). The exemption rule is contained in 10 CFR 9.95 of NRC regulations.

NRC-38

SYSTEM NAME:

Mailing Lists—NRC.

SYSTEM LOCATION:

Primary System—Contractor Site, 7300 Pearl Street, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals with an interest in receiving information from the NRC.

CATEGORIES OF RECORDS IN THE SYSTEM:

Mailing lists include primarily the individual's name and address. Some lists also include title, occupation, and institutional affiliation.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

44 U.S.C. 3101 (1970).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. For distribution of documents to persons and organizations listed on the mailing lists; and

b. For the routine use specified in paragraph number 6 of the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETIREVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in card files, index cards, address plates, magnetic cards, punch cards, cassettes and magnetic tape.

RETRIEVABILITY:

Filed alphabetically by company name and then individual name, where possible.

SAFEGUARDS:

Access to and use of these records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

Documents requesting changes retained 3 months, destroyed through regular trash disposal system; lists retained until cancelled or revised, destroyed through regular trash disposal system.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Technical Information and Document Control, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

NRC licensees and individuals expressing an interest in NRC activities and publications.

NRC-39

SYSTEM NAME:

Personnel Security Files and Associated Records—NRC.

SYSTEM LOCATION:

Primary system—Division of Security, Office of Administration, NRC, 7915 Eastern Avenue, Silver Spring, Maryland.

Duplicate systems—duplicate systems exist, in whole or in part, at the locations listed in Addendum I, Parts 1 and 2; the Department of Energy, Administration and Century XXI Buildings, Germantown, Maryland; and the NIH computer facility, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons including NRC employees, employment applicants, consultants, contractors, and licensees; other government agency personnel (e.g., General Services Administration personnel); other persons who have been considered for a personnel clearance; aliens who visit at NRC's facilities; and actual or suspected violators of laws administered by NRC.

CATEGORIES OF RECORDS IN THE SYSTEM:

Include information relating to personnel, including name, address, date and place of birth, social security account number, citizenship, residence history, employment history, foreign travel, education, personal references, organizational membership and security clearance history. These records also contain copies of investigative reports from other agencies (primarily from the Office of Personnel Management or the Federal Bureau of Investigation),

summaries of investigative reports, results of Federal agency indices checks, reports of personnel security interviews, clearance actions information (e.g., grants and terminations), violations of laws, reports of security infractions, "Request for Visit or Access Approval" (Form NRC–277), and other related personnel security processing documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

a. 42 U.S.C. 2165 and 2201(i) (1976);
b. Executive Order 12356, April 2, 1982;
c. Executive Order 10865, February 20, 1960;
d. Executive Order 10450, April 27, 1953.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used by the Division of Security and on a need-to-know basis by appropriate NRC officials, Personnel Security Board Members or Personnel Security Review Board Members, Office of Personnel Management, Federal Bureau of Investigation, and other Federal agencies:

a. To determine clearance eligibility;
b. To certify clearances;
c. To maintain the NRC personnel security program; and
d. For any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained primarily in file folders, on magnetic tape, disk packs, and index cards.

RETRIEVABILITY:

Indexed and accessible by name, social security account number, or case file number of a combination thereof.

SAFEGUARDS:

File folders and computer printouts are maintained in security or controlled areas under guard and/or alarm protection as appropriate.

RETENTION AND DISPOSAL:

a. Personnel security clearance files—retained 5 years after date of last action, then transferred for more permanent storage and may be destroyed by shredding 20 years after date of last action;

b. Request for Visit or Access Approval—Maximum security areas: retained 5 years after final entry or after date of document as appropriate; other areas: retained 2 years after final entry or after date of document; destroyed by shredding; and

c. Other security clearance administration files—retained 2 years after final entry or after date of document; destroyed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Security, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure." Some information is classified pursuant to Executive Order 12356 and will not be disclosed. Other information has been received in confidence and will not be disclosed to the extent that disclosure would reveal a confidential source.

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Persons including NRC applicants, employees, contractors, consultants, licensees, and visitors as well as information furnished by other government agencies or their contractors.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Pursuant to 5 U.S.C. 552a (k)(1), (k)(2), and (5), the Commission has exempted portions of this system of records from 5 U.S.C. 55a(c)(3), (d), (e)(1), (e)(4)(G), (H), and (I), and (f). The exemption rule is contained in 10 CFR 9.95 of the NRC regulations.

NRC–40

SYSTEM NAME:

Facility Security Support Files and Associated Records—NRC.

SYSTEM LOCATION:

Primary system—Division of Security, Office of Administration, NRC, 7915 Eastern Avenue, Silver Spring, Maryland.

Duplicate systems—duplicate systems exist, in whole or part, at the locations listed in Addendum I, Parts 1 and 2.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons including present or former NRC employees, consultants, contractors, and licensees; other government agency personnel; and actual and suspected violators of laws relating to the NRC's activities.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records include information regarding NRC, NRC contractor, and NRC licensee facilities, security programs and associated records; individuals visiting NRC facilities; NRC employees and NRC related identification files maintained for access purposes; actual or suspected violations of laws of security interest administered by NRC, including copies of investigative reports from other government agencies; records of individuals' firearms qualification scores including the accountability of firearms; and other documents relating to the safeguards of National Security Information (NSI) and Restricted Data.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

a. 42 U.S.C. 2165 and 2201 (j), (k), and (p) (1976);
b. Executive Order 12356, April 2, 1982.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in this system may be used:

a. To provide licensees and contractors with the information necessary to maintain an adequate security program; and
b. For any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained in file folders and on related forms.

RETRIEVABILITY:

Indexed and accessible by name, facility, badge number, identification card number, chronologically, or a combination thereof.

SAFEGUARDS:

Maintained in security containers or security areas under guard and/or alarm protection, as appropriate.

RETENTION AND DISPOSAL:

a. Survey and inspection files and records pertaining to NRC, NRC contractors, and NRC licensees, facilities security programs—Government-owned facilities: retained 3 years, or until discontinuance of facility, whichever is sooner; privately owned facilities: retained 4 years or until security cognizance is terminated,

whichever is sooner; destroyed by shredding or pulping;

b. Facility visitor records—Maximum security areas: retained 5 years after final entry or after date of documents, as appropriate; other areas: retained 2 years after date of document; destroyed by shredding or pulping;

c. NRC employee and NRC-related identification files—retained 2 years following employee's termination; destroyed by shredding or pulping;

d. Security interest violation and investigative report files—retained indefinitely;

e. Firearms qualification scores and accountability—retained 2 years from date of document; destroyed by shredding or pulping; and

f. Other documents relating to NSI and Restricted Data safeguards and other security and protective service files—retained 2 years from date of document; destroyed by shredding or pulping.

BILLING CODE 7590-01-M

POSTAL RATE COMMISSION

[Docket No. A82-16; Order No. 447]

Tomnolen, Mississippi (39770); Marjorie T. Fox, et al., Petitioners; Notice and Order of Filing of Appeal

September 27, 1982.

On September 20, 1982, the Commission received an appeal letter from Mrs. Marjorie T. Fox and others (hereinafter "Petitioners"), concerning the United States Postal Service's decision to close the Tomnolen, Mississippi, post office. The appeal letter cites several adverse effects which the closing would have on the community and on postal services. The appeal letter appears to request the review provided for by section 404(b) of the Postal Reorganization Act [39 U.S.C. 404(b)][1]

The Act requires that the Postal Service provide the affected community with at least 60 days' notice of a proposed post office closing so as to "ensure that such persons will have an opportunity to present their views."[2] The petition requests that the decision to close the Tomnolen post office be reconsidered:

The Postal Reorganization Act states:

> The Postal Service shall provide a maximum degree of effective and regular postal services to rural areas, communities, and small towns where post offices are not self-sustaining. No small post office shall be closed solely for operating at a deficit, it being the specific intent of the Congress that effective postal service be insured to residents of both urban and rural communities.[3]

Section 404(b)(2)(C) of the Act specifically includes consideration of this goal in determinations by the Postal Service to close post offices. The effect on the community is also a mandatory consideration under section 404(b)(2)(A) of the Act.

The petition appears to set forth the Postal Service action complained of in sufficient detail to warrant further inquiry to determine whether the Postal Service complied with its regulations for the closing of post offices.[4]

Upon preliminary inspection, this case appears to involve the following issues of law:

1. Whether the Postal Service's actions are consistent with the statutory requirement that the Postal Service provide a maximum degree of effective and regular postal services to rural areas, communities and small towns where post offices are not self-sustaining [39 U.S.C. 404(b)(2)(C)].

2. Whether the Postal Service adequately considered the effect on the community in accordance with 39 U.S.C. 404(b)(2)(A).

Other issues of law may become apparent when the Commission has had the opportunity to examine further the determination made by the Postal Service. The determination may be found to resolve adequately one or more of the issues involved in the case.

In view of the above, and in the interest of expediting this proceeding under the 120-day decisional deadline imposed by section 404(b)(5), the Postal Service is advised that the Commission reserves the right to request a legal memorandum from the Service on one or more of the issues described above and/

[1] 39 U.S.C. 404(b) was added to title 39 by Pub. L. 94-421 (September 24, 1976), 90 Stat. 1310-11. Our rules of practice governing these cases appear at 39 CFR 3001.110 *et seq.*

[2] 39 U.S.C. 404(b)(1)

[3] 39 U.S.C. 101(b).

[4] 42 FR 59070-85 (November 17, 1977). The Commission's standard of review is set forth at 39 U.S.C. 404(b)(5).

or any further issues of law disclosed by the determination made in this case. In the event that the Commission finds such memorandum necessary to explain or clarify the Service's legal position or interpretation on any such issue, it will make the request therefor by order, specifying the issues to be addressed.

When such a request is issued, the memorandum shall be filed within 20 days of the issuance, and a copy of the memorandum shall be served on the Petitioners by the Service.

In briefing the case or in filing any motion to dismiss for want of prosecurtion, in appropriate circumstances the Service may incorporate by reference all or any portion of a legal memorandum filed pursuant to such an order.

The Act does not contemplate appointment of an Officer of the Commission in section 404(b) cases,[5] and none is being appointed. The Commission orders:

(A) The appeal letters from Marjorie T. Fox and other users of the Tomnolen post office be accepted as a petition for review pursuant to section 404(b) of the Act [39 U.S.C. 404(b)]

(B) T he Secretary of the Commission shall publish this Notice and Order in the Federal Register.

By the Commission.

Cyril J. Pittack,

Acting Secretary.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 82-093]

Coast Guard Academy Advisory Committee; Open Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. 1) notice is hereby given of a meeting of the Coast Guard Academy Advisory Committee to be held in Hamilton Hall at the U.S. Coast Guard Academy, New London, CT, on Tuesday and Wednesday, October 26–27, 1982. The open session on Tuesday will be held from 1:00 to 2:45 p.m. An open session will also be held on Wednesday from 8:45 to 10:00 a.m.

The agenda for this meeting is as follows: (a) Faculty, (b) curricula.

The Coast Guard Academy Advisory Committee was established in 1937 by Pub. L. 75-38 to advise on the course of instruction at the Academy, and to make recommendations as necessary.

Attendance is open to the interested public. With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to attend or present oral statements at the meeting should notify, not later than the day before the meeting: CAPT Roderick M. White, USCG, Dean of Academics/Executive Secretary of the Academy Advisory Committee, U.S. Coast Guard Academy, New London, CT 06320, phone (203) 444–8275.

Any member of the public may present a written statement to the Committee at any time.

Issued in Washington, D.C., on September 17, 1982.

J. S. Gracey,

Admiral, U.S. Coast Guard, Commandant.

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463; 5 U.S.C. App. 1) notice is hereby given of a meeting of the Federal Aviation Administration Air Traffic Procedures Advisory Committee to be held from October 25, at 1 p.m., through October 29, at 1 p.m., at FAA Headquarters, 800 Independence Avenue, SW., Washington, D.C. 20591.

The agenda for this meeting is as follows: A continuation of the Committee's review of present air traffic control procedures and practices for standardization, clarification, and upgrading of terminology and procedures.

Attendance is open to the interested public, but limited to the space available. With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons desiring to attend and persons desiring to present oral statements should notify, not later than the day before the meeting, and information may be obtained from, Mr. L. Lane Speck, Executive Director, Air Traffic Procedures Advisory Committee, Air Traffic Service, AAT–301, 800 Independence Avenue, SW., Washington, D.C. 20591, telephone (202) 426–3725.

Any member of the public may present a written statement to the Committee at any time.

Issued in Washington, D.C. on September 16, 1982.

L. Lane Speck,

Executive Director, ATPAC.

BILLING CODE 4910-13-M

Traffic Alert and Collision Avoidance System (TCAS) Symposium

Note.—This document originally appeared in the **Federal Register** for Tuesday, September 28, 1982. It is reprinted in this issue to meet requirements for publication on the Monday/Thursday schedule assigned to the Federal Aviation Administration.

The Department of Transportation hereby announces a Traffic Alert and Collision Avoidance System (TCAS) Symposium. This 2-day symposium will commence at 10:30 a.m. on October 12, 1982, in the Federal Aviation Administration auditorium, 800 Independence Avenue, SW, Washington, D.C.

The purpose of this meeting is to present recent results from the FAA engineering development and evaluation program and to discuss these results and program plans with symposium attendees. This information exchange is intended to support current activities to develop Minimum Operational Performance Standards for TCAS.

TCAS is intended to satisfy the operational need for an airborne separation assurance service and to ensure compatibility with all elements of the National Airspace System. Its operation does not depend upon the existence of external equipment other than Air Traffic Control Radar Beacon System (ATCRBS) transponders with altitude encoders or Mode S transponders with altitude encoders in other aircraft.

Although the meeting is open to the public (space permitting) a registration fee of $7.00 will be levied to cover handouts and refreshments for the 2-day symposium. A block of rooms has been reserved at the Holiday Inn, 550 C St., SW, for your convenience. The reservations must be made to the hotel directly on 202–479–4000 no later than October 1 on a first come first serve basis.

Further information concerning the symposium may be obtained from the Federal Aviation Administration, Program Engineering and Maintenance Service, TCAS Branch, ARD–240, 800 Independence Avenue, SW,

Washington, D.C. 20591, telephone 202–426–9382.

Joseph J. Fee,

Symposium Manager.

September 24, 1982.

BILLING CODE 4910-13-M

Aircraft-Generated Electromagnetic Interference on Future Electronic Systems; Workshop

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces a forthcoming workshop which will pemit selected research experts from the aviation industry to provide Electromagnetic Interference (EMI) effects information and conduct discussions relative to airframe, electrical power systems, flight control and avionic systems, and electronic engine control systems.

DATE: October 19–21, 1982, commencing at 8:30 a.m., at the Boeing Commercial Airplane Company Auditorium, Seattle, Washington.

FOR FURTHER INFORMATION CONTACT: Mr. Nickolus O. Rasch, ACT–340, extension 1144, FAA Technical Center, Atlantic City Airport, New Jersey 08405, 609–641–8200. Attendance is open to the interested public but limited to space available. With the approval of the Chairman, members of the public may present oral statements at the workshop. Persons wishing to present statements or obtain information should contact Mr. N. Rasch. Any member of the public may present a written statement to the workshop chairman at any time.

SUPPLEMENTARY INFORMATION: The interaction which will occur at this workshop is expected to provide the aviation industry and the FAA with essential and timely information addressing aircraft and systems EMI effects, protection criteria, and guidelines. The agenda for this meeting is as follows: (1) Chairman's Introduction and Workshop Overview; (2) Definition of the Problem: (a) Digital Failure Mechanisms; (b) Coupling Paths; (c) Noise Environment; (d) Aircraft Electrical Power Transients; (e) Wire Braid Termination Effects; (f) Transients Study of the ARINC 429 Data Bus; (3) Proposed Solution: (a) Mission Level; (b) Specifications Development; (c) Design Guidelines; (d) Data Retrieval Requirements; and (4) Open Forum.

Dated: September 17, 1982.

Edmund J. Koenke,

Director, Federal Aviation Administration, Technical Center.

[FR Doc. 82-26631 Filed 9-29-82; 8:45 am]

BILLING CODE 4910-13-M

Federal Highway Administration

Draft Environmental Impact Statement Supplement; County of Los Angeles, Calif.

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that a Draft Environmental Impact Statement Supplement will be prepared for a proposed highway project in Los Angeles, California.

FOR FURTHER INFORMATION CONTACT: Albert J. Gallardo, District Engineer, Federal Highway Administration, P.O. Box 1915, Sacramento, California 95809, Telephone: (916) 440–2804.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the California Department of Transportation (Caltrans), will prepare a Draft Environmental Impact Statement Supplement on a proposal to construct Route 7, the Long Beach Freeway on new alignment from Route 10 to Route 210 in the County of Los Angeles and the Cities of Alhambra, Los Angeles, South Pasadena, and Pasadena. The project would be 6.1 to 7.3 miles in length depending upon the corridor.

Alternatives under consideration include: (1) Taking no action; (2) one design option in the Westerly Corridor; and (3) one design option in the Meridian Corridor.

No scoping meetings have been scheduled at this time.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the DEIS Supplement should be directed to the FHWA at the address provided above.

Issued on: September 21, 1982.

Albert J. Gallardo,

District Engineer, Sacramento, California.

[FR Doc. 82-26931 Filed 9-29-82; 8:45 am]

BILLING CODE 4910-22-M

Environmental Impact Statement; Henderson County, Tex.

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of Intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for a proposed highway project in Henderson County, Texas.

FOR FURTHER INFORMATION CONTACT: George H. Nelson, P.E., District Engineer, Federal Highway Administration, 850 Federal Building, Austin, Texas 78701, Telephone: (512) 482–5988.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Texas State Department of Highways and Public Transportation (DHT), intends to prepare an environmental impact statement (EIS) on a proposal to extend Farm to Market Road 317 (FM 317) in Henderson County, Texas, as a four-lane, noncontrolled access facility around the City of Athens. Because of difficulty in predicting the availability of funds, the DHT has not yet decided whether to use State or Federal funds to finance construction of this project.

The proposed facility loops the City of Athens (Inc.) (1980 pop. 10,197). The corridor study begins and ends at State Highway 31 (SH 31) northeast of the city and generally follows the outer limits of the city's developed area. Length of the proposed roadway is approximately 17 miles.

The existing street system in Athens routes nearly all local and highway traffic through the town square. The concentration of traffic at the square and a large volume of heavy trucks results in congested traffic flow, time delays and hazardous driving conditions.

The proposed loop will provide an alternate route for through traffic and some local traffic. As a result, the volume of traffic negotiating the square, especially the large trucks, should be reduced significantly. Overall accessibility in the Athens area will be improved by the proposed project.

A number of alignment alternatives for the loop and the no-build alternative are under consideration for the proposed action.

There are currently no plans to hold a formal scoping meeting for this proposal. A public meeting was held early in the planning process for the proposed project. A public hearing will be held in the first half of 1983 at a convenient time and place for persons in the project area. Notification of the hearing will be made through the local news media.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the FHWA at the address provided above.

George H. Nelson,

District Engineer, Austin, Texas.

[FR Doc. 82-26930 Filed 9-29-82; 8:45 am]

BILLING CODE 4910-22-M

Office of the Secretary

[Notice No. 82-7]

Environmental Procedures

AGENCY: Transportation Department, (DOT).

ACTION: Notice.

SUMMARY: The Department of Transportation (DOT) has revised its internal procedures for processing environmental impact statements. DOT Order 5610.1C, Procedures for Considering Environmental Impacts, has been revised to allow approval of final environmental impact statements (EISs) by the DOT Administration or Secretarial Office originating the action, without prior concurrence by the Assistant Secretary for Policy and International Affairs and the General Counsel. The previous order, dated September 18, 1979, provided that final EISs for certain categories of action could be approved by the originating office or administration only after concurrence by the Assistant Secretary. EISs which required such concurrence and which also included determinations pursuant to section 4(f) of the DOT Act also required concurrence by the General Counsel of the Department.

FOR FURTHER INFORMATION CONTACT: Camille Cleveland, Environmental Program Analyst, Department of Transportation, Environmental Division, 202–426–4366.

EFFECTIVE DATE: The effective date of the revision is July 13, 1982.

ADDRESS: Copies of Change 1 to DOT 5610.1C may be requested from: Environmental Division, P–37, Room 9400a, Office of Assistant Secretary for Policy and International Affairs, Department of Transportation, 400–7th Street, NW., Washington, D.C. 20590.

SUPPLEMENTARY INFORMATION: Change 1 to DOT 5610.1C has been issued to reflect organizational changes within the Office of the Assistant Secretary for Policy and International Affairs, effective in March 1982. The revision places a higher degree of responsibility for environmental processing with the operating administrations of the Department, and is expected to reduce the time required for processing of some final EISs. The authority to approve final EISs without prior concurrence by the Office of the Secretary was delegated to the operating administrations on an interim basis March 4, 1982. The Page Change, approved July 13, 1982, incorporates the interim delegation into the Department's formal directive on environmental processing.

The revised order requires that the operating administrations notify the Office of the Secretary that a highly controversial EIS is under review. In addition, the change permits operating administrations to consult directly with Council on Environmental Quality on project-related matters, rather than requiring that such consultation occur via the Office of the Assistant Secretary.

Issued in Washington, D.C. on September 21, 1982.

Judith T. Connor,

Assistant Secretary for Policy and International Affairs.

BILLING CODE 4810–40–M

VETERANS ADMINISTRATION

Privacy Act of 1974; Amendment of Systems Notices; Changes Other Than Routine Use Statements

Notice is hereby given that the Veterans Administration is revising the paragraphs pertaining to: System name, system location, categories of individuals in the system, categories of records in the system, authority for maintenance of the system, safeguards, retention and disposal and record source categories in the system of records entitled: Veteran, Patient, Employee, and Volunteer Research and Development Project Records—VA (34VA11) as set forth on page 677 of the **Federal Register** Publication, Privacy Act Issuances, 1980, Compilation, Volume V. The above named paragraphs of the systems notice are being rewritten in a clearer and more concise manner in order to better identify to the public the types of individuals covered in the system, the types of records being maintained by the VA, and the location and disposal of these records. The authority for maintenance of the system is title 38, United States Code, chapter 73, section 4104(c).

The Privacy Act of 1974, 5 U.S.C. 552a(e), requires agencies to inform the public of any changes to their systems of records. However, since these changes do not alter the uses of the information in the system of records, public comment is not required. The changes are effective September 23, 1982.

Dated: September 23, 1982.

Robert P. Nimmo,

Administrator.

Notice of System of Records

In the system identified as 34VA11, "Veteran, Patient, Employee, and Volunteer Research and Development Project Records—VA," appearing at page 677 of the **Federal Register** Publication, Privacy Act Issuance, 1980 Compilation, Volume V, the system notice is revised as follows:

34VA11

SYSTEM NAME:

Veteran, Patient, Employee, and Volunteer Research and Development Project Records—VA.

SYSTEM LOCATION:

Records are maintained at each VA health care facility where the research project was conducted and at VA Central Office. Address locations for VA facilities are listed in VA Appendix 1 at the end of this document.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The following categories of individuals will covered by this system: (1) Veterans; (2) patients; (3) employees, or, (4) volunteers who have indicated their willingness to be a participant in medical research projects being performed by the VA, by a VA contractor or by another Federal agency in conjunction with the VA; and (5) research and development investigators.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records, or information contained in records, vary according to the specific medical research involved and may include: (1) Research on biomedical, prosthetic and health care services; (2) research stressing spinal cord injuries and diseases and other disabilities that tend to result in paralysis of the lower extremities; and (3) morbidity and mortality studies on former prisoners of war. Central Office records contain (4) a merit review of the project; (5) a review and evaluation of the research and development investigators and of the participants in the program. The review and evaluation information concerning the research and development investigators may include personal and educational background information as well as specific information concerning the type of research conducted.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 38, United States Code, chapter 73, section 4104(c).

* * * * *

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

* * * * *

RETRIEVABILITY:

Records are retrieved by individual identifiers and indexed by a specific project site or location, project number, or under the name of the research or development investigator.

SAFEGUARDS:

Physical Security: Access to VA working space and medical record storage areas is restricted to VA employees on a "need to know" basis. Generally, VA file areas are locked after normal duty hours and are protected from outside access by the Federal Protective Service. Employee file records and file records of public figures or otherwise sensitive medical record files are stored in separate locked files. Strict control measures are enforced to ensure that disclosure is limited to a "need to know" basis. Records on investigators stored on automated storage media are accessible to authorized VACO personnel via terminals which are dedicated to this research and development information system.

RETENTION AND DISPOSAL:

The project records are held five (5) years after completion of the research project and/or publication of a report unless they become part of the patient's individual medical history file in which case the record would remain 15 years after the last activity of care.

* * * * *

RECORD SOURCE CATEGORIES:

(a) Patients and patient records, (b) employees and volunteers, (c) other Federal agencies, (d) National Institutes of Health, (e) Centers for Disease Control (Atlanta); (f) individual veterans, (g) other VA systems of records and; (h) research and development investigators.

Federal Home Loan Bank Board	6
Pacific Northwest Electric Power and Conservation Planning Council	7
Postal Rate Commission	8

1

FEDERAL COMMUNICATIONS COMMISSION

September 22, 1982.

The Federal Communications Commission will hold an Open Meeting on the subjects listed below on Wedesday, September 29, 1982, which is scheduled to commence at 9:30 a.m., in Room 856, at 1919 M Street, NW., Washington, D.C.

Agenda, Item No., and Subject

General—1—*Title:* Petitions filed by the American Telecommunications Corporation (ATC) and Electronics Industries Association (EIA) for waiver of Section 15.7 of the FCC Rules for cordless telephones. This action considers whether to grant the ATC and EIA requests for waiver of Section 15.7 for cordless phones to allow them to operate under a more practical technical standard.

Common Carrier—1—*Title:* Investigation of ENFIA rate increase CC Docket No. 78–371. *Summary:* AT&T provides other carriers (OCCs) with access to local exchanges, for use with long distance services such as MCI's Execunet, under the ENFIA agreement negotiated by AT&T and the OCCs in 1979. In April the FCC extended the agreement for up to two years. AT&T then filed to increase the rate by more than 100%. The Commission suspended the increase, imposed an interim rate, and instituted an investigation. The specific issues concerned factors used in the agreement: the average OCC billed minutes of use per ENFIA line and the average local exchange cost assigned to AT&T's own long distance services. The Commission will consider what those factors should be under the agreement.

Television—1—*Title:* Request of Broadcast Corporation of Georgia (WVEU(TV), Channel 69 Atlanta, Georgia) to operate with 50% authorized power. *Summary:* Permittee for a new UHF TV station requests that the Commission relax its current power restriction on WVEU in the presence of continuing interference to land mobile services. Commission considers whether grant of request is warranted.

This meeting may be continued the following work day to allow the Commission to complete appropriate action.

Additional information concerning this meeting may be obtained from Maureen Peratino, FCC Public Affairs Office, telephone number (202) 254–7674.

William J. Tricarico,

Secretary, Federal Communications Commission.

2

FEDERAL DEPOSIT INSURANCE CORPORATION

Changes in Subject Matter of Agency Meeting

Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that at its open meeting held at 2:00 p.m. on Monday, September 27, 1982, the Corporation's Board of Directors determined, on motion of Chairman William M. Issac, seconded by Director Irvine H. Sprague (Appointive), concurred in by Director C. T. Conover (Comptroller of the Currency), that Corporation business required the withdrawal from the agenda for consideration at the meeting, on less than seven days' notice to the public, of a recommendation regarding the liquidation of assets acquired by the Corporation from The Mission State Bank & Trust Company (In Liquidation), Mission, Kansas (Case No. 45,396–L).

By the same majority vote, the Board further determined that Corporation business required the addition to the agenda for consideration at the meeting, on less than seven days' notice to the public, of the following matters:

Recommendations regarding the liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Case No. 45,401–L—Franklin National Bank, New York, New York

Case No. 45,408–L (amended)—Banco Credito y Ahorro Ponceno, Ponce, Puerto Rico

Case No. 45,421–NR—Penn Square Bank, National Association, Oklahoma City, Oklahoma

Memorandum and Resolution re: Delegation of Approval Authority on Merger-Type Applications, and

Memorandum and Resolution re: $200,000 Funding Request from the Neighborhood Reinvestment Corporation

By the same majority vote, the Board further determined that no earlier notice of these changes in the subject matter of the meeting was practicable.

Dated: September 27, 1982.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

[S–1393–82 Filed 9–29–82; 11:29 am]

BILLING CODE 6714–01–M

3

FEDERAL DEPOSIT INSURANCE CORPORATION

Changes in Subject Matter of Agency Meeting

Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that at its closed meeting held at 2:30 p.m. on Monday, September 27, 1982, the Corporation's Board of Directors determined, on motion of Chairman William M. Issac, seconded by Director Irvine H. Sprague (Appointive), concurred in by Director C. T. Conover (Comptroller of the Currency), that Corporation business required the addition to the agenda for consideration at the meeting, on less than seven days' notice to the public, of the following matters:

Recommendation regarding the liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Liquidation Case No. 45,343–L—Reserves for Losses—108 Open Liquidation Cases, and

Memorandums re: Application of Losses and Accretions from Various Present Value Transactions of Merger Assistance Agreements to the Net Assessment Income Credit Computation (Two Memorandums)

The Board further determined, by the same majority vote, that no earlier notice of the changes in the subject matter of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting by authority of subsections (c)(2), (c)(4), (c)(6), (c)(8),

(c)(9)(B) and (c)(10) of the "Government in the Sunshine Act" (5 U.S.C. 552b (c)(2), (c)(4), (c)(6), (c)(8), (c)(9)(B), and (c)(10)).

Dated: September 27, 1982.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

Part II

Department of Commerce

Patent and Trademark Office

Small Business Administration

Revision of Patent and Trademark Fees and Definition of Small Business Concern

SMALL BUSINESS ADMINISTRATION

13 CFR Part 121

Definition of Small Business for Paying Reduced Patent Fees Under Title 35, United States Code

AGENCY: Small Business Administration.

ACTION: Final rule.

SUMMARY: The Small Business Administration in conjunction with the Patent and Trademark Office is establishing a definition of small business for the purpose of paying patent fees under section 41 (a) and (b) of Title 35, United States Code, which are reduced by 50 per centum for small business concerns as required by Pub.L. 97–247. The definition would be implemented by the Patent and Trademark Office, which has recently published its regulations on the fee reduction procedures (47 FR 40134, September 10, 1982).

EFFECTIVE DATE: October 1, 1982.

FOR FURTHER INFORMATION CONTACT: R. Franklin Burnett (703) 557–3054. Harvey Bronstein (202) 653–6373.

SUPPLEMENTARY INFORMATION: Pub. L. 97–247 provides that funds available under the Act to the Patent and Trademark Office "shall be used to reduce by 50 per centum the payment of fees under Section 41 (a) and (b) of Title 35, United States Code, by small business concerns as defined in Section 3 of the Small Business Act and by regulations established by the Small Business Administration."

A notice of proposed rulemaking relating to the definition of a small business was published in the **Federal Register** on August 31, 1982 (47 FR 38331). The regulation being issued is the same as that which was proposed. In order to be a small business, the number of employees of the concern, including those of its affiliates, may not exceed 500 persons. Concerns are affiliates of each other when either, directly or indirectly, one concern controls or has the power to control the other, or a third party or parties controls or has the power to control both. The number of employees of a business concern is determined by counting the number of persons of the concern and its affiliates employed on a full-time, part-time or temporary basis during the previous fiscal year of the concern and of its affiliates. The number of employees is the average over the fiscal year of the persons employed during each of the pay periods of the fiscal year.

The definition also requires a small business for this purpose to be one "which has not assigned, granted, conveyed, or licensed, and is under no obligation under contract or law to assign, grant, convey, or license, any rights in the invention to any person who could not be classified as an independent inventor if that person had made the invention, or to any concern which would not qualify as a small business concern or a nonprofit organization under this section."

Discussion of Comments

One comment from the American Patent Law Association, whose membership includes several thousand lawyers involved in the practice of law before the U.S. Patent and Trademark Office, expressed "no comment regarding the definition" and expressed "[t]hanks for all that's been done toward a hopefully workable definition." The remaining comments were from individual patent attorneys rather than comments on behalf of any organization.

Two comments raised questions about the intended scope of the term "license." It was suggested that clarification is needed as to what is included within the scope of the term. One comment suggested that, "[a]t the very least, the record should reflect that the definition is not intended to reach implied licenses to use and resell patented articles purchased from a small business." The comment is correct insofar as it suggests that such "implied licenses" are not intended to be included within the scope of the term. Likewise, an order by the applicant to a firm to build a proto-type machine or product for the applicant's own use is not considered to constitute a license for purposes of the definition.

Another suggestion was that the regulation be reworded to deny small business status where revenue above a certain dollar amount was received from licensing rights under the invention to a concern which could not qualify as a small entity. It was also suggested that the term "exclusive license of any of the rights in the invention" be used instead of the term "license." The latter two suggestions have not been adopted. Adoption of these suggestions would cause the regulation to become more complicated, and does not appear necessary to aid small concerns in accord with the purposes of the legislation. In addition, it could substantially broaden the number of concerns which could qualify with a resulting excessive loss of revenue to the Patent and Trademark Office. It is not seen likely that the restriction on licensing would unduly or adversely affect the ability of the small business concern to participate in the patent system.

Another comment which was made related to a firm which is a subsidiary of a university or other nonprofit organization. The suggestion was made that the number of employees of the university or other nonprofit affiliate be excluded from consideration in determining whether or not the business concern qualifies as a small business concern. The suggestion has not been adopted since the situation raised is already treated under the definition of nonprofit organization established by the Patent and Trademark Office on September 10, 1982, at 47 FR 40134–40140. Under that Patent and Trademark Office regulation, a wholly owned subsidiary of a nonprofit or university is considered a part of the university or nonprofit and thus is already eligible for the fee reduction.

One comment suggested that the regulation contain language specifying that concerns meeting its requirements are also independently owned and operated and not dominant in their field of operation under the Small Business Act. It is not necessary to include this language since this regulation already contains an affiliation test for this purpose; and it is generally unlikely that a small concern would be found to be dominant. The legislative history of the Small Business Act indicates that "The mere fact that a small business makes a particular product or item and is dominant in its field with respect to the particular product or item is not intended to disqualify it from the benefits of this Act * * *" (House Report 494, 83rd Congress, 1st Session 1953). SBA Size Appeals Board precedents have consistently stated that dominance under the Act and the SBA regulations is not viewed in narrow industry subdivisions. It, therefore, does not appear that concerns defined as small business under this provision would be dominant within the meaning of the Small Business Act.

Another comment suggested that foreign concerns should not be eligible as small business under this provision. Since this patent legislation was enacted by the Congress with knowledge of the Paris Convention for the Protection of Industrial Property, there is no indication that Congress intended that foreign small business not be eligible for

the fee reduction. It is the view of the Patent and Trademark Office that excluding foreign small concerns would violate U.S. treaties in the patent area.

This comment also questioned whether the Patent and Trademark Office should make initial size determinations, or whether they could more appropriately be made by SBA. Since the fee reduction procedure is part of the patent application and of other Patent and Trademark Office actions and may involve Patent law questions, it would be administratively infeasible to have initial size determinations made by the SBA. The Patent and Trademark Office recently issued regulations (September 10, 1982, 47 FR 40134) which set forth the fee reduction procedures.

Other Considerations Relating to the Rulemaking

Environmental, energy, and other considerations: The rule will not have a significant impact on the quality of the human environment or the conservation of energy resources.

Small business concerns will be benefited by the rule. The proposed rule will not have a significant economic impact on a substantial number of small entities (Regulatory Flexibility Act, Pub. L. 96–354). Public Law 97–247 has taken into consideration the impact it may have on small entities and has reduced the fees, therefore, by 50 per centum.

The Small Business Administration has determined that this rule is not a major rule under Executive Order 12291. The annual effect on the economy will be less than $100 million. There will be no major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions. There will be no significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

This rule will not impose a burden under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*, since no significant additional record keeping or reporting requirements are placed upon the public.

List of Subjects in 13 CFR Part 121

Small businesses, Inventions and patents.

PART 121—SMALL BUSINESS SIZE STANDARDS

Accordingly, pursuant to Section 3 of the Small Business Act and Pub. L. 97–247, Part 121 of Title 13 of the Code of Federal Regulations is amended by adding § 121.3–18 to read as follows:

§ 121.3–18 Definition of small business for paying reduced patent fees under Title 35, U.S. Code

(a) Pursuant to Pub. L. 97–247, a small business concern for purposes of paying reduced fees under 35 U.S. Code 41 (a) and (b) to the Patent and Trademark Office means any business concern (1) whose number of employees, including those of its affiliates, does not exceed 500 persons and (2) which has not assigned, granted, conveyed, or licensed, and is under no obligation under contract or law to assign, grant, convey or license, any rights in the invention to any person who could not be classified as an independent inventor if that person had made the invention, or to any concern which would not qualify as a small business concern or a nonprofit organization under this section. For the purpose of this section concerns are affiliates of each other when either, directly or indirectly, one concern controls or has the power to control the other, or a third party or parties controls or has the power to control both. The number of employees of the business concern is the average over the fiscal year of the persons employed during each of the pay periods of the fiscal year. Employees are those persons employed on a full-time, part-time or temporary basis during the previous fiscal year of the concern.

(b) If the Patent and Trademark Office determines that a concern is not eligible as a small business concern within this section, the concern shall have a right to appeal that determination to the Small Business Administration. The Patent and Trademark Office shall transmit its written decision and the pertinent size determination file to the SBA in the event of such adverse determination and size appeal. Such appeals by concerns should be submitted to the SBA at 1441 L Street, NW., Washington, D.C. 20416 (Attention: SBA Office of General Counsel). The appeal should state the basis upon which it is claimed that the Patent and Trademark Office initial size determination on the concern was in error and the facts and arguments supporting the concern's claimed status as a small business concern under this section.

Dated: September 23, 1982.

Robert B. Webber,

Acting Administrator.

BILLING CODE 8025-01-M

DEPARTMENT OF COMMERCE

Patent and Trademark Office

37 CFR Part 1

[Docket No. 2909–187]

Revision of Patent and Trademark Fees

AGENCY: Patent and Trademark Office, Commerce.

ACTION: Final rule.

SUMMARY: The Patent and Trademark Office is amending the rules of practice in patent and trademark cases to establish a definition and procedures for the payment of fees under section 41 (a) and (b) of Title 35, United States Code, by small business concerns as required by Pub. L. 97–247. This action adopts the definition of a "small business concern" for purposes of paying patent fees established by the Small Business Administration and is necessary at this time in order that the procedures for paying reduced fees will be effective on October 1, 1982, the effective date of the changes in the amounts of Patent and Trademark Office fees established by Pub. L. 97–247.

EFFECTIVE DATE: October 1, 1982.

FOR FURTHER INFORMATION CONTACT: R. Franklin Burnett by telephone at (703) 557–3054 or by mail addressed to the Commissioner of Patents and Trademarks, Attention: R. Franklin Burnett, Room 3–11A13, Washington, D.C. 20231.

SUPPLEMENTARY INFORMATION: A notice of proposed rulemaking was published in the **Federal Register** on June 28, 1982, at 47 FR 28042–28063 and in the *Official Gazette* on June 29, 1982, at 1019 O.G. 57–120. Oral hearings were held on July 9, 1982. Full consideration has been given to all of the letters, statements, and testimony received at the time. A final rule on "Revision of Patent and Trademark Fees" was published on July 30, 1982 at 47 FR 33086–33112 with corrections in the printing thereof being published on August 4, 1982, at 47 FR 33688 and on August 5, 1982, at 47 FR 33959. The final rule was also published in the *Official Gazette* on August 10, 1982, at 1021 O.G. 19–94. In view of comments received at the hearings, additional time for comment on certain rules, including those covered by this change, was given until August 13, 1982. The notice extending the time for comment was published on July 27, 1982 at 47 FR 32458. A final rule relating to definitions of "independent inventor" and "nonprofit organizations" was published on September 10, 1982 at 47 FR 40134–40140.

Objectives of Rule Changes

These rule changes are designed to implement the Patent and Trademark Office fees and procedures which are provided for by Pub. L. 97–247.

Public Law 97–247

Pub. L. 97–247, signed August 27, 1982, provides that funds available under the act "shall be used to reduce by 50 per centum the payment of fees under section 41 (a) and (b) of title 35, United States Code" by independent inventors, small business concerns, and nonprofit organizations. The Commissioner has established regulations defining independent inventors and nonprofit organizations. Pub. L. 97–247 defines small business concerns by reference to Section 3 of the Small Business Act and regulations established by the Small Business Administration. The Small Business Administration has now established the definition of a small business concern for the purpose of paying reduced fees under Pub. L. 97–247. That definition is hereby incorporated into the patent rules of practice in § 1.9(d). This rulemaking also establishes the procedures which will be followed by small business concerns when paying the reduced fees.

Discussion of Specific Sections

The following sections are changed by this final rule, effective October 1, 1982:

Section 1.9, as amended, adds paragraph (d) which defines small business concern as used in Title 37, Code of Federal Regulations, Chapter I. A small business concern is identified as a "small entity" for purposes of paying fees which are set under section 41(a) and (b) of Title 35, United States Code, as amended by Pub. L. 97–247.

Section 1.9(d) defines a small business concern by reference to and incorporation of § 121.3–18 of Title 13, Code of Federal Regulations. A small business concern is defined therein as any business concern (1) whose number of employees, including those of its affiliates, does not exceed 500 persons and (2) which has not assigned, granted, conveyed, or licensed, and is under no obligation under contract or law to assign, grant, convey, or license, any rights in the invention to any person who could not be classified as an independent inventor if that person had made the invention, or to any concern which would not qualify as a small business concern or a nonprofit organization under this section. The section further defines affiliates of concerns and defines also the terms "employees" and "number of employees." concerns are affiliates of each other when either, directly or indirectly, one concern controls or has the power to control the other, or a third party or parties controls or has the power to control both. The number of employees a business concern has is determined by counting the number of persons of the concern and its affiliates employed on a full-time, part-time or temporary basis during the previous fiscal year of the concern and of its affiliates. The number of employees is the average over the fiscal year of the persons employed during each of the pay periods of the fiscal year. Business concerns located in any country which meet the small business definition and which comply with the applicable procedures can qualify as a "small business concern". Under the definition, a small business concern would no longer qualify as a small business concern if any rights were assigned to any individual or concern which could not qualify as a small entity pursuant to § 1.9(f), or if the concern came under an obligation to assign any rights to any individual or concern which could not qualify as a small entity.

Section 1.9(d) also incorporates paragraph (b) of 13 CFR 121.3–18 which provides for appeals to the Small Business Administration from Patent and Trademark Office adverse initial size determinations.

Paragraph 1.27(c) provides for claiming status as a small business concern. Any person seeking to establish status as a small entity, for purpose of paying reduced fees, must file a statement to that effect prior to or with the payment of the first fee paid as a small entity. Under § 1.27, as long as all of the rights remain in small entities, the fees established for a small entity can be paid. This includes circumstances where the rights were divided between an independent inventor, a small business concern and a nonprofit organization or any combination thereof.

A number of changes which have been made to §§ 1.9 and 1.27 as a result of the comments received and further review of the proposed rulemaking are identified below.

Paragraph (d) of § 1.9 has been changed from that proposed so as to incorporate into § 1.9(d), the definition established by the Small Business Administration in § 121.3–18 of Title 13, Code of Federal Regulations. The definition differs from that proposed in specifying the number of employees constituting a small business concern and specifying that the concern must be one which has not assigned, granted, conveyed, or licensed, and is under no obligation under contract or law to assign, grant, convey or license any rights in the invention to any person or concern which could not be classified as an independent inventor, small business concern, or nonprofit organization.

Paragraph (c) of § 1.27 has been changed from that proposed to clarify who is to file the verified statement. The verified statement for a small business concern is to be signed by "the owner or an official of the small business concern empowered to act on behalf of the concern." The term "official" as used in paragraph (c) is intended to include any officer, employee, or part-owner empowered to act on behalf of a small business concern. For example, an officer or employee of a corporation empowered to act for the corporation by its board of directors would be qualified to sign such a verified statement.

Response to Comments on the Patent Rules

Specific comments were received on a number of the sections. All of the comments, including the oral testimony and the written comments, were considered in adopting the changes set forth herein.

Written comments on the rules affected by this final rule were received from three patent law groups and a number of individuals. The three patent law groups were (1) the American Patent Law Association; (2) the Patent, Trademark, and Copyright Section of the Virginia State Bar; and (3) the Patent, Trademark and Copyright Law Section of the Bar Association of the District of Columbia.

Oral comments were presented at the hearing on behalf of two patent law groups.

The comments appear below along with replies thereto.

Comment

Two comments urged that in view of the "exceedingly complex" definitions of a "small business" in 13 CFR 121.3, the patent system and those associated with it would be best served by setting forth clear guidelines as to whether or not a business qualifies as a small business without reference to the Small Business Act and without incorporation by reference of "the too many pages of SBA regulatory definition."

Reply

Pub. L. 97–247 specifically refers to section 3 of the Small Business Act and regulations established by the Small Business Administration for determining whether or not a business concern qualifies as a small business concern. Pub. L. 97–247 therefore does not permit

the establishment of guidelines without reference to the Small Business Act and regulations established by the Small Business Administration. Section 1.9(d), however, does incorporate the definition as established in § 121.3–18 of Title 13, Code of Federal Regulations. This will enable persons to utilize § 1.9(d) without also referring to a copy of Title 13, CFR.

Comment

One comment argued that § 1.27 should be corrected or clarified to indicate that a small business concern would be entitled to the 50 percent fee reduction even though it may grant a non-exclusive or even an exclusive license to some non-small entity.

Reply

The suggestion has not been adopted. Section 1.27 requires that the concern qualify as a small business concern as defined in § 1.9(d). Section 1.9(d) defines a small business concern by incorporating 13 CFR 121.3–18, which in turn defines a small business concern as one not exceeding a particular size "which has not assigned, granted, conveyed, or licensed, and is under no obligation under contract or law to assign, grant, convey or license, any rights in the invention to any person who could not be classified as an independent inventor if that person had made the invention, or to any concern which would not qualify as a small business concern or a nonprofit organization under this section." The intent of both 13 CFR 121.3–18 and 37 CFR 1.9(d) and 1.27(c) is to limit the payment of reduced fees under section 41 (a) and (b) of Title 35, United States Code, to those situations in which all of the rights in the invention are owned by small entities, i.e., independent inventors, small business concerns, or nonprofit organizations. To do otherwise would be clearly contrary to the intended purpose of the legislation which contains no indication that fees are to be reduced in circumstances where rights are owned by non-small entities. Adopting the suggestion might, for example, permit a non-small entity to transfer patent rights to a small business concern which would pay the reduced fees and grant an exclusive license to the non-small entity.

Comment

One comment suggested that the specific Small Business Administration regulations which are applicable be specified in § 1.9(d).

Reply

The definition of a small business concern as established by the Small Business Administration is now incorporated into § 1.9(d).

Implementation of §§ 1.9 and 1.27

Status as a small entity can be established in any application or patent for which a fee is due on or after October 1, 1982, and in which the individual inventor, small business concern, or nonprofit organization meets the qualifications established for small entity status.

Other Considerations Relating to Patent and Trademark Fee Revisions

Environmental, energy, and other considerations: The rule change will not have a significant impact on the quality of the human environment or the conservation of energy resources.

This rule change is in conformity with the requirements of the Regulatory Flexibility Act (Pub. L. 96–354), Executive Order 12291, and the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*).

The rule change will not have a significant adverse economic impact on a substantial number of small entities (Regulatory Flexibility Act. Pub. L. 96–354) for several reasons. Pub. L. 97–247 has taken into consideration the impact the increase in fees may have on small entities. Under Pub. L. 97–247 and this rulemaking, small entities will be able to pay reduced fees for filing patent applications and for the issuance and maintenance in force of patents.

The Patent and Trademark Office has determined that this rule change is not a major rule under Executive Order 12291. The annual effect on the economy will be less than $100 million. There will be no major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions. There will be no significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

This rule change will not impose a burden under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*, since no significant additional record keeping or reporting requirements are placed upon the public.

List of Subjects in 37 CFR Part 1

Administrative practice and procedure, Inventions and patents, Small businesses.

Amendment of Regulations

For the reasons indicated above and pursuant to the authority given to the Commissioner of Patents and Trademarks by 35 U.S.C. 6, and Pub. L. 97–247, Part 1 of Title 37, Code of Federal Regulations, is amended as set forth below.

PART 1—RULES OF PRACTICE IN PATENT CASES

1. Section 1.9 is amended by adding a new paragraph (d) to read as follows:

§ 1.9 Definitions.

* * * * *

(d) A small business concern as used in this chapter means any business concern as defined by the Small Business Administration in 13 CFR 121.3–18, published on September 30, 1982 at 47 FR 43273. For the convenience of the users of these regulations, that definition states:

§ 121.3–18 Definition of small business for paying reduced patent fees under Title 35, U.S. Code

(a) Pursuant to Pub. L. 97–247, a small business concern for purposes of paying reduced fees under 35 U.S. Code 41 (a) and (b) to the Patent and Trademark Office means any business concern (1) whose number of employees, including those of its affiliates, does not exceed 500 persons and (2) which has not assigned, granted, conveyed, or licensed, and is under no obligation under contract or law to assign, grant, convey or license, any rights in the invention to any person who could not be classified as an independent inventor if that person had made the invention, or to any concern which would not qualify as a small business concern or a nonprofit organization under this section. For the purpose of this section concerns are affiliates of each other when either, directly or indirectly, one concern controls or has the power to control the other, or a third party or parties controls or has the power to control both. The number of employees of the business concern is the average over the fiscal year of the persons employed during each of the pay periods of the fiscal year. Employees are those persons employed on a full-time, part-time or temporary basis during the previous fiscal year of the concern.

(b) If the Patent and Trademark Office determines that a concern is not eligible as a small business concern within this section, the concern shall have a right to appeal that determination to the Small Business Administration. The Patent and Trademark Office shall transmit its written decision and the pertinent size determination file to the SBA in the event of such adverse determination and size appeal. Such appeals by concerns should be submitted to the SBA at 1441 L Street, NW., Washington, D.C. 20416 (Attention: SBA Office of General Counsel). The appeal should state the basis upon which it is claimed that the Patent and Trademark Office initial size determination on the concern was in error; and the facts and arguments supporting the concern's claimed

status as a small business concern under this section.

2. Section 1.27 is amended by adding a new paragraph (c) to read as follows:

§ 1.27 Statement of status as small entity.

* * * * *

(c) Any verified statement filed pursuant to paragraph (a) of this section on behalf of a small business concern must (1) be signed by the owner or an official of the small business concern empowered to act on behalf of the concern; (2) aver that the concern qualifies as a small business concern as defined in § 1.9(d); and (3) aver that exclusive rights to the invention have been conveyed to and remain with the small business concern, or if the rights are not exclusive, that all other rights belong to small entities as defined in § 1.9. Where the rights of the small business concern as a small entity are not exclusive, a verified statement must also be filed by the other small entities having rights averring to their status as such.

Dated: September 23, 1982.

Gerald J. Mossinghoff,

Commissioner of Patents and Trademarks.

Special Federal Aviation Regulation No. 44-5; Air Traffic Control System; Interim Operations Plan

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 91

[Docket No. 22050; SFAR No. 44-5]

Special Federal Aviation Regulation No. 44-5; Air Traffic Control System; Interim Operations Plan

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: This amendment to Special Federal Aviation Regulation (SFAR) No. 44-5, which established procedures to be used in the allocation of additional air traffic system capacity as it becomes available, makes adjustments to the procedures utilized for allocation of slots. It changes the time periods in which carriers must select slots as well as establishing "passing" procedures. The amendment is necessary to respond to problems and questions that arose during the slot selection session.

EFFECTIVE DATE: September 27, 1982.

ADDRESSES: Send comments on the rule in duplicate to:
Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket (AGC-204), Docket No. 22050, 800 Independence Avenue, SW., Washington, D.C. 20591.

or deliver them to:

800 Independence Avenue, SW., Room 915G, Washington, D.C.

Comments may be examined in the Rules Docket, weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT:
Edward P. Faberman, Deputy Chief Counsel, 202-426-3775

or

Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591

SUPPLEMENTARY INFORMATION:

Comments Invited

Although this is issued as a final rule, comments are invited on the amendment. Comments relating to the environmental, energy, or economic impacts that might result from adoption of the proposals contained in this notice are invited. Communications should identify the regulatory docket and be submitted in duplicate to the address above. All communications received will be considered by the Administrator on a continuing basis. The requirements contained in this amendment may be changed in the light of comments received. All comments submitted will be available in the Rules Docket for examination by interested persons. A report summarizing each substantive public contact with FAA personnel concerned with the rulemaking will be filed in the docket. Commenters wishing to have the FAA acknowledge receipt of their comments must submit with those coments a self-address, stamped postcard on which the following statement is made: "Comments to Docket Number 22050." The postcard will be dated, time-stamped, and returned to the commenter.

Background and Discussion

On August 9, 1982, the FAA issued SFAR 44-5 (47 FR 35156; August 12, 1982) which established procedures to be used in the allocation of additional air traffic system capacity as it becomes available. The amendment established a slot selection system which allowed carriers to choose slots they desire from those available during a slot selection session.

On August 20, 1982, the FAA conducted a random draw to determine the order of selection for all future allocation periods. On August 25-26, 1982, the agency held a slot selection session. During that session, a number of questions were raised concerning the slot selection procedures. As a result of these questions and other issues that have arisen since issuance of SFAR 44-5, it is necessary to adjust the existing procedures prior to the next scheduled slot selection session.

5-Minute Selection Requirement

Under SFAR 44-5, a carrier is required to make its slot selection within 5 minutes after its turn is called or it will lose its turn. At the August slot selection session, there were a number of carriers which did not make selections. These carriers either did not appear at the session or left the session after an early sequence. Because of the 5-minute requirement, the session was interrupted for 5 minutes for each missing carrier to see if that carrier was, in fact, participating in the session. Since this occurred numerous times, a great deal of time was wasted. To rectify this, the 5-minute requirement is amended. A carrier still has 5 minutes to make its selection. However, if the carrier is not prepared to make its selection within 1 minute after its turn is called, it must answer "present." If the carrier does not answer "present" within 1 minute after its turn is called, the carrier will lose its turn in that round. If the carrier answers "present," it still must make its slot selection within a total of 5 minutes after its turn is called.

New Entrant Definition

SFAR 44-5 defines "new entrant" as a carrier that is not operating at any airport on or before August 1, 1982, has appropriate Civil Aeronautic Board (CAB) authority, and has applied for an FAA certificate. An unanswered question was—"At what point can a 'new entrant' be added to the priority selection list?

In determining when an applicant has applied for an FAA certificate, the agency has stated the following:

A formal application for a certificate is not complete or considered submitted until the applicant has presented to the FAA District Office such items including the following:

1. Compliance statement.
2. Aircraft operating manuals.
3. Company operating manuals.
4. Training programs.
5. Maintenance programs.
6. Schedule of events, such as:

(a) Proving runs;
(b) Aircraft deliveries;
(c) Training complete dates;
(d) Emergency evacuation demonstration; and
(e) First revenue trip.

By submitting this information (if carrier has met other criteria) the carrier would be considered as a new entrant and thus would be able to obtain slots. The FAA recognizes, however, that it is not necessarily equitable to require a new entrant to complete submission of all such material before it can be added to the selection list. Therefore, the agency will allow an applicant to be added to the priority list if it has an appropriate CAB certificate, has not operated at any airport on or before August 1, 1982, and has submitted at least one of the six categories of documentation listed above. Although the applicant will be added to the priority list, it will not be able to select slots until it has submitted all the required information as listed above. Such an applicant cannot trade its selection position.

Use or Lose Provision

SFAR 44-5 states that slots that a carrier does not actually use at least 57 percent of the schedule period will be automatically revoked. This means that slots must be utilized on an average of 4 days per week. The FAA believes that there is one situation in which it is appropriate to provide some relief from this requirement. This area involves

carriers that only operate a seasonal operation a few days a week or for a part of a schedule period. An example of this would be a situation in which a carrier operates Thursday, Friday and Saturday flights into Denver during the winter months. The carrier has a slot which it wishes to dedicate to this operation. The slot is operated every January–March. It will obviously not use the slot 57 percent of the schedule period. This limited number of seasonal carriers should be able to obtain some relief from the use or lose provision. Thus, if a carrier wishes to use a slot for a seasonal operation (carrier has the burden of showing that that operation has been historically seasonal) for less than 57 percent of the schedule period, the carrier can obtain a written waiver from this provision from the Associate Administrator for Policy and International Aviation (API–1). To obtain the waiver, the carrier must submit, in writing, the following information:

1. The slot or slots in question;
2. The operation for which the slot will be utilized;
3. The number of days in which the operation will be conducted; and
4. The basis for which the operation is considered to be historically seasonal.

If this information is acceptable, API–1 will provide the carrier with a written waiver which will allow the carrier to operate the particular slot less than 57 percent of the schedule period. The FAA will submit the remaining days not in use to the Central Flow Control facility to allow the slot to be used for charter and extra sections during the remainder of the unused schedule period.

Carriers are reminded that if they wish to obtain slots for 1 or 2 days a week, they must obtain those slots directly from Central Flow Control as available.

Trade of Slots

SFAR 44–5 reminded carriers that the prohibition against selling slots was continued. To verify that slots involved in a trade were not involved in a sale, the agency believes it appropriate for the carrier obtaining the slot to make an affirmative statement that the transaction did not involve consideration other than slots. Thus, such a statement must be submitted to API–1 in accordance with any request for approval for any trade of slots or position in the slot selection process by a principal of that airline. The FAA's policy on trade of slots has been approved by the Office of Management and Budget through June 30, 1983.

Passing

SFAR 44–5 provides for "passing." An air carrier deciding not to select slots may advise the FAA, prior to that carrier's first opportunity to select slots, that it will "pass." If a carrier passes from one session to the next, it will be placed at the top of the appropriate pass list for the next selection session.

One question that arose during the first slot selection was whether an impacted incumbent could pass. The answer to that question is yes. An impacted incumbent may pass its two "impacted" selections from one selection session to the next. An impacted incumbent who elects to pass will be placed on the "impacted incumbent pass list" for the next session. Impacted incumbents are reminded that they do not have to select slots as an impacted incumbent and, instead, may defer their selection until they come up in the regular selection order.

In this connection, carriers are reminded that during any slot selection sequence after their turn is called, they may defer without passing. This means that they will not select a slot during that sequence but may select a slot in a later sequence. A carrier that defers remains in the same selection position.

One additional clarification is necessary in connection with "passing." The order of sequence carriers held when they passed will determine the order in which they will select slots in the next session. This eliminates any race to pass by hand-delivering a "pass" notice to the FAA. The rule has been changed accordingly.

Seasonal Operations

There are a number of carriers which conduct operations during a limited time period that are considered to be seasonal operations. These operations are often to resort areas during either the winter or summer periods. The FAA acknowledges that there must be some adjustments to the slot base of these carriers to allow them to continue operations which they have historically flown. In some situations a carrier will actually cease the operation after the summer and will operate elsewhere in the winter. If a carrier is not permitted to obtain slots for such seasonal operations, it may not be able to continue in business. Therefore, the FAA will, in certain cases, adjust a carrier's base if that carrier establishes that an adjustment is necessary for it to conduct a seasonal operation which it has historically operated. In accomplishing this, the following factors will be considered: (1) The slots necessary to conduct the seasonal operation; (2) Whether the operation has been flown at least one previous year; (3) The seasonal operation is for a continuous period of six months or less; (4) A carrier no longer has in its base slots used for this seasonal operation; (5) The seasonal operation is a major part of the carrier's overall operation; (6) The carrier has fewer slots in its base at the airport at which the seasonal operation is proposed than it did when the seasonal operation was previously conducted, adjusted to take into account any slots the carrier may have sold or traded.

A carrier which has a significant number of slots will not be given seasonal slots. The intent of this provision is to allow the agency to increase the base of a carrier which is dependent upon a seasonal operation. If a carrier does meet the above criteria every attempt made will accommodate the carrier without lessening the number of slots available at the slot selection session.

SFAR 44–5 requires air carriers to submit charter, extra section, emergency, ferry, pilot training, and mechanical repair checkout flight requests to the FAA Central Flow Control Facility. The number of these types of operations has remained consistent during the past several months. These operations are conducted throughout the day at many airports. The total number of such flights does not place a burden on the system. Therefore, the FAA is removing the need to obtain any slot authority for non-passenger ferry flights, pilot training, and mechanical repair checkout operations. It will still be necessary to obtain Central Flow approval for charter and extra section operations.

This action is consistent with a petition for rulemaking dated September 2, 1982, by the Air Transport Association of America. The other proposals contained in their petition will not be acted upon at this time, but will be considered as part of the agency's continued review of the system.

The agency will closely monitor operations under this amendment. If this authority is not strictly adhered to, the agency will reconsider this change.

Change of Controlled Airports and Centers

Effective September 21, 1982, flights within the Washington Center no longer need slots. However, an operation to an airport within the Washington Center from an airport outside of the Center, e.g., from JFK to BWI still requires a slot at the arrival airport, in this case BWI.

Immediate Adoption of Rule

This rule involves a number of procedural changes to existing allocation procedures which are necessary to clarify those procedures. It is necessary for these changes to be made before the next slot allocation. Therefore, I find that further notice and public procedure thereon are impracticable and contrary to the public interest. I further find that good cause exists for making this regulation effective in less than 30 days after its publication in the Federal Register.

Air traffic control.

Adoption of the Rule

PART 91—GENERAL OPERATING AND FLIGHT RULES

Chapter I of Title 14 of the Code of Federal Regulations is amended as follows effective September 27, 1982.

The Appendix to Special Federal Aviation Regulation 44–5 (14 CFR Part 91) is amended as follows:

1. The following is added at the end of paragraph 2(a):

Upon a showing by the carrier that an operation is historically seasonal, API–1 may grant a waiver from the 57-percent requirement.

2. The following is substituted in lieu of the second sentence of paragraph (2)(e):

A carrier must answer "present" or make its selections within 1 minute or it will lose its turn. If it answers "present," the carrier must make its selection within 5 minutes total after its turn is called or it will lose its turn.

3. The following sentence is added at the end of paragraph 2(e):

A carrier not passing and deciding not to select slots in a particular sequence may "defer" selection in that sequence.

4. The last paragraph of paragraph 2(f) is changed to read as follows:

After the first slot selection session, the order for slot selection will be as follows: (1) impacted incumbents that "passed" their "impacted incumbent" selections in the previous slot selection session in the order in which they were listed as impacted; (2) impacted incumbents; (3) carriers that "passed" in the previous slot selection section in the order in which they were listed in the selection list; and (4) the carrier following the last carrier to make a slot selection in the previous session.

5. The following is inserted in lieu of the first sentence in paragraph 4:

Charter and extra section flight requests shall be made to the FAA Central Flow Facility. Non-passenger ferry flights, pilot training and mechanical repair checkout operations may be conducted notwithstanding the limitations contained in this SFAR.

(Secs. 307 (a) and (c), 313(a), and 601(a), Federal Aviation Act of 1958, as amended (49 U.S.C. 1348 (a) and (c), 1354(a), and 1421(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. Section 1655(c)))

Note.—The FAA has determined that this rule is only a clarifying amendment in that it adjusts the procedures utilized during the slot selection process. It is consistent with previous interpretations given at the selection sessions. There are no apparent direct or indirect (non-industry) costs associated with the amendment. Therefore, the preparation of a regulatory evaluation is unnecessary.

Based on the above, it has been determined that this is not a major regulation under Executive Order 12291 and I certify that, under the criteria of the Regulatory Flexibility Act, the rule will not have a significant economic impact on a substantial number of small entities. In addition, the FAA has determined that this amendment is not significant under the Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979).

Issued in Washington, D.C., on September 27, 1982.

J. Lynn Helms,
Administrator.

Part IV

Department of Health and Human Services

Health Care Financing Administration

Medicare Program; Medicare Hospital Reimbursement Reforms: Limitations on Reimbursable Costs and the Rate of Hospital Cost Increases

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Care Financing Administration

42 CFR Part 405

Medicare Program; Medicare Hospital Reimbursement Reforms: Limitations on Reimbursable Costs and the Rate of Hospital Cost Increases

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Interim Final Rule with Comment Period.

SUMMARY: These rules implement section 1886 of the Social Security Act (established by section 101 of the Tax Equity and Fiscal Responsibility Act of 1982). These rules amend current regulations on hospital cost limits, providing for new exemptions and exceptions. These amendments make exceptions available to hospitals consistent with the new cost limits published elsewhere in this issue of the **Federal Register**, and specifically exempt from those cost limits rural hospitals with less than 50 beds in existence as of the enactment of the law. These rules also set forth new regulations establishing a three-year ceiling on the allowable annual rate of increase in operating costs per case for inpatient hospital services. This ceiling takes the form of a target amount of cost per case against which a hospital's incurred cost per case will be compared. Hospitals are provided incentives to keep their cost increases below the target rate. A hospital that has costs per case less than the target amount will be paid a portion of the difference between actual cost and the target amount. A hospital that has costs per case that are greater than the target amount will be paid the target amount plus 25 percent of its costs in excess of the target for the first two years of the ceiling, and none of the excess in the third year. However, payment to a hospital under these new target rate regulations will not be greater than the amount determined under the new schedule of limits on hospital inpatient operating costs published elsewhere in this issue of the **Federal Register.**

DATES: These rules are effective for hospital cost reporting periods beginning on or after October 1, 1982. 42 CFR 405.463, establishing target rates for hospital cost increases, will apply only to cost reporting periods beginning before October 1, 1985.

To assure consideration, comments should be received by November 29, 1982.

ADDRESS: Address comments in writing to: Administrator, Health Care Financing Administration, Department of Health and Human Services, P.O. Box 17073, Baltimore, Maryland 21235

In commenting, please refer to file code BPP–233–FC.

If you prefer, you may deliver your comments to Room 309–G Hubert H. Humphrey Building, 200 Independence Ave., S.W., Washington, D.C., or to Room 132, East High Rise Building, 6325 Security Boulevard, Baltimore, Maryland 21207.

Comments received may be inspected during regular business hours at Room 309–G, of the Department's offices in the Humphrey Building, at the address mentioned above, beginning about 3 weeks after the date of publication. Arrangements to inspect these comments should be made by calling (202) 245–7890.

SUPPLEMENTARY INFORMATION:

I. Background

A. *Legislative History.* Section 223 of the Social Security Amendments of 1972 (Pub. L. 92–603; enacted October 10, 1972), amended section 1861(v)(i) of the Social Security Act (42 U.S.C. 1395x(v)(1)), to authorize the Secretary to set prospective limits on the costs that are reimbursed under Medicare. These limits (commonly called section 223 cost limits) may be applied to direct or indirect overall costs or to costs incurred for specific items or services furnished by a Medicare provider, and may be based on estimates of the costs necessary in the efficient delivery of needed health services.

Regulations implementing this authority are set forth at 42 CFR 405.460. Under this authority, we have published section 223 limits on hospital inpatient general routine per diem costs annually since 1974. The current schedule of limits on hospital inpatient general routine per diem operating costs was published on September 30, 1981 (46 FR 48010), and applies to hospitals with cost reporting periods ending after September 30, 1981.

On September 3, 1982, the President signed into law the Tax Equity and Fiscal Responsibility Act of 1982 (Pub. L. 97–248). Section 101 of this legislation added a new section 1886 of the Social Security Act, supplementing section 1861(v) of the Act by providing for "further limitations on reasonable cost and determination of payment amounts for operating costs of inpatient hospital services * * *". (Section 101(d) of Pub. L. 97–248.) These regulations implement provisions of sections 1886 (a) and (b) that are intended to restrain growth of hospital costs and to relieve the stress that increases in these costs put on the financial soundness of the Hospital Insurance Trust Fund.

B. *Statutory Provisions.* 1. *Summary.* Section 101(a) of Pub. L. 97–248 enacted a variety of provisions to contain the costs that hospitals incur in providing inpatient services. Section 1886(a) provides for expanding the existing "section 223" limits, which currently apply on a per diem basis only to the inpatient routine operating costs hospitals incur in providing routine services (primarily room, board, and routine nursing services). The expanded limits will apply on a per case basis to the operating costs of ancillary services, such as radiology and laboratory services, and the operating costs of special care, such as intensive or coronary care, as well as operating costs of routine services. Section 1886(a)(1)(B) requires these limits to be adjusted to account for differences between hospitals in the types of cases treated (case-mix).

Section 1886(b) provides for a new three-year control on hospital cost increases that is separate and different from the type of limit established under section 223. This provision requires that we establish a ceiling target level for the allowable rate of increase of hospitals' inpatient operating costs per case, and provides for both incentive payments for hospitals that keep their cost below the target, and penalties for hospitals that incur costs greater than the target.

Section 101(b) of Pub. L. 97–248 makes the new section 1886 effective for cost reporting periods beginning on or after October 1, 1982 and provides that, in order to accomplish this prompt effect of these provisions, regulations needed to implement them may be issued as final regulations without prior notice and comment. Further, section 101(b) exempts, until January 1, 1984, these necessary regulations from Office of Management and Budget (OMB) review of information collection requirements, as required under the Paperwork Reduction Act of 1980 (Pub. L. 96–511). Section 101(b)(3) enacted section 1135(c) of the Social Security Act, which also requires us to develop, by December 31, 1982, proposals for legislation that would enable the Medicare program to reimburse participating providers (such as hospitals and skilled nursing facilities), on a prospective basis. (It is clear from the Conference Committee Report that the three-year rate of increase ceiling established under section 1886(b) is expected to end earlier

if prospective reimbursement for inpatient hospital services is implemented.) (H. R. Rep. No. 97–760, 97th Cong., 2d Sess. 421 (1982).)

Section 101(c) provides for a number of amendments to various sections of Title XVIII of the Social Security Act that are necessary to conform the provisions of those sections to the new requirements established under section 1886.

2. *Section 1886(a)—Total inpatient operating cost limits.* As noted above, section 1886(a) expands the section 223 hospital cost limits, currently applied to inpatient general routine operating costs, to include total inpatient operating costs, applied on an average cost-per-case basis, and adjusted for case mix. The statute specifies that the affected operating costs of inpatient hospital services include all routine operating costs, ancillary service operating costs, and special care unit operating costs. These new case-mix adjusted limits on inpatient operating costs per case are effective for hospital cost reporting periods beginning on or after October 1, 1982. In no case would reimbursement to a hospital on a cost-per-case basis be reduced below the allowable cost-per-case for the hospital's cost reporting period immediately preceding the first cost reporting period subject to the case-mix adjusted limits.

Section 1886(a) requires that rural hospitals (that is, hospitals that are not located in a Standard Metropolitan Statistical Area (SMSA)) in operation and having less than 50 beds at the time of enactment be exempt from the case-mix limits. In addition, section 1886(a)(2) requires that the Secretary provide, as he deems appropriate, exemptions, exceptions, and adjustments to the limits established under section 1886(a)(1)(A) to take into account:

(A) the special needs of sole community hospitals, of new hospitals, of risk basis health maintenance organizations, and of hospitals which provide atypical services or essential community services, and to take into account extraordinary circumstances beyond the hospital's control, medical and paramedical education costs, significantly fluctuating population in the service area of the hospital, and unusual labor costs,

(B) the special needs of psychiatric hospitals and of public or other hospitals that serve a significantly disproportionate number of patients who have low income or are entitled to benefits under part A of this title [title XVIII of the Social Security Act], and

(C) a decrease in the inpatient hospital services that a hospital provides and that are customarily provided directly by similar hospitals which results in a significant distortion in the operating costs of inpatient hospital services.

Section 1886(a) also includes specific provisions on the methodology, for establishing case-mix adjusted limits. However, that methodology is not incorporated in these regulations. Instead, it is explained in detail in a separate notice published elsewhere in this issue of the **Federal Register**. therefore, we are not describing all those provisions here. However, one element of that methodology involves an index of increases in hospital wages and prices that is also used in calculating the rate of increase ceiling established under section 1886(b). See section IV of this preamble, below, for a discussion of that index.

3. *Section 1886(b)—Rate-of-increase ceiling.* The new three-year hospital rate of increase provision includes two elements in common with the case-mix adjusted limits—the rate of increase ceiling is applied to the same inpatient operating costs per case as are subject to the expanded section 223 cost limits, and the rate of increase is determined on the basis of the same index of increases in hospital wages and prices. However, we wish to make clear that this ceiling is separate and different from the section 223 type of limit, and applies in addition to the limits established under 1886(a). Hospitals may *not* receive reimbursement in excess of the amount determined to be allowable under section 1886(a).

Section 1886(b) provides that payment for inpatient hospital services will be determined on the basis of the relation of a hospital's costs to a ceiling determined by a target rate of increase in operating costs per case. (In accordance with the statute, payments made on this basis will be subject to the coinsurance and deductible requirements of section 1813 of the Act, but will be made without regard to the provisions of section 1814(b) which requires payment of charges when they are lower than costs.) This ceiling is expressed as a target amount based on the percentage rate of increase in the hospital wage and price index (market basket index) plus one percentage point. In the first year subject to the ceiling (that is, to cost reporting periods beginning on or after October 1, 1982), a target amount will be established for each hospital equal to the hospital's allowable operating costs per case for the immediately preceding 12-month cost reporting period, increased by the target rate percentage. After the first year, a hospital's inpatient operating cost per case target amount would be computed by increasing the previous year's target amount by the current year's target rate percentage increase.

Section 1886(b)(5) specifies that, in the case of any hospital having a cost reporting period of other than 12-months in length, the Secretary shall determine the 12-month period that will be used for purposes of setting a rate-of-increase ceiling.

A hospital that incurs allowable costs per case below its target amount will be paid its costs plus the lesser of 5 percent of the target amount or 50 percent of the difference between its actual costs and target amount. A hospital that incurs allowable cost per case above its target amount will be allowed the target amount plus 25 percent of its cost in excess of its target amount for the first two years, and none of the excess cost in the third year. In no event could payment under this provision exceed the amount payable under the cost limits established under section 1886(a).

Section 1886(b)(4) provides for exemptions from, and exceptions and adjustments to, the rate of increase ceiling. The Conference Committee specified that adjustments could have the effect of either increasing or decreasing the target payment amount. (H.R. Rep. No. 97–760. 97th Cong., 2d Sess. 420 (1982).) The principal intention in authorizing exemptions, exceptions, and adjustments is to take into account factors that would distort either a hospital's base period or rate of cost increase during the 3-year period to which the rate of increase provisions are applicable. Examples of such factors include significant changes in a hospital's case-mix in a particular year when compared to the base year, extraordinary circumstances beyond the hospital's control, and a reduction in a hospital's costs resulting from cutting back on the kinds of services directly provided to patients—for example, as the result of leasing out its clinical laboratory.

The rate of increase ceiling established by section 1886(b) would not apply to any hospital cost reporting period beginning on or after October 1, 1985. (Further, if prospective reimbursement is established for inpatient hospital services furnished during cost reporting periods beginning before that date, the rate of increase ceiling would be terminated before the full three years elapsed.)

In addition, section 1886(b)(6) provides that, in the case of hospitals that withdraw from participation in Social Security (Old Age, Survivors, Disability, and Health Insurance, or OASDHI program) after August 15, 1982, the Secretary must reduce Medicare payments to reflect cost savings the hospitals achieve through withdrawal.

In computing the reduction, savings are to be offset by expenditures a hospital incurs for substitute pension, health, and insurance benefits comparable to the foregone Social Security benefits.

C. *Purpose of These Interim Final Regulations.* These regulations implement section 1886(a) by making changes to 42 CFR 405.460 that are needed to make the exceptions available to hospitals consistent with the new case-mix adjusted cost limits published elsewhere in this issue of the **Federal Register**. The amended regulations specify that the exception to the hospital cost limits based on intensity of routine care is available only for cost reporting periods in which hospitals are subject to routine per diem cost limits. These regulations also allow a hospital to obtain an exception to the case-mix-adjusted hospital cost limits if it can show that it has taken actions that have substantially altered its mix of patients treated. These changes are effective for cost reporting periods beginning on or after October 1, 1982.

These regulations implement section 1886(b) by establishing a new section 42 CFR 405.463, entitled "Limitations on Rate of Cost Increases". These regulations specify how the statutorily prescribed target rates will be applied, and provide for appropriate exemptions, exceptions, and adjustments. These regulations are effective for cost reporting periods beginning on or after October 1, 1982, and before October 1, 1985.

II. Changes to Regulations on Limitations on Reimbursable Costs (42 CFR 405.460)

A. *Introduction.* As noted above, the current hospital cost limits, effective for cost reporting periods ending after September 30, 1981, apply only to inpatient general routine operating costs, which generally include primarily the operating costs hospitals incur to furnish room, board, and routine nursing services. These limits do not apply to the cost of ancilliary services (for example, radiology or laboratory services), and cost of special care units, such as intensive or coronary care units. The limits also exclude capital-related costs (that is, costs classified in the depreciation accounts on a hospital's Medicare cost report), malpractice insurance costs, and costs a hospital allocates to the interns and residents (in approved programs) or nursing school cost centers on its Medicare cost report. The current limits, like those in previous cost limit schedules, are applied on a per diem basis and do not include an explicit adjustment for differences in inpatient routine care costs that result from variations in the type and mix of cases treated by various hospitals (that is, case mix differences).

However, in accordance with the new section 1886(a) of the Social Security Act, we are now implementing a new system of limits on hospital inpatient operating costs for cost reporting periods beginning on or after October 1, 1982, which are applied on a per discharge rather than per diem basis, and are explicitly adjusted to reflect the case mix of each hospital. These limits are described in detail in a separate document published elsewhere in this issue of the **Federal Register**.

To make our regulations at 42 CFR 405.460 consistent with section 1886(a) of the Social Security Act, and with the methodology and scope of the new hospital cost limits, it is necessary to make certain changes in those regulations. However, we wish to note that most provisions of those regulations are not inconsistent with the new cost limits established under section 1886(a), and will continue to remain in effect under section 1886(a). Thus, provisions at 42 CFR 405.460(e) for exempting sole community hospitals, new providers, and risk-basis health maintenance organizations from the section 223 cost limits will remain in effect. Similarly, provisions at § 405.460(f) for allowing a hospital to have its cost limit adjusted upwards on an exception basis due to allowable costs attributable to atypical services, extraordinary circumstances, fluctuating population, medical and paramedical education, and unusual labor costs will remain in effect. The provision will also remain in effect under which an exception is provided where a hospital providing essential community services would be rendered insolvent through application of the limits.

B. *Exemption for Rural Hospitals with Less than 50 Beds.* As mentioned above, the statute specifically states (section 1886(a)(3)) that these cost limits, effective for cost reporting periods beginning on or after October 1, 1982, shall not apply to any hospital that is located outside an SMSA, has less than 50 beds, and was in operation (with less than 50 beds) on September 3, 1982. (The official SMSA designations are maintained and published periodically by the Executive Office of Management and Budget.) Therefore, we are adding this group of hospitals to those exempted from the cost limits under the regulations at § 405.460(e). A hospital that may meet the criteria for this exemption may request such exemption under the rules at § 405.460(c) by filing a request with its Medicare fiscal intermediary no later than 180 days following the date on the intermediary's notice of program reimbursement. For purposes of this exemption, the definition of "bed" shall be the same as that currently used under the routine hospital cost limits (See § 2510.5, HCFA Pub. 15–1, Provider Reimbursement Manual).

C. *Exception for More Intensive Routine Care.* We have previously restricted hospital cost limits to inpatient general routine operating costs because the types of general routine services furnished by hospitals are comparatively uniform. The general routine cost limits, therefore, have been applied only to the cost of services that are not likely to vary widely, in either scope or intensity, because of factors unrelated to efficiency, such as variations in case mix.

Although inpatient general routine care services are relatively uniform among hospitals generally, we have recognized that some hospitals may provide more intensive routine services than others and that the hospitals may have shorter-than-average lengths of stay with higher per diem costs. The Medicare regulations at 42 CFR 405.460(f)(5) provide an exception to the limits for hospitals that can demonstrate that their excess per diem costs result from the provision of more intensive routine care, and result in shorter average lengths of stay, than other hospitals that have a reasonably similar mix of patients. We believe that under the system of per diem limits on routine costs (in conjunction with a days-of-care adjustment included in the routine cost limits methodology) the greater intensity of care exception has been adequate to account for cost differences in the intensity of routine services.

Since the new limits on total inpatient operating costs will be applied on a per discharge basis and will be directly adjusted to reflect individual hospital differences in case-mix, we do not believe the exception for hospitals with higher per diem costs resulting from more intensive routine care should be available to hospitals covered by those limits. We believe this exception will not be needed by hospitals subject to the new limits because a cost per discharge system of limits will reflect differences in intensity of care. A hospital will not be disadvantaged under the new limits if it produces equivalent services over a shorter average length of stay. Therefore, we are amending the regulations at 42 CFR 405.460(f)(5) to state explicitly that the exception provided by that section is available only for hospital cost reporting

periods that are subject to the routine per diem limits. Since the new limits will be effective for cost reporting periods beginning on or after October 1, 1982, the exception will be available to hospitals only for cost reporting periods that begin before that date (that is, cost reporting periods for which the current limits are effective).

D. *Exception for Changes in Case-Mix Due to Changes in Services.* As explained in the notice setting forth the new cost limits, under the new system each hospital's limit will be adjusted by a case-mix index that is specific to the hospital. This index is derived in part from data contained in bills the hospital submits to its Medicare intermediary. In general, we expect that there will be a time lag between the most recent year for which complete billing data are available, and the year in which a case-mix index based on the data are used to calculate a hospital's limit.

We do not believe this time lag will have a measurable effect on the overall accuracy of the new limits, since the type and mix of patients treated by most hospitals should remain relatively stable from year to year. That is, hospitals as a group tend to repeat the same pattern of case complexity in successive periods. However, some hospitals may experience significant and abrupt changes in their case mix because they have added or discontinued services. For example, if a community hospital were to open a special new facility such as a regional burn center, the added services offered in this unit could radically change the hospital's type and mix of patients. Under these circumstances, the lag in receipt and processing of the data described above could result in inaccuracy in the hospital's case-mix index, and in its limit.

To deal with this problem, we are adding a new exception for hospitals that incur costs that exceed the new limits due to significant and abrupt changes in case mix that result from the addition or discontinuation of services. A hospital that wishes to obtain an exception to the limits on this basis is required to submit to HCFA, in a specified format, a record of all Medicare discharges for the cost reporting period to which the limits are applied. To permit processing of these records, they must be submitted on magnetic tape according to specifications and using ICD–9–CM coding. To have its exception request considered, a provider will have to submit the request and the discharge records needed to evaluate the request within the time limit for exception requests now specified in 42 CFR 405.460(c), i.e., within 180 days of the date on the intermediary's notice of program reimbursement.

Based on these records, HCFA will then recompute the hospital's case-mix index. HCFA will use the recomputed case-mix index, rather than the index published in the schedule of limits then in effect, to calculate the hospital's limit for the subject cost reporting period. Because the recomputed index will be more current than the index in the published schedule, and will be based on data from 100 percent of the hospital's Medicare discharges, rather than from a sample of discharges, we will apply the new index in calculating the hospital's limit, regardless of whether it results in a limit for the particular hospital that is higher or lower than the limit based on the published index.

Since the new exception is available only to hospitals covered by the new limits, we are making this exception effective only for cost reporting periods beginning on or after October 1, 1982.

E. Other exemptions, exceptions, and adjustments. Section 1886(a)(2) directs the establishment of exemptions, exceptions, and adjustments to the limits as deemed necessary. In addition to the items covered above, section 1886(a)(2)(B) mentions the special needs of psychiatric hospitals and of public or other hospitals that serve a disproportionate number of patients who have low income or are entitled to benefits under Medicare.

We have not included specific provisions for those exemptions or exceptions in these regulations. In the case of psychiatric hospitals, we believe that the exclusion of long-term-care hospitals from the system of case-mix adjusted cost limits will cover most psychiatric hospitals. We believe the exception for atypical services contained in current regulations will allow us to appropriately recognize special needs of short-term psychiatric hospitals which participate in Medicare.

We have not now made any special provision for public hospitals or other hospitals that treat a disproportionate number of low income or Medicare patients, because we do not now have data that enable us to determine the extent to which special consideration is warranted, or the type of provision that may be appropriate. We have not, for example, been able to identify generally higher Medicare inpatient operating costs in thee hospitals as a group. A report reviewing the section 223 routine cost limits prepared for HCFA by Applied Management Sciences found that Medicare patients apparently utilize relatively fewer routine care resources per day than do non-Medicare patients. Further, the study found that hospitals with high rates of Medicare utilization tend to have lower routine per diem costs, but a somewhat faster rate of increase in those costs.

We have also made some preliminary analysis of Medicare inpatient operating costs per case adjusted for case mix and have not found a significant association between higher Medicare cost per case and either public ownership or the proportion of low income patients after considering other factors (e.g. area wages) already recognized in the cost limits methodology. For example, including government ownership in a regression analysis along with other variables now present in the cost limits methodology indicated a small negative relationship. We did not consider the results conclusive. Using a ratio of Medicaid utilization as an indicator of low-income patients showed no significant influence on cost per case.

The conference agreement follows the Senate amendment on this provision. The Report of the Senate Committee on Finance (S. Rept. No. 97–494) directed the Secretary to determine the extent to which the limits for public hospitals and other institutions should be adjusted to take into account the extra costs that they necessarily incur in treating low income patients. Since it is unclear at this point what, if any, cost effects occur as a result of public ownership or what changes may be appropriate, we have not included a special provision for public hospitals.

Although we are not now including any specific provision for these hospitals, we do expect to examine this issue further to determine what action would be appropriate with respect to public hospitals or other hospitals that serve a disproportionate number of low income or Medicare patients. To the extent that we find that either some adjustment for these hospitals as a class, or an exception for individual hospitals, is warranted, we will issue a revision to the regulations or notices as appropriate. We wish to invite specific comment, from hospitals, hospital associations, and others knowledgeable on this issue, on differences in the cost of services to Medicare beneficiaries in these hospitals, and on potential methods for recognizing their effects.

As noted above, section 1886(a)(2)(C) provides for an additional adjustment to take into account a decrease in the inpatient services that a hospital provides, which are customarily provided directly by similar hospitals,

and that results in a significant distortion in operating costs. This provision reflects congressional concern that a hospital could create an appearance of reduced costs and compromise the limits by cutting back on services that would otherwise have been provided directly. Such actions may include, but are not limited to, closing a special care unit or changing the arrangements under which such services may be furnished such as by leasing out a department. These changes would result in costs lower than those that would have otherwise been incurred for purposes of comparison to the limit. Our regulations provide that in these cases, an adjustment to the operating costs may be made as necessary to take these factors into account.

F. *Prospective Application of Limits.* We are amending 42 CFR 405.460(a) by adding a paragraph setting forth the scope and authority of these regulations, and by adding a sentence to the section setting forth the general principle of the limits to state that the limits established under section 1861(v) of the Act will be applied on a prospective basis. When we revised the regulations at 42 CFR 405.460 on June 1, 1979 (see 44 FR 31804), reference to the prospectivity of the limits was inadvertently omitted. We are now inserting language in the regulation to make it clear that the limits are to be applied prospectively. These changes are purely technical, and have no effect on the way we develop or apply the limits.

III. Regulations Establishing Rate of Cost Increase Ceilings

A. *Introduction.* Section 1886(b) of the Social Security Act (enacted on September 3, 1982, by section 101(a) of Pub. L. 97-248) authorizes, for a three-year period only, a limitation on allowable rates of increase for hospital inpatient operating costs. This section provides incentives for hospitals to keep increases in their inpatient operating costs per case below an annual ceiling expressed as a target amount. A hospital that keeps its costs per case below its target amount per case may be paid an amount in addition to its allowable cost per case equal to 50 percent of the difference between its actual cost per case and its target amount, up to 5 percent of the target amount. However, a hospital that has actual costs per case that exceed its target amount will be paid its target amount plus 25 percent of its costs above its target amount during the first two cost reporting years under this provision, and will be paid none of those costs in excess of the target amount in the third cost reporting period under this provision.

The rate of increase ceiling is distinct and separate from the section 223 cost limits established under sections 1861(v) and 1886(a) of the Act. Those limits are based on group means and are applied directly to the inpatient operating costs per case that a hospital incurs during a particular cost reporting period. The rate of increase ceiling, on the other hand, limits the amount by which a hospital's inpatient operating costs may increase from one cost reporting period to the next. A hospital's costs will be subject to both types of limitation. For example, a hospital may have a small increase in inpatient operating costs from one cost reporting period to the next and be eligible for an additional payment under section 1886(b). However, the total reimbursement due the hospital, both for inpatient operating costs and the incentive payment, will still be screened against the 223 limits, and the cost limit will determine the maximum reimbursement. Similarly, a hospital with low operating costs per case could have actual operating costs below the 223 limits, but, if its costs exceed the applicable target amount, the excess costs would be disallowed to the extent prescribed by the ceiling.

B. *Cost Reporting Periods Subject to the Ceiling.* 1. *Periods of other than 12 months in length.* The methods in the law are uniformly described in terms of 12-month cost reporting periods for both the base year on which the initial ceiling would be computed and for the three years intended to be subject to the ceiling. Section 1886(b)(5) makes the only statutory reference to cost-reporting periods of other lengths, stating that, when a hospital does have such a reporting period, the Secretary will determine the 12-month period to be used for the ceiling.

There are two points at which the cost reporting period enters the determination of the ceiling. One cost reporting period is used as a base period for establishing the target amount for the first cost reporting period subject to the ceiling. Then, the target amount must be applied in determining the amount payable to a hospital for a particular cost reporting period. In both instances, it is important for both the accuracy and the equity of the ceiling that there be reasonable comparability between two cost reporting periods.

Cost reporting periods of other than 12 months result frequently from hospital mergers or changes of ownership. Usually such periods are shorter than 12 months in length. Very often two such periods happen in sequence, as one period is ended early (or late) due to sale or merger, and the next period is of whatever length is necessary to reconcile subsequent periods with the customary fiscal year of the owning entity. Short cost reporting periods also occur when a hospital enters or leaves the Medicare program.

These changes may result in cost reporting periods that are not comparable. For one thing, utilization, occupancy, case mix, and other factors such as services offered, and arrangements with suppliers, may be altered when hospitals are sold or merged. These changes may cause significant variation between cost reporting periods in measures such as average cost per case. For these reasons, we will not apply the rate of increase ceiling to cost-reporting periods of less than 12-months that occur along with a change in the operations of a hospital resulting from events such as merger, consolidation, or change of ownership. It is important to note that the determination as to whether the ceiling is applicable will be based on the effects that a transaction has on services a hospital furnishes, not on the type of transaction.

Where a reporting period of other than 12 months occurs along with a change in the operations of the hospital, and these events result in cost reporting periods in which services and costs are not comparable, the rate of increase ceiling would not apply. For example, Hospital A and Hospital B merge to form Hospital C. Hospital C offers a different range of services and services a different patient population than either Hospital A or Hospital B. In this case, the rate of increase ceiling would not apply.

However, sometimes hospitals elect, with intermediary approval, to make changes in their accounting cycles that are not related to a change in operations that would affect their inpatient operating costs per case. When a hospital does this, we will adjust the target percentage rate to reflect fewer months in the case of a short reporting period, using a monthly factor corresponding to the annual percentage rate and apply the ceiling. (We will also use such a monthly factor to make adjustments for cost reporting periods longer than 12 months.)

2. *The cost reporting period to be used as a base period.* The ceilings established under section 1886(b) must be initially set for each hospital on the basis of the allowable operating costs per case that a hospital incurs in its 12-month cost reporting period immediately preceding the first cost reporting period

subject to the ceiling. For hospitals that have consecutive 12-month periods, the base period is the 12-month cost reporting period beginning on or after October 1, 1981 (that is, the cost reporting period ending immediately prior to the first period subject to the ceiling).

C. *Procedures for Establishing the Target Amount to be Used as a Ceiling.* 1. *General procedure.* As noted above, the costs subject to the rate of increase ceiling are the same costs that are subject to the new limits on hospital inpatient operating costs per case established under section 1886(a). The target amount may be computed on a per discharge or per admission basis, as determined by HCFA. We will initially determine these costs on a per discharge basis in accordance with the methodology used to establish the new cost limits. (For purposes of applying the new case-mix adjusted limits and the rate of increase ceiling, intermediaries will use the definition of "discharge" is § 304.4 of the Provider Reimbursement Manual, HCFA Pub. 15–II–C.) (Under this definition, the transfer of a patient from one inpatient area to another does not constitute a discharge.)

In accordance with the statute, the operating costs included are:

- Routine operating costs, such as room, board, and routine nursing services;
- Ancillary service operating costs, such as the operating costs of radiology and laboratory department; and
- Special care unit operating costs.

Operating costs are defined in the notice establishing inpatient operating cost limits under section 1886(a) published elsewhere in this issue of the **Federal Register.** These costs exclude capital-related costs, malpractice insurance costs, and costs of approved medical and nursing education programs that are allocated to the intern and resident (in approved programs) and nursing school cost centers in the Medicare cost report. To establish the first year's ceiling, we will determine the allowable inpatient operating cost per case for a hospital's base period. This cost per case will be increased by a target rate percentage (equal to the market basket index, discussed below, plus one percentage point) to yield the hospital's target amount expressed in terms of cost per case. In subsequent years, the hospital's target amount will be determined by increasing the previous year's target amount by the target rate percentage for the applicable cost reporting period.

2. *The market basket index and target rate percentage.* Section 1886(b)(3)(B) requires that, in determining the rate of increase ceiling, the applicable percentage increase for any 12-month cost reporting period shall be equal to 1 percentage point plus the percentage, estimated by the Secretary, by which

> the cost of the mix of goods and services (including personnel costs but excluding non-operating costs) comprising routine, ancillary, and special care unit inpatient hospital services, based on an index of appropriately weighted indicators of changes in wages and prices which are representative of the mix of goods and services included in such inpatient hospital services, for such cost reporting period exceeds the cost of such mix of goods and services for the preceding 12-month cost reporting period.

As noted above, the case-mix adjusted limits established under 1886(a) must also use such an increase percentage. We will use the same data, methodology, and adjustment factors for both purposes.

We will base these wage and price adjustments on the market basket index of hospital wages and prices that we are using for the new hospital case-mix adjusted limits. Since July 1, 1979 the hospital cost limit schedules have incorporated such a market basket index to reflect changes in the prices of goods and services hospitals use in producing general inpatient routine services.

Under the rate-of-increase ceiling and the new case mix adjusted limits, we will use a market basket index to project rates of increase in total inpatient operating costs, rather than only inpatient routine operating costs. We have appropriately revised the market basket categories, and the weights assigned to each category, to reflect this change in the affected costs.

The revised market basket reflects two changes from the inpatient routine cost market basket that was included in the hospital cost limits notice published on September 30, 1981. The notice on the case-mix adjusted limits published elsewhere in this issue of the **Federal Register** gives a detailed discussion of the changes in and the technical background of the market basket index.

The categories of expenses we used to develop the revised market basket are based primarily on those used by the American Hospital Association (AHA) in its analysis of costs, and by the U.S. Department of Commerce in publishing price indexes by industry. The weights are based primarily on surveys by the AHA, and on the Department of Commerce's input-output studies.

Each notice setting forth a schedule of total inpatient operating cost limits will include a table of the rates of increase in the market basket, plus one percentage point, for each calendar year. That is, if the market basket increase for a particular calendar year is 8 percent, the percentage rate of increase for a cost reporting period corresponding to that calendar year would be 9 percent. For purposes of illustrating the determination of an initial rate-of-increase ceiling, let us assume that this 12-month period is the 12-month period immediately following the 12-month base period for a given hospital. We would determine the rate-of-increase ceiling target amount for the hospital by multiplying the inpatient operating cost per case for the base period by 1.09 (one plus the rate of increase).

Since the annual percentage rates will be published in the hospital cost limit notices for cost reporting periods beginning on or after October 1, 1982, we will use those notices instead of making a separate publication. Note that, since the cost limits are set prospectively, the table will include projected market basket indexes for future cost reporting periods. Rate-of-increase ceiling determinations will be made at the time of settlement on the basis of the most recently published market basket percentages.

D. Application of Target Rate Amounts in Determining Reimbursement. 1. *General procedure.* Congress incorporated an incentive feature in the rate-of-increase ceiling by establishing incentive payments as well as penalties, depending on whether a hospital's cost per case for cost reporting periods subject to the ceiling is less than or greater than the applicable target amount per case. Payments made under the rate of increase ceiling will take into account beneficiaries' deductible and coinsurance obligations under section 1813 of the Act, but, as specified in 1886(b)(1), will be determined without regard to section 1814(b) which requires payment to be made on the basis of charges when they are lower than reasonable costs.

After each affected cost reporting period, the Medicare intermediary will compare a hospital's actual allowable inpatient operating cost per case to its target amount. If the target amount is greater than actual cost, we will give the hospital an incentive payment with the hospital's total reimbursement, subject to the case-mix limits. If the target amount is less than actual cost, the hospital will be reimbursed for costs in excess of the target only to the extent allowed by the statute.

2. *Inpatient operating costs are not in excess of the target amount.* Section 1886(b)(1)(A) authorizes us to pay a hospital more than its otherwise allowable cost per case if it succeeds in

keeping its inpatient operating cost per case below the target amount. We will determine this on the basis of a comparison of incurred costs to a target amount derived as described above. If the hospital's actual cost is lower than its target amount, its reimbursement for inpatient operating costs will be whichever of the following is *least:*

- The inpatient operating cost per case plus 50 percent of the difference between that amount and the applicable target amount;
- The inpatient operating cost per case plus 5 percent of the target amount; or
- The hospital's allowable cost per case under the case-mix adjusted limits.

Example I

Hospital A has allowable inpatient operating costs per discharge as follows:

Cost Reporting Period and Cost Per Discharge

10/1/81–9/30/82—$1800
10/1/82–9/30/83—$1953

For the cost reporting period beginning 10/1/82 the applicable total inpatient operating cost (case-mix) limit is $1,975 per discharge, the market basket rate of increase is 8.5 percent, and the target rate of increase is 9.5 percent. (The target rate adjustment factor is therefore 1.095.)

Hospital A's target amount for the cost reporting period beginning 10/1/82 is $1971 ($1800×1.095).

The Medicare reimbursement per discharge for Hospital A would be the lowest of the following three amounts:

1. Actual cost plus 50 percent of the difference between actual and target cost per discharge.

$1971−$1953=$18.
$1953+(0.50×$18)=$1962.00.

2. Actual cost plus 5 percent of the target amount.

$1953+(0.05×$1971)=$2051.55.

3. Total inpatient operating cost (case-mix) limit=$1975.00.

Hospital A's Medicare reimbursement per discharge for the cost reporting period beginning 10/1/82 is $1,962.

Note.—Hospital A's target amount for the period beginning 10/1/83 will be $1971 increased by the target rate percentage for that period.

3. Inpatient operating costs are greater than the target amount. Section 1886(b)(1)(B) specifies that during the first two 12-month cost reporting periods subject to the rate of increase ceiling, a hospital may be paid the target amount plus 25 percent of allowable operating costs per case incurred in excess of its target rate amount per case (subject to the case-mix limits), and that, in the third cost reporting period subject to the ceiling, a hospital may not receive Medicare payment for any costs incurred in excess of its target amount.

For cost reporting periods beginning on or after October 1, 1982 and before October 1, 1984, we will determine reimbursement for a hospital that has actual costs in excess of its target amount on the basis of the lower of:

- The hospital's target amount plus 25 percent of the allowable inpatient operating costs per case in excess of that amount;
- The hospital's allowable cost per case under the case-mix adjusted limits.

For cost reporting periods beginning on or after October 1, 1984 and before October 1, 1985, reimbursement for a hospital that has actual cost in excess of the target amounts will be based on the lower of:

- The hospital's target amount per case; or
- The hospital's allowable cost per case under the case-mix adjusted limits.

Example II

Hospital B has allowable inpatient operating costs per discharge as follows:

Cost Reporting Period and Cost Per Discharge

10/1/81–9/30/82—$1800
10/1/82–9/30/83—$2000

For the cost reporting period beginning 10/1/82 the applicable total inpatient operating cost (case-mix) limit is $1,975 per discharge, the market basket rate of increase is 8.5 percent, and the target rate of increase is 9.5 percent. (The target rate adjustment factor is therefore 1.095.)

Hospital B's target amount for the cost reporting period beginning 10/1/82 is $1971 ($1800×1.095).

The Medicare reimbursement per discharge for Hospital B would be the lower of the following:

1. The target amount plus 25 percent of the excess actual costs.

$1971+0.25 ($2000−$1971)=$1978.25.

2. Total inpatient operating cost (case-mix) limit=$1975.00.

Hospital B's Medicare reimbursement per discharge for the cost reporting period beginning 10/1/82 is $1,975.

Example III

Hospital C has allowable inpatient operating costs per discharge of $2,000 for the cost reporting period beginning 1/1/85.

For this cost reporting period, the applicable total cost limit is $2100 per discharge, the market basket rate of increase is 8.7 percent, and the target rate of increase is 9.7 percent. (The target rate adjustment factor is therefore 1.097.) The applicable target amount per discharge for the previous cost reporting period is $1,732.

Hospital C's target amount for the cost reporting period beginning 1/1/85 is $1,900 ($1732×1.097).

The Medicare reimbursement per discharge for Hospital C would be the lower of the following:

1. The target amount of $1900.
2. The case-mix limit of $2100.

Hospital C's Medicare reimbursement per discharge for the cost reporting period beginning 1/1/85 is $1,900.

E. Exemptions, Exceptions, and Adjustment. 1. General process. As noted above, section 1886(b)(4) provides for exemptions from, or exceptions and adjustments to, the rate of increase ceiling in situations in which there is a distortion in a hospital's operating costs in either its base period or a cost reporting period subject to the ceiling. Such situations include:

- Extraordinary circumstances or events beyond the hospital's control;
- Changes in case-mix; or
- A decrease in inpatient hospital services that a hospital provides and that are customarily provided directly by similar hospitals.

A hospital may request an exemption from or exception to the rate of increase ceiling in a manner similar to that used in regard to hospital cost limits established under section 405.460. An exemption excludes a hospital completely from application of the ceiling for a specified cost reporting period. An exception allows a hospital to have its ceiling adjusted to take costs into account that would otherwise be disallowed by application of the ceiling.

The hospital must make the request for an exemption or exception to its fiscal intermediary no later than 180 days from the date on the intermediary's notice of program reimbursement. The intermediary will review the request and forward it to HCFA with a recommendation as to appropriate action. HCFA will review the request and the intermediary's recommendation and respond to the intermediary within 180 days from the date the package is received by HCFA. The intermediary will notify the hospital of HCFA's decision.

HCFA's decision on a request for an exemption or exception may be appealed by the hospital to the Provider Reimbursement Review Board (PRRB) under the regulations at 42 CFR Part 405, Subpart R. The time limit for applying for PRRB review may be extended in consideration of the time taken by HCFA reviewing and responding to the hospital's request.

2. *Exemptions.* We are only allowing two classes of hospitals to be exempted from the rate-of-increase ceiling—new hospitals and risk-basis health maintenance organizations (HMOs).

New hospitals. We are allowing new hospitals to be exempted from this ceiling because they commonly have unusually high operating costs per case in the first year of operation. This results from a combination of effects,

especially low utilization rates and start-up costs. Therefore, a base period reflecting such distorted per case costs would not provide a good basis for applying the ceiling. Such hospitals' costs per case typically would be expected to decline steadily during the initial phase of operation.

For purposes of this exemption, we will consider a hospital new if it has operated as the type of provider for which it is certified for Medicare participation for less than three full years. We would not use a cost reporting period for a base period unless it began at least two years after the hospital accepted its first patient. This exemption would expire at the end of the first such acceptable base period.

Risk-basis HMOs. We are allowing risk-basis HMOs to be exempted from this ceiling because their established reimbursement method includes incentives and limitations that are incompatible with this system. (See 42 CFR 405.2049 through 405.2054 for regulations governing reimbursement to risk-basis HMOs.)

3. *Exceptions,* We are establishing two types of exceptions under which a hospital may request to have its operating costs per discharge adjusted for purposes of applying the rate-of-increase ceiling. We will make an appropriate adjustment, either upward or downward, to a hospital's inpatient operating costs in the base period or subject period to the extent that those costs are reasonable, attributable to the circumstances specified, separately identified by the hospital, and verified by the intermediary.

Extraordinary circumstances. This criterion covers situations in which a hospital incurs unusual costs per case in a particular cost reporting period due to extraordinary circumstances beyond its control. Such circumstances may include strikes, fires, earthquakes, floods, or other unusual occurrences with substantial cost effects.

Change in case mix. This criterion covers situations in which either addition or discontinuation of services furnished by a hospital results in significant change in costs per case. In requesting an adjustment under this criterion, a hospital is required to submit data on both the nature of the case mix change and the resulting effect on costs.

4. Adjustment. We expect that it may be necessary to make an adjustment to inpatient operating costs in either the base period or a period that is subject to the rate of increase ceiling to take into account factors such as a decrease in inpatient hospital services that would distort the comparison of costs per case between cost reporting periods. A decrease in hospital services, such as closing a special care unit, or changing the arrangements under which a particular service is furnished, such as leasing a department, are examples of situations with such effects. In these and other cases, we will adjust the amount of inpatient operating costs considered in establishing cost per discharge in order to maintain the comparability of cost between periods.

increased hospital admissions. The Conference Committee anticipated that the Secretary "will give consideration to making an adjustment where a hospital manipulates admissions or discharges in order to maximize reimbursement."

To protect against the possibility of abuse, the regulations allow HCFA to adjust the amount of operating costs considered in establishing cost per case to offset any unwarranted increase in or other manipulation of discharges undertaken by hospitals for the purpose of increasing reimbursement.

HCFA currently maintains records of beneficiary admissions and discharges and will use that data base to develop screens by which hospital admission practices will be monitored. If the incentives created by the regulation appear to have contributed to an industrywide increase in admission rate above that included in current projections, HCFA will consider revision of the formula used to establish per admission targets to eliminate this incentive consistent with Congressional intent.

Because the Medicare inpatient routine nursing salary cost differential does not apply in the cost reporting periods that will be subject to rate of increase ceilings, we must adjust base period costs to remove the effect of this differential. The new regulations set forth below specify that we will make this adjustment.

We are not yet making adjustments of payments to hospitals that withdraw from Social Security, as required by section 1886(b)(6). There are several technical difficulties in determining the most appropriate and effective means of making such adjustments. When we have resolved these issues, we will publish an appropriate notice in the **Federal Register** describing the basis on which these adjustments will be made.

IV. Impact Analysis

A. *Executive Order 12291.* Section 1(b) of Executive Order 12291 states that a major rule is one that will:

(1) Have an annual effect on the economy of $100 million or more;

(2) Result in a major increase in costs or prices for consumers, individual industries, or government agencies, or geographic regions; or

(3) Have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

We estimate that as a result of implementation of these new case-mix adjusted hospital cost limits (described in a separate document published

We will also make adjustments where appropriate based on increases in Medicare admissions. Under the reimbursement system established by Pub. L. 97–248, a hospital may have an incentive to increase its number of Medicare patients. For example, a hospital that has costs less than the target amount will receive an increased payment per discharge above its actual costs. We are concerned that some hospitals may promote the increased admission of Medicare patients to take advantage of this aspect of the reimbursement system. Such action would be contrary to the intent of the legislation, which was to reward efficient operation, not to stimulate

elsewhere in this issue of the **Federal Register**) and the rate of increase ceiling implemented by this final rule, net savings over projected expenditures for inpatient hospital services under the current routine cost limits will increase by $480 million in FY 1983, with a three-year savings of more than $5 billion, as follows:

SAVINGS OVER CURRENT ROUTINE COST LIMITS [1]

[In millions]

Fiscal year	Case-mix adjusted limits	Rate of increase ceiling	Combined savings
1983	$75	$405	480
1984	405	1,065	1,470
1985	1,030	2,030	3,060
Total	1,510	3,510	5,020

[1] We estimate that the current routine cost limits would result in savings of $333 million for fiscal year 1983, $376 million for fiscal year 1984, and $426 million for fiscal year 1985.

Although the new rate of increase ceiling will have an annual effect on the economy of $100 million or more, we have determined this impact will be caused by section 101 of Pub. L. 97–248, which requires imposition of the ceiling, rather than by this rule, which merely implements the statutory provisions. We have made this determination because the major features of the rate of increase ceiling are specified in the statute, and we do not have administrative discretion to develop alternatives to them. While the statute does allow the

Secretary administrative discretion with respect to certain features of the ceiling provisions, these discretionary features will not have an impact of $100 million or more, or meet the other threshold criteria of the Order. Therefore, a regulatory impact analysis is not required. (See the cost limit notice published elsewhere in this issue of the **Federal Register** for a discussion of the effects of the new case-mix adjusted cost limits.) However, the preamble to this rule describes the expected impact of the rule and ways to mitigate unnecessary cost, and constitutes a regulatory impact analysis.

B. *Regulatory Flexibility Act.* The Secretary certifies under 5 U.S.C. 605(b), enacted by the Regulatory Flexibility Act (Pub. L. 96–354), that this final rule will not, in itself, result in a significant impact on a substantial number of small entities.

Hospitals of less than 100 beds and all non-profit hospitals, regardless of size, are considered small entities for purposes of the Regulatory Flexibility Act. Although rural hospitals of less than 50 beds are exempted by law from the case-mix limits on total inpatient operating costs, they are not exempt from the rate-of-increase ceiling. Both the cost limits and the ceiling will clearly limit the revenues of a large number of small entities. Overall the $2 billion fiscal year 1985 impact is only about 1 percent of total hospital revenues. The impact on individual hospitals will vary. However, any adverse consequences of this impact can be avoided through the cost containment efforts we expect hospitals will make. Accordingly, we do not believe that a substantial number will actually experience a significant impact. In any event, any such impact will be the result of the statutory provisions (section 101(a) of Pub. L. 97–248), and not of the regulations that implement these provisions. Therefore, a regulatory flexibility analysis is not required.

Although a regulatory flexibility analysis is not required, we are aware that some hospitals may be concerned about the impact of these regulations. For the benefit of these hospitals, and to forestall any unnecessary concern regarding the effect of the regulations, the preamble presents an analysis which, taken as a whole, constitutes a regulatory flexibility analysis.

C. *Paperwork Reduction Act.* Information collection requirements imposed by regulations are normally subject to OMB review under section 3504(h) of Title 44, United States Code, as enacted by Pub. L. 96–511, the Paperwork Reduction Act of 1980. However, section 101(b)(2)(A) of Pub. L. 97–248 specifically states that the information collection requirements imposed by these regulations which implement section 101(a) of Pub. L. 97–248, are not subject to that review until January 1, 1984.

V. Waiver of Proposed Rulemaking and 30-Day Delay in Effective Date

Section 101 of Pub. L. 97–248 has an effective date of October 1, 1982. To have implementing regulations in place as close as possible to the effective date specified in the statute, we must publish these regulations in final form promptly. The Congress itself took note of this in section 101(b)(2)(A) by instructing the Secretary to issue final regulations, whether on an interim or other basis, by the effective date of the law. In our view, the statutory language is sufficiently clear to support implementation of these regulations on October 1, 1982.

We are providing an opportunity for public comment. We will consider comments submitted within 60 days of the publication of these regulations and make any regulatory amendments that are necessary. In view of this, and in consideration of the extent that Federal spending will be reduced by timely implementation of section 101, we believe that the delay necessary to publish proposed rulemaking would be contrary to the public interest.

For these reasons, we find good cause to waive proposed rulemaking procedures, and to issue these regulations in final form. For the same reasons, we find good cause to waive the usual 30-day delay in effective date, and to make these regulations effective for hospital cost reporting periods beginning on or after October 1, 1982.

VI. Other Required Information

A. *Public Comments.* Because of the large numbr of comments we receive, we cannot acknowledge or respond to them individually. However, we will consider any comments on this notice/rule that are received by the date specified in the "DATES" section. If as a result of public comments we conclude that changes in these interim final regulations are needed, we will include these changes in the final regulations described in item B below.

B. *Publication of final regulations.* Section 101(b)(1) of Pub. L. 97–248 specifically requires the Secretary of HHS to first issue such final regulations (whether on an interim or other basis) before October 1, 1982, as may be needed to implement sections 1886(a) and (b) of the Social Security Act on a timely basis. This legislation further requires that if these regulations are promulgated on an interim final basis, the Secretary shall provide an opportunity for public comment and appropriate revision of the regulations, so that they are not on an interim basis later than March 31, 1983.

To comply with these requirements, we are publishing this rule on an interim final basis. As required by the law, we will consider all public comments we receive on the rule, determine whether changes in these interim regulations are needed, and publish final regulations implementing sections 1886(a) and (b) by March 31, 1983.

C. List of Subjects in 42 CFR Part 405

Administrative practice and procedure, Certification of compliance, Clinics, Contracts (Agreements), End-stage renal disease (ESRD), Health care, Health facilities, Health maintenance organizations (HMO), Health professions, Health suppliers, Home health agencies, Hospitals, Inpatients, Kidney diseases, Laboratories, Medicare, Nursing homes, Onsite surveys, Outpatient providers, Reporting requirements, Rural areas, X-rays.

42 CFR Chapter IV is amended as set forth below:

PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

42 CFR Part 405 is amended as set forth below:

1. The table of contents for Part 405 is amended by revising the title of Subpart D, adding a new § 405.463 under Subpart D to read as follows:

* * * * *

Subpart D—Principles of Reimbursement for Providers, Outpatient Dialysis, and Services by Hospital-Based Physicians

* * * * *

Sec.

405.463 Ceiling on rate of hospital cost increases.

* * * * *

2. The authority citation for Subpart D is revised to read as follows:

Authority.—Secs. 1102, 1614(b), 1833(a), 1861(v), 1871, 1881, and 1886 of the Social Security Act; 42 U.S.C. 1302, 1395f, 1395l, 1395x(v), 1395hh, 1395rr, and 1395ww.

3. Section 405.460 is amended by revising paragraphs (a), (b), (e), the uncoded introductory material of paragraph (f), and paragraph (f)(5), and by adding new paragraphs (f)(9) and (h), to read as follows:

§ 405.460 Limitations on reimbursable costs.

(a) *Introduction.* (1) *Scope.* This

section implements section 1861(v)(1)(A) of the Social Security Act, by setting forth the general rules under which HCFA may establish limits on provider costs recognized as reasonable in determining Medicare program payments, and sections 1861(v)(7)(B) and 1886(a) of the Social Security Act, by setting forth the general rules under which HCFA may establish limits on the operating costs of inpatient hospital services that are recognized as reasonable in determining Medicare program payments. This section also sets forth rules governing exemptions, exceptions, and adjustments to limits established under this section that HCFA may make as appropriate in consideration of special needs or situations of particular providers.

(2) *General principle.* Reimbursable provider costs may not exceed the costs estimated by HCFA to be necessary for the efficient delivery of needed health services. HCFA may establish estimated cost limits for direct or indirect overall costs or for costs of specific items or services or groups of items or services. These limits will be imposed prospectively and may be calculated on a per admission, per discharge, per diem, per visit, or other basis.

(b) *Procedure for establishing limits.* (1) In establishing limits under this section, HCFA may classify providers by type of provider (e.g., hospitals, skilled nursing facilities, and home health agencies) and by any other factors HCFA finds appropriate and practical, including:

(i) Type of services furnished;

(ii) Geographical area where services are furnished, allowing for grouping of noncontiguous areas having similar demographic and economic characteristics;

(iii) Size of institution;

(iv) Nature and mix of services furnished; or

(v) Type and mix of patients treated.

(2) Estimates of the costs necessary for efficient delivery of health services may be based on cost reports or other data providing indicators of current costs. Current and past period data will be adjusted to arrive at estimated costs for the prospective periods to which limits are being applied.

(3) Prior to the beginning of a cost period to which revised limits will be applied, HCFA will publish a notice in the **Federal Register**, establishing cost limits and explaining the basis on which they were calculated.

* * * * *

(e) *Exemptions.* Exemptions to the limits imposed under this section may be granted in the following circumstances:

(1) *Sole community hospital.* The hospital, by reason of factors such as isolated location or absence of other hospitals is the sole source of such care reasonably available to beneficiaries.

(2) *New provider.* The provider of inpatient services has operated as the type of provider (or the equivalent) for which it is certified for Medicare, under present and previous ownership, for less than 3 full years. An exemption granted under this paragraph expires at the end of the provider's first cost reporting period beginning at least 2 years after the provider accepts its first patient.

(3) *Risk-basis HMO.* The items or services are furnished to beneficiaries enrolled in an HMO by a provider that is either owned or operated by a risk-basis HMO or related to a risk-basis HMO by common ownership or control (see § 405.2050(c)).

(4) *Rural hospital with less than 50 beds.* The hospital:

(i) Was in operation with less than 50 beds as of September 3, 1982;

(ii) Has less than 50 beds throughout the applicable cost reporting period; and

(iii) Is outside the boundaries of all Standard Metropolitan Statistical Areas as designated by the Executive Office of Management and Budget.

(f) *Exceptions.* Limits established under this section may be adjusted upward for a provider under the circumstances specified in paragraphs (f) (1) through (8) of this section, and may be adjusted upward or downward under the circumstances specified in paragraph (f)(9) of this section. An adjustment will be made only to the extent the costs are reasonable, attributable to the circumstances specified, separately identified by the provider, and verified by the intermediary.

* * * * *

(5) *More intensive routine care for cost reporting periods beginning before October 1, 1982.* The hospital:

(i) Is subject to per diem limits on inpatient general routine operating cost issued under paragraph (b)(3) of this section;

(ii) Furnishes a greater intensity of inpatient general routine care than other hospitals having a reasonably similar mix of patients; and

(iii) Shows that the more intensive care results in a shorter average length of stay and higher per unit costs than in comparable hospitals;

* * * * *

(9) *Changes in case mix.* The hospital:

(i) Is subject to limits issued under paragraph (b)(3) of this section that are calculated by use of a case mix index;

(ii) Has added or discontinued services in a year after the year represented in the discharge data used to establish the limits described in paragraph (f)(9)(i) of this section;

(iii) Has experienced a significant and abrupt change in case mix as a result of the addition or deletion of services; and

(iv) Submits discharge data, in the format required by HCFA, for Medicare discharges in the cost reporting period for which the exception is requested.

* * * * *

(h) *Adjustments.* HCFA may adjust the amount of a hospital's inpatient operating costs to take into account factors which could result in a significant distortion in the operating costs of inpatient hospital services. Such factors could include a decrease in the inpatient services that a hospital provides that are customarily provided directly by similar hospitals, or the manipulation of discharges to increase reimbursement. A decrease in inpatient services could result from changes that include, but are not limited to, such actions as closing a special care unit or changing the arrangements under which such services may be furnished, such as leasing a department.

4. A new § 405.463 is added to read as follows:

§ 405.463 Ceiling on rate of hospital cost increases.

(a) *Introduction.* (1) *Scope.* This section implements section 1886(b) of the Social Security Act, establishing a ceiling on the rate of increase of operating costs per case for inpatient hospital services that will be recognized as reasonable for purposes of determining Medicare reimbursement. This ceiling on allowable rate of cost increases applies to hospital cost reporting periods beginning on or after October 1, 1982 and before October 1, 1985, and is applied in addition to the limitations on reasonable cost established under § 405.460. This section also sets forth rules governing exemptions from, and exceptions and adjustments to the ceiling.

(2) *Applicability.* This section is not applicable to hospitals reimbursed in accordance with section 1814(b)(3) of the Act, or under State reimbursement control systems that have been approved under section 1886(c) of the Act.

(3) *General principles.* (i) The intermediary will determine a target amount of inpatient operating cost per case for any 12-month cost reporting period subject to this provision, based on a rate of cost increase for hospital

inpatient operating costs per case equal to the market basket percentage rate of increase for that period plus one percentage point.

(ii) HCFA will recognize a hospital's operating costs of furnishing inpatient hospital services as reasonable under this paragraph, subject to the cost limits established under §405.460, based on the comparison of the hospital's actual cost per case to the ceiling determined by the hospital's target amount.

(b) *Cost-reporting periods subject to the rate of increase ceiling.* (1) *Base period.* Each hospital's initial ceiling will be based on allowable inpatient operating costs per case incurred in the 12-month cost reporting period immediately preceding the first cost reporting period subject to ceilings established under this section, except that, when the immediately preceding cost reporting period is a short reporting period (fewer than 12 months) the first 12-month period ending after October 1, 1982 will be the base period.

(2) *Periods subject to the ceiling.* Ceilings established under this section will be applied to all full 12-month cost reporting periods that:

(i) Immediately follow either a base period as described in paragraph (b)(1) of this section, or another 12-month cost reporting period subject to the ceiling; and

(ii) Begin on or after October 1, 1982 and before October 1, 1985.

(3) *Periods other than 12 months.* Ceilings established under this section will not apply to cost reporting periods of fewer than 12 months that occur along with a change in operations of the facility as a result of changes in ownership, merger, or consolidation. However, ceilings will apply to cost reporting periods of fewer than 12 months which result solely from the approval of a hospital's request for a change in accounting cycle. In the case of such periods, the applicable percentage rate of increase will be adjusted downward by a monthly factor corresponding to the annual percentage rate to reflect fewer months. Ceilings established under this section will apply to cost reporting periods of greater than 12 months with the percentage rate of increase adjusted upward by a monthly factor corresponding to the annual percentage rate to reflect the additional months.

(c) *Procedure for establishing the ceiling (target amount).* (1) *Costs subject to the ceiling.* The cost per case ceiling established under this section applies to operating costs incurred by a hospital in furnishing inpatient hospital services. These operating costs *include* operating costs of routine services (as described in § 405.158(c)), ancillary service operating costs, and special care unit operating costs. These operating costs *exclude* the costs of malpractice insurance, capital-related costs, and costs a hospital allocates to approved medical education programs (nursing school or approved intern and resident programs) on its Medicare cost report.

(2) *Costs determined on a per case basis.* Costs subject to the ceiling as described in paragraph (c)(1) of this section will be determined on a per admission or per discharge basis as determined by HCFA for the purpose of the notice of cost limits established under § 405.460.

(3) *Target rate percentage.* The target rate percentage will be based on a hospital wage and price index (market basket index) that incorporates appropriately weighted indicators of changes in wages and prices that are representative of the mix of goods and services included in the most common categories of inpatient hospital operating costs subject to the ceiling as described in paragraph (c)(1) of this section. The target rate percentage for a particular 12-month cost reporting period will be identical to the rate of cost increase (market basket plus one percentage point) which is used in determining cost limits under § 405.460 and is contained in notices of hospital cost limits published under § 405.460(b)(3).

(4) *Target amount (ceiling).* The intermediary will establish for each hospital a ceiling on the reimbursable costs per case of that hospital. The ceiling for each 12-month cost reporting period will be set at a target amount determined as follows:

(i) For the first 12-month cost reporting period to which this ceiling applies, the target amount will equal the hospital's allowable operating costs per case for the hospital's base period increased by the target rate percentage for the subject period.

(ii) For subsequent 12-month cost reporting periods, the target amount will equal the hospital's target amount for the previous 12-month cost reporting period increased by the target rate percentage for the subject cost reporting period.

(5) *Notification of applicable target rate percentages.* For purposes of determining the ceiling on allowable rate of cost increases under this section, the intermediary will use the annual percentage increase for appropriate calendar years as published in final notices establishing schedules of hospital cost limits under § 405.460. When a cost reporting period spans portions of two calendar years, the intermediary will prorate the applicable percentages accordingly.

(d) *Application of target amounts in determining reimbursement.* (1) *General process.* At the end of each 12-month cost reporting period subject to this section, the hospital's intermediary will compare a hospital's allowable cost per case with that hospital's target amount for that period. If the hospital's actual allowable costs do not exceed the target amount, reimbursement will be determined (without regard to the lower of cost or charges provisions of § 405.455, but subject to other limitations on reimbursable cost established under § 405.460) under paragraph (d)(2) of this section. If the hospital's actual costs exceed the target amount, reimbursement will be determined (subject to other limitations on reimbursable cost established under 405.460) under paragraph (d)(3) of this section.

(2) *Inpatient operating costs are less than or equal to the target amount.* If a hospital's allowable inpatient operating costs per case do not exceed the hospital's target amount for the applicable cost reporting period, reimbursement to the hospital will be determined on the basis of the lowest of:

(i) The inpatient operating costs per case plus 50 percent of the difference between the inpatient operating cost per case and the target amount;

(ii) The inpatient operating costs per case plus 5 percent of the target amount; or

(iii) The hospital's allowable inpatient operating cost per case under applicable limits established under § 405.460.

(3) *Inpatient operating costs are greater than the target amount.* If a hospital's allowable inpatient operating costs per case exceed the hospital's target amount for the applicable cost reporting period, reimbursement to the hospital will be determined as follows:

(i) For cost reporting periods beginning on or after October 1, 1982 and before October 1, 1984, reimbursement will be based on the lower of:

(A) The hospital's target amount plus 25 percent of the allowable operating costs per case in excess of the target amount; or

(B) The hospital's allowable cost per case under applicable limits established under § 405.460.

(ii) For cost reporting periods beginning on or after October 1, 1984 and before October 1, 1985 reimbursement will be based on the lower of:

(A) The target amount per case; or

(B) The hospital's allowable cost per

case under applicable limits established under § 405.460.

(e) *Hospital requests regarding applicability of the rate of increase ceiling.* A hospital may request an exemption from or exception to the rate of cost increase ceiling imposed under this section. The hospital's request must be made to its fiscal intermediary no later than 180 days from the date on the intermediary's notice of program reimbursement. The intermediary will make a recommendation on the hospital's request to HCFA, which will make the decision. HCFA will respond to the exception request within 180 days from the date HCFA receives the request from the intermediary. The intermediary will notify the hospital of HCFA's decision. The time required for HCFA to review the exception request is considered good cause for the granting of an extension of the time limit to apply for review by the Provider Reimbursement Review Board, as specified in § 405.1841(b). HCFA's decision is subject to review under Subpart R of this part.

(f) *Exemptions.* (1) *New hospitals.* HCFA will exempt new hospitals from the rate of increase ceiling imposed under this section. For purposes of this section, a new hospital is a provider of inpatient hospital services that has operated as the type of provider for which it is certified for Medicare participation, under present and previous ownership, for less than 3 full years. This exemption expires at the end of the first cost reporting period beginning at least 2 years after the hospital accepts its first patient, or the first cost reporting period beginning on or after October 1, 1985, whichever comes first.

(2) *Risk-basis health maintenance organization (HMO).* The items or services are furnished to beneficiaries enrolled in an HMO by a hospital that is either owned or operated by a risk-basis HMO or related to a risk-basis HMO by common ownership or control (see § 405.2050(c)).

(g) *Exceptions.* (1) *General procedure.* HCFA may adjust a hospital's operating costs (as described in paragraph (b)(1) of this section) upward or downward, as appropriate, under circumstances as specified in paragraphs (g) (2) and (3) of this section. HCFA will make an adjustment only to the extent that the hospital's operating costs are reasonable, attributable to the circumstances specified, separately identified by the hospital, and verified by the intermediary.

(2) *Extraordinary circumstances.* The hospital can show that it incurred unusual costs (in either a cost reporting period subject to the ceiling or the hospital's base period) due to extraordinary circumstances beyond its control. These circumstances include, but are not limited to, strikes, fire, earthquakes, floods, or similar unusual occurrences with substantial cost effects.

(3) *Change in case mix.* The hospital:

(i) Has added or discontinued services in a year after its base period described in paragraph (b)(1) of this section;

(ii) Has experienced a change in case mix as a result of the addition or discontinuation of services that results in a distortion in the rate of cost increase; and

(iii) Submits data summarizing the case-mix changes and the resulting changes in costs.

(h) *Adjustments.* (1) *Comparability of cost reporting periods.* HCFA may adjust the amount of the operating costs considered in establishing cost per case for one or more cost reporting period(s), including both periods subject to the ceiling and the hospital's base period, to take into account factors which could result in a significent distortion in the operating costs of inpatient hospital services. Such factors could include a decrease in the inpatient hospital services that a hospital provides, that are customarily provided directly by similar hospitals, or the manipulation of discharges to increase reimbursement. A decrease in the inpatient hospital services provided could result from changes that include, but are not limited to, closing a special care unit or changing the arrangements under which such services may be furnished, such as leasing a department.

(2) *Nursing differential.* Because the Medicare inpatient routine nursing salary cost differential (see § 405.430) does not apply in the cost reporting periods subject to ceilings established under this section, HCFA will adjust base period costs to remove the effect of this differential.

(Catalog of Federal Domestic Assistance Program No. 13.773, Medicare-Hospital Insurance)

Part V

Department of Health and Human Services

Health Care Financing Administration

Medicare Program; Schedule of Limits on Hospital Inpatient Operating Costs for Cost Reporting Periods Beginning on or After October 1, 1982

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Care Financing Administration

Medicare Program; Schedule of Limits on Hospital Inpatient Operating Costs for Cost Reporting Periods Beginning on or After October 1, 1982

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Interim final notice with comment period.

SUMMARY: This notice sets forth a schedule of limits on the hospital inpatient operating costs that may be reimbursed under Medicare for cost reporting periods beginning on or after October 1, 1982. These limits are needed to implement changes in the Medicare law that were made by section 101(a) of Pub. L. 97–248, the Tax Equity and Fiscal Responsibility Act of 1982. The new limits differ from the current per diem limits on inpatient general routine operating costs in several major respects. First, they are not restricted to costs of inpatient general routine care, but cover total inpatient operating costs, including the costs of general routine service, special care, and ancillary services. The new limits will be applied on a cost per discharge rather than cost per diem basis. Finally, they are adjusted to reflect differences in the mix of Medicare cases treated by each hospital. The limits are similar to the current limits in that they do not apply to outpatient service cost, capital-related costs, malpractice insurance costs, or costs a hospital allocates to the interns and residents (in approved programs) or nursing school cost centers on its Medicare cost report. They also do not apply to children's hospitals, long-term care hospitals, or rural hospitals with fewer than 50 beds. The notice explains our methodology for deriving and applying the new limits.

DATES: Effective date: October 1, 1982. Although we are publishing this notice in final form, comments may be submitted as described below.

Comment date: To assure consideration, comments should be received by November 29, 1982.

ADDRESSES: Address comments in writing to: Administrator, Health Care Financing Administration, Department of Health and Human Services, P.O. Box 17013, Baltimore, Maryland 21235.

Please refer to File Code BPP–196–FN.

If you prefer, you may deliver your comments to: Room 309–G, Hubert H. Humphrey Building, 200 Independence Avenue, S.W., Washington, D.C.; or to Room 132, East High Rise Building, 6325 Security Boulevard, Baltimore, Maryland 21207.

Comments will be available for public inspection, beginning approximately 3 weeks after publication, in Room 309–G of the Department's offices at 200 Independence Avenue, S.W., Washington, D.C. 20201 on Monday through Friday of each week from 8:30 a.m. to 5:00 p.m. (202–245–7890).

FOR FURTHER INFORMATION, CONTACT: Marilyn Koch, (301) 594–9235.

SUPPLEMENTARY INFORMATION:

I. Background

A. General Information Relating to Provider Cost Limits

Section 223 of the Social Security Amendments of 1972 (Pub. L. 92–603, enacted October 10, 1972) amended section 1861(v)(1) of the Social Security Act (42 U.S.C. 1395x(v)(1)) to authorize the Secretary to set prospective limits on the costs that are reimbursed under Medicare. These limits (commonly called section 223 limits) may be applied to direct or indirect overall costs or to costs incurred for specific items or services furnished by a Medicare provider, and may be based on estimates of the cost necessary in the efficient delivery of needed health services.

Regulations implementing this authority are set forth at 42 CFR 405.460. Under this authority, we have published limits on hospital inpatient general routine per diem costs annually since 1974.

The current schedule of limits on hospital inpatient general routine operating costs was published in the **Federal Register** on September 30, 1981 (46 FR 48010), and applies to cost reporting periods ending after Septembere 30, 1981. The schedule excludes capital-related costs, medical and nursing education costs, and malpractice insurance expenses. It incorporates a "market basket" index to project increases in the prices of goods and services hospitals use in furnishing routine care, an adjustment for cost variations due to area differences in hospital wage levels, and an adjustment to recognize individual hospital differences in costs due to approved teaching activity. The current schedule also includes a formula that permits an increase in the limits for hospitals in States with below average Medicare utilization that may result from the provision of a greater intensity of routine care.

The schedule of limits set forth in this notice reflects major changes from the methodology used for the current limits. Several of these changes are needed to implement specific new provisions that were added to the Medicare law by section 101 of Pub. L. 97–248, the Tax Equity and Fiscal Responsibility Act of 1982. These changes in methodology are described in detail in section II of this preamble. Other features of these limits are similar to those of prior cost limit schedules. These features are also explained in section II.

B. Recent Legislation

1. *Summary.* On September 3, 1982, the President signed into law Pub. L. 97–248, the Tax Equity and Fiscal Responsibility Act of 1982. Section 101 of that legislation added section 1886 to the Social Security Act. This new section includes a number of provisions that restrict the level of Medicare payment for costs of inpatient hospital services. Section 1886(a) provides for the extension of the section 223 hospital cost limits, which currently apply only to inpatient general routine operating costs, to the operating costs of inpatient hospital services. (These operating costs are defined in the statute as all routine operating costs, ancillary service operating costs, and special care unit operating costs with respect to inpatient hospital services.) Section 1886(a) specifies that the costs to which the expanded limits apply are to be determined on a per discharge or per admission basis, and requires that the limit for each hospital be set based on the mix of types of Medicare cases treated by the hospital. In addition, section 1886(a) specifies the level at which the new limits are to be set for particular cost reporting periods.

Section 1886(b) provides for a new three-year limitation on payment for hospital costs that is separate from the type of limit currently established under section 223. This provision requires that we establish a ceiling level for the allowable rate of increase of hospitals' inpatient operating costs per case, and provides for incentive payments to hospitals that keep their cost below a target amount, as well as penalties for hospitals that incur costs greater than the target amount. Section 1886(c) provides that the Secretary may authorize payment to hospitals under State hospital cost control systems (instead of Medicare reimbursement rules, including limitations in reimbursement under sections 1886(a) and (b) that meet certain criteria.

Section 101(b) of Pub. L. 97–248 makes the new section 1886 effective for cost reporting periods beginning on or after October 1, 1982 and provides that, in order to accomplish the effect of these provisions promptly, regulations needed

to implement them may be issued as final regulations without prior notice and comment. Further, section 101(b) exempts, until January 1, 1984, these necessary regulations from the Office of Management and Budget (OMB) review of information collection requirements that would otherwise be required under the Paperwork Reduction Act of 1980 (Pub. L. 96-511). Section 101(b) also requires us to develop, by December 31, 1982, proposals for legislation that would enable the Medicare program to reimburse participating providers (such as hospitals and skilled nursing facilities), on a prospective basis. (It is clear from the Conference Committee Report that the three-year rate of increase ceiling established under section 1886(b) is expected to end earlier if prospective reimbursement for inpatient hospital services is implemented.) (H.R. Rep. No. 97-760, 97th Cong., 2d Sess. 421 (1982).)

Section 101(c) provides for a number of amendments to various sections of Title XVIII of the Social Security Act that are necessary to conform the provisions of those sections to the new requirements established under section 1886.

2. *Section 1886(a) limits.* As noted above, section 1886(a) requires that the current section 223 hospital cost limits be expanded to cover total operating costs of inpatient hospital services, that they be applied on an average cost per discharge or per admission basis, and that they be adjusted for Medicare case mix. The statute specifies that the operating costs that are subject to the new limits must include all routine operating costs, ancillary service operating costs, and special care unit operating costs. These new cost limits are effective for hospital cost reporting periods beginning on or after October 1, 1982.

Under the current section 223 inpatient routine limits, hospitals are classified by bed size and geographic location, and the limits are set based on a percentage (currently 108 percent) of the mean labor-related and non-labor costs of each classification group. The new legislation requires that the level of the new limits for each group be set as follows:

- At 120 percent of the meafn for cost reporting periods beginning on or after October 1, 1982 and before October 1, 1983;
- At 115 percent of the mean for cost reporting periods beginning on or after October 1, 1983 and before October 1, 1984; and
- At 110 percent of the mean for cost reporting periods beginning on or after October 1, 1984.

To prevent hospitals from being disadvantaged under this new system, the statute requires that a hospital's limitation on reimbursement for allowable operating costs of inpatient services be no lower than the hospital's reimbursement for allowable operating costs of inpatient services for the last cost reporting period prior to the first cost reporting period for which these cost limits are applicable. In accordance with the Conference Committee Report on Pub. L. 97-248, this provision will be implemented by comparing each hospital's cost-per-case limit established for the hospital's first cost reporting period under the new system to the allowable cost-per-case reimbursement in the previous cost reporting period. (See H.R. Rep. No. 97-760, 97th Cong., 2d Sess. 420 (1982).)

The Conference Committee Report also discussed (on page 419) the necessity to use data that are not current in establishing the limits, and provided guidance on the adjustments to be made to the data so they can be used for current cost reporting years. The committee stated its expectation that actual industry average cost increase information will be used to update the data through the cost reporting period preceding each cost reporting period to which the limits apply and that, to account for projected increases during the year subject to limits, the data will be adjusted by the hospital wage and price index (market basket) plus one percentage point.

The statute requires the Secretary to provide for exemptions, exceptions, and adjustments to the limits for certain categories of hospitals, as the Secretary deems appropriate, including psychiatric hospitals and public hospitals or other hospitals incurring additional costs because the facility serves a disproportionate number of patients who have low incomes or are Medicare beneficiaries under Part A. In addition, the special needs of sole community hospitals, new hospitals, risk-basis health maintenance organizations, and hospitals providing atypical services and essential community services, as well as extraordinary circumstances beyond the hospital's control, medical and paramedical education costs, significantly fluctuating population in a hospital's service area, and unusual labor costs are to be accounted for, as deemed appropriate by the Secretary. Rural hospitals with less than 50 beds which were in operation with less than 50 beds on September 3, 1982 are specifically exempted from the limits by the statute.

As noted above, the new legislation authorizes the Secretary to make special provisions for hospitals that serve a disproportionate number of patients who have low incomes, or are Medicare beneficiaries under Part A. For the reasons specified in the preamble to the final rule amending 42 CFR 405.460 (this rule is published elsewhere in this issue of the **Federal Register**) we have not yet developed any provisions of this type. However, we note that other exceptions for which these hospitals may qualify are provided by 42 CFR 405.460.

C. Implementation of Legislation

As explained earlier, the general rules governing section 223 cost limits are set forth in our regulations at 42 CFR 405.460. These regulations explain the procedure we follow in developing section 223 limits, and describe the exceptions and exemptions to the limits that are available to providers. The regulations do not, however, contain specific information on the cost limit schedules applicable for particular cost reporting periods. Since the cost limit schedules must be revised periodically to reflect more recent data or to permit refinements to the methodology for developing limits, we have adopted the practice of publishing cost limit schedules, and the methodology used to develop those schedules, in **Federal Register** notices. These cost limit schedules are generally published at least annually.

We plan to continue to follow this practice in issuing the hospital cost limit schedules required by section 1886(a). Thus, the initial schedule of limits on operating costs of inpatient hospital services is set forth in this notice. However, the changes in the Medicare law that were made by section 101 of Pub. L. 97-248 also require changes in our regulations. The revised regulations needed to implement the provisions of section 1886(a) that deal with exceptions and exemptions to the new limits, as well as new regulations needed to implement the rate-of-increase provisions of section 1886(b), are published as a separate document elsewhere in this issue of the **Federal Register**.

II. Major Features of New Limits

The schedule of limits effective for cost reporting periods beginning on or after October 1, 1982 will provide for the following:

A. Limits on Hospital Inpatient Operating Costs

Although section 1861(v)(1) of the Social Security Act authorizes limits on overall incurred costs or on the costs of specific items or services, we have

applied all previous hospital cost limit schedules only to costs for inpatient general routine services which include primarily room, board, and routine nursing services. These costs exclude cost of ancillary services (e.g. radiology or laboratory services) and costs of special care units such as intensive or coronary care.

Section 1886(a) of the Social Security Act provides for the establishment of limits on the amount of hospital inpatient operating costs per case that may be recognized as reasonable for Medicare reimbursement. Therefore, the new schedule applies to total hospital inpatient operating costs, including inpatient general routine operating costs, operating costs of special care units, and inpatient ancillary service operating costs. Like the current schedule, the new limits do not cover outpatient service costs, capital-related costs (i.e. depreciation, rent, interest and other costs normally classified in the depreciation accounts on a hospital's Medicare cost report), malpractice insurance costs, or costs a hospital allocates to the interns and residents (in approved programs) or nursing school cost centers on its Medicare cost report.

B. Application of Limits on Cost Per Dicharge Basis

Section 1886(a) of the Social Security Act requires that the limits on hospital inpatient operating costs be applied, at the Secretary's discretion, on either a cost per admission or per discharge basis. This provision of the statute requires a significant change in our methodology, since all previous hospital cost limit schedules, including the schedule of limits now in effect, have been applied on a per diem basis. (That is, each hospital's limit represents the maximum amount Medicare will pay for each day of inpatient general routine care the hospital furnishes a Medicare patient.) We have applied our limits on this basis because cost per diem is widely accepted by hospitals and payers (including the Medicare and Medicaid programs) as a valid and relatively uniform measurement of inpatient general routine cost.

Unlike the limits now in effect, the new limits will be applied on a per discharge, rather than per diem, basis. This means that each hospital will be paid no more than a specified amount per Medicare patient stay, and that the limit on the amount of payment to the hospital will be set without regard to the actual number of days of care each patient received or the per diem cost the hospital incurred to furnish this care. Under this system of limits the intermediary will use a hospital's number of Medicare discharges to determine the number of Medicare patient stays the hospital had during each cost reporting period. (For purposes of applying these limits, intermediaries will use the definition of "discharge" in § 304.4 of HCFA Pub. 15–II–C, the Provider Reimbursement Manual. Under this definition, the transfer of a patient from one inpatient area of the hospital to another does not constitute a discharge.) The intermediary will multiply each hospital's per discharge limit by the number of Medicare discharges, and compare the resulting amount with the total inpatient operating cost the hospital incurred to treat Medicare patients. The intermediary will then use the lesser of the two amounts as the basis for determining reimbursement to the hospital. The hospital's reimbursement also will be subject to the rate of increase ceiling required by section 1886(b) and implemented under new regulations described elsewhere in this issue of the **Federal Register**. However, reimbursement to the hospital under the rate of increase ceiling provisions will not be allowed to exceed the amount of reimbursement due under the hospital's inpatient operating cost limit.

C. Elimination of Adjustment for Covered Days of Care

In the past, commenters have objected to the application of routine cost limits on a per diem basis because such limits do not recognize differences in the intensity of routine services. Specifically, many hospitals have stated that they have relatively high per diem costs because they provide more intensive routine services than other hospitals to which they are compared. These hospitals also argue that their high per diem costs often are offset by their shorter-than-average lengths of stay, which result in a lower cost per case when compared to other hospitals with lower per diem costs but longer-than-average lengths of stay.

In response to these comments we have included, in the schedules of limits effective since July 1, 1979, an adjustment (the "covered days of care" adjustment) that automatically increases the per diem limits for hospitals in States with below average Medicare utilization per 1000 HI enrollees. This adjustment is designed to compensate for costs that may result from more intensive routine services. In addition, the Medicare regulations at 42 CFR 405.460(f)(5) provide an exception to the limits for hospitals that can demonstrate that their excess per diem costs are attributable to the provision of more intensive routine care resulting in a shorter average length of stay and higher per unit costs when compared to other hospitals that have a reasonably similar mix of patients. We believe that under the current system of per diem limits, the automatic utilization adjustment and the greater intensity of care exception are adequate to account for cost differences resulting from differences in service intensity.

As explained in sections II. A and II. B above, the new limits cover hospital inpatient operating costs and will apply on a per discharge basis. These limits will permit per diem differences in service intensity in both routine and ancillary services, and any resulting efficiencies in terms of lower cost per stay, to be directly represented in each hospital's reimbursement. Therefore, we believe the current "covered days of care adjustment" is not needed under the new limits, and we have not used that adjustment in developing these limits.

We do not believe the current exception to the limits for hospitals with high per diem costs resulting from more intensive routine care should continue to be available to hospitals covered by the new limits. Therefore, in a final rule published elsewhere in this issue of the **Federal Register**, we are amending 42 CFR 405.460(f)(5) to state explicity that the exception provided by that section is available only for periods during which hospitals are subject to the routine per diem limits. When the current routine limits are fully phased out (i.e., for hospital cost reporting periods beginning on or after October 1, 1983), the exception will no longer be available.

D. Use of a Hospital Specific Case-Mix Index (see Appendix II) to Reflect Differences in Hospital Inpatient Operating Costs Attributable to Institutional Differences in Medicare Patient Mix

Section 1886(a) requires the Secretary to establish case mix indexes for all short-term hospitals, and to set limits for each hospital based on the general mix of types of medical cases with respect to which the hospital provides services covered under Medicare. This means we must recognize hospital specific differences in Medicare case mix in establishing the limits on inpatient operating costs.

This adjustment is needed to implement the statutory requirement, and to recognize that hospital costs for treating particular cases can vary widely depending on the nature of the patient's illness or injury, the age of the patient, whether medical or surgical

treatment is indicated, and many other factors that are beyond a hospital's control and unrelated to the efficiency of its operations. Some hospitals will incur higher costs per discharge than others because they treat a higher proportion of more complex and costly cases. Because these variations in the types of cases treated (i.e., case mix) can result in cost differences that do not reflect differences in operating efficiency, Congress recognized that these limits must include an explicit adjustment for case mix. Under our system, this adjustment would be accomplished by means of a Medicare case-mix index. Section III contains further detail on the development and application of the case-mix index.

E. Application of the Limits to All Hospitals Except Rural Hospitals With Less Than 50 Beds, Children's Hospitals and Long-Term Care Hospitals

(1) *Rural hospitals with less than 50 beds.* The limits authorized under Pub. L. 97–248 specifically exempt less than 50 bed rural hospitals that were in operation and had less than 50 beds before September 3, 1982.

For the purpose of this exemption only, rural hospitals are those facilities that are located outside the boundaries of a Standard Metropolitan Statistical Area (SMSA) as that term is defined by the Office of Management and Budget (OMB), Executive Office of the President. In addition, the definition of "bed" shall be the same as that currently used under the routine hospital cost limits (see section 2510.5, HCFA Pub. 15–1 (Provider Reimbursement Manual)).

In a final rule published elsewhere in this issue of the **Federal Register**, we have added this category of exemption to those already provided at 42 CFR 405.460(e).

(2) *Children's hospitals.* As explained in greater detail in section III below, a key feature of our methodology for developing the limits is the Medicare case-mix index. The case-mix index is used to adjust for differences in hospital costs that result from differences in the type and mix of cases treated by various hospitals. It is a hospital-specific adjustment, unique to each facility, that is derived in part from abstracts of Medicare patient records (i.e., "cases") maintained in HCFA.

To calculate case-mix indexes with a sufficient degree of statistical reliability, a minimum number of cases is required from each hospital. However, children's hospitals as a class (i.e., those hospitals organized and operated for the treatment of patients, the majority of whom are under age 18) generally do not treat a sufficient number of Medicare patients in each cost reporting period to supply the information we need to calculate reliable case-mix indexes.

If the number of Medicare cases treated by a hospital were our only criterion for determining whether to apply the new limits to a hospital, we would be able to apply those limits to certain children's hospitals for some cost reporting periods but not for others. If the limits were applied in this way, however, these hospitals would not know from year to year whether they would be subject to the limits. We believe this uncertainty would be inconsistent with the purpose of prospective limits. Therefore, we are excluding children's hospitals from the new limits. (These hospitals, however, would continue to be subject to the routine cost limits for as long as those limits remain in effect. When the routine limits are fully phased out, no Medicare cost limits, other than the rate of increase ceiling under § 405.463, will apply to children's hospitals.)

We wish to note that the exclusion from the new limits only applies to entire facilities that are organized and operated as children's hospitals. Children's components of a short-term general hospital are subject to the new limits on the same basis as other components of the hospital.

(3) *Long-term care hospitals.* Long-term care hospitals are hospitals organized to provide long-term treatment programs with lengths of stay generally in excess of 30 days. These hospitals are identified by a distinct "type of facility" code in the third digit of the Medicare provider number. Data from long-term care hospitals are not adequate to include them in a system of case-mix adjusted limits based primarily on records from general short-term acute care hospitals.

Under section 1886, the Secretary is required to consider the special needs of psychiatric hospitals in developing exemptions from and exceptions to the cost limits. Since most psychiatric hospitals are long-term care facilities, we believe that the exclusion of long-term care hospitals from the limits will insure that most psychiatric hospitals are not disadvantaged. For those few psychiatric hospitals that are not long-term care providers, we believe the exception provisions of 42 CFR 405.460(f) area sufficient to accommodate most circumstances that may result in a provider legitimately exceeding its cost limit.

F. A Classfication System Based on a Hospital's Bed Size, and Urban or Rural Location

As in prior cost limit schedules, we group hospitals on the basis of their bed size and urban or rural location. We use Standard Metropolitan Statistical Areas (SMSAs) and in New England, New England County Metropolitan Areas (NECMAs) to determine urban location. The SMSA and NECMA definitions we use are the most recent definitions established by the Office of Management and Budget, Executive Office of the President, including areas newly designated as SMSAs and NECMAs based on the 1980 Census of Population.

G. Use of 1980 Medicare Cost Report and Billing Data

We derived the limits from Medicare records fron three sources, as follows: (1) Medicare hospital cost reports available as of May 1, 1981, which primarily consist of cost reports for fiscal years ending in 1980; (2) billing data from a 20 percent sample of Medicare hospital bills submitted for calendar year 1980 (see discussion of the MEDPAR file in section III and (3) a quarterly tabulation of Medicare discharges covering the same periods represented in the cost report. These data were the latest available for the construction of the cost per discharge limits.

We calculated each hospital's cost per Medicare discharge (less capital, medical education, and malpractice costs) from the hospital's cost report, and from a file of Medicare hospital discharges (bills) maintained by HCFA. We projected each hospital's cost per Medicare discharge to account for inflation occurring between the cost reporting periods used to calculate the limits and April 1, 1983, the midpoint of the first cost reporting period to which the limits would apply. We also standardized each hospital's cost per discharge to adjust for variations in costs due to differences in case mix, level of teaching activity, and variation in area wage levels. A detailed explanation of the construction of the basic group limits is contained in section VII.

H. Elimination of the 5 Percent Nursing Differential

Regulations published on October 1, 1981 state that Medicare will recognize a nursing salary differential equal to 5 percent of a hospital's average per diem general routine nursing salary costs for hospital cost reporting periods ending after September 30, 1981. However,

section 103 of Pub. L. 97-248 amended section 1861(v)(1) of the Social Security Act to eliminate payment of an inpatient routine nursing salary cost differential for hospitals and skilled nursing facilities, effective for cost reporting periods ending after September 30, 1982. For those cost reporting periods beginning before October 1, 1982, the reduction in reimbursement can only be applied to the portion of the cost reporting period occurring after September 30, 1982. We are publishing revised regulations to implement this legislation in a separate **Federal Register** document.

Since the law requires that effective October 1, 1982, we no longer recognize a nursing salary cost differential, the cost per discharge limits on hospital inpatient operating costs have been calculated to reflect a zero nursing salary differential.

I. Revised Market Basket Index

Since July 1, 1979 the hospital cost limit schedules have incorporated a market basket index to reflect changes in the prices of goods and services hospitals use in producing general inpatient routine services. We developed the current market basket by identifying the most commonly used categories of hospital routine operating expenses, and weighting each category to reflect the estimated proportion of hospital routine operating expenses attributable to each category. We then obtained historical and projected rates of increase in the resource prices for each category. Based on the rate of increase and the weight for each category, we developed market basket index factors. We used these factors to project the overall rates of increase in hospital inpatient general routine operating costs between the cost reporting periods represented in the data collection (i.e., the fiscal year of each hospital's most recent cost report) and the mid-point of the first cost reporting period to which the limit, based on these data, apply.

Under the revised system of limits, we are continuing to use a market basket index to project rates of increase in hospital costs. Because the limits will apply to total inpatient operating costs rather than only inpatient routine operating costs, we have revised the market basket categories, and the weights assigned to each category, to reflect this change in the scope of the limits (see Appendix I).

The revised market basket reflects two changes from the inpatient routine cost market basket that was included in the hospital cost limits notice published on September 30, 1981. First, we have deleted malpractice insurance premiums from the categories of expenses included in the market basket. We made this change because malpractice insurance premiums, which are apportioned to Medicare on a different basis from other operating costs (see 42 CFR 405.452(b)(i)(ii)), are not included among the hospital costs subject to limitation. Secondly, we have revised the weights assigned to each expense category to reflect the estimated proportion of total inpatient operating cost, rather than inpatient routine operating cost, attributable to each category.

The categories of expenses we used to develop the revised market basket are based primarily on those used by the American Hospital Association (AHA) in its analysis of costs, and by the U.S. Department of Commerce in publishing price indexes by industry. The weights are based primarily on surveys by the AHA, and from the Department of Commerce's input-output studies. The price variables we used to predict price changes for each category of expenses are specified in Appendix I. For further background on the development of the market basket index, the reader is referred to Freeland, Anderson, and Schendler, "National Hospital Input Price Index", *Health Care Financing Review*, Summer 1979, pp. 37-61.

J. Revised Wage Index

Since July 1, 1979, the schedules of hospital cost limits have incorporated a wage index to adjust for differences in the levels of labor-related costs among the areas in which hospitals are located. The hospital wage indexes are based on wage and employment data maintained by the Bureau of Labor Statistics (BLS) of the U.S. Department of Labor. Specifically, the source file has been the ES 202 Employment, Wages, and Contributions File for hospital workers (Standard Industrial Classification code 806).

To develop the current wage index, we first calculated the national average wage for hospital workers in urban areas (Standard Metropolitan Statistical Areas (SMSAs) or New England County Metropolitan Areas (NECMAs)) and a separate national average wage for hospital workers in non-urban (i.e., non-SMSA and non-NECMA) areas. We then divided the average wage for each urban and non-urban area by the appropriate national average (urban or non-urban). This calculation yielded an index value for each urban area that reflected the average wage for that area relative to the national average of all urban areas, and an index value for each non-urban area that reflected the average wage for that area relative to the national average for all non-urban areas. We call this type of index, which relates the average wage for each individual area to separate urban or non-urban national averages, a "split" index.

Because the wage index we used to calculate the current routine limits is a split index, there are instances in which the index value for an urban area is lower than the value for an adjacent non-urban area. This apparent anomaly has caused concern and confusion among hospitals in these areas. To avoid further confusion on this point, we have, in developing the revised total cost limits, used a "combined" wage index based on 1980 BLS wage and employment records. The combined wage index relates the average area wage for urban and non-urban areas to a single national average wage for all areas. Although the change from a split to a combined wage index has no effect on either the accuracy or the dollar amount of any hospital's limit, use of a combined index will permit direct comparison of the index values for urban and rural areas, and thus make it easier for hospitals to understand how the wage indexes for their areas were computed. The following example demonstrates that the final result using a combined wage index, as compared to a split wage index, is identical.

Example

(1) *Split Wage Index* = .7059
Labor share = 1995.58
Labor deflated cost:
1995.58 ÷ .7059 = 2827.00
Mean labor deflated costs = 2127.82
Area labor share limit:
2127.82 × .7059 = $1502.00

(2) *Combined Wage Index* = .7916
Labor share = 1995.58
Labor deflated cost:
$1995.58 ÷ .7916 = 2520.94
Mean labor deflated cost =
Area labor share limit:
1897.53 × .7916 = $1502.00

The following hypothetical sample array is the source of the data used in this example. The split and combined wage indexes used in the hypothetical sample array were derived as shown below.

HYPOTHETICAL SAMPLE

Urban area	Average monthly hospital wage	Split wage index	Combined wage index
1	$900	.7059	.7916
2	1,050	.8235	.9236
3	1,125	.8824	.9894
4	1,500	1.1765	1.3193
5	1,800	1.4118	1.5831
Total	6,375		

Urban Nat'l Avg. Monthly Hospital Wage =

$$\frac{\text{Total Urban Avg. Monthly Hosp. Wage}}{\text{Number of urban areas}} = \frac{6375}{5} = \$1275.00$$

Combined National Avg. Monthly Hosp. Wage =

$$\frac{\text{Total Urban Avg. Monthly Hosp. Wages} + \text{Total Rural Avg. Monthly Hosp. Wages*}}{\text{No. urban areas} + \text{Number rural areas}} = \frac{6375 + 4990^*}{10} = \$1137.00$$

Example

(1) *Computation of Split Wage Index*
Area 1 average monthly hospital wage = $900.00
Urban Natl. Avg. monthly hosp. wage = $1275.00
Area 1 split wage index: 900.00 ÷ 1275.00 = .7059

(2) *Computation of Combined Wage Index*
Area 1 average monthly hosp. wage = $900.00
Combined national average monthly hosp. wage = $1137.00
Area 1 combined wage index: $900.00 ÷ $1137.00 = .7916

HYPOTHETICAL SAMPLE ARRAY

1	2	3		4		5	
Area	Labor share	Wage index		Labor deflated cost [1]		Area limit (Labor share) [2] [3]	
		Split	Combined	Using split wage index	Using combined wage index	Split wage index	Combined wage index
1	$1,995.58	.7059	.7916	$2,827.00	$2,520.94	$1,502.03	$1,502.08
2	2,001.36	.8235	.9235	2,430.30	2,167.14	1,752.26	1,752.37
3	1,996.25	.8824	.9894	2,264.56	2,019.86	1,877.59	1,877.42
4	2,003.41	1.1765	1.3193	1,702.96	1,518.54	2,503.38	2,503.41
5	1,998.85	1.4118	1.5831	1,414.40	1,261.35	3,004.06	3,003.98
Mean labor deflated arrayed costs =				$2,127.52	$1,897.53		

[1] Column 2 divided by corresponding value in column 3.
[2] Column 4 multiplied by appropriate value in column 3.
[3] Numbers are not identical solely due to rounding.

In developing the wage index for the limits, we have continued to use approximate, rather than actual, index values for certain areas. (We also used approximate wage index values for certain areas in developing the current limits.) These approximate values are identified in Tables III A. and III B. We have done this because BLS, which supplies the wage and employment data used to calculate the wage index, has informed us that its confidentiality requirements prohibit it from disclosing either the actual data or indexes for areas that include fewer than 3 reporting units. (A reporting unit need not be a single hospital. Reporting unit is defined by BLS as the smallest unit for which data are recorded on the employer's contribution report. For example, two facilities in the same area owned by one employer could appear as one reporting unit.)

To make it possible to calculate limits for these areas, we have asked the BLS to identify the areas having wage index values numerically closest to, but not less than, the areas for which it cannot supply actual data. In the case of each area for which actual data are unavailable, we have substituted the wage index value identified by BLS as being closest to the actual value. We believe that the use of approximate rather than actual values for these areas will not affect the accuracy of the limits significantly, and will assure that no hospital's limit is reduced because actual data for its area are not disclosable. As was done in developing the current routine limits, we have excluded data from Federal government hospitals in constructing the wage indexes. Because Federal hospitals typically use national pay scales, the amounts they pay their employees do not necessarily reflect area wage levels. Since they also do not normally participate in the Medicare program, we believe exclusion of these data is appropriate.

The latest series of wage indexes reflects two additional changes from previous schedules. Prior schedules of limits that incorporated a wage index adjustment were not applied to hospitals in Puerto Rico, due to the lack of BLS hospital wage and employment records for that area. This notice of total inpatient operating cost limits contains wage indexes for Puerto Rico, and we have extended these limits to Puerto Rican hospitals.

We have also included wage indexes in Table IIIA for those newly designated SMSAs and NECMAs that were classified as such as a result of the 1980 census. (See Appendix III for a listing of the newly designated SMSAs and NECMAs.)

K. Use of Revised Inflation Estimates to Derive the Cost Limits

Since July 1, 1979, we have constructed the published limits using provider costs that have been inflated to the midpoint of the first cost reporting period to which the particular schedule applied. The inflators used were based on historical and projected rates of increase in the hospital market basket. To account for projected inflation for cost reporting periods beginning after the earliest effective date of the cost limits schedule, we applied the forecasted inflation in the market basket to increase the otherwise applicable limit contained in the notice. With respect to the new cost per discharge limits, new section 1886(a)(1)(B) states:

> The Secretary shall set limits for a cost reporting period of a hospital (I) by updating available data for a previous period to the immediate preceding period by the estimated average rate of change of hospital costs industry-wide, and (II) by projecting for the cost reporting period by the "applicable percentage increase" (quotations added) . . .
> "Applicable percentage increase" is defined in the statute as:
> . . . 1 percentage point plus the percentage, estimated by the Secretary, by which the cost of the mix of goods and services . . . based on an index of appropriately weighted indicators of changes in wages and prices . . . representative of the mix of goods and services included in such inpatient hospital services, . . . exceeds the cost of such mix of goods and services for the preceding 12-month cost reporting period.

As in prior limitation schedules, to derive the basic group limits, each hospital's cost per Medicare discharge was inflated to the midpoint of the first cost reporting period to which the limits apply. This cost reporting period is the twelve month period beginning on October 1, 1982; its midpoint is April 1, 1983. In accordance with the statute, two different estimates of inflation were used to accomplish this adjustment. First, using estimates of the actual rate of increase in Medicare inpatient hospital costs furnished by HCFA's Office of the Actuary, we inflated the cost per discharge of each hospital in our data base to the midpoint of the cost reporting period immediately preceding that hospital's first cost reporting period subject to the new limits. From this point, we then further adjusted these actuarily inflated costs per discharge to April 1, 1983 by applying a rate of increase equal to 1 percentage point plus the estimated annual rate of inflation in

*Total Rural Average Monthly Hospital Wages are computed from average monthly hospital wages for five rural areas.

the market basket described in Appendix I.

This process was followed for each hospital in our data base in order to arrive at the mean costs which form the basis of the group limits. For providers whose cost reporting period begin after October 1, 1982, the limit published in the notice is further updated using the market basket rate plus 1 percentage point to reflect cost increases occurring after the period represented in the published limit. (See Section VII.B. for further detail on the computation of each hospital's limit.)

Example.

Hospital A, Cost reporting period ends 12/31

Cost report in data base is: Fiscal Year Ending 12/31/80

First reporting period to which limit applies is: Fiscal Year Ending 12/31/83

Hospital A's cost data from the data base is updated through 6/30/82 (midpoint of Hospital A's cost reporting period preceding the first period to which limits apply) using the average actual increase in Hospital cost. This yields average cost for hospital A during the period 1/1/82—12/31/82 recognizing the actual change in hospital inpatient expenditures. The data are further updated to 4/1/83 midpoint of the first cost reporting period to which limits apply using the market basket rate plus one percentage point, the rate of increase specified in section 1886(b)(3)(B).

This yields Hospital A's cost used in setting the mean costs on which the limits are based (costs incurred during the period ending 9/30/83). The limit applicable to Hospital A is further updated using the market basket rate plus 1 percentage point to reflect cost increases occurring after the period represented in the published limit. This yields a limit for Hospital A reflecting cost increases during the first period subject to the limit.

The annual inflation rates that we used to establish the limits are as follows:

	Estimated actual rate of increase in Medicare inpatient operating costs per discharge	Estimated market basket rate of increase plus one percentage point
1980	12.9	*12.5
1981	15.1	*12.9
1982	14.3	9.9
1983	14.0	7.9
1984	NA	8.0

*For comparison only. These rates were not used to construct the cost per discharge limits.

L. Separate Treatment of the Labor-Related and Non-Labor Cost Per Discharge Used to Derive the Limits (see Tables I and II)

M. A Cost of Living Adjustment to the Non-Labor Component of the Limits for Hospitals in Alaska, Hawaii, and Puerto Rico (see Section VII B and Table II))

N. A Revised Adjustment to the Limits for Increased Costs Due To Approved Internship and Residency Programs

The current schedule of limits on hospital inpatient general routine operatings costs permits each hospital's otherwise applicable limit to be increased by 4.7 percent for each .1 increase (above zero) in the hospital's intern-and-resident to bed ratio. We included this adjustment to account for increased routine operating costs that are generated by approved internship and residency programs, but are not allocated to the interns and residents (in approved programs) or nursing school cost centers on the hospital's Medicare cost report. Such costs might include, for exemple, increased medical records costs that result from the keeping, for teaching purposes, of more detailed medical records than would otherwise be required.

Because our analysis of the data we used to develop the new limits shows that hospital inpatient operating costs per discharge tend to increase in proportion to increases in hospital levels of teaching activity, we have adopted a similar adjustment to the new limits. Specifically, we have increased each hospital's otherwise applicable limit by 6.06 percent for each increase of .1 (above zero) in the hospital's ratio of full-time equivalent (FTE) interns and residents to beds. The increase in the percentage amount of the adjustment (from 4.7 percent to 6.06 percent) results from the fact that total inpatient operating costs, which include special care unit and inpatient ancillary costs, are more heavily influenced than routine costs by changes in the level of teaching activity. In our opinion, this adjustment accounts for the additional inpatient operating cost which a hospital incurs through its operation of an approved intern and resident program.

In previous cost limit schedules, we have required hospitals to report to their intermediaries the number of full time equivalent (FTE) interns and residents in approved programs. The intermediaries used this information to compute the education cost adjustment.

Section 1886(b)(2)(B) provides that chapter 35 of title 5, United States Code shall not apply, until January 1, 1984, to collection of information and information collection requests which the Secretary of HHS determines to be necessary to carry out the amendments made by section 1886.

The Conference Committee Report accompanying Pub. L. 97–248 indicates this provision was included because the conferees recognized that the necessity to establish regulations implementing the statute will not permit the Secretary to follow the normal approval process for forms under the Paperwork Reduction Act of 1980 (Pub. L. 96–511). Under section 1886(b)(2)(B), all revisions to the Medicare cost reporting forms needed to implement these provisions will be exempt from Pub. L. 96–511 until the end of calendar year 1983. Therefore, HCFA will continue to require hospitals that wish to obtain the education cost adjustment to report to their intermediaries the number of FTE interns and residents in approved programs.

Our current regulations, 42 CFR 405.460(f)(4), provide an exception to the limits for a provider that, when compared to other providers in its group, incurs increased costs because it operates an approved professional or paramedical education program, other than an intern and resident program of the type specified in 42 CFR 405.421 (see Provider Reimbursement Manual HCFA Pub. 15–1, Sections 404–404.3). This exception continues to be applicable to the new cost limits. In our view, this exception, properly interpreted, means that a hospital that incurs total inpatient operating costs per discharge in excess of its education-adjusted limit because it operates an approved medical education program can obtain an exception only if, after application of the education cost adjustment, the hospital's actual costs exceed its limit. For such cases, the exception cannot be greater than the amount of the difference between its actual costs and its limit.

O. Limits Set at 120 Percent of the Mean Labor-Related and Mean Non-Labor Costs of Each Hospital Classification Group (see Tables I and II)

Section 1886 of the Social Security Act specifies that the level of limits on hospital inpatient operating costs be set at 120% of the group means effective for cost reporting periods beginning on or after October 1, 1982. Effective with reporting periods beginning on or after October 1, 1983 and October 1, 1984, the levels shall be reduced to 115% and 110%, respectively.

P. A Hold Harmless Provision to Guarantee a Minimum Level of Reimbursement for Hospitals Subject to the Cost Per Discharge Limits

We believe the extension of reimbursement limits to total hospital inpatient operating costs adjusted for case mix will enhance the effectiveness of the limits in preventing payment for costs due to inefficiency. However, Congress recognized that there may be instances in which individual hospitals could have their reimbursement substantially reduced by the immediate application of the new schedule. To prevent hardship to these hospitals, Section 101(a) of Pub. L. 97–248 enacted section 1886(a)(1)(C) of the Social Security Act, which mandates a hold harmless provision for all hospitals subject to the new limits beginning with the first reporting period of application. Under the hold harmless provision, each hospital's total Medicare per discharge reimbursement for allowable inpatient operating costs (excluding costs specifically exempt from the new limits such as capital, medical education, and malpractice insurance costs), cannot be less than a guaranteed minimum level for the cost reporting periods in which the cost per discharge limits apply, regardless of all other provisions in this schedule. This guaranteed minimum level is equal to an amount no less than the provider's allowable reimbursement per discharge for inpatient operating costs (including payment for inpatient general routine operating costs, special care unit operating costs, and inpatient ancillary service costs) based on the hospital's Medicare cost report for the most recent cost reporting period immediately preceding the first period to which limits are applied (i.e., the "base period"). However, in no instance could a provider receive more than its actual allowable costs for the reporting period in which the cost per discharge limits apply. Section VII contains a further explanation on the application of the hold harmless proviaion.

III. The Medicare Case-Mix Index

A. Development of the Case-Mix Index

1. *Statutory Requirement.* Section 101(a) of Pub. L. 97–248, requires the Secretary to establish case-mix indexes for all short-term hospitals. The Conference Committee Report accompanying the legislation states that "* * * initially the Secretary will need to rely on a currently available indicator of case-mix complexity such as the system developed at Yale University." However, the report also indicates that the conferees expected that "* * * the Secretary will continue to evaluate possible methods for adjusting for case mix and will adopt an improved method when it becomes available." (See H. R. Rep. 97–760, 97th Cong. 2d Sess. 418 (1982).)

2. *Overview.* Isolating the effects of differences in case mix from the effects of other factors that affect hospital costs required a statistical measure defining a hospital's inpatient case mix. The development of such a mesure depends on our ability to distinguish among the various kinds or types of inpatient cases, and to identify the relative cost of hospital treatment for each category.

The number of possible combinations of diagnoses, procedures, complications, and admitting status is obviously very large. However, the number of combinations that occur with significant frequency is much smaller. Furthermore, many of these are similar in terms of the quantity of resources required in diagnosis and treatment. These facts should permit the classification of hospital cases into a manageable number of categories that are clinically similar and reasonably homogeneous in terms of resource use and cost.

The first requirement in the process of constructing a valid case-mix measure that differentiates costliness among case categories involves the development of a suitable case classification system.

The second requirement is the creation of a set of "weights" that measure the relative cost of treating cases classified in each classification category. Once these requirements are met, a "case-mix index" for each hospital can be calculated.

If the proportion of a hospital's patients in a given category is multiplied by the cost weight associated with that category, and these products are summed across all categories, we obtain a measure of the hospital's expected cost per case, given its case mix. Dividing a hospital's expected cost per case by the national average expected cost per case over all hospitals produces a specific case mix index value for each hospital. The case mix index, then, is a summary statistic representing the relative costliness of each hospital's mix of cases compared to the national average mix of cases. This index permits us to express a hospital's Medicare patient mix as a single statistic in the context of a total cost limits system.

In the following sections we describe the actual construction of the Medicare case mix index, the methods used to classify Medicare discharges, the data sources used, the construction of the cost weights, and the calculation of the index. (In the explanations that follow, the terms "case" and "discharge" are used interchangeably.)

3. *Case classification.* Over the past several years, a case classification system called Diagnosis Related Groups (DRGs) has been developed at Yale University. The formation of DRGs presupposes that cases can be classified into clinically coherent groups that are reasonably similar in resource consumption, either in terms of cost or length of stay. The latest series of Yale DRGs is based on records of patients discharged during the last half of 1979.

Using a population of over 1.4 million records selected from a nationally representative sample of 332 hospitals participating in the Commission on Professional and Hospital Activities hospital discharge abstract service, the Yale researchers created a stratified sample of 400,000 medical records, classified into 23 Major Diagnostic Categories (MDCs). Each MDC represents a broad clinical category that is differentiated from all others based on body system involvement and disease etiology. The specification of the MDCs was developed by a committee of clinicians using the following guidelines: (1) They must be clinically consistent; (2) They must have a sufficient number of patients; and (3) They must cover the complete range of diagnoses represented in the *International Classification of Diseases, 9th Revision, Clinical Modification* (ICD–9–CM), without overlap.

The patient records in each MDC were then partitioned using a classification algorithm called AUTOGRP and a prespecified set of variables to suggest subgroups of cases that were expected to be distinct in length of stay. The variables used to split the MDCs were intentionally limited to those that are descriptive of the patient's clinical condition, and readily available on most discharge abstracts, such as principal diagnosis, secondary diagnoses, surgical procedures, age, sex, and discharge status. Suggested subgroups of cases within the MDCs were examined by physicians to determine whether the proposed distinctions were clinically sensible and whether the cases in each group were medically similar. These purely statistical subgroups were modified if they were not supported clinically. For example, in MDC 11 (Diseases and Disorders of the Kidney and Urinary Tract), the initial statistical grouping of medical (i.e. nonsurgical) cases suggested 3 subgroups that were different in terms of length of stay. Each of these subgroups, however, contained several different kinds of cases (e.g.

urinary tract infections, signs and symptoms, renal failure, and neoplasms). Clinical judgment suggested that the major clinical subsets of these 3 groups should be revised to form 7 more clinically coherent initial groups: Kidney stone, infection, renal failure, neoplasms, signs and symptoms, urethral stricture, and other. This process ultimately resulted in a set of 467 mutually exclusive and exhaustive case classification categories called Diagnosis Related Groups (DRGs).

The patient classification categories we used to classify Medicare cases are a subset of the 467 Yale DRGs. Of the 467 Yale DRGs, 18 were collapsed into 9 more general categories because specific clinical information essential for the assignment of Medicare cases to these DRGs was not available in HCFA's file of Medicare discharge records (see the discussion of the MEDPAR file in section 4(i)). Of the remaining 458 DRGs, we eliminated 38 because they contained no Medicare cases, and an additional 64 because they contained so few cases that cost weights for them would be statistically unreliable. This process resulted in 356 Medicare DRGs, which we used to construct the Medicare case-mix indexes.

4. *Data.* Hospitals participating in Medicare submit cost and utilization information to the Medicare intermediaries in several forms. In developing the Medicare case mix index, we used the following types of data.

(i) *MEDPAR File.* Although hospitals are not paid accumulated charges for each Medicare discharge, they are required to submit a detailed bill for services furnished to each Medicare inpatient. The billing form is the HCFA–1453, Inpatient Hospital and Skilled Nursing Facility Admission and Billing Form. For each beneficiary whose HI claim number ends in the digits "0" or "5" (i.e., 20 percent of all patients) the hospital also submits a narrative description of the patient's diagnosis at discharge, and surgical procedures performed, if any, along with the charges for ancillary services (e.g., radiology, laboratory, operating room, etc.). The information from these bills is recorded on electromagnetic tape, and transmitted to HCFA's central office in Baltimore.

In HCFA, the narrative diagnoses and procedures are coded using the ICD–9–CM system. The coded clinical information and billed charge data are maintained in a statistical file called MEDPAR (MP). For 1980, this file contains approximately 2 million sample patient cases.

(ii) *Cost Reports.* After the end of each cost reporting period, each hospital must complete and submit to its fiscal intermediary a Medicare cost report. The intermediary uses this report, which contains auditable financial data, to calculate the total amount Medicare will pay for services the hospital furnished Medicare patients during the reporting period. On specific schedules of the report, the hospital reports data on Medicare inpatient general routine service per diem costs, Medicare speciall care per diem costs, and on the ratio of cost to charges for each ancillary service department. Cost reports available as of May 1, 1981 were used to construct the case-mix indexes.

5. *Construction of the cost weights.* a. *Computation of adjusted cost for each case.* Given these data and the existence of 356 Medicare DRGs, a cost weight for each DRG can be calculated. Each weight reflects the average cost, across all hospitals, of treating cases classified in that DRG. In establishing these weights, we used data from the MEDPAR file (MP), and from the Medicare cost reports (MCR). The source of the data items used to construct the weights is given in parentheses for each steps of the calculation.

To derive DRG weights, we first calculated an adjusted cost for each case by: (1) Multiplying the number of days the patient spent in a regular room (MP) by the hospital's routine cost per day (MCR); (2) Multipying the number of days the patient spent in a special care unit (MP) by the hospital's special care unit cost per day (MCR); and (3) Multiplying the ancillary charges (MP) by the relevant departmental ancillary cost to charge ratios (MCR) to eliminate the gross effects of cross subsidization between hospital service departments. All hospital routine and special care per diem costs were standardized to July 1, 1980, to coincide with the mid-point of the period represented in the MEDPAR file (i.e. calendar year 1980 records) Example 1 depicts the calculation of the adjusted cost per case for a patient who spent 10 days in a hospital in New York City. Two of the 10 days were spent in a special care unit. During the stay, the patient incurred charges for radiology, laboratory and pharmacy services.

Example 1.—Calculation of Adjusted Cost Per Case for Cases Classified Within a DRG.

Routine Care Cost Per Diem (MCR)		Routine Care Days (MP)		Routine Care Cost
$150	×	8	=	$1,200

Special Care Cost Per Diem (MCR)		Special Care Days (MP)		Special Care Cost
$200	×	2	=	$400

Ancillary department	Cost-to-charge ratio (MCR)		Ancillary charges (MP)		Ancillary cost
Radiology	.80	×	$55	=	$44
Laboratory	1.20		175		210
Pharmacy	.85		80		68
Total					322

NOTE: Adjusted Cost Per Case $1200+$400+$322=$1922.

b. *Standardization of adjusted cost per case for variation due to teaching activity and hospital wage levels.* The next step was to standardize each adjusted cost per case for the effects of variations in the level of hospital specific teaching activity and area-specific hospital wage levels, so that the cost values would be comparable across hospitals. The method for standardizing adjusted costs per case for differences in teaching activity is as follows. First, for each hospital with an approved internship and residency program, we determine the ratio of full-time equivalent (FTE) Interns and residents per bed. We compute this ratio for each hospital from data contained on Medicare institutional certification surveys where available, and from data submitted directly by the intermediary. We then multiply the FTE intern and resident to bed ratio by 6.06 percent, the education cost adjustment factor, and add the product to 1.0. This results in a teaching activity adjustment factor, which we then use to divide the hospital's adjusted cost per case. The result of this division is a cost value for each case adjusted for hospital differences in teaching activity.

Next, we divided each hospital's adjusted cost per case into labor related and non-labor components. The labor related component was derived from the market basket and represents a fixed share (80.77 percent) of cost per case. This share represents the sum of the

1980 market basket relative importance weights for wages and salaries, employee benefits, professional fees, business services, and miscellaneous expenses (see Appendix I). The labor related component of adjusted cost per case was then divided by the hospital's applicable wage index from Tables III.A and III.B. This result was added to the non-labor proportion of adjusted cost per case to yield a revised cost per case that is standardized for hospital differences in teaching activity and area wage levels. The resulting adjusted cost values for the cases from each hospital represent estimates of the treatment costs that would prevail if the hospital had no teaching programs, and paid the prevailing national average wage rates. The calculation of this standardized cost per case is shown in Example 2.

Examples 2

Calculation of Standardized Cost Per Case

Adjusted cost per case = $1922.

Hospital intern and resident to bed ratio (based on 686 bed facility with 77 FTE interns and residents)

(77 + 686) ~ .1 = 1.1224

Education adjustment factor = .0606

Adjusted cost per case, standardized for differences in teaching activity.

$1922 ÷ [1.0+(1.1224) (.0606)] = $1799.60

Labor-related portion of adjusted cost per case, standardized for differences in teaching activity.

$1799.60 × .8077 = $1453.54

Non-labor portion of adjusted cost per case, standardized for differences in teaching activity.

$1799.60 − $1453.54 = $346.06

Adjusted cost per case, standardized for area wage differences.

$1453.54 + 1.3979 (New York SMSA) + $346.06 = $1385.86

Outliners, i.e., all cases in each DRG for which the standardized cost values were outside three standard deviations from the geometric mean of the values for the DRG, were eliminated. The weight for each of the 356 DRGs was calculated by summing the standardized adjusted costs for all cases in the DRG and dividing that amount by the number of cases classified in the DRG.

6. *Calculation of case-mix index.* To calculate each hospital's individual Medicare case-mix index, we multiplied the proportion of the hospital's Medicare cases in each DRG by the standardized cost weight for the DRG. We then summed these products to obtain an expected cost per case for each hospital. We then summed the expected per case costs for all hospitals, and divided the result by the total number of hospitals included in our data base. This produced an expected average cost per case for all hospitals. Finally, for each hospital, we divided the expected cost per case for that hospital by the average expected cost per case for all hospitals. The result of this division is the individual hospital's Medicare case-mix index. Appendix II lists the case-mix indexes for all hospitals in our data base.

Example 3 illustrates the calculation of the Medicare case-mix index.

EXAMPLE 3.—Calculation of Medicare Case-Mix Index: Proportion of Medicare Discharges by DRG (Percent)[1]

Hospital	DRG 1	DRG 2	DRG 3	DRG 4	DRG 5	Total (percent)	DRG weighted expected cost per case[2]	Case-mix index[3]
A	2.5	27.3	10.5	41.5	18.2	100	$1,660.40	.8900
B	21.0	3	30.1	2.0	46.0	100	2,401.30	1.2872
C	40.8	5.0	2.3	47.2	4.9	100	1,346.30	.7227
D	5.1	18.4	62.5	10.0	4.0	100	2,990.70	1.6031
E	30.4	65.0	1.0	1.6	2.0	100	826.00	.4990
Average proportion for all hospitals	19.92	23.32	21.26	20.46	15.02	100	1,865.54	
DRG cost weight	$1,000	$800	$4,100	$1,500	$2,000			

[1] Adjusted to make these 5 DRGs hypothetically represent all 356 Medicare DRG's
[2] For hospital A, Calculated as follows: .025 (1000)+.273 (800)+.105 (4100)+.415 (1500)+.182 (2000)=$1660.40
[3] For hospital A, calculated as $1660.40 divided by $1865.54=.8900

B. Application of the Case-Mix Index

Using the actuarial and market basket rates of inflation cited in section II J, we adjusted each hospital's average cost per Medicare discharge to April 1, 1983, the midpoint of the first cost reporting period to which the limits apply. We then divided each hospital's cost per Medicare discharge by the Medicare case-mix index for that hospital. The effect of this calculation is to eliminate cost differences due to differences in case mix. We then applied the education cost and wage index adjustments, calculated the mean labor-related component and mean non-labor component of cost per discharge for each hospital classificatioin group, and established limit components set at 120 percent of each mean (see steps 1 through 6 of section VII A, "Development of Published Limits").

In calculating each hospital's individual limit, the intermediary will multiply the hospital's labor-adjusted limit (i.e. the sum of (1) the product of the labor-related component and the wage index and (2) the non-labor component) by the case-mix index for that hospital, in order to calculate the hospital's case-mix adjusted limit. The intemediary will then apply the education cost adjustment, if applicable, and the cost reporting year adjustment, if applicable, to calculate the per-discharge limit for the particular hospital. A step-by-step explanation of the calculation of each individual hospital's limit is contained in section VII B.

C. Further Information Regarding Case-Mix Index

A detailed technical explanation of the development of the Medicare case-mix index is available on request. Requests for a copy of this explanation should be sent to: Marilyn Koch, Health Care Financing Administration, Room 192 East High Rise, 6325 Security Boulevard, Baltimore, Maryland 21207.

IV. Alternates To Use of Published Case Mix Index

A. Use of Greater of Actual Case-Mix Index or Group Average Case-Mix Index

As explained in section III, we calculated each hospital's case-mix index based on data from three sources. These include Medicare billing data from the MEDPAR file, which represents a 20 percent sample of all Medicare hospital bills submitted for calendar year 1980, our discharge bill file for calendar year 1980, and the most recent Medicare cost reports available as of May 1, 1981. Although the data in these records generally are complete and accurate, the number of sample bills submitted by some hospitals that otherwise would be subject to the limits is insufficient to enable us to calculate statistically reliable Medicare case-mix indexes for them. Therefore, we did not have sufficient information to calculate statistically reliable case-mix indexes for all hospitals subject to the new limits.

We believe the limits can be applied to these hospitals without disadvantage to them by using the higher of the hospital's actual case-mix index

calculated from the available information or the average case-mix index for the hospital's classification group. (See Section VII B.3., Adjustment by Case-Mix Index). Therefore, we have adopted this approach in setting limits for these hospitals. Case mix indexes that do not meet our required statistical precision criteria are asterisked in Appendix II. Table IV contains the average case mix index for each hospital classification group. To determine the cost per discharge limit for those providers with statistically questionable case mix indexes, the fiscal intermediaries will use the higher of the index in Table IV, corresponding to the hospital's classification group, or the hospital's actual index in Appendix II. Where the hospital is not included in Appendix II, the intermediary will use the average index value for the hospital's group, as shown in Table IV.

B. Calculation of Case-Mix Index Based on Total Medicare Discharges

We believe the data from the MEDPAR file provide a reasonably accurate representation of the clinical mix of Medicare discharges for most hospitals.

While we are confident of the accuracy of the case-mix indexes for hospitals as a whole, we realize that inaccuracies could exist in some cases. Because data deficiencies could lead to inaccurate case-mix index values for some hospitals, we believe it is appropriate to offer hospitals, for a limited time, the opportunity to submit corrected discharge data and to have their case-mix index values recalculated based on the corrected data. To obtain a recalculation of its case mix index, a hospital would have to submit to HCFA a record of all its Medicare discharges for the calendar year for which we obtained the MEDPAR sample used to establish the limits. For the limits effective October 1, 1982 the year involved is 1980. These discharge records would have to be coded using ICD–9–CM codes, and would have to be available on magnetic tape in a manner that would facilitate their processing.

When we receive the revised data submitted by the hospital according to HCFA specifications, we will recalculate the hospital's case mix index based on these data. We will then use the recalculated index, rather than the index based on the MEDPAR sample, to calculate the hospital's limit. We wish to note that since the recalculated index will presumably be more accurate than the published index, we plan to use the recalculated index even in those cases in which it will result in a lower limit for the hospital. The national DRG cost weights applicable in the original calculation will, however, be retained in deriving the recalculated case mix index.

We will permit hospitals to request this recalculation only for cost reporting periods beginning within the first 12 months following the effective date of the new limits. To obtain a recalculation, a hospital will be required to file its request within 180 days after the end of the hospital's first cost reporting period for which the new limits are effective. This period should be long enough to permit hospitals to improve the accuracy of their discharge data. We expect that, in later periods, hospitals will be able to assure that their discharge date are accurate before these data are submitted.

Our requirement that data be submitted on magnetic tape using ICD–9–CM coding is needed to enable us to act on recalculation requests in a timely and efficient manner. As a practical matter, we could not deal with these requests efficiently unless the revised discharge information could be processed electronically.

C. Recalculation of Limit to Reflect Changes in Case Mix

The Medicare case-mix index is intended to recognize the relative costliness of a hospital's case-mix compared to a standard reflecting the average case mix for all hospitals. The pattern of distribution of cases among hospitals tends to be similar from year to year. That is, hospitals that have large volumes of complicated cases in one period also tend to have large volumes of complicated cases in other periods. Likewise, hospitals that treat relatively simple cases in one period tend to repeat that experience in other periods. This reflects the evolution of a system in which highly sophisticated services are concentrated in certain facilities to which patients can be referred for specialized treatment.

Since hospitals tend to treat similar types of patients from one period to the next, we believe the case-mix index can be applied prospectively. However, we understand that events can occur that will abruptly and significantly alter the case mix of an individual hosptial. For example, the addition of an entirely new service e.g. a regional trauma center, could quickly change a hospital's case mix. Similarly, the merger of two facilities with different levels of specialization could result in a case mix for the surviving entity that is different from that of either facility. If a significant and abrupt change in case mix is the direct result of an identifiable event occurring between the base year used in developing the case-mix index and the year to which the limit will apply, we believe it is appropriate to recognize the effect of the change. Therefore, we are amending the Medicare regulations at 42 CFR 405.460 to provide an exception that would allow the Medicare case-mix index to be recomputed based on actual case mix in the year of application of the limit, if the hospital can show that the change in case mix is the result of a specific change in organization, range of services, medical specialty, or another particular and identifiable event. The interim final rule that makes this change is published elsewhere in this issue of the **Federal Register.**

V. Impact Analysis

A. Executive Order 12291

Section 1(b) of Executive Order 12291 states that a major rule is one that will:

(1) Have an annual effect on the economy of $100 million or more;

(2) Result in a major increase in costs or prices for consumers, individual industries, or government agencies, or geographic regions; or

(3) Have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

We estimate that for fiscal year 1983, implementation of these new limits will result in additional net savings of $75 million over the estimated savings of $333 million we would realize under the current routine cost limits. For fiscal year 1984, we estimate that the new limits will result in net savings of $405 million in addition to the $376 million savings we would realize under the routine limits. For fiscal year 1985, we are estimating additional net savings of $1.03 billion over the $426 million in savings that would occur under the routine limits. Also, we expect that there will be substantial additional savings as a result of implementation of the rate of increase ceiling required by section 1886(b) of the Social Security Act. These savings are described in the preamble to the interim final rule (published elsewhere in this issue of the **Federal Register**) that implements that provision.

Although we believe these new limits will have an annual effect on the economy that approaches the threshold specified in the Executive Order, we have determined this impact will be caused by section 101(a) of Pub. L. ——, which requires imposition of the limits, rather than by this notice, which merely implements the statutory provisions. We

have made this determination because the major features of the new limits are specified in the statute, and we do not have administrative discretion to develop alternatives to them. While the statute does allow the Secretary administrative discretion with respect to certain features of the new limits (e.g., the exclusion, for reasons related to the availability of discharge data, of children's and long-term care hospitals), these discretionary features will not have an impact of $100 million or more, or meet the other threshold criteria of the Order. Therefore, a regulatory impact analysis is not required.

While Executive Order 12291 does not require us to perform a regulatory impact analysis, the application of total cost limits represents a significant advance over the routine cost limits, and can be expected to have a major effect on hospital operations. Therefore, we are providing the following discussion of the expected effects of the new limits. This discussion, and the preamble as a whole, constitute a regulatory impact analysis.

As noted earlier in this preamble, the hospital cost limits in the past have been restricted to general routine costs for a number of reasons. Chief among these reasons was the fact that routine services (composed mainly of bed, board, and routine nursing services) tend to be similar among institutions, thereby allowing for comparison among institutions of the cost of these services. However, cost of ancillary services tends to vary significantly among institutions depending on the types of patients treated. Until recently, there was no suitable methodology available by which we could explicitly take differences in hospital case mix into account when establishing cost limits.

The development of the Diagnosis Related Group (DRG) case classification system referred to in this notice now permits us to compute an adjustment for each hospital that makes reasonable allowance for the resource implications of the type and mix of cases treated by the institution. Application of the case mix index, wage index, and teaching adjustments to each hospital's cost per discharge permits greater standardization of each hospital's costs, thus permitting the derivation of limits which act as improved measures of hospital efficiency.

We also expect the total cost limits presented in this notice will be an improvement on the current system of per diem reimbursement. Generally, the marginal cost of caring for a patient declines the longer that patient stays in the hospital. This is because patients generally require the closest observation during the first few days of a hospital stay. This means that a hospital can reduce its average per diem costs by increasing the average length of stay of its inpatients, even though in this way it may be increasing its overall costs. By thus reducing its per diem costs, the hospital may appear efficient with respect to the per diem limits, even though it is actually operating in an inefficient manner.

The new cost limits will alleviate this problem because they are computed and applied on a per discharge basis. A hospital's aggregate limit will be computed by multiplying its per case limit by the number of its discharges. Each discharge will have an equal weight in this calculation (differences due to the hospital's case mix having already been accounted for through application of the individual hospital's case-mix index). The incentive under the total cost limits system will be for hospitals to keep patients only so long as is medically necessary. In this sense, the total cost limits will act as a check on hospital utilization.

In addition to methodological advances which now allow the computation of total hospital cost limits, we anticipate that the new limits, by encouraging efficiency in hospital behavior, will help to slow the rapid rise in hospital costs, particularly with regard to ancillary services.

The costs of ancillary services and special care services have been rising at a more rapid rate than the costs of general routine services. In part, this may be attributable to the deterrent effect which the cost limits have had in the general routine area. In addition to actual disallowances under the general routine limits, we believe hospitals may have altered their practices in anticipation of disallowances, so as to avoid those disallowances. Consequently, the rise in the cost of those services subject to the routine limits has been less than the rise in the cost of those services not subject to limitation in the past. We would expect that cost limits which encompass ancillary and special care services, as well as general routine services, would promote efficient behavior on the part of hospitals across the entire spectrum of inpatient services.

We believe that any actions the Federal Government takes with respect to bringing about efficient economic behavior in hospitals should create incentives for such behavior, but should interfere as little as possible in the actual methods used to achieve economic efficiency. We believe the total cost limits set forth in this notice meet these requirements. While we are setting an upper limit on Medicare payment for total hospital inpatient operating costs, we are not prescribing the methods hospitals must emloy to ahieve the necessary economies. Rather, a hospital will be free to experiment with any number of cost saving methods and measures, and to choose the ones most appropriate for its individual situation. This reliance on individual hospital initiative should encourage competition among hospitals and a reduction in the rate of increase in hospital costs, while ensuring that Medicare beneficiaries continue to have access to needed hospital services.

We also realize that there may be cases where hospitals, even though they exceed the limits, are operating efficiently. To equitably provide relief in these situations, thereby insuring that these facilities are reimbursed the reasonable costs of their services in accordance with the law, there are a number of exemptions and exceptions available.

For further information on exceptions and exemptions, see the final regulations implementing section 1886 of the Social Security Act that are published elsewhere in this issue of the Federal Register.

B. Regulatory Flexibility Act

The Secretary certifies under 5 U.S.C. 605(b), enacted by the Regulatory Flexibility Act (Pub. L. 96–354), that this final notice will not in itself result in a significant impact on a substantial number of small entities. Under the Regulatory Flexibility Act, the great majority of hospitals (e.g., all non-profit hospitals, regardless of size) are "small entities." The potential impact of this notice will fall on about 20 percent of the hospitals affected by the limits on inpatient operating costs, with an average potential Medicare reimbursement reduction of about 2 percent. However, any adverse consequences of this impact can be avoided through the cost containment efforts we expect hospitals will make. Accordingly, we do believe that a substantial number will actually experience a significant impact. In any event, any impact will be the result of the statutory provisions (section 101(a) of Pub. L. 97–248), and not of the regulations that implement these provisions. Therefore, a regulatory flexibility analysis is not required.

Although a regulatory flexibility analysis is not required, we are aware that some hospitals may be concerned about the impact of these limits. For the benefit of these hospitals, and to forestall any unnecessary concern

regarding the effect of the limits, we are providing the following analysis which, together with this preamble taken as whole, constitutes the regulatory flexibility analysis.

Under section 1861(v) of the Social Security Act, the Secretary may pay no more than the reasonable cost of covered services furnished to Medicare beneficiaries. This requirement applies to services furnished by all Medicare participating hospitals regardless of size. Both section 1861(v) and section 1886(a) of the Social Security Act require the Secretary to set limits on the costs that will be recognized as reasonable. In computing these limits, we rely on actual costs facilities have incurred. However, we realize that it may be inequitable to compare the costs of facilities for purposes of computing limits without taking into account the size of those facilities. Therefore, since the inception of the cost limits, we have classified hospitals by bed size, that is, by number of beds, (as well as geographic location) and only compared a hospital's costs with the costs of other hospitals in the same bed size groping. The limits contained in this notice are based on the same bed size classifications we have used in previous schedules of limits. In this manner, we have in large measure recognized that small hospitals should be treated similarly as a group and that their costs should not be compared with the costs of large institutions when developing limits.

To the extent that the reasonable cost requirements of the Medicare law apply to all participating hospitals, the considerations discussed above in the Executive Order analysis apply to small hospitals. However, we would particularly like to stress the fact that the limits contained in this notice represent an upper ceiling on the amount the Medicare program will pay for inpatient hospital services. We do not specify or require any particular methods or courses of action which hospitals must employ to avoid exceeding the limits. How to achieve the necessary economies is left up to each indivdual hospital. We recognize that the methods which individual hospitals employ will be dependent upon many factors, and that what works well for a large, teaching hospital may not be appropriate for a small community hospital. Therefore, we believe it is important that each hospital retain the flexibility to structure its own operations in such a way as to achieve the necessary efficiencies consistent with the continued provision of needed health services to Medicare beneficiaries.

We have compared the impact of the proposed limits contained in this notice on small hospitals (defined as those having less than 100 beds) with the impact of the limits on all providers. Our data indicate that the limits on this notice will impact 20.5 percent of all hospitals subject to the limits. Our data further indicate that 25.5 percent of urban hospitals with less than 100 beds will be impacted, and 21.4 percent of rural hospitals with less than 100 beds will be impacted. (This does not include rural hospitals with less than 50 beds on September 3, 1982, the date of enactment of Pub. L. 97-248. These hospitals are specifically exempted by the statute from the new limits.)

The following tables show our estimate of the impact these limits will have by cell grouping as well as by geographic regions.

TABLE A

Group	Percent impacted
Urban:	
Less than 100	25.5
100-404	20.2
404-594	18.1
595 and above	22.0
Rural:	
Less than 100	21.4
100-169	17.0
170 and above	14.7

TABLE B

Region	Percent impacted
New England	26.2
Middle Atlantic	17.1
East North Central	26.2
West North Central	22.2
South Atlantic	14.5
East South Central	11.2
West South Central	14.5
Mountain	22.5
Pacific	31.9

Waiver of Public Comment Period and of 30-Day Delay in Effective Date

As noted earlier in this preamble, the legislation that requires us to issue the new limits specifies the major features of the limits methodology, and allows us very limited administrative discretion in determining how the new limits will be developed and applied. In view of the specificity of this legislation, we believe that publication of the new limits for public comments before their implementation is unnecessary, and would not contribute to the clarification of any issues.

Moreover, section 101 of Pub. L. 97-248 specifies that the new limits are to be effective for hospital cost reporting periods beginning on or after October 1, 1982. To have these limits in place as close as possible to the effective date specified in the law, we must publish this notice as soon as possible. The Congress itself took note of this in section 101(b)(2)(A) by instructing the Secretary to issue final regulations, whether on an interim or other basis, before October 1, 1982, the effective date of the law. In our view, the statutory language is sufficiently clear to support implementation of the new limits effective October 1, 1982. Therefore, in consideration of the need to implement these limits promptly, we believe delaying their implementation by even the minimum amount of time usually allowed for public comment (30 days) would be impractical.

In addition, to the extent that Federal spending will be reduced by timely implementation of the limits on inpatient operating costs, we believe that any delay in implementation due to the publication of proposed rulemaking would be contrary to the public interest.

Therefore, we find good cause to waive a prior public comment period, and to issue this notice in final form. For the same reasons, and in light of the statutory requirement that these limits be effective for hospital cost reporting periods beginning on or after October 1, 1982, we find good cause to waive the usual 30-day delay in effective date. We will, however, consider any comments on this notice that are received by the date specified above in the "DATES" section and make any further changes that may be necessary.

VI. Other Required Information

A. Public Comments

Because of the large number of comments we receive, we cannot acknowledge or respond to them individually. However, we will consider any comments on this notice that are received by the date specified in the "DATES" section. If as a result of public comments we conclude that changes in this interim final notice are needed, we will include these changes in the final notice described in item B below.

B. Publication of Final Notice

Section 101(b)(1) of Pub. L. 97-248 specifically requires the Secretary of HHS to first issue such final regulations (whether on an interim or other basis) before October 1, 1982, as may be needed to implement sections 1886(a) and (b) of the Social Security Act on a timely basis. This legislation further requires that if these regulations are promulgated on an interim final basis, the Secretary shall provide an

opportunity for public comment, and for appropriate revision of these regulations, so that they are not on an interim basis later than March 31, 1983.

To comply with these requirements, we are published this notice on an interim final basis. As required by the law, we will consider all public comments we receive, determine whether changes in this interim final notice are needed, and publish a final notice implementing section 1886(a) by March 31, 1983.

VII. Methodology for Determining Per Discharge Inpatient Operating Cost Limits

A. Development of Published Limits

1. *Data.* We developed the limits by using actual hospital inpatient operating costs per Medicare discharge that we obtained from the latest Medicare cost reports available as of May 1, 1981. In developing the group limits, we excluded data from long-term care hospitals, children's hospitals, and rural hospitals with fewer than 50 beds. From the remaining cost reports, we excluded capital-related costs and the direct costs of the interns and residents (in approved programs) and nursing school cost centers. We then adjusted the per discharge cost data for inflation, using the annual rates cited in section II J, by projecting these data from the cost reporting periods used in the data collection to April 1, 1983, the midpoint of the first cost reporting period to which the limits apply.

2. *Use of Case-Mix Index to Adjust Cost Data.* We divided each hospital's Medicare inpatient operating cost per discharge by the case-mix index for the hospital to obtain a case-mix adjusted inpatient operating cost per Medicare discharge.

Example: After adjustment for inflation, the average cost per discharge of a 686-bed hospital in Queens County, New York, is $2000.00. The hospital's Medicare case-mix index is 1.2150.

$2000.00÷1.2150=$1646.09, which is the hospital's case-mix adjusted inpatient operating cost per discharge.

3. *Adjustment for Education Costs.* After adjusting each hospital's inpatient operating cost per discharge for inflation and case-mix complexity, we divided each cost by 1.0 plus the product of the education adjustment factor (6.06 percent) and the individual hospital's adjusted intern-and-resident to bed ratio. We determined that adjusted ratio by dividing the number of FTE interns and residents for the cost reporting period to which the average cost per discharge applies by the hospital's bed size determined at the beginning of that period to obtain the hospital's intern-and-resident to bed ratio, and dividing that ratio by .1.

Example: After adjustment for inflation and case-mix complexity, the per discharge inpatient operating cost of a 686-bed hospital in Queens County, New York, is $1646.09. The hospital employed 77 FTE interns and residents in approved teaching programs.

The per case cost is adjusted for education costs as follows:

77÷686=.11224, which is the intern-and-resident to bed ratio for this hospital.

.1122÷.1=1.12240—Adjusted Ratio

$16464.09÷[1+(.0606×1.1224)]=$1541.26, Education-adjusted cost per discharge.

This adjusted per discharge cost is divided into labor-related and non-labor components. The labor-related component is adjusted by the wage index and the two components are used to calculate the group means (see steps 4, 5 and 6 below).

4. *Use of Wage Index to Adjust Cost Data.* We divided each hospital's case-mix and education adjusted inpatient operating cost per discharge into labor-related and non-labor portions. To determine the labor-related portion of cost, we multiplied each hospital's adjusted per discharge operating cost by 80.77 percent, which is the labor-related portion of cost from the market basket. We then divided the labor-related portion of each hospital's per discharge cost by the wage index applicable to the hospital's area (see Tables IIIA and IIIB) to arrive at an adjusted labor-related portion of inpatient operating cost per discharge:

$1541.26×.8077=$1244.88, Labor related portion of cost per discharge

$1541.26−$1244.88=$296.38, Non-labor related portion of cost per discharge

$1244.88÷1.3979=$890.54, Adjusted labor-related portion of cost per discharge

5. *Group Means.* We calculated separate means of labor-related and non-labor inpatient operating costs per discharge for each group established in accordance with the hospitals' urban/rural location and bed size.

6. *Components of Limit.* For each group, we multiplied the mean labor-related and mean non-labor costs by 120 percent (see Tables I and II).

B. Calculation of Individual Hospital Limit

1. *Cost-of-Living Adjustment (Alaska, Hawaii and Puerto Rico Hospitals Only).* If a hospital is located in Alaska, Hawaii, or Puerto Rico, the hospital's intermediary will multiply the non-labor component for the hospital's group (see Tables I and II) by the appropriate cost-of-living adjustment factor from the following list. The intermediary will use the adjusted non-labor component in computing the hospital's limit.

Location	Cost-of-living adjustment factor
Alaska:	
Anchorage	1.225
All others	1.250
Hawaii:	
Oahu	1.175
Kauai	1.175
Molokai	1.175
Maui and Lanai	1.175
Hawaii	1.180
Puerto Rico	1.075

Example—Calculation of Cost-of-Living Adjusted Non-Labor Component for a 400-bed Hospital Located in Anchorage, Alaska.

Non-Labor Component $731.05 (Published in Table I.) Adjustment Factor for Anchorage, Alaska = 1.225; $731.05 x 1.225 = $895.54 Cost-of-Living Adjusted Non-Labor Component.

3. *Adjustment of Labor Related Component by Wage Index.* To arrive at a labor-adjusted limit for each hospital, the hospital's Medicare intermediary will multiply the labor-related component for the hospital's group by the wage index developed from the wage levels for hospital workers in the area in which the hospital is located (see Tables IIIA and IIIB). The individual limit for any hospital will be the sum of the non-labor component, plus the wage adjusted labor-related component.

Example—Calculation of labor-adjusted Limit for a 686-bed Hospital Located in Queens County, New York.

Non-Labor Component—$881.65(published in Table I).

Labor-related Component—$3199.78(published in Table I).

New York, NY–NJ SMSA Wage Index—1.3979(published in Table IIIA).

Computation of Adjusted Limit

$3199.78 × 1.3979 (wage index) = $4472.97—Adjusted Labor Component

$4472.97 (Adjusted Labor component) + $881.65 (Non-Labor Component) = $5354.62 Labor-adjusted limit.

3. *Adjustment By Case-Mix Index.* To adjust each hospital's limit for case-mix complexity, the Medicare intermediary will multiply the hospital's labor-adjusted limit from step 2 by the assigned case-mix index for the particular hospital (see Appendix II). For hospitals for which a statistically valid case mix index could not be calculated (identified by an asterisk in the list of case-mix indexes) the intermediary will

use the higher of the calculated index value or the average index value for the hospital's group, shown in Table IV. Where a hospital is not included in Appendix III, the intermediary will use the average index value for the hospital's group shown in Table IV.

Example: A 686-bed hospital in Queens County, New York has a labor-adjusted limit of $5354.62. The case-mix index for the hospital is 1.1500.

Labor-adjusted limit $5354.62 × case-mix index 1.1500 = $6157.81, which is the hospital's case-mix adjusted limit.

4. *Education Cost Adjustment.* If a hospital has a graduate medical education program approved under 42 CFR 405.421, the Medicare intermediary will increase the hospital's limit by 6.06 percent for each .1 increase (above zero) in the hospital's ratio of full-time equivalent (FTE) interns and residents (in approved programs) to its bed size. The number of full-time equivalent interns and residents is the sum of:

1. Interns and residents employed for 35 hours or more per week, and

2. One half of the total number of interns and residents working less than 35 hours per week (regardless of the number of hours worked).

For purposes of this adjustment, a hospital will be allowed to count only interns and residents in teaching programs approved under 42 CFR 405.421 who are employed at the hospital. Interns and residents in unapproved programs and those who are on the hospital's payroll but furnish services at another site will not be taken into account in making this adjustment. In determining the amount of the prospective adjustment, the fiscal intermediary will use the number of interns and residents employed on the September 30 immediately preceding the first cost reporting period subject to the new limits. In those instances where this figure is unavailble, the intermediary will use the number of interns and residents for the September 30 of the latest available cost reporting period. The hospital will report to its intermediary, 45 days before the start of each cost reporting period, the number of FTE interns and residents it employed on September 30, immediately preceding the date on which this report is due. The intermediary will calculate the amount of the education cost adjustment based on that report, and will adjust the hospital's limit retroactively at final settlement if, for a cost reporting year, a hospital actually employed more or fewer FTE interns and residents on September 30 of that period than the number it reported.

Example—A 686-bed hospital in Queens County, New York has an adjusted limit of $6157.81 for the cost reporting period beginning October 1, 1982. The hospital employed 77 FTE interns and residents in approved teaching programs on September 30, 1981, the latest reporting period for which the number of interns and residents is available.

77 ÷ 686 = .11224 Ratio of FTE interns and residents to beds

Ratio .1122 ÷ .1 = 1.1224 Adjusted ratio

The Education Adjustment Factor is .0606.

Case-mix adjusted limit $6157.81 × [1 + .0606 (education adjustment factor) × 1.1224] (adjusted ratio) = $6157.81 × [1.06802] = $6576.66 Education—adjusted limit.

If the number of FTE interns and residents the hospital employs on September 30, 1983, is more or less than 77, the intermediary will adjust the hospital's limit at the time of final settlement of the hospital's cost report.

If a hospital does not have a graduate medical education program approved under 42 CFR 405.421, the education adjustment will not apply.

5. *Adjustment for Cost Reporting Year.* If a hospital has a cost reporting period beginning on or after November 1, 1982, the intermediary will increase the limit that would otherwise apply to the hospital by the factor from Table V that corresponds to the month and year in which the cost reporting period begins. Each factor represents the monthly increase that we derived by dividing the projected annual percentage increase in the market basket index plus one percentage point by twelve. This adjustment is needed to account for price increases that occur after the date on which the limits are effective.

Example—A 686-bed hospital in Queens County, New York has a cost reporting period that begins January 1, 1983.

The otherwise applicable cost per discharge limit for the hospital is $5000.00.

Computation of Revised Hospital Limit

Individual Hospital Adjusted Limit—$5000.00

Adjustment factor from Table V—1.01975

Adjustment Limit $5000.00 × Adjustment factor 1.01975

Revised limit $5098.75

If a hospital uses a cost reporting period that is not 12 months in duration, a special calculation of the adjustment factor must be made. This results from the fact that projections are computed to the end of a cost reporting period and the adjustment factors in Table V are based on an assumed 12 month reporting period. For cost reporting periods other than 12 months, the calculation must be done specifically for the midpoint of the cost reporting period. The hospital's intermediary will obtain this adjustment factor from HCFA.

6. *Implementation of Hold Harmless Provisions.* The proper implementation of the "hold harmless" provision in section 1886(a)(1)(C) of the Social Security Act will require the fiscal intermediaries to calculate the base period inpatient operating cost per discharge for all hospitals subject to the new limits. Base period inpatient operating costs must exclude, to the extent feasible, capital, medical education, and malpractice insurance costs. The following examples illustrate the operation of the hold harmless provision:

Example 1

Hospital A's total Medicare reimbursement for allowable inpatient operating costs (excluding capital medical education, and malpractice insurance costs) for the fiscal year October 1, 1981 through September 30, 1982 was $5,000,000. During this period, Hospital A had 5000 Medicare discharges for an average inpatient operating cost per discharge of $1000. For the reporting period October 1, 1982 through September 30, 1983, Hospital A incurred Medicare inpatient operating costs of $6,000,000 and had 5300 Medicare discharges. A's Medicare reimbursement for inpatient operating costs for the period October 1, 1982 through September 30, 1983 cannot be less than 5300 × $1,000 or $5,300,000.

Example 2

Hospital B's total Medicare reimbursement for inpatient operating costs for the period October 1, 1981 through September 30, 1982 was $4,000,000. During this period, B had 2,000 Medicare discharges for an average cost per discharge of $2,000. Effective January 1, 1983, B changed ownership, but does not qualify for a new hospital exemption. For the short cost reporting period October 1, 1982 through December 31, 1982, B's Medicare inpatient operating costs were $1,200,000. Based on 550 Medicare discharges, B's reimbursement for allowable inpatient operating costs cannot be less than 550 x $2,000 or $1,160,000. Because B does not qualify as a new provider 1/1/83, the hospital is considered to be delivering the same services to the same population both before and after the change of ownership. For the short period 1/1/83

through 9/30/83, B's Medicare inpatient operating costs were $3,190,000 based on 1450 Medicare discharge costs cannot be less than 1450 x $2,000 or $2,900,000.

Example 3

Some as example 2 except that effective 1/1/83, B changed ownership and qualified for a new hospital exemption because of a complete change in service i.e., B limits its practice to orthopedic surgery with no general medical surgical practice. For the short cost reporting period October 1, 1982 through December 31, 1982, B's reimbursement is identical to that in Example 2. For the short period 1/1/83 through 9/30/83, B may be exempt from the limits as a new hospital.

HCFA will issue instructions providing a more detailed explanation of the calculations of base period inpatient operating costs to be used for the hold harmless provision, including the treatment of other than 12 month cost reporting periods. While it will be necessary for the intermediary to reduce interim payments to providers who are expected to exceed the cost limits, it should not be necessary to reduce interim payments below the prior year's amount.

C. Schedule of Limits

Under the authority of sections 1861(v) and 1886(a) of the Social Security Act, the following per discharge limits, will apply to hospital inpatient operating costs for cost reporting periods beginning on or after October 1, 1982. Medicare fiscal intermediaries will compute the adjusted limits using the methodology set forth in this notice and notify each hospital of its applicable limit.

TABLE I.—HOSPITALS LOCATED IN SMSA/NECMA [1]

Bed size	Labor-related component	Nonlabor component
Less than 100	$2,394.70	$616.48
100 to 404	2,778.13	731.05
405 to 684	2,997.76	788.57
685 and above	3,199.78	881.65

[1] Nonlabor components for hospitals located in Alaska, Hawaii, and Puerto Rico will be increased by multiplying them by the following cost-of-living adjustment factors:

Location	Adjustment factor
Alaska:	
Anchorage	1.225
All others	1.250
Hawaii:	
Oahu	1.175
Kauai	1.175
Molokai	1.175
Maui and Lanai	1.175
Hawaii	1.100
Puerto Rico	1.075

TABLE II.—HOSPITALS LOCATED IN NON-SMSA/NON-NECMA AREAS

Bed size	Labor-related component	Nonlabor component [1]
Less than 100	$2,215.88	$459.23
100 to 169	2,429.93	505.61
170 and above	2,490.11	528.42

[1] Nonlabor components for hospitals located in Alaska, Hawaii, and Puerto Rico will be increased by multiplying them by the following cost-of-living adjustment factors:

Location	Adjustment factor
Alaska:	
Anchorage	1.225
All others	1.250
Hawaii:	
Oahu	1.175
Kauai	1.175
Molokai	1.175
Maui and Lanai	1.175
Hawaii	1.100
Puerto Rico	1.075

TABLE IV.—AVERAGE CASE MIX INDEXES BY HOSPITAL CLASSIFICATION GROUP

Bed size	Mean case mix index
Urban Hospitals:	
Less than 100	.9655
100 to 404	1.0446
405 to 684	1.1048
685 and above	1.1412
Rural Hospitals:	
Less than 100	.9556
100 to 169	.9654
170 and above	1.0247

TABLE V.—COST REPORTING YEAR ADJUSTMENT FACTORS

If the hospital cost reporting period begins—	The adjustment factor is [1]—
November 1, 1982	1.00658
December 1, 1982	1.01317
January 1, 1983	1.01975
February 1, 1983	1.02692
March 1, 1983	1.03408
April 1, 1983	1.04125
May 1, 1983	1.04842
June 1, 1983	1.05558
July 1, 1983	1.06275
August 1, 1983	1.06992

TABLE V.—COST REPORTING YEAR ADJUSTMENT FACTORS—Continued

If the hospital cost reporting period begins—	The adjustment factor is [1]—
September 1, 1983	1.07718

[1] Based on projected 1983 and 1984 inflation rates (equal to the market basket plus one percentage point) of 7.9 percent and 8.6 percent, respectively.

If for any reason, we do not publish a new schedule of limits to be effective on October 1, 1983, or do not announce other changes in the current schedule, the current limits reduced to 115 percent would continue in effect. The adjustment factor would be increased by .00717 (corresponding to .717 percent) per month, until a new schedule of limits or other provision is issued.

APPENDIX I—DERIVATION OF MARKET BASKET INDEX FOR HOSPITAL INPATIENT OPERATING COSTS [1]

Cost category	Relative importance, [2] 1950	Forecaster, [3] percent changes 1981–84	Price variable used
1. Wage and salaries	57.33	DRI–CFS	Percentage change in average hourly earnings of hospital industry workers (SIC 806). Source: U.S. Department of Labor, Bureau of Labor Statistics, Employment and Earnings (monthly), Table C–2.
2. Employee benefits	8.55	DRI–MM	Percentage change in supplements to wages and salaries per worker in nonagricultural establishments. Source: For supplements to wages and salaries—U.S. Department of Commerce, Bureau of Economic Analysis, Survey of Current Business (monthly), Table 1.11. July issue has detailed components. For total employment—U.S. Department of Labor, Bureau of Labor Statistics, Employment and Earnings (monthly), Table B–4.
3. Professional fees, other (legal, auditing, consulting, etc.).	.58	DRI–MM	Percentage change in hourly earnings index for production or nonsupervisory workers on private nonagricultural payrolls, total private. Source: U.S. Department of Labor, Bureau of Labor Statistics, Monthly Labor Review, Table 18.
4. Food	3.59	DRI–MM	A. Percentage change in food and beverages component of Consumer Price Index, All Urban (relative importance, 1.81). Source: U.S. Department of Labor, Bureau of Labor Statistics, Monthly Labor Review, Table 23.
		DRI–MM	B. Percentage change in processed foods and feeds component of Producer Price Index (relative importance, 1.78). Source: U.S. Department of Labor, Bureau of Labor Statistics, Monthly Labor Review, Table 27.
5. Fuel and other utilities	3.41	DRI–MM	A. Percentage change in implicit price deflator—consumption of fuel oil and coal (derived from fuel oil component of Consumer Price Index) (relative importance 1.62). Source: U.S. Department of Commerce, Bureau of Economic Analysis, Survey of Current Business (monthly), Table 7.11.
			B. Percentage change in implicit price deflator—consumption of electricity (derived from electricity component of Consumer Price Index) (relative importance, DRI–MM .79). Source: U.S. Department of Commerce, Bureau of Economic Analysis. Unpublished data provided to Data Resources, Inc. by the Bureau of Economic Analysis. Historical time series data are available from the Health Care Financing Administration or the Bureau of Economic Analysis.
		DRI–MM	C. Percentage change in implicit price deflator for natural gas, derived from utility (piped) gas component of Consumer Price Index (relative importance, .66). Source: Same as electricity above.
		DRI–CFS	D. Percentage change in water and sewerage maintenance component of Consumer Price Index (relative importance, .34). Source: U.S. Department of Labor, Bureau of Labor Statistics, Monthly Labor Review, Table 23.
6. Drugs	2.66	DRI–CFS	Percentage change in pharmaceutical preparations, ethical component of Producer Price Index. Source: U.S. Department of Labor, Bureau of Labor Statistics, Producer Prices and Price Indexes (monthly), Table 6.
7. Chemicals and cleaning products	2.23	DRI–MM	Percentage change in chemicals and allied products components of Producer Price Index. Source: U.S. Department of Labor, Bureau of Labor Statistics, Monthly Labor Review, Table 27.
8. Surgical and medical instruments and supplies.	2.12	DRI–CFS	Percentage change in special industry machinery and equipment component of Producer Price Index. Source: U.S. Department of Labor, Bureau of Labor Statistics, Monthly Labor Review, Table 27.
9. Rubber and miscellaneous plastics	1.84	DRI–MM	Percentage change in rubber and plastic products component of Producer Price Index. Source: U.S. Department of Labor, Bureau of Labor Statistics, Monthly Labor Review, Table 27.
10. Business and travel and motor freight	1.87	DRI–CFS	Percentage change in transportation component of Consumer Price Index, All Urban. Source: U.S. Department of Labor, Bureau of Labor Statistics, Monthly Labor Review, Table 23.
11. Apparel and textiles	1.51	DRI–MM	Percentage change in textile products and apparel component of Producer Price Index. Source: U.S. Department of Labor, Bureau of Labor Statistics, Monthly Labor Review, Table 27.
12. Business services	5.03	DRI–MM	Percentage change in services component of Consumer Price Index, All Urban. Source: U.S. Department of Labor, Bureau of Labor Statistics, Monthly Labor Review, Table 23.
13. All other miscellaneous expenses [4]	9.16	DRI–MM	Percentage change in Consumer Price Index for all items, All Urban. Source: U.S. Department of Labor, Bureau of Labor Statistics, Monthly Labor Review, Table 23.
Total	100.00		

[1] Cost not within the scope of the limits (i.e. capital, medical education, malpractice insurance, and medical professional fees) were excluded in deriving the market basket index.

[2] A Laspeyres price index was constructed using 1977 base value weights and the price variables indicated in the table. Base value weights (cost shares) were derived from: special studies by the Health Care Financing Administration using primarily data from the American Hospital Association and the Interindustry Economics Division of the Bureau of Economic Analysis, U.S. Department of Commerce. In 1977 each price variable has an index value of 100.00. The "relative importance" changes over time in accordance with price changes for each price variable. Cost categories with relatively higher price increases get higher relative importance values and vice versa. These relative importance values are subject to marginal change. For an explanation of the methodology used, see Freeland, Mark S., Anderson, Gerald, and Schendler, Carol Ellen, "National Hospital Input Price Index," Health Care Financing Review, Summer 1979, pp. 37–61.

[3] DRI–CFS = Data Resources, Inc., Cost Forecasting Service, 1750 K Street, NW., Washington, DC. 20006 (Forecast 822). DRI–MM = Data Resources, Inc., Macro Model, 29 Hartwell Avenue, Lexington, Massachusetts 02173 (Trendlong 0582).

[4] This is a residual category of costs not included in the 12 specific categories above. It consists primarily of miscellaneous and unallocated items.

BILLING CODE 4120-03-M

Department of Health and Human Services

Health Care Financing Administration

Medicaid; Reductions in Payments to the States

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Care Financing Administration

42 CFR Part 433

Medicaid; Reductions in Payments to the States

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Final rule.

SUMMARY: This rule amends the regulations that implemented section 2161 of the Omnibus Budget Reconciliation Act of 1981 (Pub. L. 97–35). Under that provision, reductions in Federal matching payments to the States for Medicaid services were imposed for fiscal years 1982 through 1984. We are amending the regulations as a result of public comments and consultations with various representatives of the States, and to effect changes mandated by the provisions of section 137(b) of the Tax Equity and Fiscal Responsibility Act of 1982 (Pub. L. 97–248), which amended section 2161.

DATES: This rule is effective September 30, 1982. For information concerning reporting requirements in these regulations refer to section IV of the preamble below.

FOR FURTHER INFORMATION CONTACT: Charles Schreibeis (301)– 597–1702.

SUPPLEMENTARY INFORMATION:

I. Background

A. *Legislation and regulations.* Under title XIX of the Social Security Act, Medicaid is financed jointly with Federal and State funds. The Federal government shares in the cost of health care services covered under each State's Medicaid program, with the Federal contribution determined under a statutory formula (sections 1903(a) and 1905(b) of the Social Security Act) that is designed to have the Federal government pay a proportionally larger share of the program in States with lower per capita income, as compared to the national per capita income. Under section 1903(a) of the Act, the Federal government also shares in the costs of the administration of each State's Medicaid program. These payments are variously referred to as the Federal share of Medicaid payments, Federal matching funds, or Federal financial participation (FFP). For purposes of the discussion below, we refer to these amounts simply as Federal payments.

On September 30, 1981, we issued interim final regulations (46 FR 47996) to implement section 2161 of the Omnibus Budget Reconciliation Act of 1981 (Pub. L. 97–35), enacted on August 13, 1981. Section 2161 added sections 1903 (s) and (t) to the Social Security Act and mandated progressive reductions in total Federal Medicaid payments to the States for fiscal years 1982 through 1984. The final regulations established a new Subpart E in Part 433 of title 42 of the Code of Federal Regulations (CFR).

Additionally, section 137(b) of the Tax Equity and Fiscal Responsibility Act of 1982 (Pub. L. 97–248), enacted on September 3, 1982, amended sections 1093 (s) and (t) of the Social Security Act. Although technical in nature, the amendments are important in several respects and are discussed below.

In summary, sections 1903 (s) and (t) of the Act, as enacted by section 2161 of Pub. L. 97–35 and as amended by section 137(b) of Pub. L. 97–248, provide that the Federal payments to which a State is entitled under Medicaid are to be reduced by three percent of each quarter's payment in fiscal year (FY) 1982, four percent in FY 83, and four and one half percent in FY 84. However, Congress stipulated that a State, under certain conditions, may be entitled to an offset against the reductions. That is, a State may lower the amount of the reduction by one percentage point for each quarter, in each of the three fiscal years, for each of the following conditions the State meets during the quarter:

- The State has in operation a qualified hospital cost review program.
- The State has an unemployment rate equal to or exceeding 150 percent of the national average.
- The State demonstrates anti-fraud and abuse recoveries of Medicaid funds, in the immediately preceding quarter, equal to at least one percent of the Federal payments for that quarter. With respect to FY 82 only, States may qualify for this decrease by combining recoveries from anti-fraud and abuse and third party liability efforts during the applicable quarter.

The legislation further provides that a State will be entitled to a dollar for dollar offset in the reductions if total Federal Medicaid funding of the State's program, for each fiscal year 1982 through 1984, falls below a specified target amount. However, the amount recovered by a State in this manner may not exceed the total amount of the original reduction for the fiscal year. Congress established the target amount for FY 82 as equal to 109 percent of each State's estimate of the amount of Federal funding it would be paid for FY 81, and stipulated that the State estimates to be used would be those that were submitted before April 1, 1981. For FY 83 and FY 84, the target amounts are equal to the FY 82 target amount increased or decreased by the same percentage as the increase or decrease in the index of the medical care expenditure component of the Consumer Price Index for all urban consumers (U.S. city average) published by the Bureau of Labor Statistics.

In additon to the interim final rules issued on September 30, 1981, we issued a notice of proposed rulemaking (46 FR 48006) concerning the offset based on the combination of recoveries from anti-fraud and abuse activities and from liable third parties (42 CFR 433.215). For purposes of the offset during FY 82, we proposed, with certain exceptions, to prohibit the States from including in third party liability recoveries savings realized in Medicaid costs by transferring to Medicare the responsibility for paying the claims of persons dually eligible for Medicare and Medicaid. The proposed exception to this rule was that the States would be permitted to include amounts recovered from Medicare in cases where dual eligibility is not known until after the Medicaid claim is paid.

B. *Implementation of section 2161.* The legislative history of section 2161 indicates that Congress attempted to soften the fiscal effects of the reductions for States that have high unemployment or are undertaking extra efforts to control rising health care expenditures by containing hospital costs or combating fraud and abuse. (For example, see the Report of the House Committee on the Budget, H.R. Rep. No. 97–158, Vol. II, 97th Cong., 1st Sess. 288 (1981).)

Congress reasoned that if a State has taken extra cost containment or anti-fraud and abuse measures beyond those embodied in sound management practices, then the Federal share of that State's Medicaid expenditures already had effectively been reduced. Therefore, Congress concluded, the States that are able to demonstrate savings based on these extra efforts should incur less of a reduction in Federal payments than States that have not taken these initiatives.

In drafting the implementing regulations, we have followed the legislative intent. For the most part, the legislation is specific and permits little discretion in the regulations. However, in those areas of policy where regulatory discretion was allowed, we established policies that encourage and reward initiatives by States that exceed routine requirements or administrative actions. We applied this approach in structuring the definition of recoveries and the fraud and abuse and third party liability sections of the regulations. For

example, aggressive action by a State to identify and discourage fraudulent and abusive practices through methods such as the application of specially designed claims processing screens intended to detect fraud and abuse will enable the State to qualify more easily for the anti-fraud and abuse offset.

II. Changes Required by Pub. L. (97-248)

Several of the amendments contained in section 137(b) of Pub. L. 97-248 have an impact on the reductions in Medicaid payments and require changes in the regulations. The amendments provide a specific legislative basis for—

- The inclusion in diverted funds of imputed savings based on the suspension or termination of providers of services from participation in the Medicaid program.
- An exception from the reductions and the target amount calculations for funds provided to States for health care provided through Indian Health Service facilities and for State Medicaid fraud control units.
- A change from the calendar year as a basis of comparison in determining the effect of a hospital cost review program on inpatient hospital costs to a 12-month period not necessarily coincident with the calendar year.
- The use of the Federal medical assistance percentage (FMAP) that was in effect for FY 81 for the target amount calculations for fiscal years 1982–1984.
- The carry-over from one quarter to the next of the amount by which a State exceeds the required level of anti-fraud and abuse recoveries necessary to qualify for the anti-fraud and abuse offset.

Following is a summary of the subsections of section 137(b) of Pub. L. 97-248 that require changes in the regulations:

Section 137(b)	42 CFR Part 433, Subpart E
15(A)	§ 433.205(c)(1).
(B)	§ 433.205(c).
(C)	§ 433.201.
(D)(ii)	§ 433.209.
(D)(iii)	§ 433.209.
(F)	§ 433.213.
16(A)	§ 433.217(c).
(B)	§ 433.217(b)(2).
(C)	§ 433.217(b)(3).
(D)	§ 433.217(b)(2).
(E)	§ 433.217(b).
27	§ 433.213(c).

III. Public Comments

A comment period was provided for both the proposed and final rules issued on September 30, 1981. We received a total of 34 sets of comments on various aspects of the regulations from State and local governments, two providers of health care services, several health related associations, a union and one individual. The vast majority of the comments were from the States and concerned the proposed rule on the circumstances under which recoveries from Medicare may be counted in third party liability recoveries during FY 82. Commenters also raised questions about the definitions of diverted funds and recoveries, as those terms relate to anti-fraud and abuse activities; the qualifications for hospital cost review programs; the method of computing anti-fraud and abuse recoveries, and the extent to which those recoveries may be carried forward from one quarter to the next for purposes of determining whether a State qualifies for an offset; and technical aspects of the computation of target amounts. A summary of the comments and our responses follows.

A. *Medicare as a liable third party (§§ 433.203, 433.213 and 433.215).* The current practices regarding recoveries from liable third parties are as follows. States reduce their Medicaid costs by predetermining obligations of liable third parties and offsetting the amounts paid on provider invoices (prepayment screens), or by retroactively identifying the obligations and collecting the appropriate amounts from third party payers. In the former case, the amounts involved are called cost avoidance; in the latter, they are commonly referred to as "pay and chase" collections. Both are generally considered recoveries from liable third parties.

If a Medicaid recipient is also eligible for Medicare, a claim from a provider is referred, either on a prepayment or post-payment basis, to the Medicare program. In these circumstances, Medicaid is responsible only for any deductible or coinsurance amount payable on behalf of the recipient. Being the payer of last resort, a Medicaid agency routinely transfers claims for services in these situations to the Medicare program.

In the proposed regulations (§ 433.215), we generally prohibited the inclusion of recoveries from Medicare in third party totals. However, we provided an exception for circumstances in which a State has paid a Medicaid claim, but subsequently discovers that the individual was also eligible for Medicare, and recovers the payment after referring the claim to Medicare. We also required that the recoveries must be auditable and have been reported to HCFA.

Sixteen sets of comments were received in response to the issues addressed in the proposed rule. The commenters objected to the proposal essentially in four areas:

Comment 1—Inconsistency with the statute and regulations. Many commenters maintained that the proposal violates sections 1902(a)(25) and 1903(s)(5)(A) of the Act (as enacted by section 2161 of Pub. L. 97-35), which address third party liability recoveries. They believe that, for purposes of including FY 82 third party liability recoveries in the offset calculation, section 1903(s)(5) defines third party recoveries as the total amount recovered or diverted on the basis of the third party activities that are mandated by section 1902(a)(25) of the Act. The latter section provides that State Medicaid agencies are to take all reasonable measures to ascertain the legal liability of third parties and to seek reimbursement to the extent of the liability. The commenters believe that there is nothing in these provisions or in their legislative history that justifies the exclusion of recoveries from Medicare to any extent in the offset calculation. They further believe that Congress has consistently demonstrated its understanding of the ways in which Medicare and Medicaid interrelate. Therefore, the commenters reason, because Congress did not explicitly exclude or limit Medicare as a source of third party liability recoveries for purposes of the FY 82 offset, the presumption must be in favor of treating Medicare as simply another third party payer.

Similarly, several commenters emphasized their belief that the definitions of third party and third party liability contained in the proposed rule are inconsistent with definitions existing elsewhere in Medicaid regulations. They point to the Medicaid quality control regulations at 42 CFR 431.800(b) that establish State plan requirements for monitoring third party liability activities, and to the definition located at 42 CFR 433.136 that defines third party as "any individual, entity or program that is or may be liable to pay all or part of the medical cost of injury, disease, or disability of an applicant * * *." The commenters argue that HCFA has steadfastly adhered to a policy that not only includes Medicare as a source of third party recoveries, but requires it. Therefore, they believe, the States are faced with incompatible instructions

that, on the one hand, require them to report recoveries from Medicare but, on the other, unjustifiably limit the inclusion of these recoveries for purposes of section 2161.

Response—The primary objective of Congress in enacting section 2161 was to reduce Federal expenditures. An additional objective, as discussed earlier, was to encourage additional efforts by the States in fraud and abuse detection. We believe that the same purpose underlies the provision concerning third party collections during FY 82. We realize that recoveries from Medicare are routinely included in third party totals under existing requirements in the statute and regulations. However, the net effect of including all recoveries from Medicare in the FY 82 third party totals under section 1903(a) of the Act would be to increase the number of States that would qualify for the offset against the section 1903(a) reductions. It would be inconsistent with congressional objectives to permit States to take credit for transferring all claims involving dual eligibility to the totally Federally funded Medicare program, and thereby decrease the intended effect of the reductions in Federal Medicaid payments on overall Federal spending. (See the Report of the House Committee on the Budget, H.R. Rep. No. 97–158, Vol. II, 97th Cong., 1st Sess. 287 (1981); and the Conference Report, H.R. Rep. No. 97–208, Book 2, 97th Cong., 1st Sess. 959 (1981)).

Furthermore, as explained below in our responses to related comments on this issue, information concerning possible dual Medicare-Medicaid eligibility is routinely accessible to the States. Therefore, to the extent that a State knows or should have known of dual eligibility, recoveries from Medicare may not be included in FY 82 third party totals for purposes of determining offsets under section 2161.

Comment 2—Advance knowledge of dual entitlement. In the proposed rule, we stated that we believe it was the intent of Congress, in enacting the third party provision in section 1903(a)(2)(C), to encourage additional efforts by the States against liable third parties. We stated that the States generally know beforehand which recipients are eligible for both Medicare and Medicaid and, that, therefore, we intended to limit recoveries from Medicare to situations in which a State is obligated to make a special effort to determine Medicare entitlement after it has paid a Medicaid claim. Commenters disputed our rationale concerning advance knowledge of dual eligibility and questioned the description of the exception in the regulations.

Commenters argued that State agencies cannot always anticipate which health care items or services will be covered by Medicare (especially Part B, Supplementary Medical Insurance, which covers physicians' and other medical services and supplies) and, in fact, do not know the answer until the Part B billing process is complete. Therefore, even if a State knows that a recipient is dually eligible for both Medicare and Medicaid, additional effort is often necessary to determine the liability of Medicare.

Concerning the exception, the commenters asserted that many situations require State agencies to pay for a recipient's care notwithstanding the fact that an agency knows or suspects the recipient to be eligible for Medicare. Therefore, the commenters maintain, to limit the exception to situations in which the State agency did not know about the dual eligibility ignores the practical reality of the relationship between Medicare and Medicaid.

These commenters urged us to amend the regulations to include *all* recoveries from Medicare in third party totals or, alternatively, to expand the exception to cover *all* cases in which Medicaid pays first and later recovers from Medicare.

Response—We have determined that we must adhere to the position described in the proposed rule. As explained below, dually entitled individuals are routinely identified and claims are routinely referred to Medicare for payment. The additional effort normally required on the part of the State to detect liable third parties and to seek recoveries is not required in these circumstances. We believe that it was the intent of Congress, in providing for the third party liability offset provision, to encourage additional efforts by the States against liable third parties other than the Medicare program.

We note, however, that two categories of collections from Medicare may be included in the third party recovery totals. The first category covers processing activities beyond the control of the State that result in a Medicare covered claim being paid by Medicaid. The second category covers situations in which a State pays a claim under the Medicaid program, and Medicare eligibility is in question but is later determined to be valid. We emphasize that these exceptions distinguish between those cases in which there is a real question of *Medicare eligibility*, and those in which the State must merely determine the extent of Medicare coverage. Hence, the situations mentioned by commenters that involve decisions about the extent of Part B coverage, for example, do not fall within the exception.

Concerning the basic question of whether States generally know beforehand of dual eligibility, we reiterate the following:

- HCFA makes available to all States (with or without buy-in or similar programs under sections 1843, 1902(a)(10) and 1903(a)(1) of the Act in which the States pay Medicare premiums for individuals) certain compilations of information (for example, the Carrier Alphabetic State File (CASF), the Health Insurance Beneficiary State Tape (BEST), and the Beneficiary and Earnings Data Exchange System (BENDEX)) that permit the States to determine whether an individual is eligible for both Medicare and Medicaid.
- If individuals are receiving Supplemental Security Income (SSI) under title XVI of the Social Security Act, they may also be eligible for Medicare. In this case, the Social Security Administration (SSA) makes SSI and Medicare entitlement information available to the States (Supplemental Security Income/State Data Exchange System (SDX)).
- Characteristics of Medicaid applicants such as age, the existence of a long-term disability, or an impairment of a certain nature such as end stage renal disease, help the States to identify individuals eligible for Medicare.

Comment 3—"Pay and chase" collection systems. Some commenters took the view that the exclusion of recoveries from Medicare from third party totals penalizes States that have developed effective processes, called cost avoidance systems, to ensure that third party liabilities, including Medicare, are fully recovered before a final Medicaid payment is made. States that have not undertaken these measures must employ a system in which liable third parties are not approached until after a Medicaid claim is paid. The latter type systems are commonly referred to as "pay and chase" and, the commenters believe, are not as cost effective as cost avoidance systems. The commenters allege, therefore, that "pay and chase" States will, in effect, be rewarded for being less effective because they will be able to include Medicare recoveries as a result of meeting the "additional effort" test implicit in section 2161.

Response—It is not our intent to penalize any State regardless of the types of claims processing systems employed. We believe that our policies are consistent with the intent of Congress to encourage additional efforts on the part of States to pursue liable third parties other than Medicare. In our view, the important aspect of the policy concerning recoveries from Medicare is that the recoveries may not be included if the State should have known of dual eligibility before a Medicaid claim is paid. If the claim of a dually eligible individual is paid because of circumstances beyond a State's control, or if Medicare eligibility is established after a claim is paid, recoveries from Medicare may be included. This is so regardless of whether a State has a mechanized or automated claims processing system or uses a "pay and chase" system.

Comment 4—Proposed definitions of third party and third party liability. Commenters believe that the definitions of third party and third party liability contained in the proposed regulations (§ 433.203) used terms that must be interpreted to include Medicare as a source of third party recoveries for purposes of section 1903(s). If this is so, the commenters continue, the definitions are inconsistent with § 433.215(c), which provides for the exclusion of Medicare. The proposed rule defined third party as "any individual, entity or program * * *" that might be liable. Third party liability was defined as "payment resources available from both private and public health insurance." Commenters assert that the use of the terms "program" and "public health insurance" necessarily include the Medicare program.

Response—We explicitly limited Medicare recoveries in § 433.215(c) of the interim final regulations. Therefore, we disagree that the regulations are unclear on this point. By way of explanation, however, we intend that third party liability recoveries from programs that provide health care to active duty or retired military personnel and their dependents may be included. We distinguish between these programs and Medicare on the basis that knowledge by the States of dual Medicare-Medicaid eligibility is facilitated, as explained above, by the coordinated exchange of data between HCFA and SSA on the one hand and the States on the other. Generally, there is not a comparable source of information available to the States concerning persons eligible for both Medicaid and benefits based on military service.

B. *Definition of diverted funds (§ 433.203).* For purposes of the anti-fraud and abuse offset, the statute (section 1909(s)(2)(C)) defines recoveries as the total amount that the "State demonstrates to the Secretary that it has recovered or diverted * * *."

In the definition of diverted funds in the interim final regulations (§ 433.203), and in the preamble to the regulations, we distinguished between routine monitoring screens in automated or mechanized claims systems and those put in place by the States as a result of surveillance and utilization review program actions or fraud control unit actions. We stated that amounts saved by application of the first category of screening procedures are not considered to be "diverted funds," while amounts saved by application of the second category are.

We stated in the preamble to the regulations that examples of qualified screens are those that relate to one time only procedures (for example, hysterectomies), inappropriate services for provider specialty, and inappropriate places of service. Excluded from the definition were costs diverted as a result of—

- Routine audits or reviews of cost reports;
- Detecting duplicate payments or applying normal utilization claims processing screens;
- Denying claims because of prior authorization or general application of mechanized prepayment screens;
- Correcting occurrences of provider overpayments resulting from State agency or fiscal agent administrative error;
- Convicting or suspending providers from Medicaid because of fraud or abusive practices;
- Restricting recipients to receive services from certain providers (recipient lock-in programs).

Comment 1—Convicted or suspended providers. Many commenters objected to our excluding from the definition of diverted funds those estimated savings to a State's Medicaid program that might be imputed to the exclusion or suspension of a provider from participation in Medicaid because of fraud or abusive practices. The commenters asserted that future savings do result from these activities because they help to remove from participation in the program the minority of providers whose illicit actions account for a major portion of misspent Medicaid funds. The commenters maintained that an acceptable method of calculating the savings could be developed for inclusion in the regulations.

Response—Under the authority of section 137(b)(15)(F) of Pub. L. 97–248, we are revising the definition. As provided by Pub. L. 97–248, we will count these imputed savings for the period of the exclusion, suspension or termination (see sections 1128, 1160, 1862 (d) and (e), 1866(b)(2), 1902(a)(39) or 1903(i)(2) of the Act), or for a period of one year from the effective date of the exclusion, suspension or termination, whichever is shorter. The imputed value to be included in each quarter's fraud and abuse totals will be prorated based on a projected amount of fraudulent or abusive claims, as determined by a reasonable statistical sample of the affected provider's annual Medicaid claims for the most recent year. We will not count the total amount of claims properly submitted by these providers because their patients may seek to receive services from other providers. For example, assume that a State suspends for six months a provider whose annual Medicaid claims total $100,000, as indicated by a sample. The State determines that only $80,000 of the $100,000 in payments to the provider were proper. The $20,000 in improper payments must be prorated over four quarters (one year). In this case, therefore, the State may include $5,000 in its anti-fraud and abuse totals in each of the two quarters during which the provider is suspended. If the period of suspension does not coincide with a fiscal quarter, the improper payments must be prorated accordingly. This means that a suspension period for five months in the above example would result in $5,000 in imputed savings in one quarter (three months) and $3,332 in the next quarter (two months). Adopting the figure in the above example for a provider suspended for a period of more than one year would result in the State having imputed savings of $5,000 in each quarter for one year only (for a total of $20,000).

In order to be included, the imputed savings must be reported quarterly and must be adequately documented so as to have a clearly defined audit trail for review.

Comment 2—Lock-in programs. Strong support was also indicated for inclusion in anti-fraud and abuse totals of savings imputed to recipient lock-in programs. In effect, these programs restrict certain recipients to receive services from certain providers and thereby curtail, for instance, the tendency of those recipients to visit multiple providers seeking advice about the same ailment. Commenters maintained that these programs result in substantial savings and constitute an

important aspect of abuse detection activities.

Response We have decided to accept these comments. Imputed savings from lock-in programs will be calculated in the same manner as savings attributable to the exclusion, suspension or termination of a provider. The savings will be the difference between the total claims for the recipient on an annual basis and the total of those claims determined by the State to be proper. However, the amount derived from this calculation must be—(1) Prorated and reported for the period during which the recipient is restricted to a certain provider, but not to exceed one year (four quarters), beginning with the quarter after the quarter in which the restriction is effective; (2) based on programs that are in compliance with the procedures for lock-in programs that are described in HCFA's regulations at 42 CFR 431.54(e); (3) based on restriction of recipients, on an individual basis, to specific providers; and (4) adequately documented. We will not count imputed savings based on lock-in programs that are directed at classes of recipients.

Comment 3—Prepayment screens. Fifteen commenters expressed the view that the interpretation given to the definition of diverted funds in the preamble of the interim final rule was too narrow concerning the program savings that can be realized by the application of prepayment screens. As indicated above, the interim final regulations defined diverted funds to mean amounts saved as a result of applying, (1) prepayment screens to claims submitted by a provider identified as possibly engaging in fraudulent or abusive practices; or (2) special mechanical or automated prepayment screens that are designed to detect fraud and abuse to claims from all providers or a designated category of providers. The commenters believe that the definition should be expanded to include screens for duplicate claims, frequency and quality of services limitations screens, and suspended provider screens. Furthermore, they insisted that when fraudulent or abusive practices are uncovered as part of a routine audit, any resulting savings should be considered as diverted funds.

Response—After carefully reviewing these comments and the recommendations of a Medicaid Technical Advisory Group, we have determined that the interpretation of the definition should be expanded to include screens designed to detect the following:

- Fragmented claims—Claims for multiple procedures or services that should be billed singly or in combination (for example, split prescriptions or multiple claims resulting from one surgical procedure instead of one comprehensive claim).
- Compatability of services—Inappropriate combinations of medical services or procedures, or of services, procedures or diagnoses with a patient's age, sex or other characteristics.
- Medical necessity of services.
- Overutilization of services and program benefits.
- False billings.

However, savings resulting from the following types of screens may not be included in anti-fraud and abuse diverted funds:

- Screens that review the qualifications of providers or recipients to participate in the program.
- Covered services screens that identify claims for services not covered by the program.
- Reimbursement screens that compare charges to maximum reimbursement levels and make appropriate adjustments.
- Third party liability screens designed to identify parties that are liable to pay for a claim before Medicaid.
- Data completeness and validity screens.

The first category of screens represents an additional effort to detect fraud or abuse while the second category is illustrative of routine monitoring screens that are required by good business practices. Furthermore, under sections 1903 (a) and (r) of the Act, HCFA approves the use of Medicaid Management Information Systems by the States and requires that the second category of screens be part of each State's basic system. Currently, 37 States have approved systems in operation, and nine others soon will have systems in use.

We note, however, that before amounts may be included in the total of costs diverted as a result of the application of screens, claims must actually be denied or partially denied. Costs involved in claims that are simply rejected by the processing system may not be included. This is because many prepayment screens result in rejections of claims because of provider clerical errors, and because savings are not achieved until claims identified for further processing are actually processed and denied.

Duplicate claims and frequency or quality of services limitation screens are part of the routine processing system and are, in fact, coverage determinations. None of these types of screens are considered to be special anti-fraud and abuse screens. Duplicate payment screens particularly are a standard claims processing technique and constitute good business practice. Suspended provider screens are also part of the routine claims processing system.

Regarding routine audits, if fraud or abuse is uncovered as a result of these measures and the State initiates a Medicare/Medicaid Abuse Report (HCFA–51) to track the case as a full scale investigation, actual recoveries may be included by the State in its calculation of total anti-fraud and abuse recoveries. However, we believe it would be inappropriate to allow the States to estimate savings based on routine audits, and then to include the estimated savings in diverted funds totals. This would result in the savings being imputed to fraud and abuse detection activities. Here again we draw a distinction between those extra efforts that are designed to detect or act upon fraudulent or abusive practices and those that are good business practices and, therefore, routine in nature.

C. *Definition of recoveries (§ 433.203).* In the definition of recoveries in the interim final regulations, we stated that the term means Medicaid funds which were paid to a provider in excess of what the provider is entitled to, and which have been collected or diverted by the State. In addition, we stated that amounts of fines, penalties, and unexecuted judgments may not be included in the calculations concerning funds recovered through anti-fraud and abuse activities.

Comment 1—Funds diverted or collected. Several commenters suggested that HCFA should revise the definition of recoveries to clarify the difference between funds diverted and funds that have been paid in error and then recouped through collections.

Response—We agree that the definition was ambiguous and have rewritten it to state that recoveries, for purposes of anti-fraud and abuse totals, may include either diverted funds (also defined in § 433.203) or amounts collected.

Comment 2—Fines and penalties. Two commenters urged that HCFA's position be changed regarding fines and penalties. They believe that all funds recovered by a State in connection with program activities, regardless of the source, should be included because Medicaid program expenditures are thereby reduced.

Response—We disagree with this comment. Fines and penalties are amounts that accrue to the general

revenues of a State rather than to the State's specific programs. Therefore, the amounts thus recovered cannot be construed as helping to reduce Federal expenditures. We note, however, that amounts recovered from executed judgments that represent a recovery of Medicaid funds, and that are reported to HCFA, may be included in anti-fraud and abuse recoveries.

D. *Computation of anti-fraud and abuse recoveries (§ 433.213).* In the interim final regulations (§ 433.213(a)), we stated that, to qualify for the anti-fraud and abuse offset, a State's recoveries for a quarter must equal or exceed one percent of the total Federal payment for that quarter. In addition, we stated in § 433.213(c) of the interim final regulations that amounts of anti-fraud and abuse recoveries in a quarter that exceed one percent of the appropriate Federal payment may be carried forward for one quarter only.

Comment 1—Total recoveries. Eight commenters raised the question of whether the language of §433.213(a) requires a comparison between the total *State and Federal share* of anti-fraud and abuse recoveries and the Federal payment to the State in a quarter, or only between the *Federal share* of recoveries and the Federal payment. The commenters professed belief that the former is the correct interpretation because section 1903(s)(2)(C) of the Act, as enacted by section 2161, states that the *total* amount of the State's recoveries must equal or exceed one-percent of the applicable *Federal* payment, and that clarification is necessary to calculate accurately the anti-fraud and abuse offset. For example, if the quarterly Federal payment to a State is $100,000,000 and total anti-fraud and abuse collections equal $1,200,000 with the Federal share of the collections being $800,000, under the State's interpretation, the State would qualify for the offset (that is, $1,200,000 divided by $100,000,000 equals 1.2 percent). On the other hand, if only the Federal share of the total collections was used in the computation, the State would not qualify (that is, $800,000 divided by $100,000,000 equals .8 percent).

Response—Initially, we interpreted section 1903(s)(2)(C) of the Act to the effect that only the Federal share of recoveries should be compared to the Federal payment. After reviewing the statute and supporting committee reports, we agree that the commenters' interpretation of the statute is correct. Therefore, we amended the regulations to show that the basis for comparison is a State's total Medicaid-related anti-fraud and abuse recoveries including both the Federal and State share.

Comment 2—Recoveries from all State programs. Commenters also maintained that the total amount of a State's third party and anti-fraud and abuse recoveries should include recoveries involving State programs other than Medicaid but related to Medicaid (for example, general assistance medical programs).

Response—Section 1903(s) of the Act, as enacted by section 2161 of Pub. L. 97–35 is an initiative by Congress to contain Medicaid costs and to encourage the States to undertake greater efforts to combat fraud and abuse in that program. Therefore, we believe that Congress intended that only Medicaid recoveries could be used to qualify a State for the anti-fraud and abuse offset.

Comment 3—Carry forward. Disagreement with HCFA's policy that anti-fraud and abuse recoveries may be carried forward for one quarter only was registered by five commenters. They contend that HCFA's interpretation of the statute is incorrect, and that the excess of each quarter's anti-fraud and abuse recoveries may be carried forward cumulatively, for purposes of calculating whether the one percent threshold is met, until the excess is exhausted.

Response—In section 137(b)(27) of Pub. L. 97–248, Congress amended section 1903(s)(5)(B) of the Act (originally enacted by section 2161 of Pub. L. 97–35) to provide that the excess for a State's anti-fraud and abuse recoveries over the amount required to qualify the State for the anti-fraud and abuse offset for that quarter is to be carried forward to the following quarter "or quarters * * *" Therefore, we have amended § 433.213 to that effect.

E. *Hospital cost review programs (§ 433.209).* Section 1903(s)(3) of the Act, as enacted by section 2161 of Pub. L. 97–35, provided specific criteria that hospital cost review programs must meet in order to qualify a State for the offset under that provision. The criteria are as follows:

- The program must have been established by statute, and must have been in effect on July 1, 1981, and at the beginning of the quarter in which offset against the reduction is granted.
- The program must be operated directly by the State.
- The program must apply to substantially all non-Federal acute care hospitals.
- Under the program, the State must review all non-Medicare revenues or expenses for inpatient hospital services, or at least 75 percent of all revenues or expenses for inpatient hospital services, including those under Medicare.
- The State must make satisfactory assurances to the Secretary that the program provides substantially equitable treatment to all payers, hospital employes and hospital patients.
- The State's rate of increase in aggregate inpatient hospital costs per capita or per admission on a calendar year basis must be at least two percentage points lower than the rate of increase in all States without qualifying programs. Based on the language of section 1903(s)(3)(D) of the Act, as originally enacted in section 2161 of Pub. L. 97–35, the interim final regulations provided that the period of comparison would be the most recent calendar year or, at the State's option, the two or three calendar year period ending at least nine months before the quarter covered by the Federal payment. However, as noted above, section 137(b)(15)(D) of Pub. L. 97–248 amended section 1903(s)(3)(D) by deleting the reference to a "calendar year" and replacing it with a reference to "the most recent year which shall consist of a 12-month period to be determined by the Secretary. * * *" This change will allow HCFA to use in this calculation American Hospital Association data on annual hospital inpatient costs that correspond, not to the calendar year, but to a year ending on September 30.

Comment 1—Effective date of the program. One commenter questioned whether a hospital cost review program merely had to be in existence on July 1, 1981 or whether the program had to meet all of the criteria on that date.

Response—We stated in the preamble to the interim final regulations that we will consider a hospital cost review program to have been "in effect" on July 1, 1981 if, on that date, rules or regulations for the conduct of the program had been issued and were enforceable.

We believe that Congress intended to require that a program meet the necessary criteria on July 1, 1981 because, in any practical sense, the alternative would be to permit the State to perfect their programs without any time limitation. If this were the case, it would have been unnecessary for Congress to prescribe an effective date.

Comment 2—Determination of State qualification. Several commenters requested clarification of HCFA's procedures to determine whether a State

meets the qualifications for the hospital cost review program offset.

Response—If a State believes that its hospital cost review program qualifies for the offset, it may submit notification to HCFA specifying how and when the program met the criteria. HCFA will review the information and notify the State of its decision. If the State disagrees with HCFA's assessment, it may appeal the matter to the Department's Grant Appeals Board under 45 CFR Part 16 in conjunction with an appeal of a determination by HCFA of allowable funding on a grant award. If HCFA denies the offset because the rate of increase in hospital inpatient costs in the State is too great, as determined by the application of American Hospital Association (AHA) data, the State may submit other data to HCFA for consideration.

F. *Target amounts (§ 433.217).* As discussed earlier, section 1903(t) of the Act, as enacted by section 2161 of Pub. L. 97–35, contains provisions that entitled the States to an offset against reduced Federal payments if certain targeted levels of Medicaid costs are achieved. Section 1903(t) provides for establishment of target amounts of Federal expenditures in each State's Medicaid program for fiscal years 1982–1984. A State is entitled to a dollar-for-dollar offset against the reductions under section 1903(s) if the total Federal payments required by a State for a fiscal year fall below the projected target amount. However, each year's offset applies only up to the total of the applicable reduction imposed by section 1903(s).

We stipulated in the interim final regulations that the calculation of the target amounts may not take into account: (1) Interest paid by a State under section 1903(d)(5) on disallowances of State claims; (2) reductions in payments under section 1903(s), as enacted by section 2161; (3) supplementary payments received by a State for spending less than the target in the previous year; or (4) adjustments for claims relating to expenditures before October 1, 1980.

Under sections 1101(a)(8) and 1905(b) of the Act, the percentage of the Federal share of each State's Medicaid expenditures (Federal Medical Assistance Percentage (FMAP)) is recalculated every two years according to a specified formula. A recalculation of the FMAP occurred in fiscal year 1982 and another is scheduled for fiscal year 1984. In recognition of this, Congress provided in section 1903(t)(3), as amended by section 137(b)(16)(E) of Pub. L. 97–248, that the FMAP rate that was in effect for fiscal year 1981 is to be used in computing Federal expenditures for fiscal year 1982–84 to determine appropriate supplemental payments under the target amount provisions. The Conference Report for Pub. L. 97–35 (H.R. Rep. No. 97–208, Book 2, 97th Cong., 1st Sess. (1981)) pointed out (p. 960) that section 1903(t)(3) was intended to avoid rewarding a State simply because of a change in the share of its expenditures paid by the Federal government.

At the end of the fiscal year, before the issuance of the initial award for the first quarter of the next year, the State's total expenditures for the fiscal year will be estimated by HCFA, using the applicable fiscal year 1981 FMAP rate, based on the available actual expenditure data and the State's budget estimate. To the extent that the Federal share of the State's total estimated expenditures is under the target amount and section 1903(s) reductions have not been offset, the State is entitled to a supplemental adjustment. For example, if we use $3,600,000 as the State's estimated Federal share for fiscal year 1982, a target amount of $3,650,000 and $36,000 as reductions that have not been offset, we have the following calculation:

Target amount—fiscal year 1982	$3,650,000
Estimated Federal share	3,600,000
Under target amount	50,000
Reductions not offset	36,000
Less amount used as supplemental award adjustment	36,000

Because $36,000 is the lower of the two amounts that are compared (the amount by which the Federal share of the State's expenditures are under its target amount, and the amount of reductions not offset), this would be the supplemental figure awarded to the State in this example. Upon determination of the final expenditure amount for the fiscal year, HCFA will make an adjustment in the appropriate grant award, as described above.

Comment 1—Changes in a State's Federal share. Several commenters pointed out that if a State receives increased Federal payments as a result of a recalculation under the section 1905(b) formula, the ability of the State to meet its target amount would be adversely affected because the target amount would increase in proportion to the increase in Federal payments. The reverse effect would be true for States whose rate of Federal payments has dropped.

Response—Congress specifically provided in section 137(b)(16)(E) of Pub. L. 97–248, which amended section 1903(t)(3) of the Act, that the calculations of the Federal share of expenditures for FY 82–84 are to be made using the FMAP in effect for FY 81. We have amended the regulations accordingly.

Comment 2—Actual versus projected expenditures. Commenters believe that the target amounts should be based on actual expenditures rather than on projected expenditures.

Response—We are unable to act upon this comment because, once again, the statute provides specific direction. Section 1903(t)(1)(A) of the Act clearly calls for target amounts to be based on the last *estimate* of a State's Federal share of Medicaid expenditures received by HCFA before April 1, 1981.

Comment 3—Cash flow. Commenters objected to an annual computation of the target amount offset. They suggested that cash flow problems encountered by the States would be alleviated if the dollar-for-dollar offset was available to the States on a quarterly basis.

Response—In section 1903(t)(2) of the Act, Congress provided that the amount of Federal payments to which a State is entitled for the *first quarter of a fiscal year* is to be supplemented by the amount by which the Federal share of expenditures under the State's plan for the *previous fiscal year* is under the target amount for that fiscal year. Because of the specificity contained in the statute, we are unable to implement a different approach in the regulations.

Comment 4—Indian Health Service Funds. Two commenters requested clarification concerning the effect of section 2161 on Federal payments for Indian Health Service (IHS) facilities under section 1911 of the Act. The commenters wanted to know whether the progressive reductions in Federal payments would be applied to Federal payments for IHS facilities, and whether these payments would be included in calculations of a State's target rates.

Response—Although Congress did not specifically deal with this question in section 2161 of Pub. L. 97–35, it provided in subsections (15)(B) and (16)(A) of section 137(b) of Pub. L. 97–248 that the reductions in Medicaid payments and the target amount provision do not apply to Federal payments for health services provided through IHS facilities. (See also section 118 of Pub. L. 97–92, as extended by Pub. L. 97–161.) Therefore, we are amending §§ 433.205 and 433.217 to that effect.

IV. Summary of Changes in the Regulations

To summarize, as a result of public comments, policy decisions, and changes to the law contained in section

137(b) of Pub. L. 97–248, we are making the following changes in the regulations:

- Definitions of third party and third party liability are being added to § 433.203, and § 433.215 is being added to describe the conditions under which recoveries from Medicare may be included in third party liability totals during FY 82, for purposes of the combined anti-fraud and abuse and third party liability offset.
- The definition of diverted funds in § 433.203 is being changed to include imputed savings based on the exclusion, suspension or termination of providers and based on lock-in programs.
- Sections 433.205 and 433.217 are being revised to state that the reductions in Medicaid payments and the target amount provisions do not apply to Federal payments for health services provided by IHS facilities or to payments to States for State Medicaid fraud control units.
- Section 433.213 is being changed to clarify that calculations of anti-fraud and abuse recoveries include both the Federal and State share of Medicaid related recoveries, and to state that the amount by which a State exceeds the level of anti-fraud and abuse recoveries required to qualify for the anti-fraud and abuse offset may be carried forward to the next quarter until it is exhausted.
- In § 433.209, the reference to the calendar year period of comparison used by HCFA to determine the annual rate of increase in hospital inpatient costs in a State with a hospital cost review program is being removed.

In addition, we are making technical conforming changes made necessary by section 137(b) of Pub. L. 97–248 as follows:

- We are amending § 433.201(b) to clarify that the reductions apply only to the District of Columbia and to the States with Medicaid programs "in operation" as of July 1, 1981. (See section 137(b)(15)(C) of Pub. L. 97–248.)
- Section 433.205(c)(1) is being amended to state that payments to a State for expenditures made before FY 82 are not subject to the reductions in Medicaid payments. As originally enacted, section 1903(a)(1)(A) of the Act provided that expenditures prior to FY 81 were not affected. (See section 137(b)(15)(A) of Pub. L. 97–248.)
- The language of § 433.217(b) is being amended to clarify that adjustments to target amount calculations are to be based on changes, which occur during the Federal fiscal year (October 1–September 30), in the medical care index expenditure category of the Consumer Price Index for all urban consumers (U.S. city average) published by the Bureau of Labor Statistics. (See sec. 137(b)(16)(D) of Pub. L. 97–248.)

V. Reporting Requirements

Sections 433.209, 433.213 and 433.215 contain collection of information requirements. The public is not required to comply with these collection of information requirements until the Office of Management and Budget approves these requirements under section 3507 of the Paperwork Reduction Act of 1980. A notice will be published in the **Federal Register** when approval is obtained.

VI. Impact Analyses

A. *Executive Order 12291.* We have determined, in accordance with section 1(b) of E. O. 12291, that these final regulations do not constitute a major rule. At this time, we are unable to project the cost effect of the decisions to include in diverted funds imputed savings based on lock-in programs and suspension/termination of providers, and to include in the fraud and abuse offset calculation the Federal share of a State's fraud and abuse recoveries. However, we estimate that approximately one quarter of the States will not qualify for the FY 82 offset based on a combination of anti-fraud and abuse and third party liability recoveries because of the decision to limit the extent to which recoveries from Medicare may be included in third party totals. Federal payments that may be saved as a result of this decision amount to an estimated $46 million in FY 82. This estimate is below the threshold figure of $100 million contained in E. O. 12291 for major rules.

B. *Regulatory Flexibility Act.* The Secretary certifies under 5 U.S.C. 605(b), enacted by the Regulatory Flexibility Act of 1980 (Pub. L. 96–354), that these final regulations will not have a significant impact on a substantial number of small entities.

As defined by the Regulatory Flexibility Act, the term "small entities" includes "small governmental jurisdictions." The latter term is defined as local governments (cities, counties, towns, townships, villages, school districts, or other special districts) with a population of less than fifty thousand persons. State governments are not included in this definition.

As a consequence of the reductions in Federal payments mandated by section 2161 of Pub. L. 97–35, as amended by section 137(b) of Pub. L. 97–248, the States may take actions that may have an economic impact on some physicians, hospitals or other providers of services. Any impact that does occur, however, will result from State decisions and will be difficult to assess in any cumulative sense. Moreover, the direct impact of these regulations is on State governments, which do not qualify as small entities. Therefore, a regulatory flexibility analysis is not being prepared.

VII. Waiver of Prospective Effective Date

We customarily provide a prospective effective date, for a substantive rule, of 30 days after publication in the **Federal Register.**

As explained above, this final rule completes the regulations necessary under section 2161 of Pub. L. 97–35, as amended by section 137(b) of Pub. L. 97–248, and finalizes the decision concerning third party liability recoveries that applies during FY 82 only. As a practical matter, if we provided a delayed effective date, we would be unable to implement section 2161 fully before the end of FY 82. Therefore, we find that good cause exists to waive the prospective effective date and to make these regulations effective on publication.

VIII. Waiver of Proposed Rulemaking for Pub. L. 97–248 Provisions

The Administrative Procedure Act also requires that agencies normally follow notice of proposed rulemaking procedures when issuing regulations (5 U.S.C. 553(b)). The provisions of these final regulations are based on requirements set forth explicitly in section 2161 of Pub. L. 97–35, as amended by section 137(b) of Pub. L. 97–248. As discussed in detail above, we issued interim final regulations, supplemented by a proposed regulation, to implement section 2161. A period for public comment was provided for both the interim final and proposed regulations. As to those regulations, therefore, there is no further notice required under the APA.

Moreover, we believe that the APA notice procedure may be waived for the changes in regulations mandated by section 137(b) of Pub. L. 97–248. These changes may be placed in two categories. The first consists of editorial and technical changes for which notice and comment under the APA would be unnecessary. The second category consists of changes that have an important impact on implementation of the reductions in Medicaid payments,

but which are required by clear statutory provisions. These changes are discussed above in section II of this preamble (changes required by Pub. L. 97–248).

Aside from the exceptions provided for IHS and Medicaid fraud control unit funds (both of which are of benefit to the States), the subject matter addressed by section 137(b) was analyzed in the interim final rule which, as noted, was issued subject to a public comment period, and we have considered those comments in developing the amendments now being adopted. In any case, the requirements contained in the amendments enacted by section 137(b) are specific, and HCFA is therefore not required to make significant policy interpretations in regulations. Moreover, Congress provided in section 137(d) of Pub. L. 97–248 that the provisions of section 137(b) are to be effective as if they had originally been included in section 2161 of Pub. L. 97–35 when it was enacted on August 13, 1981. Lastly, it is essential that these regulations be finalized in order to complete actions necessary on the FY 82 reductions. For these reasons, we believe that proposed rulemaking procedures are unnecessary and contrary to the public interest, and that there is good cause to waive them.

IX. List of Subjects in 42 CFR Part 433

Administrative practice and procedure, Assignment of rights, Claims, Contracts (agreements), Cost allocation, Federal financial participation, Federal matching provision, Fraud and abuse, Grant-in-Aid program—health, Hospital cost review program, Mechanized claims processing and information retrieval systems, Medicaid, Reductions in medicaid payments, State fiscal administration, Third party liability, Unemployment levels.

PART 433—STATE FISCAL ADMINISTRATION

42 CFR Part 433 is amended as follows:

A. The authority citation for Part 433 is revised to read as follows:

Authority: Secs. 1102, 1902(a)(4), 1902(a)(25), 1903(d)(2), 1903(o), 1903(p), 1903(s), 1903(t), and 1912 of the Social Security Act (42 U.S.C. 1302, 1396a(a)(4), 1396a(a)(25), 1396b(d)(2), 1396b(o), 1396b(p), 1396b(s), 1396b(t), and 1396k), unless otherwise noted.

B. The table of contents for Part 433 is amended as follows:

1. The table of contents for Subpart A is amended by revising the title of § 433.8 to read as follows:

Subpart A—Federal Matching Provisions

433.8 Implementation of progressive reductions in FFP for fiscal years 1982–1984.

2. The table of contents of Subpart E is amended by removing the bracketed word "[Reserved]" from the title of § 433.215.

C. Subpart A is amended by revising § 433.8 to read as follows:

Subpart A—Federal Matching Provisions

§ 433.8 Implementation of progressive reductions in FFP for fiscal years 1982–1984.

Procedures for the implementation of progressive reductions in FFP for fiscal years 1982–1984, authorized under sections 1903 (s) and (t) of the Act, are described in Subpart E of this part.

D. Subpart E is amended as follows:

Subpart E—Reduction in Total Federal Payments to the States for Fiscal Years 1982–1984

1. Section 433.201 is revised to read as follows:

§ 433.201 Statutory basis and scope.

(a) *Basis.* Sections 1903 (s) and (t) of the Act (as enacted by section 2161 of Pub. L. 97–35 and amended by section 137(b) of Pub. L. 97–248) provide for progressive reductions in Federal payments to the States, in fiscal years 1982 through 1984.

(b) *Scope.* The reductions apply only to the 49 States with Medicaid programs in operation under State plans approved by HCFA as of July 1, 1981, and to the District of Columbia. Special funding provisions in § 433.10 apply to Puerto Rico, Guam, the Virgin Islands, the Northern Mariana Islands and American Samoa.

2. Section 433.203 is amended by revising the definitions of "diverted funds" and "recoveries," and adding definitions of "third party" and "third party liability," in alphabetical order, to read as follows:

§ 433.203 Definitions.

For purposes of this subpart—

* * * * *

"Diverted funds" means program funds not spent because claims were denied or reduced in amount as a result of the following:

(1) Procedures under § 431.54(e) of this chapter that restrict recipients, on an individual basis as distinct from a class or recipients, to obtain Medicaid services or items from designated providers.

(2) Exclusion or suspension from participation in Medicaid, or termination of agreements, of providers engaging in fraudulent or abusive practices.

(3) Use in claims processing systems of prepayment screens that are—

(i) Applied to all or a particular portion of the claims submitted by a provider specifically identified for monitoring with respect to possible fraud or abuse; or

(ii) Specifically designed to detect fraud or abuse and applied to all claims submitted by all providers or by a general category of providers.

* * * * *

"Recoveries" means amounts, incorrectly paid to providers of services under title XIX of the Act, applicable regulations and the State plan, that are actually collected, or amounts diverted by a State agency or Medicaid fraud control unit. The amounts must have been reported to the Federal government and may not include fines, penalties and unexecuted judgements established by Federal, State or local courts or administrative bodies.

"Third party" means any individual, entity or program that is or may be liable to pay all or part of the medical costs of injury, disease or disability of an applicant or recipient.

"Third party liability" means payment resources, available from both private and public health insurance, and other liable third parties, that can be applied toward Medicaid recipients' medical and health benefit expenses.

3. Section 433.205 is amended by revising the introductory language of paragraph (c), revising paragraphs (c)(1) and (c)(2), and adding new paragraphs (c)(3) and (c)(4) to read as follows:

§ 433.205 Reductions in total Federal payments.

* * * * *

(c) *Amounts not affected by reductions.* HCFA will not apply the progressive reductions to—

(1) Payments to a State for expenditures made before fiscal year 1982;

(2) Supplementary payments made to a State resulting from its having incurred fewer expenditures than its target amount, described in § 433.217;

(3) Payments to a State under § 433.10(c)(2) of this Part for services provided through Indian Health Service facilities; or

(4) Payments to a State under Subpart D of Part 455 of this chapter for a State Medicaid fraud control unit.

4. Section 433.207 is amended by reprinting the introductory language and revising paragraph (c) to read as follows:

§ 433.207 Offsets against reductions.

HCFA will decrease the reduction specified in § 433.205 by one percentage point for a quarter for a State, for each of the following three conditions that the State meets:

* * * * *

(c) *Fraud and abuse and third party liability recoveries.* For the quarter before the quarter covered by a Federal payment, recovery through anti-fraud and abuse initiatives, described in § 433.213, of an amount equal to one percent of the Federal payment due to the State in that previous quarter. During fiscal year 1982 only, this total may include recoveries from liable third parties (see § 433.215).

5. Section 433.209 is amended by reprinting the introductory language in paragraph (b), revising paragraph (b)(6), and removing the note concerning the effective date, as follows:

§ 433.209 Qualifications for offset based on hospital cost review programs.

* * * * *

(b) The State must provide HCFA with assurances of equitable treatment, under the State's cost review program, for hospital employees and patients, and for all payers, including Federal and State programs, that pay hospitals for inpatient hospital services. In addition, in order to qualify, a hospital cost review program must—

* * * * *

(6) Result in an annual rate of increase in aggregate hospital inpatient costs per capita, or per admission, in the State that is at least two percentage points less than the rate of increase in all States without qualifying programs. A State may meet this requirement based on performance during the most recent one, two, or three year period ending at least nine months before the quarter covered by the Federal payment.

6. Section 433.213 is amended by revising paragraph (a), reprinting the introductory language of paragraph (b), revising paragraphs (b)(1) and (b)(2)(ii), revising paragraph (c) and redesignating it as paragraph (d), adding a new paragraph (c), and removing the note concerning the effective date, as follows:

§ 433.213 Offset based on fraud and abuse recoveries.

(a) *General policy.* HCFA will decrease the reduction under § 433.205 by one percentage point for each quarter in which the State demonstrates that its total Medicaid-related anti-fraud and abuse recoveries (and third party liability recoveries for fiscal year 1982 only (see § 433.215)), for the quarter before the quarter covered by the Federal payment, are equal to one percent of the Federal payment due to the State in that previous quarter. For purposes of calculating the one percent, HCFA will not include in this total any supplementary payments due to a State resulting from the State's having spent less than its target amount, described in § 433.217.

(b) *Fraud and abuse recoveries.* For purposes of paragraph (a) of this section, fraud and abuse recoveries—

(1) Must be documented by the State to the satisfaction of HCFA; and

(2) May include diverted funds or funds recovered as a result of—

(i) * * *

(ii) Audit activities that are initiated as a result of a suspicion or complaint of fraud or abuse (including any amounts recovered as restitution in civil or criminal litigation resulting from these audit activities, but not including fines, penalties, unexecuted judgments established by Federal, State, or local courts or administrative bodies, or fraud and abuse uncovered through routine audits); and

(iii) * * *

(c) *Time limits applicable to diverted funds.* For purposes of determining the amount of a State's anti-fraud and abuse recoveries for a fiscal year, HCFA will prorate diverted funds as follows:

(1) *Lock-in programs.* The amount of diverted funds from lock-in programs is based on the difference between an annual total of claims for an individual recipient and the total of those claims determined by the State to be proper. HCFA will prorate this amount over the period of the restriction or for a period of four quarters, whichever is shorter, beginning with the quarter after the quarter in which the recipient is restricted to a designated provider.

(2) *Suspension or termination of providers.* The amount of diverted funds based on the exclusion, suspension or termination of providers from participation in the Medicaid program is a projected amount of fraudulent or abusive claims, as determined by a statistical sample of the provider's Medicaid claims for the most recent year. HCFA will prorate this amount over the period of the provider's exclusion, suspension or termination, or for a period of four quarters, whichever is shorter.

(d) *Procedures for carrying forward fraud and abuse recoveries.* For purposes of paragraph (a) of this section, HCFA will carry forward, from one quarter to the next, the amount by which a State demonstrates that its fraud and abuse recoveries exceed one percent of the total Federal Medicaid expenditures for the quarter covered by the Federal payment.

(46 FR 48001, Sept. 30, 1981; 46 FR 54744, Nov. 4, 1981)

7. A new § 433.215 is added to read as follows:

§ 433.215 Third party liability recoveries.

(a) *Applicability in fiscal year 1982 only.* For fiscal year 1982 only, for purposes of determining whether a State is entitled to the offset under § 433.213, HCFA will add to the total Medicaid-related anti-fraud and abuse recoveries, funds saved as a result of recoveries from liable third parties under procedures described in Subpart D of this Part, except as provided in paragraph (c) of this section.

(b) *Conditions for inclusion of third party liability recoveries.* For purposes of paragraph (a) of this section, HCFA will include recoveries for liable third parties if the recoveries—

(1) Can be validated by audit; and

(2) Have been reported to the Federal government.

(c) *Recoveries from the Medicare program.*—(1) *General policy.* For purposes of paragraph (a) of this section, recoveries from liable third parties may not include recoveries from the Medicare program, except those based on claims paid by Medicaid because the State did not know that the individual was entitled to both Medicare and Medicaid.

(2) *Examples of excluded recoveries.* Recoveries from Medicare that are excluded are based on those cases in which the State knows, prior to the payment of a claim, that the individual is entitled to Medicare. Examples include situations in which—

(i) The State is paying Medicare premiums for the individual under State buy-in agreements or otherwise (see Subparts B and I of Part 405 of this chapter);

(ii) The individual is receiving Supplemental Security Income (SSI) benefits under title XVI of the Act; or

(iii) The State has access to or has received information from the Federal government that identifies individuals entitled to Medicare.

8. Section 433.217 is amended by revising paragraphs (b)(2) and (b)(3), redesignating current paragraph (c) as paragraph (d) and adding a new paragraph (c). Newly redesignated paragraph (d) is further amended by revising paragraph (3), redesignating paragraph (4) as paragraph (6), and adding paragraphs (4) and (5) as follows:

§ 433.217 Use of target amounts to decrease reductions.

* * * * *

(b) *Method for determining target amounts.*

(1) * * *

(2) *Fiscal year 1983.* HCFA will derive the target amount for each State for fiscal year 1983 by increasing or decreasing the 1982 target amounts by a percentage equal to the percentage increase of decrease for the 12-month period ending on September 30, 1983, in the index of the medical care expenditure category of the Consumer Price Index for all urban consumers (U.S. city average) published by the Bureau of Labor Statistics.

(3) *Fiscal year 1984.* HCFA will derive the target amount for each State for fiscal year 1984 by the same method used for the 1983 targets, except that the 1982 target amounts will be increased or decreased based on medical care expenditure data for the 24-month period ending on September 30, 1984.

(c) *FMAP to be used for computing Federal Share of expenditures.* For purposes of paragraphs (a) and (b) of this section, HCFA will use the FMAP in effect for fiscal year 1981 as the applicable percentage to compute the actual Federal Share of expenditures.

(d) *Exclusions from target amount determinations.* HCFA will exclude the following from each year's target amount determinations:

(1) * * *

(3) Any offset payments a State receives for spending less than its target amount in the previous year;

(4) Payments to a State under § 433.10(c)(2) of this Part for services provided through Indian Health Service facilities;

(5) Payments to a State under Subpart D of Part 455 of this chapter for a State Medicaid fraud control unit; and

(6) Any reductions in Federal payments under § 433.205.

(Catalog of Federal Domestic Assistance Program No. 13.714, Medical Assistance Program)

Dated: September 14, 1982.

Carolyne K. Davis,

Administrator, Health Care Financing Administration.

Approved: September 23, 1982.

Richard S. Schweiker,

Secretary.

List of Public Laws

Last Listing September 29, 1982

This is a continuing list of public bills from the current session of Congress which have become Federal laws. The text of laws is not published in the **Federal Register** but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 (phone 202–275–3030).

S. 923/Pub. L. 97–267 To amend chapter 207 of title 18, United States Code, relating to pretrial services. (Sep. 27, 1982; 96 Stat. 1136) Price: $1.75.

H.R. 3620/Pub. L. 97–268 Transferring certain Federal property to the city of Hoboken, New Jersey. (Sep. 27, 1982; 96 Stat. 1140) Price: $1.75.

H.R. 6068/Pub. L. 97–269 Intelligence Authorization Act for Fiscal Year 1983. (Sep. 27, 1982; 96 Stat. 1142) Price: $2.50.

New Publication

List of CFR Sections Affected

(1964 through 1972)

A Research Guide

These two volumes contain a compilation of the "List of CFR Sections Affected (LSA)" for the years 1964 through 1972. Reference to these tables will enable the user to find the precise text of CFR provisions which were in force and effect on any given date during the period covered.

Volume I (Titles 1 through 27) $15.00
Volume II (Titles 28 through 50) $14.00

PARALLEL TABLE OF
AUTHORITIES AND RULES

LSA—LIST OF CFR SECTIONS AFFECTED

The LIST OF CFR SECTIONS AFFECTED is a monthly publication designed to lead users of the Code of Federal Regulations (CFR) to amendatory actions published in the Federal Register (FR). It should be shelved with current CFR volumes. Entries are by CFR title, chapter, part, and section. Proposed rules are listed at the end of appropriate titles.

HOW TO USE THIS FINDING AID

The CFR is revised annually according to the following schedule:

Titles 1–16—as of Jan. 1
17–27—as of April 1
28–41—as of July 1
42–50—as of Oct. 1

To bring these regulations up to date, consult the most recent LIST OF CFR SECTIONS AFFECTED for any changes, additions, or removals published after the revision date of the volume you are using. Then check the CUMULATIVE LIST OF PARTS AFFECTED appearing in the Reader Aids of the latest Federal Register for less detailed but timely changes published after the final date included in this publication.

Boldface page numbers under a particular title indicate that the page numbers span 2 years. **Boldface** is used to distinguish the current year from the previous year.

Cite a page reference from this publication as 46 FR for 1981 page numbers and 47 FR for 1982 page numbers. Example: Page 45875 cite as 46 FR 45875; **3353** cite as 47 FR 3353.

ISSUES TO BE SAVED

There is no single annual issue of the LIST OF CFR SECTIONS AFFECTED. Four ANNUAL ISSUES must be saved: the DECEMBER issue is the ANNUAL for Titles 1–16; the MARCH issue is the ANNUAL for Titles 17–27; the JUNE issue is the ANNUAL for Titles 28–41; the SEPTEMBER issue is the ANNUAL for Titles 42–50. ANNUAL ISSUES to be saved are clearly designated on the cover.

PARALLEL TABLE OF AUTHORITIES AND RULES

Following Title 50 is an update to Table I—Parallel Table of Authorities and Rules found in the CFR Index and Finding Aids. This table contains authority citations added to or removed from Table I as a result of documents published in the Federal Register since January 1, 1982.

TABLE OF FEDERAL REGISTER ISSUE PAGES AND DATES

A table is included at the end of this publication which identifies the inclusive page numbers and corresponding Federal Register issue dates for the period covered.

INDEXES

An INDEX to the daily Federal Register is published monthly and is cumulated for 12 months. A separate volume, the CFR Index and Finding Aids to the entire Code of Federal Regulations, is revised as of January 1 each year.

INQUIRIES AND SUGGESTIONS

Dean L. Smith was Chief Editor of the LSA, assisted by Carolyn T. Payne. The LSA was prepared under the direction of Martha B. Girard, assisted by Ruth C. Pontius. INQUIRIES, telephone 202-523-5227.

SUGGESTIONS concerning this and other publications of the Office are welcomed. Please send your suggestions to John E. Byrne, Director, Office of the Federal Register, National Archives and Records Service, Washington, D.C. 20408.

25.37 Redesignated as 25.35 and undesignated center heading revised 9195, 9196
25 Appendix A authority citation removed 9195
Appendix A revised 9196
30 Authority citation 30454
30.6 Revised 23139
(b) introductory text corrected 27060
30.7 Added 30454
35 Authority citation 12940, 28087, 40150
35.4 Authority citation removed 12940
35.11 (b) revised 40150
35.12 Authority citation removed 12940
35.14 Authority citation removed 12940
35.21—35.25 Undesignated grouping authority citation removed 12940
35.31 Authority citation removed 12940
35.41—35.45 Undesignated grouping authority citation removed 12940
35.100 (c)(4)(xi) amended; (c)(4)(xii) added; authority citation removed 12940
(c)(4)(xii) amended; (c)(4)(xiii) added 28087
40 Authority citation 8, 7206, 30455
40.5 Revised 23139
(b)(1) corrected 27060
40.7 Added 30455
40.27 Removed 7206
40.31 (g) revised 8
50 Authority citation 2301, 11652, 13754, 19513, 28364, 30235, 30456, 30459
Authority citation corrected 15569

Page

50.2 (x) added 13754
50.4 Existing text designated as (a); (b) added 31675
50.7 Added 30456
50.33 (f) revised 13754
50.34 (f) added 2301
(f) introductory text, (1)(xii) introductory text and (B), and (2)(x) corrected; (f)(3)(v)(B) designation added 4497
(g) correctly added 11652, 15569
50.40 (b) revised 13754
50.47 (a), (b) introductory text, and (c)(1) revised; (d) added 30235
(b) footnote 1 correctly added 40536
50.49 Added 28364
50.54 (w) added (effective date pending in part) 13754
(r) revised 19513
(q) revised 30236
50.55a (b)(1) revised 30460
50.57 (a)(4) revised 13755
50 Appendix C removed; Appendix M amended 13755
Appendix E amended 30236
51 Authority citation 12942
51.21 Revised 12943
51.23 (e) revised 12943
51.53 (c) added 12943
60 Authority citation 30456
60.8 Added 13774
60.9 Added 30456
70 Authority citation 9, 30457
70.5 Revised 23140
(b) introductory text and (2)(i) corrected 27060
70.7 Added 30457
70.20a (a) revised 30458
70.21 (g) revised 9
71 Authority citation 599, 34971
71.4 (r) and (s) added 600
71.5a—71.5b Undesignated center heading added 600
71.5a Added 600
71.5b Added 600
71.12 Introductory text, (b)(1)(i), (c) introductory text and (1) revised 34971
72 Authority citation 30458
72.9 Added 13775
72.10 Added 30458

Additions to Table I, January through October 1982

This table lists the sections of the U.S. Code and U.S. Statutes at Large and Presidential documents which are being added to Table I as a result of authority citations carried in the **Federal Register** from January through October 1982. Recent legislation is carried by public law number.

Table I is in the CFR Index and Finding Aids revised as of January 1, 1982.

In order to determine the **Federal Register** page number of a parallel CFR citation, consult this List of CFR Sections Affected (LSA) and the appropriate Annual Issue of the LSA for that CFR title.

Removals from Table I, January through October 1982

This table lists the sections of the U.S. Code and U.S. Statutes at Large and Presidential documents which are being removed from Table I as a result of documents published in the **Federal Register** from January through October 1982.

Table I is in the CFR Index and Finding Aids revised as of January 1, 1982.

In order to determine the **Federal Register** page number of a parallel CFR citation, consult this List of CFR Sections Affected (LSA) and the appropriate Annual Issue of the LSA for that CFR title.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $300.00 per year, or $150.00 for six months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register.**

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

Rules and Regulations

Federal Register
Vol. 47, No. 191
Friday, October 1, 1982

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 1079

Milk in the Iowa Marketing Area; Temporary Revision of Shipping Requirements

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Temporary revision of rules.

SUMMARY: This action temporarily relaxes the shipping requirements for pool supply plants under the Iowa milk marketing order for the months of October and November 1982 to prevent uneconomic shipments of milk to the market and to maintain the pool status of producers who regularly supply the market. The revisions are made in response to the request of a pool supply plant operator who ships milk to distributing plants regulated under the order.

EFFECTIVE DATE: October 1, 1982.

FOR FURTHER INFORMATION CONTACT: Martin J. Dunn, Marketing Specialist, Dairy Division, Agricultural Marketing Service, United States Department of Agriculture, Washington, D.C. 20250, 202–447–7311.

SUPPLEMENTARY INFORMATION: Prior document in this proceeding:

Proposed temporary revision of shipping percentages: Issued September 7, 1982; published September 13, 1982 (47 FR 40182).

It has been determined that this action is not a major rule under the criteria set forth in Executive Order 12291.

Also, it has been determined that the need for adjusting certain provisions of the order on an emergency basis precludes following certain review procedures set forth in Executive Order 12291. Such procedures would require that this document be submitted for review to the Office of Management and Budget at least 10 days prior to its publication in the **Federal Register**. However, this would not permit the completion of the procedure in time to give interested parties timely notice that supply plant shipping requirements for October 1982 would be modified. The initial request for the action was received on August 30, 1982. A notice of proposed temporary revision of the shipping requirements was issued September 7, 1982, inviting interested parties to comment on the proposed action by September 20, 1982.

It has been determined that this action would not have a significant economic impact on a substantial number of small entities. Such action would lessen the regulatory impact of the order on certain milk handlers and would tend to assure that the market would be adequately supplied with milk for fluid use with a smaller proportion of milk shipments from pool supply plants.

This temporary revision is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the provisions of § 1079.7(b)(1) of the Iowa milk order.

Notice of proposed rulemaking was published in the **Federal Register** (47 FR 40182) concerning a proposed decrease in the shipping requirements for pool supply plants for the months of October and November 1982. The public was afforded the opportunity to comment on the proposal by submitting written data, views and arguments. No comments were received in response to this notice.

After consideration of all relevant material, including the proposal set forth in the aforesaid notice and other available information, it is hereby found and determined that the supply plant shipping percentages should be lowered by 10 percentage points from the present 35 percent to 25 percent for each of the months of October and November 1982.

Pursuant to the provisions of § 1079.7(b)(1) the supply plant shipping percentages set forth in § 1079.7(b) may be increased or decreased by up to 10 percentage points during any month to encourage additional milk shipments to pool distributing plants for Class I use or to remove the need for milk shipments to such plants merely to qualify a supply plant for pooling under the order.

The handler requesting the action said that under the current supply conditions distributing plants in the Iowa market will have more than an adequate supply of milk for Class I use and that there will be no need for supply plants to ship 35 percent of their producer receipts to distributing plants during October and November 1982. The petitioner said that a 25 percent shipping standard would be adequate for such months and would prevent uneconomic shipments of milk merely to assure pool status for supply plants.

Data for the first seven months of 1982 indicate that although producer milk receipts for the market were about 4 percent lower than for the same months last year, the pounds of pooled Class I milk were down nearly 8 percent from a year ago. The decline in Class I milk was due to certain handlers shifting their Class I sales from plants pooled under the Iowa order to plants regulated under other nearby orders. Thus, the quantity of milk that must be shipped from supply plants to distributing plants for Class I use during this October and November will be less than it was one year ago.

The shipping percentage reductions are aimed at facilitating the delivery of milk to the market from supply plants for Class I use without requiring uneconomic shipments merely for pooling purposes. It is concluded that the supply-demand conditions in the market warrant a lowering of the shipping requirements 10 percentage points for each month of October and November 1982.

It is hereby found and determined that 30 days' notice of the effective date hereof is impractical, unnecessary, and contrary to the public interest in that:

(a) This temporary revision is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area for the months of October and November 1982;

(b) This temporary revision does not require of persons affected substantial or extensive preparation prior to the effective date; and

(c) Notice of the proposed temporary revision was given interested parties and they were afforded opportunity to file written data, views or arguments concerning this temporary revision. No comments were received.

Therefore, good cause exists for making this temporary revision effective October 1, 1982.

List of Subjects in 7 CFR Part 1079

Milk marketing orders, Milk, Dairy products.

It is therefore ordered, That the aforesaid provisions of the order are hereby revised for the months of October and November 1982.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674))

Effective Date: October 1, 1982.

Signed at Washington, D.C., on: September 28, 1982.

Edward T. Coughlin,

Director, Dairy Division.

BILLING CODE 3410-02-M

CIVIL AERONAUTICS BOARD

14 CFR Part 320

[Docket 40891; Reg. PR-251]

Procedures for Awarding Japanese Charter Authorizations

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: The CAB is adopting procedures for allocating charter flights for operation by U.S. carriers between the United States and Japan under an interim aviation agreement between the two countries. The rule provides for grandfather allocations to be made to certain carriers, and provides for a one-time lottery to distribute the remaining flights. It is needed to allocate these new charter rights in a fair and orderly manner.

DATES: Effective: October 1, 1982. Adopted: September 28, 1982.

FOR FURTHER INFORMATION CONTACT: Patricia L. DePuy, Assistant Chief, Regulatory Affairs Division, Bureau of International Aviation (202–673–5878), Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 3507), the application, reporting, and recordkeeping requirements in §§ 320.12, 320.14, 320.16, 320.17 and 320.18 have been submitted to the Office of Management and Budget for approval. These have been approved by OMB under number 30240055.

In Notice of Proposed Rulemaking PDR–79 (47 FR 33981, August 5, 1982) we proposed an allocation system designed to equitably distribute charter rights contained in a then provisional interim aviation agreement concluded with Japan. The agreement, signed September 7, 1982, provides that both designated and nondesignated U.S. carriers may operate charters in the U.S.-Japan market under country-of-origin rules, but limits the total number of charters that may be operated to 300 one-way flights per year for the duration of the interim agreement.

In PDR–79, we stated our view that U.S. carrier demand to obtain the limited Japan charter authorizations was likely to be far in excess of the 300 flights available, and that a form of allocation was required to prevent undesirable consequences both to the traveling and shipping public and to U.S. carriers.

The allocation system set forth in PDR–79 was to apply only to the first year's allocation of 300 charters, and contained two distinct phases. In the first phase we proposed to grant to incumbent carriers so-called "grandfather" allocations, in recognition of designated scheduled carriers' current levels of charter operations in the market and, in the case of nondesignated charter carriers, the levels of their charter operations before they were largely excluded from the market by Japan beginning in 1976. In the second phase, we proposed to distribute the remaining flights through a lottery open to any certificated air carriers (including those receiving grandfather allocations) with the operational ability to conduct charters to Japan. We tentatively decided to permit aftermarket sales or transfers of the allocations, and proposed to penalize carriers for not using or for selling allocations. We also proposed, in the alternative, a specific variation to the two-phase grandfather/lottery system, and modifications to many elements of our proposal, such as allocating the flights on a multi-year basis, and limiting after-market transfers of authorizations.

Comments and reply comments on the proposed rule were received from ten U.S. carriers and from the Department of Transportation and the Office of Management and Budget.[1]

After review of the comments, we have decided to adopt the primary allocation system proposed in PDR–79, with the modifications described below. In brief, the rule we are adopting provides that:

(1) A one-time allocation will be made of the available charters for a three-year period, the minimum duration of the agreement;

(2) We will review operations conducted under this rule in 18 months and reserve the right, at that time, to refine its procedures, if necessary;

(3) Grandfather allocations will be made to the scheduled designated carriers now serving the Japan market, based on their 1981 operations, and to charter carriers which previously served the market but whose efforts to continue were severely inhibited by Japan after 1975, based on their operations in that year;

(4) A lottery will be held shortly to distribute the remaining charters, and will be open to all U.S. carriers with the operational capability to conduct charters to Japan;

(5) Applications for charter authorizations for the lottery will be accepted in blocks of ten one-way flights and carriers may submit multiple applications of ten so long as the aggregate number of flights sought by a carrier does not exceed the maximum number of flights available in the lottery;

(6) No carrier may receive more than 50 flights (about one-half those available) in the lottery and no carrier may obtain through a combination of grandfather and lottery-obtained allocations more than 100 flights;

(7) Aftermarket sales of both grandfather and lottery charter authorizations will be permitted; however, a "grandfather" carrier will be subject to a penalty if it sells an excessive number of its grandfather authorizations. That penalty will be the loss of one flight in each succeeding year, for each grandfather authorization sold in excess of 10% of those received. There will be no penalty for the sale of authorizations received in the lottery;

(8) Any carrier which allows an authorization to expire unused at the end of a year will be subject to a penalty. A carrier will forfeit, in each ensuing year covered by the interim agreement, two authorizations for each it causes to be wasted; and

(9) Authorizations forfeited by the penalty mechanism will be redistributed annually to eligible carriers.

General Comments

As discussed in detail in PDR–79, the premise for this rule is a recently concluded agreement on charter services between the United States and Japan, first set forth in a June 4, 1982, Record of Consultations and made effective in a September 7, 1982, Memorandum of Understanding (MOU). The MOU provides that the designated and nondesignated airlines of each side

[1] The commenting carriers were Arrow Airways, Inc., Capitol Air, Inc., The Flying Tiger Line Inc., Four Seas Airlines, Inc., Northwest Airlines, Inc., Pan American World Airways, Inc., Transamerica Airlines, Inc., United Air Carriers, Inc., d.b.a. Overseas National Airways, United Air Lines, Inc., and World Airways, Inc.

will, commencing October 1, 1982, be permitted to operate a total of 300 one-way charter flights per year under country-of-origin rules. The MOU will remain in effect for a period of three years or until the conclusion of negotiations which are to be reconvened before the end of 1983, whichever period is longer. A side-letter exchange accompanying the MOU stated the understanding of both the United States and Japan that the U.S. aeronautical authorities retain the sole discretion to allocate among U.S. airlines the 300 one-way charter flights per year to be operated by such airlines.

The rule we are adopting today provides the mechanism by which we will allocate the 300 one-way yearly charters permitted under the MOU.[2] Although most commenters seemed to accept the need for us to allocate these flights, several felt we should leave it solely to the free marketplace and one questioned our legal basis. Furthermore, several carriers expressed concern that the United States would enter into this type of charter accord. We are not persuaded by these comments to depart from our proposal to adopt a Board-administered allocation system.

The commenting carriers, as well as DOT and OMB, were in general agreement that some form of allocation system was necessary. ONA and Four Seas, however, disagreed, stating that we should leave carriers free to plan and market their programs without restriction and let the marketplace sort out exactly who will operate. To the extent the flights are oversold, the carriers argue that they may simply be cancelled or rerouted to other destinations as happens today in Europe. The opponents claimed that our proposal would inhibit competition, play into the hands of the Japanese, restrict tour operators' ability to market large, competitively priced programs, and force tour operators to deal with carriers not of their own choosing. They cited other markets where operational restrictions on charters exist and where we did not impose allocation measures, and stated that no disruptive consequences resulted.

Northwest Airlines, while not addressing the question of a need for an allocation system nor opposing our award of grandfather allocations, did oppose further allocation by lottery on the basis that we lack the legal grounds to do so.

We too would prefer to have U.S.-Japan charter transportation evolve as market forces dictate, without the need for any government intervention. However, the Interim Agreement limits this charter market and assigns to us the responsibility for allotting these limited charter opportunities. We explained in PDR-79 why we foresaw this allocation was necessary, and no commentor has demonstrated that inaction or alternative approaches would better serve the public interest. It is true that we have not previously found it necessary to establish at the outset procedures to allocate charter operations in other markets where numerical restrictions have existed. However, in those cases we determined that the available supply of charters exceeded or roughly coincided with the probable demand, and that there was no need for an allocation system. We were and are prepared to take some action in those markets if circumstances require. And, in fact, we did so in the case of the United Kingdom when one carrier sought to obtain the majority of waivers provided under the Cargo Annex to Bermuda II.[3] In the case of Japan it is obvious to us that the demand for Japan charters far outstrips the supply, and that allocation is necessary.

We disagree with Northwest's assertion that we lack the authority to allocate these charters. Northwest relies primarily on section 401(e)(4) of the Act, which states, "No term, condition, or limitation of a certificate shall restrict the right of a carrier to add to or change schedules, equipment, accommodations, and facilities for performing the authorized transportation and service as the development of the business and the demands of the public shall require."

Section 1102(a) of the Act requires the Board to act consistently with U.S. obligations under international agreements. The U.S.-Japan Memorandum of Understanding, with accompanying side letters, constitutes an agreement within the meaning of section 1102(a). That agreement expressly contemplates a scheme of charter flight allocations, with the U.S. aeronautical authorities, i.e., the Civil Aeronautics Board, denominated the agency to perform the allocation. This is similar to the situation with the U.S.-Japan Memorandum of Consultations of September 20, 1980, under which the Board has allocated scheduled service frequencies.[4] The Board must often reconcile apparently conflicting statutory provisions. In this case our specific obligations under the statute and the Interim Agreement must override the technical limitations of section 401(e).[5]

More broadly, the Board has been given the power in section 204(a) to issue such rules "as it shall deem necessary to carry out the provisions of * * * the Act." The purposes of the Act are set out in section 102, and include several provisons that are relevant to what the Board is doing in this proceeding:

> The availability of a variety of adequate, economic, efficient and low-price services by air carriers and foreign air carriers * * * (102(3))
>
> The placement of maximum reliance on competitive market forces and on actual and potential competition * * * taking account, nevertheless, of material differences, if any, which may exist between interstate and overseas air transportation, on the one hand, and foreign air transportation, on the other hand. (102(4))
>
> The strengthening of the competitive position of United States air carriers to at least assure equality with foreign air carriers, including the attainment of opportunities for United States air carriers to maintain and increase their profitability, in foreign air transportation. (102(12))

As the U.S. Supreme Court stated in *Mourning v. Family Publications Service*, 411 U.S. 356 (1973), quoted recently in Diefenthal v. CAB, 681 F.2d 1039 (5th Cir. 1982) (upholding the CAB smoking rule):

> Where the empowering provision of a statute states simply that the agency may "make * * * such rules and regulations as

---

[2] DOT stated that proposed section 320.3(b), which requires that air carriers may operate U.S.-Japan charter flights only if they hold a charter authorization under Part 320, would have the unintended effect of precluding the operation of any charter flights above the 300-flight limit, if the Japanese were later to agree to additional charter frequencies. We disagree and will adopt this provision as proposed (see section 320.4(a)). We believe that a requirement that all U.S. carriers operating Japan charters hold authorizations is necessary for us to effectively monitor the use of the 300 flights provided by the Interim Agreement. Should the United States and Japan agree to increase the number of available charters, we can, of course, use our exemption powers to authorize promptly the operation of these flights.

[3] See letter to Mr. Russell E. Pommer from Daniel M. Kasper, dated September 26, 1980, a copy of which is being placed in this Docket. As it turned out, allocation of the waivers proved unnecessary since U.S. carrier demand for them was far less than their supply.

[4] E.g., Order 82-3-36, March 4, 1982.

[5] We have, for example, notwithstanding section 401(e)(4), regulated a carrier's schedules under section 404(a)(1) after finding that it had not provided adequate service. E.g., Flint-Grand Rapids Adequacy of Service, 30 CAB 1120. See also Colonial Airlines, Inc., Order 78-11-72, November 16, 1978 (Board conditioned air carrier's certificate upon operations solely with low noise aircraft); Transpacific Low-Fare Route Investigation, Order 80-10-44, October 9, 1980, finalized by Order 81-1-30, December 24, 1980 (Board designated incumbent carriers to provide services pursuant to a Memorandum of Understanding providing for limited carrier designation and flight frequency). Technically, there is some doubt whether the restrictions of this rule on the total number of charter flights even fall into the category of a "term, condition, or limitation of a certificate."

may be neccessary to carry out the provisions of the Act," we have held that the validity of a regulation promulgated thereunder will be sustained so long as it is "reasonably related to the purposes of the enabling legislation."

As a final matter, we share the disappointment expressed by several of the commenters that is was necessary to agree to any limitations on the operation of charters to Japan. As DOT explained in its comments, the United States sought to remove all restrictions, but agreed to the 300 charter flight limit only because it provides, on an interim basis, an immediate expansion of charter opportunities available to nondesignated airlines and benefits for the traveling and shipping public. The agreement offers to U.S. carriers an improved operating environment over that which existed before. Moreover, as DOT stated, the United States will seek further liberalization of the charter regime when the bilateral negotiations resume.

Period To Be Covered by Allocation

In PDR-79 we proposed to limit our initial allocation to only the first year's charter authorizations. We stated that we would consider, in the alternative, a multiple-year allocation. We specifically sought comments on the minimum time needed by carriers and/or charterers to realize economies of scale in their operations. Our reasons for proposing to limit the initial allocation to one year were that a multi-year allocation might inhibit new entry in later years, lead to extensive aftermarket sales, and complicate the imposition of penalties. In addition, we felt that given the speed with which we need to conduct this proceeding, it would be beneficial to have a later, more extensive review of the various allocation methods.

DOT, OMB and all but one of the carriers commenting on this aspect supported a single, initial allocation to cover the entire duration of the MOU (*i.e.*, a minimum period of three years). They argued that our concerns were outweighed by the need for carriers to engage in long-range planning, which was essential for successful charter programs, and that annual allocations would introduce inhibiting uncertainties into carrier planning, interfering with the establishment of ongoing efficient programs and tour operator-carrier relationships.

United, on the other hand, supported a one-year allocation. Otherwise, it argued, new entry would be thwarted and the Board would be prevented from amending its rules in a timely fashion should abuses occur.

We are persuaded by the majority commenters that annual reallocation of the charter authorizations would not be the best, most efficient course to take, and that our reservations about a multiple-year lottery are largely overcome by the benefits of such a system. Therefore, we are adopting a final rule that provides for a single allocation of the charter flights to cover a 3-year period, and which would correspond to the minimum duration of the charter MOU.

We are not willing, however, to tie the term of the allocation period to the outside-expiration date of the MOU—that is, the conclusion of reopened negotiations—as we cannot predict what conditions may be in 3 years and how rapidly or slowly the reopened talks might progress. In addition, we, like United, do not believe that we should relinquish total control over this process since the actual operation of the mechanism we are adopting may show that revision to these procedures is necessary. Therefore, the final rule provides for review of this allocation process at mid-term (*i.e.*, in 18 months). We reserve the right at that time to change the allocation process if necessary.

As to the concern that a multi-year allocation may inhibit new entry in later years by carriers not yet operational at the time of the lottery, it is true that the possibility exists. However, we believe that the rule's provisions for sales of charter authorizations and the annual reallocation of authorizations relinquished due to penalty will provide a sufficient pool from which carriers in later years will be able to obtain charter authorizations.

Further, the entire effect of the new rule will be to substantially increase the access of new entrants to the U.S.-Japan market for the first time in many years. The fact that new entry will occur is what is significant; the extent of new entry is less important and here, limited by circumstances largely outside our powers to redress.

Allocation System

We have decided to adopt our primary allocation system proposed in PDR-79, *i.e.*, a first phase wherein certain scheduled and charter carriers are granted grandfather allocations, and a second phase wherein the remaining flights are allocated by lottery to any eligible carriers. Carriers receiving authorizations in either or both phases will have them in each of the three-year periods, except to the extent that carriers' authorizations are reduced due to penalty.

Only one carrier explicitly advocated the alternative allocation proposal, arguing that it is unfair to give Transamerica and World preferential treatment over other charter carriers. We will deal with this and the other comments made on our allocation proposal in the following discussion.

1. *Grandfather Allotments.* Several carriers opposed the grant of any grandfather allotments, and one opposed the awards to the charter carriers. The carriers opposed to awarding grandfather allocations to the designated schedule carriers argued generally that such awards contravene the purpose of the agreement, and that we have failed to adequately explain why it is necessary to award these grandfather rights, particularly since these carriers are free to perform similar operations under their route authority. Those opposed to awarding grandfather allocations to the charter carriers argued that operations in 1975 bear no relation to desire or ability today to perform Japan charters; that Transamerica and World were not alone in expending money and time to open up the Japan charter market, since other charter carriers also paid fees to the National Air Carrier Association (which, as an association of charter carriers, has worked to open up this and other markets) in the 1970's; and that the only reason Transamerica and World played an "historic" role in the market is because they were the only ones licensed.

On the other hand, other commenters, largely the grandfather carriers, supported our proposed grandfather allocation system. They argued that the scheduled, designated carriers were assured by the U.S. Delegation to the Japan talks that they would receive such allocations. The charter carriers say it was only through their long and constant efforts that the charter agreement was reached. DOT took no firm position on the grandfather allocation to the charter carriers, urging us to carefully examine the 1970's charter experience of all carriers.

Pan American and Northwest questioned the base periods we proposed to apply to allocate the grandfather authorizations. They argued that they too conducted substantial charters to Japan in the early 1970's, and were harmed by Japanese restrictions of slots and fuel. They asserted that we should treat the charter and scheduled carriers similarly, either by using the same base year or giving carriers their choice, then proportionally reducing all grandfather allocations, if necessary. One commenter urged us to limit all

grandfather allocations to only the first year.

FTL and DOT asserted that notwithstanding the number of flights operated by FTL in 1981, FTL was assured by the U.S. Delegation that it would receive not fewer than 80 flights for each year of the agreement. They stated that the charter agreement alters the relative freedom that designated scheduled carriers had to perform charters in the U.S.-Japan market; that FTL, which conducted extensive charters in the market, was amenable to the agreement only after receiving assurances that it would be guaranteed a minimum level of operations; and that the understanding that emerged between the U.S. delegation and FTL was that FTL would be allotted 80 flights per year (with an opportunity to participate in the allocation of the "non-grandfather" authorizations). DOT argued that the delegation would be in breach of its understanding with FTL if we adhered to the 68-flight allocation proposed in PDR-79.[6] DOT urged us to grant FTL 80 flights and to include a growth factor for each of the grandfather allotments to the incumbent designated airlines.

We have decided to adopt in full our grandfather allocation proposal set forth in PDR-79,[7] modified only to account for the matters raised by FTL and DOT.

As described in PDR-79 and in the comments of DOT and FTL, the U.S. delegation in agreeing to a numerically limited charter accord provided assurances to the designated scheduled carriers that they would retain charter opportunities, for each year that the accord is in effect, at least as valuable as those they had enjoyed in recent years. The delegation chairman has asked us to honor this commitment, and we will.

United has suggested that these grandfather allotments be limited to only one year. However, it is clear that the commitment was made for each year of the MOU's effectiveness. While we will honor this commitment, the penalty system we are imposing to assure that the authorizations are used efficiently may result, in later years, in grandfather carriers' forfeiting some of their authorizations. Since the accrual of a penalty will be the result of a conscious business decision of the carrier involved (*i.e.*, to sell an excessive number of authorizations or to allow some to expire unused), we do not consider such an occurrence to constitute an abridgement of the delegation chairman's commitment.

The commitment to incumbent carriers was deemed necessary since, prior to the agreement, designated scheduled carriers were permitted relative freedom by Japan to conduct charter operations between the U.S. and Japan; thus, unless special measures were taken, these carriers might have had to relinquish any existing charter-market penetration, as well as forego future market development.

Having accepted the need to allocate grandfather authorizations to the designated scheduled carriers, we conclude that our reasons set forth in PDR-79 for according similar treatment to charter carriers are sound. Two of these carriers—specifically, Transamerica and World—were active participants in the Japan market prior to their being virtually excluded in 1976 by actions of the Japanese Government. Since that time they have persistently worked to have the market reopened to them. We have no reason to believe, as certain commenters suggested, that Transamerica and World will not now continue their development of the Japan charter market with the same amount of effort they have expended in the last decade. Indeed, it is clear from the pleadings filed by Transamerica and World that they intend to continue their development of the market. Further, that Transamerica and World were the only two charter carriers licensed in the early to mid 1970's to offer charter services to Japan does not diminish our reasons for allowing them to resume participation today at roughtly the same level at which they operated before being cut-off by the Japanese in 1976. Nor do we find membership in NACA relevant to our decision; our decision is based on incumbent carrier operations and market development, not fees paid to an association. In short, no commenter has demonstrated to us a sound basis for not recognizing through the allocation of grandfather authorizations the historic level of activity of charter carriers in the Japan market.

We have decided, as proposed, to use CY 1981 as the year upon which we will base the scheduled designated carrier allocations and CY 1975 for the charter carrier allocations. This is in keeping with the purpose of the grandfather allocations to preserve the most recent level of operations actually achieved absent artificial restraint. We disagree with certain commenters that we should use the same base year for both classes of carriers or give carriers a choice. Our selection of the year for each class of carrier was not done arbitrarily, nor does it relate to the time of carriers' greatest activity. Rather, 1975 was chosen for the charter carriers because that was the last year preceding wholesale Japanese curtailment of charters by nondesignated carriers. CY 1981 was selected for scheduled carriers because it reflects the level of charter activity that these carriers have chosen to conduct in recent years and represents the delegation chairman's request to us.

While we realize that both Pan American and Northwest participated much more heavily in the Japan charter market in the early to mid-1970's, they did not sustain that level in recent years. Whether this reflects the absence of charter carrier competition or reassessment of business opportunities, we cannot say. While Japanese-imposed slot and fuel restrictions may have constricted the operation of charters somewhat at mid-decade, these carriers have not asserted—nor do we believe they can—that they were prevented from expanding charter operations in recent years. On the contrary, as is shown by the continuing high level of charters performed by FTL and Japan Air Lines, designated scheduled carriers have been relatively unencumbered in the recent past in their ability to conduct charters in the U.S.-Japan market. Thus, we find no merit in Northwest's and Pan American's arguments that their grandfather allocations should be based on a period other than 1981.

Finally, we have decided to increase somewhat the size of each grandfather allocation from that originally proposed to permit some room for expansion beyond the levels operated in the base years. Absent this accord, the incumbent scheduled carriers would have had the option to conduct an even greater number of charter flights than they did in 1981. Similarly, were the charter carriers not excluded from the market by Japan in 1976, we have every reason to believe that their operations would have continued at or above the 1975 levels, expanding as market conditions dictated. Thus, the

---

[6] Based on our and FTL's records, FTL operated in 1981 68 Third and Fourth Freedom one-way charters. DOT explains correctly that the figure 83 was earlier provided to the delegation chairman as the number of flights operated by FTL, and that the letter from the chairman to us, in all likelihood, assumed that number. Later analysis of FTL's operations showed that the 83 figure included some Fifth Freedom activity.

[7] Pursuant to our request in PDR-79, the commenting carriers supplied data on their historic U.S.-Japan charter operations. FTL, Northwest and Transamerica confirmed our preliminary data in PDR-79 that showed them operating, respectively, 68, 1 and 42 one-way flights. Pan American stated that it had operated three one-way flights, not the four we had shown, and World told us that it had operated 48 one-way flights, not 54. No other carrier supplied data showing operations in the relevant base years.

grandfather awards are intended not merely to maintain the *status quo* but to allow the grandfather carriers some semblance of the opportunity for market expansion they previously enjoyed.

DOT and FTL referred in their comments to a commitment made by the U.S. delegation that FTL would be allotted no fewer than 80 flights, and we will honor that commitment. The 80-flight figure represents an increase of 18 percent over FTL's CY 1981 operations of 68 flights. We shall increase the other grandfather carriers' allotments for market development purposes by the same percentage. Based upon our data, as confirmed or modified by carrier comments, the following carriers will receive the indicated number of one-way flights as grandfather allocations:

Carrier	Base year [1]	×	Uniform growth factor	=	Total [2]
The Flying Tiger Line Inc.	[illegible]		(1.18)		80
Northwest Airlines Inc.	1		(1.18)		1
Pan American World Airways, Inc.	3		(1.18)		4
Transamerica Airlines, Inc.	42		(1.18)		50
World Airways, Inc.	48		(1.18)		57
Total					192

[1] One-way flights.
[2] Allocated one-way flights.

2. Lottery System. The primary lottery system we proposed had the following characteristics: Eligibility criteria designed to permit participation by only those carriers having economic authority and the operational ability to conduct charters to Japan; participation open to any eligible carriers, whether or not they received grandfather allocations; minimum application size, with no maximum other than the total number of flights available in the lottery; and a stipulation that related carrier entities or carriers employing trade names to be considered as a single carrier.

The majority of commenters supported our eligibility criteria. Two carriers suggested we further require that qualifying carriers operate some wide-body aircraft, arguing that this is necessary to ensure maximum benefits to the public. One carrier opposed our requirement that carriers must hold FAR 121 authority and possesss aircraft suitable for the route. It argued that this requirement would be unfair as it would preclude participation by new entrants not yet operational but which planned to begin operations in the future.

We have decided to adopt our eligibility criteria as proposed. We disagree that we should require carriers to possess wide-body equipment. We wish to make the Japan charter authorizations available to as many air carriers as are operationally capable of conducting them. The wide-body limitation would defeat this purpose and severely reduce the pool of eligible carriers. The alleged public benefit of maximizing available seats through a wide-body requirement is, in our view, outweighed by the opening up of the lottery to any carrier that believes it can provide the public with an attractive, low-price charter service, regardless of equipment size.

On the other hand, we are not willing to permit nonoperational carriers to participate in the lottery. We believe it essential that recipients of these valuable authorizations have the capability to put them to public use. Many carriers we have authorized have, for a variety of reasons, experienced unpredictable delays in becoming operational. Allowing nonoperational carriers to obtain these allotments introduces an unacceptable risk that they may not be used to their fullest extent. When these new entrants obtain requisite FAA operating certificates and suitable equipment, they will be able to obtain access to the market in two ways—by purchasing authorizations from carriers seeking to sell them, and by participating in the procedures to redistribute authorizations forfeited by carriers incurring penalties.

Several carriers argued that recipients of grandfather allocations should be precluded from participating in the lottery. They claimed that it would be unfair for these carriers after receiving grandfather allocations to be able to obtain even more authorizations, and that there is too great a possibility that one or more of them could wind up with an unacceptably high percentage of total available charter authorizations.

On the other hand, DOT and certain recipient carriers of the grandfather allocations argued that such carriers should be able to participate in the lottery. They claimed generally that such participation is essential for them to be able to mount efficient, low-cost charter programs. FTL further asserted that to exclude it from the lottery would go against the government's commitment that it would have the opportunity to participate in any lottery or other system designed to distribute the nongrandfathered charter allocations.

We have decided to permit those carriers receiving grandfather authorizations to participate in the lottery. As DOT pointed out, the U.S. delegation made a commitment to FTL that it would have the opportunity to participate in the distribution of the nongrandfather allocations. Moreover, the Delegation chairman has specifically requested that we permit all grandfather carriers to so participate.[6] Further, we disagree with the opponents' claims that it would be unfair to permit these carriers to participate in the lottery. On the contrary, we believe the public benefits to be derived from these carriers' participation, particularly considering that they are the only carriers with experience in operating charter programs in the U.S.-Japan market, are substantial. However, to ensure that through the luck of the draw one or more of the carriers receiving grandfather authorizations will not receive an unacceptably high percentage of the total available charter authorizations, we are imposing a ceiling of 100 one-way flights as the maximum number a grandfather recipient may obtain through a combination of the grandfather and lottery phases.

As to the application procedures for the lottery, there was universal agreement among those commenting that applications should be made in blocks of 10 flights. The commenting carriers largely supported our proposal to permit multiple applications so long as the aggregate number of flights did not exceed the maximum number of authorizations available in the lottery. DOT, on the other hand, suggested that we should limit the total number of authorizations that a carrier could pursue in its applications to 50. It argued that this would allow distribution of authorizations to a variety of carriers, enhancing the range of offering to the public and minimizing the likelihood that authorizations would be wasted by carriers. Northwest and Pan American also supported establishing some maximum lottery participation level.

We will adopt the commenters' suggestion and provide that each application be for a block of 10 one-way flights. While in PDR–79 we proposed the slightly different approach that applications only be for a minimum of 10

[6] See letter of July 7, 1982, to Chairman McKinnon from Deputy Secretary of Transportation Darrell M. Trent, a copy of which has been placed in this Docket.

flights, we also offered, as an alternative, the 10-flight block approach. We believe that given the universal preference of commenters for 10-flight blocks it is reasonable to adopt that application process.

We will adopt our proposal to permit carriers to submit multiple applications provided the aggregate number of flights sought does not exceed the total number available in the lottery. However, out of an abundance of caution, and to guard against a freak occurrence, the final rule provides that no one carrier may receive through the lottery process alone more than 50 flights. This imposes the result DOT suggested. This limitation coupled with the 100 one-way flight maximum that recipients of grandfather authorizations may receive through the combination of the grandfather and lottery allocation process should serve to ensure that a variety of carriers will be able to participate in the Japan charter market.

Finally, we have decided to affirm our tentative decision to consider related entities and carriers employing trade names (*e.g.* FTL/Metro) as "one" for purposes of participating in the lottery.

Capitol and Arrow strongly objected to our considering them as one carrier, arguing that their relationships and activities are not of a nature that should lead to that conclusion. They stated that their shareholders are substantially different, that there are only two interlocking relationships, and that their operations and activities are separate from a legal and practical standpoint. They also stated that for purposes of the FAA airport slot allocation, the FAA's Chief Counsel has found them to be separate carriers. Finally, Capitol urged that if we uphold our preliminary finding we permit it and Arrow to participate independently on a contingent basis pending resolution elsewhere of the validity of our determination. Several carriers disputed Arrow's and Capitol's contentions.

Mr. George Batchelor and his family own 100% of the Arrow stock. Through Delair, Inc., the family owns 52% of the Capitol stock. Thus, there is common majority stock ownership of the two entities. Moreover, Batchelor is the Chairman of the Board and President of Arrow, in addition to being the Chairman of the Board of Capitol. As such, he is clearly in a position to influence the decisions of both airlines. In fact, we recently relied on his "management" and "executive" expertise in finding that Arrow was fit, willing and able to engage in scheduled foreign air transportation. [9]

[9] Order 82-4-19, p. 5.

By Order 80-7-73 we exempted from sections 408 and 409 of the Act, the acquisition of Capitol stock by Delair, Inc., and the resulting interlocking relationships between Arrow, Capitol and the other aeronautical enterprises owned by Mr. Batchelor and his family. We also approved, under section 412 of the Act, the stock purchase and related management agreement under which Mr. Batchelor would assist Capitol. In their application in that proceeding, George Batchelor, Delair, Inc., Arrow Airways, Inc. and the other aeronautical enterprises owned by Mr. Batchelor or his family specifically stated that Delair and Arrow were "under his [Mr. Batchelor's] control" [10] and that "Mr. Batchelor will make available to Delair the funds to purchase the shares of stock of Capitol and after the purchase of the shares by Delair, Mr. George Batchelor will become the Chairman of the Board of Directors of Capitol." [11] The applicants relied heavily on Mr. Batchelor's expertise in urging us to approve the stock purchase/management assistance agreements and interlocking relationships involving the Batchelor enterprises and Capitol. Indeed, they alleged that if "there is not an immediate injection at the highest levels of the corporate structure of managerial, administration, technical, and financial expertise, Capitol's downward trend will shortly become irreversible." And that "George E. Batchelor will provide the Company with the necessary leadership, expertise, entrepreneurial attitude, and financial resources to allow the Company to continue to be a viable entity in the airline industry." [12]

Against this background, we are not persuaded by Capitol's and Arrow's arguments that they should be treated as separate and distinct carriers. Our finding in Order 80-7-73 that the Arrow/Capitol relationship would not pose a significant anticompetitive threat was made in recognition of our ability to grant worldwide charter authority to all fit applicants. That finding is not, contrary to the two carriers' assertion, applicable to the specific question of whether Arrow and Capitol should be able to bid separately for Japan charter authorizations. The Interim Agreement obviously limits the number of carriers which will be able to participate, making the U.S.-Japan market a discrete exception to the unlimited-authorization regime in which we found the Capitol-Arrow relationship innocuous. In our opinion, given the limitations here, the relationship that exists between Arrow and Capitol provides a real possibility, within the framework we have established, for coordinated bidding and subsequent business dealings between the two companies that could give them an unfair and inequitable advantage over the other participants in the lottery. Such a result is clearly contrary to our goal of allocating these limited, valuable rights as fairly and equitably as possible among the carriers desiring to operate them.

Further, while the FAA determined that Capitol and Arrow could participate separately in its airport slot allocation procedures, we have learned that this did not result from any affirmative decision that relationships such as theirs should multiply access to scarce operating privileges (See September 22, 1982 memorandum to this docket from the CAB Associate General Counsel for Rules and Legislation). Moreover, we do not find that the FAA's determination is relevant to our decision here. The FAA did not, in adopting ownership standards for its allocation procedures (SFAR 44-5, 47 FR 35156, 35161, August 13, 1982), expressly set forth the rationale behind these standards. However, it seems that the agency's goal was to reflect as far as possible the carriers' circumstances as they existed before the controllers' strike. The situation facing us here is far different. The charter allocations made available by the Interim Agreement represent new rights in a market previously closed to the majority of the carriers qualified to participate in the lottery. In the case of Japan charter allocations, we are dealing with one market (U.S.-Japan) and one type of service (charters)—carriers will necessarily be competing for the same limited, highly valuable commodity. In short, the FAA ownership standards are a specialized set of rules designed to meet a specific, unique set of circumstances, and are not directly applicable to the situation we face here.

[11] Id. p. 3.

[12] Application Docket 38387, pp. 13 and 14.

Transfer/Redistribution of Authorizations After Initial Allocation; Penalties for Sale or Nonuse

In the proposal, we tentatively decided to permit carriers to transfer charter authorizations among themselves for any consideration including money. Alternatively, we proposed to permit only those authorizations drawn in the lottery to be transferred, and to preclude the transfer of grandfather authorizations. We proposed also to penalize carriers for nonuse or sale of the charter authorizations obtained in either the

grandfather or lottery phases by reducing their future years' allocation of Japan charters. We set forth various methods of effecting this reduction, as well as alternative penalty systems. The proposed, combination transfer/penalty system was intended to allow for prompt redistribution of these limited authorizations while, at the same time, discouraging speculation and waste.

The majority of those commenting on the transfer provisions supported some after-market sales or transfers of the charter authorizations. Two carriers, however, opposed any market sales of authorizations, supporting instead Board reallocation.[13] In addition most of those commenting supported some form of penalty primarily for nonuse of authorizations, although there was no consensus on the best system.

We have decided to adopt in large part the transfer/penalty system proposed in PDR-79, with certain modifications. The system we are adopting has the following characteristics:

- Carriers will be permitted to transfer or sell authorizations obtained in both the grandfather and lottery phases to any other air carrier that at the time of transfer meets our eligibility qualifications.
- No penalty will be assessed for selling authorizations obtained in the lottery.
- Carriers will be permitted to sell without incurring penalty up to 10% of the authorizations obtained in the grandfather phase; carriers will be penalized for selling grandfather authorizations above that amount through a one-flight-for-one-flight reduction in future years' authorizations.
- Carriers which allow authorizations to expire unused at the end of the allocation year (September 30) will be penalized by a two-to-one flight reduction for future year allocations.
- To avoid penalty, carriers receiving grandfather authorizations will be given two days following publication of this rule in the Federal Register to tell us if they wish to receive less than their grandfather allocation.
- Carriers will be required to file "Notices of Transfer," "Notices of Intent To Use Charter Authorizations" and "Reports of Charter Authorizations Used," as set forth in our proposal. Further, to permit us to monitor the use and sale of the authorizations, and, where necessary, penalize the appropriate carriers, each flight authorization will be assigned a number and carriers will be required to identify authorizations by number when submitting the above notices and reports. (First year flight authorizations will be identified as A001, A002 * * * A300; second year as B001, B002 * * * B300, and third year as C001, C002 * * * C300).
- Following receipt of the last monthly report (due on October 15 of each year), we will identify carriers to be penalized, reduce their flight authorizations for future years accordingly, and redistribute those flights through a lottery to be held no later than November 1.
- Eligibility criteria for these future redistribution lotteries will be the same as for the initial lottery except that penalized carriers will not be permitted to participate. We will issue a notice shortly after October 15 each year announcing the number of authorizations available in the lottery, and the manner in which (*e.g.*, blocks of 2, 4, * * * 10 flights, depending on number available) and when applications will be entertained.

Transfer or Sales of Authorizations

Those commenters opposing any sales or transfers of flights among carriers argued that the U.S. government negotiated for these charter authorizations to benefit the public, not for the private benefit of lottery speculators. They claim that the only way to assure that speculators do not take part in the allocation process is to prohibit sales of authorizations.

DOT, while favoring aftermarket sale of authorizations obtained in the lottery, opposed sale of grandfather authorizations. It argued that there is no basis for rewarding with cash past efforts if the carrier does not intend to exploit the market position that the grandfather allotment was intended to preserve. DOT contrasted the sale of grandfather allocations with those from the lottery, arguing that in the lottery all carriers have an equal chance of obtaining authorizations and thus equal opportunity to monetarily profit should they choose to do so. OMB, on the other hand, urged us not to constrain the sale of grandfather authorizations, arguing that since we have decided to reward these carriers' prior efforts, we should not object to their liquidating their reward.

We have decided to permit the aftermarket sale or transfer of both grandfather and lottery authorizations, because it promises the quickest, most efficient transfer of rights to carriers that will redeem the public benefits of them. We are not persuaded by the arguments of the opponents to do otherwise. While we too are concerned that carriers may participate in the allocation process merely for purposes of speculation, we find that the benefits associated with aftermarket sales of authorizations *vis-a-vis* Board reallocation are so substantial as to outweigh our concerns on speculators.

There is no question that these authorizations have value; the fact that one carrier may be willing to pay another to obtain an authorization merely acknowledges that value. However, that a carrier may profit from the sale of authorization is a peripheral consideration. The important thing here is that we find that the sale or transfer of flights in the market without undue government interference appears to us to be the most effective means of assuring that these authorizations are ultimately placed in the hands of carriers having the greatest desire and ability to use them.

Even the best intentioned carriers may find that they are not in a position to market or operate a flight or program to Japan. Intercarrier transfers allow for immediate reallocation of the flights to the carriers in the best position to use them. Government reallocation by any system, on the other hand, necessarily introduces unacceptable delay in the redistribution of the flights, is burdensome to administer and for carriers to participate in, and does not have the qualities of a free market that tend to ensure an effective redistribution. Thus, for example, Transamerica's proposal for a monthly redistrubution system would cause delays in the transfer of authorizations; these delays could be far longer than the one-month period suggested by the proposal since flights programmed for late year months will not be available for reallocation until then. It also would impose heavy paperwork burdens on us and the industry, and, since the "back-up" list is predetermined, would offer little promise that the reallocated flights would go to the most earnest users—an objective that becomes increasingly important as the allotment year progresses. Moreover, to require carriers to establish monthly operating plans and then penalize them for failure to adhere to them, as Transamerica's proposal would have us do, would require avid surveillance on our part and would

[13] Transamerica proposed an alternative redistribution and penalty system of its own that would require carriers receiving authorizations to submit to us a plan of intended usage by month. Authorizations planned but not used would be "recaptured" by us and redistributed through a random lottery mechanism; carriers would not be assessed a penalty in the first year on these returned flights but would be in later years on a one-to-one basis; and flights assigned to the end of the year and allowed to go unused would be penalized on a two-for-one basis.

deprive carriers of needed flexibility to rearrange their flights in accordance with market demands or unexpected occurrences. Further, it may result in inefficient use of the flights as carriers try to operate "according to plan" rather than in accordance with public demands.

In sum, having reviewed a variety of government reallocation systems, we see none that will allow prompt and effective redistribution with minimal government interference in carrier management decisions, and we conclude that only by allowing aftermarket sales and transfers among carriers will these properties be achieved. If abuse or undesirable consequences do result, contrary to our expectations, we will have the power to modify the transfer provisions as necessary.

Transamerica had asked that we include in the rule a mechanism providing for substitute service in certain circumstances. Since we are allowing for intercarrier transfers, such a provision is not necessary.

We are adopting DOT's suggestion and modifying our transfer provisions set forth in § 320.12, to allow any carriers to participate in the aftermarket if they meet our eligibility requirements at the time of the transfer.

Penalties

The majority of commenters opposed our proposal to impose a penalty on inter-carrier transfers or sales of authorizations, including those obtained in the lottery. On review of the comments and upon further consideration, we have decided not to adopt penalties on the transfer of authorizations obtained in the lottery. As explained in the preceding section, we believe that the transfer mechanism encourages the earliest exchange and the most efficient use of these authorizations. Any penalty on the transfer or sale of lottery authorizations, which all eligible carriers have an equal chance of obtaining, would serve to inhibit their best use by deterring transfer. Thus, in the absence of any convincing reasons to the contrary, we see no need to impose penalties on the transfer of authorizations obtained in the lottery.

The situation is somewhat different with respect to the grandfather allotments. Although OMB argues that no constraints should be placed on the transfer of these authorizations, we disagree and believe that a limited penalty provision is appropriate. Under the procedures we are adopting, the grandfather carriers are receiving a special, preferential allotment in order to maintain the level of their past operations in the U.S.-Japan market. While we believe these carriers should, for the sake of efficiency, be permitted to transfer their grandfather authorizations if they so choose, we do not believe that after doing so they should retain a right to receive the same number of these special grandfather entitlements in future years. Rather, we believe that a one-for-one reduction of future-year grandfather authorizations is warranted. While Transamerica argued for a two-for-one reduction as the optimal penalty, and Pan American and FTL suggested that grandfather carriers be guaranteed an irreducible minimum number of authorizations, we find that a one-for-one penalty is preferable since it will result in a reduction of authorizations in future years commensurate with the number of authorizations the carrier has chosen to relinquish. We will, however, permit carriers to transfer up to ten percent of their grandfather authorizations without incurring a penalty, in recognition of the fact that unexpected operational problems beyond the control of these carriers may make some grandfather transfers unavoidable. In addition, to enable the grandfather carriers to avoid otherwise foreseeable penalty, we will allow them two days following actual notice of this rule within which to return to us any grandfather authorizations they do not desire to hold.

The situation we particularly want to prevent is for an authorization, whether grandfather or lottery, to expire unused at the end of a year. We believe this would occur only rarely. Each such occurrence, however, would deprive the public, as well as U.S. carriers, of an incremental but significant portion of the rights negotiated in the interim agreement. We wish to stress in the strongest possible terms that we expect carriers to use, or to transfer to carriers which will use, all the authorizations we confer. To further discourage the waste of authorizations, we will impose a penalty of two authorizations in future years for any authorization a carrier permits to expire unused.

In its comments, FTL argued that under the terms of the delegation's commitment to it, its grandfather authorizations may not be reduced below 80 flights in any year by virtue of any penalty we may impose. FTL is incorrect. There is no support in the record for the carrier's position, and we have no other corroboration that the delegation's commitment to FTL extended to this particular point. As a matter of discretion, we decline to afford this special protection to the grandfather carriers.

Certain commenters suggested that penalties on the first year's authorizations should be less harsh than for later years. Another commenter argued that we should review carriers' performance at the end of each year to determine whether there are special conditions that require some relief in the normal penalty provision. We disagree with both proposals. Given the carrier demand we perceive for these authorizations in the first year, and the freedom we are permitting carriers to transfer authorizations among themselves to avoid or minimize penalties, we see no need to reduce penalties in the first year or make provision to review individual carrier requests for relief of the penalty provision.

Although OMB stated a preference for no penalty system, it set forth an alternative penalty system that it considered to be more effective than that which we proposed. This system provided that carriers should pay cash penalties in some circumstances.

We considered OMB's suggestion of a cash penalty system and have decided not to adopt it. We believe that the penalty system we are adopting, that of flight forfeiture and redistribution, is adequate to discourage carriers from wasting flights, and more closely corresponds to the nature of the offense.

We also find that a cash penalty system would likely cause problems out of proportion to the benefits it would provide. First, a system of monetary fines would result in the transfer of carrier monies from the industry to the government, depriving carriers of capital which would be better utilized in their operations. Second, we believe that a monetary penalty system is unnecessarily harsh in view of the nature of the transgression—that of failing to use a privilege bestowed by the government. Third, we have no experience in this area, doubt the accuracy with which we could calibrate the fines, and find that the concept raises substantial legal and policy questions which cannot be resolved in time to permit prompt completion of this rulemaking proceeding. Unless there proves a compelling need for such a system, and an absence of workable, less Draconian alternatives (a situation which does not exist here), we are not prepared to adopt such an untried approach.

Reallocation of Forfeited Authorizations

We are adding a new section to the rule to govern future year allocations of forfeited authorizations. Reallocations of these flights will be accomplished in

much the same manner as our initial allocation, *i.e.*, we will distribute the flights through lottery, with participation open to any carriers that, at the time the lotteries are held, meet the eligibility criteria of the rule, except for the carriers relinquishing authorizations due to penalties. We expect the number of authorizations available for reallocation to be quite small, and, therefore, it may not be feasible to invite applications in blocks of 10 flights. We will issue an order shortly after the end of each allocation year establishing the number of authorizations available to be reallocated, and the manner in which and when applications will be entertained.

Delegation of Authority

In an accompanying rulemaking, OR–200, we are delegating to the Director, Bureau of International Aviation, authority to take actions necessary to implement this rule.

Regulatory Flexibility Act

In PDR–79, the Board certified that this rule would not, if adopted as proposed, have a significant economic impact on a substantial number of small entities. As noted in the NPRM, none of the direct air carriers effected by the Interim Agreement is a small business. The allocation of direct carrier charter authorizations will indirectly affect charter operators and other charterers, some of which are small businesses, by limiting their choices of direct carriers. This result is primarily attributable to the underlying Interim Agreement, and the marginal economic impact of the proposed allocation procedures on these businesses is not significant. No comments were filed in response to the Board's negative certification of the proposed rule, and the Board knows of no other reason to change the negative certification.

Members' Statements

Vice Chairman Bailey and Member Schaffer concurred in the adoption of this rule. Chairman McKinnon and Member Dalley concurred and dissented. Member Smith dissented. Chairman McKinnon, Member Dalley and Member Smith filed the following separate statements.

McKinnon, Chairman, Concurring and Dissenting

The Japan Charter Rule, which the Board adopts today, will enable U.S. travelers and shippers to realize significant benefits from our Interim Agreement with Japan.

However, I cannot agree to a system that will reward speculators with money profits from selling something the Government gave them free.

Under this system, an airline can get charter authorizations without paying for them or earning them in any other way—just by being lucky in our lottery. There isn't anything wrong with that if the airline then uses its flight authorizations for the good of the people for whom we got them in the first place.

A lottery is an efficient method of allocation but winners in the lottery or grandfather rights recipients should not be allowed to sell their rights and receive unearned profits.

The majority has been persuaded that allowing such sales will make more effecient use of the rights.

That may be true, but it does not overcome my opposition to buying and selling these rights. The American work ethic says to earn money you need to perform some service or work for it. This is a giveaway of something of value by the government to a commercial company for nothing.

This charter agreement was negotiated for the public interest—sale of charters only raises the cost to the consumer.

Why negotiate a deal for the U.S. traveling public then give an airline a chance to make money by selling that right and increase the cost to the traveling public?

It's just plain not fair or right.

I cannot concur in that part of the rule.

Dan McKinnon.

Member Dalley, Concurring and Dissenting

I agree with the majority of my colleagues on all major aspects of this rule allocating charter flights in the U.S.-Japan market except for those provisions which award unwarranted preferential treatment to selected carriers through grandfather access to most of these scarce flights.

From the U.S. Government standpoint, the principal purpose of the charter agreement should be to open the U.S.-Japan market to additional competition for the benefit of the travelling and shipping public. The U.S. Government should not be in the business of negotiating private rights for specific U.S. carriers. The grandfathering of more than half of the limited charter capacity in this market for the full duration of the agreement is inconsistent with our policy objective of maximizing competitive market entry. It will inhibit new carriers from gaining a foothold in this market and will retard the development of new marketing techniques to serve the public. It seems to signal a return to the mercantilist trading practices that prevailed prior to Chairman Kahn's tenure at the Board and against which he argued so eloquently.

Although I agree with the majority that a lottery system is a very satisfactory method of allocating these scarce resources, I am disappointed that we did not come up with a system that would have put more downward pressure on charter, and ultimately on scheduled, prices in this market. Given the limited window the Japanese have opened to us, I expect that the prices charged for these flights will not offer a significant discount from the prevailing scheduled service prices. While this is the result that the free market produces in a limited supply situation, this is not a free market and I would have been more satisfied if we could have traded obvious U.S. carrier interest in securing access to these very valuable rights for significant price concessions on their part to benefit the public.

George A. Dalley.

Smith, Member, Dissenting

I reject the notion that the United States should allow any carrier's interests in international route rights granted to it by this country to set the boundaries within which the U.S. can negotiate increased opportunities for the traveling public and for all carriers interested in that market. Every negotiation is a balancing process. If we allow the carriers the ultimate decision on when the appropriate balance has been struck, we have abdicated our responsibilities in the negotiating arena. The grandfathering aspects of this order tend toward compensating incumbent carriers because of new competition and new opportunities for the public to select from a broader spectrum of fares and services.

Assuming it is true that U.S. carrier demand for U.S.-Japan charters is "likely to be far in excess of the 300 flights available," then a lottery would be one acceptable way of distributing the flights. However, I would not permit the carriers that won in the lottery to turn around and sell those flights. These are rights which the U.S. government has negotiated to benefit the flying public. These rights will also be a benefit to carriers that receive a share of those flights and operate them profitably. We grant carriers these benefits so they may perform for the benefit of the public, not so they can derive financial gain without the concomitant service requirement. It is little consolation that by allowing sales after the lottery, these flights will eventually end up in the hands of a carrier that will actually operate them. Just as with slot sales at capacity controlled domestic airports, third parties who added nothing to the transportation system would be unduly enriched at the expense of the consumer who would be expected to pay the total cost of the travel in the fare level.

If the charter market will really exceed the available charters, then restricting the lottery to carriers that want to serve it, by removing the windfall profit aspect, should ensure that all charter allocations are used. To take care of the infrequent situation where a flight is not used, the carrier could be penalized a part or all of its allocation for the next year. Alternatively, carriers could be required to make a deposit for each block of flights won in the lottery. The deposit would be returned upon the successful completion of the flights. Either method would keep carriers out of the bidding who were not confident of their ability to operate the flights.

James R. Smith.

List of Subjects in 14 CFR Part 320

Charter flights, Reporting requirements, Treaties.

Accordingly, the Civil Aeronautics Board adds a new Part 320 to Chapter II of Title 14, Code of Federal Regulations, to read:

PART 320—PROCEDURES FOR AWARDING JAPANESE CHARTER AUTHORIZATIONS

Subpart A—General Provisions

Sec.
320.1 Purpose.
320.2 Applicability.
320.3 Definitions and terminology.
320.4 Charter authorizations.
320.5 Related carriers counted as one.

Subpart B—Specific Procedures

320.10 Allocation.
320.11 Grandfather allotment.
320.12 Initial lottery.
320.13 Final order.
320.14 Transfer of charter authorizations.
320.15 Unused charter authorizations.
320.16 Secondary lotteries.
320.17 Notice of intent to use charter authorizations.
320.18 Report of charter authorizations used.

Authority: Secs. 204, 401, 407, 1102, Pub. L. 85–726, as amended, 72 Stat. 743, 754, 766, 797; 49 U.S.C. 1324, 1371, 1377, 1502.

Note.—The application, reporting, and recordkeeping requirements contained in § 320.12, 320.14, 320.16, 320.17, and 320.18 have been approved by the Office of Management and Budget under number 30240055.

Subpart A—General Provisions

§ 320.1 Purpose.

This part sets out procedures by which the Board will award air carriers the authority to perform the charter flights authorized by the September 7, 1982, Memorandum of Understanding concerning bilateral aviation relations between the United States and Japan. That memorandum provides that each country's direct air carriers may perform 300 one-way charter flights between the two countries each year in accordance with country-of-origin rules.

§ 320.2 Applicability.

This part applies to United States direct air carriers with respect to charter flights between the U.S. and Japan beginning on October 1, 1982.

§ 320.3 Definitions and terminology.

(a) "Charter flight authorization" means the authority to perform one of the 300 annual one-way charter flights between the United States and Japan authorized in the Memorandum of Understanding described in § 320.1.

(b) A charter authorization is "used" when the flight is performed.

(c) An "allocation year" runs from October 1 through September 30 and is used as a reference for reporting requirements and reallocation of forfeited authorizations.

§ 320.4 Charter authorizations.

(a) No charter flights between the United States and Japan shall be operated except in accordance with a charter authorization awarded or acquired under this part.

(b) A charter flight award obtained through the grandfather allotment or the initial lottery shall entitle the holder to authorizations for each of the three years beginning October 1, 1982, with the following exceptions:

(1) A charter flight authorization for an allocation year that has not been used by September 30 of that year will result in a penalty of a forfeiture of two charter flight authorizations for the remaining allocation years, as provided in § 320.15;

(2) A charter flight authorization obtained in a secondary lottery shall not continue beyond the time period remaining for the original, forfeited award that it supersedes;

(3) The Board will review the procedures provided by this part 18 months after adoption and make changes after notice and opportunity for public comment as necessary.

(c) Each flight authorization shall be assigned an identification number by the Bureau of International Aviation at the beginning of the initial allocation period.

§ 320.5 Related carriers counted as one.

Two or more air carriers that are related will be considered as a single air carrier for the purposes of this part. One carrier is related to another carrier if it controls, is controlled by, or is under common control with the other carrier.

Subpart B—Specific Procedures

§ 320.10 Allocation.

The Board will make a grandfather allotment of charter authorizations as set forth in § 320.11. The rest of the charter flights will be allocated by lottery as set forth in §320.12.

§ 320.11 Grandfather allotment.

(a) An air carrier is eligible for a grandfather allotment if it:

(1) Was designated, as of 1981 to provide schedule air transportation between the United States and Japan, or

(2) Performed any charter flights between the United States and Japan in 1975.

(b) Except as set forth in paragraph (c) of this section, the number of charter authorizations that an eligible air carrier will receive in a grandfather allotment is equal to 1.18 times the number of one-way charter flights that the carrier performed between the United States and Japan in—

(1) 1981, for air carriers that are described in paragraph (a)(1) of this section;

(2) 1975, for other air carriers that are described in paragraph (a)(2).

(c) An eligible air carrier that wishes to receive fewer charter authorizations than the number it would receive under paragraph (b) of this section shall so notify the Board within 2 days after it receives notice of the issuance of this part. The Board will reduce the carrier's grandfather allotment accordingly.

§ 320.12 Initial lottery.

(a) An air carrier is eligible to participate in the lottery, whether or not it is eligible for a grandfather allotment under § 320.11, if, as of the date of the lottery, it—

(1) Holds a charter certificate authorizing transpacific service or a schedule route certificate;

(2) Holds FAR 121 operating authority from the Federal Aviation Administration; and

(3) Is an operating air carrier that possesses aircraft having an over-water range at maximum payload of at least 3000 statute miles.

(b) The Board will issue an order announcing the total number of charter authorizations to be available in the lottery and inviting eligible air carriers to submit applications for them.

(c) Each application shall be for a block of 10 one-way flights. Each eligible air carrier may submit more than one application, but the aggregate number of authorizations sought by any one air carrier shall not exceed the total number available as announced in the Board's order issued under paragraph (b) of this section.

(d) The Board will grant applications for charter authorizations by random drawing, without replacement of drawn applications, from among all timely filed applications. The drawing will continue until all available charter authorizations have been granted. If the last application drawn requests more charter authorizations than there are remaining, only the remaining ones will be awarded pursuant to that application.

(e) Carriers holding charter authorizations under the grandfather provisions will be limited to a maximum award of 100 one-way flights, considering both grandfather and lottery awards. No one carrier may receive through the lottery process alone more than 50 one-way flights.

§ 320.13 Final order.

The Board will issue an order awarding charter authorizations in

accordance with the grandfather allotments and the lottery.

§ 320.14 Transfer of charter authorizations.

(a) Any air carrier holding a charter authorization awarded or acquired by it under this part may transfer it, for any consideration, to any other air carrier that meets the criteria set forth in § 320.12(a) as of the time of transfer.

(b) There shall be no penalty for the transfer of a charter authorization obtained in an initial or secondary lottery.

(c) An air carrier may transfer up to 10 percent of its grandfather authorizations for a given year without penalty. The base number shall not include any grandfather authorizations declined under § 320.11(c). A carrier's charter flight authorization for the remaining allocation years shall be reduced on a one-to-one basis for each flight beyond the 10 percent figure that it transfers, and the carrier may not participate in any following secondary lotteries.

(d) A transfer of a charter authorization shall not become effective until the transferring air carrier files a notice in duplicate with the Director, Bureau of International Aviation. The notice shall be labeled "Notice of Transfer of Japan Charter Authorization," and identify the transferred charter authorization by the flight authorization number(s) assigned under § 320.3(d). It shall be filed within 15 days after the date of the transaction, but in any event before departure of the authorized flight, whether the flight is performed by the transferee or by any subsequent transferee. The notice shall indicate the number of charter authorizations transferred and the date of the transaction, and shall be signed by both the transferor and the transferee.

(e) An air carrier that transfers a charter authorization to another carrier shall retain for at least 1 year after the conclusion of the allotment year for which it was awarded a record of the consideration received for the transfer.

§ 320.15 Unused charter authorizations.

Any carrier that fails to use its charter flight authorization by September 30 of an allocation year shall be penalized in the remaining allocation years at the rate of two charter flight authorizations for each unused authorization. If this penalty results in a negative number, the carrier's allotment will be zero. The flight authorizations forfeited under this section shall be reallocated as provided in § 320.16.

§ 320.16 Secondary lotteries.

(a) Any charter authorization forfeited will be reallocated by the Board in a secondary lottery.

(b) Secondary lotteries will be open to all carriers that meet the eligibility requirements of § 320.12(a), except for carriers that have forfeited one or more flight authorizations under § 320.15, and carriers that have transferred more than 10 percent of their grandfather authorizations under § 320.14(c).

(c) The Board will issue an order shortly after the end of each allocation year establishing the number of authorizations available to be reallocated, and the manner in which and when applications will be entertained. These secondary lotteries will be held not later than November 1 of the following allocation year in which one or more charter flight authorizations were forfeited.

§ 320.17 Notice of intent to use charter authorization.

An air carrier shall file in duplicate with the Director, Bureau of International Aviation, a notice of its intention to use a charter authorization at least 7 days before departure of the flight. The notice shall be labeled "Notice of Intent To Use Japan Charter Authorization," and include the flight authorization number(s).

§ 320.18 Report of charter authorizations used.

Within 15 days after any month in which an air carrier uses a charter authorization, it shall file in duplicate a report with the Director, Bureau of International Aviation. The report shall be labeled "Report of Japan Charter Authorizations Used." It shall include identification numbers of the authorizations, flight itineraries, flight dates, aircraft type, and the number of passengers or cargo tons transported. Passenger and cargo figures may be aggregated for the month.

By the Civil Aeronautics Board.

Phyllis T. Kaylor,

Secretary.

BILLING CODE 6320-01-M

---

14 CFR Part 385

[Regulation OR-200; Amdt. No. 127]

Delegations and Review of Action Under Delegation; Nonhearing Matters

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: The CAB delegates authority to the Director, Bureau of International Aviation to implement the procedures for awarding and overseeing Japan charter authorizations as provided for in the September 7, 1982, Memorandum of Understanding between the United States and Japan and in 14 CFR Part 320.

DATES: Adopted: September 28, 1982. Effective: October 1, 1982.

FOR FURTHER INFORMATION CONTACT: Patricia L. DePuy, Assistant Chief, Regulatory Affairs Division, Bureau of International Aviation, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428; (202) 673-5878.

SUPPLEMENTARY INFORMATION: In an accompanying rulemaking, PR-251, the Board issued a new Part 320, *Procedures for awarding Japanese charter authorizations.* This final rule delegates authority to the Director, Bureau of International Aviation to implement those procedures and generally oversee the operation of that allocation and reporting system. The Director is delegated authority to establish procedures for, and hold, lotteries, award charter authorizations, assess penalties as provided for in Part 320 and extend the period for filing the required reports.

Since this is a rule of agency organization and procedure, the Board finds that notice and public procedure are unnecessary and that the rule may take effect in less than 30 days.

List of Subjects in 14 CFR Part 385

Administrative practice and procedure, Authority delegations.

PART 385—[AMENDED]

Accordingly, the Board amends 14 CFR Part 385, *Delegation and Review of Action Under Delegation; Nonhearing Matters,* as follows:

1. The authority for Part 385 is:

Authority: Secs. 102, 204, 401, 402, 403, 407, 416, Pub. L. 85-726, as amended, 72 Stat. 740, 743, 754, 758, 766, 771, 49 U.S.C. 1302, 1324, 1371, 1372, 1373, 1377, 1386; Reorganization Plan No. 3 of 1961, 26 FR 5989.

2. A new paragraph (cc) is added to § 385.26 to read as follows:

§ 385.26 Delegation to the Director, Bureau of International Aviation.

The Board delegates to the Director, Bureau of International Aviation the authority to:

* * * * *

(cc) With respect to the procedures for awarding Japan charter authorizations under Part 320 of this chapter:

(1) Establish procedures for, and hold, lotteries;

(2) Award the charter authorizations;

(3) Assess penalties as described in Part 320;

(4) Extend the period for filing the required reports.

By the Civil Aeronautics Board.

Phyllis T. Kaylor,

Secretary.

BILLING CODE 6320-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 106

[Docket No. 80N-0025]

Infant Formula Quality Control Procedures

AGENCY: Food and Drug Administration.

ACTION: Final rule; confirmation of effective date.

SUMMARY: The Food and Drug Administration (FDA) is confirming the effective date of the final rule establishing infant formula quality control procedures. FDA has reviewed the comments received in response to the final rule and concludes that no arguments were presented that convince the agency that any changes in the final rule are necessary. Therefore, no changes are made in the final rule at this time.

EFFECTIVE DATE: The provisions of the final rule became effective July 19, 1982.

FOR FURTHER INFORMATION CONTACT: F. Edward Scarbrough, Bureau of Foods (HFF-204), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-245-3117.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of April 20, 1982 (47 FR 17016), FDA issued a final rule establishing quality control procedures for infant formulas in accordance with the Infant Formula Act of 1980 (Pub. L. 96-359; 94 Stat. 1190) (section 412 of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 350a)). FDA provided a 30-day comment period, during which 20 comments from individuals, consumer groups, and industry were received. Most of the comments from individuals said that there should be a single uniform quality control procedure for infant formula. Other comments said that the regulations were too flexible and allow infant formula manufacturers to set their own controls. Some comments suggested specific changes to the final rule. The American Nurses' Association supported the final rule.

FDA did not require a single uniform quality control system for all manufacturers because of the variances in manufacturing processes, practices, and equipment (see comment 17 of the final rule). The agency believed then, and believes now, that no single type of system would be appropriate for all manufacturers. Consequently, FDA affirms its conclusion that a manufacturer may establish any reasonable quality control system as long as it follows the requirements of 21 CFR Part 106.

The remaining comments, in general, concerned matters that were commented on previously and are answered in the preamble to the final rule.

The agency continues to believe that the provisions of the final rule will provide additional assurances of product safety and nutritional adequacy and will carry out the act's intent. Therefore, the agency concludes that no changes are necessary, and no changes are made in the final rule at this time.

Dated: September 24, 1982.

Mark Novitch,

Acting Commissioner of Food and Drugs.

[FR Doc. 82-26855 Filed 9-30-82; 8:45 am]

BILLING CODE 4160-01-M

21 CFR Part 137

[Docket No. 80P-0022]

Cereal Flours and Related Products; Confirmation of Effective Date and Correction

AGENCY: Food and Drug Administration.

ACTION: Final rule; confirmation of effective date and correction.

SUMMARY: The Food and Drug Administration (FDA) is confirming the effective date for compliance with all provisions of the amended standards of identity for flour and whole wheat flour to allow the optional ingredient "α-amylase obtained from *Aspergillus oryzae"* to be declared alternatively as "Fungal *alpha*-amylase" (or "Fungal α-amylase), "Enzyme", or "Enzyme added for improved baking". The agency also is making some minor corrections to the final rule.

DATES: Effective July 1, 1983, for all affected products initially introduced or initially delivered for introduction into interstate commerce on or after this date. Voluntary compliance may have begun August 9, 1982.

FOR FURTHER INFORMATION CONTACT: F. Leo Kauffman, Bureau of Foods (HFF-214), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-245-1164.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of June 8, 1982 (47 FR 24692), FDA published a final rule amending the standards of identity for flour (21 CFR 137.105) and whole wheat flour (21 CFR 137.200) to allow the listing of the optional ingredient "α-amylase obtained from *Aspergillus oryzae"* to be declared alternatively as "Fungal *alpha*-amylase" (or "Fungal α-amylase"), "Enzyme," or "Enzyme added for improved baking". Any person who would be adversely affected by the regulation could have, on or before July 8, 1982, filed written objections to the final regulation and requested a hearing on the specific provisions to which there were objections. No objections or requests for a hearing were received. However, FDA is making some minor corrections.

The summary and preamble to the June 8, 1982 final rule stated that the subject ingredient may be declared alternatively as "Fungal *alpha*-amylase" (or "Fungal α-amylase"), "Enzyme", or "Enzyme added for improved baking". However, in §§ 137.105 and 137.200 the alternative term "Fungal *alpha*-amylase" was not included. Therefore, corrections are now being made to include this term. In addition, to be consistent with §§ 137.105(a) and 137.200(a), the agency is changing the Greek word "*alpha*" to the letter "α" in paragraph (b).

List of Subjects in 21 CFR Part 137

Cereal, Flour, Food standards.

PART 137—CEREAL FLOURS AND RELATED PRODUCTS

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 401, 701(e), 52 Stat. 1046 as amended, 70 Stat. 919 as amended (21 U.S.C. 341, 371(e))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), notice is given that the effective date for compliance with 21 CFR 137.105 and 137.200 as amended in the **Federal Register** of June 8, 1982 (47 FR 24692) is July 1, 1983. Voluntary compliance may have begun August 9, 1982.

Additionally, in FR Doc. 82-15276 appearing at page 24692, in the issue of Tuesday, June 8, 1982, the following corrections are made:

§ 137.105 [Corrected]

1. On page 24693, first column, under § 137.105(b)(2), fourth line, change "*alpha*" to "α"; and in the seventh line, add "Fungal *alpha*-amylase," at the end of the line.

§ 137.200 [Corrected]

2. On page 24693, second column, under § 137.200(b)(2), fourth line, change "*alpha*" to "α"; and in the seventh line, add "Fungal *alpha*-amylase," at the end of the line.

Dated: September 22, 1982.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

21 CFR Part 146

[Docket No. 78N-0236]

Grapefruit Juice; Standards of Identity; Termination of Stay of Effectiveness, Confirmation of Effective Date, and Further Amendment

AGENCY: Food and Drug Administration.

ACTION: Final rule; termination of stay, confirmation of effective date, and further amendment.

SUMMARY: The Food and Drug Administration (FDA) is confirming the effective date for compliance with the June 4, 1982 amendments to the standards of identity for grapefruit juice that revised the acidity requirement, provided for grapefruit hybrids, and removed the alternative name "reconstituted grapefruit juice." FDA is further amending the standards of identity for grapefruit juice to set the minimum soluble solids requirement for "grapefruit juice from concentrate" at 10-percent soluble solids. This action is based on a review of recent data and information on the issue submitted in support of an objection that stayed this provision of the identity standards for grapefruit juice. This document also terminates that stay of effectiveness.

DATES: Compliance with the provision being revised herein may begin December 30, 1982. Effective July 1, 1985, for all affected products initially introduced or initially delivered for introduction into interstate commerce on or after this date.

Objections to the provision being revised herein by November 1, 1982. The agency is also providing under § 12.20(e) (21 CFR 12.20(e)), for those interested persons objecting to the final regulation on or before November 1, 1982, an opportunity to submit additional information supporting the objection until December 30, 1982.

Compliance with the three provisions amended in the **Federal Register** of June 4, 1982 (47 FR 24286), revising the acidity requirement, providing for grapefruit hybrids, and removing the alternative name "reconstituted grapefruit juice," including any labeling changes, may have begun August 3, 1982, and all affected products initially introduced or initially delivered for introduction into interstate commerce on or after July 1, 1983, shall fully comply.

ADDRESS: Written objections to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: F. Leo Kauffman, Bureau of Foods (HFF-214), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-245-1164.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of January 27, 1981 (46 FR 8462), FDA published a final regulation establishing standards of identity and fill of container (21 CFR 146.132 (a) and (c), respectively) for grapefruit juice. In the **Federal Register** of June 4, 1982 (47 FR 24286), FDA published a final regulation further amending the standard of identity for grapefruit juice by revising the correction for acidity, removing "reconstituted grapefruit juice" as an alternative name for "grapefruit juice from concentrate," and providing for up to 10 percent by volume of the unfermented juice obtained from mature hybrids of grapefruit. The June 4, 1982 final rule also confirmed the effective date of all provisions of the January 27, 1981 final rule, except for the minimum 9-percent grapefruit soluble solids requirement for "grapefruit juice from concentrate," the effective date of which was stayed pending resolution of whether a public hearing was required.

The State of Florida, Department of Citrus, the Florida Citrus Commission, the Florida Citrus Processors Association, and the Florida Citrus Mutual Inc., jointly, objected in writing to § 146.132(a)(1), which set the minimum requirement for grapefruit soluble solids in "grapefruit juice from concentrate" at 9 percent, and asked that the minimum requirement be set at 10 percent. Sunkist Growers, Inc., also supported a 10-percent grapefruit soluble solids requirement. The objectors argued that 9-percent soluble solids does not represent the average soluble solids of grapefruit; that there is no technical difficulty in producing "grapefruit juice from concentrate" containing 10-percent soluble solids rather than 9 percent; and that the effect of a 9-percent minimum soluble solids requirement for "grapefruit juice from concentrate," in most instances, will be to dilute the finished product to a level substantially below that of the juice from the fruit of which the concentrate was made.

FDA now understands, based on the data submitted in response to the June 4, 1982 final rule and other available data and information, that the preponderance of grapefruit produced in the United States contains an average Brix (soluble solids) of 10 percent or greater. Further, the agency understands that no concentrated grapefruit juice is imported for use in this country, thus diminishing any impact of the fact that the Codex standard is 9 percent. Therefore, FDA concludes that it will promote honesty and fair dealing in the interest of consumers to revise § 146.132(a)(1) to establish that "grapefruit juice from concentrate" shall contain not less than 10 percent, by weight, of soluble solids, exclusive of added sweeteners.

List of Subjects in 21 CFR Part 146

Canned fruit juice, Food standards, Fruit juices.

PART 145—CANNED FRUIT JUICES

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 401, 701(e), 52 Stat. 1046 as amended, 70 Stat. 919 as amended (21 U.S.C. 341, 371 (e))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), notice is given that the effective date for complying with the June 4, 1982 (47 FR 24286) amendments of the standards of identity for grapefruit juice (§ 146.132(a) (1) and (3)(i)(*b*)) that revised the acidity requirements, provided for grapefruit hybrids, and removed the alternative name "reconstituted grapefruit juice" is July 1, 1983. The stay of effectiveness of the minimum 9-percent soluble solids requirement for "grapefruit juice from concentrate" is terminated. In addition, § 146.132 *Grapefruit juice* is amended in the seventh sentence in paragraph (a)(1) by changing the phrase "not less than 9 percent," to "not less than 10 percent,".

Any person who will be adversely affected by the foregoing amendment to the final regulation as set forth above may at any time on or before November 1, 1982, submit to the Dockets Management Branch (address above) written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection

shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held: failure to include such a description and anlysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Three copies of all documents shall be submitted and shall be identified with the docket number found in brackets in the heading of this regulation. Received objections may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday. The agency is also providing, under § 12.20(e) (21 CFR 12.20(e)), for those interested persons objecting to the final regulation on or before November 1, 1982, an opportunity to submit additional information supporting the objection until December 30, 1982. The agency is providing the additional 60 days for the submission of information supporting any objections to eliminate any hardship in compiling such information that may be caused by the agency's decision to adopt the 10-percent soluble solids standard at this point in this proceeding.

Effective date. Except as to the amendment that may be stayed by the filing of proper objections, compliance with this amendment to the final regulation may begin December 30, 1982. Except as to the provision being herein revised, the effective date of those amendments to the standards of identity for grapefruit juice in the **Federal Register** of June 4, 1982 that revised the acidity requirements, provided for grapefruit hybrids, and removed the alternative name "reconstituted grapefruit juice" is confirmed as follows: Compliance with this regulation, except for the minimum 10-percent grapefruit soluble solids requirement for "grapefruit juice from concentrate," including any required labeling changes, may have begun August 3, 1982, and all affected products initially introduced or initially delivered for introduction into interstate commerce on or after July 1, 1983, shall fully comply. The mandatory compliance date for the minimum 10-percent soluble solids requirement for "grapefruit juice from concentrate" shall be July 1, 1985. Notice of the filing of objections or lack thereof will be published in the **Federal Register.**

(Secs. 401, 701(e), 52 Stat. 1046 as amended, 70 Stat. 919 as amended (21 U.S.C. 341, 371(e)))

[Docket No. 81F-0357]

Indirect Food Additives; Paper and Paperboard Components

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the food additive regulations to provide for the safe use of poly(diallyldimethylammonium chloride) as a flocculant in the clarification of water used to manufacture food-contact paper and paperboard. This action is in response to a petition filed by Calgon Corp.

DATES: Effective October 1, 1982; objections by November 1, 1982.

ADDRESS: Written objections to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Anthony P. Brunetti, Bureau of Foods (HFF-334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: In a notice published in the **Federal Register** of December 4, 1981 (46 FR 59309), FDA announced that a petition (FAP 8B3372) has been filed by Calgon Corp., Calgon Center, Box 1346, Pittsburgh, PA 15230, proposing that § 176.170 (21 CFR 176.170) be amended to provide for the safe use of poly (dimethyldiallylammonium chloride) as a coagulant aid in the clarification of water used in the manufacture of food-contact paper and paperboard.

FDA has evaluated the data in the petition and other relevant material and concludes that the proposed use is safe, and that § 176.170 should be amended as set forth below, but that the additive is more properly identified as poly(diallyldimethylammonium chloride). This regulation will list the compound under that name.

In accordance with § 171.1(h) (21 CFR 171.1(h)), the petition and the documents that FDA considered and relied upon in reaching its decision to approve the petition are available for inspection at the Bureau of Foods (address above) by appointment with the information contact person listed above. As provided in 21 CFR 171.1(h)(2), the agency will remove from the documents any materials that are not available for public disclosure before making the documents available for inspection.

The agency has previously considered the potential environmental effects of this regulation as announced in the notice of filing published in the **Federal Register.** No new information or comments have been received that would alter the agency's previous determination that there is no significant impact on the human environment and that an environmental impact statement is not required.

List of Subjects in 21 CFR Part 176

Food additives, Food packaging, Paper and paperboard.

PART 176—INDIRECT FOOD ADDITIVES: PAPER AND PAPERBOARD COMPONENTS

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 72 Stat. 1784-1788 as amended (21 U.S.C. 321(s), 348)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), Part 176 is amended in § 176.170(a)(5) by alphabetically inserting a new item in the list of substances, to read as follows:

§ 176.170 Components of paper and paperboard in contact with aqueous and fatty foods.

* * * * *

(a) * * *

(5) * * *

List of substances	Limitations
* * * * *	
Poly(diallyldimethylammonium chloride) (CAS Reg. No. 26062-79-3) produced by the polymerization of diallyldimethylammonium chloride so that the finished resin has a nitrogen content of 8.66±0.4 percent on a dry basis and a minimum viscosity in a 15-weight percent aqueous solution of 10 centipoises at 25° C (77° F), as determined by LVF Model Brookfield viscometer using a No. 1 spindle at 60 r.p.m. (or equivalent method). The level of residual monomer is not to exceed 1 weight percent of the polymer (dry basis).	For use only as a flocculant employed prior to sheet-forming operation in the manufacture of paper and paperboard, and used at a level not to exceed 10 mg/L (10 parts per million) of effluent water.
* * * * *	

Any person who will be adversely affected by the foregoing regulation may at any time on or before November 1, 1982 submit to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers

Lane, Rockville, MD 20857, written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Three copies of all documents shall be submitted and shall be identified with the docket number found in brackets in the heading of this regulation. Received objections may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Effective date. This regulation shall become effective November 1, 1982.

(Secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348))

Dated: September 23, 1982.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

21 CFR Parts 182, 184, and 186

[Docket No. 79N-0071]

GRAS Status of Bentonite and Clay (Kaolin)

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is affirming that bentonite is generally recognized as safe (GRAS) as a direct human food ingredient, and that clay (kaolin) is GRAS as an indirect human food ingredient. The safety of these ingredients has been evaluated under the comprehensive safety review conducted by the agency.

EFFECTIVE DATE: November 1, 1982.

FOR FURTHER INFORMATION CONTACT: Lawrence J. Lin, Bureau of Foods (HFF-335), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-426-8950

SUPPLEMENTARY INFORMATION: In the **Federal Register** of January 18, 1980 (45 FR 3598), FDA published a proposal to affirm that bentonite is GRAS for use as a direct human food ingredient, and that clay (kaolin) is GRAS for use as an indirect human food ingredient. The proposal was published in accordance with the announced FDA review of the safety of GRAS and prior-sanctioned food ingredients.

In accordance with § 170.35 (21 CFR 170.35), copies of the scientific literature review and the report of the Select Committee on GRAS Substances (the Select Committee) on bentonite and clay (kaolin) are available for public review in the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857. Copies of these documents also are available for public purchase from the National Technical Information Service as announced in the proposal.

In addition to proposing to affirm the GRAS status of bentonite and clay (kaolin), FDA gave public notice that it was unaware of any prior-sanctioned food ingredient uses for these ingredients other than the proposed conditions of use. Persons asserting additional or extended uses, in accordance with approvals granted by the U.S. Department of Agriculture or FDA before September 6, 1958, were given notice to submit proof of those sanctions, so that the safety of any prior-sanctioned uses could be determined, that notice was also an opportunity to have prior-sanctioned uses of bentonite and clay (kaolin) recognized by issuance of an appropriate regulation under Part 181—Prior-Sanctioned Food Ingredients (21 CFR Part 181) or affirmed as GRAS under Part 184 or 186 (21 CFR Part 184 or 186), as appropriate.

FDA also gave notice that failure to submit proof of an applicable prior sanction in response to the proposal would constitute a waiver of the right to assert that sanction at any future time.

No reports of prior-sanctioned uses for bentonite and clay (kaolin) were submitted in response to the proposal. Therefore, in accordance with the proposal, any right to assert a prior sanction for use of bentonite and clay (kaolin) under conditions different from those set forth in this final rule has been waived.

One comment was received in response to the agency's proposal on bentonite and clay (kaolin). The comment requested inclusion of a free swell test among the specifications for bentonite because the test will allow for rapid and simplified identification of bentonite, The method for the free swell test is described in the U.S. Pharmacopoeia XIX. The comment also requested that the impurity limits on arsenic and lead be raised from 3 to 5 and from 10 to 35 parts per million, respectively.

The agency agrees with the comment that a free swell test and increases in the impurity limits on arsenic and lead may be appropriate. The U.S. Pharmacopoeia method for the free swell test appears to be suitable, but the test method for the lead content suggested by the comment has not been validated. The agency therefore concludes that it is not appropriate to establish food-grade specifications for bentonite based on the limited information available to it at this time. Therefore, the agency is withdrawing the proposed specifications from this final rule.

The agency concludes that affirmation of bentonite as GRAS without detailed specifications does not represent a health problem. No bentonite has been found to be retained in processed food, and tests have shown that there is essentially no migration of lead or arsenic to food from bentonite. FDA will work with the Committee on Food Chemicals Codex of the National Academy of Sciences to develop acceptable specifications for this ingredient. If acceptable specifications are developed, the agency will incorporate them into this regulation at a later date. Until specifications are developed, FDA has determined that the public health will be adequately protected if commercial bentonite complies with the description in § 184.1155 and is of food-grade purity (21 CFR 170.30(h)(1) and 182.1(b)(3)).

The format of the final regulations is different from that in previous GRAS affirmation regulations. FDA has modified paragraph (c) of § 184.1155 and paragraph (b) of § 186.1256 to make clear the agency's determination that GRAS affirmation is based upon current good manufacturing practice conditions of use, including the technical effects listed. This change has no substantive effect but is made merely for clarity.

The agency has determined under 21 CFR 25.24(d)(6) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

The requirement for a regulatory flexibility analysis under the Regulatory Flexibility Act does not apply to this

final rule because the proposed rule was issued prior to January 1, 1981, and is therefore exempt.

In accordance with Executive Order 12291, FDA has carefully analyzed the economic effects of this rule, and the agency has determined that the rule is not a major rule as defined by the Order. A copy of the threshold assessment supporting this determination is on file with the Dockets Management Branch (address above).

List of Subjects

21 CFR Part 182

Generally recognized as safe (GRAS) food ingredients, Spices and flavorings.

21 CFR Part 184

Direct food ingredients, Food ingredients, Generally recognized as safe (GRAS) food ingredients.

21 CFR Part 186

Food ingredients, Generally recognized as safe (GRAS) food ingredients, Indirect food ingredients.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348, 371(a))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), Parts 182, 184, and 186 are amended as follows:

PART 182—SUBSTANCES GENERALLY RECOGNIZED AS SAFE

§ 182.90 [Amended]

1. In § 182.90 *Substances migrating to food from paper and paperboard products* by removing the entry for "Clay (kaolin)".

§ 182.1155 [Removed]

2. By removing § 182.1155 *Bentonite.*

PART 184—DIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE

3. In Part 184 by adding new § 184.1155 to read as follows:

§ 184.1155 Bentonite.

(a) Bentonite ($Al_2O_3 \cdot 4SiO_2 \cdot nH_2O$, CAS Reg. No. 1302–78–9) is principally a colloidal hydrated aluminum silicate. Bentonite contains varying quantities of iron, alkalies, and alkaline earths in the commercial products. Depending on the cations present, natural deposits of bentonite range in color from white to gray, yellow, green, or blue. Bentonite's fine particles provide large total surface area and, hence, pronounced adsorptive capability.

(b) FDA is developing food-grade specifications for bentonite in cooperation with the National Academy of Sciences. In the interim, the ingredient must be of a suitable purity for its intended use.

(c) In accordance with § 184.1(b)(1), the ingredient is used in food with no limitation other than current good manufacturing practice. The affirmation of this ingredient as generally recognized as safe (GRAS) as a direct human food ingredient is based upon the following current good manufacturing practice conditions of use:

(1) The ingredient is used as a processing aid as defined in § 170.3(o)(24) of this chapter.

(2) The ingredient is used in food at levels not to exceed current good manufacturing practice. Current good manufacturing practice results in no significant residue in foods.

(d) Prior sanctions for this ingredient different from the uses established in this section do not exist or have been waived.

PART 186—INDIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE

4. In Part 186 by adding new § 186.1256 to read as follows:

§ 186.1256 Clay (kaolin).

(a) Clay (kaolin) $Al_2O_3 \cdot 2SiO_2 \cdot nH_2O$, Cas Reg. No. 1332–58–7) consists of hydrated aluminum silicate. The commercial products of clay (kaolin) contain varying quantities of alkalies and alkaline earths. Clay (kaolin) is a white to yellowish or grayish fine powder. There are at least three different minerals, kaolinite, dickite, and nacrite, classified as kaolin. Kaolinite or china clay is whiter, less contaminated with extraneous minerals, and less plastic in water.

(b) In accordance with § 186.1(b)(1), the ingredient is used as an indirect human food ingredient with no limitation other than current good manufacturing practice. The affirmation of this ingredient as generally recognized as safe (GRAS) as an indirect human food ingredient is based upon the following current good manufacturing practice conditions of use:

(1) The ingredient is used in the manufacture of paper and paperboard that contact food.

(2) The ingredient is used at levels not to exceed current good manufacturing practice.

(c) Prior sanctions for this ingredient different from the uses established in this regulation do not exist or have been waived.

Effective date. This regulation is effective November 1, 1982.

(Secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348, 371(a)))

Dated: September 13, 1982.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

21 CFR Part 524

Ophthalmic and Topical Dosage Form New Animal Drugs not Subject to Certification; Nitrofurazone Soluble Powder

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a new animal drug application (NADA) filed by Medico Industries, Inc., providing for use of nitrofurazone soluble powder as a topical antibacterial on dogs, cats, and horses. The application provides labeling that reflects the conclusions of the National Academy of Sciences/National Research Council (NAS/NRC) review of such products.

EFFECTIVE DATE: October 1, 1982.

FOR FURTHER INFORMATION CONTACT: Sandra K. Woods, Bureau of Veterinary Medicine (HFV–114), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–3420.

SUPPLEMENTARY INFORMATION: Medico Industries, Inc., P.O. Box 338, Elwood, KS 66024, is sponsor of NADA 126–236 providing for use of a water soluble powder containing 0.2 percent nitrofurazone as a topical antibacterial on dogs, cats, and horses. This product is the generic equivalent of one codified for animal use in 21 CFR 524.1580c. That regulation provides that because the conditions of use were NAS/NRC reviewed and deemed effective, applications for these uses need not include certain effectiveness data as specified by 21 CFR 514.111. Bioavailability studies are not required because the product is intended solely for topical administration (21 CFR 320.22(b)(2)). Therefore, NADA 126–236 is approved on the basis of generic equivalence to an approved, NAS/NRC reviewed product. The regulations are amended to reflect this approval.

In accordance with the freedom of information provisions of Part 20 (21

CFR Part 20) and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

The Bureau of Veterinary Medicine has determined pursuant to 21 CFR 25.24(d)(1)(i) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

This action is governed by the provisions of 5 U.S.C. 556 and 557 and is therefore excluded from Executive Order 12291 by section 1(a)(1) of the Order.

List of Subjects in 21 CFR Part 524

Animal drugs, topical.

PART 524—OPHTHALMIC AND TOPICAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Bureau of Veterinary Medicine (21 CFR 5.83), Part 524 is amended by revising § 524.1580c(b), to read as follows:

§ 524.1580c Nitrofurazone soluble powder.

* * * * *

(b) *Sponsor.* See Nos. 000149 and 015562 in § 510.600(c) of this chapter.

* * * * *

Effective date. This amendment is effective October 1, 1982.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)))

Dated: September 22, 1982.

Lester M. Crawford,

Director, Bureau of Veterinary Medicine.

21 CFR Part 540

Penicillin Antibiotic Drugs for Animal Use; Penicillin G Procaine and Dihydrostreptomycin in Soybean Oil

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a new animal drug application (NADA) filed by Philips Roxane, Inc., providing for intramammary use of penicillin G procaine and dihydrostreptomycin in soybean oil in nonlactating dairy cattle.

EFFECTIVE DATE: October 1, 1982.

FOR FURTHER INFORMATION CONTACT: Richard A. Carnevale, Bureau of Veterinary Medicine (HFV–125), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–1788.

SUPPLEMENTARY INFORMATION: Philips Roxane, Inc., 2621 North Belt Highway, St. Joseph, MO 64502, filed NADA 55–097 providing for intramammary use of penicillin G procaine and dihydrostreptomycin for the treatment of subclinical mastitis caused by *Staphylococcus aureus* and *Streptoccus agalactiae* in dairy cows at the time of drying off.

The firm submitted data from adequate and well-controlled studies demonstrating the product's effectiveness in compliance with FDA's combination policy. Toxicity and residue depletion studies demonstrate animal and human safety when the product is used in accordance with label directions. Accordingly, the NADA is approved and the regulations are amended to reflect the approval.

In accordance with the freedom of information provisions of Part 20 (21 CFR Part 20) and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

The Bureau of Veterinary Medicine has determined pursuant to 21 CFR 25.24(d)(1)(i) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor and environmental impact statement is required.

This action is governed by the provisions of 5 U.S.C. 556 and 557 and is therefore excluded from Executive Order 12291 by section 1(a)(1) of the Order.

List of Subjects in 21 CFR Part 540

Animal drugs, Antibiotics, Penicillin.

PART 540—PENICILLIN ANTIBIOTIC DRUGS FOR ANIMAL USE

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512 (i) and (n), 82 Stat. 347, 350–351 (21 U.S.C. 360b(i) and (n))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Bureau of Veterinary Medicine (21 CFR 5.83), Part 540 is amended by adding new § 540.874d to read as follows:

§ 540.874d Penicillin G procaine-dihydrostreptomycin in soybean oil for intramammary infusion (dry cows).

(a) *Requirements for certification.*—(1) *Standards of identity, strength, quality, and purity.* Penicillin G procaine-dihydrostreptomycin in soybean oil is penicillin G procaine and dihydrostreptomycin sulfate suspended in a soybean oil vehicle. Each 10 milliliters of suspension contains penicillin G procaine equivalent to 200,000 units of penicillin G and dihydrostreptomycin sulfate equivalent to 300 milligrams of dihydrostreptomycin. Its potency is satisfactory if it is not less than 90 percent and not more than 120 percent of the number of units of penicillin G and the number of grams of dihydrostreptomycin it is represented to contain. Its moisture content is not more than 1.4 percent. The penicillin G procaine used conforms to the standards prescribed by § 440.74a(a)(1) of this chapter, except § 440.74a(a)(1) (ii), (iii), and (iv). The dihydrostreptomycin used conforms to the standards prescribed by § 444.10a(a)(1) of this chapter, except the standards for sterility, safety, pyrogens, and histamine content.

(2) *Labeling.* It shall be labeled in accordance with the requirements of paragraph (c) of this section and § 510.55 of this chapter.

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 514.50 of this chapter, each such request shall contain:

(i) The results of tests and assays on:

(*a*) The penicillin G procaine used in making the batch for potency, moisture, pH, pencillin G content, and crystallinity.

(*b*) The dihydrostreptomycin sulfate used in making the batch for potency, loss on drying, pH, streptomycin content, and crystallinity, if it is crystalline dihydrostreptomycin.

(*c*) The batch for penicillin G content, dihydrostreptomycin content, and moisture.

(ii) Samples required:

(*a*) The penicillin G procaine used in making the batch: 5 packages, each containing approximately 500 milligrams.

(*b*) The dihydrostreptomycin sulfate used in making the batch: 6 packages, each containing approximately 500 milligrams.

(*c*) The batch: a minimum of 6 immediate containers.

(b) *Tests and methods of assay.*—(1) *Potency*—(i) *Penicillin G content.* Proceed as directed in § 436.105 of this chapter, preparing the sample for assay as follows: Expel the syringe contents into a high-speed glass blender jar containing 1 milliliter of polysorbate 80 and sufficient 1-percent potassium phosphate buffer, pH 6.0 (solution 1) to give a final volume of 500 milliliters. Blend for 3 to 5 minutes. Further dilute an aliquot of this stock solution with solution 1 to the reference concentration of 1 unit of penicillin G per milliliter (estimated).

(ii) *Dihydrostreptomycin content.* Proceed as directed in § 436.105 of this chapter, preparing the sample for assay as follows: expel the syringe contents into a high-speed glass blender jar containing 1 milliliter of polysorbate 80 and sufficient 0.1 *M* potassium phosphate buffer, pH 8.0 (solution 3) to give a final volume of 500 milliliters. Blend for 3 to 5 minutes. To an aliquot of this stock solution add sufficient penicillinase to inactivate the penicillin; further dilute with solution 3 to the reference concentration of 1.0 microgram of dihydrostreptomycin per milliliter (estimated). Allow to stand ½ hour at 37° C before filling the cylinders on the plates.

(2) *Moisture.* Proceed as directed in § 436.201 of this chapter.

(c) *Conditions of marketing.*—(1) *Specifications.* Each 10-milliliter disposable syringe contains penicillin G procaine equivalent to 200,000 units of penicillin G and 300 milligrams of dihydrostreptomycin base as dihydrostreptomycin sulfate, in a soybean oil vehicle, and conforms to the certification requirements of paragraph (a) of this section.

(2) *Sponsor.* See No. 000010 in § 510.600(c) of this chapter.

(3) *Conditions of use.* (i) For intramammary use for the treatment of subclinical mastitis in dairy cows at the time of drying off. Specifically it should be used against infections caused by *Staphylococcus aureus* and *Streptococcus agalactiae.*

(ii) The drug is administered at the last milking prior to drying off. The drug is infused, 1 syringe into each quarter.

(iii) Not to be used within 6 weeks of calving. For use in dry cows only. Milk taken from cows within 24 hours (2 milkings) after calving must not be used for food. Animals infused with this drug must not be slaughtered for food within 60 days of treatment nor within 24 hours after calving.

Effective date. This regulation is effective October 1, 1982.

(Sec. 512(i) and (n), 82 Stat. 347, 350–351 (21 U.S.C. 360b(i) and (n)))

Dated: September 27, 1982.

21 CFR Part 558

New Animal Drugs for Use in Animal Feeds; Tylosin

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a supplemental new animal drug application (NADA) filed for Webel Feeds, Inc., providing for use of 0.33- and 0.67-gram-per-pound tylosin premixes for making complete swine feeds.

EFFECTIVE DATE: November 1, 1982.

FOR FURTHER INFORMATION CONTACT: Jack C. Taylor, Bureau of Veterinary Medicine (HFV–136), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–5247.

SUPPLEMENTARY INFORMATION: Webel Feeds, Inc., R.R. 3, Pittsfield, IL 62363, is sponsor of a supplement to NADA 116–196 to provide for use of 0.33- and 0.67-gram-per-pound tylosin premixes for making complete swine feeds for increased rate of weight gain and improved feed efficiency. The supplemental application was submitted on behalf of Webel Feeds by Elanco Products Co. The firm presently holds an approved NADA for such use utilizing 0.8-, 1-, 2-, and 10-gram-per-pound tylosin premixes.

Approval of this supplemental NADA is based on safety and effectiveness data contained in NADA 12–491. Elanco has authorized use of the data in NADA 12–491 to support approval of this application. This approval does not change the approved use of the drug. Consequently, approval of this supplement poses no increased human risk from exposure to residues of the animal drug, nor does it change the conditions of the drug's safe use in the target animal species.

Accordingly, under the Bureau of Veterinary Medicine's supplemental approval policy (42 FR 64367; December 23, 1977), this is a Category II supplemental approval which does not require reevaluation of the safety and effectiveness data in NADA 12–491 or NADA 116–196.

The supplement is approved and the regulations are amended accordingly.

In accordance with the freedom of information provisions of Part 20 (21 CFR Part 20) and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

The Bureau of Veterinary Medicine has determined pursuant to 21 CFR 25.24(d)(1)(i) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

This action is governed by the provisions of 5 U.S.C. 556 and 557 and is therefore excluded from Executive Order 12291 by section 1(a)(1) of the Order.

List of Subjects in 21 CFR Part 558

Animal drugs, Animal feeds.

PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Bureau of Veterinary Medicine (21 CFR 5.83), § 558.625 is amended by revising paragraph (b)(73) to read as follows:

§ 558.625 Tylosin.

BILLING CODE 4160-01-M

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

Federal Bureau of Investigation

21 CFR Part 1316

28 CFR Part 0

Delegation of Authority to FBI and DEA Officials

AGENCY: Department of Justice, Federal Bureau of Investigation, Drug Enforcement Administration.

ACTION: Final order.

SUMMARY: As a result of the Attorney General expanding the jurisdiction of the Federal Bureau of Investigation over drug offenses, this final order delegates to FBI officials the authority to seize and take custody of property seized in connection with such drug offenses, and amends various regulatory provisions relating to drug enforcement activities.

EFFECTIVE DATE: October 1, 1982.

FOR FURTHER INFORMATION CONTACT: William M. Lenck, Associate Chief Counsel, Drug Enforcement Administration, Department of Justice, Washington, D.C. 20537, (202-633-1276), or John A. Mintz, Assistant Director—Legal Counsel, Federal Bureau of Investigation, Department of Justice, Washington, D.C. 20535 (202-324-5018).

SUPPLEMENTARY INFORMATION: On January 18, 1982, the Attorney General by Order No. 968-82 (47 FR 4989 2/3/82) authorized the Director of the Federal Bureau of Investigation to investigate violations of the criminal drug laws, including the authority to seize property subject to forfeiture under Section 511 of the Controlled Substances Act (21 U.S.C. 881). This order amends the regulations applicable to such seizures to facilitate the seizure and taking into custody of such property by FBI officers and implements the procedures for the impound release of property pursuant to 28 CFR 0.101(c) (45 FR 44267, 7/1/80). The order also amends the Delegation of Functions provisions in the Appendix to Subpart R of Title 28 of the Code of Federal Regulations.

It has been determined that this is an internal management matter not requiring consultation with the Office of Management and Budget under E.O. 12291. Moreover, the Acting Administrator hereby certifies that this matter will have no impact upon small entities within the meaning and intent of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*

By virtue of the authority vested in us by 28 CFR 0.100, and 0.104 and 21 U.S.C. 871(b), the following amendments are made to Title 21, §§ 1316.71(e), 1316.72, 1316.73, 1316.79(a), and to Title 28, Part 0, Appendix to Subpart R, of the Code of Federal Regulations:

List of Subjects

21 CFR Part 1316

Administrative practice and procedures, Drug traffic control, and research.

28 CFR Part 0

Government employees and organization and functions (government agencies).

PART 1316—ADMINISTRATIVE FUNCTIONS, PRACTICES, AND PROCEDURES

1. In § 1316.71, paragraph (e) is revised to read as follows:

§ 1316.71 Definitions.

* * * * *

(e) The term "Special Agents-in-Charge" means Drug Enforcement Administration Special Agents-in-Charge and Federal Bureau of Investigation Special Agents-in-Charge.

* * * * *

2. Section 1316.72 is revised to read as follows:

§ 1316.72 Officers who will make seizures.

For the purpose of carrying out the provisions of the Act, all special agents of the Drug Enforcement Administration and the Federal Bureau of Investigation are authorized and designated to seize such property as may be subject to seizure.

3. Section 1316.73 is revised as follows:

§ 1316.73 Custody and other duties.

An officer seizing property under the Act shall store the property in a location designated by the custodian, generally in the judicial district of seizure. The Special Agents-in-Charge are designated as custodians to receive and maintain in storage all property seized pursuant to the Act, are authorized to dispose of any property pursuant to the Act and any other applicable statutes or regulations relative to disposal, and to perform such other duties regarding such seized property as are appropriate, including the impound release of property pursuant to 28 CFR 0.101(c).

§ 1316.79 [Amended]

4. Section 1316.79(a) is amended by removing the words "Regional Administrator" and inserting in its place the words "Special Agent-in-Charge of the DEA."

PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

5. The Appendix to Subpart R of Chapter I of Title 28, Part 0 Code of Federal Regulations is revised to read as follows:

Appendix to Subpart R—Redelegation of Functions

Section 1. *Scope of authority.* The authority delegated by this order is applicable to all officers and employees of the Drug Enforcement Administration (DEA) and Federal Bureau of Investigation (FBI).

Sec. 2. *Supervisors.* All Special Agents-in-Charge of the DEA and the FBI are authorized to conduct enforcement hearings under 21 U.S.C. 883, and to take custody of seized property under 21 U.S.C. 881. All Special Agents-in-Charge of the DEA and the FBI are authorized to release information pursuant to 28 CFR 0.103(a) (1) and (2) which is obtained by the DEA and the FBI, and to authorize the testimony of DEA and FBI officials in response to prosecution subpoenas under 28 CFR 0.103(a)(3).

Sec. 3. *Enforcement officers.* (a) All DEA criminal investigators (series 1811 under Office of Personnel Management regulations) and special agents of the FBI are authorized to exercise all of the powers of enforcement personnel granted by 21 U.S.C. 876, 878, and 879; to serve subpoenas, administer oaths, examine witnesses, and receive evidence under 21 U.S.C. 875; to execute administrative inspection warrants under 21 U.S.C. 880; and to seize property under 21 U.S.C. 881 and 21 CFR 1316.71 *et seq.*

(b) All DEA compliance investigators (series 1810 under Office of Personnel Management regulations) are authorized to administer oaths and serve subpoenas under 21 U.S.C. 875 and 876; to execute administrative inspection warrants under 21 U.S.C. 878(2) and 880; and to seize property incident to compliance and registration inspections and investigations under 21 U.S.C. 881.

Sec. 4. *Issuance of subpoenas.* (a) The Assistant Administrator for Planning and Inspection and the Deputy Assistant Administrator of the Office of Professional Responsibility of the DEA, all Special Agents-in-Charge of the DEA and the FBI, DEA Inspectors assigned to the Planning and Inspection Division, DEA Resident Agents-in-Charge, DEA and FBI Assistant Special Agents-in-Charge, and FBI Supervisory Senior Resident Agents are authorized to issue subpoenas with respect to controlled substances under 21 U.S.C. 875 and 876 in regard to matters within their respective jurisdictions.

(b) The Administrative Law Judge of DEA is authorized to sign and issue subpoenas to compel the attendance of witnesses and the

production of documents and materials to the extent necessary to conduct administrative hearings pending before him.

Sec. 5. *Legal functions.* The Chief Counsel of the DEA is authorized to execute under any certification required to authenticate any document pursuant to § 0.146 of Title 28, Code of Federal Regulations; to adjust, determine, compromise, and settle any claims involving the Drug Enforcement Administration under 28 U.S.C. 2672, relating to tort claims where the amount of the proposed adjustment, compromise, settlement or award does not exceed $2,500; to settle any employee claims filed under the Military Personnel and Civilian Employee's Claims Act in an amount not to exceed $15,000; to formulate and coordinate the proceedings relating to the conduct of hearings under 21 U.S.C. 875, including the signing and issuance of subpoenas, examining of witnesses and receiving evidence; and to conduct enforcement hearings under 21 U.S.C. 883. The Forfeiture Counsel of the DEA is authorized to exercise all necessary functions with respect to decisions on petitions under 19 U.S.C. 1618 for remission or mitigation of forfeitures incurred under 21 U.S.C. 881.

Sec. 6. *Import and export permits.* The Deputy Assistant Administrator of the DEA Office of Diversion Control is authorized to perform all and any functions with respect to the issuance of importation and exportation permits for controlled substances under 21 U.S.C. 952 and 953, and all functions in regard to transshipments and intransit shipments of controlled substances under 21 U.S.C. 954.

Sec. 7. *Promulgation of regulations.* The Deputy Assistant Administrator of the DEA Office of Diversion Control is authorized to exercise all necessary functions with respect to the promulgation and implementation of the following regulations published in Chapter II, Title 21, Code of Federal Regulations:

(a) Part 1301, incident to the registration of manufacturers, distributors, and dispensers of controlled substances, except that final orders in connection with suspension, denial or revocation of registration shall be made by the Administrator of DEA.

(b) Part 1302 relating to labelling and packaging requirements for controlled substances.

(c) Part 1304 relating to records and reports of registrants.

(d) Part 1305 relating to order forms.

(e) Part 1306 relating to prescriptions, except provisions relating to dispensing of narcotic drugs for maintenance purposes.

(f) Part 1307, Title 21, Code of Federal Regulations, relating to miscellaneous provisions, except § 1307.31 concerning special exempt persons.

(g) The following sections of Part 1308: §§ 1308.21 and 1308.22 relating to excluded nonnarcotic substances; §§ 1308.23 and 1308.24 relating to exempt chemical preparations; and §§ 1308.31 and 1308.32 relating to excepted stimulant or depressant compounds, except that any final order following a contested proposed rulemaking shall be made by the Administrator of DEA.

(h) Part 1311 relating to registration of importers and exporters of controlled substances, except that final orders in connection with suspension, denial or revocation of registration shall be made by the Administrator of DEA.

(i) Part 1312 relating to importation and exportation of controlled substances, except that all final orders following a contested proposed rulemaking regarding the denial of an application for an import, export or transshipment permit shall be made by the Administrator of DEA.

Dated: September 17, 1982.

William H. Webster,

Director, Federal Bureau of Investigation.

Francis M. Mullen, Jr.,

Acting Administrator, Drug Enforcement Administration.

BILLING CODE 4410-09-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing—Federal Housing Commissioner

24 CFR Part 201

[Docket No. R-82-1044]

Mortgage Insurance Loans; Changes in Interest Rates

AGENCY: Department of Housing and Urban Development, HUD.

ACTION: Final rule.

SUMMARY: This change in the regulations decreases the HUD/FHA maximum allowable finance charge on Title I mobile home loans and combination and mobile home lot loans. This action by HUD is designed to bring the maximum interest rate and financing charges on HUD/FHA-insured loans into line with market rates and help assure an adequate supply of and demand for FHA financing.

EFFECTIVE DATE: October 1, 1982.

FOR FURTHER INFORMATION CONTACT: John L. Brady, Director, Office of Title I Insured Loans, Office of Single Family Housing, Department of Housing and Urban Development, 451 7th Street, S.W., Washington, D.C. 20410 (202-755-6680).

SUPPLEMENTARY INFORMATION: The following miscellaneous amendments have been made to this chapter to decrease the maximum interest rate which may be charged on loans insured by this Department. Maximum finance charges on mobile home loans lowered from 16.50 percent to 16.00 percent, and the finance charge on combination loans for the purchase of a mobile home and a developed or undeveloped lot has been lowered from 16.00 percent to 15.50 percent.

The Secretary has determined that such changes are immediately necessary to meet the needs of the market and to prevent speculation in anticipation of a change, in accordance with his authority contained in 12 U.S.C. 1709-1, as amended. The Secretary has, therefore, determined that advance notice and public comment procedures are unnecessary and that good cause exists for making this amendment effective immediately.

This is a procedural and administrative determination as set forth in the statutes and as such does not require a determination of environmental applicability.

List of Subjects in 24 CFR Part 201

Health facilities, Historic preservation, Home improvement, Mobile homes, Manufactured homes and lots.

Accordingly, Chapter II is amended as follows:

PART 201—MOBILE HOME LOANS

1. Section 201.540(a) is revised to read as follows:

§ 201.540 Financing charges.

(a) *Maximum financing charges.* The maximum permissible financing charge which may be directly or indirectly paid to, or collected by, the insured in connection with the loan transaction, shall not exceed 16.00 percent simple interest per annum. No points or discounts of any kind may be assessed or collected in connection with the loan transaction, except that a one percent origination fee may be collected from the borrower. If assessed, this fee must be included in the finance charge. Finance charges for individual loans shall be made in accordance with tables of calculation issued by the Commissioner.

* * * * *

2. Section 201.1511(a), subparagraph (1) is revised to read as follows:

§ 201.1511 Financing charges.

(a) *Maximum financing charges.*

* * * * *

(1) 15.50 percent per annum.

* * * * *

(Sec. 3(a), 82 Stat. 113; 12 U.S.C. 1709-1; Sec. 7, Department of Housing and Urban Development Act, 42 U.S.C. 3534(d))

Dated: September 23, 1982.

Philip Abrams,

General Deputy Assistant Secretary for Housing—Deputy Federal Housing Commissioner.

24 CFR Parts 203, 205, 207, 213, 220, 221, 232, 234, 235, 236, 241, 242, and 244

[Docket No. R-82-1043]

Mortgage Insurance Loans; Changes in Interest Rates

AGENCY: Department of Housing and Urban Development, HUD.

ACTION: Final rule.

SUMMARY: This change in the regulations decreases the HUD/FHA interest rates on insured loans. This action by HUD is designed to bring the maximum interest rates into line with other competitive market rates and help assure an adequate supply of and demand for FHA financing.

EFFECTIVE DATE: September 24, 1982.

FOR FURTHER INFORMATION CONTACT: John N. Dickie, Director, Financial Analysis Division, Office of Financial Management, Department of Housing and Urban Development, 451 7th Street, S.W., Washington, D.C. 20410 (202–426–4667).

SUPPLEMENTARY INFORMATION: The following amendments have been made to this chapter to decrease the maximum interest rate which may be charged on loans insured by this Department. The maximum interest rate on HUD/FHA insured home mortgage insurance programs has been lowered from 14.00 percent to 13.50 percent for level payment (including operative builder) and graduated payment home loan programs (GPM). For insured multifamily project mortgage loan programs, the maximum interest rate has been lowered from 15.00 percent to 14.50 percent. The maximum interest rate for multifamily construction and Title X land development loans has been lowered from 16.00 percent to 15.50 percent.

The Secretary has determined that such changes are immediately necessary to meet the needs of the market and to prevent speculation in anticipation of a change, in accordance with his authority contained in 12 U.S.C. 1709–1, as amended. The Secretary has, therefore, determined that advance notice and public comment procedures are unnecessary and that good cause exists for making this amendment effective immediately.

This is a procedural and administrative determination as set forth in the statutes and as such does not require a determination of environmental applicability.

List of Subjects in 24 CFR Parts 203, 205, 207, 213, 220, 221, 232, 234, 235, 236, 241, 242, and 244

Mortgage insurance.

Accordingly, Chapter II is amended as follows:

PART 203—MUTUAL MORTGAGE INSURANCE AND REHABILITATION LOANS

1. Section 203.20 paragraph (a) is revised to read as follows:

§ 203.20 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 13.50 percent per annum, except that where an application for commitment was received by the Secretary before September 24, 1982, the mortgage may bear interest at the maximum rate in effect at the time of application.

* * * * *

2. Section 203.45 paragraph (b) is revised to read as follows:

§ 203.45 Eligibility of graduated payment mortgages.

* * * * *

(b) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 13.50 percent per annum, except that where an application for commitment was received by the Secretary before September 24, 1982, the mortgage may bear interest at the maximum rate in effect at the time of application.

* * * * *

3. Section 203.46 paragraph (c) is revised to read as follows:

§ 203.46 Eligibility of modified graduated payment mortgages.

* * * * *

(c) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 13.50 percent per annum, except that where an application for commitment was received by the Secretary before September 24, 1982, the mortgage may bear interest at the maximum rate in effect at the time of application.

* * * * *

PART 205—MORTGAGE INSURANCE FOR LAND DEVELOPMENT

4. Section 205.50 is revised to read as follows:

§ 205.50 Maximum interest rate.

Effective on or before September 24, 1982, the mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 15.50 percent per annum. Applications for conditional or firm commitments received on or after September 24, 1982 will be processed at the 15.50 percent rate, with the exception of applications submitted pursuant to unexpired site appraisal and market analysis (SAMA) or feasibility letters, or outstanding conditional or firm commitments, issued prior to the effective date of the new rate. In these instances, applications will be processed at a rate not exceeding the applicable previous maximum rates, if the higher rate was previously agreed upon by the parties. Notwithstanding these exceptions, the application will be processed at the new lower rate if requested by the mortgagee.

PART 207—MULTIFAMILY HOUSING MORTGAGE INSURANCE

5. Section 207.7 paragraph (a) is revised to read as follows:

§ 207.7 Maximum interest rate.

(a) Effective on or after September 24, 1982, the mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed:

(1) 14.50 percent per annum with respect to permanent financing;

(2) 15.50 percent per annum with respect to construction financing prior to and including the cutoff date for cost certification.

Applications for conditional or firm commitments received on or after September 24, 1982 will be processed at the rates specified above, with the exception of applications submitted pursuant to unexpired site appraisal and market analysis (SAMA) or feasibility letters, or outstanding conditional or firm commitments, issued prior to the effective date of the new rate. In these instances, applications will be processed at a rate not exceeding the applicable previous maximum rates, if the higher rate was previously agreed upon by the parties. Notwithstanding these exceptions, the application will be processed at the new lower rate if requested by the mortgagee.

* * * * *

PART 213—COOPERATIVE HOUSING MORTGAGE INSURANCE

6. Section 213.10 paragraph (a) is revised to read as follows:

§ 213.10 Maximum interest rate.

(a) Effective on or after September 24, 1982, the mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed:

(1) 14.50 percent per annum with respect to permanent financing;

(2) 15.50 percent per annum with respect to construction financing prior to and including the cutoff date for cost certification.

Applications for conditional or firm commitments received on or after September 24, 1982 will be processed at the rates specified above, with the exception of applications submitted pursuant to unexpired site appraisal and market analysis (SAMA) or feasibility letters, or outstanding conditional or firm commitments, issued prior to the effective date of the new rate. In these instances, applications will be processed at a rate not exceeding the applicable previous maximum rates, if the higher rate was previously agreed upon by the parties. Notwithstanding these exceptions, the application will be processed at the new lower rate if requested by the mortgagee.

* * * * *

7. Section 213.511 paragraph (a) is revised to read as follows:

§ 213.511 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 13.50 percent per annum, except that where an application for commitment was received by the Secretary before September 24, 1982, the mortgage may bear interest at the maximum rate in effect at the time of application.

* * * * *

PART 220—URBAN RENEWAL MORTGAGE INSURANCE AND INSURED IMPROVEMENT LOANS

8. Section 220.576 paragraph (a) is revised to read as follows:

§ 220.576 Maximum interest rate.

(a) Effective on or after September 24, 1982, the mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed:

(1) 14.50 percent per annum with respect to permanent financing;

(2) 15.50 percent per annum with respect to construction financing prior to and including the cutoff date for cost certification.

Applications for conditional or firm commitments received on or after September 24, 1982, will be processed at the rates specified above, with the exception of applications submitted pursuant to unexpired site appraisal and market analysis (SAMA) or feasibility letters, or outstanding conditional or firm commitments, issued prior to the effective date of the new rate. In these instances, applications will be processed at a rate not exceeding the applicable prevous maximum rates, if the higher rate was previously agreed upon by the parties. Notwithstanding these exceptions, the application will be processed at the new lower rate if requested by the mortgagee.

* * * * *

PART 221—LOW COST AND MODERATE INCOME MORTGAGE INSURANCE

9. Section 221.518 paragraph (a) is revised to read as follows:

§ 221.518 Maximum interest rate.

(a) Effective on or after September 24, 1982, the mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed:

(1) 14.50 percent per annum with respect to permanent financing;

(2) 15.50 percent per annum with respect to construction financing prior to and including the cutoff date for cost certification.

Applications for conditional or firm commitments received on or after September 24, 1982 will be processed at the rates specified above, with the exception of applications submitted pursuant to unexpired site appraisal and market analysis (SAMA) or feasibility letters, or outstanding conditional or firm commitments, issued prior to the effective date of the new rate. In these instances, applications will be processed at a rate not exceeding the applicable previous maximum rates, if the higher rate was previously agreed upon by the parties. Notwithstanding these exceptions, the application will be processed at the new lower rate if requested by the mortgagee.

* * * * *

PART 232—NURSING HOMES AND INTERMEDIATE CARE FACILITIES MORTGAGE INSURANCE

10. Section 232.29 paragraph (a) is revised to read as follows:

§ 232.29 Maximum interest rate.

(a) Effective on or after September 24, 1982, the mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed:

(1) 14.50 percent per annum with respect to permanent financing;

(2) 15.50 percent per annum with respect to construction financing prior to and including the cutoff date for cost certification.

Applications for conditional or firm commitments received on or after September 24, 1982 will be processed at the rates specified above, with the exception of applications submitted pursuant to unexpired site appraisal and market analysis (SAMA) or feasibility letters, or outstanding conditional or firm commitments, issued prior to the effective date of the new rate. In these instances, applications will be processed at a rate not exceeding the applicable previous maximum rates, if the higher rate was previously agreed upon by the parties. Notwithstanding these exceptions, the application will be processed at the new lower rate if requested by the mortgagee.

* * * * *

11. Section 232.560 paragraph (a) is revised to read as follows:

§ 232.560 Maximum interest rate.

(a) On or after September 24, 1982, the loan shall bear interest at the rate agreed upon by the lender and the borrower, which rate shall not exceed 14.50 percent per annum, with the exception of applications submitted pursuant to feasibility letters, or outstanding conditional or firm commitments, issued prior to the effective date of the new rate. In these instances, applications will be processed at a rate not exceeding the applicable previous maximum rates, if the higher rate was previously agreed upon by the parties. Notwithstanding these exceptions, the application will be processed at the new lower rate if requested by the mortgagee.

* * * * *

PART 234—CONDOMINIUM OWNERSHIP MORTGAGE INSURANCE

12. Section 234.29 paragraph (a) is revised to read as follows:

§ 234.29 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 13.50 percent per annum, except that where an application for commitment was received by the

Secretary before September 24, 1982, the mortgage may bear interest at the maximum rate in effect at the time of application.

* * * * *

13. Section 234.75 paragraph (b) is revised to read as follows:

§ 234.75 Eligibility of graduated payment mortgages.

* * * * *

(b) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 13.50 percent per annum, except that where an application for commitment was received by the Secretary before September 24, 1982, the mortgage may bear interest at the maximum rate in effect at the time of application.

* * * * *

14. Section 234.76 paragraph (c) is revised to read as follows:

§ 234.76 Eligibility of modified graduated payment mortgages.

* * * * *

(c) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 13.50 percent per annum, except that where an application for commitment was received by the Secretary before September 24, 1982, the mortgage may bear interest at the maximum rate in effect at the time of application.

* * * * *

PART 235—MORTGAGE INSURANCE AND ASSISTANCE PAYMENTS FOR HOME OWNERSHIP AND PROJECT REHABILITATION

15. Section 235.540 paragraph (a) is revised to read as follows:

§ 235.540 Maximum interest rate.

(a) On or after September 24, 1982, the loan shall bear interest at the rate agreed upon by the lender and the borrower, which rate shall not exceed 14.50 percent per annum, with the exception of applications submitted pursuant to feasibility letters, or outstanding conditional or firm commitments, issued prior to the effective date of the new rate. In these instances, applications will be processed at a rate not exceeding the applicable previous maximum rates, if the higher rate was previously agreed upon by the parties. Notwithstanding these exceptions the application will be processed at the new lower rate if requested by the mortgagee.

* * * * *

PART 236—MORTGAGE INSURANCE AND INTEREST REDUCTION PAYMENTS FOR RENTAL PROJECTS

16. Section 236.15 paragraph (a) is revised to read as follows:

§ 236.15 Maximum interest rate.

(a) Effective on or after September 24, 1982, the mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed:

(1) 14.50 percent per annum with respect to permanent financing;

(2) 15.50 percent per annum with respect to construction financing prior to and including the cutoff date for cost certification.

Applications for conditional or firm commitments received on or after September 24, 1982, will be processed at the rates specified above, with the exception of applications submitted pursuant to unexpired site appraisal and market analysis (SAMA) or feasibility letters, or outstanding conditional or firm commitments, issued prior to the effective date of the new rate. In these instances, applications will be processed at a rate not exceeding the applicable previous maximum rates, if the higher rate was previously agreed upon by the parties. Notwithstanding these exceptions, the application will be processed at the new lower rate if requested by the mortgagee.

* * * * *

PART 241—SUPPLEMENTARY FINANCING FOR INSURED PROJECT MORTGAGES

17. Section 241.75 is revised to read as follows:

§ 241.75 Maximum interest rate.

Effective on or after September 24, 1982, the mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed:

(a) 14.50 percent per annum with respect to permanent financing;

(b) 15.50 percent per annum with respect to construction financing prior to and including the cutoff date for cost certification.

Applications for conditional or firm commitments received on or after September 24, 1982, will be processed at the rates specified above, with the exception of applications submitted pursuant to unexpired site appraisal and market analysis (SAMA) or feasibility letters, or outstanding conditional or firm commitments, issued prior to the effective date of the new rate. In these instances, applications will be processed at a rate not exceeding the applicable previous maximum rates, if the higher rate was previously agreed upon by the parties. Notwithstanding these exceptions, the application will be processed at the new lower rate if requested by the mortgagee.

* * * * *

PART 242—MORTGAGE INSURANCE FOR HOSPITALS

Section 242.33 paragraph (a) is revised to read as follows:

§ 242.33 Maximum interest rate.

(a) Effective on or after September 24, 1982, the mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed:

(1) 14.50 percent per annum with respect to permanent financing;

(2) 15.50 percent per annum with respect to construction financing prior to and including the cutoff date for cost certification.

Applications for conditional or firm commitments received on or after September 24, 1982, will be processed at the rates specified above, with the exception of applications submitted pursuant to unexpired site appraisal and market analysis (SAMA) or feasibility letters, or outstanding conditional or firm commitments, issued prior to the effective date of the new rate. In these instances, applications will be processed at a rate not exceeding the applicable previous maximum rates, if the higher rate was previously agreed upon by the parties. Notwithstanding these exceptions, the application will be processed at the new lower rate if requested by the mortgagee.

* * * * *

PART 244—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES

19. Section 244.45 paragraph (a) is revised to read as follows:

§ 244.45 Maximum interest rate.

(a) Effective on or after September 24, 1982, the mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed:

(1) 14.50 percent per annum with respect to permanent financing;

(2) 15.50 percent per annum with respect to construction financing prior to and including the cutoff date for cost certification.

Applications for conditional or firm commitments received on or after September 24, 1982, will be processed at the rates specified above, with the

exception of applications submitted pursuant to unexpired site appraisal and market analysis (SAMA) or feasibility letters, or outstanding conditional or firm commitments, issued prior to the effective date of the new rate. In these instances, applications will be processed at a rate not exceeding the applicable previous maximum rates, if the higher rate was previously agreed upon by the parties. Notwithstanding these exceptions, the application will be processed at the new lower rate if requested by the mortgagee.

BILLING CODE 4210-27-M

DEPARTMENT OF LABOR

Employment and Training Administration

29 CFR Part 91

Worker Adjustment Assistance: Emergency Extension of Regulations Pertinent to the Trade Act of 1974

AGENCY: Employment and Training Administration, Labor.

ACTION: Extension of regulations.

SUMMARY: The Department of Labor extends 29 CFR Part 91 (Adjustment Assistance for Workers After Certification) established under Title II, Chapter 2, of the Trade Act of 1974 (Pub. L. 93–618), until September 30, 1983. The Worker Adjustment Assistance Program authorized under Section 284 of the Trade Act of 1974 was scheduled to terminate on September 30, 1982. However, the Omnibus Budget Reconciliation Act of 1981 amended and extended the program through September 30, 1983. New regulations promulgating the 1981 amendments of the Worker Adjustment Assistance Program, which reflect a fundamental shift in program emphasis to placement, reemployment services and training, have not been published as of this date.

29 CFR Part 91, (§ 91.68) now contains a specific termination date of September 30, 1982 for the benefits portion of the regulations. The current regulations are being extended to assure a continuation of a common regulatory base for the States to deliver benefits to workers who have been certified as eligible to apply for trade adjustment assistance.

EFFECTIVE DATE: September 28, 1982.

FOR FURTHER INFORMATION CONTACT: Carolyn M. Golding, Director, Unemployment Insurance Service. Telephone: (202) 376–7032.

SUPPLEMENTARY INFORMATION: This notice simply provides for an extension of current regulations governing the delivery of trade adjustment assistance benefits. It does not conflict with any of the provisions of the 1981 amendments which became effective for weeks of unemployment beginning on and after October 1, 1981. The extension applies solely to benefit determinations which would be applicable under the Trade Act of 1974 and which would be made after September 30, 1982.

Subsection (b) of 5 U.S.C. 553 requires that a notice of proposed rulemaking be published in the **Federal Register**, except when the agency for good cause finds that notice and public procedures thereon are impracticable, unnecessary or contrary to the public interest. I have determined that the notice and comment procedures of section 553(b) are unnecessary, since the purpose and effect of this rule is to remove an anomalous situation in which a program has been extended by amending legislation but for which pertinent regulations have not yet been published and an earlier termination date than is applicable under the amended legislation threatens to disrupt the administration of the program after September 30, 1982, unless otherwise extended.

Drafting Information

This document was prepared under the direction and control of the Unemployment Insurance Service, Employment and Training Administration, U.S. Department of Labor, 601 "D" Street, NW., Washington, D.C. 20213; telephone (202) 376–7032 (this is not a toll-free number).

Classification—Executive Order 12291

The rule in this document is not classified as a "major rule" under Executive Order 12291 on Federal Regulations, and therefore no regulatory impact analysis is required.

Regulatory Flexibility Act

Because notice of proposed rulemaking is not required for this rule under 5 U.S.C. 553(b), the requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 et seq., pertaining to regulatory flexibility analyses, do not apply to this rule.

§ 91.68 [Removed]

Accordingly, for the reasons set out above, § 91.68 of 29 CFR Part 91 is removed.

Signed at Washington, D.C., on September 28, 1982.

Albert Angrisani,

Assistant Secretary of Labor.

[FR Doc. 82-27177 Filed 9-30-82; 4:00 pm]

BILLING CODE 4510-30-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-5-FRL 2199-8]

Approval and Promulgation of Implementation Plans; Ohio

AGENCY: U.S. Environmental Protection Agency.

ACTION: Final rulemaking.

SUMMARY: On February 25, 1980, the State of Ohio submitted to EPA revisions to its State Implementation Plan (SIP). The revisions were to rules 01 through 06, 08 and 09 of Chapter 3745–15 of the Ohio Administrative Code (OAC) which establish general provisions for the control of air pollution. In a May 7, 1982 notice (47 FR 19722), EPA proposed to approve all these rules except for 05 which EPA proposed to delete from the Ohio SIP at the request of the State. Three comments were received on this proposed rulemaking. After review of the comments EPA takes final action today to approve rules 01 through 04, 06, 08 and 09 as revisions to the Ohio SIP and to delete rule 05 from the Ohio SIP.

EFFECTIVE DATE: This final rulemaking becomes effective November 1, 1982.

ADDRESSES: Copies of this SIP revision are available for review at the following addresses:

Environmental Protection Agency, Air Programs Branch, Region V, 230 South Dearborn Street, Chicago, Illinois 60604

Environmental Protection Agency, Public Information Reference Unit, 401 M Street, SW., Washington, D.C. 20460

Ohio Environmental Protection Agency, Office of Air Pollution Control, 361 East Broad Street, Columbus, Ohio 43216

Office of the Federal Register, 110 L Street, NW., Washington, D.C. 20408

FOR FURTHER INFORMATION CONTACT: Delores Sieja, Regulatory Analysis Section, Air Programs Branch, EPA,

Region V, 230 South Dearborn Street, Chicago, Illinois 60604, (312) 886-6038.

SUPPLEMENTARY INFORMATION: On February 25, 1980, the State of Ohio submitted revisions to rules 01 through 06, 08 and 09 of Chapter 15 of the Ohio Administrative Code. These rules establish general provisions for the control of air pollution.

At various times rules 01 through 09 have been recodified. Originally, these rules were codified as AP-2-01 through 09. The AP-2 series were the rules approved by EPA as part of the Ohio SIP on April 15, 1974 (39 FR 13539). Subsequent to that date, these rules were recodified as EP-10-01 through 09 and then 3745-15-01 through 09.

On May 7, 1982 (47 FR 19722) EPA proposed to approve rules 01 through 04, 06, 08 and 09 as revisions to the Ohio SIP and to delete rule 05 from the Ohio SIP. A thirty day public comment period was provided for interested individuals to submit their comments on EPA's proposed rulemaking. EPA received comments from a citizen's group, from a law firm representing a utility, and from the Ohio EPA. The comments relate to rules 01, 04 and 06.

Following is a brief description of the changes to rules 01 through 06, 08 and 09 from the previously approved APC-2 series, and evaluation of the issues raised in the public comments and EPA's response, and EPA's final action on all the rules.

Rule 3745-15-01: Definitions

This rule has been changed to include definitions for three new terms: facility, owner and non-methane hydrocarbon.

Comment: The citizen's group does not feel the definition of facility is consistent with EPA's definition of facility for New Source Review purposes (nonattainment or prevention of significant deterioration (PSD)).

Response: The definition of facility in this rule does not apply to New Source Review. Separate definitions which encompass the concept of facility and which relate to nonattainment areas, are contained in Rule 01 of Chapter 3745-31. EPA has dealt with this rule in a separate rulemaking action dated October 31, 1980 (45 FR 72119). Furthermore, as a result of the delegation of authority to administer the Federal PSD program on May 1, 1980, the State of Ohio is bound to enforce the EPA definitions for such terms as facility in its administration of the PSD program.

For the purposes of Chapter 3745-15, the definition of facility is acceptable.

Action: EPA approves this rule.

Rule 3745-15-02: Purpose; 03: Submission of Emission Information; 06: Circumvention; and 09: Severability

These rules have been changed to replace references to the Ohio Environmental Review Board (Board) with references to the Director of Ohio EPA (Director). EPA finds these rules acceptable and approves them.

Rule 3745-15-04: Measurement of Emissions of Air Contaminants

This rule provides the Director of Ohio EPA with the authority to require, under certain circumstances, that any person who is responsible for pollutant emissions shall conduct tests on the source of those emissions. It has been changed to expand the Director's authority by explicitly stating that the Director may reject the results of any test which is not performed in accordance with approved test procedures or in accordance with the provisions of this rule. Any test method which is different from what is contained in the federally approved SIP must be submitted as a SIP revision.

Comment: A law firm commented that the Director of Ohio EPA should have discretion to adapt and modify test procedures, as appropriate and consistent with valid scientific principles, without having to undergo a formal SIP revision. Further, the commentator believes the SIP revision requirement does not allow for appropriate flexibility in the unusual testing cases.

Response: It is EPA's position that a minor modification to an approved test method need not be submitted as a SIP revision. However, use of a test method which has not been approved by EPA must be submitted as a SIP revision. EPA believes that this approach provides a reasonable amount of flexibility.

It is important that test methods not approved by EPA be submitted as SIP revisions because the use of different test methods can produce different test results. The Ohio EPA in their comment agrees with EPA's position that any substantive change to test procedures which have been previously approved as part of the SIP must be submitted to EPA for approval.

Action: EPA approves this rule.

Rule 3745-15-05: Control Plan Compliance Schedule

This rule has been repealed by the State. Rule 05 states that compliance schedules in other Air Pollution Control Chapters of the OAC are to supersede the requirements of this rule. Since the other Chapters specify compliance dates this rule is no longer necessary and EPA deletes it from the Ohio SIP.

Rule 3745-15-06: Malfunction of Equipment; Scheduled Maintenance; Reporting

This rule establishes procedures to be followed by a source in the case of the malfunction or scheduled maintenance of its air pollution control equipment. The State has revised paragraphs (A), (B) and (C) and has added a new paragraph (D).

The following public comment relates to paragraphs (B) and (D).

- Paragraph (B) requires that if a malfunction has lasted more than 72 hours, the owner of the air pollution source must develop and submit to Ohio EPA a detailed report on corrective programs for malfunctions.
- Paragraph (D) allows the Director to require the submission of a preventive maintenance and malfunction abatement plan to prevent, detect and correct malfunctions or equipment failures.

Comment: The law firm believes that the requirements, of paragraphs (B) and (D), seem too formal and unnecessarily add burdensome reporting requirements.

Response: EPA agrees with Ohio's reporting and preventive maintenance and malfunction plan requirements. Air pollution control equipment malfunctions can result in significant increases in emissions. It is important for a State agency to keep a record of these excess emissions and to require a preventive maintenance program where appropriate.

The following comment pertains to paragraph (C).

- Paragraph (C) allows the Director to take appropriate action if the reporting requirements of this rule have not been met; if the equipment was not properly operated and maintained prior to breakdown; if the shutdowm of the source or operation during the period of maintenance or breakdown has become practicable; if the shutdowm or breakdown was or has become avoidable or was induced or prolonged in bad faith; or if the emissions endanger or tend to endanger the health or safety of the public.

Comment: The citizen's group believes paragraph (C) is not consistent with EPA's malfunction policy because it does not describe the specific action the Director shall take in the event that the malfunction of a source is avoidable or caused by operation in bad faith.

Furthermore, the citizen's group believes that under the provisions of paragraph (C) the Director may or may not take action that is consistent with

the malfunction policy. If the Director fails to act, this would be an automatic exemption for sources from mass/or visible emission limits.

Response: EPA believes this provision is not inconsistent with EPA's malfunction policy. EPA's basic criterion in reviewing malfunction rules is that the rules must not provide for an automatic exemption during a maintenance/malfunction episode. EPA does not interpret paragraph (C) or any paragraph of rule 3745–15–06 as providing a source with an automatic opportunity to violate any mass or visible emission limitation due to a maintenance/malfunction occurrence.

For example, Ohio Rule 3745–17–11 provides allowable emission limitations for industrial process sources. If these limits are exceeded due to a malfunction, the result is still a violation. Rule 3745–15–06 permits the Director to exercise enforcement discretion on a case-by-case basis depending on the circumstances surrounding the malfunction.

The following comment pertains to the rule in general.

Comment: The law firm believes that a source should be entitled to rely on its proper and timely reporting of a malfunction incident. The firm believes there are no provisions within the rule which warrant EPA's interpretation that further action by the Director of the OEPA is required to "perfect" the exemption during malfunctions.

Response: EPA disagrees with the commentator's position that no action is required by the Director of OEPA to perfect a malfunction exemption. EPA believes that 3745–17–06 imposes a duty upon the Director to review a source's claim for a malfunction exemption against the criteria outlined in the rule. EPA believes that a complete review of the circumstances surrounding each claimed malfunction must be undertaken by the Director before he can exercise his enforcement discretion and refrain from initiating any enforcement action against the source. In all cases, the Director must carefully scrutinze the source's claim for an exemption.

Action: EPA approves this rule.

Summary

After review of the public comments EPA takes final action today to approve rule 01 through 04, 06, 08 and 09 as revisions to the Ohio SIP and to delete rule 05 from the Ohio SIP.

The Office of Management and Budget has exempted this rule from the requirements of Section 3 of Executive Order 12291.

Under Section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by (60 days from today). This action may not be challenged later in proceedings to enforce its requirements. (See 307(b)(2).)

Air pollution control, Ozone, Sulfur oxides, Nitrogen dioxide, Lead, Particulate matter, Carbon monoxide, Hydrocarbons, Intergovernmental relations.

Note.— Incorporation by reference of the State Implementation Plan for the State of Ohio was approved by the Director of the Federal Register on July 1, 1982.

(Section 110 of the Clean Air Act, as amended (42 U.S.C. 7410))

Dated: September 21, 1982.

Anne M. Gorsuch,

Administrator.

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Title 40 of the Code of Federal regulations, Chapter I, Part 52 is amended. Section 52.1870(c) is amended by adding new subparagraph (45) to read as follows:

§ 52.1870 Identification of plan.

* * * * *

(c) * * *

(45) On Feburary 25, 1980, the State submitted revisions to rules 01 through 06, 08 and 09 of Chapter 15 of the Ohio Administrative Code. These rules establish general provisions for the control of air pollution and were previously codified and approved as AP–2–01 through 06, 08 and 09. Rules 01 through 04, 06, 08 and 09 are approved as revisions to the Ohio SIP and rule 05 is deleted from the Ohio SIP.

State and Federal Administrative Orders Permitting a Delay in Compliance With State Implementation Plan Requirements; Notice of Disapproval of an Administrative Order Issued by the Indiana Air Pollution Control Board to Bethlehem Steel Corp.

AGENCY: Environmental Protection Agency.

ACTION: Final action.

SUMMARY: By this action, the Administrator of the U.S. Environmental Protection Agency (EPA) disapproves a Delayed Compliance Order (DCO) issued by the Indiana Air Pollution Control Board to Bethlehem Steel Corporation (Bethlehem). The DCO requires the company to bring air emissions from its coke oven batteries at Burns Harbor, Indiana, into compliance with regulations APC–3 and APC–5 of the Indiana Air Pollution Control Board (Indiana APC–3 and APC–5). Because this DCO has been disapproved, Bethlehem's compliance with the DCO will not preclude suits under the Federal enforcement provisions of the Clean Air Act (Act) for violations of the State Implementation Plan (SIP) regulations covered in the DCO.

DATES: This action takes effect October 1, 1982.

ADDRESS: Copies of the DCO, public comments on the notice of proposed disapproval and other documents relied upon by EPA are available for inspection in Docket No. 5A–81–1 at: U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT: Robert M. Andersen, Assistant Regional Counsel, (312) 886–6724.

SUPPLEMENTARY INFORMATION: The decision involves an administrative order submitted by Indiana to EPA for approval as a "delayed compliance order" (DCO) under Section 113(d) of the Clean Air Act. The order relates to Bethlehem Steel's coke oven batteries at its Burns Harbor, Indiana, facility. Under the Clean Air Act, issuance of a DCO extends the time allowed for complying with specified provisions of a State Implementation Plan.

This DCO was disapproved by EPA on September 17, 1979, 44 FR 53746. Bethlehem appealed EPA's disapproval to the United States Court of Appeals for the Seventh Circuit which reversed and remanded EPA's action, *Bethlehem Steel Corp. v. EPA*, 638 F. 2d 994 (7th Cir. 1980). The court found, in part, that EPA had inadequately supported the reasons for its action and ordered EPA to initiate new proceedings.

EPA is again disapproving the DCO. Since the period proposed to be covered by the DCO has passed, the effect of this action is to clarify whether the period of noncompliance involved is or is not covered by a federally-approved DCO.

The passage of time has made irrelevant a number of EPA's original objections dealing with the adequacy of the requirements of the DCO relating to

interim controls to be imposed on the Burns Harbor plant.

One issue upon which EPA based its original disapproval retains its importance, however, and is the basis for EPA's renewed disapproval. The state implementation plan provision involved here is Indiana Air Pollution Control Regulation 3 (APC–3), relating to visible emissions from "combustion" operations. In 1974 Indiana amended this regulation to clarify that it applied to coke batteries. At the same time Indiana granted certain sources, including coke batteries, a fifteen-minute exemption from compliance in each twenty-four hour period. On review, EPA approved the SIP revision, but expressly disapproved the fifteen-minute exemption. 40 FR 50032–33 (October 28, 1975).

Under the Clean Air Act, a DCO must provide for compliance with the applicable, i.e., EPA approved, state implementation plan. The proposed DCO required compliance with the version of APC–3 submitted by Indiana, not the version approved by EPA.

In a proceeding filed in the Seventh Circuit, Bethlehem challenged this basis for disapproval, among others, arguing that EPA had no authority to partially approve proposed SIP revisions. In its decision, the Seventh Circuit reserved decision on the legal question but remanded to EPA for clarification of the record on certain factual issues, *Bethlehem Steel Corp. v. EPA*, 638 F.2d 994 (7th Cir., 1980).

EPA has re-examined this issue on remand. That re-examination affirmed EPA's conclusions that its October 28, 1975 action approving APC–3 did not approve but disapproved the fifteen-minute exemption. See Notice of Proposed Disapproval, 46 *Fed. Reg.* 21790 (April 14, 1981). See also EPA Response to Comment 1 below.

On April 14, 1981, the Regional Administrator of EPA's Region V Office published in the **Federal Register** (46 FR 21790) a notice of proposed disapproval of the DCO. EPA's proposed second disapproval was based again upon the fact that the DCO does not require compliance with the applicable Indiana State Implementation Plan (SIP) as approved by EPA. The DCO instead requires compliance with Indiana APC–3 as promulgated by Indiana on October 7, 1974. The DCO requires compliance with a requirement less stringent than the APC–3 approved by EPA on October 28, 1975, 40 FR 50032. It therefore violates Section 113(d)(1)(D) of the Clean Air Act, 42 U.S.C. 7413(d)(1)(D).

Three letters of comment were received during the public comment period. Two were from Bethlehem, the source affected by the DCO. Bethlehem's comments can be summarized as follows:

1. Bethlehem disputes that EPA ever validly approved, in accordance with the requirements of Section 110(a), the version of APC–3 that it relied upon in the proposed disapproval.

2. Bethlehem claims that the decision of the Seventh Circuit Court of Appeals in *Bethlehem Steel Co.* v. *EPA*, 638 F. 2d 994 (7th Cir. 1980) was dispositive on the issue of whether EPA's actions on October 28, 1975 were adequate to constitute a partial approval of Indiana's APC–3.

3. Bethlehem cites numerous areas where it claims that APC–3 is vague and unenforceable.

4. Bethlehem contends that the disapproval violates Section 113(d)(2) in that EPA has failed to issue a simultaneous compliance order.

5. Bethlehem objects that the Region V, Air Enforcement Branch Chief was permitted to have a role in the proposal prior to publication.

Comments were also received from the Indiana Air Pollution Control Board which generally reiterate Bethlehem's first two concerns.

Response to Comments 1 and 2

EPA's October 28, 1975 action approving APC–3 also partially disapproved the regulation. Its status as partially approved was so understood at the time and since. See documents in EPA files responsive to Bethlehem's request for records under the Freedom of Information Act dated April 23, 1981. These documents, which are generally contemporaneous with EPA's rulemaking on October 28, 1975, and others which have been placed in the docket confirm the nature of EPA's action as an approval of APC–3 with the exception of the fifteen minute exemption. They refer repeatedly, for instance, to EPA's "partial approval" of APC–3. A recent federal circuit court decision also confirmed EPA's view of the applicable SIP regulation APC–3. *Public Service Company of Indiana, Inc. v. U.S.* (7th Cir., No. 81–1241, June 25, 1982) *affirming Public Service Company of Indiana v. U.S. EPA*, No. I.P. 80–332–C (S.D. Ind. Jan. 12, 1981). Contrary to Bethlehem's argument, the Seventh Circuit in the *Bethlehem* case, *supra*, expressly declined to decide the validity of EPA's partial approval of APC–3 on October 28, 1975. To the extent that Bethlehem's comments constitute a challenge to the validity of EPA's partial approval, they are also untimely by more than five years.

Response to Comment 3

Bethlehem cites a number of areas where it alleges that APC–3 is unconstitutionally vague and unenforceable. The enforceability of APC–3 is irrelevant to this proceeding. The criterion under Section 113(d)(1)(D) is whether or not the DCO provides for compliance with the applicable SIP. It is clear from the record that the DCO does not provide for compliance with APC–3 as federally approved.

Response to Comment 4

Bethlehem contends that this disapproval violates Section 113(d)(2) in that there has been no simultaneous issuance of a compliance order under Section 113(a). EPA noted in its proposed disapproval that Section 113(d)(2) requires that where the Administrator objects to the issuance of the State Order, "he shall simultaneously proceed to issue an enforcement order in accordance with subsection (a) or an order under this subsection."

The issuance of an order under Section 113(a) of the Act would be futile under the circumstances. Were it to call for less than immediate compliance it would modify the SIP in contravention of Section 110(i). Section 110(i) prohibits modification of a SIP (including modification of the date of compliance) except in accordance with certain specific subsections of the Act, which do not include Subsection 113(a). Bethlehem itself concedes that it is not capable of immediate compliance. Therefore, if EPA were to issue a Section 113(a) order, EPA would immediately be confronted with the need to institute a proceeding under Section 113(b).

This has already been accomplished by the filing of a civil action against Bethlehem in the Northern District of Indiana. *United States v. Bethlehem Steel Corporation*, Civil No. H76–491 (N.D. Ind.), filed on December 21, 1978.

Response to Comment 5:

EPA believes that the limited advisory function of the Air Enforcement Branch Chief, Mr. David Ullrich, in this action is Consistent with the decision in *Bethlehem Steel v. EPA*, 638 F. 2d 994, 1008–10 (7th Cir. 1980). Mr. Ullrich's limited role was necessary to ensure adequately informed decisionmaking and agency consistency. Mr. Ullrich's participation is fully documented in the rulemaking docket. He was not the attorney primarily responsible for managing the enforcement litigation, nor was he the principal person in charge of

reviewing and recommending a disposition of the DCO.

Conclusion.—The order issued by the Indiana Air Pollution Control Board to Bethlehem therefore conflicts with the applicable SIP and must be disapproved as a DCO pursuant to the authority of Section 113(d)(2) of the Act, 42 U.S.C. 7413(d)(2).

The propriety or legality of EPA's 1975 review of APC–3 is not at issue in this proceeding. EPA's actions in approving or disapproving SIPs can be challenged directly in the proper Court of Appeals under Section 307(d) of the Clean Air Act. No such challenge was brought to EPA's actions on the SIP provisions involved here. The SIP approved by EPA is the SIP with which the DCO must assure compliance. Proceedings to review DCO action should not—and in EPA's view, legally cannot—serve as a vehicle for collateral attacks on the status of underlying SIP requirements.

Under Section 307(b)(1) of the Clean Air Act, judicial review of this action is available only by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days. Under Section 307(b)(2) of the Clean Air Act, the action which is the subject of today's notice may not be challenged later in civil or criminal proceedings brought by EPA to enforce the SIP.

(42 U.S.C. 7413(d), 7601)

Anne M. Gorsuch,

Administrator.

Air pollution control.

PART 65—DELAYED COMPLIANCE ORDERS

In consideration of the foregoing, Chapter 1 of Title 40 of the Code of Federal Regulations is amended as follows:

1. By adding an entry to the table in § 65.192, to read as follows:

§ 65.192 EPA disapproval of State delayed compliance Orders.

The State Order identified below has been disapproved by the Administrator in accordance with Section 113(d)(2) of the Act and with this part. With regard to this Order, the Administrator has determined that it does not satisfy the applicable requirements of Section 113(d) of the Act.

BILLING CODE 6560-50-M

40 CFR Part 228

[OW-FRL 2207-2]

Ocean Dumping; Final Cancellation of Site Designations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA today cancels the designation of four ocean dumping sites which are currently designated on an iterim basis. This action is being taken because there is no projected future need for these sites. These sites will be removed from the list of "Approved Interim and Final Ocean Dumping Sites."

DATE: This cancellation shall become effective on November 1, 1982.

FOR FURTHER INFORMATION CONTACT: Mr. T. A. Wastler, Chief, Marine Protection Branch (WH–585), EPA, Washington, D.C. 20460, 202/755–0350.

SUPPLEMENTARY INFORMATION: EPA published revised Ocean Dumping Regulations and Criteria in the **Federal Register** on January 11, 1977 (42 FR 2462 et seq.). Section 2281.2 contains a list of "Approved Interim and Final Ocean Dumping Sites." This list was amended on December 9, 1980 (45 FR 81042 et seq.) to extend the interim designation of some ocean dumping sites and cancel the designation of six industrial sites and one dredged material site. At that time EPA stated its intention to identify additional ocean dumping sites for which there is no projected future need.

Four such sites were identified, and EPA proposed cancellation of the designation of these sites on April 23, 1982 (47 FR 17580). The public comment period expired on June 22, 1982. No comments were received.

The sites with their identifying coordinates are listed below.

1. Withlacoochee River, FL—28d 59′ 54″N., 82d 47′ 14″W.; 29d 00′ 28″N., 82d 46′ 06″W.; 29d 00′ 14″N., 82d 45′ 58″W.; 28d 59′ 40″N., 82d 47′ 06″W.

2. Horseshoe Cove, FL—29d 25′ 23″N., 83d 17′ 53″W.; 29d 25′ 18″N., 83d 17′ 43″W.; 29d 25′ 09″N., 83d 17′ 49″W.; 29d 25′ 14″N., 83d 17′ 59″W.

3. Crescent City, CA, 100 fathom site—41d 43′ 50″N, 124d 28′ 00″W (center coordinates).

4. American Samoa, Pago Pago Harbor—14d 23′ 00″S., 170d 39′ 30″W (center coordinates).

The cancellation of these four sites as EPA Interim Approved Ocean Dumping Sites is being published as final rulemaking.

Under the Regulatory Flexibility Act, EPA is required to perform a Regulatory Flexibility Analysis for all rules which may have a significant impact on a substantial number of small entities. Under Executive Order 12291, EPA must judge whether a regulation is "major" and therefore subject to the requirement of a Regulatory Impact Analysis.

EPA has determined that this final rule will not have a significant impact on small entities. No small entities are using or, as far as EPA is aware, are planning to use these sites in the near future. Furthermore, the cancellation of these site designations will have no effect on the economy or cause any of the other effects which would result in its being classified as a "major" action. Consequently, this final rule does not necessitate the preparation of a Regulatory Flexibility Analysis or Regulatory Impact Analysis.

This final rule was submitted to the Office of Management and Budget for review as required by Executive Order 12291. Any comments from OMB to EPA and any EPA response to those comments are available for public inspection in Room 2709, Waterside Mall, 401 M Street Southwest, Washington, D.C.

Acting Assistant Administrator for Water.

PART 228—CRITERIA FOR THE MANAGEMENT OF DISPOSAL SITES FOR OCEAN DUMPING

§ 228.12 [Amended]

In consideration of the foregoing, Subchapter H of Chapter I of Title 40 is amended by removing from § 228.12(a) four ocean dumping sites as follows:

1. Withlacoochee River, FL—28d 59′ 54″ N., 82d 47′ 14″ W.; 29d 00′ 28″ N., 82d 46′ 06″ W.; 29d 00′ 14″ N., 82d 45′ 58″ W.; 28d 59′ 40″ N., 82d 47′ 06″ W.

2. Horseshoe Cove, FL—29d 25′ 23″ N., 83d 17′ 53″ W.; 29d 25′ 16″ N., 83d 17′ 43″ W.; 29d 25′ 09″ N., 83d 17′ 49″ W.; 29d 25′ 14″ N., 83d 17′ 59″ W.

3. Crescent City, CA, 100 fathom site—41d 43′ 50″ N., 124d 28′ 00″ W. (center coordinates).

4. American Samoa, Pago Pago Harbor—14d 23′ 00″ S., 170d 39′ 30″ W. (center coordinates).

Employee Responsibilities and Conduct; Corrections and Amendment

Correction

In FR Doc. 82-26407, appearing at page 42359 in the issue of Monday, September 27, 1982, the following changes should be made:

1. On page 42359, in the last line of column two, the section number now reading "20.735.36" should read "20.735-36".

2. On page 42359, in column three, between the fifth paragraph and the heading "List of Subjects in 43 CFR Part 20," insert the following:

Authority: 5 U.S.C. 301; 5 CFR 735.104; 5 CFR 734.103; E.O. 11222, 30 FR 6469, 3 CFR 1964-65 (Comp.) as amended (18 U.S.C. 201 note).

3. On page 42361, the citation in the fifth line of the first column should read, "(43 U.S.C. 31(a))".

4. On page 42362, the authority cite appearing above the heading "Privacy Act Notice" in column three should be removed.

BILLING CODE 1505-01-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 312

[Docket No. FEMA-P-312]

Use of Civil Defense Personnel, Materials and Facilities for Natural Disaster Purposes

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Final rule.

SUMMARY: This rule authorizes the use for natural disaster purposes of civil defense personnel, materials, and facilities supported with contributions under the Federal Civil Defense Act of 1950, as amended, and provides terms and conditions for such use. This regulation is necessary to implement section 803 of the Department of Defense Authorization Act of 1982.

EFFECTIVE DATE: October 1, 1982.

FOR FURTHER INFORMATION CONTACT: John E. Bokel, Federal Emergency Management Agency, Washington, D.C., 20472, (202) 287-3843.

SUPPLEMENTARY INFORMATION: On March 16, 1982, FEMA published for comment in the **Federal Register** (Vol. 47, No. 51 pages 11297-8) a proposed rule on Section 207, an amendment to the Federal Civil Defense Act of 1950, as amended. That Section clarified the "dual-use" policy regarding the use of resources funded under the Federal Civil Defense Act for preparedness to cope with natural disasters. The amendment makes explicit authority for States and their political subdivisions to use funds and resources in preparation for and response to both attack-related and natural disaster-related events. However, use of attack-related preparedness resources for natural disaster response purposes is allowed only if such use is consistent with, contributes to, and does not detract from attack-related preparedness. The Act directed the issuance of regulations to implement this policy.

As Federal funding to which these regulations will be applicable is less that $100,000,000 annually, the regulation is not considered to be a major regulation requiring a regulatory analysis under Executive Order 12291. The regulation also is applicable to States to whom the funding is made available, and thus is not subject to the requirements of the Regulatory Flexibility Act which is concerned with small entities. No regulatory flexibility analysis will be prepared.

The amendment and these regulations reflect the interchangeable nature of many aspects of emergency management. Personnel, materials, and facilities designated for one purpose are able to be used with equal effectiveness in other situations. The regulation allows for the fact that there is a primary and secondary use of certain resources provided under the Act and that they may be so used with the important proviso of the statute. Such usage also contributes to the mission of FEMA by encouraging the development of comprehensive emergency management, by assisting in achieving greater coordination of disaster preparation and response programs, and by providing technical assistance for organizing and preparing to meet the effects of disasters.

The regulation provides for a mechanism and process through which the dual-use policy can be managed. The Director, FEMA, will provide information on Agency mission, goals and program emphasis, and political subdivisions. Financial contributions to States and their political subdivisions will be made based on approval by the Regional Director, FEMA, of specific activities described in their individual applications. Activities and projects in preparation for and response to attack-related disasters must be identified, and progress must be shown and reported.

Comments were received from 27 individuals or organizations, primarily State emergency offices. A few supported the rule without any further comment. Several commenters suggested changes to the Definitions Section (§ 312.2). Suggestions included adding terms such as mitigation, terrorism and subversion, hazardous substance, and radiological; others suggested a modification of the definition of natural disaster. At least one comment suggested that there would be some confusion caused by the redefinition of civil defense as inclusive of both attack-related and natural disaster-related events. The confusion results from the normal connotation of civil defense as being limited to attack-related activities, a meaning that will linger in usage despite the redefinition of the Act and that will require much clarification in both oral and written communication. The commenter suggested that the term "emergency management" is the broadest and most useful definition, with attack-related and natural disaster-related activities, among others, retaining their separate and traditional meanings. In all cases, and because the rule uses the language of the statute itself, no changes were in order.

One comment raised the question of prior approval for the usage or commitment of resources for natural disaster-related activities in light of the provision that such usage be consistent with, contribute to, and not detract from attack-related civil defense preparedness. Section 312.4 sets out the basic process through which approval is given. That is, States and their political subdivisions apply for financial assistance and describe their programs and activities which are reviewed and approved on their compatability with FEMA's Annual Program Emphasis and guidance. The most significant criterion in the approval is the inclusion of substantive activities and projects in preparation for and response to attack-related disasters. The process allows for a general permission prior to making contributions to States and their political subdivisions, and does not require permission in individual usage instances.

Another comment, citing § 312.4, stated concern that FEMA may levy requirements that might be difficult to meet, particularly for small political subdivisions of States. The comment addressed certain program areas in attack-related civil defense which can be primarily regarded as national priorities, such as the Nuclear Civil Protection program, which in the judgment of the commenter requires full support from the Federal Government. The statement of Agency mission and goals is not designed to preclude even the smallest political subdivision from participating in FEMA's emergency management programing, though there are practical limits to the resources at hand. The purpose of mission and goals statements is to identify and describe the key elements of FEMA's responsibility. The application of the mission and goals to States and their political subdivisions is largely determined by their respective needs and resources. The approval and monitoring process set out in 312.4 envisions program design and development originating at the State and local level based on FEMA guidance, and the needs of each political subdivision.

One comment suggested amending § 312.4(c) to allow for the occurrence of unavoidable circumstances and the good faith effort of the applicant. That change has been incorporated.

Another comment suggested that the term response operations in § 312.5(c) was too broad, and that the term emergency should be added. That change has been incorporated.

The majority of the respondents with comments addressed subsection § 312.5(c). The comments noted such things as the following: the overall restrictiveness of this subsection; the entire matter of prior authorization of the Regional Director, and that none be required at least for the first time span; the length of time of the first time span and that it be increased; the maximum overall amount of time of an emergency assignment, and that this should be left to the discretion of the respective State officials. The comments indicated strong disagreement with the proposed approach in that it limited the flexibility needed for the management of resources in emergencies and for the achievement of other emergency management goals in a State. Several comments offered specific amendments to the proposed language and they have been incorporated in the final version of § 312.5.

Another comment suggested adding a subsection to § 312.6 specifying other equipment loaned to States. That suggestion has been incorporated as § 312.6(e).

FEMA has determined that an environmental impact statement is not needed for this final rule. A copy of the finding of no significant impact is available for inspection at the above address.

List of Subjects in 44 CFR Part 312

Civil defense, Grant program, National defense.

Accordingly, Title 44, the Code of Federal Regulations, is amended by adding a new Part 312 to Subchapter E, Chapter 1, as follows:

PART 312—USE OF CIVIL DEFENSE PERSONNEL, MATERIALS, AND FACILITIES FOR NATURAL DISASTER PURPOSES

Sec.

312.1 Purpose.
312.2 Definitions.
312.3 Policy.
312.4 General.
312.5 Personnel.
312.6 Materials and Facilities.

Authority.—Sec. 803(a)(3) Pub. L. 97–86; Sec. 401, Federal Civil Defense Act of 1950, as amended, 50 U.S.C. App. 2253; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp. p. 329; and Executive Order 12148 of July 20, 1979, 44 FR 43239.

§ 312.1 Purpose.

The purpose of the regulations in this part is to prescribe the terms and conditions under which civil defense personnel, materials, and facilities, supported in whole or in part through contributions under the Federal Civil Defense Act of 1950, as amended, 50 U.S.C. App. 2251, *et seq.*, hereinafter referred to as "the Act", may be used for natural disasters, to the extent that such usage is consistent with, contributes to, and does not detract from attack-related civil defense preparedness.

§ 312.2 Definitions.

Except as otherwise stated, when used in the regulations in this part, the meaning of the listed terms are as follows:

(a) The term "attack" means any attack or series of attacks by an enemy of the United States causing, or which may cause, substantial damage or injury to civilian property or persons in the United States in any manner by sabotage or by use of bombs, shellfire, or atomic-radiological, chemical, bacteriological, or biological means or other weapons or processes;

(b) The term "natural disaster" means any hurricane, tornado, storm, flood, high water, wind-driven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, drought, fire, or other catastrophe in any part of the United States which causes, or which may cause, substantial damage or injury to civilian property or persons and, for the purposes of the Act, any explosion, civil disturbance, or any other manmade catastrophe shall be deemed to be a natural disaster;

(c) The term "civil defense" means all those activities and measures designed or undertaken (1) to minimize the effects upon the civilian population caused, or which would be caused, by an attack upon the United States, or by natural disaster, (2) to deal with the immediate emergency conditions which would be created by any such attack, or natural disaster, and (3) to effectuate emergency repairs to, or the emergency restoration of vital utilities and facilities destroyed or damaged by any such attack or natural disaster. Such term shall include, but shall not be limited to, (i) measures to be taken in preparation for anticipated attack or natural disaster (including the establishment of appropriate organizations, operational plans, and supporting agreements; the recruitment and training of personnel; the conduct of research; the procurement and stockpiling of necessary materials and supplies; the provision of suitable warning systems; the construction or preparation of shelter areas, and control centers; and, when appropriate, the non-military evacuation of civil population); (ii) measures to be taken during attack or natural disaster (including the enforcement of passive defense regulations prescribed by duly

established military or civil authorities; the evacuation of personnel to shelter areas; the control of traffic and panic; and the control and use of lighting and civil communications); and (iii) measures to be taken following attack or natural disaster (including activities for firefighting; rescue, emergency medical, health and sanitation services; monitoring for specific hazards of special weapons; unexploded bomb reconnaissance; essential debris clearance; emergency welfare measures; and immediately essential emergency repair or restoration of damaged vital facilities);

(d) The word "materials" shall include raw materials, supplies, medicines, equipment, component parts and technical information and processes necessary for civil defense;

(e) The word "facilities", except as otherwise provided herein, shall include buildings, shelters, utilities, and land;

(f) The term "United States" or "States" shall include the several States, the District of Columbia, the Territories, and the possessions of the United States;

(g) The term "political subdivisions" shall include local governments, including but not limited to cities, towns, incorporated communities, counties, parishes, and townships; and

(h) The term "CPG 1–3" refers to FEMA's "Federal Assistance Handbook" promulgated as Civil Preparedness Guide (CPG) 1–3, as amended, by numbered changes thereto and by Civil Preparedness Circulars (CPC) as provided in 44 CFR 310.20. CPG 1–3 sets forth detailed guidance on procedures which a State and, where applicable, its political subdivisions must follow in order to request financial assistance from FEMA. It also sets forth detailed requirements, terms, and conditions upon which financial assistance is granted.

§ 312.3 Policy.

(a) It is the policy of FEMA to provide a means of assistance to States and their political subdivisions in their carrying out responsibilities to alleviate the suffering and damage from attack-related or natural disasters by:

(1) Providing contributions for personnel, equipment, materials and facilities that may be used in preparing for or responding to disasters, provided that the use of such funds for natural disasters is consistent with, contributes to, and does not detract from attack-related civil defense preparedness.

(2) Encouraging the development of comprehensive disaster preparedness and assistance plans, programs, capabilities, and organizations by the State and its political subdivisions.

(3) Assisting in achieving greater coordination of disaster preparation and response programs.

(4) Providing technical advice and guidance to States and their political subdivisions for organizing and preparing to meet the effects of disasters.

(b) These regulations are not to be interpreted as authorizing States and their political subdivisions to request or receive additional assistance relating to particular disaster incidents.

§ 312.4 General.

(a) The Director, FEMA, will provide statements to States and their political subdivisions concerning Agency mission and goals, Annual Program Emphasis, and other directions, instructions, and technical guidance which together specify preparedness and response activities for both attack-related and natural disasters.

(b) States and their political subdivisions may apply to FEMA for financial assistance under the Act in a manner prescribed by Federal Regulations governing grants and cooperative agreements. Such applications must be compatible with FEMA's goals and requirements described in paragraph (a) of this section.

(c) Financial contributions to States and their political subdivisions are made by FEMA based on approval of the activities and projects described in the Annual Program Paper, and/or Comprehensive Cooperative Agreement, and which are in conformance with provisions of CPG 1–3, and applicable FEMA regulations set forth in Chapter 1 of this Title 44, Chapter 1, Subchapter E, of the Code of Federal Regulations. Financial contributions will not be made unless substantive activities and projects in preparation for and response to attack-related disasters are identified, and progress is indicated in the submissions, and recorded in program reporting systems. The presence of unavoidable circumstances, and the good faith effort of the applicant, will be considered if certain objectives are not met.

(d) State and local officials may use personnel, equipment, and facilities for natural disasters outside the physical boundaries of the jurisdiction and under the conditions stated within this regulation.

(e) Specific criteria relating to the preparedness and response activities are given in Sections 5 and 6 of this part.

§ 312.5 Personnel.

FEMA contributes to the development and support of emergency management organizations in the States and their political subdivisions, and to the development, operation, and maintenance of specific programs, through payment of salaries and benefits of State and local civil defense staff, and the payment of administrative expenses and travel, not to exceed 50 percent. FEMA also provides contributions for training and education expenses. The following use of such personnel for natural disaster purposes is allowable provided that such usage is consistent with, contributes to, and does not detract from attack-related civil defense preparedness:

(a) In developing, maintaining, testing and exercising plans, systems, and procedures for the protection of people and property from the effects of attack-related disasters, States and their political subdivisions may include and provide for natural disasters.

(b) Personnel supported in part through contributions under the Act may be assigned responsibilities for preparation for and response to natural disasters in any specific emergency occurring in a State or its political subdivisions as determined by the responsible State or local officials, respectively.

(c) Personnel supported in whole under the Act, may be assigned to emergency response operations for 15 days at the discretion of State officials; approval of the FEMA Regional Director is required for the use of these personnel in excess of 15 days. An assignment to emergency response operations does not preclude the accomplishment of program work and objectives. Failure to accomplish such work may subject the State to the withholding of funds contributed under the Act, or to collection of funds already obligated, not to exceed the estimated cost of the work not performed, as determined by the Regional Director.

(d) In the event of an emergency or major disaster declared under the Disaster Relief Act of 1974, as amended, personnel will not be provided overtime compensation and expenses under the Act.

§ 312.6 Materials and facilities.

FEMA also contributes to the development and support of emergency management in the States and their political subdivisions, and to the development, operation, and maintenance of specific programs, through providing certain materials and facilities. The following may be used for

natural disaster purposes provided that such usage is consistent with, contributes to, and does not detract from attack-related civil defense preparedness:

(a) Materials provided and maintained through contributions under the Act.

(b) Technical information, guidance through which technical assistance is provided, and training courses, may contain examples, illustrations, discussion, suggested applications and uses of material.

(c) Equipment loaned under provisions of the Contributions Project Loan Program.

(d) Facilities, such as Emergency Operating Centers, provided and maintained through contributions under the Act.

(e) Equipment loaned or granted to the States for civil defense purposes (e.g., radiological instruments, shelter supplies).

Dated: September 23, 1982.

Lee M. Thomas,

Associate Director, State and Local Programs and Support.

Correction

In FR Doc. 82-3018 appearing on page 5648 in the issue of Friday, February 5, 1982, make the following changes:

1. On page 5658, first column, last line, "§ 233.30 (a)(3)(ii)(E)" should read "§ 233.20 (a)(3)(ii)(E)".

2. On page 5661, first column, fifth line from the top, "possibile" should read"possible"; second column, seventh line from the bottom, "detrermination" should read "determination"; and in the sixth line from the bottom,"exceptation" should read "exception".

3. On page 5663, second column, third full paragraph, last line, "§ 233.20 (a)(6)(v)(B)" should read "§ 233.20 (a)(6)(v)(*b*)".

4. On page 5664, first column, twelfth line from the bottom, insert "FR" after "44"; second column, second full paragraph, sixth line, "imcome" should read "income"; third column, seventeenth line from the top, "propspective" should read "prospective".

5. On page 5665, third column, first full paragraph, second line, insert "*not*" after "*is*".

6. On page 5673, third column, the amendatory language for § 205.80 should read as follows: "2. A new § 205.80 is added to read as follows:".

7. On page 5674, first column, § 206.10, insert "* * * * *" above subparagraph (4); third column, amendment numbered 8, ninth line, "paragraph" should read "paragraphs".

8. On page 5675, first column, § 233.20 (a)(3)(ii)(D), second line, "(a)(3)(xii)" should read "(a)(3)(xiii)", second column, § 233.20 (a)(3)(ii)(E), sixth line from the top, insert a period after "goods".

9. On page 5677, third column, § 233.20(a)(13)(i), fourth line from the bottom, remove the comma after "income" and in the last line, insert ")" after "month.".

10. On page 5680, first column, § 233.50(b)(2), second line, "Aporil" should read "April"; in § 233.51(a), eighth line, "application" should read "applicable".

11. On page 5682, second column, § 233.100(c)(1)(iv)(*a*), fourth line, insert ")" after "section".

12. On page 5686, second column, § 239.80, fifth line, insert a comma after "children".

BILLING CODE 1505-01-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 0

[FCC 82-312]

Commission Organization; Amendment of the Commission's Rules To Reflect a Reorganization of the Common Carrier Bureau

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This amendment changes the Commission's Rules to incorporate the reorganization of the Common Carrier Bureau. The reorganization was necessary to: (1) Abolish the Consumer Affairs Division and the Pole Attachments Branch; (2) consolidate all complaints functions within the Enforcement Division; and (3) designate a substructure within the Enforcement Division.

EFFECTIVE DATE: October 6, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: A. O'Donoghue, Office of Managing Director, (202) 632-7513.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 0

Organization and functions (Government agencies).

Order

In the matter of Amendment of Part 0 of the Commission's Rules to reflect a reorganization of the Common Carrier Bureau.

Adopted: July 9, 1982.

Released: September 22, 1982.

1. The Commission has before it for consideration proposed changes in the organization of the Common Carrier Bureau. Implementation of the proposed changes would require amendments to § 0.92 of the Commission's Rules and Regulations.

2. To promote operating efficiency, the Commission is hereby approving the consolidation of the Consumer Affairs Division and the Pole Attachments Branch, Tariff Division into the Enforcement Division, plus the establishment of a Computer II Staff within the Enforcement Division. All other Common Carrier Bureau divisions will remain the same. The reorganization will consolidate all complaints functions, formal and informal, within the Enforcement Division. The consolidation of the Consumer Affairs Division into the Enforcement Division will centralize the complaints function within the Bureau, enhancing coordination and speed of service. The pole attachments program, while still legislatively mandated, has not evolved into as large a program as originally envisioned. The reduced functions will be transferred to the Enforcement Division. The Enforcement Division is also responsible for implementation of Computer II, which is one of the Bureau's highest priority projects. Since the Computer II project is unique and requires a full time effort, a Computer II Staff is established within the Enforcement Division, Part 0 of the Rules and Regulations is being amended to reflect these changes.

3. The amendments adopted herein pertain to agency organization. The prior notice procedure and effective date provisions of Section 4 of the Administrative Procedure Act are, therefore, inapplicable. Authority for the amendments adopted herein is contained in Sections 4(i) and 5(b) of the Communications Act of 1934, as amended.

4. In view of the foregoing, it is ordered, effective October 6, 1982 that Part O of the Rules and Regulations is amended as set forth in the Appendix hereto.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

William J. Tricarico,

Secretary.

Appendix

PART 0—COMMISSION ORGANIZATION

Part O of Chapter 1 of Title 47 of the Code of Federal Regulations is hereby amended as indicated below.

1. Section 0.92 is revised in its entirety to read:

§ 0.92 Units of the bureau.

(a) Office of the Bureau Chief.
(b) Deputy Bureau Chief for Operations.
(c) Deputy Bureau Chief for Policy.
(d) Assistant Bureau Chief/ Management.
(e) Assistant Bureau Chief/ International.
(f) International Facilities Planning Division.
(g) International Facilities Authorization and Licensing Division.
(h) Enforcement Division.
(i) Domestic Facilities Division.
(j) Hearing Division.
(k) Mobile Services Division.
(l) Tariff Division.
(m) Accounting and Audits Division.
(n) Economics Division.
(o) Policy and Program Planning Division.

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action assigns FM Channel 240A to Atlantic City, New Jersey, as requested by Doctor A. Crants, Jr. The assignment could provide a fourth local FM service.

DATE: Effective November 16, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Philip S. Cross, Broadcast Bureau, (202) 632-5414.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcast.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Atlantic City, New Jersey); BC Docket No. 81-725, RM-3862; Report and order (Proceeding Terminated).

Adopted: September 7, 1982.
Released: September 17, 1982.

1. The Commission has before it the *Notice of Proposed Rule Making* published in the **Federal Register** on October 26, 1981 (46 FR 52151).

2. The Notice proposed assigning FM Channel 240A to Atlantic City, New Jersey, in response to a petition filed by Doctor R. Crants, Jr. ("petitioner").

3. Atlantic City is located on the New Jersey shore, approximately 85 kilometers (52 miles) southeast of Philadelphia. The community presently receives local service from FM Stations WAYV (Channel 236), WFPG (Channel 245), and WMGM (Channel 279), and from AM Stations WIIN (1450 kHz), WMID (1340 kHz), and WUSS (1490 kHz).

4. Comments in support were filed by petitioner. Pleasant Broadcasters ("WADB"), licensee of Station WADB-FM, Channel 240A, Point Pleasant, New Jersey, filed a late opposition to the proposal. Reply comments were filed by Franklin Broadcasting Company ("WFLN"), licensee of Station WFLN-FM, Channel 239, Philadelphia, Pennsylvania, in opposition to the proposal.

5. In the *Notice*, we denied petitioner's request for a waiver of the short-spacing requirements in favor of the alternative site restricted assignment.[1] Petitioner had proposed a tower site approximately one mile offshore. We found no fault with the idea of an offshore site. We stated, though, that receipt of the requisite clearances from such Federal agencies as the Federal Aviation Administration, Coast Guard, and Army Corps of Engineers and from any relevant state agencies are matters more appropriately considered at the application stage. However, in order to assure ourselves that a transmitter site would be "available" if an assignment were made we requested that petitioner generally indicate in his comments the extent to which he has investigated Federal, State and local requirements, if any, which must be complied with in order to obtain approval for use of such a site, and the factual basis for his belief that his proposed use of the site would fulfill such requirements. Additionally, we stated that a significant question had been raised as to whether the requisite city-grade signal could be placed over all of Atlantic City from the offshore site. We requested that the petitioner submit a technical exhibit responding to this issue.

6. In comments, petitioner submitted a showing that based on its preliminary investigation there is a reasonable expectation of obtaining the offshore site. Petitioner states that three government agencies will be involved in jurisdiction of any proposed offshore antenna structure, the State of New Jersey, the U.S. Army Corps of Engineers and the U.S. Coast Guard.

7. We are told by petitioner that the State of New Jersey will require a Waterfront Development permit prior to construction and an application for Grant in Conveyance to occupy the site. Petitioner states that consultations with the State of New Jersey agencies indicate that no unusual problems will be involved.

8. Petitioner reports that the U.S. Army Corps of Engineers, whose primary concern is with navigational issues, will require a formal application for a construction permit. From his review of the application form, petitioner anticipates no difficulty in meeting the Corps' requirements.

9. Petitioner states that the U.S. Coast Guard, through its Aids to Navigation offices, has jurisdiction over the marking and lighting of the proposed antenna structure for the safety of marine navigation. From its review of the applicable Coast Guard regulations, petitioner concludes that he can satisfy the marking and lighting requirements.

10. Petitioner added that he is aware of the additional requirements of the Federal Aviation Administration for marking and lighting the structure. Petitioner assures that he would apply for, and await, an FAA No Hazard determination before construction.

11. Petitioner adds that no unusual physical difficulties are anticipated in construction of the offshore facility.

12. With respect to the question of whether the requisite city-grade signal could be placed over all of Atlantic City from the offshore site, petitioner submitted an engineering affidavit showing that the required 3.16 mV/m contour would cover the entire developed and inhabited portion of the

[1] The site would be restricted to a location approximately 4.2 miles southwest of Atlantic City.

city and fail only by "a few tenths of a mile" to include the southernmost tip of the area (uninhabited) within the city limits.

13. WFLN filed no comments in this proceeding but filed reply comments. WFLN contends that citizen groups may oppose and use the multiplicity of permit requirements to delay substantially, if not prevent, construction of the offshore tower. WFLN also contends that petitioner has not made the requisite showing of placing a city grade signal over all of Atlantic City.

14. WABD filed a motion to accept its late-filed comments opposing the proposal. Illness of WABD's president and delay in obtaining copies of the *Notice* herein are reasons given in support of the motion. We find that good cause has been shown in support of the motion, and the comments are being considered.

15. WABD states that it has been appointed by the State of New Jersey as the primary alerting station for the Oyster Creek Nuclear Generating Plant. WABD contends that "an essentially over water path to the WABD service area by another station on the same frequency would prevent reliable reception of WABD's signal by the nuclear warning network as well as to a large population in the central and southern part of Ocean County." WABD claims that the FCC rules on spacing are based on signal propagation characteristics over land and do not include characteristics over purely water path, as between the offshore site and the service area of WABD. Thus the Commission should not base interference considerations on its mileage separation standards.

16. As for the practicability of the proposal, WABD further contends that an offshore site would require maintenance and create personnel problems from wet air, power supply, wind, storms and hurricanes. WADB alleges that these obstacles would make the proposal impractical.

17. We conclude from the showing made by petitioner that an offshore tower site is feasible and we are willing to allow petitioner or any other applicant the opportunity to provide another Atlantic City station. There is nothing in the record to establish that petitioner cannot obtain the requisite authorization from those agencies with jurisdiction over the offshore site matter.

18. From the showing made by petitioner and our staff study, we conclude that petitioner could provide the requisite city-grade signal to all of the inhabited part of Atlantic City. The area in which the station cannot be predicted to cover appears to include uninhabited marshlands within the boundaries of Atlantic City. On that basis we believe it is appropriate to waive the city grade signal requirement (Section 73.315(a) of the Commission's Rules) for purposes of the channel assignment.

19. As for WADB's objections about expected interference to its signal in the Oyster Creek area, we find no basis for protecting that station beyond the normal criteria defined by the mileage separation rules. These rules were devised to permit the operation of the greatest number of stations in an area with some acceptable degree of interference between stations. The rules require that Class A stations on the same channel be at least 65 miles apart. The proposed station meets that spacing. Class A Station WADB, located north of Point Pleasant, with 3 kW radiated power and with an antenna elevated only 155 feet above average terrain provides a city grade signal of 3.16 mV/m that just encompasses the southern edge of the city of Point Pleasant. It's 1 mV/m signal would be expected to extend some 4 or 5 miles further south of the city limits. The Oyster Creek area is some 30 or more miles further away. We acknowledge that prior to commencement of operation of the proposed new station in Atlantic City, WADB may provide a marginal but needed emergency warning signal to the Oyster Creek area. Our calculations indicate that even allowing for the unusual (largely water) path from WADB to the area in question, WADB's signal would be expected to be less than 50 μV/m (the far-fringe level) in the Oyster Creek area. Reception of signals this marginal usually require the use of elaborate receiving installations (large antenna or relatively tall poles or masts). The proposed new station in Atlantic City should provide a much better signal to this area and thus more reliable reception than WADB's signal.

20. We believe that the public interest would be served by the assignment of Channel 240A to Atlantic City. An interest has been shown for its use, and such an assignment would provide the community with its fourth FM station.

21. Authority for the adoption of the amendment herein is contained in Sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and §§ 0.204(b) and 0.281 of the Commission's Rules.

22. Accordingly it is ordered, That effective November 16, 1982, § 73.202(b) of the Commission's Rules, the FM Table of Assignments, is amended with regard to the following community:

City	Channel No.
Atlantic City, New Jersey	236, 240A, 245, 270

23. It is further ordered, That this proceeding is terminated.

24. For further information concerning the above, contact Philip S. Cross, Broadcast Bureau, (202) 632-5414.

47 CFR Part 73

[BC Docket No. 82-193; RM-4043]

Radio Broadcast Services; FM Broadcast Station in Hope, Arkansas; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Action taken herein assigns a second FM channel to Hope, Arkansas, in response to a petition filed by Freddie Riley.

DATE: Effective November 16, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Hope, Arkansas), BC Docket No. 82-193, RM-4043; Report and Order (Proceeding Terminated).

Adopted: September 9, 1982.

Released: September 17, 1982.

1. The Commission herein considers the *Notice of Proposed Rule Making*, 47 FR 16807, published April 20, 1982, which seeks the assignment of Channel 289A to Hope, Arkansas. The *Notice* was issued in response to a petition filed by Freddie Riley ("petitioner"). Supporting comments were submitted by the petitioner and by James Mason,[1]

[1] James Mason's petition requesting the assignment of Channel 289A to Hope, Arkansas, is being treated as comments in the proceeding.

both stating their intent to apply for the channel, if assigned. Comments in opposition to the proposal were submitted by Newport Broadcasting Company ("Newport") to which petitioner responded. Newport also submitted reply comments.[2]

2. Petitioner incorporated by reference the information in the *Notice* which demonstrated a need for the requested assignment. In response to the *Notice* petitioner states that no community with a population greater than 1,000 will be precluded by the proposed assignment. However, pursuant to the action taken in BC Docket No. 80–130, *Revision of FM Policies and Procedures*, 90 F.C.C. 2d 88 (1982), this information is no longer required to justify an assignment.

3. Newport opposes the assignment as being contrary to the original plan governing FM channel allocations, *Revision of FM Broadcast Rules, First Report and Order* 33 F.C.C. 309 (1962). Newport points out that the petitioner failed to provide preclusion information or make an adequate showing of convincing need for an additional assignment to Hope, Arkansas. Based on these issues, Newport urges the Commission to deny the requested assignment. In response, petitioner states that the policy and procedures referred to by the opposition are no longer applicable (pursuant to *Docket 80–130, supra*). Riley reasserts the need for the proposed assignment as indicated in his comments and in those submitted by James Mason.

4. After considering the proposal and comments, the Commission is persuaded that the public interest would be served by granting the requested assignment. Although the *Notice* requested additional information to justify a second assignment to Hope, Arkansas, the action taken in the *Revision of FM Policies and Procedures, supra* (Docket 80–130) eliminates the need to provide the additional material to justify a second channel allocation. Thus, the issues discussed by Newport Broadcasting are no longer a consideration in this type of case.

5. In view of the foregoing and pursuant to the authority contained in sections 4(i), 5(d)(1), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, and §§ 0.204(b) and 0.281 of the Commission's rules, it is ordered, That effective November 16, 1982, the FM Table of Assignments (§ 73.202(b) of the Rules) is amended with respect to the following community:

City	Channel No.
Hope, Arkansas	269A, 296A

6. It is further ordered, That this proceeding is terminated.

7. For further information concerning this proceeding, contact Montrose H. Tyree, Broadcast Bureau (202) 632–7792.

47 CFR Part 73

[BC Docket No. 82–234; RM–4046, RM–4139]

Radio Broadcast Services; FM Broadcast Station in Lahaina, Hawaii; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Action taken herein assigns Class C FM Channels 260 and 266 to Lahaina, Hawaii, in response to requests from Maui Broadcasting Company and from Shoblam Broadcasting, Inc. The assignments could provide Lahaina with the opportunity for a second and third commercial FM station.

DATE: Effective November 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632–7792.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Lahaina, Hawaii); BC Docket No. 82–234, RM–4046, RM–4139; Report and Order (Proceeding Terminated).

Adopted: September 9, 1982.

Released: September 20, 1982.

1. The Commission herein considers the *Notice of Proposed Rule Making*, 47 FR 20157, published May 11, 1982, issued in response to a petition filed by Maui Broadcast Company ("petitioner"), seeking the assignment of Class C FM Channel 266 [1] to Lahaina, Hawaii. In response to the *Notice*, comments and a counterproposal [2] were filed by Shoblom Broadcasting, Inc. (Shoblom[3]), to which the petitioner responded.

2. In its comments and counterproposal, Shoblom, one of two applicants [3] for Channel 228A [4] in Lahaina, Hawaii, requests the assignment of a second Class C channel to Lahaina. Shoblom wishes to be able to amend its application to specify the new Class C channel without losing the cutoff status it now has for Channel 228A. [5]

3. In its comments, Shoblom states the reason it wishes a second Class C channel is to eliminate intermixture at Lahaina. However, it recognizes that the Commission recently removed this policy as an obstacle to new assignments. See, *Second Report and Order* in BC Docket No. 80–130, *Revisions of FM Assignment Policies and Procedures*, 90 F.C.C. 2d 88 (1982).

4. With respect to its application for Channel 228A, Shoblom advises that although the cutoff date had not arrived, those applicants who timely filed for Channel 228A should be able to amend their application to specify the Class C channel without losing their cutoff protection. Citing *Carnelian Bay and South Lake Tahoe, California, et al.*, 50 R.R.2d 1179 (1982); *Lake Havasu City, Arizona*, 46 FR 37896, published July 23, 1981; and *Petoskey, Michigan* (BC Docket No. 81–504, released June 10, 1982).

5. As an alternative, Shoblom requests that a second Class A channel be assigned in lieu of Class C Channel 266.[6] If a second Class A channel is assigned, Shoblom indicates its willingness to retain its application for Channel 228A. However, if a second Class C channel is assigned to Lahaina, it indicates that it will amend its application.

---

[2] The Reply Comments submitted by Newport merely point out that the requested assignment would result in a third aural service to Hope, Arkansas, and repeats their request for dismissal of the petition.

[1] Although petitioner originally requested the assignment of Channel 258 to Lahaina, it subsequently amended its request to specify Channel 266 since its initial proposal conflicted with a channel proposed for Honolulu, Hawaii (BC Docket No. 82–124; RM–3782).

[2] *Public Notice* of the counterproposal was given June 21, 1982, Report No. 1358.

[3] The other applicant is Gardiner Broadcasting Company.

[4] Shoblom advises that the *Notice* in this proceeding did not indicate that Channel 228A had been assigned to Lahaina by *Report and Order*, 46 FR 43172, effective October 20, 1981. We have corrected that oversight herein.

[5] The cutoff date for channel 228A was August 15, 1982.

[6] Throughout its comments, Shoblom refers to the possibility of assigning Class C Channel 256 and 260 to Lahaina. We assume the former channel should be 266.

6. In response, petitioner asserts that the Commission can separately treat Shoblom's cutoff rights after the channel assignment decision is made. While it has no objection to any action which the Commission may take in response to Shoblom's request to add a second Class C channel to Lahaina, it does object to the alternative suggestion to assign a second Class A channel in lieu of any Class C channel. This according to petitioner, would contravene the public interest in view of the numerous Class C channels which are available to Lahaina.

7. In view of the interests of Shoblom and petitioner in Class C channels, we believe that the public interest would be served by assigning Channels 260 and 266 to Lahaina. The channels can be assigned in accordance with the minimum distance separation requirements of § 73.207 of the Commission's Rules.

8. Shoblom's alternate proposal to assign a second Class A channel in lieu of any Class C channel would be inconsistent with the Commission's general policy of assigning channels based on the expression of an interest. See, *Mountain Home and Marshall, Arkansas*, adopted July 20, 1981, 46 Fed. Reg. 39142. Here we have no interest in a second Class A channel. As for Channel 228A, we believe that the channel should be retained for use by the other existing applicant.

9. Pursuant to the *Ashbacker* doctrine,[7] the addition of a new Class C channel at Lahaina requires that the assignment be made available for competing applications. See, *Cheyenne, Wyoming*, 62 F.C.C. 2d 63, 38 R.R. 2d 1665 (1976). The cases cited by Shoblom are inapposite to its position. In *Lake Havasu City, Arizona, Carnelian Bay* and *South Lake Tahoe, California*, and *Petosky, Michigan, supra*, the prevalent theme involved the modification of existing station licenses from Class A to Class C channels, in the absence of other expressions of interest, to avoid intermixture. In addition, in *Carnelian Bay*, two applicants for a Class A channel at Incline Village, Nevada, retained their "cutoff" status to permit an amendment of their applications to specify another Class A channel. Here we have an applicant, not a licensee, seeking to obtain cutoff rights to an entirely different class of channel which has not previously been available for application at Lahaina. Thus, we find no precedent for Shoblom's position.

10. As to whether an exception to the policy of opening up new assignments for application should be made here, we find no factual basis for treating Shoblom differently. As in other situations, the fact that an interested person did not apply for a Class A channel does not permit us to assume that it would not be interested in applying to operate a Class C station. We have retained Channel 228A for use at Lahaina because we have no indication that Gardiner, the other applicant, desires a Class C station.

11. In view of the foregoing, and pursuant to the authority contained in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.204(b) and 0.281 of the Commission's Rules, IT IS ORDERED, That effective November 19, 1982, the FM Table of Assignments, § 73.202(b) of the Commission's Rules, is amended with respect to Lahaina, Hawaii, as follows:

City	Channel No.
Lahaina, Hawaii	228A, 260, 266

12. It is further ORDERED, That this proceeding is terminated.

13. For further information concerning the above, contact Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

47 CFR Part 73

[BC Docket No. 82-210; RM-4065]

Radio Broadcast Services; FM Broadcast Station in Gibson City, Illinois; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action assigns a first FM channel (292A) to Gibson City, Illinois, as requested by John R. Noble.

DATE: Effective November 16, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Philip S. Cross, Broadcast Bureau, (202) 632-5414.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Gibson City, Illinois) BC Docket No. 82-210, RM-4065; Report and Order (Proceeding Terminated).

Adopted: September 9, 1982.

Released: November 17, 1982.

By the Chief, Policy and Rules Division:

1. The Commission has before it for consideration a notice of proposed rule making, (47 FR 1731), published April 22, 1982, in response to a petition filed by John R. Noble ("petitioner"), proposing the assignment of FM Channel 292A to Gibson City, Illinois, as the community's first FM assignment. Supporting comments were filed by petitioner in which it reaffirmed its intent to file for the channel, if assigned. No oppositions to the proposal were received.

2. In the notice, we stated that a site restriction of 7 miles north of Gibson City would be required in order to maintain a 65 mile separation to Station WSAK (Channel 292A), Sullivan, Illinois, and requested that petitioner furnish the Commission with a technical study demonstrating that a 70 dBu signal could be provided throughout Gibson City from such a distance.

3. Petitioner submitted a technical study showing that from its proposed transmitter site, which meets the site restriction, the 70 dBu signal contour would extend 8.24 miles and cover all of Gibson City.

4. On the basis of the technical showing, we believe that the public interest would be served by the assignment of Channel 292A to Gibson City, Illinois. An interest has been shown for its use, and such an assignment could provide the community with an FM station which could render a first local FM broadcast service.

5. Authority for the adoption of the amendment herein is contained in sections 4(i), 5(d)(1), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, and §§ 0.204(b) and 0.281 of the Commission's rules.

6. Accordingly, it is ordered, That effective November 16, 1982, § 73.202(b) of the Commission's Rules, the FM Table of Assignments, is amended with regard to the following community:

City	Channel No.
Gibson City, Ill.	292A

7. It is further ordered, That this proceeding is terminated.

8. For further information concerning the above, contact Phil Cross, Broadcast Bureau, (202) 632–5414.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

[BC Docket No. 81-781; 3869]

47 CFR Part 73

Radio Broadcast Services; TV Broadcast Station in Las Vegas, Nevada, Changes Made in Table Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action assigns UHF Television Channel 15 to Las Vegas, Nevada, as its fifth commercial TV channel in response to a request from Doctor R. Crants, Jr.

DATE: Effective November 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Phil Cross, Broadcast Bureau (202) 632–5414.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Television broadcasting.

In the matter of amendment of § 73.606(b), Table of Assignments, TV Broadcast Stations, (Las Vegas, Nevada); BC Docket No. 81–781, RM–3869; Report and Order (Proceeding Terminated).

Adopted: September 9, 1982.

Released: September 20, 1982.

1. A notice of proposed rule making in this proceeding was published in the **Federal Register** on December 3, 1981, 46 FR 58721.

2. The proceeding was initiated in response to a petition by Doctor R. Crants, Jr. ("petitioner"), requesting that UHF Television Channel 15 be assigned to Las Vegas, Nevada. It would be the city's fifth commercial television assignment.

3. In response to the notice, comments were filed by petitioner, and by the National Association of Business and Educational Radio, Inc. ("NABER").[1]

4. In its comments, the petitioner supported the proposed assignment and reaffirmed its intent to apply for the channel if it is assigned.

5. NABER's comments opposed the assignment. It alleged that the assignment would result in co-channel interference to Business Radio Services in the 460 MHz band. The practical effect of the interference is said to be a desensitizing of land mobile receivers so that the range of the systems would be decreased. NABER claims that the interference would be intensified by location of petitioner's transmitter in proximity to the primary sites of existing land mobile stations. It is said that between 60 and 100 Business Radio Service licensees and over 300 system users in the Las Vegas area would be affected. NABER suggests the assignment of a channel from 31 through 67, instead of Channel 15, to negate the interference question. Although NABER acknowledged that questions of economic viability of a proposed station, and of avoiding emissions which would cause interference to other services are more appropriately considered at the application stage of the proceeding, it urges that we concern ourselves with the possibility here and assign a higher UHF TV channel instead.

6. In reply comments, petitioner states that NABER's arguments for protection of the Business Services should be rejected since the Commission's Rules do not provide for such protection and a new TV broadcast station should be accorded greater weight than protection of service to 83 businesses in the Las Vegas area.

7. Las Vegas (population 164,674),[2] in Clark County (population 471,816), is located at the southern tip of Nevada, approximately 370 kilometers (230 miles) northeast of Los Angeles, California. It is served by Television Stations KVBC (Channel 3), KLAS–TV (Channel 8), KTNV–TV (Channel 13), Channel 21 (CP issued to Dres Media, Inc.) and KLVX (noncommercial educational Channel *10).

8. Petitioner states that Las Vegas is the sixth fastest growing major city in the United States. The county's projected population for 1990 is approximately 668,800 persons, which, according to petitioner, is due primarily to tourism, new and expanding industry, and the city's attraction as a retirement coummunity and convention center. Petitioner contends that Las Vegas needs, and can readily support, an additional television station.

9. We believe that the assignment of Channel 15 to Las Vegas would serve the public interest by providing a fifth commercial TV service. As for the problem of interference to land mobile stations, Commission Rules prescribe no requirement that a Channel 15 assignment protect operations in the 460–470 MHz band. In a similar situation in *Albuquerque, New Mexico,* (RM–3396) Mimeo No. 33612, released July 16, 1980, we refused to delete Channel 14 from Albuquerque despite claims of interference to land mobile users in the adjacent frequency band (450–470 MHz). Therein we stated that we would not treat Channel 14 as a guard band between Albuquerque's land mobile and UHF stations. Rather less drastic alternatives, including vertical isolation, cross polarization and filtering could minimize interference problems. See also *San Francisco and San Mateo, California,* 68 F.C.C. 2d 860 (1978). Here, we believe that similar corrective measures are preferable to denying the assignment of Channel 15 to Las Vegas. Specific alternative measures can be more appropriately treated at the application stage.

10. As for the request of NABER that we treat the questions of economic viability at this stage, we see no reason to deviate from our policy of treating this issue at the application stage. NABER has not demonstrated how this case is different from the usual case and we believe the issue can be more effectively treated at the application stage. See, *Naples, Florida,* 49 F.C.C. 2d 1266 (1974).

11. Authority for the adoption of the amendment herein is contained in Sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended; and §§ 0.281 and 0.204(b) of the Commission's Rules.

[1] Also filed was a letter signed by Bernice Hogan and Christine Staheli opposing the assignment. The letter was not accompanied by a certificate of service as required by § 1.420 (a) and (c) of the Commission's Rules. Accordingly, it was not acceptable as a comment in this proceeding. Nevertheless, as a matter of information, the pleading sets forth that they have filed a low-power TV application for Channel 15 as a noncommercial educational station. They also indicate that Bernice Hogan is a member of the black community. Finally, they assert that a low power grant would provide another local TV service to Las Vegas earlier than a full commercial assignment which would attract many applicants. We believe it is sufficient to state our general policy in this regard which is to treat low power or translator stations as a secondary use of a frequency and unprotected as against a proposed full broadcast use. See § 74.702(b) of the Commission's Rules and *Future Role of Low Power Television-Broadcasting,* 47 FR 96, published May 18, 1982.

[2] Population figures are taken from the 1980 U.S. Census, Advance Report.

12. Accordingly, it is ordered, That effective November 19, 1982, § 73.606(b) of the Commission's Rules, the TV Table of Assignments, is amended with regard to the following community:

City	Channel No.
Las Vegas, Nev	3, 8−, *10+, 13−, 15+, 21+.

13. It is further ordered, That this proceeding is terminated.

14. For further information concerning the above, contact Phil Cross, Broadcast Bureau, (202) 632–5414.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Proposed Rules

Federal Register
Vol. 47, No. 191
Friday, October 1, 1982

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 1124

Milk in the Oregon-Washington Marketing Area; Notice of Proposed Suspension of Certain Provisions

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed suspension of rule.

SUMMARY: This notice invites written comments on a proposal to suspend certain order provisions of the Oregon-Washington Federal milk order. The provisions relate to how much milk not needed for fluid (bottling) use may be moved directly from farms to nonpool manufacturing plants and still be priced under the order. Suspension of the provisions was requested by three cooperative associations associated with the market to prevent uneconomic movements of milk. The proposed suspension would be for the period of October through December 1982.

DATE: Comments are due not later than October 8, 1982.

ADDRESS: Comments (two copies) should be filed with the Hearing Clerk, Room 1077, South Building, U.S. Department of Agriculture, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT: Maurice M. Martin, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, (202) 447-7183.

SUPPLEMENTARY INFORMATION: This proposed action has been reviewed under USDA procedures established to implement Executive Order 12291 and has been classified as a "non-major action."

It has been determined that the need for suspending certain provisions of the order on an emergency basis precludes following certain review procedures set forth in Executive Order 12291. Such procedures would require that this document be submitted for review to the Office of Management and Budget at least 10 days prior to its publication in the **Federal Register**. However, this would not permit the completion of the required suspension procedures in time to include October 1982 in the requested suspension period if this is found necessary. The initial request for the action was received on September 24, 1982.

It has also been determined that this proposed action would not have a significant economic impact on a substantial number of small entities. Such action would lessen the regulatory impact of the order on certain milk handlers and would tend to ensure that dairy farmers would continue to have their milk priced under the order and thereby receive the benefits that accrue from such pricing.

Notice is hereby given that, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), the suspension of the following provisions of the order regulating the handling of milk in the Oregon-Washington marketing area is being considered for the months of October 1982 through December 1982:

In the third sentence of paragraph (a) and (b) of § 1124.11, the word "not."

All persons who want to comment on the proposed suspension, should send two copies of their views to the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, not later than 7 days from the date of publication of this notice in the **Federal Register**. The period for filing comments is limited because a longer period would not provide the time needed to complete the required procedures and include October 1982 in the suspension period.

The comments that are sent will be made available for public inspection in the Hearing Clerk's office during normal business hours (7 CFR 1.27(b)).

Statement of Consideration

The proposed action would remove the limit on the amount of producer milk that a cooperative association or other handlers may divert from pool plants to nonpool plants during the months of October 1982 through December 1982. The order now provides that during any month a cooperative association may divert a total quantity of producer milk not in excess of the total quantity received during the month from all member producers at pool plants. Similarly, the operator of a pool plant may divert a total quantity of producer milk not in excess of the total quantity received from producers (for which the operator of such plant is the handler during the month) at such pool plant.

The suspension was requested by three cooperative associations who represent a substantial number of producers on the market. The basis for the request is that current marketing conditions require the three associations to handle an increasing quantity of reserve milk supplies during the fall months because of increased milk production by member producers. They indicated that this situation will be aggravated by the fact that sales to one of their principal pool plant outlets will decline substantially because this plant will discontinue this fall part of its manufacturing operations. The cooperatives state that the loss of such sales will reduce the basis of their diversion allowances since the order's allowable diversions are based upon the receipts of milk at pool plants.

Consequently, the cooperatives expect their reserve milk supplies during October-December 1982 to exceed the quantity of producer milk that may be diverted to nonpool manufacturing plants under the order's present diversion limitations. In the absence of the suspension, the cooperatives believe that some of the milk of their member producers who have regularly supplied the fluid market would have to be moved, uneconomically, first to pool plants and then to nonpool manufacturing plants, in order to still maintain producer status for such milk during the months of October through December 1982.

BILLING CODE 3410-02-M

Rural Electrification Administration

7 CFR Part 1701

Proposed Supplement to REA Bulletins 26–1, Budgetary Control and Advance of Electric Loan Funds, and 327–1, Advance of Telephone Loan Funds

AGENCY: Rural Electrification Administration, USDA
ACTION: Proposed rule.

SUMMARY: The Rural Electrification Administration (REA) proposes to amend Appendix A—REA Bulletins, by issuing a "File With" to REA Bulletins 26–1, Budgetary Control and Advance of Electric Loan Funds, and 327–1, Advance of Telephone Loan Funds, to include documentation requirements when electronic funds transfers are used to disburse loan funds from the borrower's "Trustee, Special Construction Account" (Electric) and "Trustee, REA Construction Fund Account" (Telephone).

DATE: Public comments must be received by REA no later than November 30, 1982.

ADDRESS: Submit written comments to Roland S. Heard, Chief, Technical Accounting and Auditing Staff, Accounting and Auditing Division, Rural Electrification Administration, Room 4305, South Building, U.S. Department of Agriculture, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT: Mr. Roland S. Heard, Chief, Technical Accounting and Auditing Staff, above address, telephone number (202) 382–8227. The Draft Impact Analysis describing the options considered in developing this proposed rule and the impact of implementing each option is available from the above office.

SUPPLEMENTARY INFORMATION: Pursuant to the Rural Electrifiction Act, as amended (7 U.S.C. 901 et seq.), REA proposes to amend Appendix A—REA Bulletins by issuing a "File With" to REA Bulletins 26–1, Budgetary Control and Advance of Electric Loan Funds, and 327–1, Advance of Telephone Loan Funds. This proposed action has been reviewed in accordance with Executive Order 12291, Federal Regulation. The action will not (1) have an annual effect on the economy of $100 million or more; (2) result in a major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; or (3) result in significant adverse effects on competition, employment, investment or productivity and therefore has been determined to be "not major". This action does not fall within the scope of the Regulatory Flexibility Act and is not subject to OMB Circular A–95 review. These programs are listed in the Catalog of Federal Domestic Assistance as 10.850—Rural Electrification Loans and Loan Guarantees, 10.851—Rural Telephone Loans and Loan Guarantees and 10.852—Rural Telephone Bank Loans.

Copies of the draft "File With" are being sent directly to all REA electric and telephone borrowers. Copies are also available upon request from the address indicated above. All written submissions made pursuant to this action will be made available for public inspection during regular business hours at the above address.

Background

This proposed action is intended to provide guidance to REA borrowers on documentation requirements when electronic funds transfers are used to disburse funds from the borrower's "Trustee, Special Construction Account" (Electric) and "Trustee, REA Construction Fund Account" (Telephone). The revision is detailed below.

Proposed Supplement to REA Bulletins 26–1, Budgetary Control and Advance of Electric Loan Funds and 327–1, Advance of Telephone Loan Funds

Subject: Electronic Funds Transfers Documentation.
To: Borrowers with Loans from REA or RTB or Loan Guarantees from REA.

I. Purpose: The purpose of this memorandum is to outline the documentation required when electronic funds transfers are used to disburse funds from the Borrower's "Trustee, Special Construction Account" (Electric) or "Trustee, REA Construction Fund Account" (Telephone).

II. Required Documentation: The borrower's loan contract with REA and supplemental lenders provides that disbursements from the Special Construction Account/Construction Fund Account by check, draft or order be signed on behalf of the borrower. Many loan contracts also require that disbursements be countersigned by an officer of the corporation.

The use of electronic funds transfers to disburse funds from the Special Construction Account/Construction Fund Account makes the countersigning of disbursements by an officer of the corporation impratical. Therefore, the following alternative documentation should be used:

1. The board of directors should adopt a board resolution stating which persons are authorized to intitiate an electronic funds transfer. The bank should be furnished with a list of persons authorized to make transfers.

2. The corporation should maintain a log of electronic funds transfers. This log should detail:

a. Date of the transfer.

b. Amount of the transfer.

c. Payee and bank account.

d. Name of the person authorizing the transfer. The person authorizing the transfer should review supporting documentation before approving the disbursement.

e. Name of the person contacting the bank if different from the person authorizing the transfer.

3. A follow-up letter signed by the person authorizing the transfer should be sent to the bank confirming the details of the transfer. The letter should include:

a. The date, amount and payee.

b. The bank accounts from which and to which funds were transferred.

4. After comparing the debit/credit memos from the bank to the details on the log and follow-up letter for agreement, file the follow-up letter, supporting documentation and bank memoranda for review by REA field accountants and the corporation's independent auditors.

5. The corporation should provide evidence that disbursements made by electronic funds transfer have been reviewed by (1) an officer of the corporation not having responsibility for initiating transfers, (2) the corporation's audit comittee made up of board members, or (3) the board of directors. The review of electronic funds transfer disbursements should be performed at least monthly. Acceptable evidence that this review has been performed would be:

a. The signature of an officer of the corporation or the audit committee on the bank memo indicating that the disbursements have been reviewed; or

b. A memo signed by an officer of the corporation or the audit committee outlining which electronic funds transfer disbursements have been reviewed; or

c. A board resolution outlining which electronic funds transfer disbursements have been reviewed by the board of directors.

III. Disbursements by Check: The alternative procedures outlined above apply to disbursements made by electronic funds transfers only. Any disbursements made from the Special Construction Account/Construction Fund Account using checks, drafts, or orders must be made in accordance with the loan contracts.

FEDERAL ELECTION COMMISSION

11 CFR Parts 106 and 9031-9039

[Notice 1982-8]

Presidential Primary Matching Fund

AGENCY: Federal Election Commission.

ACTION: Cancellation of hearing and extension of comments period.

SUMMARY: On August 17, 1982, the Federal Election Commission published a Notice of Proposed Rulemaking on regulations governing the Presidential Primary Matching Fund (47 FR 35892). In that Notice, the Commission offered to hold a hearing on September 29, 1982, for those wishing to testify on the proposed rules. Since no requests to testify were received, the Commission is cancelling this hearing date.

The Commission has, however, received requests to extend the comment period on this rulemaking. The Commission has therefore decided to accept comments through November 15, 1982.

The Commission has also determined to tentatively schedule a new hearing for November 17, 1982. Those wishing to testify should notify the Commission in writing on or before October 29, 1982, and should submit their written comments by November 15,1982.

ADDRESS: Susan E. Propper, Assistant General Counsel, 1325 K Street, N.W., Washington, D.C. 20463.

FOR FURTHER INFORMATION CONTACT: Susan E. Propper, Assistant General Counsel (202) 523-4143 or (800) 424-9530.

Dated: September 28, 1982.

Frank P. Reiche,

Chairman, Federal Election Commission.

21 CFR Parts 182 and 184

[Docket No. 80N-0298]

Carbon Dioxide, Nitrogen, Helium, Propane, *N*-Butane, Iso-Butane, and Nitrous Oxide; Proposed Affirmation of GRAS Status

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

SUMMARY: The Food and Drug Administration (FDA) is proposing to affirm that carbon dioxide, nitrogen, helium, propane, iso-butane, *n*-butane, and nitrous oxide are generally recognized as safe (GRAS) as direct human food ingredients. The safety of these ingredients has been evaluated under the comprehensive safety review conducted by the agency.

DATE: Comments by November 30, 1982.

ADDRESS: Written comments to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Leonard C. Gosule, Bureau of Foods (HFF-335), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-426-9463.

SUPPLEMENTARY INFORMATION: FDA is conducting a comprehensive review of human food ingredients classified as GRAS or subject to a prior sanction. The agency has issued several notices and proposals (see the **Federal Register** of July 26, 1973 (38 FR 20040)) initiating this review, under which the safety of carbon dioxide, nitrogen, helium, propane, *n*-butane, iso-butane, and nitrous oxide has been evaluated. In accordance with the provisions of § 170.35 (21 CFR 170.35), the agency proposes to affirm the GRAS status of these ingredients.

Carbon dioxide occurs in nature as a colorless, odorless gas that neither burns nor supports combustion. Its density is about 1.5 times that of air, and its solubility in water is 88 mL CO_2/100 mL H_2O at 20° C and atmospheric pressure. At temperatures and pressures below its triple point, carbon dioxide may exist as a solid (dry ice) or as a gas. The solid form passes directly to the gas (sublimes), without exhibiting a liquid phase, at atmospheric pressure and a temperature of −78.5° C.

Carbon dioxide is obtained industrially as a byproduct in the manufacture of lime during the "burning" of limestone, from the combustion of coal, coke, or other carbonaceous material, from fermentation processes, and from gases found in certain natural springs and wells.

Helium is a colorless, odorless, flavorless, nonflammable, inert gas. It is lighter than air, very slightly soluble in water, and present at low concentration in the atmosphere. Helium is produced commercially by the liquefaction and purification of natural gas.

Nitrogen is a colorless, odorless, flavorless gas that neither burns nor supports combustion. It is lighter than air and consitutes approximately 78 percent of the atmosphere by volume and approximately 75 percent by weight. It is somewhat more soluble in alcohol than in water but is only slightly soluble in each. Nitrogen is produced commercially by the fractionation of liquid air.

Propane, *n*-butane, and iso-butane are known collectively as the liquid hydrocarbon or liquefied petroleum gases (LP-gases). These gases may be separated from natural gas, crude oil, or petroleum refinery gases. However, all aerosol-grade LP-gases are obtained from natural gas.

Propane and the butanes are colorless, odorless, flammable gases that are heavier than air at normal temperatures and pressures. They are easily liquefied under pressure at room temperature and are stored and shipped in the liquid state. Propane is slightly soluble in water, while the butanes are considered insoluble. All three gases are soluble in alcohol, chloroform, and ether.

Nitrous oxide is a colorless gas, about 50 percent heavier than air, with a slightly sweet flavor and odor. It does not burn but will support combustion. It is soluble in water, alcohol, ether, and oils.

Nitrous oxide is manufactured by the thermal decomposition of ammonium nitrate. Water is also formed as a primary reaction product, and higher oxides of nitrogen, which are highly toxic, are formed in side reactions. After the water is condensed, the higher nitrogen oxides are removed by passing the gas through a series of scrubbing towers. The gas is then compressed and dried further by passage through a bed of desiccant.

Carbon dioxide, nitrogen, helium, propane, and butane were listed as miscellaneous GRAS ingredients in a regulation published in the **Federal Register** of November 20, 1959 (24 FR 9368). Together with nitrous oxide, these gases also were listed as GRAS for use as miscellaneous and general purpose food additives in a regulation published in the **Federal Register** of January 31, 1961 (26 FR 988).

Carbon dioxide currently is listed as a multiple-purpose GRAS food substance in § 182.1240 (21 CFR 182.1240). Carbon dioxide also is required for the production of soda water by the standard of identity for soda water (21 CFR 165.175) and is the subject of U.S. Department of Agriculture (USDA) prior sanction for use as a cooling agent in

chopping and packaging meat products. This prior-sanctioned use is included in the GRAS affirmation proposal.

Helium and nitrogen currently are listed as multiple-purpose GRAS food substances in 21 CFR 182.1355 and 21 CFR 182.1540, respectively. Nitrogen is also the subject of a prior sanction issued by USDA for use in excluding oxygen from sealed products. This prior-sanctioned use is included in the GRAS affirmation proposal.

Butane (isomeric form not specified) and propane currently are listed as multiple-purpose GRAS food ingredients in 21 CFR 182.1165 and 182.1655, respectively. In addition, butane and propane are regulated in 21 CFR 173.350 for use in the manufacture of combustion product gas used for removing and displacing oxygen during the processing and packaging of foods.

Nitrous oxide currently is listed as a multiple-purpose GRAS food ingredient in 21 CFR 182.1545. Nitrous oxide, carbon dioxide, and propane also are regulated in 21 CFR 173.345 for use with chloropentafluoroethane (an aerating agent) and in 21 CFR 173.360 for use with octafluorocyclobutane (a propellant and aerating agent) in foamed or sprayed food products.

In 1971, the National Academy of Sciences/National Research Council (NAS/NRC) surveyed a representative cross section of food manufacturers to determine the specific foods in which carbon dioxide, nitrogen, helium, propane, butane (isomeric form not specified), and nitrous oxide were used and the levels of usage. NAS/NRC combined this manufacturing inormation with information on consumer consumption of foods to obtain an estimate of the consumer exposure to these gases. Based on NAS/NRC figures, FDA estimates that during the decade 1960–1970, use of carbon dioxide increased by approximately 85 percent, use of nitrogen increased by approximately a factor of 8, and use of nitrous oxide decreased by approximately 50 percent. FDA estimates from the NAS/NRC survey that in 1970, the use of carbon dioxide in food was 44,500,000 pounds, the use of nitrogen in food was 23,100,000 pounds, and the use of nitrous oxide in food was 196,700 pounds. No information was obtained in the survey on the consumption of helium, *n*-butane, iso-butane, or propane. However, FDA obtained information on specific uses of certain of these gases from articles in the published literature and from communications from commercial food processors. In addition, the Select Committee on GRAS Substances (the Select Committee) received information from the National Soft Drink Association that the use of nitrous oxide in soft drinks, which was reported in the NAS/NRC survey, has been discontinued.[1] Therefore, the Select Committee did not include this use in its evaluation of the safety of nitrous oxide as a food ingredient. Any person possessing additional information on the use of these gases in foods should submit such information as a comment on this proposal.

Butane (*n*-butane and iso-butane), helium, nitrogen, nitrous oxide, and propane have been the subjects of a search of the scientific literature from 1920 to the present. Carbon dioxide has been the subject of a separate search of the scientific literature from 1920 to the present. The criteria used in the searches were chosen to discover any articles that considered (1) chemical toxicity, (2) occupational hazards, (3) metabolism, (4) reaction products, (5) degradation products, (6) carcinogenicity, teratogenicity, or mutagenicity, (7) dose response, (8) reproductive effects, (9) histology, (10) embryology, (11) behavioral effects, (12) detection, and (13) processing. For carbon dioxide, a total of 2,202 abstracts were reviewed, and 36 particularly pertinent reports have been summarized in a scientific literature review. For the other gases, a total of 1,295 abstracts were reviewed, and 28 particularly pertinent reports have been summarized in a scientific literature review.

Information from the scientific literature reviews and the results of other studies have been summarized in two reports to FDA by the Select Committee, which is composed of qualified scientists chosen by the Life Sciences Research Office of the Federation of American Societies for Experimental Biology (FASEB). The members of the Select Committee have carefully evaluated the available safety information on carbon dioxide,[2] nitrogen, helium, propane, iso-butane, *n*-butane, and nitrous oxide.[3] In the Select Committee's opinion:

Carbon Dioxide

The Select Committee could find no data relating directly to the safety of carbon dioxide as a food ingredient. However, there is substantial evidence that the amount of carbon dioxide ingested with foods is negligible compared with that produced normally by the body. Carbon dioxide also has been administered experimentally without ill effects in amounts orders of magnitude greater than from possible food sources.

Under resting conditions, an average adult will produce in excess of 500 g of carbon dioxide daily, approximately 2,000 times the estimated intake from foods. During moderate or heavy activity, considerably greater amounts of carbon dioxide would be produced. The official occupational standard for the workroom atmosphere is 5,000 ppm, equivalent to the inhalation during an 8-hour work day of about 30 g of carbon dioxide. Human subjects have been exposed to 1.5 percent carbon dioxide (a daily inhalation of over 200 g) continually for 42 days without serious or lasting ill effects.

The amount of bicarbonate that could be produced from the ingested carbon dioxide is far less than the amounts routinely ingested in food or used without ill effects as an antacid.

The Select Committee is not aware of any study on the mutagenicity of carbon dioxide. Carcinogenic actions have been reported only after repeated application of the solid form to the skin. Teratogenic effects were produced after inhalation of carbon dioxide at levels far higher than could be obtained from foods.[2]

Nitrogen

Nitrogen gas is naturally present in all body tissues. It is physiologically inert under the conditions of approved GRAS use. The amount of nitrogen gas commercially added to the food, as consumed, is miniscule compared to the quantity of nitrogen taken in by the human being in the normal process of breathing. There are no food-grade specifications for nitrogen gas. The Select Committee is of the opinion that such standards should be developed.[1]

Helium

The NRC survey did not identify any use of helium gas as a commercially added food ingredient; however, one manufacturer has reported that is was used during food processing to detect leaks from aerosol cannisters. Considering its low solubility in water and fats, its chemical inertness, and its high diffusion coefficient, the amount of helium consumed from foods exposed to it would be minute. Although no feeding tests on foods exposed to helium have been reported, the negative results from any inhalation studies involving high concentrations and pressures of the gas with both man and animals, and other studies on tissue cultures, suggest that no adverse

[1] "Evaluation of the Health Aspects of Nitrogen, Helium, Propane, *n*-Butane, Iso-Butane, and Nitrous Oxide as Gases Used in Foods," Life Sciences Research Office, Federation of American Societies for Experimental Biology, 1979, p. 28.

[2] *Ibid.*, pp. 5, 9–10, 15–17, 22–25, 31–37.

[3] "Evaluation of the Health Aspects of Carbon Dioxide as a Food Ingredient," Life Sciences Research Office, Federation of American Societies for Experimental Biology, 1979, pp. 8–15. In the past, the agency presented verbatim the Select Committee's discussion of the biological data it reviewed. However, because the Select Committee's reports are available at the Dockets Management Branch and from the National Technical Information Service, and because it represents a significant savings to the agency in publication costs, FDA has decided to discontinue presenting the discussion in the preamble to proposals that affirm GRAS status in accordance with current good manufacturing practice.

[2] *Ibid.*, p. 10.

[1] *Ibid.*, p. 6.

physiological effects would result, even from consumption of foods saturated with helium during commercial processing and storage. There are no food-grade specifications for helium gas; it is suggested that such standards should be developed.[1]

Propane, *N*-Butane, and Iso-Butane

It was estimated that a combined total of about 2 million kg of propane, *n*-butane, and iso-butane are used in aerosol food products annually in the United States. This amounts to an exposure of about 26 mg per day per person to these three substances, although only a fraction of this amount would be ingested, most of the gases dispersing into the atmosphere upon dispensing the product. The Select Committee is not aware of GRAS uses of propane, *n*-butane, or iso-butane other than as propellants in aerosol food products.

The absence of any biological observations on animals subsisting on foods treated with propane requires consideration of the chemical properties of the compound itself and other toxicological findings for reasoned inferences as to its safety. The fact that the gas is inert to most reagents suggests the realtive harmlessness of exposing foods to it.

Toxicity has been observed in some cases upon inhalation exposure of animals or humans to high concentrations of propane. However, no adverse effects were noted in a 2-week study using human volunteers receiving propane exposures at least several orders of magnitude greater than might be expected to occur from food use of this compound.

Although there are commercial propellant grade specifications for propane, there are no food-grade specifications listed in the Food Chemicals Codex. Such food-grade specifications should be developed.

The absence of any biological observations on animals subsisting on foods treated with iso-butane and *n*-butane requires consideration of the chemical properties of the compounds themselves and other toxicological findings for reasoned inferences as to their safety. The fact that the gases are inert to most reagents suggests the relative harmlessness of exposing foods to them.

Toxicity has been observed in animals and humans after inhalation of high concentrations of *n*-butane or iso-butane. However, no adverse effects were noted in a 2-week study of human volunteers receiving iso-butane exposures at least several orders of magnitude greater than might be expected to occur from food use of this substance.

Although there are commercial propellant grade specifications for *n*-butane and iso-butane, there are no food-grade specifications listed in the Food Chemicals Codex. Such food-grade specifications should be developed.[1]

Nitrous Oxide

Nitrous oxide is a relatively stable gas. There is little evidence that it is metabolized in mammalian systems. No feeding tests involving foods exposed to nitrous oxide have come to the attention of the Select Committee. The only toxicity studies of which the Select Committee is aware have been carried out by administration of the compound via the inhalation route. Since the exposures used for these purposes were far beyond the estimated human consumption through foods and since the administration is via the respiratory rather than the oral route, a reasonable extrapolation to the exposure from nitrous oxide added to foods is difficult. There have been some observations of toxicity of inhaled nitrous oxide but only at doses much higher than could be expected from consumption of exposed food. Much of the gas probably disperses into the atmosphere during and after dispensing of the food product. Although epidemiological studies of dental practitioners and oral surgeons have indicated adverse effects resulting from anesthetic exposure exceeding 3 hours per week, no specific effects were attributable to the use of nitrous oxide.

Because food-grade specifications have not been established for nitrous oxide, the actual composition of the gaseous mixture being used by food processors is uncertain. Food grade standards for nitrous oxide should be developed.[1]

The Select Committee concludes that:

1. There is no evidence in the available information on carbon dioxide,[2] nitrogen, helium, propane, *n*-butane, and iso-butane [3] that demonstrates, or suggests reasonable grounds to suspect, a hazard to the public when they are used at levels that are now current or that might reasonably be expected in the future.

2. There is no evidence in the available information on nitrous oxide that demonstrates, or suggests reasonable grounds to suspect, a hazard to the public when it is used as a propellant in dairy and vegetable-fat toppings in pressurized containers at levels that are now current or that might reasonably be expected in the future.[4]

FDA has undertaken its own evaluation of all available information on carbon dioxide, nitrogen, helium, propane, *n*-butane, iso-butane, and nitrous oxide and concurs with the conclusions of the Select Committee. The agency concludes that no change in the current GRAS status of these ingredients is justified. Therefore, the agency proposed that these ingredients be affirmed as GRAS.

Because no food-grade specifications exist for carbon dioxide, nitrogen, helium, propane, iso-butane, *n*-butane, and nitrous oxide at the present time, the agency will work with the Committee on Codex Specifications of the National Academy of Sciences to develop acceptable specifications for these ingredients. If acceptable specifications are developed, the agency will incorporate them into these regulations at a later date. Until any such specifications are developed, FDA has determined that the public health will be adequately protected if carbon dioxide, nitrogen, helium, propane, iso-butane, *n*-butane, and nitrous oxide comply with the description in the proposed regulations and are of food-grade purity (21 CFR 170.30(h)(1) and 182.1(b)(3)).

Additionally, FDA is proposing not to include in these GRAS affirmation regulations the levels of use and, except for nitrous oxide, food categories reported in the NAS/NRC 1971 survey for these ingredients. FDA believes that establishing these levels and food categories is unnecessary because of the rapidity with which these gases escape into the atmosphere. In addition, the level of use of each of these gases in food is limited by the solubility of the gas in the food and by the technical effect it is intended to achieve. Furthermore, both FASEB and FDA have concluded that a large margin of safety exists for the use of these substances and that a reasonably foreseeable increase in the level of use of these substances will not adversely affect human health. Therefore, the agency is proposing to affirm the GRAS status of carbon dioxide, nitrogen, helium, propane, iso-butane, *n*-butane, and nitrous oxide when they are used under current good manufacturing practice conditions of use in accordance with § 184.1(b)(1) (21 CFR 184.1(b)(1)). To make clear, however, that the affirmation of the GRAS status of these substances is based on the evaluation of currently known uses, the proposed regulations set forth the technical effects and, in the case of nitrous oxide, the food categories that FDA evaluated. FDA is including food categories in the nitrous oxide regulation because the Select Committee, in its conclusion, specified the types of food in which it had evaluated the use of this ingredient. The Select Committee did not so qualify its conclusions about the safety of any of the other gases addressed in this proposal. Thus, FDA finds that it is appropriate to specify these categories.

In the **Federal Register** of September 7, 1982 (47 FR 39199), FDA proposed to adopt a general policy restricting the circumstances in which it will specifically describe conditions of use in regulations affirming substances as GRAS under 21 CFR 184.1(b)(1) or 186.1(b)(1). The agency proposed to amend its regulations to indicate clearly that it will specify one or more of the current good manufacturing practice conditions of use in regulations for

substances affirmed as GRAS with no limitations other than current good manufacturing practice only when the agency determines that is is appropriate to do so.

Copies of the scientific literature review and the report of the Select Committee on carbon dioxide, and copies of the scientific literature review, the scientific literature review update, and the report of the Select Committee on gases used in foods are available for review at the Dockets Management Branch (address above), and may be purchased from the national Technical Information Service, 5285 Port Royal Rd., Springfield, VA 22161, as follows:

[1] Price subject to change.

This proposed action does not affect the current use of carbon dioxide, nitrogen, helium, propane, *n*-butane, iso-butane, and nitrous oxide in pet food or animal feed.

The format of the proposed regulations is different from that in the previous GRAS affirmation regulations. FDA has modified paragraph (c) of §§ 184.1165, 184.1240, 184.1355, 184.1540, 184.1545, and 184.1655 to make clear the agency's determination that GRAS affirmation is based upon current good manufacturing practice conditions of use, including the technical effects (and for nitrous oxide the food categories) listed. This change has no substantive effect but is made merely for clarity.

The agency has determined under 21 CFR 25.24(d)(6) (proposed December 11, 1979; 44 FR 71742) that this proposed action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

FDA, in accordance with the Regulatory Flexibility Act, has considered the effect that this proposal would have on small entities including small businesses and has determined that the effect of this proposal is to maintain current known uses of the substances covered by this proposal by both large and small businesses. Therefore, FDA certifies in accordance with section 605(b) of the Regulatory Flexibility Act that no significant economic impact on a substantial number of small entities will derive from this action.

In accordance with Executive Order 12291, FDA has carefully analyzed the economic effects of this proposal, and the agency has determined that the final rule, if promulgated, will not be a major rule as defined by the Order.

List of Subjects

21 CFR Part 182

Generally recognized as safe (GRAS) food ingredients, Spices and flavorings.

21 CFR Part 184

Direct food ingredients, Food ingredients, Generally recognized as safe (GRAS) food ingredients.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784–1786 as amended (21 U.S.C. 321(s), 348, 371(a))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), it is proposed that Parts 182 and 184 be amended as follows:

PART 182—SUBSTANCES GENERALLY RECOGNIZED AS SAFE

§§ 182.1165, 182.1240, 182.1355, 182.1540, 182.1545, 182.1655 [Removed]

1. Part 182 is amended by removing § 182.1165 *Butane*, § 182.1240 *Carbon dioxide*, § 182.1355 *Helium*, § 182.1540 *Nitrogen*, § 182.1545 *Nitrous oxide*, and § 182.1655 *Propane*.

PART 184—DIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE

2. Part 184 is amended:

a. By adding new §184.1165, to read as follows:

§184.1165 n-Butane and iso-butane.

(a) *n*-Butane and iso-butane (empirical formula C_4H_{10}, CAS Reg. Nos. 106–97–8 and 75–28–5, respectively) are colorless, odorless, flammable gases at normal temperatures and pressures. They are easily liquefied under pressure at room temperature and are stored and shipped in the liquid state. The butanes are obtained from natural gas by fractionation following absorption in oil absorption to surface-active agents, or refrigeration.

(b) The Food and Drug Administration is developing food-grade specifications for *n*-butane and iso-butane in cooperation with the National Academy of Sciences. In the interim, the ingredient must be of a purity suitable for its intended use.

(c) In accordance with §184.1(b)(1), these ingredients are used in food with no limitations other than current good manufacturing practice. The affirmation of these ingredients as generally recognized as safe (GRAS) as direct human food ingredients is based upon the following current good manufacturing conditions of use:

(1) The ingredients are used as propellants, aerating agents, and gases as defined in §170.3(o)(25) of this chapter.

(2) The ingredients are used in food at levels not to exceed current good manufacturing practice.

b. By adding new §184.1240, to read as follows:

§184.1240 Carbon dioxide

(a) Carbon dioxide (empirical formula CO_2, CAS Reg. No. 000124–38–9) occurs as a colorless, odorless, noncombustible gas at normal temperatures and pressures. The solid form, dry ice, sublines under atmospheric pressure at a temperature of −78.5° C. Carbon dioxide is prepared as a byproduct of the manufacture of lime during the "burning" of limestone, from the combustion of carbonaceous material, from fermentation processes, and from gases found in certain natural springs and wells.

(b) The Food and Drug Administration is developing food-grade specifications for carbon dioxide in cooperation with the National Academy of Sciences. in the interim, the ingredient must be of a purity suitable for its inteded use.

(c) In accordance with § 184.1(b)(1), the ingredient is used in food with no limitations other than current good manufacturing practice. The affirmation of this ingre lient as generally recognized as safe (GRAS) as a direct human food ingredient is based upon the following current good manufacturing conditions of use:

(1) The ingredient is used as a leavening agent as defined in §170.3(o)(17) of this chapter; a processing aid as defined in §170.3(o)(24) of this chapter; and a propellant, aerating agent, and gas as defined in §170.3(o)(25) of this chapter.

(2) The ingredient is used in food at levels not to exceed current good manufacturing practice.

c. By adding new § 184.1355, to read as follows:

§ 184.1355 Helium.

(a) Helium (empirical formula He, CAS Reg. No. 007440–59–7) is a colorless, odorless, flavorless, nonflammable, inert gas. It is lighter than air and is produced by the liquefaction and purification of natural gas.

(b) The Food and Drug Administration is developing food-grade specifications for helium in cooperation with the National Academy of Sciences. In the interim, the ingredient must be of a purity suitable for its intended use.

(c) In accordance with § 184.1(b)(1), the ingredient is used in food with no limitations other than current good manufacturing practice. The affirmation of this ingredient as generally recognized as safe (GRAS) as a direct human food ingredient is based upon the following current good manufacturing conditions of use:

(1) The ingredient is used as a processing aid as defined in § 170.3(o)(24) of this chapter.

(2) The ingredient is used in food at levels not to exceed current good manufacturing practice.

d. By adding new § 184.1540, to read as follows:

§ 184.1540 Nitrogen.

(a) Nitrogen (empirical formula N_2 CAS Reg. No. 007727–37–9) is a colorless, odorless, flavorless gas that is produced commercially by the fractionation of liquid air.

(b) The Food and Drug Administration is developing food-grade specifications for nitrogen in cooperation with the National Academy of Sciences. In the interim, the ingredient must be of a purity suitable for its intended use.

(c) In accordance with § 184.1(b)(1), the ingredient is used in food with no limitations other than current good manufacturing practice. The affirmation of this ingredient as generally recognized as safe (GRAS) as a direct human food ingredient is based upon the following current good manufacturing conditions of use:

(1) The ingredient is used as a propellant, aerating agent, and gas as defined in § 170.3 (o) (25) of this chapter.

(2) The ingredient is used in food at levels not to exceed current good manufacturing practice.

e. By adding new § 184.1545, to read as follows.

§ 184.1545 Nitrous oxide.

(a) Nitrous oxide (empirical formula N_2O, CAS Reg. No. 010024–97–2), also called dinitrogen monoxide or laughing gas, is a colorless gas, about 50 percent heavier than air, with a slightly sweet smell. It does not burn but will support combustion. Nitrous oxide is manufactured by the thermal decomposition of ammonium nitrate. Higher oxides of nitrogen are removed by passing the dry gas through a series of scrubbing towers.

(b) The Food and Drug Administration is developing food-grade specifications for nitrous oxide in cooperation with the National Academy of Sciences. In the interim, the ingredient must be of a purity suitable for its intended use.

(c) In accordance with § 184.1(b)(1), the ingredient is used in food with no limitations other than current good manufacturing practice. The affirmation of this ingredient as generally recognized as safe (GRAS) as a direct human food ingredient is based upon the following current food manufacturing conditions of use:

(1) The ingredient is used as a propellant, aerating agent, and gas as defined in § 170.3 (o) (25) of this chapter.

(2) The ingredient is used in dairy product analogs as defined in § 170.3(n)(10) of this chapter at levels not to exceed current good manufacturing practice.

f. By adding new § 184.1655, to read as follows:

§ 184.1655 Propane.

(a) Propane (empirical formula C_3H_8, CAS Reg. No. 000074–98–6), also called dimethylmethane or propyl hydride, is a colorless, odorless, flammable gas at normal temperatures and pressures. It is easily liquefied under pressure at room temperature and is stored and shipped in the liquid state. Propane is obtained from natural gas by fractionation following absorption in oil, adsorption to surface-active agents, or refrigeration.

(b) The Food and Drug Administration is developing food-grade specifications for propane in cooperation with the National Academy of Sciences. In the interim, the ingredient must be of a purity suitable for its intended use.

(c) In accordance with § 184.1(b)(1), the ingredient is used in food with no limitations other than current good manufacturing practice. The affirmation of this ingredient as generally recognized as safe (GRAS) as a direct human food ingredient is based upon the following current good manufacturing conditions of use:

(1) The ingredient is used as a propellant, aerating agent, and gas as defined in § 170.3 (o) (25) of this chapter.

(2) The ingredient is used in food at levels not to exceed current good manufacturing practice.

The agency is unaware of any prior sanction for the use of these ingredients in foods under conditions different from those identified in this document. Any person who intends to assert or rely on such a sanction shall submit proof of its existence in response to this proposal. The action proposed above will constitute a determination that excluded uses would result in adulteration of the food in violation of section 402 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 342), and the failure of any person to come forward with proof of an applicable prior sanction in response to this proposal constitutes a waiver of the right to assert or rely on it later. Should any person submit proof of the existence of a prior sanction, the agency hereby proposes to recognize such use by issuing an appropriate final rule under Part 181 (21 CFR Part 181) or affirming it as GRAS under Part 184 or 186 (21 CFR Part 184 or 186), as appropriate.

Interested persons may, on or before November 30, 1982 submit to the Dockets Management Branch (address above), written comments regarding this proposal. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: September 15, 1982.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

[Docket No. 79N–0162]

Tannic Acid; Proposed Affirmation of Gras Status With Specific Limitation

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

SUMMARY: The Food and Drug Administration (FDA) is proposing to affirm that tannic acid is generally recognized as safe (GRAS), with specific limitations, as a direct human food ingredient. The safety of this ingredient has been evaluated under the comprehensive safety review conducted by the agency.

DATE: Comments by November 30, 1982.

ADDRESS: Written comments to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Corbin I. Miles, Bureau of Foods (HFF–

335), Food and Drug Administration, 200 C St. SW., Washington, D.C. 20204, 202–472–4750.

SUPPLEMENTARY INFORMATION: FDA is conducting a comprehensive review of human food ingredients classified as GRAS or subject to a prior sanction. The agency has issued several notices and proposals (see the **Federal Register** of July 26, 1973 (38 FR 20040)) initiating this review, under which the safety of tannic acid has been evaluated. In accordance with the provisions of § 170.35 (21 CFR 170.35), the agency proposes to affirm, with specific limitations, the GRAS status of this ingredient.

Tannic acid, also called tannin or hydrolyzable gallotannin, is a complex polyphenolic organic compound that yields gallic acid and either glucose or quinic acid as a hydrolysis product. It is obtained by solvent extraction of nutgalls, the excrescences that form on the young twigs of *Quercus infectoria* Oliver and allied species of *Quercus* L. (Fam. *Fagaceae*). Tannic acid is also obtained from the seed pods of Tara (*Caesalpinia spinosa*) from the eastern Mediterranean region and from Chinese nutgalls (*Rhus semialata*). However, the so-called condensed tannins, which are also present in various plants but are not used as food ingredients, are not addressed in this evaluation.

Tannic acid is listed in § 182.20 (21 CFR 182.20) as a GRAS natural flavor extractive under a regulation published in the **Federal Register** of June 10, 1961 (26 FR 5221), which was recodified March 15, 1977 (42 FR 14640). FDA has also issued several opinion letters regarding other GRAS uses of tanic acid in foods. On November 5, 1958, the agency issued a letter for the use of tannic acid as a component of salad dressing at a level not to exceed 5.7 parts per million (ppm). Additionally, FDA issued two opinion letters for use of tannic acid as a clarifying agent in beer and apple juice, at a level not to exceed 100 ppm.

Tanic acid is permitted as an agent for refining animal fats under 9 CFR 318.7 but must be eliminated from the finished fat. Tannin is regulated as a food additive under § 173.310 (21 CFR 173.310) for use as a component of boiler water additives. Tannins are also regulated for use as a clarifying agent in wine under 27 CFR 240.525.

In 1971, the National Academy of Sciences/National Research Council (NAS/NRC) surveyed a representative cross-section of food manufacturers to determine the specific foods in which tannic acid is used and the levels of usage. NAS/NRC combined this manufacturing information with information on consumer consumption of foods to obtain an estimate of consumer exposure to tannic acid.

FDA estimates from the NAS/NRC survey that the total amount of food-grade tannic acid used in 1970 was 1.7 million pounds. The NAS/NRC survey reported that tannic acid is used as a flavoring agent, flavor enhancer, pH control agent, and processing aid in a variety of foods, including baked goods, alcoholic beverages, nonalcoholic beverages, gelatins, puddings and fillings, frozen dairy desserts, hard candy, soft candy, and meat products. However, the Select Committee on GRAS Substances (the Select Committee) estimates that more than 99 percent of the total poundage reported for tannic acid is uses as a processing aid and is largely removed from food before it is consumed.[1]

Tannic acid has been the subject of a search of the scientific literature from 1920 to the present. The criteria used in the search were chosen to discover any articles that considered (1) chemical toxicity, (2) occupational hazards, (3) metabolism, (4) reaction products, (5) degradation products, (6) carcinogenicity, teratogenicity, or mutagenicity, (7) dose response, (8) reproductive effects, (9) histology, (10) embryology (11) behavioral effects, (12) detection, and (13) processing. A total of 237 abstracts on tannic acid was reviewed, and 42 particularly pertinent reports from the literature survey have been summarized in a scientific literature review.

Information from the scientific literature review and other sources has been summarized in a report to FDA by the Select Committee, which is composed of qualified scientists chosen by the Life Sciences Research Office of the Federation of American Societies for Experimental Biology (FASEB). The biological information summarized in the report is as follows:

Tannic acid is considered an hepatotoxic and cirrhotic agent capable of causing severe and even fatal disease at concentrations formerly used in the topical treatment of burns or in certain tannic acid barium enemas. With a few exceptions, data on toxicity resulting from routes of administration other than oral are not relevant to an evaluation of possible hazards from the food uses of tannic acid.

Korpassy *et al.* 1951 tested the absorption of a single dose of tannic acid (U.S.P. Hendon, London) administered by gavage in aqueous solutions to rabbits (0.5 to 2 g per kg) and dogs (0.3 to 2.3 g per kg). The animals were fasted 24 hours prior to the experiment. A dose related increase in plasma phenolic group concentration was noted: however, the test method detected phenolic groups and was not specific for unhydrolyzed tannic acid. Two of 100 dogs dies during the experiment; one died of unknown causes five hours after receiving 415 mg tannic acid per kg, but the second, that received 830 mg per kg, showed extensive acinocentralis (centrolobular) necrosis of the liver. Necropsies were performed on several of the dogs and rabbits but no results were reported.

In 1962, Dollahite *et al.* measured serum levels of tannic acid of 52 to 230 μg per ml by a nonspecific test for phenolic groups after gastric intubation of aqueous tannic acid (reagent grade) solutions at 2 to 8 g per kg to rabbits. At 24 hours after intubation, rabbits receiving more than 4 g per kg had died; "tannic acid" had been eliminated from the serum of the animals receiving up to 4 g per kg. Goats and sheep had "tannic acid" blood levels of 75 to 160 μg per ml within one hour after receiving by the same route a 2 g per kg dose; the blood tested negative at 48 hours.

Most reports of the absorption of tannic acid have relied on nonspecific identification of phenolic substances in blood sera. However, Harris *et al.* in 1966 used thin layer chromatography to identify tannic acid in the blood serum of Long-Evans rats (200 to 250 g) in a study of colonic absorption. Aqueous tannic acid (N.F.) enemas were administered to the animals. Increased amounts of tannic acid were found in hepatic portal vein blood as the concentration and contact time were increased, but no tannic acid was absorbed from a 1 percent solution in the colon from one minute to one hour. There was a trace (approximately 25 μg per ml) of tannic acid in the blood one minute after a 2 percent tannic acid enema was given. Kessler and Blumenberg using paper chromatography have demonstrated the breakdown of tannic acid by the gastrointestinal juices of guinea pigs to gallic acid and glucose. These authors, in another report, were unable to demonstrate intact tannic acid in rabbit blood serum after intubation of tannic acid solutions.

A major metabolite in the urine of rabbits, rats, and chickens ingesting tannic acid or gallic acid was identified as 4-O-methyl gallic acid. The increases in urinary excretion of 3,4-dihydroxyphenolic and phenolic methoxy substances by man after ingestion of 1 g tannic acid (not described) were interpreted as due to metabolic products of tannic acid.

The addition of methionine and choline as a methyl-group source to a diet of high tannin grain sorghum improved feed efficiency and corrected growth depression and body weight loss in chicks and laying hens. Jambunathan and Mertz demonstrated an inverse relationship between rat growth rate and the polyphenolic compound content of sorghum varieties.

[1] "Evaluation of the Health Aspects of Tannic Acid as a Food Ingredient," Life Sciences Research Office, Federation of American Societies for Experimental Biology, 1977, p. 6.

Mitjavila *et al.* studied the absorption of glucose, butyric acid and methionine, using *in vivo* perfusion techniques in the presence of gallotannic acid in the mouse intestine. Statistical analysis of the perfusion data showed that 0.005 to 0.25 percent tannic acid produced a marked reduction in the absorption of water, glucose and methionine, and a less significant reduction in butyric acid absorption. Concurrent histological studies showed edema of the intestinal mucosal villi with shrinkage of the layer of epithelial cells when 0.25 percent tannic acid was tested. This was attributed to denaturation of the intestinal epithelial cells and to reduction in the capability of these cells to actively transfer glucose and methionine through the wall.

Korpassy *et al.* in 1950 administered tannic acid solutions (2.5, 5.0, and 10.0 percent) by gavage two or four times daily for three days to rats (0.75 to 3.0 g per kg), and for one or three days to rabbits (0.67 to 2.7 g per kg), and dogs (0.9 to 3.6 g per kg). Autopsies of animals that died as a result of the test doses and of those sacrificed three days after the dose showed varying degrees of hepatic necrosis in a few animals receiving 2.5 percent tannic acid, in most of those receiving 5.0 percent and in all receiving 10.0 percent solutions.

In mice, the oral LD_{50} of tannic acid (Merck, U.S.P., Chinese nutgall) administered by stomach tube as a 10 percent aqueous solution was between 3 and 4 g per kg body weight. Rats were more resistant than mice to tannic acid, and doses three to four times larger were required to produce toxic signs. The authors reported that the toxicity of gallic acid was less than that of tannic acid in mice, and "large doses" of gallic acid did not produce the signs of tannic acid toxicity. Other workers have noted the differences in toxic effects of tannic acid and gallic acid in rats after intraperitoneal administration. Doses of 40 mg tannic acid per kg produced no hepatohistologic damage in five animals; doses of 60 mg per kg produced hepatohistologic damage in each of five other rats. Gallic acid had no hepatotoxic effects; even at a lethal dose of 2000 mg per kg only renal damage was noted.

Boyd *et al.* reported in 1965 on the toxicity of tannic acid (Fisher Certified) [probably mistakenly referred to as 3-galloyl gallic acid by the authors] in young male albino Wistar rats weighing 125 to 200 g. Doses of 2.0 to 8.0 g per kg were administered by intragastric cannula in solutions of 20 ml per kg body weight. The oral LD_{50} was 2.26 (S.E. 0.083) g per kg with a mean interval between dose and death of 38 hours. Doses of 4.5 to 8 g per kg were fatal within six hours. Drowsiness, pallor, cyanosis and diarrhea were the most common signs of intoxication. Anorexia and oligodipsia also were evident. Death was preceded by tremors and convulsions and finally respiratory failure. A temporary fulminating gastroenteritis followed oral administration but was gone at three days. Hepatic necrosis and nephritis were evident in animals surviving two to four days. The spleen showed hyperplasia as did the adrenal cortex. Spermatogenesis was stimulated in animals dying at two or three days, and those surviving for several weeks had significantly heavier testes.

Texl and Konecnỳ performed experiments utilizing oral, subcutaneous and rectal treatments of Wistar rats with various tannic acid (Ac. tannicum-Lachema, PhB-2) concentrations. The sulfobromophthalein dye test was used to observe liver function. Oral doses of 1 g per kg of tannic acid caused no damage to the intestinal tract and no impairment of liver function. The author considered this proof that the undamaged digestive tract is impermeable to tannic acid. Doses of 2 to 3 g per kg produced significant liver function impairment, centrolobular necrosis and loss of glycogen, and inflammatory changes and uceleration of the gastric mucosa. After gallic acid was administered subcutaneously (1 g per kg) or rectally (1.5 g per kg) no impairment of liver function could be detected, liver histology appeared normal, and the rectal mucosa was unaffected.

Mitjavila *et al.* in 1971 studied the effect of tannic acid on the phagocytotic activity of the reticuloendothelial system, of the liver in male Wistar rats. In these experiments tannic acid (Aleppo) was administered intravenously or by gastric intubation. The results of the intravenous and oral experiments were similar. The hepatotoxicity of intravenously administered tannic acid (20 mg per kg) was similar to that seen after intragastric administration of higher doses (2 g per kg). Slightly less bile was excreted during the first hour. Sulfobromophthalein elimination was significantly reduced, and Kuppfer cell activity was normal during the first 24 hours but increased by 82 and 75 percent during 48 and 72 hours after injection, respectively. Parenchymal clearance decreased about 23 percent after 24 hours and the decrease persisted after 48 hours. The level of hepatic triglycerides was significantly increased 72 hours after injection.

Dollahite *et al.* gastrically intubated rabbits with aqueous solutions of tannic acid (unidentified), gallic acid and pyrogallol; the single dose LD_{50}'s for these compounds in rabbits were 5.0, 5.0, and 1.6 g per kg, respectively.

Peaslee and Einhellig found the age and weight of mice affected the animals' response to dietary tannic acid. They fed groups of six to eight young male albino mice a diet containing 5 or 8 percent tannic acid (Turkish nutgall, technical grade) in ground laboratory chow for periods of three to eight weeks. Daily tannic acid intake for the two levels was about 16 and 25 g per kg body weight averaged over the test period. Mice starting the test with body weights less than 12 g and fed an 8 percent tannic acid diet continued in depressed growth to sacrifice, exhibited a significant decrease in pituitary gland weight and had a significant increase in pituitary melanocyte stimulating hormone activity. This was postulated by the authors to be evidence of the toxic effect of prolonged intake of tannic acid by young animals.

Handler and Baker found no evidence of hepatic necrosis in Vanderbilt rats given tannic acid (unidentified) at levels of 1 and 2 percent (about 1 to 3 g per kg) in the diet of pair-fed rats over a period of 90 days. No gross or histological signs of liver damage were observed.

Racela *et al.* studied reagent grade gallotannic acid in 60 female Fisher-344 rats. The rats were sacrificed from one to three weeks after a single subcutaneous injection of 700 or 1200 mg tannic acid per kg body weight. Complete autopsies revealed an early and promptly reversible form of nucleolar macrosegregation or "capping." Iron-ribonucleic acid complexes were presented as intra-nuclear inclusions which disappeared gradually over a two-week period from the centrolobular areas. A transient, marked increase in fat in the liver cells diminished to a slight increase after 72 hours. Cytoplasmic degeneration was reflected in irregular eosinophilic bodies, some periodic acid Schiff positive, that were free of glycogen. Focal cytoplasmic necrosis was most prominent in central and mid-lobular zones. Most affected hepatocytes were within normal limits by one week after tannic acid treatment.

Glick and Joslyn fed 50 g weanling Long-Evans rats *ad libitum* a basal 20 percent casein diet containing 0, 4, and 8 percent tannic acid (analytical reagent grade gallotannic acid, J. T. Baker). At the 8 percent tannic acid level (1.8 g per kg) nine of ten animals died in four to seven days as did eight of ten pair-fed controls receiving a tannic acid-free basal diet. Growth was depressed because of decreased food intake as compared to *ad libitum* fed controls, but no deaths occurred at the 4 percent tannic acid level. Mature rats (200 g) on the 8 percent tannic acid diet (0.9 g per kg) had no mortality but gained less weight than pair-fed controls. The growth of 130 g rats on 5 percent tannic acid in a 40 percent casein diet was improved as compared to the basal 20 percent casein diet and was equal to that of pair-fed controls; protein absorption was increased. Methionine or choline added to the basal diet containing 5 percent tannic acid produced no significant improvement in growth rate. The authors noted high fecal nitrogen losses in rats fed tannic acid. The toxicity of tannic acid appeared to be inversely related to age and weight of the animals.

Squillaci and DiMaggio administered tannic acid (1 g per kg) in water daily for 40 days by stomach tube to male rabbits (2 kg) fasted for 12 hours. The general condition of the animals was good for the first 20 days. Later the body weight decreased and albumin showed in the urine at the end of the experimental period. Histological examination revealed certain toxic effects including degeneration of hepatic cells closest to the centrolobular veins, and areas of scaling of the stomach and small intestine mucosal epithelium.

The Joint FAO/WHO Expert Committee on Food Additives in 1970 reported studies of rats and dogs given various dietary levels of hydrolyzable tannins. The rats received 0, 8, 80, or 800 mg per kg body weight of Aleppo or tara tannin in the diet for 12 weeks without significant changes in body weight or food intake and utilization. No liver or kidney abnormalities attributed to the tannins were seen at necropsy. Similar studies with Chinese, Sicilian sumac and Douglas fir tannins produced comparable results. Dogs were given 0.0, 0.117, 0.125, 0.234, and 0.25 percent tannin in their diet as chewing gum (containing 0.5 percent Peruvian tara tannin) for two years with no ill effects. Behavior, food consumption, hematology, organ function tests, organ weights, gross and microscopic pathology were within normal limits.

A report of the Joint FAO/WHO Expert Committee on Food Additives detailed a long-term study in which 100 rats were fed Peruvian tara tannin as 0.0, 0.117, 0.125, 0.234, or 0.25 percent of their diet. In weanling rats, the highest dosage was about 0.3 g per kg body weight. The tannin was incorporated in a chewing gum at a level of 0.5 percent and then added to the diet. No deleterious effects were seen by the usual criteria of growth, food consumption, and gross and microscopic pathology. In a three-generation study, two litters per generation, groups of 20 male and 20 female rats were fed Peruvian tara tannin at levels of 0.0, 0.058, 0.117, and 0.234 percent. The young at weaning fed the highest level of tannin had lower body weights, a feature not observed at lower levels of tannin ingested. Fertility, gestation, viability and lactation were not affected at any feeding levels.

Korpassy *et al.* administered aqueous solutions of tannic acid (U.S.P.) to rats by oral intubation before meals. The animals were dosed (initially, 0.27 g per kg) four times each week with 4 ml of 1.0 percent tannic acid. The tannic acid concentration was increased by 1.0 percent every other month to a maximum of 5.0 percent (1 g per kg). Of 20 rats in this group, seven survived the 390 days of treatment. A second group of 40 rats was dosed once each week with 4 ml of 3 percent tannic acid for one month (initially 0.8 g per kg) and 5 percent for the remainder of the testing period; twenty-eight survived 300 days and four survived 500 days. Autopsies were performed and tissues examined microscopically. The enlarged livers and spleens showed extensive damage in two animals that died and one that was sacrificed during the experiment. There were numerous dividing myelogenous cells in the bone marrow in all of the animals. The kidneys, adrenals and ovaries showed a slight degree of myelogenous leucocytic infiltration. The histological appearance was suggestive of marked myelogenous hyperplasia. The hematopoietic and reticuloendothelial systems showed an activity indicative of response to stimulation of the active mesenchyme.

Weanling male and female albino CF mice were raised on a diet of ground laboratory chow and 8 percent tannic acid (about 12 to 25 g per kg) of technical grade, Turkish nutgall. In one experiment these animals were maintained on the tannic acid diet through two breeding cycles, and they produced litters of smaller number, slower growth rate, and lower body weight plateau. When female mice were removed from the tannic acid diet prior to breeding by control males, there were no significant differences between test and control litter weights or animals per litter. The authors suggested that the protein binding activity of tannic acid may influence hormonal activity. No data on feed intake were reported.

As defined in the background section of this report, food grade tannic acid is a hydrolyzable gallotannin. Some data on condensed tannins are included in this report for comparative purposes, but the health aspects of condensed tannins are not reviewed.

The work of Korpassy indicated that repeated subcutaneous administration of tannic acid (USP) to rats produced hemorrhagic gastric erosions, skin necrosis and ulcers, and hepatic tumors arising in sites of nodular cirrhosis and irregular bile duct proliferation. Doses of 150 to 200 mg per kg body weight administered every fifth day resulted in 30 to 50 percent survival in rats at 200 days and 5 to 15 percent survival for 300 days. More than half of the animals surviving 100 days developed hepatomas and/or cholangiomas, usually multiple and benign, although some histological patterns suggested low-grade malignancy. No metastases involving liver cancer were produced by tannic acid treatment and local carcinogenic effects were not observed associated with the skin ulcers resulting from subcutaneous injections. In reviewing the work in his laboratory on the oral administration of tannic acid to rats, Korpassy has reported no liver tumors in tannic acid treated animals and no gastric erosions after treatment with 2 to 5 percent aqueous tannic acid solutions, precirrhotic changes were observed in livers of rats after 180 days of treatment per os but only if the dose exceeded the effective parenteral dose by several times.

Kirby studied tumor induction in groups of 10 rats or mice after subcutaneous injection of tannic acid (B.D.H.), extracts containing condensed tannins, or extracts containing hydrolyzable gallotannins from myrobalans (*Terminalia chebula* Retz), chestnut (*Castanea sativa* Mill.) and valonia (*Quercus aegilops* L.). Twelve equal weekly doses delivered a total of 350 mg of tannin extract or tannic acid per kg to rats and 750 mg per kg to mice. Sarcomas appeared at the injection site of condensed tannin extracts in rats after one year but did not develop at the injection sites of tannic acid or myrobalan extract, the only hydrolyzable gallotannins tested in the rat. No liver damage or other observable effects were produced in the rat by these hydrolyzable gallotannins. In mice, tannic acid and extracts of myrobalans, chestnut and valonia produced no tumors at the site of injection but liver tumors were described in each of these groups.

Several reports, in addition to the long-term feeding studies reviewed by the Joint FAO/WHO Expert Committee on Food Additives, are negative with respect to carcinogenic effects after parenteral or oral administration of tannic acid. Bichel and Bach injected intramuscularly a group of 30 male and 30 female C$_3$HA mice with nutgall tannic acid (0.75 mg per kg) every second week for 12 months. The tannic acid was described as equivalent to tanninum (Ph. Nord.), acidum tannicum (Brit. 32) and to tannic acid (USA 47). It was delivered in a mixture of 1 mg cyanocobalamin and 1.5 mg tannic acid in 2 percent aluminum monostearate gel in sesame oil. Equal numbers of mice received the tannic acid preparation without cyanocobalamin and a third group received saline injections. The experiment was terminated six months after the last injection. There were no tumors at the injection sites and histological examination of the liver revealed no differences in the three groups. Perissinotto and Lombardi injected 80 rats subcutaneously with 1 to 2 percent aqueous solution, delivering 100 to 200 mg of tannic acid (not described) per kilogram body weight every five days and reported no evidence of liver tumors after 250 days.

Blumenberg and Kessler administered tannic acid (1000 mg per kg body weight of DAB 6) by gavage daily for 231 days to male Wistar rats and noted no hepatonecrosis. Konstantinov and Ivanov injected subcutaneously 200 mg tannic acid (not described) per kg to chickens weekly for 36 weeks. Intranuclear inclusions in parenchymal cells of the liver and kidney tubules were noted 24 hours after the initial treatment but no hepatomas or cholangiomas developed during the test period. The cellular inclusions indicated repair of the liver cells rather than evidence of carcinogenic changes.

Weinberg *et al.* studied the influence of drug treatments (including tannic acid) given to female rats during gestation on the toxicity of drugs administered to the newborn. There was no influence on the susceptibility of the newborn rats (12 to 24 hr) to lethal doses of tannic acid when the dam was treated before or during gestation. The study showed that younger rats died earlier mainly because of their inability to tolerate the gastrointestinal necrosis that tannic acid induced.

Food grade tannic acid was not mutagenic when tested by *in vitro* microbial assays with and without the addition of mammalian (mice, rats, and monkeys) metabolic activation preparations (liver, lung and testes). The indicator organisms used were *Saccharomyces cerevisiae* D4 and *Salmonella typhimurium* TA–1535, TA–1537 and TA–1538.

Teratologic evaluation of food grade tannic acid was conducted in mice and rats. Administration of up to 135 mg per kg body weight of tannic acid to pregnant mice and up to 180 mg per kg body weight of tannic acid to pregnant rats for 10 consecutive days (day 6 through 15 of gestation) had no clearly discernible effect on nidation or on maternal or fetal survival. The number of abnormalities seen in either soft or skeletal tissues of the test groups did not differ from the number occurring spontaneously in the sham-treated controls. Food grade tannic acid displayed no teratogenicity in the chick embryo test.

Johnston *et al.* reported the case history of one patient who was allergic to both tannic acid and gallic acid.[1]

---

[1] *Ibid.*, pp. 7–14.

The members of the Select Committee have evaluated all available safety information on tannic acid. In the Select Committee's opinion:

* * * only hydrolyzable gallotannins are within the definition of tannic acid. Tannic acid yields gallic acid and either glucose or quinic acid as hydrolysis products. These hydrolysis products are consumed as naturally occurring constituents of many foods. The total dietary intake of added tannic acid resulting from its use as a flavoring agent or processing aid can be inferred to be very small. The level of addition of tannic acid to various foods is about 100 ppm or less. Thus, the potential level of consumer exposure is orders of magnitude below the lowest levels for which adverse biological effects are reported to occur after oral administration of tannic acid to experimental animals.

While the evidence seems clear that food grade tannic acid at concentration reportedly added to foods is hydrolyzed prior to absorption from the small intestine, the extent and nature of its absorption have not been established for man. In experimental animals, intact tannic acid is apparently absorbed only after mucosal damage caused by large doses of concentrated aqueous tannic acid solutions intubated into empty stomachs or by artificially prolonged exposure of the mucosa to these solutions. Data available to the Select Committee contain no evidence that tannic acid as currently used in foods can induce mucosal damage. However, toxic effects following parenteral administration to animals suggest that additional studies should be made related to the absorption of tannic acid at dietary levels by individuals with gastrointestinal disorders.

Some investigators have reported that daily oral administration of tannc acid to experimental animals by stomach tube for periods of months may cause damage to the liver and other organs similar to that seen after parenteral administration of hydrolyzable tannins to experimental animals, and to that reported historically in man following topical treatment of burns with tannic acid. None of these effects is reported, however, in experimental animals receiving tannic acid as a component of their ration, even at levels of several percent of the diet. Nevertheless, the reported hepatocarcinogenic effect of parenterally injected hydrolyzable gallotannins is of concern to the Select Committee owing, in part, to the lack of uniformity of composition and sources of the preparations used in the tests available in the literature for evaluation. While the evidence available to the Select Committee does not demonstrate hazard of carcinogenicity inherent in food grade tannic acid, research is needed to answer the question of why there are such extreme differences between the results of parenterally and orally administered hydrolyzable tannins in rodents.

There is no evidence of a clear and present danger to the public health occasioned by the current use of dietary tannic acid as a food ingredient.[1]

[1] *Ibid.*, pp. 14–15.

The Select Committee concludes that no evidence in the available information on tannic acid demonstrates, or presents reasonable grounds to suspect, a hazard to the public when tannic acid is used at levels that are now current and in the manner now practiced. However, the Select Committee also states that it is not possible to determine, without additional data, whether a significant increase in consumption would constitute a dietary hazard.[2]

FDA has undertaken its own evaluation of all available information on tannic acid and concurs with the conclusion of the Select Committee. Based upon available safety data, the agency concludes that this ingredient should be affirmed as GRAS with specific limitations placed on its use. The levels of use set forth in this proposal for various food categories are the maximum levels reported to the NAS/NRC in their 1971 survey of food manufacturers on the use of GRAS ingredients. The agency encourages the submission, as comments on this proposal, of other food uses for this ingredient that may not have been reported during the survey. Each report of a use should include the residue level of tannic acid remaining in the food when consumed, so that the agency may determine whether a significant increase in consumption of tannic acid will result from the new reported use. FDA will address any change in the regulatory status of tannic acid when it issues the final rule.

As discussed earlier, of the 1.7 million pounds of foodgrade tannic acid used in 1970, the major portion is believed by the Select Committee to be used as a processing aid and as such does not become part of the food supply. The agency therefore concludes that with the use limitations presented in this proposal, available data support GRAS affirmation of tannic acid as currently used in food. After a final rule is published, any use of tannic acid that is not permitted by the regulation will be considered an unsafe use within the meaning of section 409(a) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 348(a)), whose use in food is unlawful.

The Select Committee states that, in its opinion, additional data should be obtained to answer questions relating to (1) the absorption of tannic acid at normal dietary levels by individuals with gastrointestinal disorders and (2) the differences between the observed toxic effects of parenterally and orally administered hydrolyzable tannins in rodents, specifically the relation between the route of administration and the reported hepatocarcinogenic effects.[1]

[2] *Ibid.*, p. 15.

In response to the questions raised by the Select Committee's report, FDA directed its Cancer Assessment Committee (CAC) to undertake a review of the safety data supporting the use of tannic acid in food. The CAC shared the Select Committee's concern about the induction of tumors and other toxic effects in animals injected with tannic acid. On the other hand, the CAC noted that there is extensive data which demonstrate orally administered tannic acid is not toxic to animals at doses far exceeding the injected doses. The CAC concluded that there was no evidence that orally administered food-grade tannic acid is a carcinogen. FDA requests that safety information addressing these questions, published or unpublished, be submitted as comments on this proposal during the comment period.

As discussed earlier, the agency has issued opinion letters sanctioning the safe use of tannic acid in salad dressing and apple juice. Available data do no indicate, however, that tannic acid currently is being used in these foods. Therefore, FDA is not proposing to affirm these uses. FDA will reconsider this matter if current use information (levels of addition and intended technical effects) is submitted for these uses as comments on this proposal.

Because the use of tannic acid as a boiler water additive is regulated under § 173.310, it would be redundant to include this use in the proposed action. Accordingly, it is not being included in this proposal. The use of tannic acid in refining rendered fats was not reported in the NAS/NRC survey. However, when it is used in accordance with 9 CFR 318.7, the agency has no reason to believe that tannic acid would pose a hazard to the public. Consequently, this prior-sanctioned use if being included in the proposal.

Copies of the scientific literature review on tannic acid, reports of mutagenic and teratogenic evaluations, and the report of the Select Committee are available for review at the Dockets Management Branch (address above), and may be purchased from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161, as follows:

This proposed action does not affect the current use of tannic acid in pet food or animal feed.

The format of the proposed regulation is different from that in previous GRAS affirmation regulations. The agency has modified the form in which the specific limitations on the use of the ingredient is presented. This change has no substantive effect but is made merely for clarity.

The agency has determined under 21 CFR 25.24(d)(6)(proposed December 11, 1979; 44FR 71742) that this proposed action is of a type that does not individually or cumulatively have a significant impact on the human evironment. therefore, neither an environmental assessment nor an environmental impact statement is required.

FDA, in accordance with the Regulatory Flexibility Act, has considered the effect that this proposal would have on small entities including small businesses and has determined that the effect of this proposal is to maintain current known uses of the substances covered by this proposal by both large and small businesses. Therefore, FDA certifies in accordance with section 605(b) of the Regulatory Flexibility Act that no significant economic impact on a substantial number of small entities will derive from this action.

In accordance with Executive Order 12291, FDA has carefully analyzed the economic effects of this proposed rule, and the agency has determined that the final rule, if promulgated, will not be a major rule as defined by the Order.

List of Subjects

21 CFR Part 182

Generally recognized as safe (GRAS) food ingredients, Spices and flavorings.

21 CFR Part 184

Direct food ingredients, Food ingredients, Generally recognized as safe (GRAS) food ingredients.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348, 371(a))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), it is proposed that Parts 182 and 184 be amended as follows:

PART 182—SUBSTANCES GENERALLY RECOGNIZED AS SAFE

§ 182.20 [Amended]

1. In Part 182, § 182.20 *Essential oils, oleoresins (solvent-free), and natural extractives (including distillates)* is amended by removing the entry "Tannic acid."

PART 184—DIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE

2. In Part 184, by adding new § 184.1097 to read as follows:

§ 184.1097 Tannic acid.

(a) Tannic acid (CAS Reg. No. 1401–55–4), or hydrolyzable gallotannin, is a complex polyphenolic organic structure that yeilds gallic acid and either glucose or quinic acid as hydrolysis products. It is a yellowish-white to light brown substance in the form of an amorphous, bulky powder, glistening scales, or spongy masses. It is also odorless or has a faint characteristic odor and an astringent taste. Tannic acid is obtained by solvent extraction of nutgalls or excrescences that form on the young twigs of *Quercus* L. (Fam. *Fagaceae*). Tannic acid is also obtained by solvent extraction of the seed pods of Tara (*Caesalpinia spinosa*) from the eastern Mediterranean region or of Chinese nutgalls (*Rhus semialata*).

(b) The ingredient meets the specifications of the Food Chemicals Codex, 3d Ed. (1981), p. 319, which is incorporated by reference. Copies are available from the National Academy Press, 2101 Constitution Ave. NW., Washington, DC 20418, or available for inspection at the Office of the Federal Register, 1100 L St. NW., Washington, DC 20408.

(c)(1) In accordance with § 184.1(b)(2), the ingredient is used in food only within the following specific limitations:

Category of food	Maximum level of use in food (as served) (percent)	Functional use
Baked goods and baking mixes, § 170.3(n)(1) of this chapter	0.01	Flavoring agent and adjuvant, § 170.3(o)(12) of this chapter
Alcoholic beverages, § 170.3(n)(2) of this chapter	0.015	Flavor enhancer, § 170.3(o)(11) of this chapter; flavoring agent and adjuvant, § 170.3(o)(12) of this chapter; processing aid, § 170.3(o)(24) of this chapter.
Nonalcoholic beverages and beverage bases, § 170.3(n)(3) of this chapter and for gelatins, puddings, and fillings, § 170.3(n)(22) of this chapter.	0.005	Flavoring agent and adjuvant, § 170.3(o)(12) of this chapter; pH control agent, § 170.3(o)(23) of this chapter.
Frozen dairy desserts and mixes, § 170.3(n)(20) of this chapter and for soft candy, § 170.3(n)(38) of this chapter.	0.04	Flavoring agent and adjuvant, § 170.3(o)(12) of this chapter.
Hard candy and cough drops, § 170.3(n)(25) of this chapter	0.013	Do.
Meat products, § 170.3(n)(29) of this chapter.	0.001	Do.

(2) Tannic acid may be used in rendered animal fat in accordance with 9 CFR 318.7.

The agency is unaware of any prior sanction for the use of this ingredient in foods under conditions different from those identified in this document. Any person who intends to assert or rely on such a sanction shall submit proof of its existence in response to this proposal. The action proposed above will constitute a determination that excluded uses would result in adulteration of the food in violation of section 402 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 342), and the failure of any person to come forward with proof of an applicable prior sanction in response to this proposal constitutes a waiver of the right to assert or rely on it later. Should any person submit proof of the existence of a prior sanction, the agency hereby proposes to recognize such use by issuing an appropriate final rule under Part 181 (21 CFR Part 181) or affirming it as GRAS under Part 184 or 186 (21 CFR Part 184 or 186), as appropriate.

Interested persons may, on or before November 30, 1982 submit to the Dockets Management Branch (address above), written comments regarding this proposal. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: September 16, 1982.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

[FR Doc. 82-27062 Filed 9-30-82; 8:45 am]

BILLING CODE 4160-01-M

21 CFR Part 184

[Docket No. 81N-0348]

Benzoyl Peroxide; Proposed Affirmation of Gras Status

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

SUMMARY: The Food and Drug Administration (FDA) is proposing to affirm that benzoyl peroxide is generally recognized as safe (GRAS) as a direct human food ingredient. The safety of this ingredient has been evaluated under the comprehensive safety review conducted by the agency.

DATE: Comments by November 30, 1982.

ADDRESS: Comments to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Mary C. Custer, Bureau of Foods, (HFF-335), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-426-9453.

SUPPLEMENTARY INFORMATION: FDA is conducting a comprehensive review of human food ingredients classified as GRAS or subject to a prior sanction. The agency has issued several notices and proposals (see the **Federal Register** of July 26, 1973 (38 FR 20040)) initiating this review, under which the safety of benzoyl peroxide has been evaluated. In accordance with the provisions of § 170.35 (21 CFR 170.35), the agency proposes to affirm the GRAS status of this ingredient as a direct human food ingredient.

Benzoyl peroxide, $(C_6H_5CO)_2O_2$, is a colorless, odorless, tasteless, rhombic crystalline solid. The technical product melts at 103° to 105° C, and the recrystallized compound melts at 106° to 106° C. It is soluble in nonpolar solvents, slightly soluble in alcohol and vegetable oils, and virtually insoluble in water. Benzoyl peroxide may decompose explosively if subjected to excessive heat, friction, or sudden shock. It may also decompose spontaneously when exposed to temperatures of 75° to 80° C for prolonged periods. It is flammable in a dry state but does not ignite when it contains 5 percent or more water. Most commercial preparations contain 15 to 34 percent water. It is synthesized commercially by the reaction of benzoyl chloride, sodium hydroxide, and hydrogen peroxide. Traces of benzoic acid remain after usual purification procedures.

In an advisory opinion letter issued in 1960, FDA stated that benzoyl peroxide is considered to be GRAS for use in bleaching lecithin, assuming the absence of residual unreacted peroxide. Benzoyl peroxide is listed in the standards of identity for use as an optional bleaching agent for flour (21 CFR 137.105). It is also listed in the standards of identity as an optional bleaching agent for milk used in the preparation of certain cheeses (21 CFR 133.102, 133,103, 133.104, 133.106, 133.111, 133.141, 133.165, 133.181, 133.183, and 133.195). Benzoyl peroxide is regulated in § 172.814 (21 CFR 172.814) as an ingredient used in the preparation of hydroxylated lecithin. In addition, benzoyl peroxide is regulated as a component of adhesives under § 175.105 (21 CFR 175.105), as a preservative in paper and paperboard under §§ 176.170 and 176.180 (21 CFR 176.170 and 176.180), as a catalyst in the formulation of polyester resins under § 177.2420 (21 CFR 177.2420), and as an accelerator in the production of rubber articles under § 177.2600 (21 CFR 177.2600).

In 1971, the National Academy of Sciences/National Research Council (NAS/NRC) surveyed a representative cross-section of food manufacturers to determine the specific foods in which benzoyl peroxide was used and the levels of usage. NAS/NRC combined this manufacturing information with information on consumer consumption of foods to obtain an estimate of consumer exposure to this ingredient. FDA estimates from a subsequent 1975 NAS/NRC survey that the total amount of benzoyl peroxide used in food by the U.S. food industry was approximately 1,470,000 pounds. This level of use corresponds to an average per capita usage of about 8.5 milligrams per day. However, this poundage figure represents the amount added to food and not the amount ingested.

The major use of benzoyl peroxide in the food industry is as a bleaching agent for flour. The maximum amount used for this purpose is about 50 parts per million. Studies have shown that the greater part of benzoyl peroxide added to flour decomposes into benzoic acid within a few days, although traces of benzoyl peroxide may persist for several weeks. The decomposition of benzoyl peroxide is accelerated by heating. The NAS/NRC survey reported that benzoyl peroxide is also used to bleach fats and oils. However, NAS/NRC believes that this reported use represents its use in the preparation of "double bleached" and "hydroxylated" lecithin.

Benzoyl peroxide has been the subject of a search of the scientific literature from 1920 to the present. The criteria used in the search were chosen to discover any articles that considered (1) chemical toxicity, (2) occupational hazards, (3) metabolism, (4) reaction products, (5) degradation products, (6) carcinogenicity, teratogenicity, or mutagenicity, (7) dose response, (8) reproductive effects, (9) histology, (10) embryology, (11) behavioral effects, (12) detection, and (13) processing. A total of 132 abstracts was reviewed, and 31 particularly pertinent reports have been summarized in a scientific literature review.

Information from the scientific literature review and the results of other studies have been summarized in a report to FDA by the Select Committee on GRAS Substances (the Select Committee), which is composed of qualified scientists selected by the Life Sciences Research Office of the Federation of American Societies for Experimental Biology (FASEB). The members of the Select Committee have carefully evaluated all the available information on benzoyl peroxide.[1] In the Select Committee's opinion:

[1] "Evaluation of the Health Aspects of Benzoyl Peroxide as a Food Ingredient," pp. 6-17, 1980. In the past, the agency presented verbatim the Select Committee's discussion of the biological data it reviewed. However, because the Select Committee's report is available at the Dockets Management Branch and from the National Technical Information Service, and because it represents a significant savings to the agency in publication costs, FDA has decided to discontinue presenting the discussion in the preamble to proposals that affirm GRAS status in accordance with current good manufacturing practice.

Benzoyl peroxide is GRAS when used as a bleaching agent in certain foods. It is used extensively for this purpose with flour and to a much lesser extent in the manufacture of some cheeses and with certain forms of lecithin. Data from food processors indicate an average per capita usage of about 8.5 mg/day. Only a small fraction of this amount would be ingested, for benzoyl peroxide is rapidly degraded and little of the intact compound would survive food processing. The amount actually ingested is subjected to further destruction in the gastrointestinal tract and by tissue peroxidases.

Benzoic acid is produced by the degradation of benzoyl peroxide during food processing. The amounts produced are small compared with those normally present or added to foods. There is no evidence of hazard from the ingestion of benzoic acid at these levels.

Oral administration of benzoyl peroxide by animals produced toxic effects only at levels several orders of magnitude greater than the estimated consumption by man from food sources. Various tests for mutagenicity and carcinogenicity of benzoyl peroxide have been negative. No tests of teratogenicity were available to the Select Committee.

Some carotene is destroyed by treatment of milk with benzoyl peroxide in the manufacture of cheese. Governmental regulations require that these losses be compensated for by the addition of supplementary vitamin A. Some vitamin E and vitamin C are probably destroyed during bleaching, but their amounts in flour and milk are small and these losses would have little nutritional significance. There is no evidence that other essential nutrients are destroyed.

Oxidation products of normal food constituents are possible by the action of benzoyl peroxide when it is used as a bleaching agent. These products have not been identified but could conceivably include oxidized forms of pigments, unsaturated fatty acids, and sterols in very small amounts. Possible products thus far tested have not proved hazardous when given by mouth at levels many times greater than any reasonable possible intake from food.

Benzoyl peroxide is used extensively in topical applications for skin disorders. Allergic responses have been reported among patients using these preparations as well as among individuals repeatedly exposed to the compound in the workplace. No reports have come to the attention of the Select Committee of allergic responses to benzoyl peroxide in food.[2]

The Select Committee concludes that no evidence in the available information on benzoyl peroxide demonstrates, or suggests reasonable grounds to suspect, a hazard to the public when it is used at levels that are now current or that might reasonably be expected in the future.[3]

[2] *Ibid.*, p. 18.
[3] *Ibid.*, p. 19.

FDA has undertaken its own evaluation of all available information on food uses of benzoyl peroxide, and concurs with the conclusion of the Select Committee. The agency concludes that no change in the current GRAS status of benzoyl peroxide is justified. Therefore, the agency proposes that benzoyl peroxide be affirmed as GRAS.

Usually, regulations for substances affirmed as GRAS under conditions of current good manufacturing practice (CGMP) list the technical effects, as defined in § 170.3(o) (21 CFR 170.3(o)), for the ingredient in food and the food categories, as defined in § 170.3(n) (21 CFR 170.3(n)), in which the NAS/NRC survey reported that the ingredient is used. However, the uses of benzoyl peroxide in food are not well described by the technical effects and food categories listed in § 170.3. Benzoyl peroxide is used as a bleaching agent in a limited number of food ingredients and basic foods (flour and milk that is used in the preparation of certain cheeses) that may or may not be incorporated into a wide variety of finished products. None of the technical effects listed in § 170.3(o) adequately describe a bleaching agent that is used in several foods, and the food categories listed in § 170.3(n) refer to finished products. Consequently, the technical effects and food categories in § 170.3 do not describe adequately the conditions of use that the agency has evaluated, and the agency has decided not to refer to § 170.3 in the proposed regulation for benzoyl peroxide.

Additionally, FDA is proposing not to include in the GRAS affirmation regulation for benzoyl peroxide the levels of use reported in the NAS/NRC 1971 survey for this ingredient. As noted by the Select Committee, benzoyl peroxide is rapidly degraded, and little of the intact compound would survive food processing. Thus the levels of use reported in the 1971 NAS/NRC survey probably are levels of addition to the basic food during processing and do not represent levels in the finished food product, as served. Furthermore, the use of benzoyl peroxide to bleach flour and to bleach milk that is used in production of certain cheeses is governed by the relevant food standards. Consequently, the agency concludes that it is both inappropriate and unnecessary to include in its proposed GRAS affirmation regulation the levels of use of benzoyl peroxide that were reported in the NAS/NRC survey. To make clear, however, that its affirmation of the GRAS status of benzoyl peroxide is based on the evaluation of its limited use in bleaching flour and bleaching milk that is used in production of certain cheeses, the proposed regulation specifies these CGMP conditions of use.

In the **Federal Register** of September 7, 1982 (47 FR 39199), FDA proposed to adopt a general policy restricting the circumstances in which it will specifically describe conditions of use in regulations affirming substances as GRAS under 21 CFR 184.1(b)(1) or 186.1(b)(1). The agency proposed to amend its regulations to indicate clearly that it will specify one or more of the current good manufacturing practice conditions of use in regulations for substances affirmed as GRAS with no limitations other than current good manufacturing practice only when the agency determines that it is appropriate to do so.

The use of benzoyl peroxide to bleach lecithin is not included in this proposal. It is covered in the proposal that addresses the GRAS status of the use of lecithin in food (47 FR 34161).

Copies of the scientific literature review on benzoyl peroxide and the report of the Select Committee are available for review at the Dockets Management Branch (address above), and may be purchased from the National Technical Information Service, 5285 Port Royal Rd., Springfield, VA 22161, as follows:

Title	Order No.	Price code	Price [1]
Benzoyl peroxide (Select Committee report).	PB 81 127854	A03	$6.50
Benzoyl peroxide (scientific literature review).	PB 294-877/AS	A03	6.50

[1] Price subject to change.

This proposed action does not affect the current use of benzoyl peroxide in pet food or animal feed.

The format of the proposed regulation is different from that in previous GRAS affirmation regulations. FDA has modified paragraph (c) of § 184.1157 to make clear the agency's determination that GRAS affirmation is based upon current good manufacturing practice conditions of use, including both the technical effects and food categories listed. This change has no substantive effect but is made merely for clarity.

The agency has determined under 21 CFR 25.24(d)(6) (proposed December 11, 1979; 44 FR 71742) that this proposed action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

FDA, in accordance with the Regulatory Flexibility Act, has considered the effect that this proposal would have on small entities including small businesses and has determined that the effect of this proposal is to maintain current known uses of the substance covered by this proposal by both large and small businesses. Therefore, FDA certifies in accordance with section 605(b) of the Regulatory Flexibility Act that no significant economic impact on a substantial number of small entities will derive from this action.

In accordance with Executive Order 12291, FDA has carefully analyzed the economic effects of this proposal, and the agency has determined that the final rule, if promulgated, will not be a major rule as defined by the Order.

List of Subjects in 21 CFR Part 184

Direct food ingredients, Food ingredients, Generally recognized as safe (GRAS) food ingredients.

PART 184—DIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348, 371(a)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), it is proposed that Part 184 be amended by adding new § 184.1157, to read as follows:

§ 184.1157 Benzoyl peroxide.

(a) Benzoyl peroxide ($(C_6H_5CO)_2O_2$, CAS Reg. No. 94–36–0) is a colorless, rhombic crystalline solid. It is prepared by the reaction of benzoyl chloride, sodium hydroxide, and hydrogen peroxide.

(b) The ingredient meets the specifications of the Food Chemicals Codex, 3d Ed. (1981), p. 35, which is incorporated by reference. Copies are available from the National Academy Press, 2101 Constitution Ave. NW., Washington, DC 20418, or available for inspection at the Office of the Federal Register, 1100 L St. NW., Washington, DC 20408.

(c) In accordance with § 184.1(b)(1), the ingredient is used in food with no limitation other than current good manufacturing practice. The affirmation of this ingredient as generally recognized as safe (GRAS) as a direct human food ingredient is based upon the following current good manufacturing practice conditions of use:

(1) The ingredient is used as a bleaching agent in food.

(2) The ingredient is used in the following foods at levels not to exceed current good manufacturing practice: flour and, for production of certain cheeses in accordance with the appropriate food standard, milk.

The agency is unaware of any prior sanction for the use of this ingredient in foods under conditions different from those identified in this document. Any person who intends to assert or rely on such a sanction shall submit proof of its existence in response to this proposal. The action proposed above will constitute a determination that excluded uses would result in adulteration of the food in violation of section 402 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 342), and the failure of any person to come forward with proof of an applicable prior sanction in response to this proposal constitutes a waiver of the right to assert or rely on it later. Should any person submit proof of the existence of a prior sanction, the agency hereby proposes to recognize such use by issuing an appropriate final rule under Part 181 (21 CFR Part 181) or affirming it as GRAS under Part 184 or 186 (21 CFR Part 184 or 186), as appropriate.

Interested persons may, on or before November 30, 1982 submit to the Dockets Management Branch (address above), written comments regarding this proposal. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: September 13, 1982.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4160-01-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[FL-001; A-4-FRL 2188-6]

Approval and Promulgation of Implementation Plans, Florida; Testing and Research Programs Rule

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to disapprove the Florida Testing and Research Programs rule. The Florida Department of Environmental Regulation (FDER) designed the rule to allow industry variances from approved emission limits for a period of up to two years, subject to renewal by FDER, without going through the normal State Implementation Plan (SIP) revision procedure.

DATES: To be considered, comments must be submitted on or before November 1, 1982.

ADDRESSES: Written comments should be addressed to Barry Gilbert of EPA Region IV's Air Management Branch (see EPA Region IV address below). Copies of the materials submitted by Florida may be examined during normal business hours at the following locations:

Environmental Protection Agency, Region IV, Air Management Branch, 345 Courtland Street, N.E., Atlanta, Georgia 30365

Bureau of Air Quality Mgmt., Twin Towers Office Building, 2600 Blair Stone Road, Tallahassee, Florida 32301

FOR FURTHER INFORMATION CONTACT: Barry Gilbert, EPA Region IV, Air Management Branch, at the above listed address and phone 404/881–3286 or FTS 257–3286.

SUPPLEMENTAL INFORMATION: Section 403.061(18), Florida Statutes, authorizes the Department of Environmental Regulation to "encourage and conduct studies, investigations, and research relating to pollution and its causes, effects, prevention, abatement, and control." To implement this authority, FDER adopted Section 17–1.585, Florida Administrative Code establishing a procedure by which the Department can authorize air pollution sources to conduct testing and research programs. The rule was submitted by FDER on April 7, 1980, for approval as a plan revision. It would allow industry variances from approved emission limits for two years, subject to renewal by FDER. The State would not submit such variances for EPA's review and approval, as is presently done with other variances from the Florida plan.

It is anticipated that some tests might result in emissions in excess of emission limiting standards established by rule or contained in permit conditions, or might cause violations of other rule or permit requirements. Under the rule, a source must petition FDER for authority to conduct a test or research program and identify any rules or permit conditions that might be violated. A public hearing must be held on each petition and FDER, at its discretion, can issue an order authorizing the proposed test. FDER indicates that any order issued under

this section will contain conditions sufficient to assure that the test will not result in violations of State or Federal ambient air quality standards, Prevention of Significant Deterioration (PSD) increments, Federal Standards of Performance for New Stationary Sources (NSPS), or National Emissions Standards for Hazardous Air Pollutants (NESHAPS). The order can authorize emissions in excess of existing emission limiting standards or other conditions different from those contained in applicable rules and permits for up to two years. The order may be renewed.

In the past, FDER has had no formal procedure for authorizing testing or research programs. The general practice, however, has been to grant such authority informally, either in writing or orally, without any provision for public participation or formal consideration of the proposed program. Such an informal practice may not protect a source from legal action taken by a third party where an emission limiting standard or other requirement was violated because such informal authorization under state law was not duly adopted pursuant to enabling statutes or authorized regulations and said informal authorization had not been approved by EPA as a SIP revision. Under Florida law, this rule resolved this problem by providing FDER with a means to establish formally alternate state regulatory requirements applicable to a source. Variances from the rules have been available under State Section 403.201, FSA, Variances, but the reasons for granting variances are very limited. FDER will use the regulations in Chapter 17–2 to review and issue an order. Sections 17–2.220—Public Notice and Comment, 17–2.260—Air Quality Models, 17–2.300—Ambient Air Quality Standards, 17–2.310—Maximum Allowable Increases (Prevention of Significant Deterioration Increments), 17–2 Part IV—Area Designation and attainment dates, and 17–2 Part V—New and Modified Source Review Requirements, shall be specifically used to issue an order.

Section 110(d) of the Clean Air Act states that the "applicable [state] implementation plan" is that plan or "most recent revision thereof" which has been approved by the EPA Administrator pursuant to Section 110(a) of the Act or promulgated by the EPA Administrator pursuant to Section 110(c) of the Act. 40 CFR 51.8 (1981) underscores the point that revisions of a state implementation plan are not considered part of an "applicable implementation plan" until approved by EPA by authority of Section 110 of the Clean Air Act. Under the proposed rule, if FDER does not submit such research and testing variances to EPA for its approval as a state implementation plan revision, then such variances as a matter of federal law are not part of the "applicable implementation plan" for Florida. This practice would raise the problem of sources having to comply with differing state and federal regulatory requirements and possibly subject such sources to citizen suits aimed at enforcement of the "applicable implementation plan"—those applicable air pollution control regulations previously approved by EPA. Furthermore, Section 110(i) of the Clean Air Act expressly forbids the state or EPA from modifying an applicable implementation plan except by means of specified orders, suspensions, exemptions or EPA action on a plan revision pursuant to Section 110(c) and Section 110(a)(3) of the Clean Air Act. The anticipated orders of FDER adopted by virtue of the proposed rule would conflict, under federal law, with the dictates of Section 110(i) of the Clean Air Act.

Additionally, Rule 17–1.585 would not meet the requirements of EPA's bubble policy since there are no emission trade procedures identified. Therefore, EPA is today proposing to disapprove the State submittal and is soliciting public comment on this proposal.

FDER may meet EPA's objections to rule 17–1.585 by agreeing to submit to EPA as SIP revisions any variances or orders issued under it. New sources must meet all PSD and new source review requirements including best available control technology or lowest achievable emission rate.

Under 5 U.S.C. 605(b), I hereby certify that the proposed disapproval would not have a significant economic impact on a substantial number of small entities since FDER could authorize research testing through revision of the Florida plan as approved by EPA.

Under Executive Order 12291, today's action is not "Major". It has been submitted to the Office of Management and Budget (OMB) for review. Any comments from OMB to EPA and any response are available for public inspection at the EPA Region IV office (see address above).

40 CFR Part 123

[OSW-FRL 2220-7]

Hazardous Waste Management Program, Vermont; Application for Interim Authorization, Phase II, Components A, B and C

AGENCY: Environmental Protection Agency, Region I.

ACTION: Notice of public hearing and public comment period.

SUMMARY: EPA is today announcing the availability for public review of the Vermont application for Phase II, Components A, B and C, Interim Authorization, Hazardous Waste Management Program, inviting public comment, and giving notice that if significant public interest is expressed, EPA will hold a public hearing on the application.

DATES: If significant public interest is expressed in holding a hearing, a public hearing is scheduled for November 9, 1982 at 9:00 a.m. EPA reserves the right to cancel the public hearing if significant public interest in holding a hearing is not communicated to EPA by telephone or in writing by November 2, 1982. EPA will determine by November 3, 1982, whether there is significant interest to hold the public hearing. Regardless of whether a public hearing is held, all written comments on the Vermont Interim Authorization Application must be received by the close of business on November 12, 1982.

ADDRESSES: If significant public interest is expressed, EPA will hold a public hearing on Vermont's Application for Interim Authorization on November 9, 1982, at 9:00 a.m. at the Pavillion Auditorium-Pavillion Building, 109 State Street, Montpelier, Vermont 05602.

Written comments on the application, written or telephone communication of interest in EPA's holding a public hearing on the Vermont Application and requests to speak at the hearing must be sent to: Susan L. Santos, Vermont State Coordinator, State Waste Programs Branch, U.S. EPA, Region I, John F. Kennedy Federal Building, Boston, Massachusetts 02203, Telephone (617) 223–5630.

If you wish to find out whether or not EPA will hold a public hearing on the Vermont Application based upon EPA's decision of whether there was

significant public interest in such a hearing, write or telephone after November 3, 1982, the EPA contact person listed below.

Copies of the Vermont Phase II Interim Authorization Application are available during normal business hours at the following addresses for inspection and copying by the public:

Agency of Environmental Conservation, Division of Water Resources and Environmental Engineering, Air and Solid Waste Program, Heritage II, 79 River Street, Montpelier, Vermont 05602, Telephone (802) 828–3395.

Environmental Protection Agency, Region I Office Library, Room 2100 B, John F. Kennedy Federal Building, Boston, Massachusetts 02203, Telephone (617) 223–5791.

EPA Headquarters Library, Room 2404, 401 M Street, SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Susan L. Santos, Vermont State Coordinator, State Waste Programs Branch, U.S. EPA, Region I, John F. Kennedy Federal Building, Boston, Massachusetts 02203, Telephone (617) 233–5630.

SUPPLEMENTARY INFORMATION: In the May 19, 1980 **Federal Register** (45 FR 33063) the Environmental Protection Agency promulgated regulations, pursuant to Subtitle C of the Resource Conservation and Recovery Act of 1976, as amended, to protect human health and the environment from the improper management of hazardous waste. These regulations included provisions under which EPA can authorize qualified State hazardous waste management programs to operate in lieu of the Federal program. The regulations provide for a transitional stage in which qualified state programs can be granted interim authorization. The interim authorization program is being implemented in two phases corresponding to the two stages in which the underlying Federal program will take effect.

The State of Vermont received interim authorization for Phase I on January 8, 1981.

In the January 26, 1981 **Federal Register** (46 FR 7965), the Environmental Protection Agency announced the availability of portions or components of Phase II of interim authorization. Component A, published in the **Federal Register** January 12, 1981 (46 FR 2802), contains standards for permitting storage and treatment in containers, tanks, surface impoundments and waste piles. Component B, published in the **Federal Register** January 23, 1981 (46 FR 7666), contains standards for permitting hazardous waste incinerators. Component C, published in the **Federal Register** July 26, 1982 (47 FR 32274), contains standards for permitting surface impoundments, waste piles, land treatment facilities and landfills.

A full description of the requirements and procedures for State interim authorization is included in 40 CFR Part 123, Subpart F, as amended by 47 FR 32377.

As noted in the May 19, 1980 **Federal Register**, copies of complete state submittals for Phase II interim authorization are to be made available for public inspection and comment. In addition, if significant public interest exists, a public hearing is to be held on the submittal.

List of Subjects in 40 CFR Part 123

Hazardous materials, Indian lands, Reporting and recordkeeping requirements, Waste treatment and disposal, Water pollution control, Water supply, Intergovernmental relations, Penalties, Confidential business information.

Dated: September 28, 1982.

Leslie A. Carothers,

Deputy Regional Administrator, Region I.

BILLING CODE 6560-50-M

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

43 CFR Part 429

Procedure to Process and Recover Value of Rights-of-Way and Administrative Costs

AGENCY: Bureau of Reclamation, Interior.

ACTION: Proposed rules.

SUMMARY: The Bureau of Reclamation (Reclamation) has elected to reissue proposed rules to provide a uniform policy for processing requests and recovering values and costs for the use of lands under Reclamation's control. The reason for the reissuance of the proposed rules is because of the numerous comments received.

DATE: Comments must be received on or before November 15, 1982.

ADDRESS: Comments should be submitted to the Commissioner, Bureau of Reclamation, Department of the Interior, 18th and C Streets, NW., Washington, D.C. 20240, attention code 400.

FOR FURTHER INFORMATION CONTACT: Mr. L. David Williamson, Jr., Senior Staff Assistant for Land Resource Management, Bureau of Reclamation, Department of the Interior, Washington, D.C. 20240 (202) 343–5204.

SUPPLEMENTARY INFORMATION: In the September 10, 1979, (**Federal Register** Vol. 44 No. 176 pg. 52699ff) the Bureau of Reclamation published proposed rules to establish "Procedure to Process and Recover; Value of Rights-of-Way and Administrative Costs (43 CFR Part 429).

A wide variety of comments and suggestions were received on the proposed rules. In addition to these comments the Department of the Interior issued instructions "Cost Reimbursement Procedures for Rights-of-Way" (Departmental Manual Part 346, Chapter 1, release number 2218 of December 17, 1979). Other land managing Federal agencies also published procedures for recovering rights-of-way costs. The comments and other documents were analyzed and various suggestions and provisions were adopted for the revised proposed rules. A section by section analysis follows:

Section 429.1 Purpose.

No comments or suggestions were received on this section.

Section 429.2 Definitions.

The definition of "Documentation of Administrative Costs" was added to coincide with the Departmental Manual Part 346, Chapter 1 and the definition of "Secretary" was added at the suggestion of several reviewers.

Section 429.3 Establishment of the Value of Rights-of-Way.

This section was reorganized to clarify under what conditions the applicant for a right-of-way might be assessed for prior unauthorized use of the right-of-way by the applicant.

Section 429.4 Request by Other Governmental Agencies and Non-Profit Organizations for Rights-of-Way.

This section was modified as a result of several comments and suggestions resulting from the proposed rules of September 10, 1979, and as a result of the rules and proposed rules published by other agencies. The earlier draft required other Federal agencies and non-profit organizations to reimburse Reclamation for all administrative costs incurred in granting them a right-of-way. The revised section only requires the reimbursement of administrative costs that may be "* * * excessive to normal costs for granting similar rights-of-way * * *" and further requires all billings for such costs to be well documented.

Section 429.5 Request by Other Governmental Agencies for Assistance.

This section was modified in response to comments received to the 1979 proposed rules and now requires administrative cost reimbursement only for costs deemed to be excessive and also requires any charges for excessive costs to be well documented.

Section 429.6 Request by Non-Governmental Entities for Rights-of-Way.

The first change to this section appears under subsection (a) where a new item (3) was added to the required material for a right-of-way application, this item is "A map or drawing showing the approximate location of the requested right-of-way." In subsection (b) in addition to the initial filing fee required in the first proposed rules, we have added a deposit of $2 per lineal mile of right-of-way across Reclamation's land. This is to make our rules more compatible with the rules of other Federal agencies.

Subsection (c) has been added to give the granting official some leadway to reduce or eliminate the required fees when the applicant or the situation meets certain specified conditions. These conditions are:

(1) When the applicant may soon grant a reciprocal right-of-way to the United States.

(2) When the filing fee and administrative costs would exceed the value of the right granted.

(3) When the judgment of the Regional Director, the required fees, and reimbursements would place an undue financial hardship on the applicant.

(4) When the applicant provides without charge, or at a reduced charge, a valuable service to the public or to the programs of the Department.

Subsection (d) received no comments and was not revised. A new subsection (e) was added which requires the applicant to give proof of adequate financial resources to complete the project for which the right-of-way is requested. Subsections (f) and (g) were added to further clarify precisely what payments would be required before Reclamation may grant the requested right-of-way.

Section 429.7 Terms and Conditions of and for Right-of-Way.

Subsection (d) of this section was revised to clarify under what conditions and by what authority the consent of a Water Users Organization is required for Reclamation to grant a right-of-way.

Subsections (e), (f), and (g) specify certain clauses which will appear in all Reclamation right-of-way documents. Subsection (h) specifies when Secretarial approval is required for a permit to construct a powerline and when wheeling stipulations are required. These sections were added in response to several comments received on our first proposed rules.

Section 429.8 Reclamation Land Use Stipulation.

This stipulation has been modified from the original. The original stipulation required Reclamation to compensate the holder of a right-of-way for any damage to his works resulting from construction of Government facilities or works which were unforeseen at the time the right-of-way was granted. The new stipulation permits the Regional Director to select between compensation, mitigation, and the reconstruction of the grantees facilities to accommodate the Government's construction.

Section 429.9 Hold Harmless Clause.

This section has been modified to more closely reflect similar clauses contained in the rules proposed and published by other Federal agencies. An additional clause was added to cover rights-of-way utilized for high risk use and occupancy.

Section 429.10 Decisions and Appeals

This section remains unchanged.

The primary author of this document is Mr. Terence G. Cooper, Staff Assistant for Land Resources Management, O&M Policy Staff, Bureau of Reclamation, U.S. Department of the Interior, Washington, DC 20240, (202) 343–5204.

An assessment of environmental and economic impacts prepared by and on file with Reclamation has determined that this document does not contain a major proposal requiring the preparation of an environmental impact statement under the National Enviromental Policy Act of 1969, or a regultory impact analysis under Executive Order 12291.

Paperwork Reduction Act. The information collection requirements found in § 429.6 of these proposed rules have been submitted to the Office of Management and Budget for approval, as required by 44 U.S.C. 3501 et seq.

Effects on Small Entities. It has been determined that these proposed rules will have no significant economic effect on a substantial number of small entities under 5 U.S.C. 601 et seq.

List of Subjects in 43 CFR Part 429

Rights-of-way, Land.

It is proposed to amend Title 43 of the CFR by adding a new Part 429 to read as follows:

Dated: August 4, 1982.

Garrey E. Carruthers,

Assistant Secretary of the Interior, Land and Water Resources.

PART 429—PROCEDURE TO PROCESS AND RECOVER THE VALUE OF RIGHTS-OF-WAY AND ADMINISTRATIVE COSTS

Sec.

429.1 Purpose.
429.2 Definitions.
429.3 Establishment of the value of rights-of-way.
429.4 Request by other government agencies and non-profit organzations for rights-of-way.
429.5 Request by other governmental agencies for assistance.
429.6 Request by non-governmental entities for right-of-way.
429.7 Terms and conditions of and for the right-of-way.
429.8 Reclamation land-use stipulation.
429.9 Hold harmless clause.
429.10 Decisions and appeals.
429.11 Addresses.

Authority.—Title 43 U.S.C. 387, (53 Stat 1196), as amended by 64 Stat. 463, c. 752 (1950); 31 U.S.C. 483a (65 Stat. 290) (1951), Department of the Interior Manual Part 346, Chapter 1.

§ 429.1 Purpose.

The purpose of this part is to set forth procedures for the Bureau of Reclamation (Reclamation) to recover the value of rights-of-way interests granted to applicants, and for the collection of administrative costs for the issuing of rights-of-way over lands administered by Reclamation. This subsection also refers to costs incurred by Reclamation when, at the request of other agencies and parties, Reclamation gives aid and assistance in right-of-way matters.

These regulations apply to lands and interests in land under the jurisdiction of Reclamation granted to others by the Commissioner of the Bureau of Reclamation. Those interests issued or granted for the replacement or relocation of facilities belonging to others under Section 14 of the Reclamation Project Act of August 4, 1939, 43 U.S.C. Subsection 389 are excepted.

§ 429.2 Definitions.

As used in this part:

(a) *"Commissioner"* means the Commissioner of the Bureau of Reclamation or his designated representative.

(b) *"Reclamation"* means the Bureau of Reclamation.

(c) *"Regional Director"* means any one of the seven representatives of the Commissioner designated to act for the Commissioner in specified rights-of-way actions. The Regional Directors may redelegate certain of their authorities for granting rights-of-way to the supervising heads of field offices.

(d) *"Rights-of-way"* means only those easements, or agreements issued or granted by the Regional Director under the authority granted to him for the purpose of lineal crossings of Reclamation Project lands or facilities. The term "rights-of-way" does not include the leasing of land in the custody or under the control of Reclamation for grazing, agriculture, recreation, or any other purpose where a greater return will be realized by the United States through a competitive bidding process.

(e) *"Other agencies"* or *"others"* means all Federal, State, private individuals, partnerships, firms or corporations, and local governmental agencies not connected in any way with Reclamation, that request rights-of-way either directly or indirectly from Reclamation.

(f) *"Rights-of-way assistance"* means any assistance to obtain a right-of-way given upon request to another party. Such assistance includes but is not limited to work in the processing of environmental requirements, and the preparing, checking, and inspecting of engineering data and standards.

(g) *"Value of rights-of-way"* means the value of the rights, privileges, and estates granted by Reclamation for the use of land under its custody and control.

(h) *"Administrative costs"* means all direct or indirect costs incurred by Reclamation in reviewing, issuing, and processing of rights-of-way requests or the assisting of others in their rights-of-way matters, calculated in accordance with the procedures established by DM 346, chapter 1, "Cost Reimbursement Procedures for Rights-of-Way."

(i) *"Grantor"* means the Bureau of Reclamation, Department of the Interior.

(j) *"Grantee"* means the agency, firm, partnership, or individual who requested and to whom is granted the right-of-way.

(k) *"Documentation of Administrative Costs"* this documentation shall mean documentation in accordance with the provision of Part 346, Chapter 1 of the Departmental Manual as prescribed in release number 2218 of December 17, 1979.

(l) *"Secretary"* shall mean the Secretary of the Interior.

§ 429.3 Establishment of the value of rights-of-way.

(a) The value of a right-of-way shall be determined by Reclamation. The appraised value of a right-of-way shall be established by the use of a Reclamation staff or contract appraiser. The appraisal shall be based on the fair market value for the requested right or privilege.

(b) If the applicant has been or is currently using the right-of-way area without authorization and if it can be determined that the unauthorized use of Federal lands was unintentional and not due to carelessness or neglect on the part of the applicant, then the value of a right-of-way shall not include the value of any unauthorized use by the applicant of land under the custody and control of Reclamation prior to the applicant's request for a right-of-way.

(c) If the applicant's unauthorized use is determined to be intentional on his part or to be a result of his carelessness or neglect, then the value of such previous use shall become part of the right-of-way value.

§ 429.4 Request by other governmental agencies and nonprofit organizations for rights-of-way.

Rights-of-way requested by other governmental agencies and nonprofit organizations or corporations may be provided with no charge being made for the value of these rights-of-way when it is determined that the use of these rights-of-way will not interfere with the authorized current or planned use of the land by Reclamation. Other agencies and nonprofit organizations will be required to reimburse Reclamation for all administrative costs which are deemed to be excessive to normal costs for granting similar right-of-way and which are a result of the nature of the particular right-of-way request. All billings for administrative costs will be well documented. (§ 429.2 (k))

§ 429.5 Request by other governmental agencies for assistance.

The agency requesting assistance from Reclamation in acquiring a right-of-way shall be required to reimburse Reclamation for any administrative costs deemed to be in excess of the normal for the specific service or assistance (§ 429.2 (h)). Any billing for these excessive costs shall be well documented. (§ 429.2 (k))

§ 429.6 Request by non-governmental entities for rights-of-way.

The applicant for a right-of-way over land or estate in land, in the custody and control of Reclamation, must make application to the Regional Director of the region in which the land is located or to the affected field office. The addresses for the seven Regional Directors are located in § 429.11

A right-of-way will not be granted when it is determined that the proposed right-of-way will interfere with the functions of Reclamation or its ability to maintain its facilities. Only the minimum information needed to make this determination is to be collected. This information collection has been approved by the Office of Management and Budget.

(a) The application does not have to be in any particular form but must be in writing. The application must contain, but is not limited to the following items:

(1) A detailed description of the proposed use of Reclamation's lands.

(2) A legal or metes and bounds description of Reclamation's lands on which the proposed use is desired.

(3) A map or drawing showing the approximate location of the requested right-of-way.

(b) A filing fees of $100 must accompany the initial application. In addition to the $100 filing fee, a deposit of $2 for each lineal mile of requested right-of-way across Reclamation's lands will accompany the application. If, after a preliminary cursory review of the application reclamation determines the granting of a right-of-way is incompatible with present or future uses of the land and the right-of-way cannot be granted, the $2 per mile deposit will be returned. The filing fee of $100 will be retained by Reclamation regardless of its disposition of the right-of-way request. No refund will be made for any deposits if the applicant refuses to accept the right-of-way after it is prepared and offered. Applicants will be required to pay any administrative costs which are in excess of the $2 per mile deposit for the preparation of rights-of-way as well as the value of the right granted. This shall apply equally to rights-of-way which are offered by Reclamation and are rejected by the applicant, as to those which the applicants accepts. Any billing for administrative costs shall be well documented. (See § 429.2 (k)). At the discretion of the Regional Director, applications made by other Federal agencies need not be accompanied by either of the above fees.

(c) All fees and costs may be waived or reduced at the discretion of the Regional Director, when:

(1) It is determined that the applicant for the right-of-way will soon be, or is in the position of granting a right-of-way to the United States, and an opportunity for a reciprocal agreement exists.

(2) The filing fee and the administrative costs would exceed the value of the interests and rights to be granted.

(3) In the opinion of the Regional Director, to charge administrative fees and fair market value would work an undue hardship on the applicant. This decision should be well documented.

(4) The holder provides without charges, or at a reduced charge, a valuable service to the public or to the programs of the Department of the Interior.

(d) The applicant also must furnish, or agree to furnish, the following before Reclamation grants a right-of-way:

(1) A legal land description and/or a plat of the requested right-of-way. The description and plat should relate to Reclamation's land boundaries.

(2) Detailed construction details, construction specifications, engineering drawings, power flow diagrams, one-line diagram, and any other plans and specification which may be applicable.

(3) Statements, reports, or other documents prepared by the applicant which will be used by Reclamation to satisfy the requirements of the National Environmental Policy Act (42 U.S.C. 4321–4347).

(4) Proof of compliance with cultural resource policies prescribed in Executive Order 11593, and CFR, Title 43, Part 422.

(e) Sufficient evidence will be required to satisfy the Regional Director that the applicant has, or prior to commencing construction will have, sufficient technical and financial resources to construct, operate, maintain, and terminate the project for which the right-of-way is requested.

(f) The applicant shall pay all additional administrative costs which Reclamation incurs in addition to the initial filing fee of $100 and the $2 per mile fee required by § 429.6(a)(2) prior to the issuance of the right-of-way. All billing for administrative costs shall be well documented by Reclamation.

(g) The applicant shall also pay Reclamation a fair market value of the right and privilege granted for the use of Reclamation's lands prior to the issuance of the right-of-way. This value shall be determined by an appraisal made as prescribed in § 429.3 of this regulation. Those applicants meeting the provision of § 429.4 may be excepted from this provision. The decision to grant an exemption under § 429.4 will have the justification well documented.

§ 429.7 Terms and conditions of and for the right-of-way.

(a) The right-of-way granting document shall contain such special conditions or requirements as may be necessary to protect the interest of the United States.

(b) Rights-of-way shall be granted only to individuals who are citizens of the United States, or to firms or corporations licensed to do business in the United States, and to Federal, State, or local governmental, and quasi-governmental entities.

(c) No right-of-way shall be granted any person or corporation while any debt is known to be due the United States.

(d) Any grant of a right-of-way for a term of 25 years or longer must have the consent of any involved water user organization pursuant to the legal requirements of 43 U.S.C. 387. Approval of grants for less than a 25-year period may be requested of the water users organization at the discretion of the responsible Regional Director. As a minimum, the water user's organization should be given the opportunity to review the right-of-way application prior to its being granted.

(e) Reclamation land-use stipulation appearing in § 429.8 shall be included in all permanent rights-of-way granted, excepting grants to other Federal agencies.

(f) Temporary right-of-way grants, shall contain a termination clause in the event the applicant use become, or may become, an interference with the Reclamation's use of the land.

(g) Except for grants of right-of-way to Federal agencies, the grant shall contain a hold harmless clause found in § 429.9.

(h) Permits to construct power transmission lines in excess of 100 kilovolt (kV) must have prior approval of the Secretary and shall be secured by the applicant prior to requesting a rights-of-way for such line. Rights-of-way grants for power transmission lines in excess of 66 kV must also contain a wheeling stipulation as prescribed in 43 CFR 2805.1 (c).

§ 429.8 Reclamation land-use stipulation.

There is reserved from the rights herein granted, the prior rights of the United States acting through the Bureau of Reclamation, Department of the Interior, to construct, operate, and maintain public works now or hereafter authorized by the Congress without liability for severence or other damage to grantee's work; provided, however, that if such reserved rights are not identified in the grant and exercised for works authorized by the Congress within 5 years following the date of this grant, they will not be exercised unless grantee, or grantee's successor in interest is, notified of the need for, and grants an extension. If no extension is granted, the Government will compensate, or institute mitigation measures for any resultant damages to works placed on said lands pursuant to the rights herein granted. Compensation shall be in the amount of the cost of reconstruction of grantee's works to accommodate the exercise of the Government's reserved rights. As alternatives to such compensation the United States at its option and at its own expense may mitigate the damages by reconstructing the grantee's works to accommodate the Government facilities, or may provide other adequate mitigation measures for any damage to the grantee's property or right. The decision to compensate or mitigate is that of the appropriate Regional Director.

§ 429.9 Hold harmless clause.

The following clause shall be a part of every land use document issued by Reclamation:

> The grantee hereby agrees to indemnify and hold harmless the United States, its employees, agents, and assigns from any loss or damage and from any liability on account of personal injury, property damage, or claims for personal injury or death arising out of the grantee's activities under this agreement. In addition to the above clause, the holders of rights-of-way for high risk use and occupancy, such as, but not limited to, powerlines and oil and gas pipelines, shall be held liable for all injury, loss, or damage, including fire suppression costs, caused by the holder's use or occupancy without regard to the holder's negligence, provided that the maximum liability shall be specified in the special use authorization, but shall not exceed $1 million for any one occurrence. Liability for injury, loss, or damage, including fire suppression costs, in excess of the specified maximum shall be determined by the laws governing ordinary negligence of the jurisdiction in which the damage or injury occurred.

§ 429.10 Decisions and appeals.

(a) The Regional Director, acting as designee of the Secretary through the Commissioner, shall make the determinations required under these rules and regulations. A party directly affected by such determinations may appeal in writing to the Commissioner, Bureau of Reclamation, within 30 days of receipt of the Regional Director's determination. The affected party shall have an additional 30 days thereafter within which to submit a supporting brief memorandum to the Commissioner. The Regional Director's determination

will be held in abeyance until the Commissioner has reviewed the matter and rendered a decision.

(b) Any party to a case adversely affected by final decision of the Commissioner of the Bureau of Reclamation under this part shall have a right of appeal to the Director, Office of Hearings and Appeals, Office of the Secretary, in accordance with the procedures in Title 43, CFR, Part 4, Subpart G.

§ 429.11 Addresses.

BILLING CODE 4310-09-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[BC Docket No. 82-640; RM-4148]

FM Broadcast Station in Prineville, Oregon; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to substitute Channel 236 for Channel 237A at Prineville, Oregon, and to modify Station KIJK(FM)'s license to specify operation on Channel 236 in response to a petition filed by High Lakes Broadcasting Company.

DATES: Comments must be filed on or before November 4, 1982, and reply comments must be filed on or before November 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: D. David Weston, Broadcast Bureau (202) 632-7792.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR 73 Affected

Radio broadcasting.

Adopted: September 9, 1982.

Released: September 20, 1982.

In the matter of Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Prineville, Oregon) BC Docket No. 82-640, RM-4148; Notice of Proposed Rule Making:

1. A petition for rule making was filed on June 28, 1982, by High Lakes Broadcasting Company ("petitioner"), proposing to substitute Class C FM Channel 236 for Channel 237A at Prineville, Oregon, and to modify the license of Station KIJK(FM) at Prineville to specify operation on Channel 236.

2. Prineville, seat of Crook County, is presently served by one daytime-only AM station (KRCO) and one FM station (KIJK), both licensed to petitioner. Petitioner presently operates Station KIJK(FM) on Channel 237A and if Channel 236 is assigned, proposes to expeditiously upgrade its facilities and modify its license to specify operation on Channel 236. Petitioner has also submitted information with respect to the Prineville community and its needs for the proposed Class C operation. However, in view of the action taken in *Revision of FM assignment Policies and Procedures*, BC Docket No. 80-130, 90 F.C.C. 2d 88 (1982), the information is no longer relevant in this type of rule making proceeding.

3. Petitioner has also requested a waiver of § 73.207(a) in order to allow the use of Channel 236 at its present transmitter site. That site would be short-spaced approximately 4 miles to the assignment of Class C FM Channel 289 at Bend, Oregon, for which an application is pending. Petitioner has not set forth any public interest reasons for the waiver. However, the issue need not be resolved here. The channel can be assigned in compliance with the minimum distance separation requirements with a site restriction of 6.6 miles southeast of Prineville due to Station KIOK(FM) in Richland, Washington, and to the proposed site for Channel 289 at Bend. The issue of waiver of the mileage separation requirements to permit a 4-mile short spacing can be determined at the application stage. With this approach in mind, petitioner should indicate whether it is still interested in the assignment of Channel 236 with the site restriction of 6.6 miles.

4. We propose, therefore, to substitute Channel 236 for Channel 237A at Prineville and, in accordance with established policy, we propose to modify the license of Station KIJK(FM) (Channel 237A) to specify operation on Channel 236. However, an opportunity for other parties to state their interest in Channel 236 is given in comments herein. Only in the absence of another interest could the modification take place. *See, Cheyenne, Wyoming*, 62 F.C.C. 2d 63 (1976).

5. In view of the above, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Rules, as it pertains to Prineville, Oregon, as follows:

City	Channel No.	
	Present	Proposed
Prineville, Oregon	237A	236

6. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

7. Interested parties may file comments on or before November 4, 1982, and reply comments on or before November 19, 1982, and are advised to read the Appendix for the proper procedures.

8. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

9. For further information concerning this proceeding, contact D. David Weston, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a

message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment to which the reply is directed constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Broadcast Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.281(b)(6) and 0.204(b) of the Commission's Rules, it is proposed to amend the FM Table of Assignments, Section 73.202(b) of the Commission's Rules and Regulations, as set forth in the notice of proposed rule making to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the notice of proposed rule making to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

Notices

Federal Register
Vol. 47, No. 191
Friday, October 1, 1982

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

Committee on Governmental Processes; Public Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92–463), notice is hereby given of a meeting of the Committee on Government Processes of the Administrative Conference of the United States, to be held at 1:30 P.M. on Tuesday, October 12, 1982, at the Administrative Conference Library, 2120 L Street, NW., Suite 500, Washington, D.C.

The Committee will meet to discuss two projects: Professor Michael Cox's study of regulation of attorneys practicing before federal agencies, and Professor Teresa Schwartz's study of the Consumer Product Safety Commission.

Attendance is open to the interested public, but limited to the space available. Persons wishing to attend should notify the Office of the Chairman of the Administrative Conference at least two days in advance. The Committee Chairman, if he deems it appropriate, may permit members of the public to present oral statements at the meeting; any member of the public may file a written statement with the Committee before, during or after the meeting.

For further information concerning this meeting contact David M. Pritzker, Office of the Chairman, Administrative Conference of the United States, 2120 L Street, NW., Suite 500, Washington, D.C. 20037. (Telephone: 202–254–7065.) Minutes of the meeting will be available on request.

Richard K. Berg,
General Counsel.
September 28, 1982.

BILLING CODE 6110-01-M

DEPARTMENT OF AGRICULTURE

Rural Electrification Administration

Lumbee River Electric Membership Corp.; Finding of No Significant Impact

AGENCY: Rural Electrification Administration, USDA.

ACTION: Notice of finding of no significant impact.

SUMMARY: Notice is hereby given that the Rural Electrification Administration (REA), pursuant to the National Environmental Policy Act of 1969, the Council on Environmental Quality Guidelines (40 CFR Part 1500), and REA Bulletin 20–21:320–21, Environmental Policies and Procedures, has made a Finding of No Significant Impact with respect to proposed financing assistance to Lumbee River Electric Membership Corporation (Lumbee River EMC), Red Springs, North Carolina, for the construction of 115 kV transmission facilities in Hoke and Robeson Counties, North Carolina.

FOR FURTHER INFORMATION CONTACT: REA's Finding of No Significant Impact and Environmental Assessment and Lumbee River EMC's Borrower's Environmental Report (BER) may be reviewed in the Office of the Director, Distribution Systems Division, Room 3304, South Agriculture Building, Rural Electrification Administration, Washington, D.C. 20250, telephone (202) 382–8848, or at the office of Lumbee River Electric Membership Corporation (Mr Derl Hinson, Manager), P.O. Box 830, Red Springs, North Carolina 28377, telephone (919) 843–4131, during regular business hours.

SUPPLEMENTARY INFORMATION: REA, in connection with a request for assistance for financing from Lumbee River EMC, has reviewed the BER submitted by Lumbee River EMC and has determined that it represents an accurate assessment of the environmental impact of the proposed project. The proposed project consists of a 26.4 km (16.5 mi) 115 kV transmission line in Hoke County, a 10.4 km (6.5 mi) 115 kV transmission line in Robeson County, a 25–7.2/12.5 kV substation in Robeson County, two 115–7.2/12.5 kV substations in Hoke County, two 115–7.2/12.5 kV substation in Robeson County, a 115 kV switching station in Hoke County, and a 115 kV switching station in Robeson County. Based on the BER, Lumbee River EMC's 1981–1982 Annual Work Plan and maps, REA prepared an Environmental Assessment concerning the proposed project and its impacts. REA concluded that the proposed financing assistance would not be a major Federal action significantly affecting the quality of the human environment.

The BER and EA adequately consider potential impacts of the proposed project on resources, including threatened and endangered species, important farmlands, cultural resources, wetlands and floodplains. The two transmission lines will cross approximately .46 km (.28 mi) of wetland and approximately 8.6 km (5.4 mi) of floodplain. Approximately 8.6 km (5.4 mi) of prime farmland will be crossed by the proposed project, however, there will be no significant effect as less than 0.4 ha (1 ac) will actually be removed from production due to pole placement and much of this land is already dedicated to nonagricultural uses. Collectively, the environmental effects will be minimal.

Several alternatives were evaluated including taking no action, instituting additonal conservation measures, alternate sources of power generation in lieu of building the proposed Surlock to Quewhiffle transmission line including interconnection into the existing Rockfish or Wayside Substations in Hoke County, interconnection into a public utility transmission line near Aberdeen in Hoke County, construction of a new substation near the Bowmore areas in Hoke County, alternate sources of power generation in lieu of building the proposed Pembroke to Union transmission line including a more direct, but environmentally less favorable route between both substations in Robeson County, interconnection into the Laurenburg and Lumberton Substations in Robeson County, and interconnection into the Rowland Substation in Robeson County. Shifting the load on the Fairmont Metering Point to the McDonald or Hog Swamp Substations in Robeson County was considered in lieu of building the proposed Marietta and Rennert Substations. After reviewing these alternatives, REA has determined that the proposed project is the preferred alternative because it meets Lumbee

River EMC's needs with a minimum of adverse impacts.

This program is listed in the Catalog of Federal Domestic Assistance as 10.850—Rural Electrification Loans and Loan Guarantees.

Dated: September 23, 1982.

Jack Van Mark,

Acting Administrator.

BILLING CODE 3410-15-M

Soil Conservation Service

Eastanollee Creek Critical Area Treatment RC&D Measure, Georgia; Finding of No Significant Impact

AGENCY: Soil Conservation Service, USDA.

ACTION: Notice of a finding of no significant impact.

SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Eastanollee Creek Critical Area Treatment Measure, Stephens County, Georgia.

FOR FUTHER INFORMATION CONTRACE: Dwight M. Treadway, State Conservationist, Soil Conservation Service, 355 East Hancock Avenue (P.O. Box 832), Athens Georgia 30613 telephone: 404–546–2273.

SUPPLEMENTARY INFORMATION: A Notice of A Finding of No Significant Impact for this measure was published in the **Federal Register**, Vol. 47, No. 108, Friday, June 4, 1982. This notice corrects location of the measure from Camden County, Georgia to Stephens County, Georgia, and more explicitly describes the proposal

The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Dwight M. Treadway, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The objective of the sponsors is to stabilize sediment producing areas along Eastanollee Creek. The planned works of improvement consist of streambank stabilization with 9,674 linear feet of rock, and 8,286 linear feet of tire mats and associated vegetation.

The finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental evaluation are on file and may be reviewed by contacting Dwight M. Treadway.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register.**

(Catalog of Federal Domestic Assistance Program No. 10.901, Resource Conservation and Development Program. Office of Management and Budget Circular A–95 regarding State and local clearinghouse review of Federal and federally assisted programs and projects is applicable)

Dated: September 21, 1982.

Donald K. Stewart,

Assistant State Conservationist for Water Resources.

BILLING CODE 3410-16-M

Riverside-Black Bayou Watershed, Mississippi; Intent to Prepare an Environmental Impact Statement

AGENCY: Soil Conservation Service, USDA.

ACTION: Notice of Intent to Prepare an Environmental Impact Statement.

SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is being prepared for the Riverside-Black Bayou Watershed, Bolivar and Washington Counties, Mississippi.

FOR FURTHER INFORMATION CONTACT: Billy C. Griffin, State Conservationist, Soil Conservation Service, Suite 1321, Federal Building, 100 West Capitol Street, Jackson, Mississippi 39269, telephone (601) 960–5205.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project may cause significant local, regional, or national impacts on the environment. As a result of these findings, Billy C. Griffin, State Conservationist, has determined that the preparation and review of an environmental impact statement are needed for this project.

The project concerns a plan for watershed protection, flood prevention and drainage. Alternatives under consideration to reach these objectives include systems for conservation land treatment, nonstructural measures, and channel improvement.

A draft environmental impact statement will be prepared and circulated for review by agencies and the public. The Soil Conservation Service invites participation and consultation of agencies and individuals that have special expertise, legal jurisdiction, or interest in the preparation of the draft environmental impact statement. Further information on the proposed action, or the scoping meeting may be obtained from Billy C. Griffin, State Conservationist, at the above address or telephone 601–960–5205.

Dated: September 22, 1982.

Billy C. Griffin,

State Conservationist.

BILLING CODE 3410-16-M

CIVIL AERONAUTICS BOARD

[Docket 40825]

Aeroamerica, Inc., A. Joel Eisenberg, Enforcement Proceeding; Postponement of Prehearing Conference

On September 24, 1982, the Enforcement Division of the Office of General Counsel requested that the prehearing conference scheduled to be held on September 28, 1982 be postponed for two weeks. In support of its request, the Enforcement Division states that settlement negotiations are taking place and a postponement of the prehearing conference could facilitate these negotiations. The Enforcement

Division also stated that Aeroamerica has no objection to the postponment.

Accordingly, Notice is hereby given that the prehearing conference in the above-entitled matter scheduled to be held on September 28, 1982 (47 FR 38709, September 1, 1982) is hereby postponed until October 13, 1982, at 10:00 a.m. (local time), in Room 1012, 1825 Connecticut Avenue, NW., Washington, D.C. 20428, before the undersigned administrative law judge.

Dated at Washington, D.C., September 27, 1982.

John M. Vittone,

Administrative Law Judge.

Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits

Permits filed under subpart Q of the Board's Procedural Regulations (see, 14 CFR 302.1701 et seq.) week ended September 24, 1982.

Subpart Q Applications

The due date for answers, conforming application, or motions to modify scope are set forth below for each application. Following the answer period the Board may process the application by expedited procedures. Such procedures may consist of the adoption of a show-cause order, a tentative order, or in appropriate cases a final order without further proceedings.

Date filed	Docket No.	Description
September 23, 1982	41004	All Nippon Airways Co., Ltd., c/o Jarrold Scoutt, Jr., Zuckert, Scoutt, Rasenberger & Delaney, 888 17th Street, N.W. Washington, D.C. 20006. Application of All Nippon Airways Co., Ltd., pursuant to Section 402 of the Act and Subpart Q of the Board's Procedural Regulations requests a foreign air carrier permit to engage in charter foreign air transportation of persons, property and mail: Between any point or points in Japan and any point or points in the United States, and between any point or points in the United States and any point or points not in the United States or Japan, including intermediate and beyond points. Answers may be filed by October 21, 1982.
September 24, 1982	41007	Air National Aircraft Sales and Service, Inc., c/o James M. Burger, Shaw, Pittman, Pots & Trowbridge, 1800 M Street, N.W. Washington, D.C. 20036. Application of Air National Aircraft Sales and Service, Inc. pursuant to Section 401 of the Act and Subpart Q of the Board's procedural Regulations requests a certificate of public convenience and necessity to provide interstate and overseas scheduled air transportation and for a fitness determination. Conforming Applications, motion to modify scope, and Answers may be filed by October 22, 1982.
September 23, 1982	39477	Jugoslovenski Aerotransport, c/o Bruce L. McDonald, Kirkland & Ellis, 1776 K Street, N.W., Washington, D.C. 20006. Amendment No. 1 to the Application of Jugoslovenski Aerotransport for renewal of foreign air carrier permits authorizing JAT to engage in scheduled and charter foreign air transportation. Answers may be filed by October 21, 1982.

Phyllis T. Kaylor,

Secretary.

[Docket 40813]

Firstair Corp. Fitness Investigation; Postponement of Hearing

During the prehearing conference held on this proceeding on September 20, 1982, the applicant was directed to submit certain information by the Bureau of Domestic Aviation (BDA) on September 21, 1982, and other information requested by the undersigned on September 24, 1982. The applicant submitted the information requested by BDA on schedule, but informed the undersigned that it requires approximately 10 additional days to provide the remaining information. The applicant requests that this extension be granted and requests that the hearing, currently scheduled for October 6, 1982, be postponed to allow both BDA and the undersigned time to review the information once it is submitted. The applicant also states that BDA has no objections to this procedure.

Accordingly, notice is hereby given that the hearing in the above-entitled matter scheduled to be held on October 6, 1982, is hereby postponed until further notice.

Dated at Washington, D.C., September 28, 1982.

John M. Virtone,

Administrative Law Judge.

DEPARTMENT OF COMMERCE

Bureau of Census

Estimates of Cubans and Haitians Who Entered the United States Between April 1, 1980 and October 1, 1980

Executive Order 12256 directs the Bureau of the Census to provide estimates of the number and population characteristics of those Cuban and Haitian immigrants covered by the order. Estimates of the number of such immigrants have been published in the **Federal Register** (June 24, 1981 and May 3, 1982). However, a number of federal programs require the use of characteristics such as per capita income or the number of children 5 to 17 years of age in poor families. Although some demographic infomation was collected from Cuban and Haitian refugees at the time of their arrival, no questions were asked about their income or family relationship.

If we define the income of Cuban and Haitian immigrants to be consistent with the concept used in the 1980 census, then the relevant figure would be their 1979 income. It is impossible to collect such data at this time because of the difficulty of locating everyone covered by the order and because of the long recall period. Given the absence of data, the best estimate of the 1979 income of this group is probably the 1979 per capita income of their countries of origin. Accordingly, we are designating a 1979 per capita income of $1,410 for Cuban refugees and $230 for Haitian refugees.[1] The application of these per capita figures to the population of Cuban and Haitian immigrants, for varying family size categories indicates that all Cuban and Haitian immigrants

[1] World Bank, *World Bank Atlas, Gross National Product, Population, and Growth Rates*, 1980 and 1981.

were living in households with incomes below the 1979 poverty thresholds.

On the other hand, for the purpose of this order, one may want an indication of these refugees' poverty status shortly after they came to the United States. To make this assessment, the Census Bureau procured a special tabulation of these refugees in the Food Stamp program from the State of Florida. About three-fourths of all Cuban and Haitian legal immigrants covered by the executive order reside in Florida. For the months of January and February 1981, the data indicate that virtually all Cuban and Haitian refugee households in Florida were participating in the Food Stamp program and that approximately 98 percent of them were below the 1981 poverty thresholds when adjusted to a monthly accounting period.

Given the above data and analysis, it is reasonable to conclude for the purpose of this executive order that all Cuban and Haitian immigrants covered by the order were in poverty.

Below is a table showing the estimated total number of Cuban and Haitian immigrants covered by the executive order and immigrant children by state and county.

ESTIMATES OF CUBAN AND HAITIAN ENTRANTS AND LEGAL IMMIGRANTS WHO ENTERED THE UNITED STATES BETWEEN APRIL 1, 1980 AND SEPTEMBER 30, 1980, ALL AGES AND CHILDREN, BY STATE AND COUNTY

BILLING CODE 3510-07-M

INTERNATIONAL TRADE ADMINISTRATION

Articles of Quota Cheese; Quarterly Determination and Listing of Foreign Government Subsidies

AGENCY: International Trade Administration, Commerce.

ACTION: Quarterly Update of Foreign Government Subsidies on Articles of Quota Cheese.

SUMMARY: The Department of Commerce, in consultation with the Secretary of Agriculture, has prepared a quarterly update to our annual list of foreign government subsidies on articles of quota cheese. We are publishing the current listing of those subsidies that we have determined exist.

EFFECTIVE DATE: October 1, 1982.

FOR FURTHER INFORMATION CONTACT: Susan E. Silver or Patricia W. Stroup, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230, (202) 377–2786.

SUPPLEMENTARY INFORMATION: Section 702(a) of the Trade Agreements Act of 1979 (19 U.S.C. 1202 note) ("the TAA") requires the Department of Commerce ("the Department") to determine, in consultation with the Secretary of Agriculture, whether any foreign government is providing a subsidy with respect to any article of quota cheese, as defined in section 701(c)(1) of the TAA, and to publish an annual list and quarterly updates of the type and amount of those subsidies.

The Department has developed, in consultation with the Department of

Agriculture, information on subsidies (as defined in section 702(h)(2) of the TAA) being provided either directly or indirectly by foreign governments on articles of quota cheese.

In the current quarter the Department has determined that the subsidy amounts have changed for each of the countries for which programs were identified in the July 1, 1982, quarterly update to our annual subsidy list. The appendix to this notice lists the country, the subsidy program or programs, and the gross and net amount of each subsidy on which information is currently available.

The Department will incorporate additional programs which are found to constitute subsidies, and additional information on the subsidy programs listed, as the information is developed.

The Department encourages any person having information on foreign government subsidy programs which benefit articles of quota cheese to submit such information in writing to the Deputy Assistant Secretary for Import Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, D.C. 20230.

This determination and notice are in accordance with section 702(a) of the TAA (19 U.S.C. 1202 note).

Gary N. Horlick,

Deputy Assistant Secretary for Import Administration.

September 27, 1982.

APPENDIX—QUOTA CHEESE SUBSIDY PROGRAMS

Country and program(s)	Gross subsidy (cents per pound) [1]	Net subsidy (cents per pound) [2]
Belgium: European Community (EC) restitution payments	5.8	5.8
Canada:		
Export assistance on Swiss cheese	19.8	19.8
Export assistance on cheddar cheese	39.1	39.1
Export assistance on mozzarella NSPF cheese	35.3	35.3
Export assistance on all other NSPF cheeses	15.6	15.6
Denmark: EC restitution payments	4.4	4.4
Finland:		
Export subsidy	115.1	115.1
Indirect subsidies	18.9	18.9
Total, Finland	134.0	134.0
France: EC restitution payments	4.9	4.9
Ireland: EC restitution payments	6.3	6.3
Italy: EC restitution payments	18.5	18.5
Luxembourg: EC restitution payments	5.8	5.8
Netherlands: EC restitution payments	1.8	1.8
Norway:		
Indirect (milk) subsidy	20.1	20.1
Consumer subsidy	44.9	44.9
Total, Norway	65.0	65.0
Portugal: Direct subsidy on all sales of gouda cheese	17.1	17.1
Switzerland: Deficiency payments	78.4	78.4
U.K.: EC restitution payments	4.3	4.3

APPENDIX—QUOTA CHEESE SUBSIDY PROGRAMS—Continued

Country and program(s)	Gross subsidy (cents per pound) [1]	Net subsidy (cents per pound) [2]
W. Germany: EC restitution payments	5.6	5.6

National Oceanic and Atmospheric Administration

Caribbean Fishery Management Council and its Administrative Subcommittee; Public Meetings

AGENCY: National Marine Fisheries Service, NOAA.

SUMMARY: The Caribbean Fishery Management Council, established by section 302 of the Magnuson Fishery Conservation and Management Act (Pub. L. 94–265), has established an Administrative Subcommittee. The Council and its Administrative Subcommittee will hold separate meetings. The Council will hold its 43rd regular public meeting to consider status reports on fishery management plans (FMPs) under development (draft FMP for Coastal Pelagics Resources; draft FMP for the Fishery Resources of the Puerto Rican and St. Croix Geological Platforms), and discuss other Council matters. The Administrative Subcommittee will meet to consider matters related to the Council's budget and to discuss regular administrative operations.

DATES: The Council's public meeting will convene on Wednesday, November 17, 1982, at approximately 1:30 p.m., adjourn at approximately 5 p.m.; reconene on Thursday, November 18, 1982, at approximately 9 a.m.; adjourn at approximately noon. The Council's Administrative Subcommittee public meeting will also convene on Wednesday, November 17, 1982, at approximately 10:30 a.m.; adjourn at approximately noon. All meetings will take place at the Conference Room of the Hotel Pierre, 105 de Diego Avenue, Santurce, Puerto Rico.

FURTHER INFORMATION: Caribbean Fishery Management Council, Suite 1108, Banco de Ponce Building, Hato Rey, Puerto Rico 00198, Telephone: (809) 753–4926.

Dated: September 28, 1982.

Jack L. Falls,

Chief, Administrative Support Staff, National Marine Fisheries Service.

BILLING CODE 3810–01–M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. QF82–208–001]

American Lignite Products Co., Notice of Application for Commission Certification of Qualifying Status of a Small Power Production Facility

September 27, 1982.

On August 18, 1982, American Lignite Products Co., (Applicant), P.O. Box 1066, Ione, California 95640, filed with the Federal Energy Regulatory Commission (Commission) an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's rules.

The proposed steam turbine small power production facility will be located in Ione, Amador County, California. The net electric power production capacity of the facility will be between 12.8 and 14.3 megawatts. The primary energy source of the facility will be a high ash lignite residue which remains after a wax extraction operation. One third of the fuel requirements of the facility will be supplied by recovering low or non-wax lignites that occur in the Ione geologic formation in conjunction with wax bearing lignite. Applicant maintains that these fuels should be considered "waste" under § 292.202(b) of the Commission rules pursuant to sections 201 and 210 of the Public Utility Regulatory Policies Act. No electric utility, electric utility holding company or any combination thereof has any ownership interest in the facility.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with rules 211 and

214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. QF82-208-000]

American Lignite Products Co.; Notice of Application for Commission Certification of Qualifying Status of a Cogeneration Facility

September 27, 1982.

On August 18, 1982, American Lignite Products Co., (Applicant), P.O. Box 1066, Ione, California 95640, filed with the Federal Energy Regulatory Commission (Commission) an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's rules.

The proposed topping-cycle cogeneration facility employing an extraction steam turbine will be located in Ione, Amador County, California. The primary energy source to the facility will be high ash lignite, a byproduct of wax production. The net electric power production capacity of the facility will be between 12.8 and 14.3 megawatts. Low pressure steam will be provided for process use. Installation of the facility is scheduled to begin in December 1982. No electric utility, electric utility holding company or any combination thereof has any ownership interest in the facility. (Applicant has also filed an application for certification of the facility as a qualifying small power production facility, under Docket No. QF82-208-001).

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP82-536-000]

Columbia Gas Transmission Corp.; Notice of Application

September 27, 1982.

Take notice that on September 17, 1982, Columbia Gas Transmission Corporation (Applicant), P.O. Box 1273, Charleston, West Virginia 25325, filed in Docket No. CP82-536-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction of 58 interconnecting tap facilities to provide additional points of delivery to existing wholesale customers, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes the following new points of delivery for the following wholesale customers:

(1) Columbia Gas of Kentucky, Inc., 5 taps for residential service—Estimated annual usage of 750 Mcf.

(2) Columbia Gas of Maryland, Inc., 1 tap for residential service—Estimated annual usage of 150 Mcf.

(3) Columbia Gas of Ohio, Inc., 29 taps for residential service, 2 taps for commercial service—Estimated annual usage of 4,763 Mcf.

(4) Columbia Gas of Pennsylvania, Inc., 2 taps for residential service—Estimated annual usage of 4,650 Mcf.

(5) Columbia Gas of Virginia, Inc., 2 taps for residential service—Estimated annual usage of 300 Mcf.

(6) Columbia Gas of West Virginia, Inc., 13 taps for residential service, 1 tap for commercial service—Estimated annual usage of 15,844 Mcf.

(7) The Dayton Power and Light Company, 1 tap for residential service—Estimated annual usage of 220 Mcf.

(8) West Ohio Gas Company, 1 tap for residential service—Estimated annual usage of 140 Mcf.

(9) Union Light, Heat & Power Company, 1 tap for residential service—Estimated annual usage of 600 Mcf.

Applicant estimates that the total cost of the interconnections proposed herein is $17,490 to be financed through internally generated funds.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 19, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 82-27034 Filed 9-30-82; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP82-521-000]

El Paso Natural Gas Co.; Notice of Application

September 27, 1982.

Take notice that on September 2, 1982, El Paso Natural Gas Company (Applicant), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP82-521-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a new meter station and the relocation and modification of

an existing meter station, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The stated purpose of Applicant's proposal is to permit the delivery of natural gas for resale and direct sale to Arizona Public Service Company (APS) in Maricopa County, Arizona. Applicant contends that the relocation and modification and the construction and operation of the meter station facilities proposed herein would permit the relocation, for safety reasons, of an existing meter station which is presently situated under high power electrical transmission lines, the modification of its meter station after relocation to allow for increased deliveries of natural gas to APS in order to accommodate projected growth, and the construction and operation of a meter station located immediately adjacent to the proposed relocation site in order to accommodate increased deliveries of natural gas that APS would require upon completion of modifications to three generating units located at its West Phoenix Power Plant.

APS asserts it has advised Applicant of significant increases expected in its residential resale and new power plant direct sale requirements. On a peak hour basis in 1983, the requirements related to the increase in high-priority load are estimated to range from 700 Mcf to 3,400 Mcf. The design capacity of the existing meter station is said to be 3,375 Mcf at current delivery pressure. Furthermore, the power plant peak hour requirements are estimated to range from 5,474 Mcf to 2,400 Mcf by 1983. It is further stated that due to the increase in the number of residential customers, combined with an increase in their natural gas requirements, Applicant would otherwise experience difficulties in satifying its customers.

Applicant projects the aggregate annual deliveries of natural gas to be 9,103,727 Mcf, 10,969,359 Mcf, and 11,252,153 Mcf in 1983, 1984, and 1985, respectively. In order to meet projected demands Applicant seeks to upgrade the existing meter station facility proposed to be relocated and modified and to construct a new meter station facility. Applicant estimates the total cost to be $461,949. Applicant states that the cost of the facilities proposed would be financed through the use of internally generated funds.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 19, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-818-000]

Florida Power & Light Co.; Notice of Filing

September 27, 1982.

The filing Company submits the following:

Take notice that Florida Power & Light Company (FPL), on September 21, 1982, tendered for filing documents entitled Amendment Number Three to Agreement to Provide Specified Transmission Service Between FPL and Sebring Utilities Commission.

Amendment Number Three updates the rates for transmission service provided by FPL, bringing them in accord with the increased rates filed by the Commission on July 1, 1981, in *Florida Power & Light Company*, Docket No. ER81-566-000.

FPL requests waiver of the Commission's notice requirements and that the proposed Amendment be made effective immediately.

Copies of this filing have been served upon Sebring Utilities Commission.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR §§ 385.211, 385.214). All such motions or protests should be filed on or before October 13, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP82-511-000]

Kansas-Nebraska Natural Gas Company, Inc.; Notice of Application

September 27, 1982.

Take notice that on August 25, 1982, Kansas-Nebraska Natural Gas Company, Inc. (Applicant), P.O. Box 15265, Lakewood, Colorado 80215, filed in Docket No. CP82-511-000 an application pursuant to Section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing construction necessary to upgrade certain town border stations and for permission and approval to abandon existing meters at those town border stations located in Balden, St. Edwards, and Trumbull, Nebraska, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The stated purpose of upgrading the town border stations is to enable Applicant to meet the requests from distribution customers served by Applicant in the above mentioned towns for additional gas for use in commercial grain dryers. At Balden, Nebraska, Applicant proposes to replace the existing meter with a meter having a capacity of 40.6 Mcf per hour at a new cost of approximately $2,500. At St. Edwards, Nebraska, Applicant proposes to replace the existing meter with a new meter having a capacity of 55.6 Mcf per hour at a net cost of approximately $2,200. At Trumbull, Nebraska, the upgrading would consist of providing two new meters with a capacity of 88.7

Mcf per hour at a cost of approximately $4,400 to replace two existing meters.

Applicant submits that the combined total annual retail sales represented by the requests for additional service in the above noted towns is expected to be approximately 30,000 Mcf. The total cost of the upgrading would be approximately $9,100. Applicant asserts that it would finance the proposed facilities with cash on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 19, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 82-27037 Filed 9-30-82; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP82-500-000]

Northern Natural Gas Company, Division of InterNorth, Inc.; Notice of Application

September 27, 1982.

Take notice that on August 19, 1982, Northern Natural Gas Company, Division of InterNorth, Inc. (Applicant), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP82-500-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to realign volumes of firm entitlement at the request of certain of its market area utility customers, construct and operate facilities to accommodate the deliveries of these volumes, and make increased sales to certain of its South End area customers, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

In accordance with Section 17.5 of Applicant's FERC Gas Tariff, Third Revised Volume No. 1, Applicant proposes to realign 9,635 Mcf of natural gas per day of its market area system firm entitlement and provide an increase in entitlements to its South End customers. Applicant asserts that the proposed realignment would result in a 9,635 Mcf per day increase of winter period service, offset by decreases of 4,744 Mcf per day of contract demand, 2,978 Mcf per day of seasonal service and 1,913 Mcf per day of peaking service volumes. In addition to the realignment among market area customers, Applicant also requests authority on behalf of two of its utility customers to make certain realignments within each of their authorized firm entitlements.

In addition, Applicant proposes to increase the peak day entitlements of its South End customers by 5,001 Mcf per day and to increase annual entitlements by 1,503,000 Mcf. More specifically, the South End area customers, High Plains Natural Gas Co., Westar Transmission Co., and Southern Union Gas Co., have requested increases in contract demand of 4,500 Mcf per day, 300 Mcf per day and 201 Mcf per day, respectively. Applicant states that the proposed realignment of volumes would not result in expansion of authorized sales levels to Northern's market area utilities and would aid in achieving maximum utilization of presently authorized service by allowing Applicant to meet the requirements of the utilities requesting such changes.

In order to provide the requested realignments, Applicant proposes to construct and operate 2.14 miles of 4-inch loopline near Perry, Iowa, from Milepost 3.40 extending southeasterly to Milepost 5.54, all in Greene and Boone Counties, Iowa, and 13.13 miles of 6-inch loopline near Brookings, South Dakota from Section 18 to Section 13, all in Kingsbury County, South Dakota. Applicant also proposes to construct a new delivery point to High Plains Natural Gas Co. in Canadian, Texas, and to modify three existing town border stations in Applicant's market area system, namely, Savage, Minnesota No. 1E, St. Michael, Minnesota No. 1, and LeGrand, Iowa No. 1. Applicant estimates the total cost of construction to be $1,985,548 which would be financed from funds on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 19, 1982, file with the Federal Energy Regulatory Commmission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be

unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-816-000]

Pacific Power & Light Co.; Notice of Filing

September 27, 1982.

The filing Company submits the following:

Take notice that Pacific Power & Light Company (PP&L) on September 21, 1982, tendered for filing PP&L's FERC Electric Tariff, Original Volume No. 3, Service Schedule PPL-3.

PP&L requests this rate schedule to become effective 60 days after filing, which it claims is the date of commencement of service.

Copies of this filing have been served upon the Idaho Public Utilities Commission, Public Service Commission of the State of Montana, Oregon Public Utility Commissioner, Washington Utilities and Transportation Commission, and Public Utilities Commission of the State of California.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.W., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR §§ 385.211, 385.214). All such motions or protests should be filed on or before October 13, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-815-000]

Pennsylvania Power & Light Co.; Notice of Filing

September 27, 1982.

The filing Company submits the following:

Take notice that Pennsylvania Power & Light Company (PP&L) on September 20, 1982, tendered for filing as a rate schedule an executed agreement dated as September 1, 1982 between PP&L and The Connecticut Light and Power Company and Western Massachusetts Electric Company (NU Companies). The proposed rate schedule provides for the sale of interruptible power and energy by PP&L to NU Companies.

The rate schedule provides for a maximum energy reservation charge rate of $24.70 per megawatt hour and an energy charge rate based upon the incremental cost of providing the energy.

PP&L requests the effective date of September 20, 1982, and therefore requests waiver of the Commission's notice requirements.

Copies of this filing have been served upon the NU Companies and the Pennsylvania Public Utility Commission.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.W., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR §§ 385.211, 385.214). All such motions or protests should be filed on or before October 13, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. CP82-504-000]

Texas Eastern Transmission Corp. Notice of Application

September 27, 1982

Take notice that on August 23, 1982, Texas Eastern Transmission Corporation (Applicant), P.O. Box 2521, Houston, Texas 77252, filed in Docket No. CP82-504-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of pipeline and related facilities offshore Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant proposes to construct and operate 1.74 miles of 8-inch pipeline, and related facilities extending from Chandeleur Area Block 17, A Platform, to Chandeleur Area Block 25, A Platform, Offshore Louisiana, and 11.4 miles of 12-inch pipeline and related facilities, extending from Chandeleur Area Block 25, A Platform, Offshore Louisiana, to an existing 8-inch sub-sea tap on Applicant's existing 16-inch pipeline in Main Pass Area Block 93, Offshore Louisiana. It is further stated that, upon completion, the pipeline will have a maximum capacity of 74,000 Mcf per day.

It is further stated that the proposed facilities would permit Applicant to attach substantial quantities of natural gas produced from said Chandeleur

Area Blocks. Applicant states that it has entered into gas purchase agreements with Getty Oil Company and Cities Service Company for the purchase of each company's 50 percent interest in Block 25 and with Tenneco Oil Company for the purchase of its 100 percent interest in Block 17.

Applicant estimates the total cost of the proposed facilities to be $14,549,000, which would be financed initially through revolving credit arrangements, short-term borrowing arrangements with banks, or from funds on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 19, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP82-503-000]

Transcontinental Gas Pipe Line Corp.; Notice of Application

September 27, 1982.

Take notice that on August 20, 1982, Transcontinental Gas Pipe Line Corporation (Applicant), P.O. Box 1396, Houston, Texas 77251, filed in Docket No. CP82-503-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to establish the Transco-Niagara Storage Service which would provide up to 40,000,000 Mcf of top storage capacity and up to 600,000 Mcf per day of withdrawal capability for its customers, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the new storage service is made possible by two separate storage arrangements Applicant has entered into with ANR Storage Company (ANR Storage) in Michigan and Union Gas Limited (Union Gas) in Ontario. Each arrangement would provide Applicant up to 20,000,000 Mcf of top storage capacity and up to 300,000 Mcf per day of withdrawal capability. Applicant indicates that it would purchase the gas to be placed in storage from TransCanada PipeLines Limited (TransCanada) upon Commission approval of Applicant's pending import application in Docket No. CP82-115-000.

The storage service would be implemented by numerous transportation arrangements. During the summer injection season, TransCanada would deliver storage injection gas of up to 300,000 Mcf per day to Great Lakes Gas Transmission Company (Great Lakes) at an existing interconnection between TransCanada and Great Lakes at the United States-Canada border near Emerson, Manitoba. Great Lakes then would transport up to 150,000 Mcf per day to an existing interconnection with the facilities of ANR Storage near Crawford, Michigan. ANR Storage would, in turn, transport such injection quantities to an interconnection between the proposed facilities of ANR Storage and the proposed facilities of Niagaran Gas Storage Company (Niagaran) near Whitewater, Michigan. Niagaran, a partnership to be formed by subsidiaries of American Natural Resources and Michigan Consolidated Gas Company (Mich Con), would own the gas storage fields and appurtenant facilities in Whitewater and Union Townships, Michigan, into which the gas to be stored for Applicant would be injected. Great Lakes would transport the remainder of Applicant's storage injection volumes to the United States-Canada border near St. Clair, Michigan, where Great Lakes' facilities interconnect with facilities of TransCanada. TransCanada would, in turn, transport such gas for Applicant's account to Union Gas's system near Dawn, Ontario, for injection into Union Gas' storage facilities.

Applicant further states that during the winter, based upon nominations by Applicant, Niagaran would make up to 300,000 Mcf per day from its withdrawal capacity available to ANR Storage, which would in turn arrange transportation through two delivery systems in Michigan. ANR Storage would deliver up to 147,675 Mcf per day to Mich Con at a proposed interconnection between ANR Storage and Mich Con in Kalkaska Township, Michigan. Mich Con would transport such quantities to an existing interconnection with Great Lakes at Belle River Mills, Michigan. Great Lakes would transport such quantities to its existing interconnection with TransCanada near St. Clair, Michigan. With respect to the second delivery system, ANR Storage would deliver up to 149,550 Mcf per day of gas withdrawn from the Niagaran storage fields directly to Great Lakes at the Crawford Delivery Point, and Great Lakes would transport such quantities to TransCanada at the aforementioned St. Clair interconnection whereupon TransCanada would deliver such quantities to Union Gas near Dawn, Ontario. Both the Niagaran storage quantities and those quantities withdrawn from Union Gas' facilities near Dawn, Ontario would be transported in an easterly direction by Union Gas to a proposed interconnection between Union Gas and TransCanada at Kirkwall, Ontario and then by TransCanada for ultimate redelivery for Applicant's account near Niagara Falls, New York, where the Trans-Niagara Pipeline, pending authorization in Docket Nos. CP82-125-003 and CP82-125-004, would interconnect with TransCanada's facilities, it is explained. Trans-Niagara would transport Applicant's storage quantities, along with Applicant's Canadian purchase quantities, to Applicant's existing pipeline system at the Leidy Storage Field near Tamarack, Pennsylvania.

Applicant states that customers would contract for their desired annual quantity as well as their desired peak day capability; however, such customers withdrawals would be limited during the winter period to 70 percent of the

customer's storage demand quantity when the customer's storage balance is between 10 percent and 19 percent of full quantites and to 40 percent when the customers' balance drops below 10 percent of full quantities. Based on the maximum withdrawal rates and the total top storage capacity, Applicant estimates that it would be able to provide an average of sixty-seven days of storage service.

Applicant states that the proposed Rate Schedule T–NSS Consists of a monthly demand charge of $14.79 per dt of contract demand, a monthly capacity charge of 4.3 cents per dt of annual capacity, and injection and withdrawal charges of 8.8 cents per dt. Applicant indicates that these rates reflect an accumulation and direct assignment of charges for the storage and transportation services upstream of the Niagara Falls point of importation, an allocation to the new storage service of a portion of Trans-Niagara's transportation charges, and an allocation to the storage service of a portion of Applicant's costs of new facilities needed to transport the additional storage and purchase quantities through Applicant's Leidy Line and in the market area.

Applicant avers that its customers have indicated a need for additional peak period deliveries in order to meet their growing high-priority market requirements. Applicant indicates that the proposed storage service is part of its efforts to meet its customers' requirements.

Any person desiring to be heard or to make any protest with reference to said applicant should on or before October 19, 1982, filed with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the National Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 82-27043 Filed 9-30-82; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. ER82-817-000]

United Illuminating Co.; Notice of Filing

September 27, 1982.

The filing company submits the following:

Take notice that the United Illuminating Company (UI) on September 21, 1982, tendered for filing an exchange agreement (the Agreement) between UI and the Connecticut Light and Power Company (CL&P), and Western Massachusetts Electric Company (WMECO), the latter two companies, collectively, the NU Companies.

UI indicates that the Agreement, dated August 1, 1982 provides for an exchange of UI system capacity and related energy for an equivalent amount of capacity and related energy in the NU Companies' gas turbines. The capacity and related energy furnished by UI to the NU Companies would be from one or more of existing operable fossil-fired steam generation units at New Haven Harbor Station and English Station in the City of New Haven and/or Bridgeport Harbor Station or Stell Point Station in the City of Bridgeport. However, in most anticipated instances, the capacity and related energy will be supplied from Bridgeport Harbor Station Units 1 and 2.

UI states that the Agreement provides that the parties will, from time to time, determine the amount and period of the exchange of capacity when it is mutually advantageous to the parties.

UI further states that the NU Companies will pay an energy reservation charge to UI for each hour in an amount equal to the amount of the kilowatt capacity exchange in effect during that hour times $0.003. In addition, the NU Companies will pay the costs of energy taken by the NU Companies from UI based, on a before-the-fact agreed upon heat rate at fuel costs in effect for pool dispatching purposes at the time of the exchange.

UI indicates that it will pay the NU Companies for energy actually produced by the NU Companies' generating units which are part of the exchange capacity at the cost to provide such energy (including variable and additional maintenance costs) from such generating units.

UI requests an effective date of August 1, 1982, and therefore requests waiver of the Commission's notice requirements.

Copies of this filing have been served upon WMECO and CL&P.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR §§ 385.211, 385.214). All such motions or protests should be filed on or before October 13, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

Western Area Power Administration

Fort Peck-Havre Proposed 230-KV Transmission Line, Montana; Draft Environmental Impact Statement, Extension of Comment Period

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of Extension of Comment Period for Draft Environmental Impact Statement.

SUMMARY: Notice is hereby given that the Western Area Power Administration, Department of Energy (DOE), has extended the comment period by 60 days for the Fort Peck-Havre draft environmental impact statement (DEIS) (DOE/EIS–0090–D). Comments will now be due October 22, 1982. The extension is in response to a request to allow more time for potentially affected individuals to

comment and is to allow time to study new local routing alternatives in response to comments received at the public hearings.

ADDRESS: Use the following address for further information, copies of the DEIS, and to send comments: Mr. James D. Davies, Area Manager, Billings Area Office, Western Area Power Administration, P.O. Box EGY, Billings, MT 59101 (406) 657–6042.

Issued at Golden, Colorado, September 23, 1982.

Don W. Shinkle,

Assistant Administrator for Management Services.

BILLING CODE 6560-50-M

[A-10-FRL 2219-2]

Standards of Performance for New Stationary Sources; Delegation to the Energy Facility Site Evaluation Council (State of Washington)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is announcing approval of a request dated August 5, 1982 from the Energy Facility Site Evaluation Council of Washington for delegation of authority for source categories under the New Source Performance Standards (NSPS) as adopted in their WAC 463, Washington Administrative Code. The source categories are: fossil fuel-fired steam generators, electric utility steam generating units, stationary gas turbines, petroleum refineries, storage vessels for petroleum liquids and coal preparation plants.

DATE: Effective September 3, 1982.

ADDRESSES: The related material in support of this delegation may be examined during normal business hours at the following locations:

Central Docket Section (10A–82–12), Environmental Protection Agency, West Tower Lobby, Gallery I 401 M Street, SW Washington, D.C. 20460

Air Programs Branch, Environmental Protection Agency, Region 10, 1200 Sixth Avenue, Seattle, Washington 98101

Energy Facility Site Evaluation Council, 4224 Sixth Ave., PY–11 Lacey, Washington 98503

FOR FURTHER INFORMATION CONTACT: Mark H. Hooper, Air Programs Branch M/S 532, Environmental Protection Agency, Region 10, 1200 Sixth Avenue, Seattle, Washington 98101, Telephone No.: (206) 442–1949, FTS: 399–1949.

SUPPLEMENTARY INFORMATION: The Energy Facility Site Evaluation Council (EFSEC) in a letter dated August 5, 1982 requested delegation of source categories under NSPS. The letter granting this delegation of authority to EFSEC was dated September 3, 1982 and is as follows:

Honorable John Spellman,

Governor of Washington, Olympia, Washington 98504.

Dear Governor Spellman: On August 5, 1982 the Energy Facility Site Evaluation Council (EFSEC) requested that EPA grant delegation of authority to enforce source categories under New Source Performance Standards (NSPS) as they may apply to energy sources. We have reviewed that request and hereby delegate to EFSEC the authority to enforce the source categories listed as follows:

Fossil-fuel Fired Steam Generators

Electricity Utility Steam Generating Units
Stationary Gas Turbines
Petroleum Refineries
Storage Vessels for Petroleum Refineries
Coal Preparation Plants

In addition to the delegation, EFSEC has the authority to enforce revisions to the NSPS source categories which have been promulgated through May 1, 1982.

The DOE and EFSEC have overlapping responsibility for those sources; their jurisdiction depending on the size of the facilities. This delegation pertains only to those sources within the exclusive jurisdiction of EFSEC.

The conditions for delegating NSPS to the Washington State Department of Ecology (DOE) as specified in the February 25, 1975 notice from the Regional Administrator to the Governor of Washington apply as they relate to EFSEC. They are not listed here as DOE will be involved with this program according to terms of a DOE/EFSEC agreement dated May 27, 1980.

A Notice announcing this delegation will be published in the **Federal Register** in the future. The Notice will state, among other things, that effective immediately, all reports required pursuant to the Federal NSPS from energy sources located in the State which were previously sent to EPA will now be sent to the EFSEC.

Since this delegation is effective immediately, there is no requirement that EFSEC notify EPA of its acceptance. Unless EPA receives from the EFSEC written notice of objections within 10 days of the date of receipt of this letter, EFSEC will be deemed to have accepted all the terms of the delegation.

An advance copy of this Register is enclosed for your information.

Sincerely,

John R. Spencer,

Regional Administrator.

(Sec. 111, Clean Air Act)

Dated: September 3, 1982.

John R. Spencer,

Regional Administrator.

BILLING CODE 6712-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 82F-0267]

Ciba-Geigy Corp.; Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that Ciba-Geigy Corp. has filed a petition proposing that the food additive regulations be amended to provide for the safe use of 4-[[4,6-bis(octylthio)-*s*-triazin-2-yl]amino]-2,6-di-*tert*-butylphenol as a component of adhesives and pressure-sensitive adhesives.

FOR FURTHER INFORMATION CONTACT: Rudolph Harris, Bureau of Foods (HFF-334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 2B3644) has been filed by the Ciba-Geigy Corp., Hawthorne, NY 10532, proposing that § 175.105 *Adhesives* (21 CFR 175.105), § 175.125 *Pressure-sensitive adhesives* (21 CFR 175.125), and § 178.2010 *Antioxidants and/or stabilizers for polymers* (21 CFR 178.2010) be amended to provide for the safe use of 4-[[4,6-bis(octylthio)-*s*-triazin-2-yl]amino]-2,6-di-*tert*-butylphenol as a component of adhesives and pressure-sensitive adhesives.

The agency has carefully considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment and that an environmental impact statement is not required. The agency's findings of no significant impact and the evidence supporting these findings may be seen in the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, between 9 a.m. and 4 p.m., Monday through Friday.

Dated: September 17, 1982.

Sanford A. Miller,

Director, Bureau of Foods.

Memorandum of Understanding With the National Library of Medicine

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) has executed a memorandum of understanding with the National Library of Medicine. The purpose of the understanding is to define the respective responsibilities of the National Library of Medicine and FDA to produce a master video disc containing images of approximately 40 radiographs selected from the Radiological Health Sciences Learning File.

EFFECTIVE DATE: The agreement became effective July 27, 1982.

FOR FURTHER INFORMATION CONTACT: Walter J. Kustka, Intergovernmental and Industry Affairs Staff (HFC-50), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-1583.

SUPPLEMENTARY INFORMATION: In accordance with § 20.108(c) (21 CFR 20.108(c)) stating that all agreements and memoranda of understanding between FDA and others shall be published in the **Federal Register**, the agency is publishing the following memorandum of understanding:

Memorandum of Understanding Between the National Library of Medicine and the Food and Drug Administration

I. Purpose

This agreement defines the respective responsibilities of the National Library of Medicine (NLM) and the Food and Drug Administration (FDA) to produce a master video disc containing images of approximately 40 radiographs selected from the Radiological Health Sciences Learning File.

II. Background

The Radiological Health Sciences Learning Laboratory (referred to as the Learning Laboratory) is a comprehensive approach to teaching the basic skills required in all phases of the radiological process. The Learning Laboratory was developed, with the support of FDA's Bureau of Radiological Health (BRH) at the Radiological Health Sciences Educational Project, University of California, San Francisco, under the direction of Dr. Reynold F. Brown. One component of this system, the Learning File, is perhaps best known. It is a collection of 1,400 individual cases grouped in 6 categories representing the major body organ systems. Each case consists of 3 to 4 radiographs filed in heavy-duty, color coded film jackets. Hence, the entire file consists of approximately 5,000 clinical X-ray films. The user selects those cases of interest from a file index and then physically pulls the cases from the file cabinet and places the radiographs on a viewing box for study. The radiographs must be returned to their jackets and refiled for the convenience of the next user. Each jacket contains a carefully prepared teaching discussion of the case (printed upside down) which a student consults after attempting an independent interpretation.

The National Medical Audio Visual Center's (NMAC) Learning Resources Laboratory of the NLM has produced a video disc containing approximately 20 radiographs taken from the Learning File. A simple computer program has been written to manipulate the stored images. Several radiologists have reviewed the video images of the radiographs and believe they may be satisfactory for instructional purposes. If this proves to be the case, the entire Learning File could be stored on 1 or 2 video discs, reducing purchasing costs and storage requirements.

III. Substance of Agreement

FDA/BRH and NLM/NMAC agree to mutually develop a video disc with sound narration of approximately 10 cases (35 to 40 radiographs) selected from the Learning File. This concept (computer controlled video disc) will be demonstrated at the annual meeting of the Radiological Society of North America in November 1982. A survey will be taken of the radiologists who visit the exhibition to determine if they think the images are useful for instructional purposes and could replace or supplement the present Learning File.

A. FDA/BRH will:

1. Supply a radiologist to serve as a consultant to the project and direct the recording session(s).

2. Supply the radiographs which are to be video taped.

3. Supply 2 single-view boxes with masking devices.

4. Supply an assistant to the radiologist.

5. Supply a 1-inch video tape, Ampex High Energy #196 for recording and editing.

6. Supply 1 2-inch Ampex video tape, if required.

7. Supply script for sound narration.

8. Provide funds for video disc mastering service.

9. Provide NMAC with 5 copies of final video disc.

B. NLM/NMAC will:

1. Provide all video production apparatus (TV cameras, tape recorders, switchers, signal processing equipment, character generators, etc.).

2. Provide a producer/director.

3. Provide camera operator(s).

4. Provide a video engineer.

5. Provide video and audio technician(s).

6. Provide console operator(s).

7. Cooperate in development of the survey instrument.

8. Develop computer coding to manipulate images on video disc player.

c. NLM and FDA will attempt to hold to the following production schedule:

1. FDA submits audio script to producer/director at NMAC by July 1.

2. NLM returns audio script to FDA by July 9.

3. FDA delivers light boxes and selected radiographs to NLM by July 14.

4. NLM and FDA jointly record sound narration and shoot pre-master tape July 20 through 30.

5. NLM and FDA jointly edit pre-master tape August 2 through 6.

6. FDA submits pre-master tape to mastering facility by August 6 (maximum turn-around time is 6 weeks).

7. FDA inspects check disc and returns check disc to mastering facility by September 24.

8. NLM and FDA jointly develop computer coding to manipulate images on video disc player by October 15.

IV. Name and Address of Participating Agencies

A. National Library of Medicine, Lister Hill National Center for Biomedical Communications, 8600 Rockville Pike, Bethesda, MD 20209.

B. Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

V. Liaison Officers

A. Director, Learning Resources Laboratory (currently James W. Woods, Ph. D.), Lister Hill National Center for Biomedical Communications, National Library of Medicine, 8600 Rockville Pike, Bethesda, MD 20209, 301-496-6280.

B. Director, Division of Training and Medical Applications (currently William S. Properzio, Ph. D.), Bureau of Radiological Health, Food and Drug Administration, 5600 Fishers Lane (HFX-70), Rockville, MD 20857, 301-443-2845.

VI. Period of Agreement

This agreement, when accepted by both parties, will be effective for 6 months thereafter. It may be modified by mutual consent or terminated by either party upon a 30-day advance written notice.

Approved and Accepted for the National Library of Medicine.

By: Kenneth G. Carney,

Title: Executive Officer.

Dated: July 27, 1982.

Approved and Accepted for the Food and Drug Administration.

By: Joseph P. Hile,

Title: Associate Commissioner for Regulatory Affairs.

Dated: July 16, 1982.

Effective date. This Memorandum of Understanding became effective July 27, 1982.

Dated: September 23, 1982.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

[FR Doc. 82-26850 Filed 9-30-82; 8:45 am]
BILLING CODE 4160-01-M

[Docket No. 82F-0287]

ICI Americas, Inc.; Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration announces that ICI Americas, Inc., has filed a petition proposing that the food additive regulations be amended to provide for the safe use of styrene-maleic anhydride resin, partial 2-butoxyethyl ester, ammonium salt, in coatings for polyethylene phthalate polymers intended for use in contact with food.

FOR FURTHER INFORMATION CONTACT: Michael R. Kashtock, Bureau of Foods (HFF-334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 2B3646) has been filed by ICI Americas, Inc., Wilmington, DE 19897, proposing that § 177.1630 *Polyethylene phthalate polymers* (21 CFR 177.1630) be amended to provide for the safe use of styrene-maleic anhydride resin, partial 2-butoxyethyl ester, ammonium salt, in coatings for polyethylene phthalate polymers.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be

published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c) (proposed December 11, 1979; 44 FR 71742).

Dated: September 20, 1982.

Sanford A. Miller,

Director, Bureau of Foods.

BILLING CODE 4160-01-M

[Docket No. 82F-0288]

American Cyanamid Co.; Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration announces that the American Cyanamid Co. has filed a petition proposing that the food additive regulations be amended to provide for the safe use of hexadecyl 3,5-di-*tert*-butyl-4-hydroxybenzoate as a light stabilizer in olefin polymers intended for use in contact with food.

FOR FURTHER INFORMATION CONTACT: Michael E. Kashtock, Bureau of Foods (HFF-334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204; 202-472-5690.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 2B3648) has been filed by the American Cyanamid Co., Wayne, NJ 07470, proposing that § 178.2010 (21 CFR 178.2010) be amended to provide for the safe use of hexadecyl 3,5-di-*tert*-butyl-4-hydroxybenzoate as a light stabilizer at levels not to exceed 0.5 percent by weight of olefin polymers complying with § 177.1520 (21 CFR 177.1520).

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c) (proposed December 11, 1979; 44 FR 71742).

Dated: September 20, 1982.

Sanford A. Miller,

Director, Bureau of Foods.

BILLING CODE 4160-01-M

[Docket No. 82M-0302]

Biochem International, Inc.; Premarket Approval of Lifespan™ 100 tcPCO$_2$ Monitor

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing its approval of the application for premarket approval under the Medical Device Amendments of 1976 of the Lifespan™ 100 tcPCO$_2$ Monitor sponsored by Biochem International, Inc., Waukesha, WI. After reviewing the recommendation of the Anesthesiology Device Section of the Respiratory and Nervous System Devices Panel (the Section), FDA notified the sponsor that the application was approved because the device had been shown to be safe and effective for use in neonates as recommended in the submitted labeling.

DATE: Petitions for administrative review by November 1, 1982.

ADDRESS: Requests for copies of the summary of safety and effectiveness data and petitions for administrative review may be sent to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Charles H. Kyper, Bureau of Medical Devices (HFK-402), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910; 301-427-7445.

SUPPLEMENTARY INFORMATION: On March 30, 1982, Biochem International, Inc., Waukesha, WI, submitted to FDA an application for premarket approval of the Lifespan 100™ tcPCO$_2$ Monitor, a trend monitor for carbon dioxide tension at the skin surface of neonates. The application was reviewed by the Anesthesiology Device Section of the Respiratory and Nervous System Devices Panel, an FDA advisory committee, which recommended approval of the application for the use of this device on neonates. On September 9, 1982, FDA approved the application by a letter to the sponsor from the Acting Associate Director for Device Evaluation of the Bureau of Medical Devices.

A summary of the safety and effectiveness data on which FDA's approval is based is on file in the Dockets Management Branch (address above), and is available upon request from that office. A copy of all approved final labeling is available for public inspection at the Bureau of Medical Devices. Contact Charles Kyper (HFK-402), address above. Requests should be identified with the name of the device and the docket number found in brackets in the heading of this document.

Opportunity for Administrative Review

Section 515(d)(3) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360e(d)(3)) authorizes any interested person to petition under section 515(g) of the act (21 U.S.C. 360e(g)) for administrative review of FDA's decision to approve this application. A petitioner may request either a formal hearing under Part 12 (21 CFR Part 12) of FDA's administrative practices and procedures regulations or a review of the application and of FDA's action by an independent advisory committee of experts. A petition is to be in the form of a petition for reconsideration of FDA action under § 10.33(b) (21 CFR 10.33(b)). A petitioner shall identify the form of review requested (hearing or independent advisory committee) and shall submit with the petition supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing the petition, FDA will decide whether to grant or deny the petition and will publish a notice of its decision in the **Federal Register.** If FDA grants the petition, the notice will state the issue to be reviewed, the form of the review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may, at any time on or before November 1, 1982, file with the Dockets Management Branch (HFA-305), (address above) four copies of each petition and supporting data and information, identified with the name of the device and the docket number found in brackets in the heading of this document. Received petitions may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: September 27, 1982.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

[FR Doc. 82-27067 Filed 9-30-82; 8:45 am]

BILLING CODE 4160-01-M

Consumer Participation; Open Meetings

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the following consumer exchange meetings:

Detroit District Office, Chaired by Alan L. Hoeting, District Director

DATE: Tuesday, October 12, 1982, 9:30 a.m.

ADDRESS: George Potter Larrick Bldg., Conference Room, 1560 E. Jefferson St., Detroit, MI 48207.

FOR FURTHER INFORMATION CONTACT:

Diane M. Place, Consumer Affairs Officer, Food and Drug Administration, 1560 E. Jefferson St., Detroit, MI 48207; 313–226–6260.

Detroit District Office, Indianapolis Resident Post, Chaired by John R. Dempster, Acting District Director.

DATE: Wednesday, October 13, 1982, 9 a.m. to 11 a.m.

ADDRESS: Indianapolis Convention-Exposition Center, 100 S. Capitol Ave., Indianapolis, IN 46204.

FOR FURTHER INFORMATION CONTACT: Lilyan M. Gossens, Consumer Affairs Officer, Food and Drug Administration, 575 N. Pennsylvania St., Rm. 693, Indianapolis, IN 46204; 317–269–6500.

SUPPLEMENTARY INFORMATION: The purpose of these meetings is to encourage dialogue between consumers and FDA officials, to identify and set priorities for current and future health concerns, to enhance understanding and exchange information between local consumers and FDA's District Offices, and to contribute to the agency's policymaking decisions on vital issues.

Dated: September 27, 1982.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

[FR Doc. 82-27065 Filed 9-30-82; 8:45 am]

BILLING CODE 4160-01-M

[Docket No. 82F-0282]

De Danske Sukkerfabrikker; Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that De Danske Sukkerfabrikker has filed a petition proposing that the food additive regulations be amended to provide for the safe use of a copolymer of *m*-phenylenediamine and benzene-1, 3, 5-tricarboxylic acid chloride as a component of an ultrafiltration membrane intended for use in food-processing applications.

FOR FURTHER INFORMATION CONTACT: John L. Herrman, Bureau of Foods (HFF-334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–472–5690.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 2B3645) has been filed by De Danske Sukkerfabrikker through its U.S. representative, General Dairy Equipment Co., 660 Taft St. NE., Minneapolis, MN 55413, proposing that the food additive regulations be amended to provide for the safe use of a copolymer of *m*-phenylenediamine and benzene-1, 3, 5-tricarboxylic acid chloride as a component of an ultrafiltration membrane intended for use in food-processing applications.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c) (proposed December 11, 1979; 44 FR 71742).

Dated: September 20, 1982.

Sanford A. Miller,

Director, Bureau of Foods.

[Docket No. 82F-0284]

Economics Laboratory, Inc.; Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that Economics Laboratory, Inc., has filed a petition proposing that the food additive regulations be amended to provide for the safe use of decanoic acid, octanoic acid, sodium 1-octanesulfonate, and isopropyl alcohol as components of sanitizing solutions to be used on food-contact surfaces.

FOR FURTHER INFORMATION CONTACT: James B. Lamb, Bureau of Foods (HFF–334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204; 202–472–5690.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 2B3647) has been filed by Economics Laboratory, Inc., St. Paul, MN 55102, proposing that the food additive regulations be amended to provide for the safe use of decanoic acid, octanoic acid, sodium 1-octanesulfonate, and isopropyl alcohol as components of sanitizing solutions to be used on food-contact surfaces.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c) (proposed December 11, 1979; 44 FR 71742).

Dated: September 20, 1982.

Sanford A. Miller,

Director, Bureau of Foods.

[FR Doc. 82-26672 Filed 9-30-82; 8:45 am]

BILLING CODE 4160-01-M

[Docket No. 82M-0294]

Radionics, Inc.; Premarket Approval of ICP Tele-Sensor® and ICP Tele-Monitor® System

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing its approval of the application for premarket approval under the Medical Device Amendments of 1976 of the ICP Tele-Sensor® and ICP Tele-Monitor® System, sponsored by Radionics, Inc., Burlington, MA. After reviewing the recommendation of the Neurological Device Section of the Respiratory and Nervous System Devices Panel, FDA notified the sponsor that the application was approved because the device had been shown to be safe and effective for use as recommended in the submitted labeling.

DATE: Petitions for administrative review by November 1, 1982.

ADDRESS: Requests for copies of the summary of safety and effectiveness data and petitions for administrative review may be sent to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Charles H. Kyper, Bureau of Medical Devices (HFK–402), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301–427–7445.

SUPPLEMENTARY INFORMATION: On March 2, 1982, Radionics, Inc., Burlington, MA 01803, submitted to FDA an application for premarket approval of the ICP Tele-Sensor® and ICP Tele-Monitor® System that is used to aid in diagnosing the functional status of cerebrospinal fluid shunts in patients with hydrocephalus. The application was reviewed by the Neurological

Device Section of the Respiratory and Nervous System Devices Panel, an FDA advisory committee, which recommended approval of the application. On September 2, 1982, by letter to the sponsor from the Acting Associate Director for Device Evaluation of the Bureau of Medical Devices, FDA approved the application for use of the device in patients 2 years of age and older who have implanted CSF shunts. Use of the device in patients under 2 years of age remains investigational.

A summary of the safety and effectiveness data on which FDA's approval is based is on file in the Dockets Management Branch (address above) and is available upon request from that office. A copy of all approved final labeling is available for public inspection at the Bureau of Medical Devices. Contact Charles H. Kyper (HFK-402), address above. Requests should be identified with the name of the device and the docket number found in brackets in the heading of this document.

Opportunity for Administrative Review

Section 515(d)(3) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360e(d)(3)) authorizes any interested person to petition under section 515(g) of the act (21 U.S.C. 360e(g)), for administrative review of FDA's decision to approve this application. A petitioner may request either a formal hearing under Part 12 (21 CFR Part 12) of FDA's administrative practices and procedures regulations or a review of the application and of FDA's action by an independent advisory committee of experts. A petition is to be in the form of a petition for reconsideration of FDA action under § 10.33(b) (21 CFR 10.33(b)). A petitioner shall identify the form of review requested (hearing or independent advisory committee) and shall submit with the petition supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing the petition, FDA will decide whether to grant or deny the petition and will publish a notice of its decision in the **Federal Register**. If FDA grants the petition, the notice will state the issues to be reviewed, the form of the review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may, at any time on or before November 1, 1982, file with the Dockets Management Branch four copies of each petition and supporting data and information, identified with the name of the device and the docket number found in brackets in the heading of this document. Received petitions may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: September 22, 1982.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

[FR Doc. 82-26668 Filed 9-30-82; 8:45 am]

BILLING CODE 4160-01-M

Public Health Service

Privacy Act of 1974; New System of Records

AGENCY: Public Health Service, HHS.

ACTION: Notification of establishment of a new Privacy Act system of records: 09-25-0152, "Biomedical Research: Records of Subjects in National Institute of Dental Research Contracted Epidemiological and Biometric Studies," HHS/NIH/NIDR.

SUMMARY: In accordance with the requirements of the Privacy Act, the Public Health Service (PHS) is publishing notice of a proposal to establish a new Privacy Act system of records: 09-25-0152, "Biomedical Research: Records of Subjects in National Institute of Dental Research Contracted Epidemiological and Biometric Studies," HHS/NIH/NIDR. We are also proposing routine uses for this system.

This system will be used to support research on diseases and disorders of the oral cavity (teeth and their supporting structures); their causes and treatment; the incidence and prevalence of these diseases and disorders; familial, demographic and behavioral factors related to their causes and treatment; and to provide data for program review, evaluation, planning, and administrative accountability.

PHS invites interested persons to submit comments on the proposed routine uses on or before November 1, 1982.

DATE: PHS has sent a report of New System to the Congress and to the Office of Management and Budget on September 20, 1982. The system of records will be effective 60 days from the date submitted to OMB unless PHS receives comments on the routine uses which would result in a contrary determination.

ADDRESS: Comments should be addressed to the National Institutes of Health (NIH) Privacy Act Coordinator at the address listed below. Comments received will be available for inspection Monday through Friday, between 9 a.m. and 3 p.m., in Room 3B03, Building 31, at that address.

FOR FURTHER INFORMATION CONTACT: Dr. Kenneth Thibodeau, NIH Privacy Act Coordinator, Building 31, Room 3B07, 9000 Rockville Pike, Bethesda, MD 20205 or call 301-496-4606.

SUPPLEMENTARY INFORMATION: The proposed system of records will comprise records generated in research projects supported by the National Institute of Dental Research (NIDR) in fulfilling its congressionally mandated responsibility for biomedical research on diseases and disorders of the oral cavity; their cause and treatment; the incidence and prevalence of these diseases and disorders; and familial, demographic and behavioral factors related to their causes and treatment. NIDR will use the records maintained in this system exclusively for biomedical research and for planning and administration of such research.

Such research will involve both scientists on the staff of NIDR and other scientists working under contracts awarded competitively by NIDR. NIDR may award research contracts to hospitals and clinics, to educational and research institutions, to Federal, State or local government agencies, or to commercial enterprises.

Records collected under this system will be organized and maintained according to the particular study in which they are collected. Records will not be entered into a general or comprehensive data base, nor will there be any general index identifying all persons who are subjects of records in the separate studies covered by this system. However, NIDR is treating the separate sets of records as a single system under the Privacy Act (1) because all of the sets of records serve the same biomedical research purposes and contain similar types of data, (2) in order to apply consistent policies and practices in the maintenance of such records, and (3) to make it easier for subject individuals to obtain notification of, or access to, their records.

The records in this system will be maintained in a secure manner compatible with their content and use. Contractors will be required to adhere to the provisions of the Privacy Act and the HHS Privacy Act Regulation. The Project Director, the NIDR Project Officer, and/or the System Manager will control access to the data. Only contractor personnel, consultants to the contractor, the NIDR project officer, and NIDR employees whose duties require

the use of such information will have regular access to records in this system. Records will be stored in locked files or secured areas. Computer terminals will be in secured areas. Names and other identifying particulars will be deleted when data from original records is encoded for analysis.

Encoded data will be indexed by code numbers. Tables linking these code numbers with actual identifiers will be maintained separately. Code numbers and identifiers will be linked only if there is a specific need. Data stored in computers will be accessed through the use of keywords known only to the principal investigators or authorized personnel. These keywords will be changed frequently.

The particular safeguards implemented in each project will be developed in accordance with chapter 45–13, "Safeguarding Records Contained in Systems of Records," of the HHS General Administration Manual, supplementary chapter PHS hf. 45–13, and part 6, "ADP Systems Security," of the HHS ADP Systems Manual and the National Bureau of Standards Federal Information Processing Standards (FIPS Pub. 41 and FIPS Pub. 31).

The routine uses proposed for this system are consistent with the stated purposes of the system. The first two of the proposed routine uses are essential to the achievement of the basic research purpose of the system. The first proposed routine use will allow for disclosure to contractors and collaborators working on the research projects, as explained above. The second proposed routine use, which provides for audits of the research activities, will allow the Department to ensure that these research activities are properly conducted.

A routine use for disclosure to independent researchers outside of the Department is proposed to serve the same public good—improving the health of the American people through biomedical research—as motivates the establishment of this system.

A routine use allowing disclosure to contractors for the purpose of processing the records is proposed in order to facilitate encoding of original records for the subsequent analysis.

A routine use permitting disclosure to a congressional office is proposed to allow subject individuals to obtain assistance from their representatives in Congress, should they so desire. Such disclosure would be made only pursuant to a request of the individual.

The possibility of lawsuits in which individuals may claim to have been harmed mentally, physically or financially as a result of the research activities supported by this system motivates the proposal of a routine use to allow the Department of Justice to defend the Federal Government, the Department, or employees of the Department in case of such lawsuits.

Dated: September 23, 1982.

Wilford J. Forbush,

Deputy Assistant Secretary for Health Operations and Director, Office of Management, PHS.

09–25–0152

SYSTEM NAME:

Biomedical Research: Records of Subject in National Institute of Dental Research Contracted Epidemiological and Biometric Studies, HHS/NIH/NIDR.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Records included in this system are collected by contractors and are located in hospitals and clinics, research centers, educational institutions, commercial organizations, local, State and Federal government agencies, and in National Institute of Dental Research (NIDR) facilities. Inactive records may be stored at Federal Records Centers. A list of locations and contracts is available upon request from the System Manager.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Voluntary participants in epidemiological and biometric studies sponsored by NIDR, including adults and minors, both male and female, with known or suspected diseases or disorders of the teeth and supporting structures, as well as normal or nonsuspect individuals in control or study groups for purposes of comparison.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system consists of medical and dental records and information resulting from personal interviews, questionnaires, or direct observation. The system may also include current addresses of study participants, radiographs, records on biological specimens (e.g., teeth, plaque, etc.), study models, computerized epidemiological data and correspondence.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Sections 301, Research and Investigation, and 422, National Institute of Dental Research, of the Public Health Service Act (42 U.S.C. 241, 286a).

PURPOSE(S):

This system is used to:

1. Support research on diseases and disorders of the oral cavity (teeth and their supporting structures); their causes and treatment; the incidence and prevalence of these diseases and disorders; and familial, demographic and behavioral factors related to their causes and treatment.

2. Provide data for program review, evaluation, planning, and administrative accountability.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to HHS contractors, grantees and collaborating researchers and their staff for the purpose of analyzing data and preparing scientific reports and articles in order to accomplish the research purpose for which the records are collected. The recipients are required to maintain Privacy Act safeguards with respect to such records.

2. Disclosure may be made to organizations deemed qualified by the Secretary to carry out quality assessment, medical audits or utilization review.

3. A record may be disclosed for a research purpose, when the Department:

(A) Has determined that the use or disclosure does not violate legal or policy limitations under which the record was provided, collected, or obtained;

(B) Has determined that the research purpose (1) cannot be reasonably accomplished unless the record is provided in individually identifiable form, and (2) warrants the risk to the privacy of the individual that additional exposure of the record might bring;

(C) Has required the recipient to (1) establish reasonable administrative, technical, and physical safeguards to prevent unauthorized use or disclosure of the record, (2) remove or destroy the information that identifies the individual at the earliest time at which removal or destruction can be accomplished consistent with the purpose of the research project, unless the recipient has presented adequate justification of a research or health nature for retaining such information, and (3) make no further use or disclosure of the record except (a) in emergency circumstances affecting the health or safety of any individual, (b) for use in another research project, under these same conditions, and with written authorization of the Department, (c) for disclosure to a properly identified person for the purpose of an audit related to the research project, if information that would enable research subjects to be identified is removed or destroyed at the earliest opportunity consistent with the purpose of the audit, or (d) when required by law;

(D) Has secured a written statement attesting to the recipient's understanding of, and willingness to abide by these provisions.

4. The Department contemplates that it will contract with a private firm for the purpose of collating, analyzing, aggregating or otherwise refining records in this system. Relevant records will be disclosed to such a contractor. The contractor will be required to maintain Privacy Act safeguards with respect to such record.

5. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of the individual.

6. In the event of litigation where the defendant is (a) the Department, any component of the Department, or any employee of the Depatment in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, for example in defending against a claim based upon an individual's mental or physical condition and alleged to have arisen because of activities of the Public Health Service in connection with such individual, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to present an effective defense, provided that such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Data may be stored in file folders, magnetic tapes or disks, punched cards, or bound notebooks.

RETRIEVABILITY:

Information is retrieved by name and/or a participant identification number.

SAFEGUARDS:

(1) *Authorized Users:* Employees who maintain records in this system are instructed to grant regular access only to contractor personnel; consultants to the contractor; the NIDR project officer; and

NIDR employees whose duties require the use of such information. Access to the data is controlled by the Project Director, the NIDR Project Officer, and/or the System Manager.

(2) *Physical Safeguards:* Records are stored in locked files or secured areas. Computer terminals are in secured areas.

(3) *Procedural Safeguards:* Names and other identifying particulars are deleted when data from original records is encoded for analysis. Encoded data is indexed by code numbers. Tables linking these code numbers with actual identifiers are maintained separately. Code numbers and identifiers are linked only if there is a specific need. Data stored in computers is accessed through the use of keywords known only to the principal investigators or authorized personnel. These keywords are changed frequently.

The particular safeguards implemented in each project will be developed in accordance with chapter 45–13, "Safeguarding Records Contained in Systems of Records," of the HHS General Administration Manual, supplementary chapter PHS hf. 45–13, Part 6, "ADP Systems Security," of the HHS ADP Systems Manual, and the National Bureau of Standards Federal Information Processing Standards (FIPS Pub. 41 and FIPS Pub. 31).

RETENTION AND DISPOSAL:

Records at contractor facilities are retained and disposed of under the authority of the institutional records control schedule. Records at NIDR facilities are retained and disposed of under the authority of the NIH Records Control Schedule (DHHS Records Management Manual, Appendix B–361), item 3000–G–3, which allows records to be kept as long as they are useful in scientific research.

Disposal methods include burning or shredding hard copy and erasing computer tapes and discs.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Contract Management Section, Extramural Program, National Institute of Dental Research, Westwood Building, Room 537, 5333 Westbard Avenue, Bethesda, MD 20205.

NOTIFICATION PROCEDURE:

Write to: Privacy Act Coordinator, National Institute of Dental Research, Westwood Building Room 535, 5333 Westbard Avenue, Bethesda, MD 20205, and provide the following information in writing:

1. Full name at time of participation in the study.
2. Name or description of the study.
3. Location and approximate dates of participation.

The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine.

An individual who requests notification of, or access to, a medical or dental record shall, at the time the request is made, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion.

A parent or guardian who requests notification of, or access to, the medical record of a child or incompetent person shall designate a family physician or other health professional (other than a family member) to whom the record, if any, will be sent. The parent or guardian must verify relationship to the child or incompetent person as well as his or her own identity.

RECORD ACCESS PROCEDURES:

Same as notification. Requesters should also reasonably specify the record contents being sought.

CONTESTING RECORD PROCEDURES:

Contact the System Manager at the address above. The contestor must reasonably identify the record, specify in writing the information being contested, and state the corrective action sought, and the reason(s) for the corrective action, with supporting justification.

RECORD SOURCE CATEGORIES:

Information contained in these records is obtained directly from individual participants and from medical/dental and clinical research observations.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

BILLING CODE 4140–01–M

Office of the Secretary

Agency Forms Submitted to the Office of Management and Budget for Clearance

Each Friday the Department of Health and Human Services (HHS) publishes a list of information collection packages it has submitted to the Office of Management and Budget (OMB) for clearance in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). The following are those packages submitted to OMB since the last list was published on September 24.

Public Health Service

Food and Drug Administration

Subject: Resource Data for State Food and Drug Programs (0910–0020)—REVISION (Appeal of OMB disapproval action of July 7, 1982)
Respondents: State Food and Drug Control Agencies
OMB Desk Officer: Fay S. Iudicello

National Institutes of Health

Subject: Industry Survey of Biotechnology Research Personnel Needs—NEW
Respondents: Biotechnology firms
OMB Desk Officer: Richard Eisinger

Health Care Financing Administration

Subject: Documentation to Justify an Extended Repayment Schedule: Medicare Program (HCFA–9004)—Extension
Respondents: Providers of Medicare services
Subject: Medicare and Medicaid Program Validation Reviews of State Medicaid Agencies and Service Providers (HCFA–9012)—Extension

BILLING CODE 4150-04-M

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[INT DES 82-60]

Availability of the Draft Environmental Impact Statement for the Proposed Construction of a Railroad on the Navajo Indian Reservation in McKinley and San Juan Counties in Northwestern New Mexico

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of Availability of a Draft Environmental Impact Statement (DEIS)

SUMMARY: This Notice advises the public that the Draft Environmental Impact Statement for the proposed construction of the Navajo Railroad on the Navajo Indian Reservation in McKinley and San Juan Counties in northwestern New Mexico is available for public review.

DATES: Written comments shall be received no later than November 30, 1982.

Hearings will be held to receive public comments regarding the environmental impacts portrayed in the Draft Environmental Impact Statement for the Proposed Navajo Railroad Project (CONSOL).

Hearings are scheduled as follows:

October 18, 1982, 7:00 pm to 10:00 pm, Gallup Council Chambers—City Hall, Gallup, New Mexico

October 19, 1982, 6:00 pm to 10:00 pm, Twin Lakes Elementary School Auditorium, Twin Lakes, New Mexico

October 20, 1982, 6:00 pm to 10:00 pm, Newcomb Elementary School Cafeteria, Newcomb, New Mexico

October 21, 1982, 6:00 pm to 10:00 pm, Shiprock High School Gymnasium, Shiprock, New Mexico

Address: Written comments should be addressed to: Area Director, Navajo Area Office, Post Office Box M, Window Rock, Arizona 86515, Attention: Branch of Environmental Quality Services, Mail Code 305.

Note.—See above for public hearing dates and sites.

FOR FURTHER INFORMATION CONTACT: Jim R. Analla, Environmental Protection Specialist, Navajo Area Office, Bureau of Indian Affairs, Post Office Box M, Window Rock, Arizona 86515—Mail Code 305. Telephone (606) 871-5151, Extension 5314.

Individuals wishing copies of the draft environmental impact statement should immediately contact the above individual.

Copies have been sent to all agencies and individuals who participated in the scoping process and all others who have already requested copies. The number of available copies is limited.

Copies of the draft environmental impact statement are available for inspection at the following locations:

Bureau of Indian Affairs, Environmental Quality Services, Room 4518, Department of the Interior, Washington, D.C. 20245, Telephone: (202) 343-4541

Bureau of Indian Affairs, Environmental Quality Services, Window Rock, Arizona 86515, Telephone (602) 871-5151, Extension 5314

U.S. Department of the Interior, Office of the Secretary, Southwest Region, Room 1400, First National Bank Building, 5301 Central Avenue, NE, Albuquerque, New Mexico 87108, Telephone: (505) 766-3565.

SUPPLEMENTARY INFORMATION: The Bureau of Indian Affairs (BIA), Department of the Interior (DOI), has prepared a draft environmental impact statement for a proposed railroad to be constructed from Gallup, New Mexico, approximately 136 miles north to the San Juan River, east of Shiprock, New Mexico.

The proposed action is primarily for transporting coal from the Consolidation Coal Company (CONSOL) coal lease in the Burnham-Bisti area on the Navajo Indian Reservation. A possibility exists that if constructed, the railroad may also operate as a common carrier should sufficient need develop.

Primary impacts of the proposed project would be on the area's economics, land use, Navajo socioculture, archeology, localized visual resources, and noise. The socioeconomic impacts would be largely positive, resulting in new job opportunities and additional tax and royalty revenues for state, local and Navajo governments. Mitigating measures will be taken to minimize adverse impacts. Minor impacts may be expected on geology, water resources, terrestrial ecology, aquatic ecology, climatology, and air quality.

The alternatives considered in the DEIS were: No Action; Connection with the Star Lake Railroad; Coal slurry pipeline; Conveyor belt system; Truck haul system; and Alternative routes.

Other government agencies and members of the public contributed to the planning and evaluation of the proposal and preparation of this EIS.

The Notice of Intent to prepare this DEIS was published in the March 9, 1982 **Federal Register.**

Since the proposed railroad corridor is located almost entirely on Navajo lands, the exception being less than four miles across private land, the primary focus of public involvement meetings has been Navajo chapter meetings. Over 30 public meetings have been held at chapter houses along the project corridor. These meetings consisted of explaining of the project, its alignment, and potential impacts and benefits to the Navajo Nation and local inhabitants. Comments on concerns with the project were also received. The proposed project has been described to the public at meetings in Farmington, New Mexico on December 15, 1981 and in Gallup, New Mexico on January 12, 1982.

The Navajo Tribe, Interstate Commerce Commission, and Federal Railroad Administration have served as cooperating agencies in the development of the EIS.

Dated: September 28, 1982.

John H. Farrell,

Acting Director, Environmental Project Review.

[F-14887-A]

Alaska Native Claims Selection

On November 12, 1974, Lime Village Company, for the Native village of Lime Village, filed selection application F-14887-A under the provisions of Sec. 12 of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1611 (1976)) (ANCSA), as amended, for the surface estate of certain lands in the vicinity of Lime Village, Alaska.

In application F-14887-A, Lime Village Company, excluded several bodies of water. Because certain of those water bodies have been determined to be nonnavigable, they are considered to be public lands withdrawn by Sec. 11(a)(1) of ANCSA and available for selection by the village pursuant to Sec. 12(a) of ANCSA. Section 12(a) of ANCSA and Departmental regulation 43 CFR 2651.4 (b) and (c) provide that a village corporation must, to the extent necessary to obtain its entitlement, select all available lands within the township or townships within which the village is located, and that the selection shall be compact and in whole sections, except as provided for in Pub. L. 96-487. For these reasons, the water bodies which were improperly excluded in application F-14887-A are considered selected by Lime Village Company.

As to the lands described below, selection application F-14887-A, as amended, is properly filed and meets the requirements of the Alaska Native Claims Settlement Act and of the regulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface estate of the following described lands, selected pursuant to Sec. 12(a) of ANCSA, aggregating approximately 63,196 acres, is considered proper for acquisition by Lime Village Company and is hereby approved for conveyance pursuant to Sec. 14(a) of ANCSA.

Seward Meridian, Alaska (Surveyed)

T. 14 N., R. 33 W.
Secs. 7, 17, and 18;
Secs. 20, 21, 22, and 27;
Secs. 34 and 35.
Containing 5,269.8 acres.

T. 14 N., R. 34 W.
Secs. 1 to 7, inclusive;
Secs. 10, 11, and 12;
Secs. 18, 19, and 30.
Containing 7,821.4 acres.

T. 15 N., R. 34 W.
Secs. 1 to 13, inclusive;
Sec. 14, excluding Native allotment F-17008;
Secs. 15 to 29, inclusive;
Sec. 30, excluding Native allotments F-17866 and F-17872;
Secs. 31 to 36, inclusive.
Containing approximately 22,224 acres.

T. 16 N., R. 34 W.
Secs. 21 and 22;
Secs. 26, 27, and 28;
Secs. 33, 34, and 35.
Containing 5,120 acres.

T. 13 N., R. 35 W.
Secs. 3 to 9, inclusive;
Secs. 17 and 18.
Containing 5,736.24 acres.

T. 14 N., R. 35 W.
Secs. 13, 22, and 23;
Secs. 24, excluding Native allotment F-17864;
Secs. 25, 26, and 27;
Sec 28, excluding Native allotment F-17871;
Secs. 32 to 35, inclusive.
Containing approximately 5,941 acres.

T. 15 N., R. 35 W.
Secs. 5 to 10, inclusive;
Secs. 14, 15, and 16;
Secs. 23, 24, and 25.
Containing approximately 6,784.16 acres.

T. 13 N., R. 36 W.
Sec. 1;
Sec. 11, excluding Native allotment F-16757 Parcel B;
Sec. 12;
Secs. 13 and 14, excluding Native allotment F-17867;
Secs. 22 and 23.
Containing approximately 4,300 acres.
Aggregating approximately 63,196 acres.

Excluded from the above-described lands herein conveyed are the submerged lands, up to the ordinary high water mark, beneath all water bodies determined by the Bureau of Land Management to be navigable because they have been or could be used in connection with travel, trade and commerce. Those water bodies are identified on the attached navigability maps, the original or which will be found in easement case file F-14887-EE.

All other water bodies not depicted as navigable on the attached maps within the lands to be conveyed were reviewed. Based on existing evidence, they were determined to be nonnavigable.

The lands excluded in the above description are not being approved for conveyance at this time and have been excluded for the following reason: Lands are under applications pending further adjudication. These exclusions *do not* constitute a rejection of the selection application, unless specifically so stated.

The conveyance issued for the surface estate of the lands described above shall contain the following reservations to the United States:

1. The subsurface estate therein, and all rights privileges, immunities, and appurtenances, of whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1613(f)); and

2. Pursuant to Sec. 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1616(b)), the following public easements, referenced by easement identification number (EIN) on the easement maps attached to this document, copies of which will be found in case file F-14887-EE, are reserved to the United States. All easements are subject to applicable Federal, State, or Municipal corporation regulation. The following is a listing of uses allowed for each type of easement. Any uses which are not specifically listed are prohibited.

25 Foot Trail—The uses allowed on a twenty-five (25) foot wide trail easement are: travel by foot, dogsled, animals, snowmobiles, two- and three-wheel vehicles, track vehicles, and small all-terrain vehicles (less than 3,000 lbs. Gross Vehicle Weight (GVW)).

One Acre Site—The uses allowed on a site easement are: vehicle parking (e.g., aircraft, boats, ATV's snowmobiles, cars, trucks), temporary camping, and loading or unloading. Temporary camping, loading, or unloading shall be limited to 24 hours.

a. (EIN 1 C4, D9) A one (1) acre site easement upland of the ordinary high water mark in Sec. 31, T. 15 N., R. 34 W., Seward Meridian, on the left bank of the Stony River. The uses allowed are those listed for a one (1) acre site easement.

b. (EIN 1b C4) An easement twenty-five (25) feet in width for a proposed access trail from site EIN 1 C4, D9 in Sec. 31, T. 15 N., R. 34 W., Seward Meridian, westerly to trail EIN 3 C3, D1, D9, in Sec. 31, T. 15 N., R. 34 W., Seward Meridian. The uses allowed are those listed for a twenty-five (25) foot wide trail easement.

c. (EIN 3 C3, D1, D9) An easement twenty-five (25) feet in width for an existing access trail from Lime Village in Sec. 30, T. 15 N., R. 34 W., Seward Meridian, southerly to public land in Sec. 12, T. 14 N., R. 35 W., Seward Meridian. The uses allowed are those

listed for a twenty-five (25) foot wide trail easement.

d. (EIN 3b C5) An easement twenty-five (25) feet in width for a proposed access trail from existing trail EIN 3 C3, D1, D9 in Sec. 30, T. 15 N., R. 34 W., Seward Meridian, northerly to the airport (airport lease AA–12763). The uses allowed are those listed for a twenty-five (25) foot wide trail easement.

e. (EIN 3c C4) An easement twenty-five (25) feet in width for a proposed access trail from site easement EIN 3d C4 in Sec. 32, T. 14 N., R. 35 W., Seward Meridian, northerly to public land. The uses allowed are those listed for a twenty-five (25) foot wide trail easement.

f. (EIN 3d C4) A one (1) acre site easement upland of the ordinary high water mark in Sec. 32, T. 14 N., R. 35 W., Seward Meridian, on the southwest shore of Kutokbuna Lake. The uses allowed are those listed for a one (1) acre site easement.

g. (EIN 3e C4) An easement twenty-five (25) feet in width for a proposed access trail from site easement EIN 3f C4 in Sec. 7, T. 14 N., R. 34 W., Seward Meridian, easterly to public land. The uses allowed are those listed for a twenty-five (25) foot wide trail easement.

h. (EIN 3f C4) A one (1) acre site easement upland of the ordinary high water mark in Sec. 7, T. 14 N., R. 34 W., Seward Meridian, on the right bank of Hungry Creek. The uses allowed are those listed for a one (1) acre site easement.

i. (EIN 3g C4) A one (1) acre site easement upland of the ordinary high water mark in Sec. 33, T. 14 N., R. 35 W., Seward Meridian, on the southeast shore of Kutokbuna Lake. The uses allowed are those listed for a one (1) acre site easement.

j. (EIN 3h C4) An easement twenty-five (25) feet in width for a proposed access trail from site easement EIN 3g C4, southeasterly to public land. The uses allowed are those listed for a twenty-five (25) foot wide trail easement.

k. (EIN 7 C4) A one (1) acre site easement upland of the ordinary high water mark in Sec. 22, T. 14 N., R. 33 W., Seward Meridian, on the left bank of the Stony River. The uses allowed are those listed for a one (1) acre site easement.

l. (EIN 7a C4) An easement twenty-five (25) feet in width for a proposed access trail from site EIN 7 C4 in Sec. 22, T. 14 N., R. 33 W., Seward Meridian, Southwesterly to public land. The uses allowed are those listed for a twenty-five (25) foot wide trail easement.

m. (EIN 7b C4) An easement twenty-five (25) feet in width for a proposed access trail from site EIN 7c C4 in Sec. 22, T. 14 N., R. 33 W., Seward Meridian, northeasterly to public land. The uses allowed are those listed for a twenty-five (25) foot wide trail easement.

n. (EIN 7c C4) A one (1) acre site easement upland of the ordinary high water mark in Sec. 22, T. 14 N., R. 33 W., Seward Meridian, on the right bank of the Stony River. The uses allowed are those listed for a one (1) acre site easement.

o. (EIN 12 C4, E) A one (1) acre site easement upland of the ordinary high water mark in Sec. 23, T. 15 N., R. 35 W., Seward Meridian, on the left bank of the Stony River. The uses allowed are those listed for a one (1) acre site easement.

p. (EIN 12a C4, E) An easement twenty-five (25) feet in width for a proposed access trail from site EIN 12 C4, E in Sec. 23, T. 15 N., R. 35 W., Seward Meridian, southerly to public land. The uses allowed are those listed for a twenty-five (25) foot wide trail easement.

The grant of the above-described lands shall be subject to:

1. Issuance of a patent after approval and filing by the Bureau of Land Management of the official supplemental plat of survey confirming the boundary description and acreage of the lands hereinabove granted;

2. Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under sec. 6(g) of the Alaska Statehood Act of July 7, 1958 (48 U.S.C. Ch. 2, Sec. 6(g))), contract, permit, right-of-way, or easement, and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him. Further, pursuant to Sec. 17(b)(2) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1616(b)(2)) (ANCSA), any valid existing right recognized by ANCSA shall continue to have whatever right of access as is now provided for under existing law;

3. Airport lease, AA–12763, located in Sec. 30, T. 15 N., R. 34 W., Seward Meridian issued to the State of Alaska, Department of Transportation and Public Facilities under the provisions of the act of May 24, 1928 (49 U.S.C. 211–214); and

4. Requirements of Sec. 14(c) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1613(c)), that the grantee hereunder convey those portions, if any, of the lands hereinabove granted, as are prescribed in said section.

Lime Village is entitled to conveyance of 69,120 acres of land selected pursuant to Sec. 12(a) of ANCSA. Together with the lands herein approved, the total acreage conveyed or approved for conveyance is approximately 63,196 acres. The remaining entitlement of approximately 5,924 acres will be conveyed at a later date.

Pursuant to Sec. 14(f) of ANCSA and Departmental regulation 43 CFR 2652.4, conveyance of the subsurface estate shall be issued to Calista Corporation when the surface estate is conveyed to Lime Village Company, and shall be to the same conditions as the surface conveyance, except for those provisions under Sec. 14(c) of ANCSA; also the right to explore, develop or remove mineral materials from the subsurface estate in lands within the boundaries of the Native Village shall be subject to the consent of Lime Village Company.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the **Federal Register** and once a week, for four (4) consecutive weeks, in the Tundra Drums.

Any party claiming a property interest in lands affected by this decision, an agency of the Federal government, or regional corporation may appeal the decision to the Interior Board of Land Appeals, Office of Hearings and Appeals, in accordance with the attached regulations in Title 43 Code of Federal Regulations (CFR) Part 4, Subpart E, as revised. However, pursuant to Pub. L. 96–487, this decision constitutes the final administrative determination of the Bureau of Land Management concerning navigability of water bodies.

If an appeal is taken the notice of appeal must be filed in the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances (960), 701 C Street, Box 13, Anchorage, Alaska 99513. Do not send the appeal directly to the Interior Board of Land Appeals. The appeal and copies of pertinent case files will be sent to the Board from this office. A copy of the appeal must be served upon the Regional Solicitor, Office of the Solicitor, 701 C Street, Box 34, Anchorage, Alaska 99513.

The time limits for filing an appeal are:

1. Parties receiving service of this decision shall have 30 days from the receipt of this decision to file an appeal.

2. Unknown parties, parties unable to be located after reasonable efforts have been expended to locate, and parties who failed or refused to sign the return

receipt shall have until November 1, 1982 to file an appeal.

Any party known or unknown who is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeals. Further information on the manner of and requirements for filing an appeal may be obtained from the Bureau of Land Management, 701 C Street, Box 13, Anchorage, Alaska 99513.

If an appeal is taken, the parties to be served with a copy of the notice of appeal are:

Lime Village Company, Lime Village, Via, Sleetmute, Alaska 99668
Calista Corporation, 516 Denali Street, Anchorage, Alaska 99501

Ann Johnson,

Chief, Branch of ANCSA Adjudication.

[F-1490.9-A]

Alaska Native Claims Selection

On November 15, 1973, Kuugpik Corporation, Inc., for the Native village of Nooiksut, filed selection application F-14909-A under the provisions of Sec. 12 of the Alaska Native Claims Settlement Act (ANCSA) of December 18, 1971 (43 U.S.C. 1601, 1611 (1976)), as amended, for the surface estate of certain lands in the vicinity of Nooiksut which were withdrawn by Secs. 11(a)(1) and 11(a)(2) of ANCSA. Section 11(a)(2) specifically withdrew, subject to valid existing rights, all lands within the townships withdrawn by Sec. 11(a)(1) that had been selected by, or tentatively approved to, but not yet patented to the State of Alaska under the Alaska Statehood Act of July 7, 1958 (48 U.S.C. Ch. 2, Sec. 6(b)).

Section 12(a)(1) of ANCSA provides that village selections shall be made from lands withdrawn by Sec. 11(a). Section 12(a)(1) further provides that no village corporation may select more than 69,120 acres from lands withdrawn by Sec. 11(a)(2).

As to the lands described below, the application, as amended, is properly filed and meets the requirements of ANCSA and of the regulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface estate of the following described lands, selected pursuant to Sec. 12(a) of ANCSA, aggregating approximately 49,600 acres, is considered proper for acquisition by Kuugpik Corporation, Inc., and is hereby approved for conveyance pursuant to Sec. 14(a) of ANCSA.

Part I.—Lands Outside Naval Petroleum Reserve No. 4

Umiat Meridian, Alaska (Surveyed)

T. 10 N., R. 4 E.

Those portions of Tract A more particularly described as (protracted):

Sec. 1, all land lying above the line of the highest high water mark east of the west bank of the Nechelik Channel of the Colville River;
Sec. 12, all land lying above the line of the highest high water mark north and east of the west bank of the Nechelik Channel of the Colville River.

Containing approximately 555 acres.

T. 11 N., R. 4 E.

Those portions of Tract A more particularly described as (protracted):

Sec. 1 and 2, all land lying above the line of highest high water mark north and east of the west bank of the Nechelik Channel of the Colville River;
Sec. 11, 12, and 13, all land lying above the line of the highest high water mark north and east of the west bank of the Nechelik Channel of the Colville River;
Secs. 24 and 36, all land lying above the line of the highest high water mark east of the west bank of the Nechelik Channel of the Colville River.

Containing approximately 2,784 acres.

T. 12 N., R. 4 E.

Those portions of Tract A more particularly described as (protracted):

Sec. 1;
Secs. 2, 3, and 4, all land lying above the line of the highest high water mark north and east of the south and west banks of the Nechelik Channel of the Colville River;
Secs. 10 and 11, all land lying above the line of the highest high water mark east of the west bank of the Nechelik Channel of the Colville River, excluding Native allotment F-11949;
Secs. 12 and 13;
Sec. 14, excluding Native allotments F-11951 and F-11949;
Sec. 15, all land lying above the line of the highest high water mark east of the west bank of the Nechelik Channel of the Colville River, excluding Native allotments F-11949 and F-11951;
Secs. 22 and 23, all land lying above the line of the highest high water mark east of the west bank of the Nechelik Channel of the Colville River;
Secs. 24 and 25;
Secs. 26 and 35, all land lying above the line of the highest high water mark east of the west bank of the Neachelik Channel of the Colville River;
Sec. 36.

Containing approximately 7,363 acres.

T. 10 N., R. 5 E.

Those portions of Tract A more particularly described as (protracted):

Secs. 2 to 6 inclusive;
Sec. 7, all land lying above the line of the highest high water mark east of the west bank of the Nechelik Channel of the Colville River;
Secs. 8 and 9;
Sec. 10, all land lying above the line of the highest high water mark west of the west bank of the Colville River and all land lying above the line of highest high water mark north of the south bank of the Nechelik Channel of the Colville River;
Secs. 15 and 16, all land lying above the line of highest high water mark north of the south bank of the Nechelik Channel of the Colville River.

Containing approximately 5,072 acres.

T. 11 N., R. 5 E.

That portion of the surveyed township more particularly described as (protracted):

Sec. 13;
Secs. 22 to 29, inclusive;
Secs. 31 to 35, inclusive.

Containing approximately 7,484 acres.

T. 11 N., R. 6 E.

That portion of the surveyed township more particularly described as (protracted):

Sec. 3;
Secs. 5, 6, 7, and 18.

Containing approximately 2,441 acres.

T. 12 N., R. 6 E.

That portion of the surveyed township more particularly described as (protracted):

Secs. 1 to 4, inclusive;
Secs. 9 to 16, inclusive;
Secs. 20 to 29, inclusive;
Secs. 32 to 36, inclusive.

Containing approximately 12,354 acres.

Aggregating approximately 38,053 acres.

Part II.—Lands Within or Outside Naval Petroleum Reserve No. 4

Umiat Meridian, Alaska (Surveyed)

T. 10 N., R. 4 E.

That portion of Tract A more particularly described as (protracted):

Sec. 1, all land lying above the line of the highest high water mark west of the west bank of the Nechelik Channel of the Colville River.

Containing approximately 35 acres.

T. 11 N., R. 4 E.

Those portions of Tract A more particularly described as (protracted):

Secs. 11, 13, 24, and 36, all land lying above the line of the highest high water mark west of the west bank of the Nechelik Channel of the Colville River;

That portion of Tract B more particularly described as (protracted):

Sec. 11, all land lying above the line of the highest high water mark west of the west bank of the Nechelik Channel of the Colville River.

Containing approximately 511 acres.

T. 12 N., R. 4 E.

Those portions of Tract A more particulary described as (protracted):

Secs. 3, 4, 10, and 15, all land lying above the line of the highest high water mark south and west of the west bank of the Nechelik Channel of the Colville River;

Those portions of Tract B more particulary described as (protracted):

Sec. 15, all land lying above the line of the highest high water mark west of the west bank of the Nechelik Channel of the Colville River, excluding Native allotments F–11943 and F–11947;

Sec. 22, all land lying above the line of the highest high water mark west of the west bank of the Nechelik Channel of the Colville River, excluding Native allotments F–11943;

Secs. 26, 27, and 35, all land lying above the line of the highest high water mark west of the west bank of the Nechelik Channel of the Colville River.

Containing approximately 1,665 acres.

T. 10 N., R. 5 E.

Those portions of Tract A more particulary described as (protracted):

Sec. 10, all land lying above the line of the highest high water mark east of the west bank of the Colville River and all land lying above the line of the highest high water mark west of the Colville River and southeast of the southeastern bank of the Nechelik Channel of the Colville River;

Secs. 11 and 14;

Sec. 15, all land lying above the line of the highest high water mark southeast of the southeastern bank of the Nechelik Channel of the Colville River.

Sec. 16, all land lying above the line of the highest high water mark south of the southeastern bank of the Nechelik Channel of the Colville River and east of the highest high water mark of the western bank of the Nechelik Channel of the Colville River;

Secs. 21, 22, and 23;

Secs. 27 and 28;

Sec. 32, all land lying above the line of the highest high water mark east of the west bank of the Nechelik Channel of the Colville River, excluding Native allotment F–14607;

Sec. 33, excluding Native allotment F–14607;

That portion of Tract B more particularly described as (protracted):

Sec. 32, all land lying above the line of the highest high water mark west of the west bank of the Nechelik Channel of the Colville River.

Containing approximately 5,190 acres.

Aggregating approximately 7,410 acres.

Part III.—Lands Within Naval Petroleum Reserve No. 4

Umiat Meridian, Alaska (Surveyed)

T. 10 N., R. 4 E.

Those portions of Tract B more particularly described as (protracted):

Sec. 12.

Containing approximately 335 acres.

T. 11 N., R. 4 E.

That portion of Tract B more particularly described as (protracted):

Sec. 5;

Secs. 7 and 8;

Secs. 21, 28, and 33.

Containing approximately 3,796 acres.

T. 10 N., R. 5 E.

Tract C.

Containing 5.53 acres.

Aggregating approximately 4,137 acres.

Total aggregated acreage approximately 49,600 acres.

Excluded from the above-described lands herein approved for conveyance are the submerged lands in the bed of the Colville River and in the beds of the Nechelik Channel, Kupigruak Channel, Elaktoveach Channels, Tamayayak Channel, and Sakoonang Channel; these lands are reserved in public ownership, pursuant to Sec. 1431(n), Pub. L. 96–487 of December 2, 1980.

Also excluded from the above-described lands herein approved for conveyance are the following water bodies for which a final determination as to tidal influence has been made:

a. The Kachemach River from its confluence with the Colville River to the northeast boundary of Sec. 29, T. 11 N., R. 6 E., Umiat Meridian, and the unnamed slough from its confluence with the Kachemach River to the unnamed lake in Sec. 5, T. 11 N., R. 6 E., Umiat Meridian; and

b. The Miluveach River from its confluence with the Colville River to the north boundary of Sec. 36, T. 12 N., R. 6 E., Umiat Meridian.

The lands excluded in the above description are not being approved for conveyance at this time and have been excluded as the lands are under applications pending further adjudication. These exclusions *do not* constitute a rejection of the selection applications, unless specifically so stated.

The conveyance issued for the surface estate of the lands described above shall contain the following reservations to the United States:

1. The subsurface estate therein, and all rights, privileges, immunities, and appurtenances, of whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1613(f));

2. Pursuant to Sec. 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1616(b)), the following public easements, referenced by easement identification number (EIN) on the easement maps attached to this document, copies of which will be found in case file F–14909–EE, are reserved to the United States. All easements are subject to applicable Federal, State, or municipal corporation regulation. The following is a listing of uses allowed for each type of easement. Any uses which are not specifically listed are prohibited.

One Acre Site—The uses allowed for a site easement are: vehicle parking (e.g., aircraft, boats, ATV's, snowmobiles, cars, trucks), temporary camping, and loading or unloading. Temporary camping, loading, or unloading shall be limited to 24 hours.

a. (EIN 7a C5) A one (1) acre site easement upland of the ordinary high water mark located in Sec. 24, T. 11 N., R. 5 E., Umiat Meridian, on the right bank of the Colville River. The uses allowed are those listed above for a one (1) acre site.

b. (EIN 8 M) A one (1) acre site easement upland of the ordinary high water mark located in Sec. 11, T. 11 N., R. 4 E., Umiat Meridian, on the left bank of the Nechelik Channel of the Colville River. The uses allowed are those listed above for a one (1) acre site.

3. In addition to the foregoing, the United States incorporates by reference the agreement of May 14, 1974, between the United States Department of the Navy, Arctic Slope Regional Corporation, Kuugpik Corporation Inc., and three other Native village corporations, to reserve those easements necessary to implement said agreement. A copy of the agreement is located in Bureau of Land Management case file F–14909–EE.

The grant of the above-described lands shall be subject to:

1. Issuance of a patent after approval and filing by the Bureau of Land Management of the official plats or supplemental plats of survey confirming the boundary description and acreage of the lands hereinabove granted;

2. Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under Sec. 6(g) of the Alaska Statehood Act of July 7, 1958 (48 U.S.C. Ch. 2, Sec. 6(g))), contract, permit, right-of-way, or easement, and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him. Further, pursuant to Sec. 17(b)(2) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1616(b)(2)) (ANCSA), any valid existing right recognized by ANCSA shall continue to have whatever right of access as is now provided for under existing law;

3. The following third-party interests, if valid, created and identified by the

State of Alaska, Department of Natural Resources, Division of Lands, as provided by Sec. 14(g) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1613(g)):

a. Oil and gas lease, ADL 25526, issued February 1, 1965, located in Secs. 10, 11, 12, and 13, T. 12 N., R. 4 E. Umiat Meridian.

b. Oil and gas lease, ADL 25529, issued February 1, 1965, located in Secs. 14, 15, 22, and 23, T. 12 N., R. 4 E., Umiat Meridian.

c. Oil and gas lease, ADL 25530, issued February 1, 1965, located in Secs. 24, 25, 26, 27, and 35, T. 12 N., R. 4 E., Umiat Meridian.

d. Oil and gas lease, ADL 25561, issued February 1, 1965, located in Secs. 5, 6, and 7, T. 11 N., R. 6 E., Umiat Meridian.

e. Oil and gas lease, ADL 25562, issued February 1, 1965, located in Sec. 3, T. 11 N., R. 6 E., Umiat Meridian.

f. Oil and gas lease, ADL 25578, issued February 1, 1965, located in Sec. 18, T. 11 N., R. 6 E., Umiat Meridian.

g. Oil and gas lease, ADL 25535, issued February 1, 1965, located in Secs. 1, 2, 11, and 12, T. 12 N., R. 6 E., Umiat Meridian.

h. Oil and gas lease, ADL 25536, issued February 1, 1965, located in Secs. 3, 4, 9, and 10, T. 12 N., R. 6 E., Umiat Meridian.

i. Oil and gas lease, ADL 25539, issued February 1, 1965, located in Sec. 20, T. 12 N., R. 6 E., Umiat Meridian.

j. Oil and gas lease, ADL 25540, issued February 1, 1965, located in Secs. 15, 16, 21, and 22, T. 12 N., R. 6 E., Umiat Meridian.

k. Oil and gas lease, ADL 25529, issued February 1, 1965, located in Secs. 13, 14, 23, and 24, T. 12 N., R. 6 E., Umiat Meridian.

l. Oil and gas lease, ADL 25554, issued February 1, 1965, located in Secs. 25, 26, 35, and 36, T. 12 N., R. 6 E., Umiat Meridian.

m. Oil and gas lease, ADL 25555, issued February 1, 1965, located in Secs. 27, 28, 33, and 34, T. 12 N., R. 6 E., Umiat Meridian.

n. Oil and gas lease, ADL 25556, issued February 1, 1965, located in Secs. 29 and 32, T. 12 N., R. 6 E., Umiat Meridian.

4. Paragraph IX of the Terms and Conditions for Land Exchanges and Resolution of Conveyancing Issues in Arctic Slope Region between the Department of the Interior and Arctic Slope Regional Corporation, entered into on the 29th day of June, 1979, copy of which will be found in case file F–14909–A; and

5. Requirements of Sec. 14(c) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1613(c)), that the grantee hereunder convey those portions, if any, of the lands hereinabove granted, as are prescribed in said section.

Kuugpik Corporation, Inc., is entitled to conveyance of 115,200 acres of land selected pursuant to Sec. 12(a) of the Alaska Native Claims Settlement Act. Together with the lands herein approved, the total acreage conveyed or approved for conveyance is approximately 92,341 acres. The remaining entitlement of approximately 22,859 acres will be conveyed at a later date.

Pursuant to Sec. 14(f) of ANCSA and Departmental regulation 43 CFR 2652.4, conveyance of the subsurface estate of Part I of the above-described lands shall be issued to Arctic Slope Regional Corporation when the surface estate is conveyed to Kuugpik Corporation, Inc., and shall be subject to the same conditions as the surface conveyance, except for those provisions under Sec. 14(c) of ANCSA; also the right to explore, develop or remove mineral materials from the subsurface estate in lands within the boundaries of the Native Village shall be subject to the consent of Kuugpik Corporation, Inc.

Part II of the above-described lands are involved in the National Petroleum Reserve in Alaska (NPR–A) boundary dispute (*State of Alaska* v. *Warner et al.*, Civil Action No. J75–13, United States District Court for the District of Alaska); conveyance of the subsurface estate of portions of these lands, if any, which actually lie outside of NPR–A will be issued to Arctic Slope Regional Corporation pursuant to Sec. 14(f) of ANCSA, when a final determination of the boundary has been made. No conveyance will be made of the subsurface estate of any lands determined to lie within NPR–A, or in lands described in Part III.

Section 12(a)(1) of ANCSA provides that when a village corporation selects the surface estate of lands within this reserve, the regional corporation may make in-lieu selections of subsurface estate, in an equal acreage, from other lands withdrawn by subsection 11(a) of the act; therefore, Arctic Slope Regional Corporation is entitled to approximately 31,575 acres in-lieu subsurface estate, which equals the cumulative total of the acreage in Part III, and the lands within NPR–A previously conveyed to Kuugpik Corporation, Inc. Additional in-lieu subsurface estate equal in acreage to those in Part II, if any, which are determined to lie within NPR–A will also be conveyed to Arctic Slope Regional Corporation at a later date.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the **Federal Register** and once a week, for four (4) consecutive weeks, in the Tundra Times.

Any party claiming a property interest in lands affected by this decision, an agency of the Federal government, or regional corporation may appeal the decision to the Interior Board of Land Appeals, Office of Hearings and Appeals, in accordance with the attached regulations in Title 43 Code of Federal Regulations (CFR), Part 4, Subpart E, as revised. However, pursuant to Pub. L. 96–487, this decision constitutes the final administrative determination of the Bureau of Land Management concerning navigability of water bodies.

If an appeal is taken the notice of appeal must be filed in the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances (960), 701 C Street, Box 13, Anchorage, Alaska 99513. Do not send the appeal directly to the Interior Board of Land Appeals. The appeal and copies of pertinent case files will be sent to the Board from this office. A copy of the appeal must be served upon the Regional Solicitor, 701 C Street, Box 34, Anchorage, Alaska 99513.

The time limits for filing an appeal are:

1. Parties receiving service of this decision shall have 30 days from the receipt of this decision to file an appeal.

2. Unknown parties, parties unable to be located after reasonable efforts have been expended to locate, and parties who failed to refused to sign the return receipt shall have until November 1, 1982 to file an appeal.

Any party known or unknown who is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeal. Further information on the manner of and requirements for filing an appeal may be obtained from the Bureau of Land Management, 701 C Street, Box 34, Anchorage, Alaska 99513.

If an appeal is taken, the parties to be served with a copy of the notice of appeal are:

Kuugpik Corporation, Inc., Nooiksut (Nuiqsut), Alaska 99724

Arctic Slope Regional Corporation, P.O. Box 129, Barrow, Alaska 99723
State of Alaska, Department of Natural Resources, Division of Research and Development, Pouch 7-005, Anchorage, Alaska 99510

Ann Johnson,

Chief, Branch of ANCSA Adjudication.

[FR Doc. 82-27114 Filed 9-30-82; 8:45 am]
BILLING CODE 4310-84-M

[F-14925-A, F-14925-B]

Alaska Native Claims Selection

On August 30, 1974, and December 3, 1974, Dineega, Corporation, for the Native village of Ruby, filed selection applications F-14925-A and F-14925-B, respectively, under the provisions of Sec. 12 of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1611 (1976)) (ANCSA), as amended, for the surface estate of certain lands in the vicinity of Ruby.

Dineega, Corporation, in its applications, excluded all of the Melozitna River, Big Creek, and Deer Creek as being navigable.

Because Big Creek, Deer Creek, and a portion of the Melozitna River have been determined to be nonnavigable, they are considered to be public lands withdrawn under Sec. 11(a)(1) and available for selection by the village pursuant to Sec. 12(a) of ANCSA.

Section 12(a) of ANCSA and Departmental regulation 43 CFR 2651.4(b) and (c) provide that the village corporation shall select all available lands within the township or townships within which the village is located. The regulations also provide that the area selected will not be considered to be reasonably compact if it excludes other lands available for selection within its exterior boundaries.

For these reasons, the water bodies which are improperly excluded in the applications of Dineega, Corporation are considered selected.

As to the lands described below, the applications, as amended, are properly filed and meet the requirements of the Alaska Native Claims Settlement Act, as amended, and of the regulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface estate of the following described lands, selected pursuant to Sec. 12(a) of ANCSA, as amended, aggregating approximately 109,212 acres, is considered proper for acquisition by Dineega, Corporation and is hereby approved for conveyance pursuant to Sec. 14(a) of ANCSA.

Tract H of U.S. Survey No. 5088, Alaska, situated on the left bank of the Yukon River at Ruby, Alaska.

Containing 10.61 acres.

Kateel River Meridian, Alaska (Surveyed)

Secs. 19 and 30.
Containing approximately 4,199 acres.
Aggregating approximately 109,201 acres.
Total aggregated acreage approximately 109,212 acres.

Excluded from the above-described lands herein approved for conveyance are the submerged lands, up to the ordinary high water mark, beneath all water bodies determined by the Bureau of Land Management to be navigable because they have been or coud be used in connection with travel, trade and commerce. Those water bodies are identified on the attached navigability maps, the original of which will be found in easement case file F–14925–EE.

All other water bodies not depicted as navigable on the attached maps within the lands to be conveyed were reviewed. Based on existing evidence, they were determined to be nonnavigable.

The lands excluded in the above description are not being approved for conveyance at this time and have been excluded for the following reasons: Lands are no longer under Federal jurisdiction or lands are under applications pending further adjudication. Lands within U.S. surveys which are excluded are described separately in this decision if they are available for conveyance. These exclusions *do not* constitute a rejection of the selection application, unless specifically so stated.

The conveyance issued for the surface estate of the lands described above shall contain the following reservations to the United States:

1. The subsurface estate therein, and all rights, privileges, immunities, and appurtenances, of whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1613(f)), as amended; and

2. Pursuant to Sec. 17(b) of the Alaska Native Claims Settlement act of December 18, 1971 (43 U.S.C. 1601, 1616(b)), as amended, the following public easements, referenced by easement identification number (EIN) on the easement maps attached to this document, copies of which will be found in case file F–14925–EE, are reserved to the United States. All easements are subject to applicable Federal, State, or Municipal corporation regulation. The following is a listing of uses allowed for each type of easement. Any uses which are not specifically listed are prohibited.

25 Foot Trail—The uses allowed on a twenty-five (25) foot wide trail easement are: travel by foot, dogsled, animals, snowmobiles, two- and three-wheel vehicles, and small all-terrain vehicles (ATV's) (less than 3,000 lbs. Gross Vehicle Weight (GVW)).

50 Foot Trail—The uses allowed on a fifty (50) foot wide trail easement are: travel by foot, dogsled, animals, snowmobiles, two- and three-wheel vehicles, small and large all-terrain vehicles, track vehicles and four-wheel drive vehicles.

60 Foot Road—The uses allowed on a sixty (60) foot wide road easement are: travel by foot, dogsled, animals, snowmobiles, two- and three-wheel vehicles, small and large all-terrain vehicles, track vehicles, four-wheel drive vehicles, automobiles, and trucks.

One Acre Site—The uses allowed for a site easement are: vehicle parking (e.g., aircraft, boats, ATV's, snowmobiles, cars, trucks), temporary camping, and loading or unloading. Temporary camping, loading, or unloading shall be limited to 24 hours.

a. (EIN 6 C5) A site easement upland of the ordinary high water mark in Sec. 25, T. 7 S., R. 16 E., Kateel River Meridian, on the right bank of the Melozitna River. This site is one (1) acre in size with an additional twenty-five (25) foot wide easement on the bed of the stream along the entire waterfront of the site. The uses allowed are those listed for a one (1) acre site.

b. (EIN 7 C5) An easement of fifty (50) feet in width for a proposed access trail from site EIN 6 C5 in Sec. 25, T. 7 S., R. 16 E., Kateel River Meridian, northwesterly to public land. The uses allowed are those listed for a fifty (50) foot wide trail easement. Large all-terrain vehicles (greater than 3,000 lbs. gross vehicle weight), track vehicles, and four-wheel drive vehicles will be limited to winter use only.

c. (EIN 11b C5, L) An easement of fifty (50) feet in width for an existing in-part and proposed in-part access trail from Federal Aid Secondary (FAS) Route No. 271 (Ruby-Poorman Road) in Sec. 27, T. 10 S., R. 17 E., Kateel River Meridian, easterly to public land. The uses allowed are those listed for a fifty (50) foot wide trail easement.

d. (EIN 11c C5, L) An easement of sixty (60) feet in width for an existing road from the village airstrip in Sec. 9, T. 9 S., R. 17 E., Kateel River Meridian, southwesterly to Federal Aid Secondary (FAS) Route No. 271 (Ruby-Poorman Road).

e. (EIN 11d E) An easement of twenty-five (25) feet in width for a proposed access trail from the northern end of the Ruby airstrip in Sec. 4, T. 9 S., R. 17 E., Kateel River Meridian, generally easterly, then southerly to public land. The uses allowed are those listed for a twenty-five (25) foot wide trail easement.

f. (EIN 12a C5) An easement of fifty (50) feet in width for a proposed access trail from Federal Aid Secondary (FAS) Route No. 271 (Ruby-Poorman Road) in Sec. 29, T. 9 S., R. 17 E., Kateel River Meridian, westerly to public land. The uses allowed are those listed for a fifty (50) foot wide trail easement.

g. (EIN 26 C5) An easement of fifty (50) feet in width for a proposed access trail from Federal Aid Secondary (FAS) Route No. 271 (Ruby-Poorman Road) in Sec. 15, T. 10 S., R. 17 E., Kateel River Meridian, southwesterly to public land. The uses allowed are those listed for a fifty (50) foot wide trail easement.

h. (EIN 31 D1) An easement of fifty (50) feet in width for a proposed access trail from the left bank of the Melozitna River in Sec. 13, T. 8 S., R. 16 E., Kateel River Meridian, northerly to public land. The uses allowed are those listed for a fifty (50) foot wide trail easement. Large all-terrain vehicles (greater than 3,000 lbs. gross vehicle weight), track vehicles, and four-wheel drive vehicles will be limited to winter use only.

i. (EIN 31a D1) A one (1) acre site easement upland of the ordinary high water mark in Sec. 13, T. 8 S., R. 16 E., Kateel River Meridian, on the left bank of the Melozitna River. The uses allowed are those listed for a one (1) acre site.

The grant of the above-described lands shall be subject to:

1. Issuance of a patent after approval and filing by the Bureau of Land Management of the official supplemental plat of survey confirming the boundary description and acreage of the lands hereinabove granted;

2. Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under Sec. 6(g) of the Alaska Statehood Act of July 7, 1958 (48 U.S.C. Ch. 2, Sec. 6(g))), contract, permit, right-of-way, or easement, and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him. Further, pursuant to Sec. 17(b)((2) of the Alaska Native Claims

Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1616(b)(2)) (ANCSA), as amended, any valid existing right recognized by ANCSA shall continue to have whatever right of access as is now provided for under existing law;

3. Any right-of-way interest in the Ruby-Poorman Road (FAS Route No. 271) transferred to the State of Alaska by the Quitclaim Deed dated June 30, 1959, executed by the Secretary of Commerce under the authority of the Alaska Omnibus Act, Pub. L. 86–70 (73 Stat. 141) as to: Secs. 4, 5, 8, 9, 16, 17, 20, 29, and 32, T. 9 S., R. 17 E.; Secs. 4, 5, 9, 10, 15, 22, 26, 27, and 34, T. 10 S., R. 17 E.; and Secs. 3, 4, 8, 9, 17, 18, 20, 29, 31, and 32, T. 11 S., R. 17 E., Kateel River Meridian;

4. Any right-of-way interest in the Ruby Airfield Road (FAS Route No. 2711) transferred to the State of Alaska by the Quitclaim Deed dated June 30, 1959, executed by the Secretary of Commerce under the authority of the Alaska Omnibus Act, Public Law 86–70 (73 Stat. 141) as to: Sec. 4, T. 9 S., R. 17 E., Kateel River Meridian; and

5. Requirements of Sec. 14(c) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1613(c)), as amended, that the grantee hereunder convey those portions, if any, of the lands hereinabove granted, as are prescribed in said section.

School site lease, F–24224, located in Sec. 4, T. 9 S., R. 17 E., Kateel River Meridian, was granted to the State of Alaska, pursuant to and subject to the terms and conditions of Sec. 302 of the Federal Land Policy and Management Act of October 21, 1976 (90 Stat. 2743) and the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. Sec 1622(i)). According to the terms of the lease, it is to terminate upon conveyance of title of said land out of United States ownership.

Dineega, Corporation is entitled to conveyance of 115,200 acres of land selected pursuant to Sec. 12(a) of ANCSA. Together with the lands herein approved, the total acreage conveyed or approved for conveyance is approximately 109,212 acres. The remaining entitlement of approximately 5,988 acres will be conveyed at a later date.

Pursuant to Sec. 14(f) of ANCSA and Departmental regulation 43 CFR 2652.4, conveyance of the subsurface estate shall be issued to Doyon, Limited when the surface estate is conveyed to Dineega, Corporation, and shall be subject to the same conditions as the surface conveyance, except for those provisions under Sec. 14(c) of ANCSA; also the right to explore, develop, or remove mineral materials from the subsurface estate in lands within the boundaries of the Native village of Ruby shall be subject to the consent of Dineega, Corporation.

In accordance with Departmental regulation 43 CFR 2650.6(d), notice of this decision is being published once in the Federal Register and once a week, for four (4) consecutive weeks, in the Fairbanks Daily News-Miner.

Any party claiming a property interest in lands affected by this decision, an agency of the Federal government, or regional corporation may appeal the decision to the Interior Board of Land Appeals, Office of Hearings and Appeals, in accordance with the attached regulations in Title 43 Code of Federal Regulations (CFR), Part 4, Subpart E as revised. However, pursuant to Pub. L. 96–487, this decision constitutes the final administrative determination of the Bureau of Land Management concerning navigability of water bodies.

If an appeal is taken the notice of appeal must be filed in the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances (960), 701 C Street, Box 13, Anchorage, Alaska 99513. Do not send the appeal directly to the Interior Board of Land Appeals. The appeal and copies of pertinent case files will be sent to the Board from this office. A copy of the appeal must be served upon the Regional Solicitor, 701 C Street, Box 34, Anchorage, Alaska 99513.

The time limits for filing an appeal are:

1. Parties receiving service of this decision shall have 30 days from the receipt of this decision to file an appeal.

2. Unknown parties, parties unable to be located after reasonable efforts have been expended to locate, and parties who failed or refused to sign the return receipt shall have until November 1, 1982 to file an appeal.

Any party known or unknown who is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeals. Further information on the manner of the requirements for filing an appeal may be obtained from the Bureau of Land Management, 701 C Street, Box 13, Anchorage, Alaska 99513.

If an appeal is taken, the parties to be served with a copy of the notice of appeal are:

State of Alaska, Department of Natural Resources, Division of Research and Development, Pouch 7–005, Anchorage, Alaska 99510

Dineega, Corporation, Ruby, Alaska 99768

Doyon, Limited, Land Department, Doyon Building, 201 First Avenue, Fairbanks, Alaska 99701

Ann Johnson,

Chief, Branch of ANCSA Adjudication.

Alaska Native Claims Selection

On November 15, 1974, Upper Kalskag Incorporated, for the Native village of Upper Kalskag, filed selection application F–14871–A, as amended, under the provisions of Sec. 12(a) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1611 (1976)(ANCSA), for the surface estate of certain lands in the vicinity of Upper Kalskag.

On April 25, 1977, in accordance with Title 10, Chapter 05, Secs. 396 and 399 of the Alaska Business Corporation Act, and as authorized by 43 U.S.C. 1627, Georgetown Incorporated, a domestic corporation, merged with Aniak Limited, Chuathbaluk Company, Kipchaughpuk Limited, Lower Kalskag Incorporated, Napamute Limited, Red Devil Incorporated, Sleetmute Limited, Stony River Ltd., and Upper Kalskag Incorporated, all domestic corporations, into Georgetown Incorporated, which consolidated individual village interests into one single constituent corporation whose name was changed to The Kuskokwim Corporation. The surviving corporation, The Kuskokwim Corporation, is entitled to all rights, privileges, and benefits of the Alaska Native Claims Settlement Act.

As to the lands described below, selection application F–14871–A, as amended, is properly filed and meets the requirements of the Alaska Native Claims Settlement Act and of the regulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface estate of the following described lands, selected pursuant to Sec. 12(a) of ANCSA, aggregating approximately 81,292 acres, is considered proper for acquisition by The Kuskokwim Corporation (for the village of Upper Kalskag) and is hereby approved for

conveyance pursuant to Sec. 14(a) of ANCSA:

Seward Meridian, Alaska (Surveyed)

T. 17 N., R. 60 W.
Secs. 1 to 8, inclusive;
Sec. 9, excluding Native allotments F–15595 and F–15596;
Sec. 10, excluding Native allotments F–15596 and F–17343 Parcel A;
Secs. 11 and 12;
Sec. 13, excluding Native allotment F–16849;
Sec. 14, excluding Native allotment F–029276;
Sec. 15, excluding Native allotments F–029276, F–15596, and F–17343 Parcel A;
Sec. 16, excluding Native allotments F–15595 and F–15596;
Sec. 17, excluding Native allotment F–16206 Parcel A;
Sec. 18, excluding Native allotment F–15590;
Sec. 19, excluding U.S. Survey No. 871 and Native allotment F–15590;
Sec. 20, excluding U.S. Survey No. 871 and U.S. Survey No. 4136 and Native allotments F–029277, F–16206 Parcel A and F–17347 Parcel A;
Sec. 21, excluding Native allotment F–17347 Parcel B;
Sec. 22, excluding Native allotments F–029276 and F–17345 Parcel A;
Sec. 23, excluding U.S. Survey No. 4166 and Native allotments F–029276, F–16020 Parcel B and F–16351 Parcel A;
Sec. 24, excluding Native allotment F–16020 Parcel B;
Sec. 28, excluding Native allotment F–15600;
Sec. 29, excluding U.S. Survey No. 871 and Native allotments F–15600 and F–17347 Parcel A;
Sec. 30, excluding U.S. Survey No. 871.
Containing approximately 13,819 acres.

T. 18 N., R. 60 W.
Secs. 3 to 11, inclusive;
Secs. 14 to 36, inclusive.
Containing approximately 20,384 acres.

T. 19 N., R. 60 W.
Sec. 31, excluding Native allotment F–15653;
Secs. 32, 33 and 34.
Containing approximately 2,378 acres.

T. 17 N., R. 61 W.
Secs. 1, 2 and 3;
Secs. 4 and 5, excluding Native allotment F–17346;
Secs. 6 and 7;
Secs. 8 and 9, excluding Native allotment F–17346;
Secs. 10 to 21, inclusive;
Sec. 22, excluding Native allotment F–029271;
Sec. 23, excluding Native allotment F–13113;
Sec. 24;
Sec. 25, excluding Native allotment F–029261;
Sec. 26, excluding U.S. Survey No. 4165 and Native allotments F–029261, F–029260 and F–13113;
Sec. 27, excluding U.S. Survey No. 3777 and U.S. Survey No. 4413 and Native allotments F–029271, F–17344 and F–17382;
Sec. 28, excluding U.S. Survey No. 3777 and U.S. Survey No. 4413;
Secs. 29 and 30;
Sec. 31, excluding Native allotment F–17376;
Sec. 32, excluding U.S. Survey No. 4409 and U.S. Survey No. 4414;
Sec. 33, excluding U.S. Survey No. 4409, U.S. Survey No. 4413 and U.S. Survey No. 4414 and Native allotments F–029405, F–17378, F–17381 and F–17383;
Sec. 34, excluding Native allotments F–17344, F–17378, F–17381, F–17382 and F–17383;
Secs. 35 and 36.
Containing approximately 18,212 acres.

T. 18 N., R. 61 W.
Sec. 1, excluding Native allotment F–15589;
Sec. 2, excluding Native allotments F–15589 and F–17385 Parcel A;
Sec. 11, excluding Native allotment F–15589;
Sec. 12, excluding Native allotments F–029260, F–029275 Parcel B and F–15589;
Secs. 13 and 24;
Sec. 25, excluding Native allotment F–15599;
Secs. 33 and 34;
Sec. 35, excluding Native allotment F–15599;
Sec. 36.
Containing approximately 4,362 acres.

T. 19 N., R. 61 W.
Sec. 35, excluding Native allotment F–17385 Parcel A;
Sec. 36.
Containing approximately 1,230 acres.

T. 17 N., R. 62 W.
Sec. 1, excluding Native allotment F–17303 Parcel B;
Sec. 2, excluding Native allotments F–17303 Parcel B, F–17379 Parcel B and F–17385 Parcel B;
Secs. 11 to 17, inclusive;
Secs. 20 and 21;
Sec. 22, excluding Native allotment F–17380 Parcel B;
Secs. 23 to 26, inclusive.
Sec. 27, excluding Native allotment F–17380 Parcel B;
Sec. 28;
Secs. 33 to 36, inclusive.
Containing approximately 12,960 acres.

Seward Meridian, Alaska (Unsurveyed)

T. 17 N., R. 58 W.
Secs. 5 and 6;
Sec. 7, excluding Native allotment F–16848;
Sec. 8;
Sec. 9, excluding U.S. Survey No. 6479 and Native allotment F–17377 Parcel A and F–17952 Parcel A;
Sec. 10, excluding U.S. Survey No. 6479 and Native allotment F–17952 Parcel A;
Secs. 11 to 14, inclusive;
Sec. 15, excluding U.S. Survey No. 6479 and Native allotment F–17952 Parcel A;
Sec. 16, excluding U.S. Survey No. 6479 and Native allotments F–029262 Parcel B, F–16851, F–17377 Parcel A and F–17952 Parcel A;
Sec. 17, excluding U.S. Survey No. 4142 and Native allotments F–029262 Parcel A, F–15701 Parcel B and F–16190 Parcel A;
Sec. 18, excluding Native allotments F–16848 and F–16919;
Sec. 19, excluding Native allotment F–16847;
Sec. 20, excluding Native allotment F–029262 Parcel A and F–15701 Parcel A;
Sec. 21, excluding Native allotments F–029262 Parcel B, F–16205 Parcel A and F–16851;
Sec. 22.
Containing approximately 7,547 acres.

T. 18 N., R. 62 W.
Sec. 35.
Containing approximately 400 acres.
Aggregating approximately 61,292 acres.

Excluded from the above-described lands herein approved for conveyance are the submerged lands, up to the ordinary high water mark, beneath all water bodies determined by the Bureau of Land Management to be navigable because they have been or could be used in connection with travel, trade and commerce. The following named water bodies, together with any unnamed water bodies, are identified on the attached navigability maps, the original of which will be found in easement case file F–14871–EE.

Kuskokwim River
Mud Creek
Crooked Creek
Arhymot Lake

All other water bodies not depicted as navigable on the attached maps within the lands to be conveyed were reviewed. Based on existing evidence, they were determined to be nonnavigable.

The lands excluded in the above description are not being approved for conveyance at this time and have been excluded for one or more of the following reasons: Lands are no longer under Federal jurisdiction; lands are under applications pending further adjudication; lands are pending a determination under Sec. 3(e) of ANCSA; or lands were previously rejected by decision. Lands within U.S. Surveys which are excluded are described separately in this decision if they are available for conveyance. These exclusions *do not* constitute a rejection of the selection application, unless specifically so stated.

The conveyance issued for the surface estate of the lands described above shall contain the following reservations to the United States:

1. The subsurface estate therein, and all rights, privileges, immunities, and appurtenances, of whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of

December 18, 1971, 43 U.S.C. 1601, 1613(f); and

2. Pursuant to Sec. 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1616(b), the following public easements, referenced by easement identification number (EIN) on the easement maps attached to this document, copies of which will be found in case file F–14871–EE, are reserved to the United States. All easements are subject to applicable Federal, State, or Municipal corporation regulation. The following is a listing of used allowed for each type of easement. Any uses which are not specifically listed are prohibited.

25 Foot Trail—The uses allowed on a twenty-five (25) foot wide trail easement are: travel by foot, dogsled, animals, snowmobiles, two- and three-wheel vehicles, and small all-terrain vehicles (ATV's) (less than 3,000 lbs. Gross Vehicles Weight (GVW)).

50 Foot Trail—The uses allowed on a fifty (50) foot wide trail easement are: travel by foot, dogsled, animals, snowmobiles, two- and three-wheel vehicles, small and large all-terrain vehicles, track vehicles and four-wheel drive vehicles.

One Acre Site—The uses allowed on a one (1) acre site easement are: vehicle parking (e.g., aircraft, boats, ATVs, snowmobiles, cars trucks), temporary camping, and loading or unloading. Temporary camping, loading or unloading shall be limited to 24 hours.

a. (EIN 2 C3, D1, D9) An easement twenty-five (25) feet in width for an existing access trail from the village of Upper Kalskag northerly to public land. The uses allowed are those listed for a twenty-five (25) foot wide trail easement. The season of use will be limited to winter.

b. (EIN 4 C5) An easement fifty (50) feet in width for an existing in part, proposed in part access trail from Mud Creek in the SE¼ Sec. 27, T. 17 N., R. 62 W., Seward Meridian, northwesterly to Crooked Creek in the SW¼, Sec. 22, T. 17 N., R. 62 W., Seward Meridian. The uses allowed ar those listed for fifty (50) foot wide trail easement.

c. (EIN 4a C4) A one (1) acre site easement upland of the ordinary high water mark on the right bank of Mud Creek in the SE¼, Sec. 27, T. 17 N., R. 62 W., Seward Meridian. The uses allowed are those listed for a one (1) acre site easement.

d. (EIN 4b C4) A one (1) acre site easement upland of the ordinary high water mark on the left bank of Crooked Creek in the SW¼, Sec. 22, T. 17 N., R. 62 W., Seward Meridian. The uses allowed are those listed for a one (1) acre site easement.

e. (EIN 8 C5) A one (1) acre site easement upland of the ordinary high water mark on the downriver end of the unnamed island in the Kuskokwim River in the S½, Sec. 12, T. 17 N., R. 59 W., Seward Meridian. The uses allowed are those listed for a one (1) acre site easement.

f. (EIN 8b C4, C5) A one (1) acre site easement upland of the ordinary high water mark on the downstream end of a small unnamed island in the Kuskokwim River in the NE¼, Sec. 20, T. 17 N., R. 60 W., Seward Meridian. The uses allowed are those listed for a one (1) acre site easement.

The grant of the above-described lands shall be subject to:

1. Issuance of a patent after approval and filing by the Bureau of Land Management of the official plat, or supplemental plat, of survey confirming the boundary description and acreage of the lands hereinabove granted;

2. Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under Sec. 6(g) of the Alaska Statehood Act of July 7, 1958, 48 U.S.C. Ch. 2, Sec. 6(g)), contract, permit, right-of-way, or easement, and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him. Further, pursuant to Sec. 17(b)(2) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1616(b)(2) (ANCSA), any valid existing right recognized by ANCSA shall continue to have whatever right of access as is now provided for under existing law;

3. The following third-party interest identified by the U.S. Department of the Interior, Fish and Wildlife Service, as provided by Sec. 14(g) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1613(g).

Right-of-way grant, T–130–YD issued to ALASCOM (formerly known as RCA Alaska Communications, Inc.), located in Sec. 22, T. 17 N., R. 61 W., Seward Meridian, for communication facilities, pursuant to the act of March 4, 1911, 43 U.S.C. 961. Formerly Right-of-way F–19246 issued under the provisions of March 4, 1911 (43 U.S.C. 1961) as amended; and

4. Requirements of Sec. 14(c) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1613(c), that the grantee hereunder convey those portions, if any, of the lands hereinabove granted, as are prescribed in said section.

The Kuskokwim Corporation (for the village of Upper Kalskag) is entitled to conveyance of 92,160 acres of land selected pursuant to Sec. 12(a) of ANCSA. Together with the lands herein approved, the total acreage conveyed or approved for conveyance is approximately 81,292 acres. The remaining entitlement of approximately 10,868 acres will be conveyed at a later date.

Pursuant to Sec. 14(f) of ANCSA and Departmental regulation 43 CFR 2652.4, conveyance of the subsurface estate of the lands described above shall be issued to Calista Corporation when the surface estate is conveyed to The Kuskokwim Corporation, (for the village of Upper Kalskag) and shall be subject to the same conditions as the surface conveyance, except for those provisions under Sec. 14(c) of ANCSA; also the right to explore, develop or remove mineral materials from the subsurface estate in lands within the boundaries of the Native Village shall be subject to the consent of The Kuskokwim Corporation.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the **Federal Register** and once a week for four (4) consecutive weeks, in the Tundra Drums.

Any party claiming a property interest in lands affected by this decision, an agency of the Federal government, or regional corporation may appeal the decision to the Interior Board of Land Appeals, Office of Hearings and Appeals, in accordance with the attached regulations in Title 43 Code of Federal Regulations (CFR), Part 4, Subpart E, as revised. However, pursuant to Pub. L. 96–487, this decision constitutes the final administrative determination of the Bureau of Land Management concerning navigability of water bodies.

If an appeal is taken the notice of appeal must be filed in the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances (960), 701 C Street, Box 13, Anchorage, Alaska 99513. Do not send the appeal directly to the Interior Board of Land Appeals. The appeal and copies of pertinent case files will be sent to the Board from this office. A copy of the appeal must be served upon the Regional Solicitor, 701 C Street, Box 34, Anchorage, Alaska 99513.

The time limits for filing an appeal are:

1. Parties receiving service of this decision shall have 30 days from receipt of this decision to file an appeal.

2. Unknown parties, parties unable to be located after reasonable efforts have been expended to locate, and parties who failed or refused to sign the return

receipt shall have until November 1, 1982 to file an appeal.

Any party known or unknown who is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeals. Further information on the manner of and requirements for filing an appeal may be obtained from the Bureau of Land Management, 701 C Street, Box 13, Anchorage, Alaska 99513.

If an appeal is taken, the parties to be served with a copy of the notice of appeal are:

The Kuskokwim Corporation, 429 D Street, Suite 307, Anchorage, Alaska 99501

Calista Corporation, 516 Denali Street, Anchorage, Alaska 99501

Ann Johnson,

Chief, Branch of ANCSA Adjudication.

Alaska Native Claims Selection

On November 18, 1974, Napamute Limited, for the Native village of Napaimute, filed selection application F-14900-A, as amended, under the provisions of Sec. 12(a) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1611 (1976) (ANCSA), for the surface estate of certain lands in the vicinity of Napaimute.

On April 25, 1977, in accordance with Title 10, Chapter 05, Secs. 396 and 399 of the Alaska Business Corporation Act, and as authorized by 43 U.S.C. 1627, Georgetown Incorporated, a domestic corporation, merged with Aniak Limited, Chuathbaluk Company, Kipchaughpuk Limited, Lower Kalskag Incorporated, Napamute Limited, Red Devil Incorporated, Sleetmute Limited, Stony River Ltd., and Upper Kalskag Incorporated, all domestic corporations, into Georgtown Incorporated, which consolidated individual village interests into one single constitutent corporation whose name was changed to The Kuskokwim Corporation. The surviving corporation, The Kuskokwim Corporation, is entitled to all rights, privileges, and benefits of the Alaska Native Claims Settlement Act.

As to the lands described below, selection application F-14900-A, as amended, is properly filed and meets the requirements of the Alaska Native Claims Settlement Act and of the regulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface estate of the following described lands, selected pursuant to Sec. 12(a) of ANCSA, aggregating approximately 60,109 acres, is considered proper for acquisition by The Kuskokwim Corporation (for the village of Napaimute) and is hereby approved for conveyance pursuant to Sec. 14(a) of ANCSA:

Seward Meridian, Alaska (Unsurveyed)

T. 17 N., R. 50 W.
- Sec. 5, excluding Native allotment F-18212 Parcel B;
- Sec. 6.

Containing approximately 995 acres.

T. 18 N., R. 50 W.
- Secs. 1, 12, 13 and 14;
- Sec. 23, excluding Native allotment F-16986 Parcel A;
- Sec. 24;
- Secs. 26 and 27, excluding Native allotment F-16823;
- Secs. 32 and 33;
- Sec. 34, excluding Native allotments F-16823, F-16982 Parcel A and F-17409 Parcel B;
- Sec. 35, excluding Native allotments F-16823 and F-17409 Parcel B.

Containing approximately 5,570 acres.

T. 17 N., R. 51 W.
- Secs. 1, 10, 11 and 12;
- Secs. 14 and 15;
- Sec. 16, excluding Native allotment F-16757 Parcel C;
- Secs. 21, 28, 29 and 30;
- Sec. 33.

Containing approximately 6,582 acres.

T. 19 N., R. 51 W.
- Secs. 13, 14 and 15;
- Secs. 22 to 30, inclusive;
- Secs. 34, 35 and 36.

Containing approximately 9,576 acres.

T. 15 N., R. 52 W.
- Secs. 5 to 8, inclusive;
- Secs. 17 and 18.

Containing approximately 3,753 acres.

T. 17 N., R. 52 W.
- Secs. 2 to 11, inclusive;
- Sec. 14, excluding Native allotment F-16982 Parcel B;
- Secs. 15, 16 and 17;
- Sec. 18, excluding Native allotment F-16952 Parcel A;
- Secs. 19 and 20;
- Sec. 21, excluding Native allotment F-16123 Parcel B;
- Sec. 22, excluding Native allotments F-15682, F-16123 Parcel B, F-16952 Parcel B and F-16978;
- Sec. 23, excluding Native allotments F-16978 and F-16982 Parcel B;
- Sec. 26, excluding Native allotments F-16979 Parcel A and F-16980;
- Sec. 27, excluding Native allotments F-15682, F-16123 Parcel B, F-16952 Parcel B and F-16980;
- Sec. 28, excluding Native allotments F-16123 Parcels A and B and F-16953;
- Sec. 29, excluding Native allotment F-15683;
- Secs. 30 to 34, inclusive;
- Sec. 35, excluding Native allotment F-16979 Parcel A;
- Sec. 36.

Containing approximately 17,843 acres.

T. 18 N., R. 52 W.
- Secs. 4, 9, 16 and 21;
- Secs. 28 and 33.

Containing approximately 3,840 acres.

T. 19 N., R. 52 W.
- Sec. 25;
- Secs. 33 to 36, inclusive.

Containing approximately 3,200 acres.

T. 15 N., R. 53 W.
- Secs. 1, 12, and 13.

Containing approximately 1,920 acres.

T. 16 N., R. 53 W.
- Secs. 1, 12, 13 and 24;
- Secs. 25 and 36.

Containing approximately 3,840 acres.

T. 17 N., R. 53 W.
- Sec. 10, excluding Native allotments F-16955 Parcel A and F-17409 Parcel A;
- Sec. 13, excluding Native allotments F-15685 Parcel A, F-16951, F-16952 Parcel A and F-18212 Parcel A;
- Sec. 14, excluding Native allotment F-16951;
- Sec. 15, excluding Native allotments F-15685 Parcel B and F-17409 Parcel A;
- Secs. 16, 17 and 24.

Containing approximately 2,990 acres.

Aggregating approximately 60,109 acres.

Excluded from the above-described lands herein approved for conveyance are the submerged lands, up to the ordinary high water mark, beneath all water bodies determined by the Bureau of Land Management to be navigable because they have been or could be used in connection with travel, trade and commerce. The following named water bodies, together with any unnamed water bodies, are identified on the attached navigability maps, the original of which will be found in easement case file F-14900-EE:

Kuskokwim River
Holokuk River
Kolmakof River

All other water bodies not depicted as navigable on the attached maps within the lands to be conveyed were reviewed. Based on existing evidence, they were determined to be nonnavigable.

The lands excluded in the above description are not being approved for conveyance at this time and have been excluded for one or more of the

following reasons: Lands are no longer under Federal jurisdiction; lands are under applications pending further adjudication; lands are pending a determination under Sec. 3(e) of ANCSA; or lands were previously rejected by decision. Lands within U.S. Surveys which are excluded are described separately in this decision if they are available for conveyance. These exclusions *do not* constitute a rejection of the selection application, unless specifically so stated.

The conveyance issued for the surface estate of the lands described above shall contain the following reservations to the United States:

1. The subsurface estate therein, and all rights, privileges, immunities, and appurtenances, or whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1613(f); and

2. Pursuant to Sec. 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1616(b), the following public easements, referenced by easement identification number (EIN) on the easement maps attached to this document, copies of which will be found in case file F-14900-EE, are reserved to the United States. All easements are subject to applicable Federal, State, or Municipal corporation regulation. The following is a listing of uses allowed for each type of easement. Any uses which are not specifically listed are prohibited.

25 Foot Trail—The uses allowed on a twenty-five (25) foot wide trail easement are: travel by foot, dogsleds, animals, snowmobiles, two- and three-wheel vehicles, and small all-terrain vehicles (ATV's) (less than 3,000 lbs. Gross Vehicle Weight (GVW)).

One Acre Site—The uses allowed on a one (1) acre site easement are: vehicle parking (e.g., aircraft, boats, ATV's, snowmobiles, cars, trucks), temporary camping, loading or unloading. Temporary camping, loading or unloading shall be limited to 24 hours.

a. (EIN 3 C4, C5) A one (1) acre site easement upland of the ordinary high water mark on an unnamed island at the mouth of the Holokuk River in Sec. 30, T. 17 N., R. 51 W., Seward Meridian. The uses allowed are those listed for a one (1) acre site easement.

b. (EIN 11 C4, C5) A one (1) acre site easement upland of the ordinary high water mark on the southern end of an unnamed island in the Kuskokwim River in Sec. 13, T. 18 N., R. 50 W., Seward Meridian. The uses allowed are those listed for a one (1) acre site easement.

c. (EIN 18, C4, C5) An easement twenty-five (25) feet in width for a proposed access trail from public land in Sec. 27, T. 19 N., R. 52W., Seward Meridian, southerly to public land. The uses allowed are those listed for a twenty-five (25) foot wide trail easement.

The grant of the above-described lands shall be subject to:

1. Issuance of a patent after approval and filing by the Bureau of Land Management of the official plat of survey confirming the boundary description and acreage of the lands hereinabove granted;

2. Valid existing rights herein, if any, including but not limited to those created by any lease (including a lease issued under Sec. 6(g) of the Alaska Statehood Act of July 7, 1958, 48 U.S.C. Ch. 2, Sec. 6(g)), contract, permit, right-of-way, or easement, and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him. Further, pursuant to Sec. 17(b)(2) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1616(b)(2) (ANCSA), any valid existing right recognized by ANCSA shall continue to have whatever right of access as is now provided for under existing law; and

3. Requirements of Sec. 14(c) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1613(c), that the grantee hereunder convey those portions, if any, of the lands hereinabove granted, as are prescribed in said section.

The Kuskokwim Corporation (for the village of Napaimute) is entitled to conveyance of 69,120 acres of land selected pursuant to Sec. 12(a) of ANCSA.Together with the lands herein approved, the total acreage conveyed or approved for conveyance is approximately 60,109 acres. The remaining entitlement of approximately 9,011 acres will be conveyed at a later date.

Pursuant to Sec. 14(f) of ANCSA and Departmental regulation 43 CFR 2652.4, conveyance of the subsurface estate of the land described above shall be issued to Calista Corporation when the surface estate is conveyed to the Kuskokwim Corporation, and shall be subject to the same conditions as the surface conveyance, except for those provisions under Sec. 14(c) of ANCSA; also the right to explore, develop or remove mineral materials from the subsurface estate in lands within the boundaries of the Native village shall be subject to the consent of The Kuskokwim Corporation.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the **Federal Register** and once a week, for four (4) consecutive weeks, in the Tundra Drums.

Any party claiming a property interest in lands affected by this decision, an agency of the Federal government, or regional corporation may appeal the decision to the Interior Board of Land Appeals, Office of Hearings and Appeals, in accordance with the attached regulations in Title 43 Code of Federal Regulations (CFR), Part 4, Subpart E, as revised. However, pursuant to Pub. L. 96-487, this decision constitutes the final administrative determination of the Bureau of Land Management concerning navigability of water bodies.

If an appeal is taken the notice of appeal must be filed in the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances, (960), 701 C Street, Box 13, Anchorage, Alaska 99513. Do not send the appeal directly to the Interior Board of Land Appeals. The appeal and copies of pertinent case files will be sent to the Board from this office. A copy of the appeal must be served upon the Regional Solicitor, 701 C Street, Box 34, Anchorage, Alaska 99513.

The time limits for filing an appeal are:

1. Parties receiving service of this decision shall have 30 days from the receipt of this decision to file an appeal.

2. Unknown parties, parties unable to be located after reasonable efforts have been expended to locate, and parties who failed or refused to sign the return receipt shall have until November 1, 1982 to file an appeal.

Any party known or unknown who is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeal. Further information on the manner of and requirements for filing an appeal may be obtained from the Bureau of Land Management, 701 C Street, Box 13, Anchorage, Alaska 99513.

If an appeal is taken, the parties to be served with a copy of the notice of appeal are:

The Kuskokwim Corporation, 429 D Street, Suite 307, Anchorage, Alaska 99501

Calista Corporation, 516 Denali Street, Anchorage, Alaska 99501

State of Alaska, Department of Natural Resources, Division of Research and

Development, Pouch 7-005,
Anchorage, Alaska 99510
Ann Johnson,
Chief, Branch of ANCSA Adjudication.

Alaska Native Claims Selection

On June 17 and October 11, 1974, Sitnasuak Native Corporation, for the Native village of Nome, filed selection applications F-14908-A and F-14908-B under the provisions of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1611) (1976) (ANCSA), for the surface estate of certain lands in the vicinity of Nome.

As to the lands described below, the applications submitted by Sitnasuak Native Corporation, as amended, are properly filed, and meet the requirement of the Alaska Native Claims Settlement Act and of the regulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface estate of the following described lands, selected pursuant to Sec. 12(a), aggregating approximately 73,148 acres, is considered proper for acquisition by Sitnasuak Native Corporation and is hereby approved for conveyance pursuant to Sec. 14(a) of the Alaska Native Claims Settlement Act.

U.S. Survey No. 3642, Alaska, lot 2, situated on the right bank of the Nome River two miles upstream from the confluence of Dexter Creek an Nome River. (Containing 1.31 acres.)

U.S. Survey No. 3648, Alaska, lot 2, situated along the right bank of the Nome River approximately 7,000 feet upstream from the confluence of Dexter Creek and Nome River. (Containing 0.21 acre.)

Mineral Survey No. 335 known as the Yellowstone Association Placer excluding that portion within Mineral Survey No. 1131, in Nome Mining District, District of Alaska. (Containing approximately 40 acres.)

Mineral Survey No. 403 known as the Columbia Mine and Beach Claim No. 1 above Snow Gulch in Cape Nome Mining District, District of Alaska. (Containing 31.799 acres.)

Mineral Survey No. 427 known as the Oakdale Association—Sunrise Bench—Sunset Bench—Gold Beach Fraction—All Gold Fraction—No. 2 Below Discovery on Sunset and Silver Fraction, Placer Claims, in Nome Mining District, District of Alaska. (Containing 229.544 acres.)

Mineral Survey No. 429 known as the Adelaide K Placer on New Year Gulch excluding that portion within Mineral Survey No. 1149 in Nome Mining District, District of Alaska. (Containing approximately 1 acre.)

Mineral Survey No. 432 known as the Katie H Placer Claim in Cape Nome Mining District, District of Alaska. (Containing 9.88 acres.)

Mineral Survey No. 437 known as the No. 1 Right Fork Dexter Creek Placer excluding that portion within Mineral Survey No. 478, Mineral Survey No. 523, Mineral Survey No. 1246, Mineral Survey No. 1293, and Mineral Survey No. 1362, in Cape Nome Mining District, District of Alaska. (Containing approximately 3 acres.)

Mineral Survey No. 466 known as the No. 7 Below Discovery on Anvil Creek in Nome mining District, District of Alaska. (Containing 18.925 acres.)

Mineral Survey No. 703 known as the Anvil Association Placer Claim excluding those portions within Mineral Survey No. 758, Mineral Survey No. 1119, Mineral Survey No. 1284, Mineral Survey No. 1603, and Mineral Survey No. 1678 in Cape Nome Mining District, District of Alaska. (Containing approximately 55 acres.)

Mineral Survey No. 704 known as the Glacier, Fraction, and Mountain Association Placer Claims excluding those portions within Mineral Survey No. 1110 and Mineral Survey No. 1857 in the Cape Nome Mining District, District of Alaska. (Containing approximately 207 acres.)

Mineral Survey No. 721 known as Bench Claim No. 4½ Above Placer in Cape Nome Mining District, District of Alaska. (Containing 2.687 acres.)

Mineral Survey No. 755 known as the Blazing Star Association Placer Mining Claim, in Cape Nome Mining District, District of Alaska. (Containing 30.407 acres.)

Mineral Survey No. 759 known as the Gadfly Placer in Cape Nome Mining District, District of Alaska. (Containing 13.599 acres.)

Mineral Survey No. 775 known as the Anvil, Watershed, Holy Fright, Holy Fright No. 1, Holy Fright No. 2, Maxwell, Dream, Dream No. 1, Dream No. 2, Manhattan, Bernice, Bernice No. 1, Bernice No. 2, Norton, First Avenue, and Mother Lode Claims excluding those portions within Mineral Survey No. 710 and Mineral Survey No. 715 in Cape Nome Mining District, District of Alaska. (Containing approximately 290 acres.)

Mineral Survey No. 1393 known as the Sliver Fraction Placer in Nome Mining District, Territory of Alaska. (Containing 1.326 acres.)

Mineral Survey No. 1609 known as the No. 1 Below Discovery on Banner Creek Placer, excluding Native allotment F-19496, in Nome Mining District, Territory of Alaska. (Containing approximately 3.427 acres.)

Mineral Survey No. 1810 known as the Freezeout, Flora, and Vivian, Placers, excluding that portion within Mineral Survey No. 1819, in Nome Mining District, Territory of Alaska. (Containing approximately 85 acres.)

Mineral Survey No. 1823 known ass the Alpha Group Association Placer, in Nome Mining District, Territory of Alaska. (Containing 25.805 acres.)

Mineral Survey No. 1827 known as the Democrat, Independent, Treves, and Nurpur Association Placers, in Nome Mining District, Territory of Alaska. (Containing 150.391 acres.)

Mineral Survey No. 1828 known as the Summerset, Polk, and Winterset Association Placers, in Nome Mining District, Territory of Alaska. (Containing 477.830 acres.)

Mineral Survey No. 1861 known as the Bowery Claim or No. 2 on Grouse Creek, placer, in Cape Nome Mining District, Alaska. (Containing 11.997 acres.)

Mineral Survey No. 1862 known as the Bertha-Lucky Stone-Myra and Rebecca placers in Cape Nome Recording Prec. Mining District, Territory of Alaska. (Containing 75.917 acres.)

Mineral Survey No. 1863 known as the Grace Association Placer Mining Claim in Cape Nome Mining District, Territory of Alaska. (Containing 40.858 acres.)

Mineral Survey No. 1886 known as the 1 Below Shallits 1 (Placer) in Cape Nome Mining District, Alaska. (Containing 39.630 acres.)

Mineral Survey No. 2270 Alaska known as the Terri Claim situate in T. 10 S., R. 34 W., Kateel River Meridian, Nome Mining District (unsurveyed). (Containing 19.901 acres.)

Mineral Survey No. 2271 Alaska known as Judy Bench and Deb Bench situate in T. 10 S., R. 34 W., Kateel River Meridian, Nome Mining District (unsurveyed). (Containing 39.679 acres.)

Mineral Survey No. 2380 Alaska known as Calkins-White situate in T. 10 S., R. 33 W., Kateel River Meridian Cape Nome Mining District (unsurveyed). (Containing 39.993 acres.)

Aggregating approximately 1,946 acres.

Sec. 24 (fractional), excluding M.S. 512, M.S. 1318, M.S. 1336, M.S. 1846, and M.S. 2280.

Containing approximately 8,035 acres.

Aggregating approximately 71,202 acres.

Total aggregated acreage, approximately 73,148 acres.

All named and unnamed water bodies within the above-described lands were reviewed and, based on existing evidence, they were determined to be nonnavigable.

Excluded from the above-described lands herein approved for conveyance are the following water bodies which are pending a determination as to tidal influence:

The Snake River has tidal influence from its mouth to the southern boundary of Mineral Survey 1892 in Sec. 26, T. 11 S., R. 34 W., Kateel River Meridian; and

The Nome River has tidal influence from its mouth to where the river is crossed by the Nome-Council Road in Sec. 33, T. 11 S., R. 33 W., Kateel River Meridian.

Actual limits of tidal influence, for water bodies listed above and for other water bodies within the lands to be conveyed, if any, will be determined at the time of survey.

The lands excluded in the above description are not being approved for conveyance at this time and have been excluded for one or more of the following reasons: Lands are no longer under Federal jurisdiction; lands are under applications pending further adjudication; lands are pending a determination under Sec. 3(e) of ANCSA; or lands were previously rejected by decision. Lands within U.S. Surveys or Mineral Surveys which are excluded are described separately in this decision if they are available for conveyance. These exclusions *do not* constitute a rejection of the selection application, unless specifically so stated.

The conveyance issued for the surface estate of the lands described above shall contain the following reservations to the United States:

1. The subsurface estate therein, and all rights, privileges, immunities, and appurtenances, of whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1613(f)); and

2. Pursuant to Sec. 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1616(b)), the following public easements, referenced by easement identification number (EIN) on the easement maps attached to this document, copies of which will be found in case file F–14908–EE, are reserved to the United States. All easements are subject to applicable Federal, State, or Municipal corporation regulation. The following is a listing of uses allowed for each type of easement. Any uses which are not specifically listed are prohibited.

25-Foot Trail—The uses allowed on a twenty-five (25) foot wide trail easement are: travel by foot, dogsled, animals, snowmobiles, two- and three-wheel

vehicles, and small all-terrain vehicles (less than 3,000 lbs Gross Vehicle Weight (GVW)).

50-Foot Trail—The uses allowed on a fifty (50) foot wide trail easement are: travel by foot, dogsled, animals, snowmobiles, two- and three-wheel vehicles, small and large all-terrain vehicles, track vehicles and four-wheel drive vehicles.

60-Foot Road—The uses allowed on a sity (60) foot wide road easement are: travel by foot, dogsled, animals, snowmobiles, two- and three-wheel vehicles, small and large all-terrain vehicles, track vehicles, four-wheel drive vehicles, automobiles, and trucks.

a. (EIN 10 D9) An easement for a proposed access trail fifty (50) feet in width from the Nome-Teller Road in Sec. 28, T. 10 S., R. 35 W., Kateel River Meridian, northeasterly to public lands. The uses allowed are those listed above for a fifty (50) foot wide trail easement.

b. (EIN 14 C3, D1, L) An easement for an existing access trail fifty (50) feet in width from the Nome-Teller Road in Sec. 6, T. 11 S., R. 34 W., Kateel River Meridian, northeasterly to public lands. The uses allowed are those listed above for a fifty (50) foot wide trail easement.

c. (EIN 22 D1, L) An easement for an existing access trail fifty (50) feet in width from the Jensen's Camp Road in Sec. 10, T. 10 S., R. 34 W., Kateel River Meridian, northwesterly to public lands. The uses allowed are those listed above for a fifty (50) foot wide trail easement.

d. (EIN 35 B, D1, K, L) An easement twenty (20) feet in width for an existing road from the Nome-Taylor Road in Sec. 7, T. 11 S., R. 33 W., Kateel River Meridian, northerly to lands withdrawn by PLO 1534 and PLO 1622. The uses allowed are those listed above for a sixty (60) foot wide road easement. Use is limited to the United States Government and its authorized agents and assignees.

e. (EIN 35a B, D1, K) An easement ten (10) feet in width for an existing communications cable from Sec. 7, T. 11 S., R. 33 W., Kateel River Meridian, northerly to lands withdrawn by PLO 1534 and PLO 1622. The uses allowed are those activities associated with the construction, operation, and maintenance of the communications cable. Use is limited to the United States Government and its authorized agents and assignees.

f. (EIN 45 D1, L) An easement for an existing access trail twenty-five (25) feet in width from Nome in Sec. 36, T. 11 S., R. 34 W., Kateel River Meridian, southeasterly to Solomon. The uses allowed are those listed above for a twenty-five (25) foot wide trail easement. The season of use will be limited to winter.

g. (EIN 48 C1, C5, D1, L) An easement sixty (60) feet in width for an existing road from the Nome-Council Road in Sec. 4, T. 12 S., R. 33 W, Kateel River Meridian, westerly to the community of Fort Davis. The uses allowed are the listed above for a sixty (60) foot wide road easement.

h. (EIN 72 D1, D9, L) An easement for an existing access trail twenty-five (25) feet in width from Nome in Sec. 27, T. 11 S., R. 34 W., Kateel River Meridian, westerly to Teller. The uses allowed are those listed above for a twenty-five (25) foot wide trail easement. The season of use will be limited to winter.

i. (EIN 125 D1) An easement for a proposed access trail twenty-five (25) feet in width from the mean high-tide line in Sec. 12, T. 12 S., R. 33 W., Kateel River Meridian, northeasterly to public lands. The uses allowed are those listed above for a twenty-five (25) foot wide trail easement.

j. (EIN 126 D1, I) An easement twenty-five (25) feet in width for an existing powerline from Sec. 32, T. 11 S., R. 33 W., Kateel River Meridian, southeasterly to the Nome VOR site access road in Sec. 4, T. 12 S., R. 33 W., Kateel River Meridian. The uses allowed are those activities accociated with the operation and maintenance of a powerline facility.

k. (EIN 127 D1, I) An easement one hundred (100) feet in width for an existing road and powerline from the Nome-Council Road in Sec. 4, T. 12 S., R. 33 W., Kateel River Meridian, northeasterly to the Nome VOR site. The uses allowed are those listed above for a sixty (60) foot wide road easement and those activities associated with the operation and maintenance of a powerline facility. Use is limited to the United States Government and its authorized agents and assigns.

l. (EIN 132 D1) An easement for a proposed access trail fifty (50) feet in width from the Nome-Taylor Road in Sec. 5, T. 10 S., R. 33 W., Kateel River Meridian, westerly to public lands. The uses allowed are those listed above for a fifty (50) foot wide trail easement.

m. (EIN 133 C4, I) An easement twenty-five (25) feet in width for an existing powerline from the Nome townsite in Sec. 36, T. 11 S., R. 34 W., Kateel River Meridian southeasterly to EIN 126 D1, I in Sec. 32, T. 11 S., R. 33 W., Kateel River Meridian. The uses allowed are those activities associated with the construction, operation and maintenance of a powerline facility.

n. (EIN 133a C4, I) An easement twenty-five (25) feet in width for and existing powerline from powerline EIN 133 C4, I in Sec. 32, T. 11 S., R. 33 W., Kateel River Meridian, northeasterly to the FAA site (PLO 2642) in Sec. 32, T. 11 S., R. 33 W., Kateel River Meridian. The uses allowed are those activities associated with the construction, operation and maintenance of a powerline facility.

The grant of the above-described lands shall be subject to:

1. Issuance of a patent after approval and filing by the Bureau of Land Management of the official plat of survey confirming the boundary description and acreage of the lands hereinabove granted;

2. Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under Sec. 6(g) of the Alaska Statehood Act of July 7, 1958 (48 U.S.C. Ch. 2, Sec. 6(g))), contract, permit, right-of-way, or easement, and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him. Further, pursuant to Sec. 17(b)(2) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1616(b)(2)), any valid existing right recognized by ANCSA shall continue to have whatever right of access as is now provided for under existing law;

3. A right-of-way, F–160, located within Sec. 31, Sec. 32, and Sec. 33, T. 11 S., R. 33 W., Sec. 4, T. 12 S., R. 33 W., and Sec. 36, T. 11 S., R. 34 W., Kateel River Meridian, 200 feet in width, for a Federal Aid Highway. Act of August 27, 1958, as amended (23 U.S.C. 317);

4. A right-of-way, F–957, containing approximately 17 acres, located within Sec. 32 and Sec. 33, T. 11 S., R. 33 W., Kateel River Meridian, for a communication site. Act of March 4, 1911 (43 U.S.C. 961);

5. A right-of-way, F–7555, containing approximately 8 acres, located within Sec. 32, T. 11 S., R. 33 W., and Sec. 5, T. 12 S., R. 33 W., Kateel River Meridian, for a Federal Aid material site. Act of August 27, 1958, as amended (23 U.S.C. 317);

6. A right-of-way, F–09113, located within Tps. 9 and 10 S., R. 33 W., and T. 10 S., R. 34 W., Kateel River Meridian, 125 feet in width, for canal and ditches, with feeders and laterals, known as the Miocene Ditch System, for mining purposes, issued to United States Smelting, Refining and Mining Company under the provisions of the act of February 15, 1901 (43 U.S.C. 959);

7. A right-of-way, F–09118, located within Tps. 9, 10, and 11 S., R. 33 W., and T. 11 S., R. 34 W., Kateel River Meridian, 120 feet in width, for the construction, operation and maintenance of ditches, issued to United

States Smelting, Refining and Mining Company under the provisions of the act of February 15, 1901 (43 U.S.C. 959);

8. A right-of-way, F–12414, located within Sec. 32, T. 11 S., R. 33 W., Kateel River Meridian, 200 feet in width, for a Federal Aid Highway. Act of August 27, 1958, as amended (23 U.S.C. 317);

9. A right-of-way, F–12416, located within Sec. 29, T. 11 S., R. 33 W., Kateel River Meridian, 200 feet in width, for a Federal Aid Highway. Act of August 27, 1958, as amended (23 U.S.C. 317);

10. A right-of-way, F–12417, located within Sec. 28 and Sec. 29, T. 11 S., R. 33 W., Kateel River Meridian, 200 feet in width, for a Federal Aid Highway. Act of August 27, 1958, as amended (23 U.S.C. 317);

11. A right-of-way, F–12418, located within Sec. 21, T. 11 S., R. 33 W., Kateel River Meridian, 200 feet in width, for a Federal Aid Highway. Act of August 27, 1958, as amended (23 U.S.C. 317);

12. A right-of-way, F–12419, located within Sec. 33, T. 10 S., R. 33 W., and Secs. 2, 3, 4, 10, 11, and 15, T. 11 S., R. 33 W., Kateel River Meridian, 200 feet in width, for a Federal Aid Highway. Act of August 27, 1958, as amended (23 U.S.C. 317);

13. A right-of-way, F–12420, located within Sec. 33, T. 10 S., R. 33 W., Kateel River Meridian, 38.48 to 200 feet in width, for a Federal Aid Highway. Act of August 27, 1958, as amended (23 U.S.C. 317);

14. A right-of-way, F–12421, located within Sec. 33, T. 10 S., R. 33 W., Kateel River Meridian, 200 feet in width, for a Federal Aid Highway. Act of August 27, 1958, as amended (23 U.S.C. 317);

15. A right-of-way, F–12422, located within Sec. 33 and Sec. 34, T. 10 S., R. 33 W., Kateel River Meridian, containing approximately 7 acres, for a Federal Aid material site. Act of August 27, 1958, as amended (23 U.S.C. 317);

16. A right-of-way, F–12424, located within Sec. 33, T. 10 S., R. 33 W., Kateel River Meridian, 100 feet in width, for a Federal Aid Highway. Act of August 27, 1958, as amended (23 U.S.C. 317);

17. A right-of-way, F–12429, located within Sec. 11, T. 11 S., R. 33 W., Kateel River Meridian, 100 feet in width, for a Federal Aid Highway. Act of August 27, 1958, as amended (23 U.S.C. 317);

18. A right-of-way, F–12545, located within Sec. 32, T. 11 S., R. 33 W., Kateel River Meridian, containing approximately 4.196 acres, for a Federal Aid material site. Act of August 27, 1958, as amended (23 U.S.C. 317);

19. A right-of-way, F–14971, located within Sec. 32, T. 10 S., R. 33 W., Kateel River Meridian, containing approximately 6.835 acres, for a Federal Aid material site. Act of August 27, 1958, as amended (23 U.S.C. 317);

20. A right-of-way, F–15019, located within Sec. 4 and Sec. 9, T. 10 S., R. 33 W., Kateel River Meridian, for varying widths, containing approximately 10.240 acres, for a Federal Aid Highway. Act of August 27, 1958, as amended (23 U.S.C. 317);

21. A right-of-way, F–15020, located within Sec. 4, T. 10 S., R. 33 W., Kateel River Meridian, for varying widths, containing approximately 12.365 acres, for a Federal Aid Highway. Act of August 27, 1958, as amended (23 U.S.C. 317);

22. A right-of-way, F–19177, located within Sec. 17 and Sec. 20, T. 10 S., R. 33 W., Kateel River Meridian, containing approximately 2.594 acres, for a Federal Aid Highway. Act of August 27, 1958, as amended (23 U.S.C. 317);

23. A right-of-way, F–026023, located within Sec. 8 and Sec. 17, T. 10 S., R. 35 W., Kateel River Meridian, containing approximately 7.34 acres, for a Federal Aid material site. Act of August 27, 1958, as amended (23 U.S.C. 317);

24. A right-of-way, F–031747, Parcels No. 2, 4, 7, 9, 13, and 17, located within Sec. 31, T. 10 S., R. 34 W., Secs. 3, 4, 5, 6, and 10, T. Secs. 34, 35, and 36, T. 10 S., R. 35 W., and Secs. 1 and 2, T. 11 S., R. 35 W., and 11 S., R. 34 W., Kateel River Meridian, 200 feet in width, for a Federal Aid Highway. Act of August 27, 1958, as amended (23 U.S.C. 317);

25. A right-of-way, F–032075, Parcels No. 1 and 2, located within Sec. 10, T. 11 S., R. 34 W., Kateel River Meridian, containing approximately .407 acre, for a Federal Aid Highway. Act of August 27, 1958, as amended (23 U.S.C. 317);

26. A right-of-way, F–033602, Parcel No. 4, located within Secs. 5, 8, 16, 17, 21, 27, and 28, T. 10 S., R. 35 W., Kateel River Meridian, 200 feet in width, for a Federal Aid Highway. Act of August 27, 1958, as amended (23 U.S.C. 317);

27. Any right-of-way interest in Federal Aid Secondary (FAS) Route No. 130 (Nome-Council Road) from Nome FAA Airfield east through Nome and Solomon to FAS Route 1304 at Council transferred to the State of Alaska by the quitclaim deed dated June 30, 1959, executed by the Secretary of Commerce under the authority of the Alaska Omnibus Act, Pub. L. 86–70 (73 Stat. 141) as to Tps. 11 S., Rs. 33 and 34 W., and T. 12 S., R. 33 W., Kateel River Meridian;

28. Any right-of-way interest in Federal Secondary (FAS) Route No. 131 (Nome-Teller Road) from FAS Route 141 near Nome northwest to Teller transferred to the State of Alaska by the quitclaim deed dated June 30, 1959, executed by the Secretary of Commerce under the authority of the Alaska Omnibus Act, Pub. L. 86–70 (73 Stat. 141) as to T. 11 S., R. 34 W., and Tps. 10 and 11 S., Rs. 35 W., Kateel River Meridian;

29. Any right-of-way interest in Federal Aid Secondary (FAS) Route No. 141 (Nome-Taylor Road) from FAS Route 130 in Nome, north to FAS Route 1451 at Coffee Creek transferred to the State of Alaska by the quitclaim deed dated June 30, 1959, executed by the Secretary of Commerce under the authority of the Alaska Omnibus Act, Pub. L. 86–70 (73 Stat. 141) as to Tps. 9, 10, and 11 S., Rs. 33 W., and T. 11 S., R. 34 W., Kateel River Meridian;

30. Any right-of-way interest in Federal Aid Secondary (FAS) Route No. 1311 (Snake River Road) from FAS Route 131 near Nome, northerly to Jensen's Mining and Recreation area transferred to the State of Alaska by the quitclaim deed dated June 30, 1959, executed by the Secretary of Commerce under the authority of the Alaska Omnibus Act, Pub. L. 86–70 (73 Stat. 141) as to Tps. 10 and 11 S., Rs. 34 W., Kateel River Meridian;

31. Any right-of-way interest in Federal Aid Secondary (FAS) Route No. 1312 (Little Creek Road) from FAS Route No. 131 south to FAS Route 1411 transferred to the State of Alaska by the quitclaim deed dated June 30, 1959, executed by the Secretary of Commerce under the authority of the Alaska Omnibus Act, Pub. L. 86–70 (73 Stat. 141) as to T. 11 S., R. 34 W., Kateel River Meridian;

32. Any right-of-way interest in Federal Aid Secondary (FAS) Route No. 1321 (Submarine-Pavatreak) from Nome Municipal Airport westerly to Submarine Mining area transferred to the State of Alaska by the quitclaim deed dated June 30, 1959, executed by the Secretary of Commerce under the authority of the Alaska Omnibus Act, Pub. L. 86–70 (73 Stat. 141) as to T. 11 S., R. 34 W., Kateel River Meridian;

33. Any right-of-way interest in Federal Aid Secondary (FAS) Route No. 1411 (Center Creek Road and Depot Spur) from Route 130 within Nome looping westerly through the Center Creek mining area and thence northeasterly to Route 141, and a spur westerly to highway maintenance depot transferred to the State of Alaska by the quitclaim deed dated June 30, 1959, executed by the Secretary of Commerce under the authority of the Alaska Omnibus Act, Pub. L. 86–70 (73 Stat. 141) as to T. 11 S., R. 34 W., Kateel River Meridian;

34. Any right-of-way interest in Federal Aid Secondary (FAS) Route No. 1412 (Osborne Road) from Route 141 near Nome, northeasterly through

Osborne Recreation area to the Osborne Creek Mining area transferred to the State of Alaska by the quitclaim deed dated June 30, 1959, executed by the Secretary of Commerce under the authority of the Alaska Omnibus Act, Pub. L. 86–70 (73 Stat. 141) as to Tps. 11 S., Rs. 33 and 34 W., Kateel River Meridian;

35. Any right-of-way interest in Federal Aid Secondary (FAS) Route No. 1413 (Buster Road) from FAS Route 141 near Nome, northeasterly through Busterville to the Buster Creek mining area transferred to the State of Alaska by the quitclaim deed June 30, 1959, executed by the Secretary of Commerce under the authority of the Alaska Omnibus Act, Pub. L. 86–70 (73 Stat. 141) as to Tps. 10 and 11 S., Rs. 33 W., Kateel River Meridian; and

36. Requirements of Sec. 14(c) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1613(c)), that the grantee hereunder convey those portions, if any, of the lands hereinabove granted, as are prescribed in said section.

Reindeer Grazing Permit, F–23293, issued to Sitnasuak Native Corporation, on January 1, 1982, located within lands herein approved for conveyance, will terminate upon conveyance of these lands in accordance with Sec. 9, Additional Condition or Stipulation No. 1 of the permit.

Reindeer Grazing Permit, F–035186, issued to Lawrence T. Davis, on January 1, 1982, located within the lands herein approved for conveyance, will terminate upon conveyance of these lands in accordance with Sec. 9, Additional Condition or Stipulation No. 1 of the permit.

Sitnasuak Native Corporation is entitled to conveyance of 161,280 acres of land selected pursuant to Sec. 12(a) of ANCSA. Together with the lands herein approved, the total acreage conveyed or approved for conveyance is approximately 152,211 acres. The remaining entitlement of approximately 9,069 acres will be conveyed at a later date.

Pursuant to Sec. 14(f) of ANCSA and Departmental regulation 43 CFR 2652.4, conveyance of the subsurface estate shall be issued to Bering Straits Native Corporation when the surface estate is conveyed to Sitnasuak Native Corporation, and shall be subject to the same conditions as the surface conveyance, except for those provisions under Sec. 14(c) of ANCSA; also the right to explore, develop, or remove mineral materials from the subsurface estate in lands within the boundaries of the Native village shall be subject to the consent of Sitnasuak Native Corporation.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the **Federal Register** and once a week, for four (4) consecutive weeks, in the Nome Nugget.

Any party claiming a property interest in lands affected by this decision, an agency of the Federal government, or regional corporation may appeal the decision to the Interior Board of Land Appeals, Office of Hearings and Appeals, in accordance with the attached regulations in Title 43 Code of Federal Regulations (CFR), Part 4, Subpart E, as revised. However, pursuant to Pub. L. 96–487, this decision constitutes the final administrative determination of the Bureau of Land Management concerning navigability of water bodies.

If an appeal is taken the notice of appeal must be filed in the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances (960), 701 C Street, Box 13, Anchorage, Alaska 99513. Do not send the appeal directly to the Interior Board of Land Appeals. The appeal and copies of pertinent case files will be sent to the Board from this office. A copy of the appeal must be served upon the Regional Solicitor, 701 C Street, Box 34, Anchorage, Alaska 99513.

The time limits for filing an appeal are:

1. Parties receiving service of this decision shall have 30 days from the receipt of this decision to file an appeal.

2. Unknown parties, parties unable to be located after reasonable efforts have been expended to locate, and parties who failed or refused to sign the return receipt shall have until November 1, 1982 to file an appeal.

Any party known or unknown who is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeal. Further information on the manner of and requirements for filing an appeal may be obtained from the Bureau of Land Management, 701 C Street, Box 13, Anchorage, Alaska 99513.

If an appeal is taken, the parties to be served with a copy of the notice of appeal are:

State of Alaska, Department of Natural Resources, Division of Research and Development, Pouch 7–005, Anchorage, Alaska 99510

Sitnasuak Native Corporation, P.O. Box 905, Nome, Alaska 99762

Bering Straits Native Corporation, P.O. Box 1008, Nome, Alaska 99762

Barbara A. Lange,

Acting Chief, Branch of ANCSA Adjudication.

BILLING CODE 4310–84–M

[F–14936–A]

Alaska Native Claims Selection

On November 18, 1974, Sleetmute Limited, for the Native village of Sleetmute, filed selection application F–14936–A, as amended, under the provisions of Sec. 12(a) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1611 (1976) (ANCSA), for the surface estate of certain lands in the vicinity of Sleetmute.

On April 25, 1977, in accordance with Title 10, Chapter 05, Secs. 396 and 399 of the Alaska Business Corporation Act, and as authorized by 43 U.S.C. 1627, Georgetown Incorporated, a domestic corporation, merged with Aniak Limited, Chuathbaluk Company, Kipchaughpuk Limited, Lower Kalskag Incorporated, Napamute Limited, Red Devil Incorporated, Sleetmute Limited, Stony River Ltd., and Upper Kalskag Incorporated, all domestic corporations, into Georgetown Incorporated, which consolidated individual village interests into one single constituent corporation whose name was changed to The Kuskokwim Corporation. The surviving corporation, The Kuskokwim Corporation, is entitled to all rights, privileges, and benefits of the Alaska Native Claims Settlement Act.

As to the lands described below, selection application F–14936–A, as amended, is properly filed and meets the requirements of the Alaska Native Claims Settlement Act and of the regulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface estate of the following described lands, selected pursuant to Sec. 12(a) of ANCSA, aggregating approximately 85,487 acres, is considered proper for acquisition by The Kuskokwim Corporation (for the village of Sleetmute) and is hereby approved for conveyance pursuant to Sec. 14(a) of ANCSA:

U.S. Survey No. 2048, situated on the right bank of the Kuskokwim River in the village of Sleetmute, Alaska, lots 2, 3, 4 and 6 to 12, inclusive. (Containing 10.17 acres.)

Seward Meridian, Alaska (Surveyed)

T. 18 N., R. 42 W.
Secs. 4, 5 and 6.
Containing approximately 1,865 acres.

T. 19 N., R. 42 W.
Secs. 14 to 18, inclusive;
Sec. 19, excluding Native allotment F–17916;
Sec. 20, excluding Native allotment F–18053 Parcel A;
Secs. 21, 22 and 23;
Sec. 24, excluding Native allotment F–17921 Parcel B;
Secs. 25 to 28, inclusive;
Sec. 29, excluding Native allotment F–17918 Parcel B;
Sec. 30;
Sec. 31, excluding Native allotment F–17921 Parcel A;

Containing appproximately 1,920 acres.
Aggregating approximately 85,648 acres.

Excluded from the above-described lands herein approved for conveyance are the submerged lands, up to the ordinary high water mark, beneath all water bodies determined by the Bureau of Land Management to be anvigable because they have been or could be used in connection with travel, trade and commerce. The following named water bodies, together with any unnamed water bodies, are identified on the attached navigability maps, the original of which will be found in easement case file F–14936–EE.

Kuskokwim River
Holitna River
Barge Slough
Johnny Slough
Inowak Creek

All other water bodies not depicted as navigable on the attached maps within the lands to be conveyed were reviewed. Based on existing evidence, they were determined to be nonnavigable.

The lands excluded in the above description are not being approved for conveyance at this time and have been excluded for one or more of the following reasons: Lands are no longer under Federal jurisdiction; lands are under applications pending further adjudication; lands are pending a determination under Sec. 3(e) of ANCSA; or lands were previously rejected by decision. Lands within U.S. Surveys which are excluded are described separately in this decision if they are available for conveyance. These exclusions *do not* constitute a rejection of the selection application, unless specifically so stated.

The convenyance issued for the surface estate of the lands described above shall contain the following reservations to the United States:

1. The subsurface estate therein, and all rights, privileges, immunities, and appurtenances, of whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1613(f); and

2. Pursuant to Sec. 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1616(b), the following public easements, referenced by easement identification number (EIN) on the easement maps

attached to this document, copies of which will be found in case file F–14936–EE, are reserved to the United States. All easements are subject to applicable Federal, State, or Municipal corporation regulation. The following is a listing of uses allowed for each type of easement. Any uses which are not specifically listed are prohibited.

25 Foot Trail—The uses allowed on a twenty-five (25) foot wide trail easement are: travel by foot, dogsled, animals, snowmobiles, two-and three-wheel vehicles, and small all-terrain vehicles (ATV's) (less than 3,000 lbs. Gross Vehicle Weight (GVW)).

50 Foot Trail—The uses allowed on a fifty (50) foot wide trail easement are: travel by foot, dogsled, animals, snowmobiles, two-and three-wheel vehicles, small and large all-terrain vehicles, track vehicles and four-wheel drive vehicles.

One Acre Site—The uses allowed on a one (1) Acre Site easement are: vehicle parking (e.g., aircraft, boats, ATV's, snowmobiles, cars, trucks), temporary camping, and loading or unloading. Temporary camping, loading, or unloading shall be limited to 24 hours.

a. (EIN 1 D9) A one (1) acre site easement upland of the ordinary high water mark located in Sec. 25, T. 19 N., R. 44 W., Seward Meridian, on the right bank of the Kuskokwim river near the north end of the airstrip. The uses allowed are those listed above for a one (1) acre site easement.

b. (EIN 5 C3) An easement fifty (50) feet in width for an existing access trail from Sleetmute in Sec. 25, T. 19 N., R. 44 W., Seward Meridian, northeasterly to public lands. The uses allowed are those listed above for a fifty (50) foot wide trail easement.

c. (EIN 14 C4) A one (1) acre site easement upland of the ordinary high water mark in Sec. 21, T. 19 N., R. 42 W., Seward Meridian, on the right bank of the Kuskokwim River. The uses allowed are those listed above for a one (1) acre site easement.

d. (EIN 14a C4) An easement twenty-five (25) feet in width for a proposed access trail from site EIN 14 C4, in Sec. 21, T. 19 N., R. 42 W., Seward Meridian, northerly to public lands. The uses allowed are those listed above for a twenty-five (25) foot wide trail easement.

e. (EIN 15 C4) A one (1) acre site easement upland of the ordinary high water mark in Sec. 11, T. 18 N., R. 43 W., Seward Meridian, on the left bank of the Kuskokwim River. The uses allowed are those listed above for a one (1) acre site easement.

f. (EIN 15a C4) An easement twenty-five (25) feet in width for a proposed access trail from site EIN 15 C4, in Sec. 11, T. 18 N., R. 43 W., Seward Meridian, southeasterly to public land. The uses allowed are those listed above for a twenty-five (25) foot wide trail easement.

g. (EIN 17 C4) A one (1) acre site easement upland of the ordinary high water mark in Sec. 3, T. 17 N., R. 43 W., Seward Meridian, on the left bank of the Holitna River. The uses allowed are those listed above for a one (1) acre site easement.

h. (EIN 17a C4) An easement twenty-five (25) feet in width for a proposed access trail from site EIN 17 C4, Sec. 3, T. 17 N., R. 43 W., Seward Meridian, westerly to public lands. The uses allowed are those listed above for a twenty-five (25) foot wide trail easement.

The grant of the above-described lands shall be subject to:

1. Issuance of a patent after approval and filing by the Bureau of Land Management of the official supplemental plat of survey confirming the boundary description and acreage of the lands hereinabove granted;

2. Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under Sec. 6(g) of the Alaska Statehood Act of July 7, 1958, 48 U.S.C. Ch. 2, Sec. 6(g)), contract, permit, right-of-way, or easement, and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him. Further, pursuant to Sec. 17(b)(2) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1616(b)(2) (ANCSA), any valid existing right recognized by ANCSA shall continue to have whatever right of access as is now provided for under existing law; and

3. Requirements of Sec. 14(c) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1613(c), that the grantee hereunder convey those portions, if any, of the lands hereinabove granted, as are prescribed in said section.

The Kuskokwim Corporation (for the village of Sleetmute) is entitled to conveyance of 92,160 acres of land selected pursuant to Sec . 12(a) of ANCSA. Together with the lands herein approved, the total acreage conveyed or approved for conveyance is approximately 85,487 acres. The remaining entitlement of approximately 6,673 acres will be conveyed at a later date.

Pursuant to Sec. 14(f) of ANCSA and Departmental regulation 43 CFR 2652.4, conveyance of the subsurface estate of the lands described above shall be issued to Calista Corporation when the surface estate is conveyed to The Kuskokwim Corporation (for the village of Sleetmute), and shall be subject to the same conditions as the surface conveyance, except for those provisions under Sec. 14(c) of ANCSA; also the right to explore, develop or remove mineral materials from the subsurface estate in lands within the boundaries of the Native village shall be subject to the consent of The Kuskokwim Corporation.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the **Federal Register** and once a week for four (4) consecutive weeks, in the Tundra Drums.

Any party claiming a property interest in lands affected by this decision, an agency of the Federal government, or regional corporation may appeal the decision to the Interior Board of Land Appeals, Office of Hearings and Appeals, in accordance with the attached regulations in Title 43 Code of Federal Regulations (CFR), Part 4, Subpart E, as revised. However, pursuant to Pub. L. 96–487, this decision constitutes the final administrative determination of the Bureau of Land Management concerning navigability of water bodies.

If an appeal is taken the notice of appeal must be filed in the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances (960), 701 C Street, Box 13, Anchorage, Alaska 99513. Do not send the appeal directly to the Interior Board of Land Appeals. The appeal and copies of pertinent case files will be sent to the Board from this office. A copy of the appeal must be served upon the regional Solicitor, 701 C Street, Box 34, Anchorage, Alaska 99501.

The time limits for filing an appeal are:

1. Parties receiving service of this decision shall have 30 days from receipt of this decision to file an appeal.

2. Unknown parties, parties unable to be located after reasonable efforts have been expanded to locate, and parties who failed or refused to sign the return receipt shall have until November 1, 1982 to file an appeal.

Any party known or unknown who is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such

appeals. Further information on the manner of and requirements for filing an appeal may be obtained from the Bureau of Land Management, 701 C Street, Box 13, Anchorage, Alaska 99513.

If an appeal is taken, the parties to be served with a copy of the notice of appeal are:

The Kuskokwim Corporation, 429 D Street, Suite 307, Anchorage, Alaska 99501

Calista Corporation, 516 Denali Street, Anchorage, Alaska 99501

State of Alaska, Department of Natural Resources, Division of Research and Development, Pouch 7-005, Anchorage, Alaska 99510

Ann Johnson,

Chief, Branch of ANCSA Adjudication.

[F-19154-2, F-19154-20, F-19154-21]

Alaska Native Claims Selection

On July 11, and November 14, 1974, NANA Regional Corporation, Inc., filed selection applications F-19154-2, F-19154-20, and F-19154-21 under the provisions of Sec. 12(c) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1611(c) (1976)) (ANCSA), for the surface and subsurface estates of certain lands in the vicinity of Kotzebue.

As to the lands described below, the applications submitted by NANA Regional Corporation, Inc., as amended, are properly filed and meet the requirements of the Alaska Native Claims Settlement Act and of the regulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface and subsurface estates of the following described lands selected pursuant to Sec. 12(c) of ANCSA, aggregating approximately 53,523 acres, are considered proper for acquisition by NANA Regional Corporation, Inc., and are hereby approved for conveyance pursuant to Sec. 14(e) of ANCSA.

Kateel River Meridian, Alaska

T. 17 N., R. 17 W (Partially Surveyed)
Secs. 1 to 5, inclusive;
Sec. 6, excluding Native allotments F-17673, F-17674 Parcel B, and F-17838;
Sec. 7, lots 1, 2, 3, and 4, NE¼, E½W½, SE¼, and the submerged land beneath the unnamed lake;
Secs. 8 to 17, inclusive;
Sec. 18, lots 1, 2, 3, and 4, NE¼, E½W½, SE¼, and the submerged land beneath the unnamed lake;
Sec. 19, lots 1, 2, 3, and 4, NE¼, E½W½, SE¼, and the submerged land beneath the unnamed lake;
Secs. 20 to 36, inclusive.
Containing approximately 22,876 acres.

T. 19 N., R. 17 W. (Unsurveyed)
Sec. 1, excluding Native allotment F-15998;
Sec. 2, excluding Native allotments F-15985 and F-15998;
Sec. 3, excluding Native allotments F-15982 and F-15985;
Sec. 4, excluding Native allotment F-15982;
Secs. 5 and 6;
Sec. 7, excluding Native allotment F-17593;
Secs. 8 to 16, inclusive;
Sec. 17, excluding Native allotment F-16341 Parcel A;
Sec. 18, excluding U.S. Survey No. 5295 (Native allotment F-18377 Parcel A) and Native allotment F-17588 Parcel B;
Sec. 19, excluding Native allotment F-17588 Parcel B;
Secs. 20 to 30, inclusive;
Sec. 31 (fractional);
Secs. 32 and 33;
Secs. 34 and 35, excluding Native allotment F-18589 Parcel B;
Sec. 36, excluding Native allotments F-13317 Parcel A and F-15971.
Containing approximately 19,705 acres.

T. 19 N., R. 19 W. (Unsurveyed)
Sec. 1, excluding Native allotments F-17596 and F-17602;
Sec. 2, excluding Native allotments F-17556 Parcel B;
Sec. 3, excluding Native allotment F-17583;
Secs. 4 to 11, inclusive;
Secs. 12 to 17 (fractional), inclusive;
Sec. 18 (fractional), excluding Native allotments F-16343 Parcel B and F-17577 Parcel B;
Sec. 19 (fractional), excluding Native allotments F-16456 and F-17577 Parcel B;
Secs. 20, 21, and 22 (fractional);
Secs. 24, 25, and 26 (fractional);
Secs. 28 and 29 (fractional);
Sec. 30 (fractional), excluding Native allotments F-13332 Parcel C, F-13452, F-13453, and F-16456;
Sec. 32 (fractional), excluding Native allotments F-12408, F-13097 Parcel A, F-13306, F-13307 Parcel A, F-13128, F-14656 Parcel A, F-17629 Parcel A, and F-17727;
Sec. 33 (fractional), excluding Native allotments F-12408, F-17438 Parcel B, F-17629 Parcel A, F-17727, F-18377 Parcel B, and F-18494 Parcel B;
Sec. 34 (fractional).
Containing approximately 10,942 acres.
Aggregating approximately 53,523 acres.

Excluded from the above-described lands herein conveyed are the submerged lands, up to the ordinary high water mark, beneath all water bodies determined by the Bureau of Land Management to be navigable because they have been or could be used in connection with travel, trade and commerce or are pending a tidal determination at time of survey. Those water bodies are identified on the navigability maps, the originals of which will be found in easement case files F-22361-2, F-22361-20, and F-22361-21.

All other water bodies not depicted as navigable on the attached maps within the lands to be conveyed were reviewed. Based on a available evidence, they were determined to be nonnavigable.

The lands excluded in the above description are not being approved for conveyance at this time and have been excluded because lands are under applications pending further adjudication. These exclusions *do not* constitute a rejection of the selection application, unless specifically so stated.

The coveyance issued for the surface and subsurface estates of the lands described above shall contain the following reservation to the United States:

Pursuant to Sec. 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1616(b)), the following public easements, referenced by easement identification number (EIN) on easement maps, copies of which will be found in easement case files F-22361-2, F-22361-20, and F-22361-21, are reserved to the United States. All easements are subject to applicable Federal, State, or Municipal corporation regulation. The following is a listing of uses allowed for each type of easement. Any uses which are not specifically listed are prohibited.
